COMMISSIONER MacCALLUM: Good afternoon.

Good afternoon. ALL COUNSEL:

MR. HODSON: Just a couple of housekeeping matters, Mr. Commissioner. Last week when I was examining Mr. Caldwell, I think it was last week, we saw a letter that he wrote to Mr. Williams while Mr. Caldwell was with Federal Justice in 1989 and it referred to a file number 89-S dash four numbers, and it became apparent that there might be a file that Mr. Caldwell had while he was with Federal Justice. I made a request of Mr. Frayer and we in turn have located a couple of folders of documents relating to the 1988 to 1991 time period while Mr. Caldwell was at Federal Justice. Those documents are being reviewed and at the end of the day today Mr. Frayer and I will be discussing the matters with Mr. Caldwell's counsel with the expectation that it may be tomorrow some of these documents, which are relevant, may be put to Mr. Caldwell and made available to the parties, so I thought I would just bring that to your attention.

Secondly, the order of cross,

the order of examination today I think is as follows, that Mr. Gibson on behalf of the RCMP will be first, followed by Mr. Boychuk on behalf of Mr. Karst, Mr. Elson on behalf of the Saskatoon City Police and then Mr. Wilson on behalf of Serge Kujawa and then Lana Krogan on behalf of the Government of Saskatchewan and then Ms. Knox on behalf of Mr. Caldwell.

With that, I think Mr. Gibson

- Q Mr. Caldwell, you and I of course had the opportunity to work together in 1990?
- A That's right, sir.
- And if I recall correctly, for the first few

  months that I was there you were under the

  impression I was the photocopier repair person; is

  that not correct?
  - A That was exactly my estimate, sir. I think it's a little late to alter it now.
  - We were able to straighten that out eventually. I have a few questions for you relating to some RCMP documentation that was put to you by Mr. Hodson, and I don't think it's necessary to put all of the

Meyer CompuCourt Reporting =

1		documents up, but for the record, it was 065399
2		was a March 20th, 1969 report by Mr. Riddell,
3		Inspector Riddell, also a document 052961, a May
4		21st, 1969 report by Inspector Riddell, and then a
5		document that maybe we could put up, 250597, which
6		is a May 7th, '69 report of Mr. Rasmussen, and
7		those were three documents that were generated
8		back in 1969 by the RCMP.
9	A	All right, sir.
10	Q	And if I recall your evidence correctly, you said
11		that you never became aware of those documents
12		until the Inquiry?
13	А	That is right, Mr. Gibson.
14	Q	Okay. And if we could just go, on the document
15		that's up, to go to page 603, just to the bottom
16		of page 603 there, if we could call that portion
17		up, please?
18		COMMISSIONER MacCALLUM: What's the date of
19		this, Mr. Gibson? I was too slow.
20		MR. GIBSON: That's all right. It's May
21		7th of 1969, a document by Corporal Rasmussen.
22		COMMISSIONER MacCALLUM: Okay.
23	В	Y MR. GIBSON:
24	Q	And in that report it says, this is an RCMP
25		report:

"It is mentioned that during the late

fall of 1968 the local police department

--"

And that would be referencing the Saskatoon

police,

"-- had reports of two rapes and one attempted rape. These investigations were conducted by the City Police with negative results. Persons involved were as follows:"

Next page please, and just the top paragraphs, they reference Miss (V1)--- (V1)-, Miss (V2) (V2)- (V2)----, (V3)-- (V3)----, and then the paragraph along the side there that I've highlighted, in says:

"In these three instances the M.O. was similar to that the male approached his victim from the rear, covered their mouth with his hand and pointed a knife into their back, forcing them down the lane. The descriptions of the assailant given by all three were very similar and it appeared that the same person was involved. The assailant would force his victim to undress at knife point and

1		always managed to stay in the shadows or
2		behind them in order that his identity
3		would not be detected. He would then
4		have the victim lie on her coat at which
5		time intercourse would take place. In
6		the (V3) case, the assailant was
7		scared away as a result of lights of a
8		vehicle approaching down the lane."
9		Now, obviously there's a good deal of detail in
10		this report, Mr. Caldwell, you'll agree,
11		referencing those particular files dealing with
12		(V1)-, (V2) and (V3)?
13	A	That's right, sir.
14	Q	And you would agree with me that any
15		investigations that would be carried out in
16		relation to those files would be carried out by
17		the Saskatoon Police Service?
18	A	Well, in the sense, Mr. Gibson, they were all
19		Saskatoon, City of Saskatoon offences, it would be
20		the city police responsibility. Here it appears
21		that the RCMP attempted to be helpful, if you
22		will, but it would certainly be a city police
23		responsibility. They would be turning to the RCMP
24		to assist as I think we've seen earlier.
25	Q	Right. And the evidence to date so far has been
		<b>1</b>

1		that the RCMP assisted on the Miller murder
2		investigation?
3	A	Uh-huh.
4	Q	That there may have been some review of some
5		earlier instances, but the actual initial
6		complaint and investigation relating to those
7		files that I've referenced under the jurisdiction
8		of police within the province would rest with the
9		Saskatoon police?
10	A	Yes, they certainly would, sir.
11	Q	Okay. And obviously those reports there
12		referenced a possible connection later on to the
13		Miller file, if we go to the next paragraph, at
14		paragraph 20, there is drawn a possible connection
15		to the Miller murder that they may be tied in, and
16		again I don't want to belabour this point, I think
17		we've gone through that a lot.
18	A	Yeah, that's correct, Mr. Gibson, as I read this.
19	Q	And I believe your evidence was that you never had
20		a copy of this document on your file?
21	A	I did not see it, sir, much to my, I guess, shock
22		until into this hearing when it came up on all the
23		screens and I drew it to the attention of my
24		counsel, so clearly I was amazed at that, but I
25		did not have a copy, period.
	1	

1	Q	And the information that you were getting in order
2		to prosecute the case against Mr. Milgaard was all
3		channeled through the Saskatoon Police Service;
4		was it not?
5	A	That's right, sir.
6	Q	And you were not looking to the RCMP to gain any
7		documents or again, anything that would be
8		channeled your way would be channeled through the
9		Saskatoon Police Service?
10	A	That would have been my expectation, Mr. Gibson.
11		I didn't try to go outside that framework, if you
12		will.
13	Q	Okay. So, for example, if the Saskatoon Police
14		Service requested that the RCMP lab undertake
15		certain tests, the response to those tests
16		wouldn't come directly back to you, but to the
17		police service and then over to you?
18	A	That's the way it actually happened, Mr. Gibson,
19		it should have been, and that's how it did happen.
20	Q	And again, your evidence a number of times has
21		been that you never received the entire Saskatoon
22		Police Service file?
23	A	No, quite so, sir.
24	Q	Okay. And were you here when former Chief Penkala
25		testified?

1	A	Yes, I was, sir.
2	Q	Okay. And do you recall him indicating that he
3		reviewed this particular document, 250597, and
4		that he felt that the Saskatoon Police Service
5		were aware of all of the circumstances that were
6		raised in this RCMP document?
7	A	I don't doubt, sir, that that's what he said and I
8		was here and heard his evidence.
9	Q	Okay. But again, the connection, if I can put it
10		that way, was not drawn in a Saskatoon Police
11		Service report and that connection was then not
12		forwarded onto you; is that fair to say?
13	А	That's how I understand it, Mr. Gibson.
14	Q	Okay. And if I could, just for the record, Mr.
15		Commissioner, the evidence of Chief Penkala's that
16		I was referring to is at pages 9394 and 9395 of
17		the transcript.
18		COMMISSIONER MacCALLUM: Okay.
19		BY MR. GIBSON:
20	Q	And again those three documents that I referenced
21		that were drafted by the RCMP in 1969, and it's
22		not necessary to put them up, but you'll recall
23		that your attention was drawn to the front page of
24		those documents where there was a stamp
25		designating that it had been forwarded to the

		Page 18403 —————
1		Attorney General's office?
2	A	In Regina.
3	Q	In Regina?
4	А	Yeah, that caught my eye for sure.
5	Q	And again, your evidence was that that report from
6		within your department was never forwarded on to
7		you?
8	А	Absolutely not.
9	Q	Okay, thank you very much.
10	А	Mr. Gibson
11	Q	Yes.
12	А	just one thing. Do you have the, readily
13		available the dates when the chief testified at
14		the, at this, because as I stop and think a
15		minute, I may indeed have been away. Is that in
16		front of you, sir?
17	Q	I'm sorry that it is not.
18	А	I think I was away for the, essentially the month
19		of May. I think the Commission was shut down for
20		part if not all of that, so I may in fact not have
21		heard all of his evidence, but I have no doubt
22		that what you are saying is, you know, is correct,
23		sir.
24	Q	Okay. Thank you.
25	A	Thanks very much, sir.
	Ĭ	

1		COMMISSIONER MacCALLUM: Mr. Boychuk?
	_	
2		BY MR. BOYCHUK:
3	Q	Thank you, Mr. Commissioner. Good afternoon, Mr.
4		Caldwell.
5	A	Afternoon, sir.
6	Q	We know each other of course, but for the record,
7		my name is Chris Boychuk and I represent Eddie
8		Karst.
9	A	Thank you.
10	Q	Just by way of review, Mr. Caldwell, in 1969-'70,
11		you had had over 10 years' experience as a
12		prosecutor at that time?
13	A	Yes.
14	Q	I think 1958 you started; is that right?
15	A	That's right, sir.
16	Q	And during that period of time you would have run
17		numerous trials and preliminary inquiries?
18	A	That's correct, sir.
19	Q	And in preparation for running those trials and
20		those preliminary inquiries would have conducted a
21		large number of witness interviews?
22	A	That's right, sir.
23	Q	Including interviews with young people, say, in
24		their mid to late teens; is that right?
25	A	I would have.

		rage 10400
1	Q	So you would have experience with those types of
2		people, whether they were sometimes possibly the
3		accused or witnesses giving evidence against an
4		accused at a trial?
5	А	That's right, sir.
6	Q	And I also heard you tell Mr. Wolch that you
7		viewed your role as independent of the police
8		services; is that correct?
9	А	Yeah, that's that I would see it that way.
10	Q	Right. And in terms of preparing for those
11		witness interviews, you would review in detail any
12		statements that those witnesses had given?
13	А	That's for certain.
14	Q	And part of the purpose of conducting a witness
15		interview as a prosecutor would be to do your own
16		individual assessment of the witness?
17	А	That is part of it, sir, and to know what their
18		view was at the time they gave the statement and
19		go on from there, if you will.
20	Q	Correct. To look at what evidence they can
21		actually give at trial?
22	Α	Yes, sir.
23	Q	And to do your own assessment as to their
24		credibility and truthfulness and reliability as
25		witnesses?
		<b></b>

1	Α	Yeah. I think, Mr. Boychuk, that was an essential
2		thing to do.
3	Q	For you to do, and you would make your own
4		assessment, you wouldn't rely on the assessment
5		of, say, the officer who took the statement to
6	A	No, that would be something I would want to be
7		satisfied when it got to me that it either was the
8		way it looked or if different I should act based
9		on the, if you will, different version or
10		whatever.
11	Q	Okay, thank you for that. And with respect to
12		I'm interested, and I know Mr. Hodson questioned
13		you on your impression of certain of the
14		witnesses, and the ones I'm particularly
15		interested in are of course Albert Cadrain, Ron
16		Wilson and Nichol John, and one of the questions I
17		wanted to ask you is and I understand you met
18		with these individuals both before the prelim and
19		the trial; is that right?
20	A	That's right, sir.
21	Q	And at any course at any time during the course
22		of those interviews did either of those three
23		individuals make any complaint to you regarding
24		any mistreatment by, say, Detective Karst or any
25		other member of the Saskatoon Police Service?

		——————————————————————————————————————
1	А	You are referring to Cadrain, John and also
2	Q	Wilson.
3	А	Wilson are you, sir?
4	Q	Yes.
5	А	No, I did not receive any complaints from any of
6		them to that effect.
7	Q	Did they ever give you an indication that any of
8		their evidence was either in any way coerced or
9		planted by Mr. Karst or any member of the police
10		service?
11	А	No, sir, I didn't get that complaint, and I
12		certainly didn't get that impression based on my
13		own instincts, if you will.
14	Q	So either they didn't directly make any kinds of
15		assertions of those sort and you didn't form any
16		impression
17	А	No.
18	Q	just from observing them?
19	А	No, that's right, sir. That's how I would sum it
20		up, just as you have, sir.
21	Q	And I know we heard from you in your examination
22		with Mr. Hodson that often these interviews would
23		take place in the presence of police officers?
24	А	Yeah, that was happened. I would say with any
25		witness for whom there was any sort of degree of
		<b>1</b>

1		question of will he show up, what shape will he
2		be, but it would also happen, sir, with what I
3		would call conventional witnesses, young and old,
4		who I had essentially no reason to worry about, it
5		was always handy to have an officer there for all
6		kinds of reasons.
7	Q	Okay. And did you, in observing Mr. Cadrain,
8		Mr. Wilson, for example, did you form any
9		impression that they felt intimidated at all by
10		the presence of a police officer?
11	A	No, I didn't. Mr. Cadrain at that point I felt
12		was a person who wasn't in any way rattled or
13		shaken by the fact that there was some police
14		officer involved, and of course he had been
15		interviewed quite extensively, once or more times.
16		Mr. Wilson was, who had had some legal
17		involvements, and I guess it's fair to say some of
18		his evidence as we saw here changed from time to
19		time, but he didn't give me any impression that it
20		was caused by police officers, and he particularly
21		related well with the Regina investigator on the
22		case who we had as a witness here.
23	Q	And in particular Mr. Wilson, any complaints
24		regarding Detective Karst?
25	A	Absolutely not, sir.
	İ	

1	Q	Okay. And can you tell us if you would have
2		formed an impression or made an allegation that in
3		any way any of their evidence was either tainted
4		by coercion or intimidation, what you would have
5		done in those circumstances?
6	A	I would think I would have had to pursue it, Mr.
7		Boychuk, and make a note of what they said, turn
8		to some person likely in the Saskatoon police
9		force, but possibly best not one of the
10		investigators simply to keep the matter in
11		different channels, if you will, would have been
12		how I would have reacted to that had it happened,
13		sir.
14	Q	Okay. Thank you, Mr. Caldwell, those are my
15		questions.
16	A	Okay, thank you, sir.
17		MR. BOYCHUK: Thank you, Mr. Commissioner.
18	ву	MR. ELSON:
19	Q	Mr. Caldwell, you know me, I'm Richard Elson, and
20		I represent Saskatoon Police Chief Russel Sabo and
21		the Saskatoon Police Service.
22	A	Thank you, sir.
23	Q	I wanted to ask you first of all, to some
24		extent some of my questions are going to tread on
25		ground that's already been covered by

1 Mr. Boychuk --2 Α Very good. -- but I wanted to ask you, first of all, about 3 the letter you received from Deputy Chief Forbes 4 5 in 1969, which is document 007061, and specifically I wanted to go to the third page 6 which has already been flagged on the screen. This, you'll recall, was the letter you received 8 9 from Deputy Chief Forbes basically advising you of 10 the charge, and in the last paragraph of the letter there is what would be perceived as a 11 12 request: 13 "May we ...", 14 receive: 15 "... your services, please, in 16 conducting this prosecution." 17 Now I believe that, when you were answering 18 questions of Mr. Hodson in reference to this 19 letter, you indicated that this letter was really 20 unnecessary; is that -- do you recall having 21 answered Mr. Hodson's question to that effect? 22 Mr. Elson, is this what one would call the 23 covering letter, it has a couple of previous 24 pages? 25 If we could perhaps scroll back Q That is correct.

		——————————————————————————————————————
1		to the previous, to the first page,
2	А	Okay.
3	Q	this is the letter dated July 8th of 1969
4	A	Okay, sir.
5	Q	in which you were advised formally of the
6		charge.
7	A	Yeah.
8	Q	And again, to go back to the last paragraph of the
9		third paragraph of the letter, where there is the
10		reference to:
11		"May we have your services, please, in
12		conducting this prosecution.",
13		do you recall answering Commission Counsel's
14		question about this letter with the answer that
15		this letter really was, to use your words, 'not
16		necessary'?
17	А	Well the I would think, sir, that that last
18		one-sentence paragraph was not necessary in the
19		sense that it's a standard covering letter, longer
20		than usual because of the case, the I guess one
21		could say they are gonna get my services, it's a
22		nice thing to use that terminology but I'm sure,
23		Mr. Elson, that from time day-to-day I
24		essentially never wrote or phoned back and said
25		"yes, you may have my services", because it either

1		went to me or one of my colleagues. So that was
2		just, to me, a nice closing if you will.
3	Q	Quite frankly this, your instruction to prosecute
4		David Milgaard, would come from your superiors in
5		Regina in the department, or in the Attorney
6		General's office as it was then known at that
7		time; is that correct?
8	А	Yeah. We would have, I'm sure, briefly discussed
9		how who is going to prosecute the case and, in
10		reasonably short order, I'm sure it was decided to
11		be me.
12	Q	So, notwithstanding the last sentence in that
13		letter, you would agree with me that it was
14		understood by you, by the people in the Attorney
15		General's office in Saskatchewan at that time, and
16		also generally speaking by the police, that your
17		role as the prosecutor of an accused person was
18		not done at the behest of the police, it was done
19		at the behest of the Crown?
20	А	That's my understanding exactly, Mr. Elson.
21	Q	And in determining how you would act and what you
22		would do you would agree with me that your
23		discretion was pretty much independent, you were
24		not taking instructions from the 'police service',
25		as it was known at that time?
	ii	·

A Q	No I, I was not, sir.  And in that respect Mr. Lockyer, when he was cross-examining you, made a reference to the rules of disclosure as being set out in the <i>Boucher</i>
Q	cross-examining you, made a reference to the rules
	of disclosure as being set out in the Boucher
	decision, the decision of Mr. Justice Rand, and I
	take it you are aware of Mr. Justice Rand, in that
	decision, setting out basically the role of a
	Crown prosecutor
А	Yeah.
Q	in 1955; do you are you familiar with that
	case?
А	Mr. Elson, I can't say I am in a broad sense, but
	was it a 1955 or earlier case, sir?
Q	That's correct.
	Mr. Commissioner, I asked
	counsel or Commission's staff to include in
	CaseVault the decision of the Supreme Court of
	Canada in the Queen vs Stinchcombe, and in that
	particular and that has now been included as
	document number 332085. If I could ask that that
	document be brought forward, and specifically to
	page 090, and paragraph 11.
	Mr. Caldwell, in paragraph 11
	Mr. Justice Sopinka, in the Stinchcombe decision,
	refers to the role of Crown counsel, and

specifically to the duty of Crown counsel, and in doing so makes reference to the comments of Mr.

Justice Rand, to which I believe Mr. Lockyer was referring when he referred to the *Boucher*decision. And the quotation that Mr. Justice

Sopinka draws from Justice Rand's decision is as follows:

"It cannot be over-emphasized that the purpose of a criminal prosecution is not to obtain a conviction, it is to lay before a jury what the Crown considers to be credible evidence relevant to what is alleged to be a crime. Counsel have a duty to see that all available legal proof of the facts is presented; it should be done firmly and pressed to its legitimate strength but it must also be done fairly. The role of prosecutor excludes any notion of winning or losing; his function is a matter of public duty than which in civil life there can be none charged with greater personal responsibility. It is to be efficiently performed with an ingrained sense of the dignity, the seriousness

1		and the justness of judicial
2		proceedings."
3		It's my understanding, Mr. Caldwell you can
4		correct me if I'm wrong that most prosecutors,
5		when they began their practice, if they began
6		their practice at any time after Justice Rand
7		made that comment, that most prosecutors were
8		generally aware of that admonition in the Boucher
9		decision?
10	A	I would think so, Mr. Elson. It was timely, if
11		you will, in the sense of 1955, it was an
12		authoritative decision, and it was certainly
13		understandable and as I see it here, and I
14		believe we got into it slightly the other day but
15		I'm happy to pursue it if you would like to, sir.
16	Q	No, that's fine.
17	A	Yeah.
18	Q	But would you agree with me that you were
19		generally aware of this comment and this
20		admonition to Crown counsel at the time David
21		Milgaard was prosecuted in 1969 and 1970?
22	A	Yeah, I would be, Mr. Elson.
23	Q	So in that respect you also, and following along
24		the same lines of having an independent discretion
25		and not being the counsel for the police, you had
		Meyer CompuCourt Reporting ————————————————————————————————————

1		indicated, in answering Mr. Hodson's questions,
2		that sometimes there would be a difference between
3		the police theory of a case and the Crown theory
4		of a case;
5	A	Uh-huh.
6	Q	do you recall giving that evidence to
7		Commission Counsel?
8	A	Yeah, I am I did, and I'm sure that's the case
9		from time to time with various cases, sir.
10	Q	And it would not be uncommon, during the period of
11		time that you were working in the Attorney
12		General's office, for you to be presented, in a
13		given prosecution, with what would be described as
14		a police theory, and you would review the
15		circumstances of the case and believe that "no,
16		that police theory is not the one to be followed",
17		and would establish your own theory?
18	А	Yeah, or suggest other avenues that looked more
19		promising toward a, if you will, a just solution
20		to the cases. That happened from time to time,
21		sir.
22	Q	Now Mr. Lockyer, when he cross-examined you,
23		suggested to you that the standard of disclosure
24		as it existed in 1969 was the Boucher standard of
25		disclosure, and the <i>Boucher</i> decision will speak
		4

1		for itself, but it's my understanding that really
2		the Boucher decision didn't say much, if anything,
3		about disclosure, and that the law with respect to
4		what a Crown prosecutor was obliged to disclose in
5		1969 and in 1970 was very unsettled?
6	А	I think that that's right, Mr. Elson, and at the
7		risk of being facetious I still have not been able
8		to uncover the term "disclosure" at that time for
9		what we were, you know, quite, I would think quite
10		carefully and thoroughly doing at that time, and I
11		hope this case would be an example of that, sir.
12	Q	Now in your evidence, throughout the questions
13		that have been asked of you by various counsel,
14		you have made reference to the Crown policy of
15		disclosure as it existed
16	A	Uh-huh.
17	Q	at that time. Do you know whether or not you
18		would have had occasion to discuss how that policy
19		was implemented with police officers such as Elmer
20		Ullrich?
21	А	I don't ever recall discussing what lay behind the
22		policy and how it got the way it was on at a
23		given time. I would think Mr. Ullrich, as a very,
24		very painstaking and thorough-going person, seemed
25		to cover things almost to a fault, and very seldom $lack \P$

1		one would have to go back and say "what about X,
2		Y, or Z", which is one of the reasons why his
3		appointment was such a boon to the department, the
4		police department, and of course to our office.
5	Q	This was not, 1969, the Milgaard case was not the
6		first occasion that you had to work with Elmer
7		Ullrich; is that correct?
8	A	No. That position was formed in 1965, he was the
9		original person in it, there was usually a junior
10		constable assisting him. So it had been in effect
11		in a plus or minus four years at that time on,
12		certainly, major cases, my memory would be most of
13		the cases that came our way, Mr. Elson.
14	Q	Right. So in that sense, during that 4,
15		4 1/2-year period of time between 1965 and
16		January of 1970,
17	А	Yeah.
18	Q	when the Milgaard trial took place, it would be
19		fair to say that Elmer Ullrich was with you in the
20		prosecution of some notable cases?
21	А	He was. This was an exceptional case in that he
22		physically sat in Court and took notes because it
23		was so, if you will, long, complicated, and
24		difficult, but he we would see him, he would
25		deliver these covering letters and files on a

1		daily or every two-or-three-day-basis, come to our
2		office, so we we had a good deal of contact
3		with him back and forth, and I'm sure, through
4		that, he was, you know, very familiar with what we
5		would be looking for. We, of course, felt free to
6		ask for more things, and he as well.
7	Q	In the sense and in that context not only would
8		he be familiar with what you were looking for,
9		would you agree with me that Mr. Ullrich, prior to
10		1969, would also be generally familiar with the
11		disclosure policy, perhaps not having discussed it
12		with you, but having seen it operate?
13	A	Yeah, that would be my feeling, sir, exactly.
14	Q	So he would have known, if you would have had
15		communication with him during preliminary
16		inquiries, for example, communication with him
17		during the conduct of a trial, he would, through
18		that communication, be aware of the type of
19		material that would have been disclosed to defence
20		counsel in those other cases?
21	A	He would, and this of course would assist him and
22		his office with ongoing cases, where he'd have a
23		much better idea of what was required or wanted by
24		our office and, for that matter, the courts.
25	Q	Now so this policy that was being implemented, of $lack$

1		providing statements, other physical evidence,
2		laboratory reports but not police reports; you
3		would be surprised if Mr. Ullrich was not
4		generally aware of how that policy worked in 1969
5		and 1970?
6	A	I would suppose he was, Mr. Elson, possibly not in
7		written to the letter of the law, but in a
8		practical working way, I'm sure he would be.
9	Q	Now I had put to you the comment that the law was
10		generally unsettled until the Stinchcombe
11		decision. If I could again refer to the
12		Stinchcombe decision, document 332085, and
13		specifically zero in on the comment made by
14		Justice Sopinka at paragraph 9. Now the
15		Stinchcombe decision, as I recall, would have come
16		down right around the time you were leaving the
17		Department of Justice; is that correct?
18	А	Umm, the
19	Q	I believe it's a 1991 decision of the Supreme
20		Court of Canada.
21	А	Yeah. The federal department, sir, I left in '91,
22		and I that is the date of the judgement, as I
23		see.
24	Q	In that comment Justice Sopinka says:
25		"The circumstances which give rise to
		•

1 this case are testimony to the fact that the law with respect to the duty of the 2 Crown to disclose is not settled. 3 number of cases have addressed some 4 5 aspects of the subject: see, for 6 example ...", and Justice Sopinka refers to some decisions. Uh-huh. 8 9 I note that one of the decisions that is referred 10 to is the Bourget decision of the Saskatchewan Court of Appeal decision which, notably, is a 11 12 decision of Mr. Justice Tallis. 13 Justice Sopinka goes on to say, 14 after referring to those cases, and I quote: 15 "No case in this court has made a 16 comprehensive examination of the 17 The Law Reform Commission of subject. 18 Canada, in a 1974 working paper titled 19 Criminal Procedure: Discovery (the "1974 20 working paper"), and a 1984 report 21 titled Disclosure By the Prosecution 22 (the "1984 report"), recommended 23 comprehensive schemes regulating 24 disclosure by the Crown but no 25 legislative action has been taken

1		implementing the proposals. Apart from
2		the limited legislative response
3		contained in s. 603 of the Criminal Code
4		enacted in the 1953-54 overhaul of
5		the Criminal Code (which itself
6		condensed pre-existing provisions),
7		legislators have been content to leave
8		the development of the law in this area
9		to the courts."
10		If you go back to the period of time when you
11		were working as prosecutor both with the
12		Provincial Attorney General's office and the
13		Federal Department of Justice would you agree
14		that Justice Sopinka's description of the law, as
15		in that paragraph I just put to you, is indeed a
16		correct description?
17	A	The it was, Mr. Elson. As I see it, it was the
18		description, as I see it, sir.
19	Q	Now Mr. Justice Rand, in his admonition, makes
20		reference to the fact that it is the role of the
21		prosecutor to present credible evidence.
22	A	Uh-huh.
23	Q	Would you agree with me and to some extent
24		you've already touched upon this in answering
25		

Mr. Boychuk's questions -- would you agree with me

1		that the assessment as to whether or not a
2		witness, a Crown witness was credible and should
3		be put on the stand, was your call and your call
4		alone as prosecutor, and that although you might
5		receive advice from the police officer, you
6		certainly were not taking instructions from the
7		police officers?
8	А	That would be an accurate way of putting it. A
9		person should be credible, I is presumably
10		advanced by the police to the prosecutor as
11		credible, at that point I think there is a whole
12		separate stage where the prosecutor must look at
13		it and say "is this person credible". He may very
14		well make that decision on a sound and ethical
15		basis and occasionally, of course, despite all of
16		the above, the witness turns out to be not
17		credible, but that's, if you will, another story,
18		sir, but I of course that does happen.
19	Q	And that would indeed have occurred in the course
20		of your career prior to the Milgaard prosecution?
21	A	Absolutely, sir.
22	Q	Now in assessing I believe Mr. Lockyer and I
23		keep seeming to refer to his cross-examination
24		Mr. Lockyer, I believe, might have used the
25		description of you as a "gatekeeper"; do you

1		recall that description being presented of your
2		role as a Crown prosecutor?
3	А	Yes, sir.
4	Q	And you would agree with me, then, that one of
5		your roles as a gatekeeper, consistent with the
6		propositions Mr. Lockyer was putting to you, is
7		that you would make those credibility assessments
8		of Crown witnesses; correct?
9	A	Yup. It wasn't a term I had heard much of before
10		this hearing, sir, but that would be one of the
11		things that would legitimately spring out of you
12		viewing yourself as a gatekeeper, would be to sort
13		out those very things as they are in effect as
14		they arrived at your office, I would say.
15	Q	In that sense, Mr. Lockyer's description and use
16		of the word "gatekeeper" was not inappropriate?
17	A	No, that's correct, sir.
18	Q	Could you comment on what your role as gatekeeper
19		would be in assessing whether or not a Crown
20		witness had been promised any favours by the
21		police, or had been intimidated or bullied by the
22		police
23	А	Uh-huh.
24	Q	into giving a statement; what would your role
25		be with respect to the assessment of a witness in
		•

1 terms of making that assessment, that call, that decision? 2 3 Well with the hypothetical witness I suppose there 4 would be no presumption that a given witness had 5 been promised favours, if you will, with respect to his evidence, and as you, you interviewed that 6 witness and went on, I think you'd ordinarily be reassured as to what he had said. If it cropped 9 up, during that, that there were suspicions along 10 the lines you've mentioned I would follow that up 11 with the witness and then, I think, with a sound, 12 good, sound, investigator if one were available 13 with respect to that case, and see what he thought 14 of it, and then I would have to make a call, one 15 way or the other, that we either proceed with this 16 fellow because he looks all right, to put it very 17 awkwardly, or if there did seem something wrong 18 there I could of course, I could of course not 19 call him as a witness. 20 And if I could sort of summarize it -- and if I'm 21 not summarizing correctly please tell me -- you would make an assessment, if it came to your 22 23 attention that a witness had been promised a 24 favour for giving a statement that supported the

Crown's case and as a consequence of that you had

doubts, perhaps, about this witness' real 1 2 credibility, --3 Uh-huh. Α 4 -- or if you perceived that a witness had been 0 5 bullied in order to give a statement that supported the Crown's case and as a result you 6 suspected the witness' credibility, you would not 8 think twice in rethinking whether or not that 9 witness should testify? 10 Α Certainly not on the rethinking. And I, Mr. Elson, I did lose track of the bullied aspect, 11 12 which I think would be something that would be 13 relatively easy to detect and would really, you 14 know, get your attention and cause me at any rate 15 to immediately look into whether this seemed 16 legitimate, go to a good, senior, serious 17 investigator and pursue it that way, or to 18 parents, or to other witnesses. And of course, if 19 I thought that were the case, I could simply not 20 call the witness. 21 Q Let's go the next step. Would you not 22 agree that it is your duty, as Crown prosecutor, 23 to assess a possible Crown witness to determine 24 whether or not they have been provided or promised 25 favours to give a given statement --

		Page 18427
1	A	Yeah.
2	Q	or bullied into giving a statement; isn't that
3		one of your responsibilities to make that
4		assessment?
5	A	I expect so, Mr. Elson. In truth I would not,
6		with a conventional witness I I don't think I'd
7		lead off with the "did someone promise you
8		favours", and when we get by that, "did someone
9		bully you". I certainly, for one, didn't do that
10		as an opening statement. If there's any reason to
11		think that I would have pursued either branch of
12		that, of course.
13	Q	Right.
14	A	And even a reason, let's say from another witness
15		who suggested to me "this is what's going on", or
16		for that matter from defence counsel or the
17		accused, any, you know, legitimate suggestion to
18		that effect, then I would feel obliged to pursue
19		it whatever the outcome was.
20	Q	And that was the next question I was going to put
21		to you, is that you wouldn't put that question
22		deliberately, it would rather be dealt with
23		subtly,
24	А	Yeah.
25	Q	and you would making an assessment of the
		1

	witness as you are questioning that witness?
A	Yeah. I would not start a witness interview with
	"(a) have you been promised favours, (b) have you
	been bullied", never did that, but any sign that
	we have been talking about, sir, would certainly
	trigger me into following it up in any of that
	range of ways, sir.
Q	Is that particularly a concern when you are
	dealing with young witnesses, say for example
	witnesses of the age of Ron Wilson and Nichol John
	who may be impressionable, somewhat pliable; are
	there any greater concerns that you, as a Crown
	prosecutor, have in presenting important
	witnesses or important, important evidence from
	witnesses of that age?
А	Well the, these would be older witnesses we're
	talking about, but the routine that has to be gone
	through with very young witnesses, in the way they
	are and aren't sworn, I have seen judges do that
	hundreds of times. Interestingly enough, in
	almost all those instances, the judge decided the
	witness was suitable to either be sworn or go
	ahead and give his evidence anyway.
	Now with younger witnesses I
	Now with younger withesses i
	Q

1 such as impressionability or lack of maturity, I 2 would likely be more cautious, and certainly there 3 is a good share of so-called mature witnesses who 4 set out to fool you as well. 5 Q In the case, and I believe you've already touched upon this with Mr. Boychuk, but in the case of Mr. 6 Wilson and Ms. John you did not, in interviewing 8 them and in interacting with those two witnesses, 9 you did not come to the conclusion that (a) they'd 10 been promised any favours to give their statements 11 in May of 1969, and you also had concluded (b) 12 that they had not been bullied into giving their 13 statements in May of 1969; is that correct? 14 That's correct, Mr. Elson, they -- each one of Α 15 them presented, I would say, their own set of 16 difficulties to any prosecutor, but as I went 17 through that, I think we've heard that I 18 interviewed Ms. John on three occasions, and I 19 never came out of it with either of those 20 conclusions about those two. I was, I felt, 21 content to call them as witnesses with what I knew 22 of their evidence and then, of course, see what, 23 what transpired in the actual case as well, sir. 24 And having said that, at the time that you 25 interviewed Nichol John on any one of those three

1 occasions in the course of the prelim, preparing 2 for the preliminary inquiry and then of course 3 preparing for the trial, I take it that you were 4 aware that Nichol John had spent a period of time 5 in May of 1969 in cells --Yeah. Α 6 -- at the Saskatoon Police Department; is that Q 8 correct? 9 I was, sir, and I -- I don't know if I'm allowed Α to suggest the circumstances of that which became 10 11 known to me. These were young people from Regina, 12 certainly her and -- Nichol John and Wilson. 13 recall that incident she, in effect, wanted to be 14 in, if you will -- pardon me -- broadly called a 15 She was in the female cells and by safe setting. 16 her own request ended up in what I believe was a 17 matron's office, if I recall the evidence, but the 18 genesis of all that was her desire to be in what 19 one might call a controlled or more or less safe 20 setting. 21 Knowing that she was in the cells in the Saskatoon Q 22 Police Service at that time, around the time of 23 the statement, shortly before the statement that 24 she gave to Inspector Roberts, --25 Α Yeah.

1	Q	were you satisfied that that was not done to
2		intimidate her or to bully her; had you come to an
3		assessment as to
4	A	Yes, sir, I'm sure it wasn't. And it was one or
5		more of the senior investigators I think she'd
6		been dealing with and had conveyed that, it might
7		have been Lieutenant Short, it may have been Karst
8		or Ray Mackie. But that was her idea, as I
9		recall, and it was carried out to, in effect,
10		reassure her, even though she ended up in the
11		cells for I think one or, if not, two evenings,
12		and I'm sure I knew that, sir, at the time.
13	Q	Now you also testified, in answering Mr. Hodson's
14		questions and the questions of others, that you
15		would typically have a police officer present with
16		you when you interviewed Crown witnesses, and you
17		indicated your reasons for that. If you had the
18		sense that the presence of a police officer was
19		intimidating to that witness, and that as a result
20		of the presence of that police officer you might
21		not be getting the true information, what steps,
22		if any, would you take to deal with that?
23	A	I unless the witness was someone who, you know,
24		showed the potential for blowing up in some
25		fashion, physical or otherwise, I would I'd

1		have no difficulty with asking the police officer
2		to wait down the hall or in my office, or "look me
3		up in an hour" or something like that, because in
4		truth you could not have an officer in on with
5		the interview of each and every witness, Mr
6		sir; nor was it, you know, needed in my
7		estimation.
8	Q	Now, in the case of Nichol John, you had indicated
9		that she and Officer Mackie, Ray Mackie, did not
10		particularly get along well; do you recall whether
11		or not Mackie was in the room at any time when you
12		interviewed Nichol John?
13	А	I don't think so. I think this was reported to me
14		as a at the time when she bolted from my office
15		in the courthouse out the back door and onto the
16		parking lot and toward, I think, her father's
17		truck, that's when I learned that, and I
18		presumably said "how what's going on here", and
19		for rightly or wrongly, that was the reason that
20		was advanced.
21	Q	Do you have a recollection as to which police
22		officer was with you at the time Nichol John
23		bolted from your office?
24	А	I think that's in print, and I believe Sergeant
25		Ullrich was there and it may have been one of the
	ıl —	

		1 age 10400
1		investigators as well, Mr. Elson.
2	Q	Now just a final series of questions, Mr.
3		Caldwell. We have heard evidence as to the
4		material you did not receive, we've heard evidence
5		with respect to the material that you did receive
6		from the Saskatoon Police Service,
7	А	Uh-huh, uh-huh.
8	Q	and I understand from your evidence that you
9		did not receive the document which has been
10		loosely referred to as "the script"
11	А	That's correct, sir.
12	Q	which I believe is 06799; that is the document,
13		I believe, prepared by Mackie that you did not
14		receive?
15	А	That's correct, Mr. Elson.
16	Q	The next document I understand you did not
17		receive, or one of the next documents sorry
18		one of the document you did not receive is Index
19		of Statements, which I believe is 0063 I'm
20		sorry, I believe you did have that, let's just
21		identify that, 006301; sorry, I believe you did
22		have this?
23	Α	I think you're right, Mr. Elson, that I
24	Q	And I believe you testified to the effect that you
25		did have it?

		1 age 10404
1	А	I'm sure that's right.
2	Q	Mr. Gibson has already dealt with the RCMP reports
3		that you did not have and just, if we can identify
4		those, I believe there is the statement prepared
5		by Riddell, which is 065399, and that is the
6		report prepared I'm sorry, I'm referring to
7		them by their surnames, I've forgotten his rank?
8	А	Oh, I believe it is superintendent, but I know the
9		investigator you mean, sir, who I think that's
10		several pages, that document?
11	Q	Inspector Riddell?
12	А	Yeah, Inspector Riddell, yes.
13	Q	Now
14	А	I'm sorry, sir, that I did not receive.
15	Q	You did not receive that?
16	А	Yeah.
17	Q	And also you did not receive the report prepared
18		by Corporal Rasmussen which is 250097. It's
19		supposed to be 97. All right. I obviously had it
20		wrong.
21	А	Yeah, I think that's incorrect, sir.
22	Q	If someone could help me, it's the police report
23		of Corporal Rasmussen.
24		COMMISSIONER MacCALLUM: 250597.
25		MR. ELSON: All right, 597, that's correct.
	Ĩ	<b>_</b> I

1 I've got one too many zeros. 2 Α This, sir, appears to be 098 we're looking at, or 598, excuse me. 3 4 BY MR. ELSON: 5 Q 598, and I'm sorry, I've misdescribed it. 6 agree with me, as Mr. Gibson pointed out, the RCMP reports, you did not receive any of the RCMP 8 investigation reports; is that correct? 9 Α That's correct. 10 And in fairness to you and in fairness to Mr. Gibson, he did identify that in one of the 11 12 RCMP reports there is a description of the theory 13 that the person who committed the 1968 assaults 14 may very well have been the killer of Gail Miller? 15 Yes, sir, we did look at that. Α 16 And you've been here at the Commission for most of Q 17 the proceedings, you are now aware, primarily 18 through Mr. Ullrich's testimony, that not only did 19 you not have that RCMP report, those two RCMP 20 reports were not filed with the City of Saskatoon 21 police either? 22 I'm sure that's the correct evidence. He, as we 23 know, had to testify via videotape, but it's I 24 guess shocking that not only did I not have them, 25 which was, you know, I think awful, but the fact Meyer CompuCourt Reporting =

that they didn't get to the police department proper, Mr. Elson, would prevent them ever following it up and saying let's go and see if the prosecutor got them. Evidently they didn't. For sure they didn't hit me and, from what you've said, sir, Sergeant Ullrich's evidence was that they did not get to the police file either, which is --

My understanding is that it was common practice that whenever the RCMP were asked to assist any municipal police force in Saskatchewan, whether it be Saskatoon, Regina, Prince Albert, that the RCMP would prepare their own investigation reports and that it was typical practice not to provide a copy of the investigation report to the municipal police service. Are you aware from your experience other than in this case as to whether you were aware, number 1, that the RCMP were helping an investigation, and number 2, that the investigation reports were or were not maintained on that municipal police department's file? Well, Mr. Elson, there's two or three parts, and I hope I don't miss any, I looked at the very comprehensive project Flicker matter in the wake of realizing I didn't get these things. Volume 1,

page 45 of that document says major investigations reported through channels to division headquarters Regina and then to the department of the Attorney General, there's a file 92-8277F attached to that, and that is, you know, absolutely shocks me that good, legitimate investigations were done by them which went up the channels in their force and then, if I can put it, cross country to the department of the Attorney General in Regina and clearly never, from that department, back down to my office or other ones, Crown prosecutors in the province.

 $$\operatorname{Mr.}$$  Elson, you asked me one other thing and I --

- Q No, I believe that was it.
- 16 A Oh.

- I was asking whether or not -- more to the point, if you could talk about examples, are you aware of any case where the RCMP, to your knowledge, were assisting a municipal police force such as the Saskatoon Police Service and at the same time there were RCMP investigation reports on that municipal police department's file?
- A Well, I'm not, but in this context I wouldn't expect to be unless I was, you know, very deeply

1 involved in that particular case, whatever it was. That way -- one would hope to learn that almost 2 3 even by accident, there's an RCMP name in that, how come I haven't heard about the investigation. 4 5 I don't know if that answers you, Mr. Elson. I think it does. In terms of dealing with 6 Q recommendations, and I'm not sure exactly what the 8 practice is today, but I think that in some 9 respects it is still the same as it was in 1970. 10 Would you agree that it would be appropriate for 11 all police forces to share the investigation 12 reports in those investigations that they are 13 working on co-operatively? 14 Yeah, I certainly would. I had many cases which Α 15 were solely investigated by RCMP members, and 16 complicated and difficult cases in which the city 17 police were not called in, others in which they 18 It's inconceivable to me that the were. 19 knowledge, you know, in any one of those cases 20 wouldn't find its way into the files or minds of 21 the, you know, co-operating investigators from the 22 other force. I just don't see how it could be 23 otherwise. Regrettably, Mr. Elson, in this case 24 it wasn't that way. 25 I believe, and you've already touched upon this a Q

1		little bit in answering Mr. Boychuk's questions, I
2		believe you were here for at least a portion of
3		former Chief Penkala's testimony before the
4		Commission; is that correct?
5	А	I have a memory that I was, sir.
6	Q	And I take it that you are aware through your
7		counsel and through the disclosure of the material
8		on CaseVault and also through former Chief
9		Penkala's testimony that for these many years, to
10		the surprise of a number of people, he kept his
11		own file with respect to this case?
12	А	Yes, sir.
13	Q	And you are also aware that the file he kept in
14		regard to this case contained documents which were
15		not on the file or within the records of the
16		Saskatoon City Police?
17	A	I believe that's so, sir.
18	Q	And have you had occasion with your counsel to
19		review the records that were disclosed through
20		Commission Counsel by former Chief Penkala?
21	A	At the moment I can't say it. Possibly in
22		re-examination, sir, that could be covered. I
23		looked at an awful lot of documents and I think
24		I'm going to say that I did because there was very
25		thorough disclosure which took a long time to go
		Meyer CompuCourt Reporting ————————————————————————————————————

1 Maybe my counsel will bail me out now. through. 2 That's fine. MR. ELSON: 3 It's not bailing him out, it's MS. KNOX: I appreciate his saying that he 4 bailing me out. 5 got very thorough preparation, but in fact I did not specifically review the folder of Penkala 6 documents with him, so his knowledge base would be from in the hearing room and hopefully Mr. 8 9 Elson can identify for him to that which he 10 refers. I just didn't do it. 11 MR. ELSON: I will do that, 12 Mr. Commissioner. I had indicated to Ms. Knox 13 that I did plan to ask Mr. Caldwell questions 14 with respect to this and she did ask me that if 15 he did so that I should refer to those documents and have them identified before I did and I'm 16 17 certainly prepared to do that. 18 There are a number of 19 documents, I won't refer to all of them, because 20 I don't think that all of them carrying the kind 21 of significance that perhaps others do. 22 Α Okay, sir. 23 BY MR. ELSON: The first document is document 324671 which is a 24 25 letter from then Lieutenant Penkala to Officer

Kerr at the RCMP Crime Detection Laboratory. This is a document, a letter dated March 18, 1969, this document would have existed after David Milgaard had been brought to the attention of the Saskatoon police by Albert Cadrain, and although the two file numbers -- if we could actually look at the two file numbers at the top of the page, the two file numbers refer to the (V1)- and (V2)----cases as I recall it, that in fact Mr. Penkala maintained this document on his folder related to the Gail Miller case and that he was specifically asking for laboratory information from Officer Kerr. As I understand his evidence, specifically to examine Exhibit A -- if we look at the purpose for him sending this material, it says to examine Exhibit A, the slide, B, ladies panties, and C, ladies jacket for presence of human semen, and if present to establish ABO agglutogens. You did not see this document? Absolutely not, sir. And indeed if it had the file reference in the

upper right-hand corner as it did, 10173/68 and 10910/68, you would have probably believed that it related not to the Gail Miller case, but related to some other cases having occurred in 1968?

1	А	Without knowing anything, I would assume it would
2		refer to the two females in the reference line,
3		Mr. Elson, but that may not be the case, that's
4		what I would assume, and I don't know if your
5		information is similar to that or not, but in any
6		event, I don't know.
7	Q	If we would also look at the next document,
8		324672, which is a two page document, a laboratory
9		report from the Royal Canadian Mounted Police,
10		look at the date, April 1, 1969, the lab file
11		number 286-69, and I believe, if I'm not mistaken,
12		that this was a laboratory report you did see but
13		believed it did not pertain to your file?
14	A	I can't say that, Mr. Elson. The one the only
15		document that we've seen many times where I wrote
16		not related, omit or something is not this
17		document.
18	Q	Not this document?
19	А	Yeah.
20	Q	I'm sorry, and I stand corrected.
21	А	No, that's fine, sir, but just so you know it's a
22		different one.
23	Q	So you did not see this document either?
24	A	No reason to think I would have.
25	Q	The next document is 324683, a letter again from
		Marian Carrent Carret Demontina

1		Lieutenant Penkala to Officer Kerr at the RCMP
2		Crime Detection Laboratory dated April 21, 1969,
3		you did not see this document either. Do you have
4		any recollection of seeing it?
5	A	Absolutely not, sir.
6	Q	The next document is a letter, 324695, from
7		Dr. Emson to Lieutenant Penkala dated June 2nd,
8		1969 which specifically refers to the A antigens.
9		Do you recall having seen this letter?
10	A	I do not, Mr. Elson.
11	Q	And this letter was not included in the police
12		material that was provided to you?
13	A	I'm sure it was not.
14	Q	And based on the information you've received in
15		this case, this letter wasn't even contained in
16		the police records?
17	A	Well, that I can I can accept that, sir, based
18		on what some investigation has revealed is the
19		case.
20	Q	And in follow-up to that letter there's also the
21		letter from Lieutenant Penkala to Officer Kerr at
22		the RCMP Crime Detection Laboratory which is
23		324697. Sorry, I should give the number first.
24		And did you not see, in light of the fact that you
25		did not see Dr. Emson's letter, I take it you did
		Mayor Communicating

		3
1		not see the letter from Lieutenant Penkala to
2		Officer Kerr?
3	А	No, sir.
4	Q	I'll skip the subpoena. There's also a daily
5		journal. You typically I'll just maybe refer
6		to the document, it's 325044. That's actually the
7		first page of the journal. The cover page is
8		325043 and the first page of the journal is
9		325044. It was not common practice for you to
10		receive journals that would be maintained by
11		police officers such as Lieutenant Penkala in
12		identification; is that correct?
13	А	That's exactly so, sir.
14	Q	And you would also typically not receive police
15		officers' notes or excerpts, or photocopies of a
16		police officer's notebook with respect to a
17		certain investigation?
18	А	That is correct as well, sir.
19	Q	Do you recall ever having made a request for a
20		police officer's notebook or for a journal in the
21		conduct of this particular investigation?
22	А	Oh, not in this one, sir, I do not.
23	Q	I won't put the notebook to you. The next
24		document I would like to put to you from the
25		Penkala folder is 324806 which is a document that
	İ	

1		describes the circumstances of the offences
2		related to the victims (V1)-, (V2) and
3		(V3), and I believe it was former Chief
4		Penkala's evidence that this was not in his
5		handwriting and he couldn't recall who had
6		prepared it?
7	A	Yeah.
8	Q	But it was on his file relative to the Milgaard
9		investigation. You would agree with me that that
10		document was not included in the police records,
11		nor was it included in any of the material that
12		was forwarded to you?
13	A	No, sir, and nor was it my handwriting I'm pleased
14		to say.
15	Q	And the final documents that I wanted to refer to
16		are a series of photographs, they begin with a
17		photograph 324845, and that is the first
18		photograph in a series of photographs of Gail
19		Miller's funeral, and I take it you had not been
20		provided with photographs of Gail Miller's funeral
21		that had been taken by officers of the Saskatoon
22		Police Service?
23	А	No. There was a report somewhere that photos were
24		made. This is the first I've seen of them, if
25		this is what they are.
		•

1	Q	There was a reference, I believe there were police
2		officers who had attended at the funeral who had
3		taken photographs for the purposes of trying to
4		identify possible suspects.
5	A	That would be my understanding.
6	Q	And you recall having read that in a police
7		report?
8	A	I did, Mr. Elson.
9	Q	But you were not but the photographs were not
10		produced to you?
11	A	They were not.
12	Q	And were you aware that these photographs were on
13		the police file or were you aware that they had
14		been maintained by former Chief Penkala for these
15		number of years?
16	A	No, I wasn't. I was sure they had been taken
17		based on that police report and I would assume
18		they still existed somewhere, but this is the
19		first I've seen of them, sir.
20	Q	Now, this is a bit of a convoluted question, but
21		it has to be asked. When we look at the material
22		that we acknowledge you did not see, notably the
23		script prepared by Mackie, Detective Mackie, the
24		RCMP reports of Inspector Riddell and Corporal
25		Rasmussen and the Penkala folder, the salient
	1	

		r ago rorn
1		documents of which I've just gone through with
2		you
3	А	Yes, sir.
4	Q	if we set those documents aside for a moment,
5		is there any document that existed, that you now
6		know existed in 1969 or 1970 that you did not
7		receive that in your opinion would have made a
8		difference in the way you conducted the
9		prosecution of David Milgaard?
10	А	Mr. Elson, I do not know of any whatsoever.
11	Q	Thank you, Mr. Caldwell. I have no further
12		questions.
13	А	Thank you, sir.
14	ву	MR. WILSON:
15	Q	For the record, my name is Garrett Wilson and I
16		represent Serge Kujawa, but you and I don't need
17		any introduction, Mr. Caldwell?
18	А	I'm afraid that's right, sir.
19	Q	In fact, we were together in the prosecution
20		business more years ago than we would care to
21		remember.
22	А	That's so, sir, in Regina initially.
23	Q	Yes. And you carried on and joined the department
24		of the Attorney General and I went to the other
25		side and I think you told us that you joined the
		Mayor CompuCaurt Paparting

1		department in the fall of 1958?
2	A	That's right, Mr. Wilson.
3	Q	And four years later in 1962 you came up to
4		Saskatoon?
5	А	Correct.
6	Q	And headed the Saskatoon prosecution unit?
7	А	That's right.
8	Q	And you remained in that position until 1987,
9		almost 30 years you were with the department?
10	A	That's right, sir.
11	Q	All on the prosecution side?
12	А	That's correct.
13	Q	And the office in Saskatoon I take it grew
14		somewhat in scope and numbers of bodies and
15		responsibilities?
16	А	From one until I believe 11 bodies when my
17		position was abolished, Mr. Wilson; that is,
18		prosecutors.
19	Q	Yes.
20	A	Yeah.
21	Q	So your responsibilities increased materially over
22		the years?
23	A	That's right, sir.
24	Q	You told us also I think that Mr. Kujawa followed
25		you into the department of the Attorney General
		4

1		not far behind you?
2	A	That's correct. Mr. Kujawa was a classmate of
3		mine at law class of 1957 and around 1960 I
4		learned that he was, he had articled with C.
5		Roberts Davidson, Q.C. of Regina, an eminent
6		barrister, and I learned Mr. Kujawa was thinking
7		of moving I believe to Rosetown to practice, and I
8		put him in touch with our Deputy Attorney General
9		Roy S. Meldrum of that day and they had an
10		interview which eventually led, I believe, to Mr.
11		Kujawa being employed by our department.
12	Q	Uh-huh. And the rest, as they say, is history.
13	A	Yes, sir.
14	Q	Mr. Kujawa, while you were in Saskatoon and
15		growing with the unit here, his position changed
16		and evolved and his responsibilities also grew;
17		did they not?
18	A	That's right. He would have been would have
19		been, in effect, doing day-to-day prosecutions
20		initially and the department was reorganized two
21		or three times and he received different titles as
22		that went on, but he stayed in Regina throughout
23		the period in terms of his base.
24	Q	Yes. He received position titles such as
25		associate deputy minister, assistant deputy
		•

		rage ro-so
1		minister, that sort of thing?
2	A	Yes, sir.
3	Q	But essentially remained on the prosecution side?
4	A	That's right, Mr. Wilson.
5	Q	Yeah. Now, you told us a few minutes ago that
6		there might have been some discussion in your
7		office in 1969 as to what prosecutor would
8		undertake the responsibility for the Milgaard
9		prosecution and the decision was that you would
10		take it on?
11	А	That's the that's right.
12	Q	And that might have been, might have involved head
13		office in Regina to a certain extent?
14	А	It could well have. I was the, if you will,
15		senior in our office of two people and I think it
16		was pretty well a foregone conclusion that I would
17		be taking it, but I suspect that I talked to Serge
18		and not likely our deputy, but Serge would be head
19		of the prosecutions, whatever title he had at that
20		time I think, Mr. Wilson.
21	Q	Okay. But once the decision was made that it was
22		your file?
23	A	Uh-huh.
24	Q	It was your baby from then on; was it not?
25	А	Oh, that's correct, yeah.
	İ	

1	Q	There would be no advice, direction given to you
2	~	in the handling of that prosecution by head office
3		in Regina?
4	А	Only when I requested it, Mr. Wilson.
5	Q	I see. In fact, for a prosecutor to receive any
6		interference from above, his superior in the
7		conduct of a case, would be bordering on the
8		improper; would it not?
9	А	Yeah, interference for sure. Solicited advice of
10		course, you know, would be quite proper, as we all
11		know, so I wouldn't regard anything that came to
12		me from our Regina office as interference by any
13		stretch of the term, Mr. Wilson, in this respect.
14	Q	So to borrow some phrases that I've seen in the
15		material around this Inquiry, would it be fair for
16		me to say that at no time did Mr. Kujawa direct
17		you in the conduct of the prosecution?
18	А	He did not in the best sense of that word,
19		whatever. If I asked to discuss things, we would
20		discuss it in very, in some instances involving
21		Mr. Perras my colleague, in some instances Mr.
22		Kujawa, but I think it was pretty limited. Of
23		course they had a very busy office going on in
24		Regina, wouldn't be anxious to, you know, spend
25		more time than necessary with me, if you will.

1	Q	And you did tell us earlier that the only time
2		that you might have discussed the case with Mr.
3		Kujawa was with respect to section 9(2) of the
4		Evidence Act?
5	A	Yeah, that is so, and that's in one of my reports,
6		Mr. Wilson.
7	Q	When you left the department in 1987, Mr. Kujawa
8		was still with it?
9	A	Yes, he was, in Regina.
10	Q	He was approaching retirement though; was he not?
11	A	Yeah. He was a few years, three, four, five years
12		older than me. He had come into law school at a
13		later stage than most of our classmates.
14	Q	A bit of a mature student?
15	А	Yeah, and certainly a very, very bright student as
16		well.
17	Q	You worked with him in the department from 1960
18		until 1987, 27 years?
19	А	That's right. In '58 that's correct, that's
20		when he came in, Mr. Wilson, that's right exactly.
21	Q	So you had a rather extensive opportunity to
22		observe Mr. Kujawa and his professional competence
23		and integrity?
24	A	I did.
25	Q	How would you rate, in particular, the integrity? $\P$

1	А	He was he had, you know, an extremely proper,
2		if you will, degree of integrity, if that's how
3		you measure those things. He was a person with,
4		I'm sure, very firm views of right and wrong and a
5		person who would I think come to those views quite
6		rapidly and, all things being equal, would stick
7		with them. He was certainly a bright person in
8		terms of law school and certainly an excellent, in
9		my view, day-to-day prosecutor, as well as a
10		person who was very useful for advising more
11		junior people, etcetera, who might want to, you
12		know one of the advantages of being in Regina,
13		I had mentioned earlier that our Court of Appeal
14		only heard criminal cases in Regina and Serge took
15		a goodly portion of those, and various other of
16		the solicitors later did, but he would be in a
17		position of knowing from week to week what the
18		view of our Saskatchewan Court of Appeal was on
19		some criminal or procedural issue.
20	Q	You were aware, Mr. Caldwell, that some years ago,
21		arising out of these multiplicity of Milgaard
22		proceedings, if I may say that, that Mr. Kujawa
23		wound up accused of a cover-up of the Milgaard
24		prosecution?
25	A	Yeah.

1	Q	How does that conduct square with your opinion of
2		his professional integrity?
3	A	Well, that was absolutely out of the question. I
4		think, Mr. Wilson, that that was an ill-founded
5		accusation, but at least limited to Regina. I
6		think the accused were our Attorney General
7		Mr. Romanow, Mr. Kujawa, whatever his title was, I
8		believe our Deputy Attorney General Ken Lysyk, who
9		was another classmate of ours, were alleged to
10		have got the Milgaard and Wilson (sic) files
11		together and cooked up some method of keeping them
12		separate or hiding them or something of that
13		description.
14	Q	I wanted to ask you about Mr. Romanow.
15	A	Absolutely.
16	Q	And Mr. Lysyk. Mr. Romanow served as Attorney
17		General of Saskatchewan from 1971 to 1982; did he
18		not?
19	A	That would I'm sure your dates are right, sir.
20	Q	He was a member of the Law Society of
21		Saskatchewan?
22	A	Yes.
23	Q	And he returned to public office in Saskatchewan
24		as premier in 1991 and served as such all through
25		the 1990s?

1	A	That I'm sure your dates are correct,
2		Mr. Wilson. I can't give you a different opinion
3		on that. I'm sure you are right.
4	Q	Yeah. Would you like to comment on his standards
5		of professional integrity?
6	А	Yeah, they were they were totally aboveboard,
7		and one of the things Mr. Romanow practiced
8		diligently was that he would not let any issue,
9		for instance, about the whole prosecutions end of
10		the department get to the point where he was
11		trying to influence it. I think not him
12		necessarily, but some of the elected officials
13		early on, there had been attempts made to suggest
14		what about this and that, and he was one of the
15		ones who learned, I think, and specifically
16		practiced that, don't come near me with those
17		issues about what should happen to file X when he
18		was Attorney General, which of course worked out,
19		you know, extremely well for everyone when that
20		was the case.
21	Q	Mr. Romanow represented a Saskatoon constituency;
22		did he not?
23	A	That's right, sir.
24	Q	And you were heading the prosecution unit in the
25		City of Saskatoon?

1	A	Yeah, that's correct.
2	Q	Was there ever an occasion during those years,
3		1971 to 1982, when Mr. Romanow or anyone on his
4		behalf interfered in any degree with any of your
5		files?
6	A	Absolutely not, anything resembling that, sir.
7	Q	Now, you mentioned Mr. Lysyk. A classmate of
8		yours?
9	A	That's correct.
10	Q	An unusual man, would you say, a very outstanding
11		legal scholar?
12	A	Absolutely.
13	Q	Top of a graduating class of two in the Town of
14		Khedive, Saskatchewan?
15	A	I believe so, sir, but he did better than that
16		later on.
17	Q	Yes, he did. And Mr. Romanow recruited him from
18		the faculty of the University of British Columbia
19		to be the Deputy Attorney General in 1971; is that
20		not correct?
21	A	That's right, sir.
22	Q	And there he served until 1976?
23	A	That would be I'm sure your dates are correct,
24		sir. When the government changed and Mr. Romanow
25		became Attorney General, there was a very sweeping
		1

1		reorganization of the department of the Attorney
2		General put into effect and Mr. Lysyk was the
3		deputy in that scheme of affairs, and it seemed to
4		be a very, very worthwhile reorganization as far
5		as I could see, from the safe distance of
6		Saskatoon shall we say.
7	Q	So you went through three years of law school with
8		Mr. Lysyk?
9	A	That's right, sir.
10	Q	And then you worked in the same department with
11		him for five years?
12	А	Yeah, in the sense that he was in but he was
13		our deputy and I saw him from time to time in that
14		respect.
15	Q	Yeah. And what would you tell us about his
16		standards of professional integrity?
17	А	Well, Mr. Lysyk was a very bright gentleman who
18		graduated from our college of law I'm sure with
19		some special honours, went on I think to a
20		university in England, I can't recite names and so
21		on, came back could have been Oxford or
22		something came back to U.B.C. on the faculty.
23		I think, Mr. Wilson, he was dean at one point out
24		there.
25	Q	I'm going to suggest to you that when he left
		<b>1</b>

1		Saskatchewan in 1976 he returned to the University
2		of British Columbia as dean of the law department.
3	A	Okay, that was the sequence then.
4	Q	Okay. Now, during the five years that you worked
5		with him in the department, did you see his
6		professional integrity
7	A	Yeah.
8	Q	at play?
9	A	Yeah. He was an absolutely straight-shooting
10		gentleman who didn't brook anything resembling
11		political input into, among other things,
12		prosecutions for certain, and I don't suggest he
13		did in any other realm either, sir.
14	Q	And I believe Mr. Lysyk left the position as Dean
15		of the U.B.C. Law School and went on to the
16		Supreme Court of British Columbia as a member of
17		that Court?
18	A	That's right, the, I think the trial division,
19		Mr. Wilson, I and possibly the appeal division.
20		I stand to be corrected because I know you've been
21		nearer those things than I have, sir.
22	Q	Now you alluded earlier to an accusation of
23		improper conduct on the part of those three men.
24		I suggest that you learned of it probably in the
25		fall of 1992 when Mr. Wolch and Mrs. Milgaard and
		•

1		David Milgaard publicly accused then-Premier
2		Romanow, then Mr. Justice Lysyk, and Mr. Kujawa of
3		having conspired together to obstruct the course
4		of justice in the Milgaard prosecution file?
5	А	That was my the publicity that I recall from
6		the time, sir.
7		MR. WOLCH: Mr. Commissioner, I don't mean
8		to interrupt unduly, but if My Friend wishes to
9		put before the Commission where I accused
10		somebody I'd like him to put it point it out
11		other than verbally.
12		MR. WILSON: Well Mr. Commissioner, I don't
13		propose to take the Inquiry's time this afternoon
14		to go through chapter and verse of Mr. Wolch's
15		participation in the press conference in Winnipeg
16		in September of 1992 and what he said on that
17		occasion and what he said to the press on later
18		occasions, all of which will come before this
19		Inquiry in the utmost detail later.
20		MR. WOLCH: I look forward to that.
21		MR. WILSON: But if Mr. Wolch would like to
22		refresh himself by reviewing the transcript of
23		the press conference at 004204
24		MR. WOLCH: Please.
25		MR. WILSON: Mr. Wolch participated with

1	Mrs. Milgaard and David at that press conference.
2	MR. WOLCH: Well, My Friend has said I said
3	something, so put up what I said.
4	MR. WILSON: I'm getting there. I'm only
5	going to make the one reference at this time, Mr.
6	Commissioner, and as far as I'm concerned
7	Mr. Wolch's protestation can stand until it is
8	dealt with in more detail later. But he does
9	state, as a matter of fact, that there was a
10	cover-up in the Department of Justice if we look
11	at document 004208, at the top of the page:
12	"It's simply more evidence of what we
13	know to be a fact."
14	Third paragraph:
15	" the cover-up was there, the
16	question was who covered it up is more
17	important to be found out."
18	And you'll see that Mrs. Milgaard, at page
19	004210,
20	MR. WOLCH: Mr. Commissioner,
21	COMMISSIONER MacCALLUM: Now
22	MR. WOLCH: I'm sorry, the reference is
23	to me
24	COMMISSIONER MacCALLUM: Yes.
25	MR. WOLCH: and My Friend says I accused

1 the Premier and a gentleman named Lysyk of a 2 cover-up, that's what I heard him to say, and 3 I've asked him to show me where I said that? 4 MR. WILSON: Mr. Commissioner, I said that 5 those three gentlemen were accused by these three individuals I named, and it's a joint accusation, 6 if Mr. Wolch wants to exempt himself from any 8 culpability with respect to that let him do so as 9 we go along and we'll just leave it stand as it 10 is for now. 11 MR. WOLCH: I'm not asking for culpability, 12 I'm asking for accuracy, the same accuracy that's 13 been asked of any questioning being done of other witnesses. If that amounts, by My Friend's 14 15 reasoning, to me personally attacking or accusing 16 Romanow or Lysyk, I think the name is, of some 17 cover-up, then I'd like to see it? All I'm --18 COMMISSIONER MacCALLUM: He referred to the 19 page --20 Yes, "time will tell", time MR. WOLCH: 21 will tell as to who is responsible for a 22 cover-up. 23 COMMISSIONER MacCALLUM: "... the cover-up 24 was there, the question was who covered 25

it up ..."

1	MR. WOLCH: Oh, I haven't changed that
2	opinion, but the question is the point was made
3	that I accused the Premier. And the question
4	before that:
5	"What about the involvement of
6	Romanow?",
7	I said:
8	"Time will tell"
9	MR. WILSON: Let us look at 004210.
10	MR. WOLCH: That's not
11	COMMISSIONER MacCALLUM: Just a minute.
12	MR. WOLCH: Yeah. That's not even me
13	speaking.
14	MR. WILSON: We see Mrs. Milgaard
15	MR. WOLCH: Well
16	MR. WILSON: Let's be fair, Mr.
17	Commissioner, Mr. Wolch is standing or seated
18	at Mrs. Milgaard elbow as she says:
19	"All I know is that Roy Romanow, Serge
20	Kujawa, and other senior officials met
21	with those two files."
22	MR. WOLCH: Yes.
23	MR. WILSON: If you read the transcript of
24	that entire conversation you will find that the
25	accusation I made is entirely borne out and is

1 supported, will be fully supported by further 2 material which will come before this Commission 3 in due course, if Mr. Wolch wants to plead not quilty today I'll accept that until we do better 4 5 because we will. Mr. Commissioner, I resent the MR. WOLCH: 6 reference to plead not guilty. All I'm asking 8 for is accuracy. My Friend has chosen to put 9 before this witness material that, really, he 10 can't really comment upon, and then he puts it before him by not correctly stating the evidence, 11 12 and then hides that behind this sort of "plead 13 not guilty" or whatever. All I'm saying is I ask 14 for some accuracy, that's all. 15 COMMISSIONER MacCALLUM: Yes, I take your

objection, but as Mr. Wilson says, whether or not you were one of the accusers of these three people depends upon a closer reading of the document by me, so I understand what you are saying.

MR. WILSON: Okay, that's fine, that's good enough for me for now, sir.

## BY MR. WILSON:

1	Q	You learned that this allegation and this
2		accusation of a criminal conspiracy to obstruct
3		the course of justice was made against former
4		Attorney General Roy Romanow, former Deputy
5		Attorney General Ken Lysyk, and Associate Deputy
6		Minister Serge Kujawa in the fall of 1992?
7	А	Yes sir.
8	Q	What was your reaction to it?
9	А	Well the way I learned about it is that it was in
10		the press in Saskatoon in such a fashion that you
11		virtually couldn't escape it, I was not in Regina
12		when that thing happened but it seemed, Mr.
13		Wilson, not to matter because you you were I
14		remember it being absolutely bowled over by
15		that suggestion and thinking, you know, how in the
16		world could that be the case. Of course, in
17		fairly short order I believe it proved not to be
18		the case or anything similar to it, but I
19		absolutely I thought 'how in the world could
20		that be, that been going on in our department in
21		Regina, or' it was a very shocking accusation
22		even though I wasn't one of the proposed
23		cover-up'ees, or whatever they are.
24	Q	But let me stop you there. It cut very close to
25		you; did it not?
		<b>.</b>

		——————————————————————————————————————
1	A	Yeah, oh
2	Q	Because, if such a monstrous allegation should be
3		borne out to be true, you have been employed by a
4		corrupt administration?
5	A	Yeah.
6	Q	Working as part of that?
7	A	Yeah, absolutely, and, you know, the the
8		that's right, I would agree with that, that's what
9		I had been doing for a long time at that point,
10		sir.
11	Q	When you were concluded with the Milgaard
12		prosecution you made the report to head office
13		that you have shown us, and when the matter went
14		to the Court of Appeal you've told us, again, you
15		had no input on that process?
16	A	No, I didn't attend physically, I may well have
17		discussed with Serge Kujawa the, again the 9(2)
18		matter, but that would be if
19	Q	The 9(2) element being a large element of the
20		appeal?
21	A	Oh, of course. But if I did that, Mr. Wilson, I'm
22		sure that was all I did, and that may not have
23		happened either.
24	Q	Thank you, Mr. Caldwell.
25	A	Thank you, sir.
		4

1		MR. HODSON: I think Ms. Krogan is next,
2		but it is just after 3:00, I'm not sure if that
3		is
4		COMMISSIONER MacCALLUM: That would be a
5		good time for a break.
6		MS. KROGAN: Sure.
7		COMMISSIONER MacCALLUM: 15 minutes.
8		(Adjourned at 3:04 p.m.)
9		(Reconvened at 3:21 p.m.)
10	ВУ	MS. KROGAN:
11	Q	Mr. Caldwell, given that we have met, I state for
12		the record that my name is Lana Krogan and I
13		represent the Province of Saskatchewan here at the
14		Inquiry?
15	A	Thank you very much.
16	Q	I will be very brief, Mr. Caldwell, and I would
17		just like to revisit some issues starting with one
18		issue that was raised by Mr. Lockyer last week.
19		And he put to you, Mr. Caldwell, the suggestion
20		that no one had consulted with you regarding, with
21		you or another Saskatoon prosecutor, regarding the
22		sentencing issues as they related to Larry Fisher.
23		This would be, of course, prior to his sentencing;
24		do you recall that, sir?
25	A	I'm re I assume that he put that to me last
		4

		1 age 10401
1		week in his questioning, ma'am; is that what you
2		were saying?
3	Q	He did, Mr. Caldwell,
4	А	Yeah, I accept that.
5	Q	and wanted your response on it. And I think
6		your response to him was to the effect that you
7		thought perhaps that contact should have been made
8		with you. Now Mr. Caldwell, if I could just put
9		to you some known details, if I could call them
10		that,
11	A	Okay.
12	Q	one of which is you never did have a Larry
13		Fisher file; is that correct?
14	А	That that is correct, ma'am, and I'm pleased
15		that you are we can go through that, because I
16		couldn't accept the final thing that you quote as
17		Mr. Lockyer saying a moment ago, that's just not
18		the case, but so I'd be happy to go through
19		them in the way you are now.
20	Q	There are just a few and they're
21	А	Yeah, that's fine.
22	Q	Thank you, sir.
23	А	Yeah.
24	Q	You didn't have a file, and in fact as I
25		understand it the only contact you had with the $\P$

1		file, if I can put it that way, was the request by
2		Mr. MacKay that you contact police to get him the
3		information; is that right?
4	A	Yeah. We didn't have a file in our office because
5		we did not have any Larry Fisher prosecution in
6		our office. The only way we would have had a file
7		would be because the police department or sent
8		us one saying "here, away you go and prosecute
9		Fisher", that didn't happen for sure, so in that
10		sense of course we didn't never did have a file
11		on the Fisher matter.
12	Q	Right.
13	A	Yeah.
14	Q	You didn't have the information personally; you
15		didn't prosecute him, correct?
16	A	Absolutely not.
17	Q	And another known detail, again if I could put it
18		that way Mr. Caldwell, is that Mr. Greenberg, who
19		represented Larry Fisher, was not in contact with
20		you; is that correct?
21	A	Yeah, I'm I wasn't here when Mr. Greenberg
22		testified but I believe he took that position;
23		and, regardless, I have absolutely no memory of
24		the gentleman contacting me.
25	Q	All right. And in fact, Mr. Caldwell, the
		•

1		information that he provided to the Inquiry was
2		that he contacted the Regina office,
3	А	Yeah.
4	Q	or what we know as head office, in Regina?
5	А	Yeah, that would be what I would have expected,
6		and understand now.
7	Q	All right. So basically, sir, you knew nothing
8		about that file; is that correct?
9	A	No, that's correct.
10	Q	Now Mr. Caldwell, did head office ever consult you
11		regarding a file that you had little to no
12		knowledge of, and you did not prosecute?
13	A	Umm, certainly, certainly not Fisher, certainly
14		nothing to do with Mr. Milgaard. At the moment I
15		can't think of any reason they would, and at the
16		moment I can't recall an occasion on which they
17		contacted me about a file that (a) wasn't in our
18		office and (b) I didn't prosecute, it would be
19		very I'd be flattered but I don't think it
20		happened.
21	Q	It would also be odd, would it not, Mr. Caldwell?
22	A	In the extreme, yeah.
23	Q	All right. Throughout the province and perhaps
24		I'm going to state the obvious, sir throughout
25		the province, sentencing standards are set by our

		<b>o</b>
1		appellate court; is that correct?
2	А	That's correct.
3	Q	So what would be a fair and reasonable sentence in
4		Saskatoon would be the same in Regina; would it
5		not?
6	А	Yeah. When a certain topic gets up to the Court
7		of Appeal, at that time they would come out with
8		guidelines as to what seemed appropriate in a
9		certain kind of offence, etcetera, so that's
10		that happened at the Court of Appeal level and
11		tended to disseminate down through the other
12		courts and agencies.
13	Q	All right. So, Mr. Caldwell, can you see any
14		reason why head office would have contacted you
15		and spoken to you about the Larry Fisher matter
16		prior to sentencing?
17	Α	No, absolutely none, because I couldn't help them
18		in any way, shape, or form, ma'am.
19	Q	All right. It was also suggested to you last
20		week, sir and this, again, was by Mr. Lockyer
21		that and there was some suggested or
22		discussed, perhaps, about the issue of public
23		interest, and the suggestion was that "would it
24		not have been in the public interest that Mr.
25		Fisher's matters be dealt with in Saskatoon"; do
	I	and the second s

		rage 10471
1		you recall that?
2	A	I remember him suggesting that.
3	Q	All right. And, sir, my question then, or one of
4		my questions to you on that issue, is in your
5		experience did you not see many occasions where
6		files were transferred to different locations,
7		whether it was within Saskatchewan or other
8		jurisdictions
9	A	I
10	Q	outside of the province?
11	A	I certainly did when I was in the, pardon me,
12		in the office in Regina up until February of 1962.
13		I happened to be the person who looked after an
14		industry called 421(3)'s. Now 421(3)'s, that was
15		a Criminal Code section in which people in another
16		province, we'll just say B.C. for instance,
17	Q	Uh-huh?
18	A	wanted to get their charges shipped from
19		Saskatchewan there, strictly on the understanding
20		of a guilty plea, and that was there was a
21		form, set of forms you went through to make sure
22		that everyone agreed, and sent them off, and that
23		was an absolutely regular occurrence, and I
24		happened to be the person who handled it.
25	Q	And Mr. Caldwell, these matters of which you speak

1		might well be very serious matters,
2	А	Oh, absolutely.
3	Q	including sexual assaults that might have been
4		transferred; would that be fair?
5	A	Yes, they tended to be ones where the accused
6		didn't want may have been sentenced already and
7		didn't want to face coming back to Saskatchewan
8		with the danger, for instance, of a, say a
9		consecutive sentence or something like that, so
10		that was a frequent happening.
11	Q	Right. And in those instances, Mr. Caldwell,
12		would you agree with me that the public interest
13		was neither negatively impacted nor negated by
14		virtue of transferring those matters?
15	A	I wouldn't think so. The one the process I've
16		mentioned would we would not send the charge
17		from Saskatchewan unless we had some, I think,
18		document indicating a guilty plea, so a guilty
19		plea had to be the outcome. And of course that
20		would be duly publicized wherever it took place,
21		we'll say for example in British Columbia, so I
22		it didn't there was nothing to report here and
23		I would say everything to report there. If it
24		happened that the news of all this got back to
25		Saskatchewan there'd be no reason that the press

1 couldn't publish it, if they were so inclined, 2 here. 3 And I will actually ask you, perhaps, a few 0 Sure. 4 more questions about the press. 5 Yeah. Α But on this issue then, Mr. Caldwell, and the 6 Q matter of public interest, would it be fair to say that public interest is sort of a 8 9 multi-dimensional analysis, and that you are not 10 just considering where something is dealt with, 11 that you also consider perhaps expense, or where 12 the prosecutor who has the file is located, --13 Α Uh-huh. 14 -- and that weighed into public interest as well? 15 Well there'd be many aspects to it. Sometimes it Α 16 would be not in the public interest to spend 17 thousands of dollars shipping some charge, say, 18 back to Saskatchewan which could be dealt with in, 19 for instance, Alberta, it would not be in the 20 public interest to spend a lot here sending the 21 same thing there. 22 And of course the public, you 23 know, public interest, I -- to an extent, I think, 24 is whatever the upset member of the public thinks 25 it is on a given day, in other words that varies

1		all over, but certainly you want to operate in
2		such a way that you are not abusing that whole
3		thing, Ms. Krogan, would be my attitude at any
4		rate.
5	Q	All right. Mr. Caldwell, on that, on the notion
6		again of public interest, it was suggested to you
7		last week as well that the matter should have been
8		dealt with in Saskatoon so the public of the
9		members of this community in Saskatoon would be
10		aware; do you recall that, sir?
11	A	That, was that the Fisher matter
12	Q	Yes, sir.
13	A	that you are talking about?
14	Q	Yes, sir. I'm sorry, I wasn't clear.
15	A	No, that's fine.
16	Q	Yes, indeed, it is the Fisher matter that I am
17		speaking of.
18	A	Well, the Fisher matter didn't all come into nice,
19		crisp focus all of a sudden. Now we realize that
20		we had, we'll say, four to six unsolved sexual
21		offences that, in fullness of time, that were
22		Fisher's handiwork. They didn't all emerge, you
23		know, sharply at one time. Fisher it did not
24		become thoroughly visible during the Milgaard
25		investigation, despite what I thought was a very

careful investigation; the Manitoba matters, to all intents and purposes no one knew about them except initially Fisher, who decided he wanted to, you know, process them and set in motion the trip by the police to interview him, the guilty pleas in Manitoba; and then the -- it would be the incentive of Mr. Fisher and his Winnipeg counsel to clean up other Saskatchewan things, as I understand it they were dealing with Regina, and there's -- there's nothing sinister about that.

One of the things, Ms. Krogan, is one had to have a direct indictment for that situation, and I think it was four counts, those things came from Regina, they were either the Premier or the Attorney General, the appropriate authority had to sign them, so if I wanted to process something like that in Saskatoon I would be turning to Regina to say "please get me a direct indictment". There were -- Mr. -- the gentleman in Winnipeg, Mr. Fisher's counsel, evidently was dealing with Regina which, you know, it was in my estimation entirely unremarkable. So there is a, I think a whole lot of variables that exist in any of these, Fisher's was certainly an unusual state of affairs. I don't know if and

		3
1		when or how much his sentence was ever publicized
2		in Saskatoon. I have no memory, for instance, of
3		me knowing of it when it did happen.
4	Q	All right.
5	А	So
6	Q	Okay. More specifically perhaps, Mr. Caldwell
7		and I thank you for that response but more

15	А	Yeah.
16	Q	And wouldn't that presume, sir, that the media
17		would be in the Saskatoon courthouse, that they'd
18		be there,
19	A	Yeah.
20	Q	they'd be ready, willing and able to report the
21		story?
22	A	Yeah, that or maybe even, you know, having a
23		knowledge of it, if they did have knowledge of it,
24		pursuing the proper authorities to say "what's
25		goin' on here". The media coverage of these

things was extremely hit and miss and when -without repeating that whole story, at one point they had a -- some very capable reporters from the StarPhoenix, from CFQC radio and CKOM radio, on a daily patrol to the police station, to the federal courthouse if you will, they -- because they had missed some things they had arranged a press conference with Chief Kettles and this was to get them into the picture so they wouldn't feel they were being kept out. But on other occasions they would be essentially invisible and as counsel, prosecutor or otherwise, you had to, you know, be very careful about pursuing them for your own ends, if I may put it that way. I certainly understand that. Yeah. Mr. Caldwell, it -- the suggestion that, that very suggestion that matters should be dealt with in Saskatoon also presumes that there would not have been any media coverage originating from Regina; --Yes, that's right. -- would it not? And one of the complaints about Regina is, as I recall, is that this was done without the media's

I mean one of the real trouble you can attention. get into as a prosecutor is saying, you know, "my old friend so and so should know about this, I'll call him", in other words doing favours for media people who you happen to think are fair or whatever it is, there's -- I don't know why, I don't know why anything is, any criticism is to come out of the fact that the media did not happen to evidently be advised of Fisher's Regina appearance. Unless they just happened to be there and look in the room, why would they know about it, --And ---- without any improper aspect? And on that point, Mr. Caldwell, generally, then, would you agree with me that it was not the practice in Saskatoon for any prosecutor to contact the media and invite them in to report on or to listen to a particular matter? No, that was a, that was a very questionable practice. You might feel, you might feel it should be done, but I think you had -- one had to be exceedingly careful unless this triggered complaints that you were, you know, generating publicity, in effect, for yourself, as I would put

1 it. And Mr. Caldwell, on that final point with respect 2 0 3 to the media, one could never be certain, even if 4 a matter was dealt with in Regina and the media 5 was present one couldn't be certain that the matter wouldn't be covered in Saskatoon as well, 6 often stories are carried in both, --8 Yeah. Α 9 -- both of the major papers in those cities; is 10 that correct? 11 Α That was my understanding at the time, some major 12 things that happened in Regina would be covered 13 here, and vice versa. But I remember mentioning 14 earlier in testimony that something very important 15 let's say could have happened in North Battleford 16 and never hit the Saskatoon paper, as an example, 17 so it was extremely variable and hit and miss how 18 things went. 19 Now perhaps to step back a bit on your point, sir, 20 that the media was not contacted or generally it 21 was frowned upon that they should be contacted and 22 invited into a courtroom, would it then be fair to 23 say -- and I harken back to last week again when 24 Mr. Lockyer put to you that there should have been

a public explanation at the time as to why Larry

4		
1		Fisher got four years for the matters that were
2		dealt with in Regina; do you recall that?
3	A	I remember that.
4	Q	And again, sir, would the same principle hold
5		true; that it was just not practice
6	A	Yeah.
7	Q	for a prosecutor to instigate or to contact the
8		media and provide an explanation such as that?
9	A	No, it certainly wasn't, and there was the very
10		real danger that the media person you didn't
11		contact would complain to the premier, whatever.
12		In other words, that was a if you decided to
13		contact some, one person, the others might very
14		well have their noses out of joint and I found
15		that, you know, prosecutors in general tread very
16		lightly in that area for that very reason. You
17		might some day get extremely careful and good
18		coverage of some case and the next day another one
19		that you thought mattered a great deal might just
20		go right over their heads collectively.
21	Q	Mr. Caldwell, again on the suggestion that an
22		explanation should have been given as to why Mr.
23		Fisher got four years, I'm going to state the
24		obvious, and I hope you agree with what I think is
25		obvious, sir. Isn't it true that the judge is the

1		one who makes the final decision as to sentence
2		regardless of what a prosecutor or defence counsel
3		might put to him or her?
4	А	Absolutely. I think, if I'm not mistaken, Mr.
5		Fisher I believe was sentenced to 10 years in
6		Winnipeg, if my numbers are correct, to four in
7		Regina. My understanding is that that was
8		concurrent sentence. That is something the judge
9		does. He might have a different judge might
10		have walked in and said, you know, this means
11		must be six years consecutive or 10 or whatever.
12		That judge happened to make that decision as we
13		now know and that was one of many sentencing
14		decisions that no doubt happened in Regina, let's
15		say, that week, and, you know, to that extent was
16		unremarkable as far as I'm concerned.
17	Q	But of course, sir, judges are bound by the
18		guidelines set by the appellate court?
19	A	Yeah, they are, and of course people, Crown
20		appeals, defence appeals, some of them
21		successfully against sentences that seem outside
22		that, and sometimes unsuccessfully, sometimes your
23		appeal, with all its merit, doesn't work out.
24	Q	And, Mr. Caldwell, given that it is a judge's
25		decision as to what sentence is appropriate, would

1		it not be somewhat presumptuous for a prosecutor
2		to contact the media to explain perhaps what the
3		judge was thinking in coming to that decision?
4	А	Yeah, I don't think you could ever get into that,
5		saying this is no doubt what he was thinking.
6		Some media person might try to figure that out for
7		themselves, but I can't imagine a prosecutor
8		saying no doubt judge X was thinking Y and Z here.
9		I would think that would be very touchy.
10	Q	Folly?
11	А	I would think so.
12	Q	Thank you, Mr. Caldwell.
13	А	Yeah, thanks very much.
14		COMMISSIONER MacCALLUM: Ms. Krogan, can
15		you help me out with the page from the
16		transcript? You said that perhaps you should
17		have been consulted the suggestion was put by
18		Mr. Lockyer, perhaps you should have been
19		consulted
20		MS. KROGAN: Mr. Commissioner, I would love
21		to say that I have that offhand, but I don't.
22		COMMISSIONER MacCALLUM: You don't, okay.
23		MS. KROGAN: He questioned on Wednesday of
24		last week.
25		COMMISSIONER MacCALLUM: Wednesday?

1		MS. KROGAN: It was Wednesday.
2		COMMISSIONER MacCALLUM: Thank you.
3		(Discussion off the record)
4		MS KROGAN: Ms. McLean very kindly advised
5		that it would have been from Tuesday's
6		transcript.
7		COMMISSIONER MacCALLUM: Tuesday of last
8		week, okay.
9	A	I don't have that, Mr. Commissioner.
10		COMMISSIONER MacCALLUM: If I have your
11		question right, that it had to do with
12		consultation on the Fisher sentencing issues in
13		Regina and I took it from your question that Mr.
14		Caldwell agreed with Mr. Lockyer that perhaps he
15		should have been consulted. Was that your
16		question?
17		MS. KROGAN: That was my understanding
18		that was the question, sir, and that was my
19		understanding of the response.
20		COMMISSIONER MacCALLUM: Yes, okay.
21		MS. KROGAN: I wanted to explore that
22		further.
23		COMMISSIONER MacCALLUM: I'll be able to
24		find it, thanks.
25		MS. KROGAN: Thank you.

Α Okay, thank you.

Mr. Caldwell, just for the record so that anybody reading the transcript will know where we are, I am of course your counsel Catherine Knox and I can indicate to you that I want to take a bit of time to talk to you about some of the evidence you've given in these proceedings over the last three weeks and in doing so, if I forget to say it, I want, where possible, to ask you to think about my questions as most of them will relate to your actions in 1969, 1970, in the time of 1969, 1970.

Α All right, ma'am.

> And I say that with a full appreciation, perhaps better than most in the room, of how difficult it is for you to keep sorted out, but if you could kind of take your mind back to what it was like when you came to Saskatoon as a prosecutor in 1962 to be working in an office with only one other prosecutor and to be dealing in a prosecutorial practice where oftentimes major files indeed were being farmed out to private counsel because you didn't have the resource base within your office to handle them. I'm thinking of employing the services of Mr. Tallis, employing the services of

1		Mr. Halyk from my office and others as we know
2		from the record to prosecute murders and serious
3		charges even as you were running an office.
4	A	I'll attempt to keep that in mind, Ms. Knox,
5		thanks.
6	Q	Okay. And the other thing that I would ask, if
7		you could in answering some of the questions I'm
8		about to ask you, is to keep in mind the age as it
9		was of the time in terms of the level of knowledge
10		within the community of Saskatoon about things
11		like police investigation, Court proceedings and
12		things like that.
13	Α	All right.
14	Q	I was trying to remember last night when I was
15		framing some of these questions for you what was
16		the common TV shows that were available at the
17		time. I can think of Perry Mason as being a TV
18		show that was in the public arena at that time.
19		Now every time we turn on our TVs, 10 different
20		channels, we can get Law and Order, we've had, you
21		know, a million shows, we've had all kinds of new
22		information, but try to think in terms of what the
23		general public would have known back then as I ask
24		you these questions.
25	Α	Thanks, Ms. Knox.

Q	Okay. Now, I'm going to start a little out of the
	order I planned for myself, but to follow up on
	some of the questions that Ms. Krogan asked with
	you with respect to suggestions made to you last
	week about how the Fisher file should have been
	handled and how it was important that it should
	have been brought back to the community of
	Saskatoon so people in Saskatoon would know that
	the rapist that everybody was scared of had been
	captured.

A Okay, ma'am.

Q

Α

Now, at the risk of being accused by you and
others of being on a feminist soap box, as I have
been accused on occasions in the past, I'm going
to ask you, do you remember in 1969 what the state
of thinking was within police services and
prosecutorial services around allegations
primarily then of rape and where there wasn't
penetration of the penis in the vagina, the
indecent assault of women by male perpetrators?
Well, the offences, as we know, were categorized
differently. Indecent assault I think was the
bottom rung of sexual assaults as I recall,
possibly then attempted rape, then rape, and of
course various files would end up, in effect, as

Α

Q

common assaults under certain circumstances, but that whole library of possibilities was open, and of course on occasion these things indeed did escalate into murders.

escalate into murders.

Okay. But, sir, in terms of the professional reception of those kinds of complaints by police and by Crowns, would it be fair to say that there was a general school of thought out there that there was a reluctance to believe women who came forward, there was -- there were extreme difficulties if you were a prosecutor in prosecuting because of evidentiary rules, and in fact that the solve rate on these kinds of complaints or the charge rate was very low?

I would think that there was more of a reluctance than there is now, Ms. Knox, as the first part of my answer. Certainly police and/or prosecutors who ended up. if you will, with believable

who ended up, if you will, with believable complainants and proper investigation, things they believed in, would certainly follow them through as best they could, but I think the, what you've suggested may have -- was certainly more of the case than it is now in terms of looking with some doubt at females, complaints about, you know, offences committed against them, but that's a very

broad statement.

It's also true, isn't it, and there has been some skepticism when police officers have said in their testimony here that they didn't necessarily contact victims on these files to tell them what happened, but in fact there was a major, over the years between the late '60s into about 1973, would you agree with me, or do you remember even, that there was a movement by women in Canada, the feminist movement, to try to address the many problems that victims, and especially victims of these kinds of horrible offences, were encountering from police, within the justice system, from judges generally, there was an effort to try and take the biases out of the system to get help for women because they were generally seen by other women as being hard done by in the police and criminal justice system when these complaints were made.

I'm sure that's right, and I was aware of that in a general way, that there was certainly legitimate grounds for sentiment on the part of females, that they were not treated as a class with as much, if you will, veracity as, you know, equal males under some circumstances. I know that movement,

1 Ms. Knox, was something that was underway at that time, and undoubtedly no more than due let's say. 2 3 COMMISSIONER MacCALLUM: Are you speaking 4 of an attitude by the police or by the 5 prosecution or by both? I would think, My Lord, by I think society plus 6 Α the police and prosecutions, but not limited to In other words, there was a certain degree 8 9 of cynicism I think about complaints by women, 10 some of which may never have reached Court cases 11 is the way I would put it, sir. 12 COMMISSIONER MacCALLUM: Maybe Ms. Knox 13 would be reluctant to ask so I'll ask, what about 14 the judiciary? 15 I think there would be -- there certainly were, Α 16 if you'll forgive me saying, old-time judges, not 17 in the sense of chronological years, Mr. Commissioner, but ones who came from a time 18 19 when it was a little bit tough to sell some of 20 these complaints about sexual activity, followed 21 up by terminology like she had it coming or why 22 was she there at that time, there certainly were 23 some Queen's Bench judges of that day who were 24 notorious for absolutely not convicting people of

rapes, and I know that of my own knowledge.

1 course, Mr. Commissioner, there were many good 2 ones, or, you know, fair ones as well. 3 COMMISSIONER MacCALLUM: 4 Α But that certainly was the case. 5 COMMISSIONER MacCALLUM: I didn't want to steal your thunder, Ms. Knox, but --6 BY MS. KNOX: So, Mr. Caldwell, what we would be 8 0 That's okay. 9 talking about, and I come from a different 10 jurisdiction than you and I was only in grade 1 I 11 think when Mr. Hodson was in grade 6, so I'm even 12 younger than him, but back in those days the 'what 13 was she doing out at that hour of the night, why 14 was she wearing that kind of make-up, her skirt 15 was too short,' those kinds of things were the 16 kinds of questions that sometimes got bandied 17 around even in legitimate complaints of rape and 18 sexual assaults weren't they? 19 Yeah. I think some, as we all know, some of that 20 is held over, but I think it was much more the 21 case then, Ms. Knox, for sure. 22 Okay. And, Mr. Caldwell, in 1969 did the City of 23 Saskatoon have, and if you don't remember you can 24 trust me on it, but to your memory going back to 25 1969, 1970 did the City of Saskatoon have, for

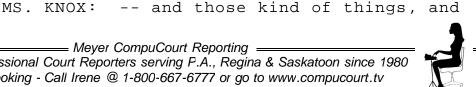

1		example, a rape crisis centre or anyone who
2		advocated on behalf of women who were victims of
3		rapes, indecent assaults and stuff to your memory?
4	A	I'm sure there was no rape crisis centre. The
5		advocates I could think of would almost fall in
6		the area of social workers who dealt with the
7		females in question and tried to assist them, but
8		I don't think there was a
9	Q	I'm going to push your memory a bit and ask you if
10		that dated back as early as 1969 or that that's
11		something that evolved through your practice to
12		your retirement from the active prosecution at the
13		provincial level into 1987.
14	A	It may have been later, Ms. Knox.
15		COMMISSIONER MacCALLUM: Do you mean help
16		by the social workers?
17		MS. KNOX: Social workers.
18	A	Social workers were a Saskatchewan phenomenon, a
19		lot of them were very helpful, and they would get
20		into those factual things, I suppose almost for
21		want of anyone else, Ms. Knox.
22	MS.	KNOX:
23	Q	Mr. Caldwell, I'm going to suggest to you that the
24		first rape crisis centre in Canada didn't open
25		until 1973 and it was not in Saskatoon, so

1		certainly there wouldn't have been one in
2		Saskatoon prior to 1973.
3	А	I'm sure you are right.
4	Q	And these are statistics drawn from a history of
5		sexual assaults in Canada, I will provide the
6		documentation to Mr. Hodson if he cares to have
7		it.
8		COMMISSIONER MacCALLUM: '70 which?
9		MS. KNOX: 1973.
10		COMMISSIONER MacCALLUM: '73.
11	В	Y MS. KNOX:
12	Q	And, sir, I believe I don't have the document
13		in front of me, I believe that first crisis
14		centre, as is the case with most things, opened in
15		Toronto, but we can check on that.
16	А	All right.
17	Q	Do you have a personal memory now of when the
18		first rape crisis centre opened in Saskatoon, in
19		particular, and in the Province of Saskatchewan if
20		it wasn't first here in Saskatoon?
21	А	I do not, Ms. Knox, have that.
22	Q	Okay. And, sir, by way of history and testing
23		your memory again, and I have notes in front of me
24		so it's easy for me, do you remember that the
25		Criminal Code with respect to the offences of

1 rape, indecent assault, was in fact amended in 2 1982 and some of the archaic offences, archaic 3 rules were abolished again in large part because of the movement by advocates for women victims 4 5 that said they just got hard done by in the criminal justice system for archaic rules of 6 evidence, archaic attitudes by the players and all 8 kinds of a multiplicity of reasons to have the law 9 changed? I'm sure that that is correct, ma'am, that that 10 11 happened at or about that time. 12 COMMISSIONER MacCALLUM: 1972? 13 MS. KNOX: 1982, Mr. Commissioner. 14 COMMISSIONER MacCALLUM: Oh, '82. And are 15 you speaking of the designation of offences 16 compendiously under sexual assaults? 17 MS. KNOX: The repeal of the old rape 18 provisions, the indecent assault on a female, 19 indecent assault on a male, there was a major 20 bill, I'm thinking C-127, C-128, that completely effectively replaced it, also changed some of the 21 22 rules of evidence around issues like recent 23 complaint --24 COMMISSIONER MacCALLUM: Recent complaint.

I do have again, as I said, a history, I can provide it, but I'm just sort of skipping over the highlights of some of it in terms of the time and the way victims were being regarded in these offences in those old days, if I may use that term.

COMMISSIONER MacCALLUM: Uh-huh.

## BY MS. KNOX:

And, sir, do you have a personal memory of when it was in the Province of Saskatchewan that a victim services office, and by that I think I'm referring to what you call the social workers who helped out people, when a victim service office actually opened in the Province of Saskatchewan, and in particular in Saskatoon, to assist victims of crime, including those who had horrific personal things happen to them like the sexual assaults and various permutations of the old offences of rape and indecent assault?

I thought of social workers as separately, not in a negative way, Ms. Knox, but when that victim services organization came in, I'm not positive about that, but there was a legislation in Saskatchewan which allowed people to seek financial compensation based on crimes committed

1		against them, if you will. I at the moment am not
2		sure I assume that included sexual offences.
3	Q	You are thinking of the victims of crime acts
4		which allowed for financial redress?
5	A	That's what I'm sure it's called, or was called.
6	Q	And we can check the date of that being invoked in
7		Saskatchewan, but I'm going to suggest to you it
8		certainly wasn't in place in 1969, and if this
9		province parallels others, probably didn't come
10		into place until the early or mid '80s.
11	A	I'm sure you are right.
12	Q	I'm like Mr. Lockyer and I'm going to tell you not
13		to trust me too much. But that's what you are
14		thinking of, is the victim services legislation.
15	A	Okay.
16	Q	Where victims could apply to the government for
17		financial compensation for lost wages, injuries
18		suffered and those kinds of things if they were
19		victims of crimes?
20	А	That's my memory of it.
21	Q	Okay. And, sir, one other I didn't pull up a
22		document number, but early in the proceedings, and
23		I'm not sure if you were present, Mr. Hodson
24		referred us to statistics, crime statistics for
25		the Saskatoon Police Service in 1969 and 1970. I

have a memory that the complaints of rape in '69 or '70 was, like, 14 and the number that resulted in charges was, like, five, and I may be wrong on that, and I'm sure somebody will correct me, but I just didn't take the time to go look the document up to refresh my memory, but does that percentage of charge rate sort of strike you as being in accordance with the practice, the times, that it would be a low charge rate, a relatively low number of complaints if it was only 14, but certainly that less than half of them ended up in being charged or case concluded by a determination that they were unfounded or some such thing? That sounds realistic to me, and to some extent of course it was in proportion to the size of the city, Ms. Knox, in terms of population; in other words, it was quite a bit smaller, but of course that statistic is very striking which seems small by any measure I would say. If I'm right on it, and I stand -- I'll have someone correct me on it I'm sure if I'm not. Okay. And, sir, did you develop any policy during the years, and I don't mean this in any way to be chastising, critical or anything of that nature,

but did you, within your office in Saskatoon from the time you came in 1962 or 1965, take any steps to develop a policy or a direction for police and yourself and Mr. Perras, your original prosecutor, and subsequent prosecutors as they came, to encourage them to be attentive to emotional crimes like rape and sexual assaults and those kinds of things that were personally painful and ensure that somebody made sure to look out for victims? Not in the so-called early days. One thing I do recall that happened in our office was quite an elaborate scheme was put together for the prosecution of child victims, I think sexual and otherwise, there were eight or 10 signatories to this, including the chief of police, social services, a lot of legitimate agencies who at that point it was felt that these things were not getting the attention or priority they deserved. We got out a policy and I actually used the signature page as part of my CV after that for a while and that was more directed towards children, but I think it would include sexual matters if I'm not mistaken, Ms. Knox.

There was also another employee of the provincial government in the local Crown

1 prosecutors, and I expect elsewhere, who had a job 2 for a while of making certain that victims got to 3 know the results of the cases, in effect, and I 4 think maybe a little more proactive in seeing them 5 at the court house and making sure they are comfortable, etcetera, but at one point there was 6 a real gap in notifying victims of the outcome of their cases, good, bad or indifferent. 8 9 Okay. And again in terms of assisting you and 10 assisting us with trying to put dates or time 11 frames around those developments --12 Α Uh-huh. 13 0 -- I'm going to suggest to you that the initiative 14 that you are talking about with respect to making 15 prosecutors better at prosecuting, police better 16 at investigating and the system more sensitive to 17 children was an initiative that came after the 18 Badgley Commission report on sexual offences 19 against children in Canada was released in 1985, 20 and again I might be a little wrong on the date, 21 I'm --22 Just let me think of that. That's quite possible 23 because I was still with the department until 1987 24 and I recall this being something that happened

not long before I left. There was actually a

study done in which some governmental agency actually, in effect, approved of the way our office was handling these things I think, and of course, needless to say, I could never find the study after that, but it did exist, so there was -- that '85 sounds right because I wasn't there that long after that, Ms. Knox, and that document should be relatively easy to find I hope. Okay. And, sir, again in terms of placing in time when you have in your mind that during your tenure as the senior Crown there was an actual staffing position in the office to let victims of crime know what happened to their cases, was that before or after this initiative with respect to being more responsive and more responsible about how we dealt with complaints by children and their families, that they were victims of sexual abuse? Well, that one position, Ms. Knox, was after I left the -- because I learned about it when I was on Provincial Court by saying who is that and what's going on. It, I think, may have had a limited life span, but I thought it was a very commendable move. But just so that we're clear on what was available and what was there to consider in

1		1969-'70, that position wasn't there until after
2		you left in 1987?
3	A	That's right, yeah.
4	Q	Okay. So to go back I guess to where I started
5		with this, in 1969, taking yourself back to 1969,
6		1970, 1968 when these first complaints came that
7		women were being assaulted in the city, within
8		your office did you have a particular mechanism in
9		place to be, and I'll use the feminist word,
10		sensitive to victims of these kind of complaints
11		and allegations and no mechanisms in place to make
12		sure that they were included, briefed and made
13		aware about complaints that they made?
14	А	Were you suggesting we did not have it, Ms. Knox?
15	Q	Yes.
16	A	Yes, that's correct, we did not have any
17		organization, formal or otherwise, to do that at
18		that point for sure.
19	Q	So to take that to its next logical conclusion, is
20		it fair then to say that what happened to the
21		victims that we've heard about in these
22		proceedings in 1969, 1970 who did not learn that
23		Mr. Fisher had pled guilty to and was convicted of
24		assaults, or rapes of at least four of them,
25		wasn't uncommon; in fact, if they had found out
		Meyer CompuCourt Reporting ————————————————————————————————————

that might be more the extraordinary event?

A If they had found out it would be the initiative usually I think of a conscientious investigator and on occasion a prosecutor might decide to carry that out by making a phone call, but it was, I would think, the exception.

Q Okay. Now, sir, I want to take some time, and I don't intend to go through everything that you've

don't intend to go through everything that you've been through in the last four weeks, I want to just touch on some of the suggestions that have been made to you, particularly where those suggestions have been accompanied by the -- or accompanied by a further suggestion that somehow you engaged in improper behaviour, and that's of course my biggest concern, and I want to start with the suggestion that has been made a number of times that you did not adequately disclose to Mr. Tallis all that should have been disclosed to him in 1969. Mr. Elson today touched a bit on the disclosure standards of the day, Mr. Pringle touched a bit on it when he examined you last week, Mr. Lockyer and Mr. Wolch touched on it at various points, but I want, if I could, to bring up a letter that Mr. Tallis wrote to you on June 10th, 1969. The document number is 009289 and I

1 want to refer you to a sentence, if I can bring 2 that out with my scratches all over it -- my 3 fingernails don't work very well on the screen I must say -- you described Mr. Tallis last week as 4 5 a very able counsel, a professor at the law school, one very learned in the law I think would 6 be a good way to capture your belief and your understanding of his standard of practice? 8 9 Α Yeah, not only in the academic sense, but very 10 much in the practical day-to-day sense, Ms. Knox. In this letter to you, his first of June 11 Q 12 10th, 1969 to advise you that he was going to be 13 acting as defence counsel for Mr. Milgaard, he 14 asked you for a number of things but he made this 15 statement that's of interest and which I direct 16 your attention to: 17 "I realize that I may not be entitled to 18 them as a matter of law but I can assure 19 you that I never try to abuse 20 co-operation of this nature when it is 21 accorded to me." 22 Uh-huh. 23 And I take it, sir, that when Mr. Tallis made that 24 statement in that letter of June 10th, 1969 he

was, in fact, correctly stating the law with

1		respect to the Crown obligation to provide
2		material to him?
3	А	Yes, he, I'm sure he was, and I I've I find
4		the wording of this paragraph is, I thought,
5		extremely appropriate because it's a polite
6		request, "would you assist me and let me have
7		copies and related reports", and then he says he
8		realizes he may not be entitled to them as a
9		matter of law, which we will assume is the actual
10		law of that day:
11		" but I can assure you that I never
12		try to abuse co-operation of this nature
13		when it is accorded to me."
14		So there would be no earthly reason not to
15		cooperate with that because it was very (a)
16		correct in law I believe now, and (b) very, a
17		very polite and professional request for me to do
18		something.
19	Q	Sir, putting aside what you know now because we
20		have had many reviews of the David Milgaard
21		prosecution file, we have had reviews of the
22		police, the Gail Miller investigation file, all
23		the reviews that have gone through various formal
24		channels, some informal channels, but ultimately
25		bring us here today, and putting aside everything

that you would now do differently with the benefit of knowing that Mr. Milgaard was innocent of this crime in 1969, did you in any way consciously attempt, in 1969, or deliberately withhold anything from Mr. Tallis that you felt could be used by him to establish the innocence of David Milgaard?

A No, absolutely not, Ms. Knox.

Q In your -- and there's various correspondence, I

won't go through it, that speaks with -- exchanged between you and him, and notations in your file about discussions with him, invitations to him to come look at your file, for him to attend police meetings that you were having with police officers; at any time did you ever make any suggestion to a police officer, "don't say that in front of Mr. Tallis", or did you have any police officer say to you, "don't let Cal Tallis know about that because he might get on to the fact that we're up to somethin' here or we're doin' a dirty deed?"

None of that happened, I didn't detect that on the part of any police officers and it simply was not in -- it simply did not happen in this instance, period.

Q	Sir, there have been various suggestions made
	through the inquiries that have gone on over the
	years and the evidence that we have had at the
	Inquiry about the information that you had in your
	possession in 1969, and some have argued that you
	had the whole police file, in fact Elmer Ullrich
	testified in his video statements that he gave you
	everything that he got, which he believed to be
	the whole police file,

Α Uh-huh.

- -- and you've stood fast that you didn't get the whole Gail Miller murder file; do you recall that, your evidence in that regard?
- Α Yeah, I remember that.
- 15 Sir, I'm going to ask to bring up -- now, Q 16 before I go there, would you agree with me that all of the evidence points to the fact that Ray 18 Mackie was probably the, at the end of the day, 19 the person who had the most hands-on to do with 20 the file? And I speak of that in terms of organizing the file, getting all of the materials 22 together, and ultimately I suspect he was the one 23 who delivered what should go to you on the Milgaard file to Mr. Ullrich, and we'll see if that is, proves to be the case, --

		<b>G</b>
1	A	Okay.
2	Q	but essentially he was a pretty key figure in
3		terms of the paper flow and keeping all of the
4		materials in line so that you would know
5		everything that you needed to know, hopefully, to
6		prosecute this case properly?
7	A	Yeah, that's right.
8	Q	Okay. And I wonder if I could bring up a portion
9		of a transcript of an interview that was recorded
10		between Mr. Mackie and Peter Carlyle-Gordge in
11		what was likely after Mr. Carlyle-Gordge met with
12		you on March 11th-March 12th, 1983, and the
13		document page in particular that I want brought up
14		is 325621, which is page 6 of the transcript of
15		the interview between Mr. Mackie and
16		Mr. Carlyle-Gordge.
17		COMMISSIONER MacCALLUM: What's the doc.
18		ID, do you know, Ms. Knox?
19		MS. KNOX: Unfortunately, I only took it
20		from 325619, I'm going to have to ask
21		MR. HODSON: It's up there now, 325616.
22		COMMISSIONER MacCALLUM: 616?
23	ВУ	MS. KNOX:
24	Q	Okay. Going if I could, then, to page 325621, and
25		I'm going to just get the staff to bring up the
		•

1		exchange that takes place between Peter
2		Carlyle-Gordge and yourself, starting here. Ray
3		Mackie?
4		MR. HODSON: RM, Ray Mackie.
5		COMMISSIONER MacCALLUM: And Ray Mackie?
6		BY MS. KNOX:
7	Q	Ray Mackie, sorry. And, in particular, I want to
8		direct you to the part where Peter Carlyle-Gordge
9		is saying to Mr. Mackie that he saw the file
10		and by that we know it was your file within your
11		office that he had been in and looked at just
12		before this interview, if he did do it in
13		accordance with the schedule that you and he had
14		talked about and he comments that there were an
15		unbelievable number of interviews, and in your
16		file you had 95 plus, we keep talking about 95
17	А	Yeah.
18	Q	but did you get a few others after, like
19		Maurice Cerato, George Lapchuk, Ute Frank,
20		Craig Melnyk and those?
21	А	Uh-huh.
22	Q	And you will see here what Ray Mackie said in 1983
23		when Mr. Carlyle-Gordge was talking about how big
24		the file was, and he said, and:
25		" he wouldn't have it all. There
	I	

1 would be part of it in a file at the 2 station that was ... cover things that 3 were done and yet not connected with it 4 at all." 5 So, sir, in 1983 it would appear that Mr. Mackie was sharing your view that there were two kinds 6 of files involved at this investigation, the part that had to do with David Milgaard that was what 9 you called the David Milgaard prosecution file, 10 and a Gail Miller murder investigation file, as 11 you refer to it, that had many things on it not 12 sent to you because they didn't appear to be 13 connected to the prosecution of David Milgaard? 14 That's the way I read this. He says: Α 15 "There would be part of it in a file at 16 the station that was ...", 17 etcetera, which is the part, clearly, that I did 18 not have, Ms. Knox, is what he is talking about. 19 And Mr. Caldwell, you would agree with me that you 20 and I haven't looked at that particular passage 21 before today, because I must confess I found it on 22 the weekend? 23 Α No, we haven't. 24 But does it give you some comfort that as far back 25 as 1983 Ray Mackie, who played a major part in the

		-
1		file, was asserting that you did not have the full
2		investigation file?
3	A	Yeah, that's certainly, I think that's correct,
4		and it makes sense, and I'm pleased to see that he
5		had that memory of it, Ms. Knox, when he made this
6		interview, which of course is some time ago now.
7	Q	1983.
8	A	Yeah.
9	Q	Again, it doesn't have a date, but assuming that
10		Mr. Carlyle-Gordge and we'll hear from him
11		followed what he thought he would do after he
12		finished his interviews with you, because Ray
13		Mackie testified that he called you and asked you
14		should he talk to Mr. Carlyle-Gordge, and you
15		encouraged him to go ahead?
16	A	I recall that as well, ma'am.
17	Q	Yes. Now, sir, at various points in time you have
18		been referred to the document by many in these
19		proceedings, including Mr. Hodson, Mr. Elson,
20		Mr. Wolch, Mr. Lockyer, that's "the script"
21		document?
22	A	Yeah, that's right.
23	Q	And you've asserted that that's a document that
24		was never in your prosecution file?
25	A	That's correct.
	1	

1	Q	That the first times you saw it were during, I
2		guess, the 690 review when you saw it in Inspector
3		Quinn's office at the Saskatoon Police Service,
4		and you saw it when you accompanied Mr. Pearson,
5		or Sergeant Pearson to the prosecutors office in
6		the basement of the courthouse. And it was in a
7		file that was marked Art Roberts, Polygraph
8		Operator, or labelled to that effect, which we've
9		since found?
10	A	Yeah, that was in, that latter was in Regina. The
11		order of those, Ms. Knox, I'm not sure, but those
12		were the only two.
13	Q	Okay. There's some suggestion in some of the
14		materials that Mr. Wolch asserted at one time that
15		a copy of this script document had markings on it
16		that showed it had been received at the
17		prosecutors office, and I think he may have
18		suggested that there might even have been
19		handwriting on it that was yours, and I ask you;
20		have you ever seen a copy of a version of this
21		script document that has anything on it to
22		indicate that it was received at your office, or
23		personally reviewed and marked on by you, in any
24		manner whatsoever?
25	A	Not at all, ma'am.

1 Q Sir, you said to Mr. Lockyer last week that, and 2 when he was questioning, I guess what could best 3 be described as the efficiency of your memory in that you could remember; you could remember things 4 5 that might be helpful, you couldn't remember things that might not, that it was said by you 6 that this particular document stuck out in your mind when you saw it in 1990 because it was 9 different. And that was a statement that's 10 contained in the transcript, and I -- I did mark 11 it, Mr. Commissioner, and I may come to it as I go 12 along, and I won't give you the document ID. 13 discussion is around -- it's at transcript page 14 17721 where Mr. Lockyer said: 15 "And I must say, sir, I don't understand 16 how you can have absolute certainty in 17 that regard when we consider so many of 18 the other documents that you did see 19 that you now can't remember that you 20 I'm wondering how you are ever saw. 21 able to put all these other documents in

22

23

24

25

and it continues on for some pages about that, and your response to him was that you had never seen a parallel document of this on any of the

The

front of you ...",

1		other serious prosecution files up until this
2		point. And I take it, as a prosecutor, there was
3		a familiarity and a design to the kinds of
4		reports that police sent to you; we have, in this
5		file we have the occurrence report, we have
6		investigation reports, but everything follows a
7		format as it were?
8	Α	The large that's correct.
9	Q	And from the laboratory you get files, you get
10		forms in a particular format, if you practice for
11		ten years as a prosecutor you've seen a thousand
12		of them, if you practice for 20 years you've seen
13		20,000, and the numbers continue?
14	Α	That's right, Ms. Knox.
15	Q	Okay. The kind of document that the script
16		document represents doesn't have any standard
17		police form to it; does it?
18	A	No, it does not. The thing I said to in this
19		line 15:
20		"I had never seen a, if you will, a
21		parallel document on any of the other
22		serious prosecutions we had had up until
23		that point come into pardon me, come
24		into our office."
25		And then, later in the paragraph:

1		" we never had similar documents
2		surface in other files and of course
3		that in itself made it stick out.",
4		and, Ms. Knox, I couldn't put it any better than
5		that in my opinion.
6	Q	Okay. I want to take your, the accuracy of your
7		memory as you purport it to be, a step further and
8		ask you; if this document had been on your file in
9		1969 when you were prosecuting and at the
10		conclusion of the file in 1970, January 31st the
11		trial is over, I take it, your evidence being what
12		it is and your file being what it is, it would
13		have stayed with the file?
14	А	Yeah, that's correct.
15	Q	And
16	А	It would have stayed with the file because my
17		the way this particular file developed, despite
18		what I said to Chief Kettles in the letter I in
19		fact did hang onto the file indefinitely and I did
20		not discard items from it, and therefore by
21		definition that script would have had to be there
22		later.
23	Q	And, sir, if we follow that logic, that if it was
24		there in 1969 and it was there in 1970 and it was
25		there in 1990 when the file your file ended up
		Meyer CompuCourt Reporting ————————————————————————————————————

1		in the courthouse in Regina and we'll hear
2		evidence from others, including Mr. Neufeld and
3		Mr. Brown
4	A	Uh-huh.
5	Q	about how your file got kept and whether there
6		was any effort to keep the integrity of it
7		intact but if it had been there in 1969-1970,
8		if I can take myself where I want to go here, and
9		it was there in 1990, would you agree with me that
10		it would have been in the file in 1981 when Gary
11		Young came and looked at your file on behalf of
12		Mrs. Milgaard?
13	A	It would have had to be in the file for because
14		of that very definition, ma'am.
15	Q	And perhaps more significantly, given the mission
16		of disguise he went under of to you in 1983, it
17		would have been, had to have been there in
18		February of 1983 and March 1983 when
19		Mr. Carlyle-Gordge spent extended hours, according
20		to his correspondence to you, looking at your
21		file, dictating notes from it, and interviewing
22		you about it?
23	А	Equally, it would have had to be there then.
24	Q	Okay. Sir, I've reviewed the transcript of your
25		interview as it was recorded with

1		Mr. Carlyle-Gordge, or two interviews, and I don't
2		find anywhere in that where he asks you about that
3		document; do you remember him asking you about
4		such a document?
5	A	No I do not.
6	Q	And, sir, I don't see anywhere in any of the
7		documentation that I have where he, subsequent to
8		meeting with you, reviewing your file, dictating
9		notes on your file, identified the existence of
10		that document to anyone. To your knowledge, did
11		Peter Carlyle-Gordge ever say to anybody, "oh my
12		God, I found a document that sent shivers through
13		my spine on that file when I was looking at it in
14		February and March on behalf of the Milgaards in
15		the efforts to exonerate David Milgaard?"
16	A	He I never I did not hear any reports back
17		to that effect and, clearly, it didn't happen in
18		my presence either.
19	Q	Okay. Sir, given the descriptions that have been
20		given to it by Mr. Lockyer, by Mr. Wolch and
21		others, if it had been on your file, and given
22		that Mr. Carlyle-Gordge noticed little details
23		like the Larry Fisher note by Sergeant
24		McCorriston
25	Α	Uh-huh.

1	Q	or Constable McCorriston, can you imagine that
2		he would have missed it in his thorough review, or
3		what appeared to have been a thorough review of
4		your file, over a number of hours?
5	A	No, I can't imagine that he would have missed it.
6		I can only say that the way he went through the
7		file, un un, you know, bridled from my point of
8		view, he couldn't have helped coming across it if
9		it physically was there.
10	Q	And, sir, similarly with Gary Young when he came
11		to your office, and my understanding was his visit
12		to your office preceded Carlyle-Gordge by a couple
13		of years?
14	A	Uh-huh.
15	Q	Did he draw to your attention, say "what's this,
16		my God, this is a terrible thing, how could this
17		be", anything of that nature to suggest that he
18		saw anything in your file that caused him that
19		kind of shiver or concern that's been ascribed to
20		this document by this and other proceedings?
21	А	No, that did not happen with Mr. Young, ma'am, and
22		of course he was there under perfectly legitimate
23		circumstances as we will be hearing later on.
24	Q	Okay. In fact, he was there as counsel, with your
25		full co-operation
	1	<b>—</b>

		•
1	A	Yeah.
2	Q	and with your knowledge that he was there on
3		behalf of David Milgaard and Mrs. Milgaard in her
4		assistance to her son?
5	A	That's correct, came into the office, read the
6		file over, however long it took, and may or may
7		not have asked me some questions and went on his
8		way, as far as I know, happy, satisfied that he
9		had seen everything.
10	Q	And we had some evidence last week I believe
11		last week, I'm losing track of the weeks that a
12		CBC reporter or a CBC assistant, Sandra Bartlett,
13		at some point in the late '80s went through the
14		file?
15	А	Uh-huh.
16	Q	And did she, or to your knowledge did she ever
17		purport to see this document on your file, to get
18		shivers because she saw it there or in any way
19		identify that kind of supposedly sinister
20		machination by police, and maybe by you, in your
21		file from 1969-1970?
22	A	No. That was part of the Eric Malling interview
23		which, in fact, he did record a television program
24		in our offices in Canterbury Tower and it, to the
25		best of my knowledge, was never shown because he's

1 -- he changed channels. 2 Now I first heard about or had 3 that name brought back, Sandra Bartlett, Ms. Knox, 4 in the Inquiry, and I came out of whatever room we 5 were shooting this interview in to find her in our office looking through the file. I didn't 6 authorize that. It had to be, it had to be, you know, gotten out so I could look and get the usual 8 9 information back into my head about numbers and 10 what -- and things like take, she was there and 11 perusing the file when I came out of somewhere 12 along the way of this televised show we did, and 13 that's how that happened. I'm -- should have 14 recalled that when I was asked about it, but it 15 wasn't by my leave, by any means. 16 But nonetheless, with or without your leave, --Q 17 Yeah. А 18 -- she had apparently unrestricted access, at Q 19 least for a period of time --20 Yeah. 21 -- and we may hear from her as to how much time, Q 22 23 Α Yeah. 24 0 -- but certainly she had access to your file, you 25 didn't remove anything from the file --

1	A	Oh no, heavens no.
2	Q	before she got access to it, or put it back
3		after she did?
4	A	No, I did not. I didn't know she was going to
5		look in it, and her looking in it had nothing to
6		do with the contents, which were the same as
7		they'd been for ages now.
8	Q	And perhaps to state the obvious, before and I
9		believe you've stated it before before
10		Mr. Young came and before Mr. Carlyle-Gordge came
11		you didn't take anything off the file and hide it
12		from them I take it?
13	A	No, it stayed the same, to the best of my
14		knowledge and supervision, throughout all these
15		periods we have been dealing with now.
16	Q	And just a final question or two in this regard
17		and then I'll leave it as, conveniently, it's time
18		for me to end the day. In 1989 you were contacted
19		by Eugene Williams of the Department of Justice
20		and, among other things, you were asked to review
21		the file, your prosecution file as it still
22		existed from 1969-'70, and at one point he asked
23		you to review it with a view to finding any
24		mentions of attacks on other women with knives,
25		nurses and so forth, and we have and there are
		Meyer CompuCourt Reporting

1 document numbers before the Commission, I can pull 2 them up for the morning if we need them -- but you 3 sent him a series of materials from your file, as the letter indicated, in October 19 -- or letters 4 5 indicated in October 1989, including statements by Miss (V9)----, Miss (V4)---, Miss (V)----, and I'm 6 going to draw -- (V6)--- (V6)-, among other things, --Α Uh-huh. 10 -- and made references to other things in the file 11 that might be of interest to him. Had that 12 document been on your file in October 1989 when 13 you went to review it, there was reference at the 14 very first page to (V1)--- (V1)-, do you think 15 that you would have included that in the items you 16 identified for him that could potentially be of 17 interest in his review of this particular file 18 and, in particular, in light of the information he 19 had received from Mr. Wolch? 20 Well I think, by definition, if the document 21 somehow had been in the file at this point, 22 clearly it would have -- it would have caught my 23 attention and I would have said "what's this doing

here, when did it get here", and presumably sent

it to Mr. Williams, Ms. Knox, if I'm following

24

1 you. 2 COMMISSIONER MacCALLUM: The script 3 document; is that what you are talking about? BY MS. KNOX: 4 5 Q The script document, yes, the four-page document. Yeah. 6 Α And, sir, Mr. Lockyer suggested to you in Q 8 ever-so-polite terms that he doesn't believe you 9 when you say you never saw that report or that 10 document before 1990; had you had a sinister 11 motivation sufficient that you would come before 12 this Inquiry and lie about it could you have taken 13 the document that was on your file in 1989, when 14 you went to look at it, and ripped it to shreds 15 and nobody would have been the wiser? 16 Well, I guess it's a hypothetical question, it А 17 wasn't there. If it was there I certainly 18 wouldn't have destroyed it because, Ms. Knox, in 19 the Inquiry some number of things have come to 20 light for the first time, as I understand it quite 21 legitimately, and that may still happen; other 22 things have proven not to be where they should be. 23 I certainly wouldn't have treated it by destroying 24 it by any stretch of the imagination. 25 Sir, I raise it only because, in his Q

1		questions, Mr. Lockyer suggested that you were
2		conveniently choosing how you remember that and,
3		in effect, that you were lying, that it was indeed
4		a part of your 1969 file. And I ask you, if you
5		in fact had a sinister motive, could you not
6		simply have taken that and ripped it to shreds if
7		it was on your file?
8	А	Oh, indeed, in that scenario I would have.
9	Q	And similarly, if you would have had a sinister
10		motive, could you not have taken that lab report
11		about Ms. (V2) that you marked "omit,
12		different file" in 1969
13	A	Uh-huh.
14	Q	and simply ripped it to shreds so it wouldn't
15		appear on your file when anybody other than you
16		went into it?
17	Α	Under that definition I would have, Ms. Knox, done
18		that.
19	Q	You could have, not that you would have, you could
20		have?
21	А	Excuse me.
22	Q	If you were trying to cover up malfeasance or
23		wrongdoing on your own part, you had ample
24		opportunity to destroy these documents rather
25		than, as he suggested, to find yourself in a

1		position where you would have to lie under oath			
2		about them; didn't you?			
3	А	All kinds of opportunity over the years to do that			
4		at any time I felt like it, is the way I would			
5		answer that, madam. It clearly didn't happen.			
6	Q	Mr. Caldwell, regrettably I have to say that I am			
7		finished for the day, but not finished entirely,			
8		so you do have to come back tomorrow.			
9	A	One out of two isn't bad, ma'am.			
10	Q	And Mr. Commissioner, if I can and I've made a			
11		note to myself and this is just me in my editorial			
12		ways when Mr. Wilson was asking questions of my			
13		client and he was asking him in particular about			
14		the allegations against Mr. Romanow, Mr. Lysyk and			
15		others, my client said that he understood the			
16		applications or the allegations and knew that			
17		it was suggested that these gentleman had gotten			
18		the two files, the Milgaard file and the Wilson			
19		file together			
20	A	Oh, pardon me.			
21	Q	and sort of connived about making sure nobody			
22		discovered a link.			
23		Just for the accuracy of the			
24		transcript I take it, sir, when you said "the			
25		Milgaard file and the Wilson file", be it Ron			
	1				

		——————————————————————————————————————
1		Wilson or learned counsel, you really meant the
2		Fisher file?
3	A	I did, and I specifically include exclude
4		Garrett Wilson from this plot, ma'am.
5	Q	Okay. That might be of some assistance to the
6		transcription staff so that it reads correctly.
7	A	Yeah. Glad you brought that up.
