Commission of Inquiry

Into the Wrongful

Conviction of David Milgaard

before

THE HONOURABLE MR. JUSTICE

EDWARD P. MacCALLUM

# Transcript of Proceedings

and

Testimony before the Commission sitting at the

Sheraton Cavalier Hotel at Saskatoon, Saskatchewan

On Thursday, November 24th, 2005

Volume 98

Inquiry Proceedings

## Commission Staff:

Mr. Douglas C. Hodson, Commission Counsel

Ms. Candace D. Congram, Executive Director

Ms. Sandra Boswell, Document Manager

Ms. Cheryl Ellerman, Document Assistant

Ms. Jody Kendry, Document Assistant

# Support Staff:

Ms. Irene Beitel, Clerk to the Commission

Ms. Karen Hinz, CSR, Official Q.B. Court Reporters

and Mr. Don Meyer, RPR, CSR,

Mr. Hugh Esson, Security Officer

Mr. Tony Fitzpatrick, Inland Audio Technician

### Appearances:

Mr. Hersh Wolch, Q.C., for Mr. David Milgaard

Ms. Joanne McLean, for Ms. Joyce Milgaard

Ms. Lana Krogan, for Government of Saskatchewan

Ms. Catherine Knox, for Mr. T.D.R. (Bobs) Caldwell

Mr. Jay Watson, Esq., for Mr. Serge Kujawa

Mr. Pat Loran, Esq., for the Saskatoon Police Service

Mr. Aaron Fox, Q.C., for Mr. Eddie Karst

Mr. Bruce Gibson and Ms. Rochelle Wempe, for the RCMP

Mr. Eamon O'Keefe, Esq., for Mr. Larry Fisher

Mr. David Frayer, Q.C., for Minister of Justice

(Canada), The Hon. Irwin Cotler

- Q Good morning, Mr. Pearson.
- A Good morning.
  - When we adjourned yesterday we were just at the end of 1991 as far as the chronology. Let me just try and recap a couple of things we talked about yesterday. At the end of November of 1991 the Federal Minister of Justice had asked the Supreme Court of Canada to hold a reference to answer certain questions and I think we went through that, you became aware of that. Secondly, the Saskatchewan Justice Department, the Attorney General's department became involved in the process and they were going to appear before the Supreme Court on behalf of the Saskatchewan government and we saw a note where you were at least made aware that Murray Brown and one other person would be involved in that matter, and we went through the (V14)-- (V14)- matter yesterday in some detail, your dealings there, and I think

towards the end of 1991 where it was left off is I think that once the reference was called we saw a note where Mr. Williams asked you to go ahead and re-interview the Fisher victims, so I think that's where we left off. Does that -- and again that's just a general recap of where we were. Does that sound right, sir? Yes, it does. And again, your notes are quite extensive, this chronology of tasks that you did, and I do not wish and go through them all obviously, Mr. Pearson, but I do want to just touch on generally again the, towards the end of 1991, 1992 time period, and it appears from the notes, and certainly some of the things we've gone through so far specifically, that you were investigating matters -- let's start with Larry Fisher. were investigating matters that would tend to incriminate him or connect him to the death of Gail Miller; is that fair? You were following up on various leads in that regard; is that right? That's fair, yes. And as well in some cases you were looking at evidence or information that might tend to exculpate Mr. Fisher; is that fair?

1		words, both sides of the equation, what might tend
2		to connect him, what might not, but again,
3		investigating to try and find either eliminate
4		him or move him from a suspect to someone who
5		might be charged. Is that a fair, general summary
6		of what you were doing?
7	A	That's fair, yes.
8	Q	And as far as the sources of information or where
9		you were getting information from, we've gone
10		through some of the reports where certainly Mr.
11		Williams was giving you information or giving you
12		specific requests; is that fair?
13	A	That's fair, yes.
14	Q	And I think, and I want you to comment on this
15		from the materials, it looks as though that in the
16		course of talking to people, for example, you
17		might talk to Linda Fisher and Linda Fisher might
18		tell you, you know, talk to Anita Pambrun, she can
19		tell about this, and then on down the line, so
20		that one inquiry might lead to another inquiry and
21		might lead to another inquiry and you were
22		following those up; is that correct?
23	A	Generally, yes.
24	Q	And secondly, another source of information, again
25		from your notes, I just want your general comment

1		on this, it looks as though you had spent some
2		time looking at the Saskatoon City Police file
3		through the course of your work on both 690
4		applications; is that correct?
5	A	Yes.
6	Q	And we see in the notes in some spots where you,
7		and I'll touch on some of these a bit later, but,
8		for example, the bus stop and Larry Fisher at the
9		bus stop and John Husulak, the bus driver, and
10		Dennis Elliott viewing cars in the area, it looks
11		as though you went back and looked at some of that
12		information to see if you could develop that into
13		either a connection to Larry Fisher or to some way
14		eliminate him; is that a fair summary?
15	A	That's a fair summary, yes.
16	Q	And so again as a source, if we look at the notes,
17		we see a number of inquiries you make, some of
18		those would be, if I can call it, based on your
19		own initiative based on what you read or saw
20		somewhere and you thought was prudent to follow up
21		on; is that fair?
22	A	That's fair, yes.
23	Q	And then if we look at David Milgaard as a
24		suspect, if I can call it that, at the time you
25		know that it's going to the Supreme Court of
		<b>a</b> 1

1		Canada on a reference, he's claiming he's
2		wrongfully convicted and there's an issue before
3		the Court relating to whether he I don't want
4		to get into the specific questions, but looking
5		into certain questions or issues relating to his
6		guilt or innocence, and we have seen in the
7		documents again some of the notes where you would
8		be pursuing matters that might tend to exculpate
9		David Milgaard, is that fair, that, you know,
10		looking at the scene of the crime, things like
11		that, that might tend to show that he didn't
12		commit the murder; is that fair?
13	A	I believe that's fair, yes.
14	Q	And there's also references, we saw some
15		yesterday, to Ben Dozenko, the prison guard
16		matter, where you were involved in pursuing
17		statements that might be on the other side of the
18		coin, that is, evidence that might tend to support
19		his conviction; is that fair?
20	A	Yes, that's fair.
21	Q	And again I think we touched on a bit, and maybe
22		just to confirm this, so as far as the scope of
23		your work, would you describe it as, again with
24		respect to Mr. Fisher and Mr. Milgaard, is it fair
25		to describe it that you were looking at

1		investigating all leads or evidence that came to
2		your attention that went both to guilt and
3		innocence of both of those individuals?
4	A	I think as viewing them as suspects, that's fair
5		to say. I mean, there was a lot of history here,
6		a lot of work that was in play and a lot of work
7		that could be done. This was a massive historical
8		case, so but I can say it's fair that I was
9		looking at both sides.
10	Q	Did you consider, and again and I'm talking
11		about the time frame around the end of 1991, but
12		right through from the second application through
13		to the time that it was in the Supreme Court, what
14		did you see your role as far as what you were
15		trying to establish or set aside or anything like
16		that, what did you understand your role to be?
17	А	I understood my role to be assisting the Federal
18		Justice Department in this task they had and to
19		pursue whatever information came to light or was
20		tasked on me.
21	Q	And were you
22	А	I wasn't looking at it as leading an investigation
23		or, you know, reopening this police investigation
24		as such, it was really an assistant's role is kind
25		of how I viewed it. I wasn't

		r age reer r
1	Q	And who did you think you were assisting?
2	А	Pardon me?
3	Q	And who was it that you were assisting, and the
4		part
5	А	I think I was assisting, I believe I was assisting
6		under the 690 process which was initiated through
7		the Federal Justice Department.
8	Q	And so in that respect, that if you if you
9		investigated and found some information, for
10		example, that might be helpful to Mr. Milgaard,
11		would that be something that you felt was part of
12		your mandate or duty in assisting Federal Justice?
13	А	I believe so, sure.
14	Q	And similarly, if you investigated and found
15		something that was not helpful, that might be
16		incriminating to David Milgaard, was that
17		something that you felt was part of your mandate
18		to Federal Justice?
19	А	That was my understanding, yes.
20	Q	And similarly, the same question with respect to
21		Larry Fisher, both incriminating and exculpatory
22		evidence or information, again, did you think that
23		was part of your duty or mandate in assisting
24		Federal Justice, to pursue those two areas and
25		bring it forward to Federal Justice's attention?
		Meyer CompuCourt Reporting

1	A	I believe that's the appropriate thing to do, yes.
2	Q	And I may have asked you this yesterday, and I
3		apologize if I did, but did you see yourself
4		taking sides on the issue of whether David
5		Milgaard or Larry Fisher was the person who killed
6		Gail Miller?
7	A	I don't believe I took sides.
8	Q	If we can just go back, if we can go back to
9		056743 which is the chronology and go to page
10		056836, and this is December 27th, '91 and it's a
11		call to Linda Fisher, you say, in an attempt to
12		determine if she can recall the kind of jacket
13		Larry wore during the early days of 1969, and it
14		says:
15		"It should be noted (V4) describes
16		her attacker as wearing a suede or suede
17		type dark half or three-quarter length
18		coat, with possible sheep type collar.
19		I believe in past conversations with
20		Mrs. Fisher, she described Larry as
21		having a jacket similar to this."
22		And then it goes on to talk about a phone call
23		with Mr. Levy who was (V4's lawyer. You say
24		you are interested in additional detail of the
25		assault and if she was reporting this as a

1		complaint, wanting charges laid, etcetera.
2		"Levy believes (V4) came forward only
3		because she thought she had information
4		which would assist in answering
5		questions on the Milgaard/Fisher case.
6		Levy will double check with his client
7		and let me know."
8		And that she's further available but does not
9		want publicity, and:
10		"He states Mrs. (V4) was upset
11		because when she came forward with the
12		statement provided to Asper's office, it
13		became known to the media."
14		Again, I think you told us yesterday your view on
15		the $(V4)$ matter, that I think you told us that
16		you felt that if a charge was laid against Mr.
17		Fisher, that that would assist in your
18		investigation of Larry Fisher for the death of
19		Gail Miller; is that correct?
20	A	If I thought about it at the time?
21	Q	Yes.
22	A	Yeah. Just reading from here, I would certainly
23		believe that that was something that would be
24		beneficial to this whole process.
25	Q	I think what you told us yesterday or the day

		1 age 15014
1		before was that if Mr. Fisher was convicted of the
2		(V4) assault, that would corroborate Linda
3		Fisher's story
4	А	Yes.
5	Q	that Larry wasn't at work that morning?
6	А	Yes.
7	Q	And secondly told us it would put him seven blocks
8		away from the murder scene?
9	А	Yes.
10	Q	And I think you said subject to the time issue,
11		that you felt it would be more helpful than not
12	А	Yes.
13	Q	if he were convicted of that; is that correct?
14	А	Yes.
15	Q	And I think you also told us, and correct me if
16		I'm wrong, that it would also give an opportunity,
17		or might give an opportunity, to have Mr. Fisher
18		testify about that morning; is that correct?
19	Α	That's fair, yes.
20	Q	And so again on this date, and this is a couple
21		weeks before the reference is starting, it appears
22		that you are following up on the (V4) complaint
23		and trying to see whether or not you can get
24		evidence to connect Fisher to the (V4) assault?
25	Α	It appears that way, yes. $\P$

1	Q	And if you connected him to the (V4) assault I
2		think, from what you've told us, did you think
3		that would assist in connecting him to the Gail
4		Miller murder?
5	A	Yes, yeah.
6	Q	And then just at the top, just at the bottom
7		there, if you can scroll down, and if you can
8		just this is a discussion with Mr. Williams on
9		December 30th if you can go to the next page
10		and it talks about:
11		" as Mrs. (V4) does not want
12		police action so far as herself is
13		concerned, however, she does believe the
14		person responsible is in fact Fisher."
15		So at that point it would appear that Ms. $(V4)$
16		said "I do not want to lay charges, I will
17		testify to help Mr. Milgaard or go to the
18		reference, I think it is Larry Fisher but I don't
19		want the police to take any action"; is that a
20		fair summary?
21	А	That, that's my recollection through this, yes.
22	Q	And then again I think you explain here to Mr.
23		Williams, you say:
24		"My comments to Mr. Williams was that if
25		Larry was responsible for the (V4)

assault at 7:07 a.m. on 31 Jan 69, he was in close proximity to the Miller murder scene. Also it raises the questions why Larry would tell Parker and McCorriston he was at work on Friday if he wasn't. It is possible Fisher thought the police may have been investigating the (V4)--- assault when they approached Larry at the bus stop, therefore causing him to lie about being (or) Fisher may have been at at work. the scene of both crimes, (V4)--- and Miller, therefore he said he was at work to avoid suspicion on himself. (V4---/Miller circumstance also gives some significance to Linda's statement that Larry was home that morning, however we may never be able to conclusively determine this." Do I take it from this, Mr. Pearson -- let me just try and summarize this and tell me if I've

just try and summarize this and tell me if I've captured your thinking correct -- on the one hand you are saying it's possible that -- and just again trying to connect the (V4)--- matter to the Gail Miller matter -- one, on the assumption that

1		Ms. (V4) is right that it was Larry Fisher who
2		assaulted her, did one scenario would be that,
3		I think you've said here, is that Larry Fisher
4		assaulted (V4) but had nothing to do with Gail
5		Miller, and that he lied to the police that
6		morning and he lied to his wife because he or
7		maybe thought the police were questioning him
8		about the (V4) assault; is that sort of one
9		scenario you are laying out?
10	А	Yes.
11	Q	And the other one is that he was committed both
12		the $(V4)$ assault and the Miller assault, and
13		that that's why he lied to the police and to his
14		wife; that's sort of the two scenarios?
15	А	I that's fair, yes.
16	Q	Yesterday we talked about the concerns you had
17		with Mrs. (V14)- identifying David Milgaard based
18		on a photograph in a newspaper 20 years later.
19		Did you have any concerns with (V4) (V4's
20		identifying Larry Fisher as the assailant based on
21		a newspaper photograph 20 years later?
22	A	Yes, I think that would have been a problem.
23	Q	And what concerns did you have?
24	A	Well it I think, again, it's the concern of
25		seeing, seeing one sole picture many years later

1		and making a positive ID. Is that something that
2		would stand the scrutiny in a courtroom? It is,
3		you know, it's something that is questionable.
4	Q	And if Ms. (V4) would have come to you and
5		said now putting aside the question of
6		jurisdiction, because presumably it would be a
7		Saskatoon City Police matter, is that fair?
8	A	Yes.
9	Q	Yeah. But putting that aside, if she came to you
10		and said "okay, I would now like to press
11		charges", when we talked about the (V14)- matter
12		yesterday I think you told Ms. (V14)-' lawyer that
13		"lookit, I have concerns with identity, I'm not
14		sure that a prosecution or charge would be
15		supported". Can you tell us what, if anything,
16		you might have done or said to Ms. (V4) with
17		respect to the identity issue?
18	A	Well, I didn't say anything to Ms. (V4),
19	Q	No, but one issue
20	A	but one issue certainly would have been the
21		same issue.
22	Q	No, but I'm saying what would you have said, and
23		I'm just trying to get your sense comparing
24	A	Again, I think this was would pose a similar
25		problem of having a positive identification some

25

Q

20 years later through a sole picture in the newspaper. And again, this would have to have some more counsel than just me making this decision, because it does pose -- pose a problem.

Okay then. Scroll down, please, to paragraph 438.

You say:

"Had a telephone conversation with Mr. Williams, I requested of him that he should contact Mr. Beresh to encourage Fisher and his counsel to sit down and try to recollect any details of the past which may assist in furthering this investigation. As Fisher is claiming innocence, he should now be more motivated than ever to recollect additional detail of his movements and activities during the time period of Miller's murder. Williams will run this by Beresh, however, I am not optimistic Fisher will be any more cooperative now than he has been in the past. His lack of cooperation has a tinge of suspicion to it."

I should point out, I think it was about December the 20th or thereabouts that Mr. Fisher applied

1 to the Supreme Court of Canada and was granted standing, limited standing to appear on the 2 3 reference that was going to start in January, and I think Mr. Beresh was his counsel. 4 5 recall becoming aware of that at some point; that Mr. Fisher would be involved in the Court 6 proceedings? 8 I don't recall, but I'm assuming I knew that. And, again, this comment with Mr. Williams again 10 is maybe self-explanatory; is there anything you can elaborate on with respect to that comment? 11 12 Α I don't recall this at all. 13 0 If we can then go to 056639, please, and this is 14 the December 30th, 1991 report that you sent up to 15 your superiors. Again, we can go through parts of 16 this, if you go to the next page. And in this 17 report, if you can call that out please, it's at 18 the bottom:

19

20

21

22

23

24

25

"The Saskatchewan Police Commission investigation did not locate file material associated to Larry Fisher, nor did they determine where the files in question may have gone. There is no evidence the Fisher files were purposely tampered with by anyone."

1		So I take it you would have been made aware of at
2		least the, either the report, or the results of
3		the report of the Police Commission looking into
4		the missing files?
5	А	I believe I must have, yes.
6	Q	Go to the next page. Scroll down, please. So in
7		d) you talk about, again, to have the vetted-out
8		portion of the document and that's the
9		Centurion Ministries' report on (V5) (V5)
10		that has the blacked-out name, you know which
11		document I'm talking about?
12	А	Yes, yes, uh-huh.
13	Q	And then you go on to say:
14		"It has since been determined the
15		Saskatchewan Police Commission
16		investigator did not approach Milgaard's
17		counsel for assistance on this point.
18		As the Section 690 Application is
19		based on the potential importance of
20		information contained in the missing
21		Fisher files, so far as Milgaard's cause
22		is concerned, it seems logical
23		Milgaard's counsel would share any
24		information they possess. As the Police
	I	

Commission investigator did not make

1 this request of Milgaard's counsel, it 2 will be made by myself via written 3 correspondence to Mr. Asper." And again, at this time, did you feel that -- was 4 5 it your view that Mr. Asper or David Milgaard was obliged or should have been providing this 6 information to you about the source? Well I just felt that there was some potential 8 information that maybe was available there that 10 wasn't being provided through this source that was obviously providing information to Mr. Asper. 11 12 Q Okay. And I'll touch on some correspondence with 13 him in a moment. If we can go to the next page, 14 again I don't want to go through this in detail, 15 we -- this is the Tony Humen information and the 16 vehicle, suspicious vehicles noted from 1969, and 17 we see in your notes where I think you 18 investigated this angle a bit further in 1991 and 19 1992 and checked with the bus driver, John 20 Husulak, Tony Humen who was on the bus, Dennis 21 Elliott, some people who were in the area. And, 22 again, do you have a recollection of at least 23 generally looking into some of the matters that 24 may have jumped out from the police report? 25 Α There was, there was a -- lots of vehicle Yeah.

1		stuff there that was in play. I don't remember
2		the details, but yes, you know, it's there, I
3		don't recall the details.
4	Q	And here you are talking about a suspicious
5		vehicle in the area at the time which attracted
6		the attention of Tony Humen, and:
7		"From inquiries made to date, Fisher did
8		not own a vehicle during the time of the
9		Miller murder."
10		Do I take it, from that, that you were looking at
11		police files from 1969 and following up to see
12		whether you could use any of that information to
13		connect Mr. Fisher to the murder?
14	A	That would seem to be the course of this
15		information, yes.
16	Q	If we can go to the next page, again we've been
17		through this on a number of occasions with other
18		witnesses, you go through the notes of
19		Mr. McCorriston and the 'man with the hard hat who
20		usually catches the bus but failed to do so',
21		etcetera; do you have a recollection of going,
22		looking through some of that information?
23	A	No, I really don't, you know. You know, I
24	Q	And I
25	A	I am really going by what's here.
	1	

1	Q	And these notes would be accurate as to what you
2		did, what matters you followed up on?
3	A	Well the, probably the notes are in the system
4		someplace if you want to determine the accuracy,
5		but I think they are, yes.
6	Q	Yeah. Let's go to the next page and maybe I'll
7		just call out paragraph m). It says:
8		"What is potentially significant about
9		the above notebook entries is the fact
10		that a "hard hat" wearing male was being
11		pursued by the police, who was said to
12		have not taken the bus Friday (Miller's
13		murder). Larry Fisher is known to have
14		caught the bus at this location as his
15		means of transportation to his work
16		site, and that he wore a hard hat during
17		many of the times he travelled to work.
18		It seems the bus driver identified the
19		hard hat wearing person as being Tony
20		Humen, who it turns out, never wore a
21		hard hat. If it wasn't Humen, then who
22		was it?"
23		And I think this is something we've heard some
24		evidence about before this Inquiry; does this jog
25		your memory at all, Mr. Pearson, this line of

1		
1		questioning?
2	A	No. I remember talking to people about this, but
3		I'm really going with what's, what's on the
4		screen.
5	Q	And, again, let me just I think what we've
6		heard is that there was some evidence that from
7		some people that said they saw a construction
8		worker with a hard hat
9	A	Yes.
10	Q	who would catch the bus at Avenue O and 20th
11		Street with the young lady, and on many occasions,
12		that on the morning of the murder that he may not
13		have been on the bus, the hard hat, the person
14		with the hard hat may not have been on the bus?
15	A	That's right, yes.
16	Q	And, again, the fact that Mr. Fisher, on the
17		following Monday when he was interviewed, was at
18		the bus stop wearing a hard hat, I think that was
19		the connection. Again, that type of information,
20		Mr. Pearson, would that be something that would
21		that be in the suspicion category or would that be
22		something that might link Larry Fisher to the
23		murder, if in fact there was evidence that said
24		maybe he wasn't at the bus stop that morning?
25	A	Well I don't believe this could be converted, in
		Meyer CompuCourt Reporting ————————————————————————————————————

my opinion, converted to actual evidence because there is a lot of questions as to who this person was and was he there on -- on -- on the date in question. And, you know, there are -- again, 20 years later, people are not in a position to confirm a lot of the suspicion or the data that's in the notebooks so it's, you know, it causes one to think and be suspicious, but to, to have a challenge to prove that it's definitely something that I guess you could call evidence would be a challenge.

Q Maybe we can go to 056647. Again, this just summarizes the information that you were gathering

Maybe we can go to 056647. Again, this just summarizes the information that you were gathering on -- and we touched on this yesterday -- the information about Mr. Dozenko that came out in the Rosner and Karp book, and I think you told us that you sort of oversaw or managed the getting of statements from various people for Eugene Williams; is that correct?

A Yes.

And where -- and, again, we'll go through some of this -- but I think, in summary, Mr. Dozenko, who was a guard in the institution and had extensive dealings with Mr. Milgaard, said that Mr. Milgaard admitted to him that he had killed Gail Miller on

1 a number of occasions. Mr. Dozenko said that he 2 would have made a note of that, I think in 3 checking the files there was nothing in any of the notes, and we've heard sort of some conflicting 4 5 evidence from some other people and guards, some saying that Dozenko said the opposite to them, and 6 I think in the case of one witness saying that maybe, I think she said that maybe he had. 8 9 just generally that type of information at the 10 time, where if anywhere did that fit in in your 11 thinking, Mr. Pearson, in the work that you were 12 doing investigating both Mr. Milgaard and Mr. 13 Fisher as suspects? Again I think, you know, it's information that has 14 Α 15 surfaced, and it's pursued, and I think on this bit of information, I don't think it was ever 16 concluded that this information was ever on file 17 18 that David Milgaard had admitted it as a -- the 19 end result of the inquiry. But, again, I -- it's 20 something that surfaced, and took a look at it and 21 passed it on to Mr. Williams, and I don't think 22 there was anything to this. 23 Q I'm sorry, you say you don't think? 24 There was anything to this that was conclusive to 25 saying Dozenko was right in what he was saying.

1	Q	And so is what you are saying is that it wasn't
2		clear that Dozenko's version of events was
3		credible and accurate?
4	А	Well I that's my recollection, and I again I
5		don't I know there's other statements were
6		taken
7	Q	And we'll go through
8	А	regarding this, and I don't think, from that,
9		there was any conclusion that what Dozenko was
10		saying was accurate
11	Q	Okay. And
12	А	or backed up by documentation.
13	Q	Right. And just again on your thinking and we
14		touched on this a bit yesterday with sort of the
15		reverse but if in fact and again at this
16		time I think you are following up with Dozenko and
17		some statements are taken later, and I think at
18		this time you were still checking the files to see
19		whether there was corroboration for Mr. Dozenko's
20		story but if that was credible, that
21		Mr. Dozenko's statement turned out to be credible,
22		again, what would that do sort of in your mind,
23		when you are looking at Mr. Fisher as a suspect at
24		this time and following up, how would that play
25		into that?

		——————————————————————————————————————
1	А	Well, again, going back to that time, you know,
2		it's looking back it's quite clear as to what
3		the answer is to all these questions, but when you
4		are on the other side of the hill working your way
5		through it
6	Q	I want you to
7	А	it looks quite different, and
8	Q	I want you to answer
9	А	trying to weigh the two, the two sides between
10		Milgaard and Fisher, and I think it all becomes
11		part of
12	Q	Okay.
13	А	- where you are swayed in your mind as to what
14		this all means.
15	Q	And I want you to focus on the other side of the
16		hill, not what you now know or what you now
17		think,
18	А	Yes, yes.
19	Q	I want to get you to tell us at the time, in
20		December 1991, at this time, and at this time you
21		didn't know about the DNA; correct?
22	A	Correct.
23	Q	And you didn't know that Mr. Fisher would be
24		convicted; correct?
25	A	Correct.
	II .	

1	Q	And so, at that time, I want to I want you to
2		tell us how this fit into your thinking at the
3		time and
4	А	Gee, you know, it's that's difficult to go 15
5		years back and know how the Dozenko book material
6		fit into my mind. It was an inquiry that was
7		pursued to see if there was any validity to it,
8		and if it would have ended up being something that
9		was on file saying that this definitely was an
10		admission by Milgaard, it would certainly have
11		some significance I believe.
12	Q	And what about on the flip side? We have seen,
13		and we'll see a bit more in your notes, follow-up
14		with inmates who claimed that Larry Fisher
15		admitted to them that he had killed a woman in a
16		couple of different stories?
17	А	Yes.
18	Q	Do you recall that information coming forward?
19	А	Yes.
20	Q	How did you at the time, Mr. Pearson, deal with,
21		if we can call it, putting aside the issue of
22		credibility of the information, but obviously
23		conflicting pieces of information coming forward;
24		is that fair?
25	А	That's, that's fair, yes.
	1	<b>.</b>

1	Q	And as an investigator at this time, trying to do
2		your work for the Section 690 application, whether
3		you are able to elaborate for us, at the time,
4		what what and how you dealt with this type of
5		information that seemed to be tugging in both
6		directions?
7	А	Well I think it was a matter of gathering it and
8		providing it to Mr. Williams, and during our
9		discussions I'm sure we talked about these things
10		on our telephone conversations and what it meant
11		to the overall big picture, you know. It's just
12		another piece of information. But, you know, if
13		you would come across something that was
14		suggesting that Larry Fisher was involved in this,
15		again it would be pursued and assessed. A lot of
16		it would depend on, you know, the reliability of
17		the information. And again, some of the
18		information was coming out of the institutional
19		system, a lot of the people maybe weren't very
20		credible and had a history, so all that had to be
21		weighed into this, I think, in coming to some kind
22		of a decision.
23	Q	And again just, and in summary, can you tell us
24		whether, as far as sort of information coming
25		forward that was incriminating to either Mr.

1 Fisher or Mr. Milgaard, can you tell us generally that, in the course of your investigation, were 2 3 you getting incriminating information that pointed towards both Mr. Fisher and Mr. Milgaard? 4 5 Α Yes, I believe that's, I believe that's fair. And I think that's probably what the documentation 6 shows, that there was some information coming through, or some inmate had said that Larry said 8 9 this, and other information here where Dozenko in 10 a book is saying something else about Milgaard, and information on both sides was surfacing from 11 12 different sources. 13 0 Let me go beyond just sort of the 14 information and people who said either Mr. 15 Milgaard or Mr. Fisher might have made an 16 admission, just talk generally about evidence that 17 might tend to incriminate one or the other from 18 any area. Again, generally, are you able to tell 19 us, in the course of your investigation, did you 20 have evidence or information that would tend to 21 incriminate both of them, I mean inde -- let me 22 rephrase that; where you had information, 23 obviously, that tended to incriminate Mr. Fisher, 24 correct, and you would follow up own that? 25 I believe so, yes.

Α

1	Q	And did you also get information and evidence that
2		tended to incriminate Mr. Milgaard?
3	А	Yes.
4	Q	And again, if you are able to at that time, go
5		back at that time and tell us whether and how
6		you how you dealt with that, the fact that you
7		were getting, I guess sort of pursuing maybe
8		'pursuing' is the wrong word but having placed
9		in front of you sort of two sets of conflicting
10		theories, if I can call it that?
11	Α	I don't think I was making those kinds of
12		decisions, to be quite honest with you. I was
13		reporting this information to the 690 process, I
14		wasn't making the decisions as to "I won't
15		consider this" or "I won't believe that" and "I'll
16		believe something else", I don't believe that's
17		really where I was at with this as I recall.
18	Q	Okay.
19	Α	It was a matter of getting the information and
20		having it forwarded on. Much of the information,
21		say in Dozenko, a lot of the inquiries may have
22		initiated through my office through information
23		that was passed on to me in some cases by Mr.
24		Williams, and then I would have other
25		investigators in other parts of the country go to
		•

1 the institution and talk to the people and follow 2 up that information, may come back to me and be 3 forwarded to Mr. Williams, in some cases it went 4 directly to Mr. Williams, so I wasn't always in a 5 position to say what value it had to everything that was going on. 6 And just based on what you had and the Q information that you had, and again around this 9 10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

А

information that you had, and again around this time frame, December '91/January '92 right through until March of -- March and April of '92 when the reference was completed, did you in your own mind ever come to any conclusion that, based on what you had, that the evidence was overwhelmingly pointing to one or the other, to either Mr. Fisher or Mr. Milgaard, as the culprit?

I think I struggled with this like everyone, I -if one was stronger than the other. All I can say
is that I was certainly influenced by the fact
that David Milgaard had gone through the justice
system, and I have to say that that carried a lot
of weight; and on the other side Larry Fisher was
a person that I couldn't eliminate as a suspect in
my mind, so I was carrying both of those. And I
think I was like everyone at the time, you
struggle with it, and there was no definite answer

1		to what all the information that was out there
2		on both of them.
3	Q	And if there had not been a conviction of David
4		Milgaard and he was simply a suspect, are you able
5		to tell us whether, whether that would have
6		changed your views or tipped the scales one way or
7		the other?
8	A	I think it probably, it probably would have. I
9		think the fact that an individual had gone through
10		the justice system, I guess I like a lot of people
11		have confidence in it, some may not, but I don't
12		think anyone is going to tell you that someone who
13		has been through our justice system and convicted
14		is going to not be swayed by that, and I think I'm
15		no different.
16	Q	And apart from the conviction though, again in
17		wrestling with this or struggling with this as you
18		said, apart from the conviction, based on the
19		information that you had at the time, did you also
20		have some information, apart from the conviction,
21		that caused you to suspect David Milgaard for the
22		crime?
23	A	Yes.
24	Q	Again if we can go to page 056649, and I just want
25		to touch on this is your a summary about

what's going to happen with the 690 process, and it says:

"As a result of the Order ...", and this is the Supreme Court order:

"... numerous meetings have taken place between all interested parties, with the view of setting out procedure for dealing with the upcoming review. seems the case will be presented to the Supreme Court by Sask Justice, with Federal Justice funding the majority of the process. Federal Justice lawyer Eugene Williams has advised that exhibits currently held in the Queen's Bench Court House in Saskatoon from the original Milgaard trial will be turned over to the RCMP as soon as a Queen's Bench Court Order is received. Williams has also advised that part of their investigation is to again review the possibility of having a DNA examination of hair and blood that is believed to exist on some of the exhibits. examination is as a result of recent technique development apparently taking

25

1

2

3

4

5

1		place in the USA and Britain."
2		So I take it that DNA came back on the scene at
3		this time?
4	A	It appears that there was some developments there,
5		yes.
6	Q	And would it be fair to say that the DNA tool
7		and, again, I think we know what happened in 1997
8		again, as an investigator at the time, would
9		that be something that would assist you in, I
10		think your words were, the struggle between
11		information that pointed to Mr. Fisher and
12		information that pointed to Mr. Milgaard?
13	A	Absolutely, yes.
14	Q	If we can then go to page 056652. 056652, please,
15		and just paragraph a). And at this time it looks
16		like you say:
17		"It is unclear at this time the
18		procedure that will be utilized,
19		however, the possibility exists that
20		direct evidence will be called from
21		witnesses, in addition to the numerous
22		reports and transcripts that are already
23		available",
24		and would that be a fair summary of your
25		understanding at the time?
		•

		1 age 13030
1	А	Yes. I really wasn't very familiar with the
2		process that was this was going to take, and I
3		think it's
4	Q	Were you ever asked to be a witness at the Supreme
5		Court, did anybody ever raise that with you?
6	А	No, not that I recall.
7	Q	I now want to turn to the issue with this
8		confidential police source, and I think we've
9		covered some of that and I think you've told us
10		that you made a number of efforts to try and
11		identify the name of the confidential source from
12		the Centurion Ministries report; is that correct?
13	A	Yes.
14	Q	And I think you also contacted Mr. Asper and tried
15		to get this information from him?
16	А	On the telephone, via telephone.
17	Q	Yeah. And let's just go through some of that.
18		001900, the full page, and this is an October 1,
19		1991 forensic lab report request, and it looks as
20		though you sent the Centurion Ministries document
21		to see if you could decipher the printed
22		information in the black, obliterated areas on
23		lines 9 and 13 of Exhibit A. Is that correct?
24	А	Yes, yes.
25	Q	And I think the remarks, the conclusion, the
	l	

1 printed information has not been deciphered, and I 2 think there was -- go to 057815. That one was 3 October 1, 1991, and just leave it full page, please, and this is October 20th, 1991, and again 4 5 I think you got a better copy, tried it again and they still couldn't get the name deciphered; is 6 that correct? Α Yes. If we can just go to the next page, we'll just 10 look at the document again, and this is the remark 11 here, maybe we'll just take another look at that. 12 Call out that paragraph, please, it says this --13 and this is I think Mr. Henderson's report, he

14

15

16

17

18

19

20

21

22

23

24

25

says:

"This was the one case in which I was given access to police reports ... and source for us on internal police problems, somehow managed to get into the department computer and obtain the file. I reviewed it at his home but was not allowed to keep the reports or make copies of them."

And I think you told us, Mr. Pearson, the other day, that this caused you some concern, that a police officer would be taking a file out of the

	ſ	
1		police station to his home; is that correct?
2	А	Not necessarily to his home, but the fact that
3		he's taking it out to show people outside the
4		organization, a private investigator, that's the
5		issue.
6	Q	And let's just pause here, and I think, and I'll
7		go through some of your further efforts, you were
8		trying to get the name of this person to find out
9		who it was. What would you have done if you would
10		have had that name?
11	A	I think it would have been someone that you could
12		have developed to take a look and find out just
13		what they were up to and what they could provide
14		you for information and you would probably get
15		some background through the city police themselves
16		as to what this person was all about and if he had
17		been involved in this before and just some
18		background. It may have led to other suspicions,
19		it may have led to a prosecution, it may have led
20		to more information, more files, it may have led
21		nowhere.
22	Q	When you say a prosecution, of whom and for what?
23	A	It could have been a prosecution for an internal
24		policy not a prosecution, but a disciplinary
25		action for an internal policy, there probably

1		could be some breach of trust there. I mean, I
2		don't know all the lawful issues at play there.
3	Q	Did you have a belief at this point that this
4		source person might be associated with the other
5		missing files that had not been located?
6	A	Well, I think that's kind of a logical suspicion
7		that comes into play.
8	Q	Did you have it at the time?
9	A	Yes.
10	Q	And is that something you would have pursued with
11		this individual?
12	A	Yes.
13	Q	If we can then go to 057806, and again leave it
14		full page, please, November 18th, 1991, and this
15		is from your document section, and they basically
16		tell you techniques if we can call out that
17		part, please:
18		" techniques presently available are
19		not capable of effectively deciphering
20		this information."
21		So it looks as though in November your forensics
22		people said they can't get the name from the
23		document; is that right?
24	A	Yes.
25	Q	If we can then go to 159391, this is a December
		4

1	30th,	1991	letter	from	you	to	Mr.	Asper;	is	that
2	correc	ct?								

- A Yes.
  - Q And if we could just call out the body of the letter, please, it says:

"As you were aware, the RCMP have been involved in the investigation of information provided under the Section 690 Criminal Code application so far as the suspicion that Larry Earl Fisher may have been involved in the death of Ms. Miller.

It has been suggested the missing Fisher files may contain information relevant to David Milgaard's case. Attached please find a copy of the Application material provided by your office, with key information vetted out. It has recently been determined the Saskatchewan Police Commission investigators tasked with locating the "missing Fisher files" from the Saskatoon Police Department, did not approach your office seeking assistance in this regard. With this in mind, and

in an effort to determine the facts and truths surrounding the Milgaard/Fisher matter, I am asking that you provide me with the vetted out information you possess which will hopefully assist in advancing this investigation."

So I take it that would have been what you talked about earlier, your formal request to Mr. Asper after the Saskatchewan Police Commission -- let me back up. The Saskatchewan Police Commission issued their report concluding, (a), they couldn't find them, and I should just identify, I think the missing Fisher files were the (V1)-, (V2)----, (V3)----- and perhaps part of the (V5)--- file; is that right? That's what we're talking about?

A Yes, as I recall.

Q

And the Police Commission said they couldn't find them and they said they found no evidence of any tampering and couldn't -- I think had some administrative reasons as to where or how they might have been destroyed, and I think in their report or in your follow-up you told us that in your discussions with them you learned that they did not approach Mr. Asper or this confidential

		ŭ
1		source to get information; is that right?
2	A	That's my recollection.
3	Q	And when you say here it has been suggested the
4		missing Fisher files may contain information
5		relevant to David Milgaard's case, can you
6		elaborate on what you meant by that?
7	А	I just believed that the files were missing and it
8		might have some relevance to what we're looking
9		into here.
10	Q	And as far as relevance, did you know whether they
11		would be favourable to Mr. Milgaard or
12		unfavourable, or favourable to the police or
13		unfavourable to the police?
14	А	I had no knowledge.
15	Q	And then again just for the record, if we could go
16		to the next page, there is the attachment to your
17		letter, and we've seen this before, this is the
18		(V5) (V5)/Centurion Ministries summary, and
19		the next page, so again this is the vetted out
20		information that you requested. If we can then go
21		to 057205, and this is Mr. Asper's reply to you of
22		January 8, 1992; is that correct? I'll go through
23		parts of it.
24	A	It appears that way, yes.
25	Q	And he says:
		4

1 "Thank you for your letter dated December 30, 1991. I am enclosing 2 3 herein photocopies of the entire police report dealing with (V5)-- (V5)--- to 4 5 whom reference is made in the "vetted 6 out portions" of the report that you provided to me. The material that I am 8 sending to you was provided to us by the 9 Saskatchewan Department of Justice. 10 Quite frankly, I am somewhat amazed that 11 you had not been provided with this 12 material, especially since it appears 13 that the (V5)--- file is only one of two 14 ((V3)----) that remain in existence. 15 In any event, I am providing you with a 16 copy of the file that we have in our 17 possession." 18 Did you already have the file material that Mr. 19 Asper sent you? 20

Yes, I believe I already had the (V5)--- file, and I believe that (V5)--- file, if I'm correct in my recollection, was the one that was provided to me in more, a more complete file through the Police Commission results of their microfiche search I

25 believe.

21

22

23

1	Q	We went through a note yesterday that in November
2		of 1991 there was a reference that I went through
3		with you, and I can find it at the break if you
4		like
5	Α	No.
6	Q	and maybe I will, that just indicated that, and
7		I think you told us yesterday or the note said
8		that the file the Police Commission had looked
9		bigger than the one you had and you've got a copy
10		of it and I think your notes said it was a
11		microfiche file; is that correct?
12	Α	That's my recollection.
13	Q	So here it says:
14		"Insofar as the information which is
15		vetted on the second page of the report
16		that you provided to us is concerned, I
17		can advise that this information was
18		provided by a confidential informant,
19		and I am not at liberty to disclose the
20		identity of this person. I can assure
21		you, however, that this informant did
22		not provide us with anything that we do
23		not now have in our possession from the
24		Department of Justice in Saskatchewan."
25		And again, did that comment satisfy your concern,

		1 age 10001
1		Mr. Pearson?
2	А	I don't believe it did.
3	Q	And why not?
4	A	Because I think I was still looking at who the
5		source was in the city police.
6	Q	And then Mr. Asper says:
7		"I am heartened by the fact that you are
8		actively investigating this matter, and
9		I can indicate that since full
10		disclosure has occurred, there are many
11		interesting points relating to Larry
12		Fisher that are found within the
13		Milgaard prosecution file and/or police
14		reports. For example, I note that there
15		are several references to the (V2) (V2)-
16		(V2) $((V2)$ ) and $(V1)$ $(V1)$ -
17		rapes throughout the Milgaard
18		investigation. In my view, clearly the
19		view of the investigating officers was
20		that the rapist was the likely suspect
21		in the murder. At the very least, the
22		possibility was not ignored. That some
23		of these files have now gone missing is
24		intriguing, to say the least.
25		If I can be of any further

1		assistance in this regard, I would be
2		most happy to help and you should feel
3		perfectly free to contact me at any
4		time."
5		Again, do you recall having any reaction or any
6		follow-up on this information about the police
7		file and having some with a view of the
8		investigating officers that the rapist was the
9		likely suspect in the murder?
10	A	I don't recall. I do, from reviewing the
11		material, know that there was, I think, another
12		memo that went back to Mr. Asper.
13	Q	Sure, and I'll go to that. Maybe we can just go
14		to your notes, to 056845, and we'll go to
15		paragraph 475. Go to the full page, please, just
16		call out the bottom. It says:
17		"I received mail from Mr. Asper who
18		provided me with a copy of (V5)
19		(V5)' file, which I already have. I
20		have no idea why it was included, other
21		than an expression of cooperation, as I
22		did not request it."
23		Is that correct?
24	A	Yes, I believe.
25	Q	Asper and then the next page, call out the top
		<b>1</b>

1		part:
2		"Asper did say the vetted info is a
3		confidential informant and will not be
4		revealed to me. What concerns me about
5		this is that Mr. Asper makes reference
6		in his correspondence as to how
7		"intriguing" it is that files have gone
8		missing, possibly, in my opinion, by his
9		own source, yet he seems satisfied with
10		leaving this question as it is. I am
11		not sure if there is more that can be
12		done in this regard."
13		And again, would that have been your view at the
14		time, sir?
15	A	Yes, I believe so.
16	Q	And is there anything you can elaborate on that
17		point?
18	A	No. I'm just going by what I'm reading here. I'm
19		sorry.
20	Q	And call up 057204, and this is your letter of
21		January 14th, 1992 back to Mr. Asper, if we can
22		just call out the letter part, please, and again
23		you thank him for responding to your December 30,
24		1991 letter and you say:
25		"Your reluctance to identify the

individual who removed one of the Fisher files ((V5)---) from the Saskatoon

Police Department, the contents of which were shared with Centurion Ministries, prevents me from further investigating this obvious lead.

In the third paragraph of your correspondence, you describe as "intriguing" the fact some of the Fisher files are missing. Is it possible your informant has provided the Fisher files to other individuals? What I find intriguing with this is the fact your confidential informant may actually be the person responsible for the missing files. Without your assistance, we may never know.

You make mention that many interesting points relating to Larry Fisher are found within the Milgaard prosecution file and/or police reports. If you have identified any file material which would assist in my efforts to determine if Larry Fisher was involved in the murder of Gail Miller, I am

1		asking that you share them with me."
2		So again just back to this comment here, sir,
3		this would reflect what you thought at the time;
4		is that right?
5	A	Yes.
6	Q	And you say to Mr. Asper and let me back up.
7		Are you saying that well, you say what I find
8		intriguing with this is the fact your confidential
9		informant may actually be the person responsible
10		for the missing files. Did you ever learn of the
11		confidential informant and follow up with him or
12		her?
13	A	I never did find out a name. A name was mentioned
14		as a possibility, but it wasn't it wasn't
15		confirmed. I don't remember any follow-up.
16	Q	If we can then go to 057203, and this is January
17		17th, 1992, this is Mr. Asper's letter back to
18		you:
19		"I have given your letter of January 14,
20		1992 a good deal of thought.
21		As you are no doubt aware, we
22		are currently set for hearing in the
23		Supreme Court during the week of January
24		20, 1992, and obviously my time will be
25		occupied before that week. As soon as I
	i e	

Д

have some time, I will speak to our confidential informant to determine whether that individual might be prepared to meet with you, even on a confidential basis."

And then it goes on to talk about the other points. Did you read anything into the fact that Mr. Asper would not give you the name of this informant, did that play at all in your assessment of the situation?

Well, as a policeman confidential informants are part of the business, so to speak, and people do keep their sources very confident, you know, and protected, so it didn't startle me that he wanted to keep his to himself. I mean, I wanted the information and he wanted to keep his source confidential, so it didn't shock me being a policeman and knowing what this is all about. And did it cause you to think any differently

And did it cause you to think any differently about whether or not this confidential source may have information about the missing files or not? Well, that was the unknown, you know, that was always a thought you could have, that how much information was out there. There's reference to one file, but was there more information than the

1		one file, was there other information out there
2		that was floating around?
3	Q	Let me put it this way: You told us one of the
4		reasons you were trying to find out and speak to
5		this confidential source is that you had
6		suspicions or concerns that the source might be
7		either the person who has the missing files or
8		might know information about where the missing
9		files are; is that correct?
10	А	That's right, yeah.
11	Q	And the fact that the source, the name of the
12		source was not being provided to you, did that in
13		any way change your suspicions or concerns?
14	A	Well, I don't think it changed it. I mean, I
15		still had the suspicions, still had the concerns.
16		They weren't resolved.
17	Q	If we can go to 056876, and this is February 7th,
18		1992, if we can call out the bottom, please, just
19		to get the date, and Mr. Asper, this is a
20		discussion with Mr. Asper, and if we can go to the
21		next page, please, call out the top part, please,
22		and again in this discussion it says:
23		"At this time Mr. Asper also advised
24		that he will not reveal his source to me
25		regarding the vetted out portion of the

1		Application material submitted to the
2		Minister of Justice. We discussed this
3		in general terms. I explained to Mr.
4		Asper the vetted out portion prevents me
5		from pursuing this possible lead. I
6		explained that his source could very
7		well have been leaking file material,
8		and is actually responsible for the
9		disappearance of the Fisher files, and
10		if he wishes it to remain as is, he will
11		have to explain the consequences of his
12		decision. I explained to him that I
13		will not be pursuing this aspect of the
14		inquiry any further."
15		And again, would this note accurately reflect
16		what you discussed with Mr. Asper?
17	А	I believe it does. I'm just going by what I read
18		here.
19	Q	And do you recall what Mr. Asper's response was to
20		this discussion, and specifically to your
21		suggestion or concern that the source might be
22		responsible for the disappearance of the files?
23		Do you recall what Mr. Asper might have said to
24		you about that concern?
25	А	I have no recollection of the conversation, I

1		really don't.
2	Q	If we can go back to 056409, this is now dealing
3		with Ms. $(V4)$ , and it appears you had some
4		correspondence with her counsel Mr. Levy; is that
5		correct?
6	A	Yes.
7	Q	And you sent her copies of her original statement
8		and her August 29th statement and asked her to
9		reread both statements she has provided and
10		contact you with any further detail which may have
11		been overlooked, and again, was this in connection
12		with having her testify at the Supreme Court do
13		you know?
14	A	I believe I believe this is to do with her,
15		with the time frame, or I believe this would
16		this be to do if it falls into a time frame
17		here, would that be to do with her identity of
18		Fisher in the newspaper?
19	Q	Yeah. This would be, just to assist you, I think
20		it was August of '91 he identify him in the
21		newspaper and this is January of '92 and (V4)
22		(V4) did testify at the Supreme Court
23		actually, sorry, this is December 30th, but I
24		think this is a follow-up to having her testify.
25		Do you remember following up with her to get
		4

1 details? 2 Α I don't remember that. If we could call up 056411, again this is 3 4 Mr. Levy's letter back to you confirming that her 5 latest statements, she's given her best recollection, but attached to that, if we can go 6 to page 056413, this is the police report of January 31, '69 that identified I think when 9 Ms. (V4)--- was in to see the police on the day of the assault. Call out that part. She gave a 10 11 description and then pictures picked out by her as 12 somewhat resembling the person were as follows and 13 then had the four photographs, and I think, if I 14 can just call out the next page, I think we've 15 looked at this before, there was a set of 16 photographs that were I think either assembled by 17 the city police or by you. Do you recall having 18 this information sent down to Ottawa or for part 19 of the process? 20 I do recall getting some photographs from the city 21 and I believe this is Mr. Williams' request if I'm 22 not mistaken. I'm not positive on that, but I do 23 remember these photographs being accessed and 24 forwarded somewhere, probably to Mr. Williams, or 25 alternatively, it may have been generated through

1 the file numbers, the photo numbers on the file, 2 I'm just not --3 I think they do match the photo numbers on the 0 4 police report. 5 Yes, okay. Α And it may have been that these were sent to 6 Q Ms. (V4)--- to view as well. Do you recall that? I don't recall that. 8 Α 9 If we can go to 056839 -- actually, just go to the 10 previous page. Again there's notes here about, I 11 think arrangements were to be made to have you 12 view the Milgaard prison file and then if we can 13 scroll down to 444, call out that last paragraph, 14 it says: 15 "I talked with Mr. Bob McGuire, who 16 advises my permission from Corrections 17 Services has been rescinded on advice 18 from their legal services and in 19 particular Mr. Pinetell. It seems the 20 decision has been made by senior 21 management of Corrections based on a 22 perceived problem that the police should 23 not be permitted to gain potential new 24 evidence from reviewing Milgaard's

institutional file, believing I suppose

that this may be a self-incriminating exercise. I expressed my concern that Federal legislation permitted the exchange and access of information held in files in computer banks at the various federal agencies."

Next page.

Q

"I raised the question, "If Federal
Justice is permitted access, what do
they do if new evidence is uncovered?
Also, in the past I have been given
permission to review the Fisher file and
in fact did. Why is Fisher's situation
different than Milgaard's?" I also
asked the question, "Why does Federal
Justice and our Provincial Justice
Department officials have right of
access to the file material, and others,
such as the police, do not?"

And again, do you recall this issue coming up at all, Mr. Pearson, about access to files?

Yeah, vaguely. Like I say, I don't know how I can comment any more than what's written here, but yes, that was obviously a discussion I had.

Meyer CompuCourt Reporting = Meyer CompuCourt Reporters serving P.A. Regina

And I take it, sir, you did not then, you

		1 age 10010
1		personally didn't review Mr. Milgaard's
2		institutional file at this time?
3	A	No, I did not.
4	Q	Go to page 056841.
5	A	Can I just go back to that again?
6	Q	Yes, go back to 056839. Perhaps at the last part,
7		I think you say:
8		"My position is basically this: it
9		matters little who reviews the Milgaard
10		file as long as someone in authority can
11		advise the Supreme Court what has or has
12		not been done in this regard."
13	A	Yes, that's what I was going to refer to.
14	Q	And I believe, and I stand to be corrected on
15		this, we'll certainly hear from other witnesses, I
16		believe the file was made available and reviewed
17		for the Supreme Court reference. Are you aware of
18		that?
19	A	I don't recall.
20	Q	If we can go to 056841, this is January the 9th of
21		'92, so a week before the reference, and you've
22		got a note:
23		"Called Yorkton Psychiatric Centre
24		talked to Dr. Samuel. I asked him if
25		the psychiatrist by the name of Dr.
I	İ	

Andrea had ever worked there. I was told there was a Dr. Andrews who was employed there in the late 1960s, very early 1970s, then moved to London,
Ontario and has since deceased. I asked the doctor to confirm that they held a file on David Milgaard from the time he was examined at 13 or 14 years. He will check and call me back.

Dr. Samuel called to confirm he

Dr. Samuel called to confirm he held a file on Milgaard from his examination at 14 years of age. I did not ask for the file material and indicated to the doctor to hold the file in view of the Supreme Court review. If it is to be accessed, it will be done so in a legal and proper manner."

Are you able to tell us how this, or what the purpose of this inquiry was?

You know, I don't recall. I don't know if this is something that was going to be part of some overall assessment through the Supreme Court. I just don't know.

If you can scroll down to the next paragraph, please, it says:

"I placed a call to Sask Justice lawyer

Eric Neufeld to determine if there were

any additional inquiries I could make on

his behalf."

And let me just pause there. What would have

And let me just pause there. What would have prompted you to do that?

Well, I was assisting the Department of Justice and this appears to now also be involving the province and I believe Eric Neufeld was one of the people in position there and I guess I was just extending my offer to see if there was anything that he wanted pursued or done.

## Q And then you say:

Α

"I also discussed the (V4)--- case with Mr. Neufeld and what they wish to do so far as the identity question of her assailant is concerned. The time of the (V4)--- assault being 7:07 a.m. some eight blocks from the Miller murder scene is extremely important, particularly in view of the fact (V4)--- states it was Fisher that assaulted her. While I have not developed a time line of activity, it seems Fisher may have been eight blocks away, involved in a

1 crime during the time Miller was being 2 On the other hand, the fact murdered. 3 that Fisher was in the area and it is 4 now known that he was an active sexual 5 offender during this time frame in that particular geographical area, certainly 6 leaves him open as a continual prime 8 suspect." 9 And again, we talked about this earlier, was 10 it -- were you saying that lookit, the (V4)--assault could either be an alibi for Mr. Fisher 11 12 for the Gail Miller murder or it could be 13 something that puts him in the area at the time of the murder; is that --14 15 That's fair. Α 16 And would it depend on the timeline; was that the Q 17 -- is that an important factor? 18 Well, that is a factor, but I think there was some Α 19 time movement here, I'm not sure if the time was 20 locked down tight, but the fact that Fisher was in 21 the area would have been extremely important in my 22 view. 23 0 But again at this time, and I think you told us 24 yesterday -- and please correct me if I'm wrong --

that you felt that, if Mr. Fisher had committed

1		the (V4) assault, I think you said you felt
2		that that pointed heightened your suspicions
3		that he committed Gail Miller's murder; is that
4		correct?
5	А	Oh, absolutely, absolutely.
6	Q	And so as far as the question of was it an alibi
7		or was it incriminating, was it your view that it
8		was more on the incriminating side, the fact that
9		he may have committed the (V4) assault?
10	A	Yes.
11	Q	And then down at the bottom, 458, you say:
12		"I also explained to Mr. Neufeld the
13		point about the caretaker at St. Mary's
14		Church making an observation of a car
15		parked in the alley between 7:00 a.m.
16		and 7:10 a.m. This time, in my opinion,
17		is extremely significant as it may be an
18		indication a vehicle could have been
19		associated to the Miller murder. These
20		points have been discussed with both Mr.
21		Williams and Mr. Neufeld to date."
22		And I take it at this time, sir, you had a view
23		that a vehicle was involved in the murder?
24	A	It was one possibility, yes.
25	Q	If we could go to 056843, please. And here's the
	1	•

1 note, paragraph 462, that just confirms -- I had shown you the photographs of -- that Ms. (V4)---2 3 had picked out on January 31, '69, and I think 4 this just confirms your efforts to get those 5 photographs? Yes, okay. 6 Α And down at the bottom, 465: Q "Mr. Williams phoned from Philadelphia, 8 9 advising that hypnosis on Nicol John is 10 completed, with the status remaining 11 basically the same as before. Williams 12 indicates John described the assailant 13 on Miller as wearing a brown corduroy 14 jacket, possibly with a beige collar. 15 No further details were provided to me." 16 What was your, what was your understanding of the 17 status of Nichol John's evidence at this time? 18 I really -- I don't know. You know, like I say, Α 19 this Nichol John witness was so problematic for 20 this case, I'm not sure I could go back and 21 recollect what I knew or thought at that time. 22 Go to the next page. Again, I don't think we need 23 to go through it, but you contacted (V3)--24 (V3)----, one of the Fisher victims, and 25 interviewed and took a statement from her; is that

		1 age 13320
1		correct?
2	A	Yes.
3	Q	And then if we can go, scroll down to paragraph
4		468, 468, it looks like you made a call to:
5		" Linda to check old photos for any
6		clothing Larry may have worn",
7		and again the toque and jacket, would again this
8		be something to try and connect him to perhaps
9		what Nichol John said she saw?
10	A	Yes, I believe, I believe that's what that's
11		about.
12	Q	And I think there is a few
13	A	These conversations with Linda over these issues
14		are were repeated.
15	Q	Do you have a recollection of that being something
16		that you either thought about or pursued whether
17		or not, based upon Nichol John's hypnosis, the
18		part that I pointed out, that whether or not
19		she might have seen Larry Fisher commit the
20		murder?
21	A	I I don't recall. I don't recall any
22		association there to Nichol John.
23	Q	And then again, down at the bottom in this
24		paragraph it's dealing with the Parker stocking
25		feet issue, and again you are checking whether
	i.	

Α

Larry had mukluks and thinking now they may have been Milgaard in stocking feet:

"If such tracks did exist, is it
possible they were Mukluk tracks, as
there is a distinct relationship in the
type of footprint they would leave.
Florence related to Linda that she
recalls Larry owning a black pair of
Mukluks and he possibly had a second
pair ...",

so would you -- and again we touched on this yesterday, the Parker evidence of either stocking feet or moccasin tracks around the scene; were you pursuing that both in connection with David Milgaard in stocking feet and Larry Fisher with mukluks?

Well here I was pursuing it with Larry Fisher, what kind of footwear he had, because there was some suggestion that he always wore work boots and is it possible that he did wear other footwear at times, and were those tracks left at the, so-called stocking feet tracks left, or were they actually something else, moccasins.

If we can then go to 056846, and again this is the Dozenko statement of January 13th:

= Meyer CompuCourt Reporting =

1 "Received a fax copy of Dozenko's 2 statement, contacted Williams and 3 provided him with details." And I just want to -- if we could call up 067143. 4 5 And this is your fax of January 14th, '92 to Mr. Williams, with the Dozenko statement, and you 6 say: 8 "Note the portion of the statement when 9 Ben is answering the question about 10 there being no written reports on the 11 Milgaard file. Ben's response would 12 suggest the book writer may have viewed 13 file material, or at very least been 14 told something about the file material. 15 It may be appropriate for yourself or 16 Sask Justice to determine who has had 17 access to the Milgaard file." 18 And again, if we can go to the next page. Oh, 19 sorry, if you can go to 0082721, and this is the 20 typed statement of Dozenko, and I think it was 21 taken by an RCMP officer in Winnipeg; is that 22 right? 23 Α I believe so. 24 0 Actually the name Mackenzie, Sergeant Mackenzie, 25 does that sound right, if we can go to the last

		Page 19928
1		page, 008726?
2	A	I believe that's right, yes.
3	Q	And, again, it appears from your fax cover that
4		one of the issues is whether or not Mr. Dozenko
5		had put this in his notes or on the prison file;
6		is that right?
7	А	I think that was the issue, yes.
8	Q	And then if we can go to 008724, and this is in
9		the Q and A, and I think Mr. McKenzie had gone
10		through and had Mr. Dozenko tell how he would put
11		this information on the file. And then he is
12		asked.
13		"Q But there is reportedly nothing
14		there now on the file.
15		A So I understand from the writer.",
16		who I think was Karp and Rosner:
17		"Yeah, he said there was a bunch that
18		was whited out or deleted or something
19		or maybe even missing for all I know.
20		Q Yeah. I don't know. I'm not privy to
21		that, but this is what's in this
22		correspondence, this book.
23		A I mean I hate to point a finger but
24		maybe somebody in the institution
25		wants to cover their ass or something.
	1	•

1		I don't know. Or the federal
2		government or some organization."
3		And, again, would that be the reference in the
4		statement that you are highlighting for Mr.
5		Williams that someone maybe ought to check on?
6	A	I think it must be, yes.
7	Q	If we can go back to 056846, and then here is a
8		discussion January 14th, '92:
9		"Talked to Mr. Williams. He is
10		interested in developing a character
11		reference on Dozenko and the
12		circumstances leaving the Correctional
13		system. The question is whether Dozenko
14		is credible and honest, as he seems to
15		be the only person who has ever been
16		told by Milgaard of having committed
17		this crime."
18		And do you recall having those types of
19		discussions with Mr. Williams?
20	A	I don't have a recall, I'm just going by I'm
21		just going by what I am reading here, but it
22		makes, it makes sense.
23	Q	Do you recall there being an issue in your mind,
24		or in discussions with people that you were
25		involved in, with the credibility of Mr. Dozenko,

1		or at least checking his credibility?
2	А	Yes, there was. I'm sure there was some follow-up
3		here on some other people that were interviewed in
4		the system over this issue of how the records were
5		maintained, and some of the people that I think
6		had worked with Dozenko, to determine
7	Q	Okay.
8	A	if there was some validity to this.
9	Q	Do you recall whether Mr. Williams expressed any
10		views to you about his view on his credibility or
11		lack of credibility?
12	A	No, I don't.
13	Q	This is probably an appropriate spot to break, Mr.
14		Commissioner.
15		(Adjourned at 10:26 a.m.)
16		(Reconvened at 10:50 a.m.)
17		BY MR. HODSON:
18	Q	Go to 056847 actually, I'm sorry, 056846. And,
19		again, this is January 14th. And I went through
20		your December 31 report a bit earlier, Mr.
21		Pearson, and that's when I touched on the, if you
22		will remember, the John Husulak bus driver, the
23		Tony Humen, and no a fairly detailed report
24		about it looked like you went through the
25		Saskatoon City Police reports and identified some
		Meyer CompuCourt Reporting

Page 19931 1 areas where there might be suspicious car 2 activities and matters related to the construction 3 worker with the hard hat, and you recall us just 4 looking at that briefly? Yes. 5 Α And here you say: 6 0 "Mr. Williams also indicated he had received my last official report. 8 9 asked him to read it carefully, 10 particularly notes from City Police officers at the time. It was also noted 11 12 that a suspicious vehicle was noted 13 following a City bus on 20th Street the 14 evening prior to the murder and seen 15 again around 7:05 am on the morning of 16 the murder. The white/dark blue 63 17 Pontiac sedan driven by one young male

18

19

20

21

22

23

24

25

Α

And we've looked at this before in this Inquiry, this is a vehicle that Tony Human and his sister Natalie saw; do you recall this being an issue in your mind, sir, at the time?

driver begs for an answer."

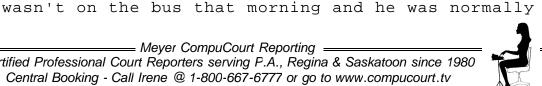

You know, it must have been, but, you know, I really can't comment on any more than what's on the paper there because I just don't remember.

1	Q	And then again, just down to 480, it says:
2		"I also advised Mr. Williams that I was
3		following up on some of the witnesses at
4		the time and have not come across anyone
5		driving a vehicle such as this who is
6		associated to Fisher at the time."
7		Do you have a recollection of going through the
8		police reports in a way to look at what you might
9		find that would connect to Larry Fisher?
10	A	Yes, I I must have. Like I say, all this
11		vehicle information here is I know there was
12		inquiries made and a lot of vehicles were
13		mentioned and looking at the possibility of a
14		vehicle being somehow associated to this crime.
15		This would have been information that was
16		retrieved from notebooks and Saskatoon Police
17		material.
18	Q	If we can go to the next page, please. And here
19		is a bit more information about the bus driver,
20		and again we heard from Mr. Husulak at this
21		Inquiry and some information about his information
22		to the police about a young man, a construction
23		worker, not being on the bus the morning of the
24		murder, but it looks as though Mr. Husulak did not
25		have much of a memory, and you took a statement
		Meyer CompuCourt Reporting ————————————————————————————————————

1		from him; do you recall that?
2	А	Yes, I do, I believe I re I took a statement,
3		yes.
4	Q	And, again, I think in the reference case, or
5		certainly in the materials put forward by or on
6		behalf of David Milgaard, that was one of the
7		things that they pointed to, saying that Larry
8		Fisher was the construction worker who didn't get
9		on the bus the morning of the murder; do you
10		remember that being a theory put forward and based
11		on what was in the police files?
12	A	Yes, possibly.
13	Q	And it appears from this note that you would have
14		followed that up to the extent you could with some
15		of the people who gave information to the police
16		in 1969?
17	A	It appears, it appears that's what this is about.
18	Q	If we can go to 056848, and you will recall I had
19		read you the note about Nichol John and the
20		hypnosis and the person with a brown suede jacket
21		with a, I think, a wool collar or a I can't
22		recall the term used but here it says you:
23		"Contacted Linda Fisher who confirms she
24		has found photos of Larry wearing a
25		black leather jacket with what appears
		4

1 to be a sheep's wool type collar. Larry 2 had that particular jacket while 3 residing at 334 Avenue O South. 4 discussed the aspect of Larry owning 5 Mukluks." Now the jacket with a, a brown jacket with a wool 6 collar was also similar to what was identified in (V4)---- (V4---'s statement as well; do you 8 9 recall that? 10 Α I believe so, yes. 11 Are you able to tell us whether -- and 12 again, I apologize, I asked you this earlier, what 13 -- whether you had ever done any follow-up to see 14 whether or not Mr. Fisher had a jacket of the type 15 described by Nichol John in her hypnosis? 16 I just don't recall. Α 17 If we can go to the next page, and this is January 0 18 15th, '92, a fellow by the name of Tony Humen. 19 And Mr. Humen, just to assist you, was the fellow 20 who caught the bus at the same bus stop as Gail 21 Miller, and on the Monday following the murder the 22 -- Mr. Husulak, the bus driver, had told the 23 police on the night of the murder that there was a 24 construction worker who wore a red hard hat,

1 on the bus, so on the following Monday they went 2 on and Mr. Humen had a red cap on and he was 3 identified either by the bus driver or assumed by the police to be the fellow that Mr. Husulak said 4 5 wasn't on the bus the morning of the murder. they, the police, did some follow-up with him, and 6 he's also the fellow who gave a report of a suspicious vehicle the night before; does that 9 assist your memory at all as to who this fellow 10 was? 11 Α I have no memory of this other than what I am 12 reading, I just don't recall. 13 0 And just one point here, if you could just scroll 14 down a couple more lines. In your discussions 15 with Humen, Humen says: 16 "... recalls Gail Miller from the time 17 she caught the bus, but he did not know 18 her personally. Tony could recall only 19 that it was a foggy and very cold 20 morning. He also indicated that Miller 21 "walked down the alley on occasion"." 22 And at the time, Mr. Pearson, was -- do you 23 remember looking at the issue of where, or what 24 route Gail Miller might have taken to the bus 25 stop regularly?

1	А	Yes, I believe that was something that was looked
2		into. If she went out her back door, that would
3		put her in the alley, and if she walked across the
4		street and down the alley as opposed to her
5		walking out the front door, she'd be on the street
6		side, but I I I just don't recall the
7		details.
8	Q	Again, 056851, and I don't want to go through
9		this, it deals with and we see this in a number
10		of spots in your chronology, Mr. Pearson where
11		you are making inquiries about a car that Larry
12		Fisher may have had access to, and it appears that
13		you talked to many people to try and find some
14		evidence to indicate that Mr. Fisher would have
15		had access to a vehicle on the morning of the
16		murder; is that correct?
17	A	Yes.
18	Q	And do you recall whether you ever were able to
19		establish a car that he might have had access to
20		on the morning of the murder?
21	Α	I never, I never located a car. Like I say, there
22		was, there was a lot of work that could have, in
23		my opinion, still have been done pursuing all this
24		car information, but I didn't this was, this
25		was the car aspect was not something that had
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

1		been requested of me to do by Mr. Williams, it was
2		an additional issue.
3	Q	And, again, and in the notes we'll see here and
4		as I say, I don't want to go through it but you
5		talked to a number of friends and acquaintances of
6		Fisher to see whether or not they had a car, what
7		the type of car, what colour it was, what make,
8		and whether Larry Fisher might have had access to
9		it on the morning of the murder; do you recall
10		making those inquiries of various people?
11	A	Yes, there were inquiries being made by a number
12		of people, yes.
13	Q	If we can go to 056856, and this is January 20th,
14		'92, and this is where the photos are being
15		prepared for mailing to Federal Justice on
16		(V4) And maybe we can just call up 067238.
17		And this is your letter, I think of January 20th,
18		sending the four photos that $(V4)$ $(V4)$ had
19		identified in the police report; is that correct?
20	А	Yes.
21	Q	If we could go to 056857, I want to deal now with
22		Sharon Williams; do you recall dealing with Sharon
23		Williams?
24	А	Yes, I recall making the trip to Fort
25		Saskatchewan, I believe it was, and meeting her at

		——————————————————————————————————————
1		her kitchen table
2	Q	And she was
3	А	or at her residence.
4	Q	Pardon me?
5	A	At her residence, yeah.
6	Q	Yeah, and she was an acquaintance or perhaps
7		girlfriend of David Milgaard back in 1969, and
8		that's who they were actually going to visit on
9		their way through Saskatoon on the morning that
10		Gail Miller was murdered; is that correct?
11	А	Yes, that's right.
12	Q	And so here:
13		"Mr. Williams called, wanting me to
14		interview Sharon Williams to determine
15		any recollection she may have, plus the
16		following:
17		a) Did Milgaard make confession that has
18		not yet been revealed?
19		b) Whether Milgaard was violent when she
20		told him she may be pregnant. Possibly
21		she was punched in the stomach when
22		told.
23		c) In Ottawa, she disagreed with Milgaard
24		that he is supposed to have "pounded"
25		her for no reason, then made up, etc.
	Ĭ	

1 Basically, Federal Justice are 2 interested in determining the violent 3 behaviour that Milgaard has the potential to exhibit. I will contact 4 5 Sharon Williams and set up an interview." 6 And, again, would you have -- I presume, and when I go to her statement, I think you did have her 8 9 original statement that she gave to the police in 1969? 10 11 Α Yes. 12 And how did you, again before you went out to see 13 her, how did -- what was your understanding of how 14 this fit into the 690 application? 15 Well it was just information-gathering, again, Α 16 covering the points that had been passed on to me 17 by Mr. Williams as I've got documented there. Ι don't have a recollection of the actual 18 19 conversation that Mr. Williams and I had on this, 20 but it was to go up and determine if there was any aspect of admissions made, details surrounding any 21 22 incident that took place. 23 0 Now earlier in your notes -- and I did not bring 24 them up -- but there were notes of you had 25 interviews with a couple of women who had known Meyer CompuCourt Reporting =

1		Larry Fisher in 1969 and had relationships with
2		him; do you recall interviewing those people to
3		get details about their relationship with Larry
4		and how he treated them?
5	A	Umm, yes, I believe there were some. I don't
6		recall the details, but
7	Q	There
8	A	I recall that there were some people that
9		surfaced, yes.
10	Q	And I believe you had interviewed them to get
11		their recollection of their dealings with Larry
12		Fisher?
13	A	Yes.
14	Q	And do you recall inquiring about their sexual
15		relationship with Larry Fisher and how he treated
16		them?
17	A	As I recall, yes.
18	Q	And how would that be important in looking at
19		Larry Fisher as a suspect?
20	А	Well it gives you some background, maybe, on his
21		behaviour, it I'm not sure if it was anything
22		that would associate him to the murder, but it
23		would give you a background of maybe what he was
24		like and maybe whether he exhibited violence and
25		any, you know, personal problems.
	İ	

1	Q	And, again, would that be something to assist you
2		in your investigation to determine whether or not
3		he was a suspect, or a good suspect, or perhaps
4		the culprit in the murder of Gail Miller?
5	A	Well, if these individuals had indicated something
6		that would incriminate him, but beyond that,
7		again, it's adds to the suspicion of Larry
8		Fisher's overall behaviour.
9	Q	And again with respect to Sharon Williams, then,
10		would your task then be similar to what you were
11		doing with respect to Mr. Fisher's earlier
12		acquaintances?
13	A	I I believe Mr. Fisher's earlier acquaintances
14		just came to me during my inquiries, whereas
15		Sharon Williams was known from the file material,
16		and it's something that Mr. Williams in Ottawa
17		wanted to follow up on.
18	Q	If we can actually just go back to, again, 056842,
19		just to have this on the record.
20		And if I could get a publication
21		ban on these names, Mr. Commissioner, I don't
22		think there's any need to have the names made
23		public, but it looks as though you talked to a
24		(V17) (V17), nee (V17), (V18)
25		(V17), and if we can go down to the next
		Moyor CompuCourt Paparting

1		naragraph and I won't I don't propose to se
		paragraph and I won't, I don't propose to go
2		through it, but you had asked her about attempts
3		made on her by Larry during this time period, and
4		as well there was a (V19) (V19) or a (V19)
5		(V19), do you remember that name as being
6		someone who had a relationship with Larry Fisher
7		back in '68-'69, and you talked to her and got
8		information from her?
9	A	Yes, I believe that's right.
10	Q	Yeah. And so these would be instances where, that
11		you were talking about earlier about getting
12		information about his, the way in which Larry
13		Fisher treated women?
14	А	I believe that's accurate, yes.
15		MR. HODSON: And I'm just wondering if that
16		publication ban can be granted then for those
17		names, Mr. Commissioner?
18		COMMISSIONER MacCALLUM: One is in
19		paragraph perhaps you can identify them by
20		paragraphs.
21		MR. HODSON: Paragraphs 459, 460, 461, the
22		names (V17) (V17) or (V17) (V17), and
23		(V19) (V19) or (V19) (V19) I think are the
24		names.
25		COMMISSIONER MacCALLUM: Okay.

1 MR. HODSON: And as well as (V18) --2 (V18) - / (V18) - - (V17) - - - - - .There will be a 3 COMMISSIONER MacCALLUM: 4 ban then. 5 BY MR. HODSON: Go back to 056858. So as far as Sharon Williams 6 Q is concerned, again, was something different in 8 your approach to her as compared to your approach 9 to the women that had been associated with Larry 10 Fisher? I don't really recall a difference in the 11 Д 12 approach. We already had some information on 13 Sharon Williams, so we didn't really have much 14 information on the other women, so we knew in 15 general terms what Sharon Williams had to say 16 based on previous reports, so I think the approach 17 to her was to find out what she knew and then let 18 her have an opportunity to know what she had said 19 back at that time in the '60s or early '70s and to 20 try and get whatever information she could recall. 21 Okay. Call out that part --22 And I just want to add on that, at that time, as I 23 recall, her husband, she wanted her husband 24 present or her husband wanted to be present or 25 something and I think I got the feeling that that

1 was maybe not leaving her at the point where she 2 would totally open up, she had her husband present 3 and that may have affected what she was going to 4 disclose. 5 Q Okay. I'll just read a note here of your summary, it says: 6 "She indicated she does not recall giving such a statement." 8 9 And that is I think the March 20th or March 21, 10 1969 statement, or March of '69, and: "I then attended at her residence ..." 11 12 So it looks like on the phone she told you that. 13 "I then attended at her residence and 14 she provided me with a statement which 15 provided very little detail and either 16 she honestly cannot recall the events 17 due to the passage of time or she does 18 not want to get involved. It should be 19 mentioned that her husband was present 20 and insisted on being present during the 21 interview and this, I believe, had a 22 negative effect on the openness that may 23 have otherwise been displayed by Sharon. 24 While she was very cooperative, she gave 25 nothing to indicate that she recalls her

1		activities with Milgaard. My suspicion
2		is that she does not want to get
3		involved, as her life has certainly
4		changed around since the early 1960's.
5		Sharon did reveal she had been placed on
6		a polygraph during the original
7		interview, something I was not aware of
8		until this time."
9		And again, is that, I think the note about the
10		husband there, do you have a recollection, Mr.
11		Pearson, as to whether or not, other than what's
12		here, whether she was telling you everything she
13		knew?
14	A	No, I have no idea. I have no recollection.
15	Q	Based on this note, is it fair to say at the time
16		you had some suspicions that she may not have been
17		telling you everything she recalled?
18	A	Well, the suspicion or just the feeling that maybe
19		the interview wasn't as open because her husband
20		was present.
21	Q	And maybe I shouldn't have said that she wasn't
22		telling you everything. She wasn't being open
23		with you?
24	A	That seems to be the view I had at the time.
25	Q	And then if we can call up 008731 and go to so
		4

1		this is the typewritten version; is that right?
2	A	Yes.
3	Q	And would it accurately record what she told you
4		on that date?
5	A	I can only say I believe so. I mean, I haven't
6		compared the statements, but I
7	Q	And if you can go to the next page, and I think I
8		had gone through the three areas that Mr. Williams
9		asked you to touch on, did Milgaard make a
10		confession, two, was Milgaard violent when she
11		told him she may be pregnant, was she punched, and
12		just sort of violence, you were being asked to
13		probe whether Mr. Milgaard had been violent
14		towards her; is that right?
15	A	Yeah, in general.
16	Q	In general?
17	A	You know, gathering information.
18	Q	And so here we go to page 2, you asked:
19		"Q Did David ever confess to you, or
20		confide in you, that he had committed a
21		serious crime in Saskatoon?"
22		She says:
23		"A No.
24		Q Did anyone else in the group with David
25		mention anything about David possibly

1		being involved in an attack on a girl in
2		Saskatoon?
3		A No that I can recall."
4		Next page. It looks as though you asked the
5		questions here:
6		"Q Do you ever recall being physically
7		assaulted by David?
8		A No.
9		Q Did David ever punch you over stupid
10		things?
11		A I can't recall."
12		And again, would those be questions prompted by
13		Mr. Williams' request to you?
14	A	You know, in part. I think it's, you know, just
15		trying to get a general interview, information
16		gathering.
17	Q	And then down at the bottom, if we can scroll
18		down go back to the full page. And in her
19		original statement to the police in 1969 there was
20		reference to a gun and Russian Roulette or an
21		incident. Do you remember reading that in her
22		original statement?
23	A	Yeah, I do remember something about Russian
24		Roulette and a gun, yes.
25	Q	And it appears that you covered that with her $\P$

		ŭ
1		again:
2		"Q Do you recall David having a gun?
3		A I remember the incident but don't
4		remember the gun, but don't remember
5		what it looked like.
6		Q Tell me about the incident?
7		A I think he was playing games with me.
8		Q Did he point the gun at you?
9		A Yes.
10		Q Then what?
11		A I don't know.
12		Q Was the gun loaded?
13		A I don't know."
14		Would this have been prompted by what was in her
15		earlier statement to the police, Mr. Pearson?
16	А	Yes, I think it was all probably information that
17		formed these questions.
18	Q	And then again the next page, you ask at the
19		bottom:
20		"Q Were you ever threatened or sexually
21		assaulted by David Milgaard?
22		A Not that I can remember, no."
23		And then the next page at the top:
24		"Q While at the Milgaard home in
25		Langenburg, do you recall an incident
		4

1		when David had a butcher knife and may
2		have said something like, "I'm going to
3		kill you."?
4		A I can't recall that."
5		And again, was that something you think you took
6		out of her original statement in '69?
7	A	It had to come from somewhere and I guess that is
8		probably the source of it. I'm just only going
9		by
10	Q	And I can tell you that there are in her original
11		statement
12	A	Yes, okay.
13	Q	I don't need to bring it up.
14	A	That's where it would have originated.
15	Q	And then if you can go to the next page, please,
16		it looks like then after asking that you say:
17		"Q Sharon, I wish to show you the statement
18		you gave the police in 1969 concerning
19		your activities and association with
20		David Milgaard. Please read it
21		carefully and tell me what portion of it
22		refreshes your memory."
23		Let me pause there. Would the questions and
24		answers that are listed in the statement prior to
25		this question, would you have asked her that

1		without showing her her earlier statement?
2	А	Yes.
3	Q	And explain why you would do it that way?
4	А	I just wanted to get what memory she may have had
5		on the previous statement that she had provided.
6	Q	And so you go through and ask for her recollection
7		and then it appears here you then gave her her
8		statement and asked her if it refreshes her
9		memory?
10	А	Yes.
11	Q	And then you say:
12		"Q Sharon you have now read your 1969
13		statement, do you have any comments?
14		A No, I guess not, I can't remember any
15		of it."
16		And then you go on, if you can scroll down a bit:
17		"Q Did it refresh your memory?
18		A I can't remember staying in a motel
19		overnight when they came to
20		St. Albert."
21		So again, do you have any recollection of what,
22		of your assessment of her credibility in this
23		interview?
24	А	I don't recall really having any concerns about
25		her credibility, but again, I'm struggling with

1		trying to remember the details. I'm really going
2		by what's written here.
3	Q	If we can go to the next page, and then you ask
4		her right near the end of the interview:
5		"Q Sharon, do you possess any information
6		or evidence that would assist in proving
7		that David Milgaard did not commit the
8		murder of Gail Miller?
9		A No.
10		Q Do you possess any information which
11		would assist in proving that David
12		Milgaard did commit the murder of Gail
13		Miller?
14		A No."
15		And would those two questions, would that be what
16		you were trying to find out from her?
17	A	Well, just asking if she had any information at
18		all that would enlighten us either way. It was
19		just a just a question.
20	Q	If we can go to 057850 and this is a note on the
21		file around this time, and I think Virginia Dowler
22		was your assistant at the time; is that right?
23	А	She was a secretary.
24	Q	And in your absence while you were seeing Sharon
25		Williams, it looks as though an issue came up from
		Mayor Correct Court Percenting

1		Mr. Williams in Ottawa, she writes:
2		"I received a call from"
3		Let me back up. If we can go back up to the top,
4		Mr. Williams had called her in your absence
5		requesting information about who licensed garages
6		in Saskatoon, opening and closing hours, if any
7		garages were licensed to stay open all night, and
8		I think this related to evidence that David
9		Milgaard had given at the Supreme Court about
10		stopping at an all-night gas station to get the
11		heater fixed. Do you remember this issue coming
12		up?
13	A	Vaguely, yes.
14	Q	And it looks as though
15	A	I don't think I was even here at that time, but I
16		guess I do remember it from reading it.
17	Q	And then if we can scroll down, it looks as though
18		Ms. Dowler in your absence contacted the city and
19		the city solicitor to get information for Mr.
20		Williams about what service stations may have been
21		open on the morning of January 31, 1969. Do you
22		recall that happening?
23	A	From reading this, yes.
24	Q	And then if you can go to page 057865, and this is
25		actually the note that is sent, I think on your
		Mayor CommuCount Bonorting

behalf, to Mr. Williams based on information from
Theresa Dust that there were no restrictions on
hours of operation and as far as they know at that
time there were three 24 hour service stations
open. The two downtown had towing services. And:

"What time the other service stations
and garages opened, no one knows,
probably 7 am but could have opened
earlier ..."
And noted:

"There was no "24 hour garage" on the

East side of the river. If Milgaard was

coming from Regina and said he got his

heater fixed before he crossed the

bridge, it would have had to be on the

East side of the river."

Again, do you recall whether you had any involvement in getting this information or sending it off or was it Ms. Dowler?

A I had no involvement in this.

Again to 056861, and this is just a follow-up on the Dozenko matter. Actually, if we can just scroll up to the top of that paragraph, and here is where Jack Hewitt, one of the people who worked with Mr. Dozenko, told Mr. Williams that when Mr.

1 Milgaard escaped Hewitt expressing the concern or 2 the hope that Milgaard does not commit another 3 murder and that Dozenko is said to have replied something to the effect, "I have no problem with 4 5 that score. David has not killed anybody." then Williams wants Dozenko interviewed about this 6 conversation and files. So I think you talked about this a bit earlier where people on both 8 9 sides of the issue were commenting on what Mr. 10 Dozenko may have said or not said and what he 11 recorded, and if you can scroll down a bit, it 12 looks as though you, paragraph 538, contacted Bill 13 McKenzie in Winnipeg to make further contact, and 14 other than being the go-between and facilitating 15 this, did you have any direct involvement in 16 reviewing the statements related to Mr. Dozenko or 17 questioning them or assessing them in any way? 18 No, not that I recall. Α 19 Go to page 056865, this is now January 27th, 1992 20 and a discussion with Linda Fisher about clothing 21 that Larry may have been wearing at the time, and 22 then she says to you: 23 "She also now relates to me that she 24 recalls someone telling her that a pair 25 of blood covered coveralls were found in

4		
1		the attic at Cadrain's home at 334
2		Avenue O South."
3		Do you remember getting that information from
4		Linda Fisher?
5	А	No, I don't remember, I don't remember the
6		information, but obviously, you know, obviously I
7		did, but I don't remember.
8	Q	Go to page 056866, again the date of this is
9		January 27th, '92, that Mr. Williams in a
10		discussion with you, it looks like he called you:
11		"Also advised that a Winnipeg lawyer
12		David Miles contacted Federal Justice,
13		advising he had a client who was at the
14		original trial. This client apparently
15		heard someone believed to be a witness
16		at the trial say, "If he gets out he'll
17		kill me." Williams was now asking if we
18		could contact Miles to get more
19		information as to what this was all
20		about."
21		And if we can go to the next page, the bottom, it
22		says:
23		"I called lawyer Miles in Winnipeg, who
24		states his client is credible but
25		somewhat fearful of Milgaard and
	1	•

1 reluctant to have his name brought 2 forward if the information he has is of 3 no value to this review. The client felt responsible to bring forward what 4 5 he overheard, even though he does not know if it has any relevance. Miles 6 states his client is almost 100% sure 8 the person making the statement is 9 Ronald Wilson. This is regard to the 10 comment, "If he ever gets out he'll kill 11 This comment was apparently made 12 during the preliminary hearing and 13 Miles's client was walking past a room 14 containing several of the witnesses, 15 when he overheard this comment. Mr. Miles indicates that his client was 16 17 not a witness at the trial or 18 preliminary hearing, and does not know 19 Milgaard. Miles wishes to have one of 20 the Court lawyers call him if they 21 believe the comments are of value, and 22 his client will cooperate. I indicated 23 that if this is of any value, Mr. 24 Williams of Federal Justice would be in 25 touch with him."

1		Do you have a recollection of following up on
2		that, Mr. Pearson?
3	A	I have no recollection, no, I don't.
4	Q	And do you know if any follow-up was taken by Mr.
5		Williams?
6	А	I don't, unless it's documented here someplace.
7	Q	I don't believe so. Again, I don't propose to go
8		through these in detail, but I think from the
9		notes it looks as though you also had some
10		involvement in interviewing or arranging for
11		interviews of inmates who were claiming that Larry
12		Fisher had confessed to killing Gail Miller or to
13		killing someone. Do you recall being involved in
14		that?
15	А	Yes.
16	Q	And tell us generally, what was your role in that
17		process and facilitating that information?
18	А	Well, just in very general terms it was
19		information that surfaced from various sources.
20		It's documented here I'm sure in the report, but
21		some may have come from Mr. Williams, some may
22		have come from other sources and they were
23		followed up by having them approached and
24		statements taken or assessments being made as to
25		whether they had information of value and how
	I	

1		credible they were and a lot of this was jailhouse
2		stuff that was coming out.
3	Q	And as well did were there some on the other
4		side who disputed what was attributed to Mr.
5		Fisher? I think there was one where Mr. Beresh
6		may have asked you to assist in getting an
7		inmate
8	A	In Edmonton, yes, that's true.
9	Q	And in fact I think it was an inmate who said that
10		Fisher admitted the killing and another inmate
11		said that inmate was lying or something like that?
12	A	Yes, yes, there was quite a lot of that. I think
13		most of it is documented here.
14	Q	Yes, it is.
15	A	But it's all there.
16	Q	If we can go to 056873, and this is January 30th:
17		"Mr. Williams called me to advise that
18		ex-Detectives Karst, Mackie and Short
19		would probably be called as witnesses on
20		the next sitting of the Supreme Court;
21		he wanted addresses so subpoenas could
22		be completed and forwarded for me to
23		service."
24		And I take it that's also a task that you
25		undertook, is that you served some subpoenas for
		<b>1</b>

1		witnesses who had to appear at the Supreme Court?
2	A	Yes, I served subpoenas. I also made arrangements
3		for Larry Fisher to be held I think at Carlton
4		Remand Centre in Ottawa and made some initial
5		inquiries there. Also, when Larry Fisher was to
6		be moved from the Mountain Institution in British
7		Columbia, I initiated some coordination to get the
8		RCMP aircraft to transfer him, and that was
9		eventually taken over by other people, but the
10		coordination kind of went through my office on a
11		lot of this local stuff.
12	Q	And again I think we see in the notes that you did
13		in fact serve Mr. Karst and Mr. Short with a
14		subpoena, but Mr. Mackie was out of the country;
15		is that right?
16	A	Yes.
17	Q	And then we see:
18		"Williams also advises that saliva tests
19		were recently completed on Milgaard and
20		the results show that Milgaard is a
21		secretor."
22		And do you recall learning of this information
23		around that time?
24	А	I have no recollection of it, other than what I'm
25		reading here.
	I	

		r ago rosso
1	Q	And as far as the importance of that, do you
2		remember, we talked earlier about your efforts to
3		get Larry Fisher's blood type?
4	A	Yes.
5	Q	And just to assist you, Mr. Pearson, the evidence
6		at Mr. Milgaard's trial was that he was blood type
7		A and either not a secretor or in a test that they
8		did antigens were not contained.
9	A	Yes.
10	Q	So but I think most would say the view was that
11		he was a non-secretor at the time and in the
12		frozen semen that was evidence at the trial it
13		suggested that the blood type there was type A of
14		the perpetrator.
15	A	Right.
16	Q	And that there were antigens in the frozen lump
17		which suggested that the perpetrator was either an
18		A secretor or had blood in his semen.
19	A	Yes.
20	Q	And so now it appears at this point it's
21		determined that Mr. Milgaard is a secretor.
22	A	Right.
23	Q	And I'm wondering if that was something that you
24		had looked at or factored into any of your
25		thinking at the time as far as the reopening, or

1		as far as your investigation?
2	А	Well, it, you know, it's kind of a confirmation of
3		suspicion that had been cast on Milgaard as to the
4		blood type and the secretor status, so I guess it
5		does give a little more confirmation.
6	Q	And again I think back in the first, the first
7		Section 690 application when we went through this,
8		I think there was a couple of notes where you made
9		inquiries of Mr. Williams about the evidence of
10		Mr. Ferris I think, or Mr. Markesteyn, and about
11		the secretor issue and the blood issue. Were you
12		aware that that was one of the grounds of the
13		first application, that Mr. Milgaard could not
14		have committed the crime because he was a
15		non-secretor?
16	А	Yes, I believe, you know, I was aware of it. I
17		wasn't very, you know, familiar with the science
18		and familiar with all the issues surrounding it,
19		but in general terms I would have been aware of
20		it, yes.
21	Q	And again just back with this information, the
22		fact that it was learned that he was a secretor, I
23		think you told us that that was would that
24		cause you to have more suspicion about Mr.
25		Milgaard then?
		4

1	A	I would think so, you know, it wouldn't it
2		wouldn't eliminate him I wouldn't think.
3	Q	Just down at the bottom of this page, and there's
4		a few references earlier that I don't need to go
5		to, but there was some, I think you received some
6		information from, it might have even been
7		Superintendent Goodman who was at an FSIN function
8		or some function where he was told that a fellow
9		by the name of Chickeness had committed the murder
10		of Gail Miller and then died in an automobile
11		accident and I think you did some follow-up work
12		and ended up determining that he died in 1963. Do
13		you remember that?
14	A	In general terms, yes.
	Q	And so in addition to following up Mr. Fisher and
15	~	
15 16	~	Mr. Milgaard, did you also spend some time
	~	Mr. Milgaard, did you also spend some time following up other information where people were
16	~	
16 17	~	following up other information where people were
16 17 18	A	following up other information where people were suggesting that someone other than Mr. Milgaard
16 17 18 19		following up other information where people were suggesting that someone other than Mr. Milgaard and other than Mr. Fisher committed the crime?
16 17 18 19 20	A	following up other information where people were suggesting that someone other than Mr. Milgaard and other than Mr. Fisher committed the crime?  That's fair, yes.
16 17 18 19 20 21	A	following up other information where people were suggesting that someone other than Mr. Milgaard and other than Mr. Fisher committed the crime?  That's fair, yes.  Go to 056872, this is February 3rd, 1992, and you
16 17 18 19 20 21 22	A	following up other information where people were suggesting that someone other than Mr. Milgaard and other than Mr. Fisher committed the crime?  That's fair, yes.  Go to 056872, this is February 3rd, 1992, and you are talking to a fellow named Mo Marion who worked
16 17 18 19 20 21 22 23	A	following up other information where people were suggesting that someone other than Mr. Milgaard and other than Mr. Fisher committed the crime? That's fair, yes.  Go to 056872, this is February 3rd, 1992, and you are talking to a fellow named Mo Marion who worked with Masonry Contractors, and:

the late 1960's early 1970's but does not believe Fisher worked on that particular job (re (V14)- complaint from (V14) (V14))."

And again, is that the information you would have had to see if Mr. Fisher was connected to the (V14)- complaint?

A I think in general, in a general way, yes.

Go to page 056874, here's another follow-up call to Sharon Williams, this was after your statement, and:

"Placed a telephone call to Sharon Williams, asking her if she had recalled any more information, she advises she cannot recall anything more. I also asked her about the incident where David Milgaard was supposed to have punched her in the stomach when she mentioned She indicates she can she was pregnant. remember something like this taking place but recalls nothing of any significance that would be of assistance. Sharon at this time was even wondering if she had made her original statement as she could not

1

1		recall providing the police any written
2		statement. I said I would send her
3		copies of her signature so she could
4		satisfy herself that it was in fact her
5		statement. Sharon states that David
6		would often be "fooling around" when on
7		drugs and he would do stupid things and
8		was a show-off. She had very little of
9		value to offer me."
10		And do you know what would have prompted this
11		follow-up call?
12	А	Was this before or after my other interview?
13	Q	I think this was after your statement.
14	А	Maybe just a follow-up call to see if she had any
15		more to recall.
16	Q	The statement you took from her was January 22nd,
17		'91.
18	A	Okay. This may have been just a follow-up call to
19		see if she recalled anything more from our
20		previous contact.
21	Q	And then just scroll down to the next two
22		paragraphs, and it looks like you called Linda
23		Fisher to determine if Larry ever wore a bandanna
24		around his head (re (V14)- complaint), and you
25		also called Sharon wills to see if she remembered
		Mayor CommuCourt Deporting

1 David wearing a bandanna around his head or neck. 2 I take it that related to the (V14) - complaint? 3 Yes, it must have been. Α And then again scroll down, it looks like you 4 0 5 talked to Mr. Williams about checking with Lapchuk, Melnyk, Frank and Hall to see if David 6 Milgaard ever wore any type of chain or medallion around his neck and if he ever wore anything like 8 9 a bandanna around his head. So I take it again 10 you were following up to see if anything might 11 link him to the (V14) - complaint? 12 Α Yes. 13 0 Go to 056876, this is February 7th, so this would be in the middle of the reference case, and it 14 15 looks like you would have had some discussions 16 in fact, I think this is the same discussion I 17 referred to you earlier this morning when you 18 talked to Mr. Asper about not revealing his 19 source, and it looks like he called you and talked 20 about Professor Boyd and associates got a grant to 21 do a reenactment according to Wilson's version. 22 Do you remember discussing that with him, about a 23 video or a reenactment or anything of that nature? 24 I remember having -- I remember reenactment, but I

don't remember the details.

1	Q	And then do you remember a discussion, it says
2		here:
3		"Asper also states that Father Murphy,
4		Priest at St. Mary's Church, claimed at
5		the time that he was instrumental in
6		having Albert Cadrain come forward to
7		give evidence, as he had talked to
8		Albert on behalf of the City Police
9		detectives. Details were unclear as to
10		what was meant."
11		Do you remember that discussion, or following up
12		on any of that?
13	А	I'm just going to finish reading that.
14	Q	Sure.
15	А	No, I just don't recall the, I just don't recall
16		the conversation.
17	Q	And then down at the bottom it says:
18		"At this time I encouraged Asper to
19		ensure that Fisher is subjected to
20		intense examination at his Supreme Court
21		review, as this will probably be the
22		closest we will ever get to him, and we
23		should exhaust every possible titbit of
24		information in the event the Supreme
25		Court rules that there was in fact a
		1

1 miscarriage, ..." 2 Next page: 3 "... as we can then maybe use the Fisher transcripts to further the investigation 4 5 at that time. I am of the opinion that 6 Asper, as well as Sask Justice lawyers, should be premotivated to go after 8 Fisher with as much detail as possible, 9 as he is the suspect who is presently 10 being pursued in this review." 11 And, again, I take it that's something you would 12 have advised Mr. Asper? 13 Α Yes, and I -- I think I sent, I'm not sure if it 14 was to Mr. Asper or to Mr. Williams, a list of 15 some of the questions that they would consider. 16 Yes, it was actually sent to Mr. Williams, an Q 17 outline of areas you thought should be covered 18 when Mr. Fisher is on the stand. And, again, why 19 would you be telling this to Mr. Asper? 20 Well, you know, he had as much interest in the 21 outcome of this, I think, as anyone. It was just 22 asking him that -- to go after Fisher, and it's 23 the closest we'll ever get to him, my view was, in 24 looking down the line from this. He's, Fisher is 25 going to be in a courtroom environment and he is Meyer CompuCourt Reporting =

1		going to be having direct questions put to him, it
2		was certainly a process which would make Fisher
3		more vulnerable or available to questioning than I
4		as a policeman would probably ever get, you know,
5		having to go through his lawyer and being
6		restricted as to what I could or couldn't say, so
7		this was an opportunity to pursue it aggressively.
8	Q	Would the fact that Larry Fisher was involved in
9		the Supreme Court reference and was gonna be a
10		witness before the Supreme Court; would that fact
11		alone assist you in your investigation of Larry
12		Fisher as a suspect?
13	A	Oh, it certainly had the potential, depending on
14		what kind of questions and what kind of answers we
15		got from him.
16	Q	But the opportunity to have him examined under
17		oath in a public setting; would that be of
18		assistance?
19	А	Absolutely.
20	Q	And
21	А	Because without it of course, you know, he gets
22		the advice of his lawyer and exercises his right
23		to remain silent and all of those things would
24		come into play.
25	Q	So after this discussion with Mr. Asper then, if $lacksquare$

25

we could go to 056879, this is four days later, February 11th, it says:

"While talking to Mr. Neufeld, he indicated he had been talking to David Asper and that Asper claimed that I believed that Fisher is responsible for this crime. Eric asked if I believed Fisher was responsible. I explained emphatically to Mr. Neufeld that I have no direct evidence implicating Fisher in the Miller murder, however, "suspicious activity" took place on the morning of the murder; i.e., the (V4)--- assault, Carriere observation regarding the car parked near the Miller residence, and I explained to Mr. Neufeld I have an open mind on this investigation and do not wish to pass on opinions. Any comment that was made by Asper was done only to unsettle Mr. Neufeld and certainly did not come directly from me. I explained to Mr. Neufeld the very unusual crime scene in that the coat had obviously been removed from the victim and then placed back on after when she was

		<b>o</b>
1		stabbed to death. I referred
2		Mr. Neufeld to the notes of McCorriston,
3		which gave some insight to what was
4		happening prior to and subsequent to the
5		murder; i.e., suspicious activities in
6		the scene that could possibly be
7		unrelated to David Milgaard."
8		Can you elaborate on this discussion, Mr.
9		Pearson?
10	A	You know, I really can't.
11	Q	Pardon me?
12	А	I really can't, I'm just really no different than
13		you on reading this, and
14	Q	Would you have
15	A	I don't want to start speculating and tell you
16		that I can remember, sharply, the conversation and
17		all the details that we discussed, but, you know,
18		this capsulizes it as far as I can recall.
19	Q	Would you have told Mr. Asper that you believed
20		Larry Fisher was responsible for the murder of
21		Gail Miller?
22	A	No, I no, no, I wouldn't have said that to Mr.
23		Asper.
24	Q	Did you believe that
25	A	Umm

1	Q	I'm sorry?
2	A	But, you know, when we had our discussions he, I'm
3		sure, was aware that I suspected Larry Fisher, you
4		know. I don't think in my discussions with Mr.
5		Asper I ever said that "I don't believe Larry
6		Fisher was involved in this so, you know, I would
7		think the conversations I had with Mr. Asper were
8		such that I did believe Fisher to be a good
9		suspect, and but to say that I had some direct
10		evidence, that would be incorrect, I never said
11		that.
12	Q	And at the time, regardless of what you said, did
13		you believe at that time that Larry Fisher was
14		responsible for the murder of Gail Miller?
15	А	I didn't believe that he was responsible, I had
16		suspicions that he was responsible.
17	Q	056885, and this now gets into the theory, the
18		police theory paper. Do you know what we're
19		talking about, Mr. Pearson? This is the
20	А	Yes, yes.
21	Q	five-page document that came up at the Supreme
22		Court reference, and I'm not sure what I should
23		call it, it's been called many things, but here
24		it's called the 'police theory paper'. And you
25		write:
	1	•

"We are also interested in determining the origin of the "police theory" paper recently filed in the Supreme Court by Mr. Wolch. I indicated to Williams I had never seen or heard of this document, that does not mean it does not exist in the Saskatoon City Police file."

Again, would that be accurate?

A I believe so, yes.

O And:

"Mr. Williams is of the view that the paper came from the prosecution file and he will be checking with Sask Justice if they have details on the origin of the theory sheet. This particular theory sheet appears to be something that may have been generated during the police investigation, as it lays out the evidence that has been established, as well as a few things that have to be done. As well, there is also apparently 95 statements that were provided to the prosecutor by City Police. This is probably where some of the statements

1		that I have been pursuing have ended up
2		i.e., Chuck Carriere, etc."
3		Do you recall being concerned at all about this
4		police theory sheet when you looked at it?
5	А	Well I think, I think there was some discussion
6		about whether this theory sheet was put together
7		before the investigation was complete, and I think
8		the thought was that did the investigation adjust
9		to fit the theory so to speak, I think that was
10		kind of the gist of it.
11	Q	Yes?
12	A	And yeah.
13	Q	I think you spent some time trying to identify who
14		might have been the author of the document, and in
15		fact doing some checking of typewriters and things
16		of that nature, to see who
17	А	Yes, you know, I had suspected that possibly it
18		was a city police document, and I also at one
19		point believed it was something generated by Mr.
20		Caldwell, but
21	Q	Did you think
22	А	the material, there was material and I think
23		you will show the documents eventually sent to
24		the lab to try and do some comparisons of
25		documents generated by Mr. Caldwell to the $lacktriangle$

1		document that we're this so-called theory sheet
2		to see if it was done by the same typewriter,
3	Q	Right.
4	А	that kind of an examination.
5	Q	And, again, I did you, apart from trying to
6		identify who might have created it, did you have
7		any concerns or did you see anything wrong with
8		the document?
9	A	I really can't recall that I thought there was
10		something wrong. There was this question about
11		who authored it and, you know, did the
12		investigation change as a result of it, and that
13		was really the task of trying to find out where it
14		was where it originated.
15	Q	We've heard evidence before the Commission, I
16		think, that Mr. Mackie, one of the officers in
17		charge of the investigation, thinks prepared the
18		document towards the tail end of the
19		investigation, and I think he, his evidence was
20		that he put together a page of some theories as to
21		how the crime may have happened with David
22		Milgaard as the perpetrator.
23	A	Uh-huh.
24	Q	And again just generally, without getting into the
25		specifics, as a police officer, is that something

1		that you would do on occasion on a file?
2	А	Put together a theory?
3	Q	Yes?
4	A	Umm, yes, I think I put together a theory on this
5		file, so yeah.
6	Q	And would that be the car theory?
7	A	Yes.
8	Q	And we'll get to that this afternoon. And again,
9		what would be, what would be your purpose as an
10		officer in putting together a theory sheet or a
11		theory document?
12	A	Well I suppose, depending on the circumstances,
13		but maybe a possible way to look at an
14		investigation in a different light, maybe to get,
15		get an opinion of other investigators as to what
16		had meaning and what didn't.
17	Q	And what
18	A	But, you know, to to, I think to put the theory
19		together, you know, I think the suggestion was the
20		theory was put into place and then the
21		investigation tailored to fit the theory, which
22		would, which would be probably inappropriate.
23	Q	Okay. So as far as, let's just take as far as the
24		theory. And again, talking generally, you don't
25		have any concerns, as an officer, in putting

1		together a theory as to how the crime may have
2		been committed?
3	A	Well, you know, you don't want to use a theory as
4		the focus of where this is going to take you, I
5		mean you have to lead the theory, the theory
6		shouldn't lead you.
7	Q	Okay. So that the, once the theory is there, your
8		concern then would be that, that the theory not
9		lead the investigation; is that
10	A	That's right. That's right.
11	Q	056891, the date of this is March the 4th, '92:
12		"Mr. Williams called, advising that
13		Milgaard's original counsel, Cal Tallis,
14		took the stand this morning, confirming
15		that the compact case was in fact thrown
16		out of the window and that they did
17		encounter an old woman in the
18		neighbourhood, asking directions, and
19		that there was separation from the car
20		by Wilson and Milgaard, and that the
21		heater repair story had never been told
22		to Tallis during his original contact
23		with Milgaard."
24		And, again, is this do you recall, Mr.
25		Pearson, whether this information again, this

1		was Mr. Williams telling you what Mr. Tallis said
2		before the Supreme Court did this information
3		influence your thinking or cause you to do
4		anything different on your investigation?
5	A	Well at this point, you know, the matter is before
6		the Supreme Court, I'm, I don't believe I'm out
7		initiating a lot of new information, I'm reacting
8		to what Mr. Williams is requesting and what he
9		wants done based on what's coming out of
10		information he is receiving. That's really you
11		know, I'm still in the role of trying to assist
12		Mr. Williams and Federal Justice and anybody else
13		who was surfacing information, but as far as
14		taking over this investigation and now calling it
15		a homicide investigation, that wasn't where this
16		was at.
17	Q	So would this be for information purposes, then,
18		or
19	A	I think generally it was. There was no request
20		made, I don't believe, to follow up on anything.
21	Q	If we can go ahead to 049548, and this is the
22		document you talked about a bit earlier, it's
23		March the 9th, '92 to Mr. Williams, and:
24		"The following is submitted to assist in
25		establishing a line of questioning on

1		activities associated to Larry Fisher:",
2		and there's about four pages. This is the
3		document you put together for to help in the
4		questioning of Mr. Fisher?
5	А	Yes, I believe so.
6	Q	And was this to go to now I know it's sent to
7		Mr. Williams, I don't think Mr. Williams was
8		questioning any witnesses; do you know if it was
9		sent to Saskatchewan Justice lawyers?
10	A	I don't believe it was, I think it was to Mr.
11		Williams.
12	Q	And was the intent of this, though, that someone
13		could use this to question Mr. Fisher while he was
14		on the stand?
15	А	That was, that was the intent, to you know, I'm
16		sure there was going to be a lot of questions of
17		Larry Fisher while he was on the stand, and
18		probably all of these issues were covered without
19		my input, but I I just thought that these were
20		some of the thoughts that I had at the time that
21		they may want to develop.
22	Q	Okay. If we can go to the next page, you say:
23		"In the (V4) complaint she describes
24		her attacker as wearing a suede or suede
25		type half or three-quarter length coat

with possibly sheep type collar. A
photo of Fisher taken in 1969/70 is
being sent via courier this date,
showing him wearing a similar jacket
with what appears to be a sheep-lined
collar. Linda Fisher has confirmed that
Larry had this jacket while living at
334 Ave. "O" South.

You will recall there were several fibres recovered from Gail Miller's name tag. I have had the Corrections people check Fisher's personal clothing to determine if he has retained this leather jacket. I have been advised he does not have it.

It may be appropriate to question Larry on the whereabouts of this jacket (a long shot). Forensic analysis of "collar" material could be made with fibres found on Miller's name tag."

So, again, this would be questions to try and establish a link between Larry Fisher and Gail Miller?

A Yes.

		Page 19980 ————
1	Q	Through her name tag?
2	A	Yes.
3	Q	And as well to $(V4)$ $(V4)$ ; is that fair?
4	А	Yes.
5	Q	Next page, at the top, question on whether he wore
6		a bandana and any type of medallion; I take it
7		that would be to see if you could connect him to
8		the (V14)- complaint, is that fair?
9	A	Yes.
10	Q	And then down at the bottom there is reference
11		about the car and:
12		"You may wish to pursue how often Larry
13		had access to Cliff's car and the
14		"borrowing" arrangements they had. Did
15		Larry get the vehicle in the absence of
16		Cliff? Enquiries ongoing into the
17		whereabouts of this vehicle."
18		And I take it that would be into see whether Mr.
19		Fisher had a car on the morning of Gail Miller's
20		murder?
21	A	Yes.
22	Q	And did you have a belief that a car was involved
23		in the murder?
24	A	Well there was two opposing beliefs or suspicions
25		I had; one, you could rationalize that a car
	I	

1 definitely was not involved; and another, you could try and develop a theory that a car was 2 3 involved and, through that theory, you could potentially develop a new way of looking at the 4 5 crime, and from that you may be in a position to develop evidence. But there were a lot of factors 6 that would suggest that a vehicle was not 8 involved, as well as there were factors that 9 suggested that a vehicle could be involved. 10 If we can go to the next page. You say: 11 "In summary, it would be appreciated if 12 the examination of Larry Fisher could be 13 exhaustive, as it will be the police who 14 are tasked with any follow-up 15 investigation of Fisher, should the 16 Supreme Court determine this requires 17 further investigation. Larry Fisher's 18 appearance as a witness in the Supreme 19 Court will probably be as close as we 20 will ever get to him." 21 So I take it, at this time, you contemplated that 22 one thing that may come out of the Supreme Court 23 reference would be a further investigation of 24 Larry Fisher as a suspect; is that fair? 25 Α Yes.

1	Q	And again, and you've expressed this before, this
2		might be your only chance to for anybody to get
3		Mr. Fisher to talk when he has to talk?
4	А	Yes, and as close as we meaning the police,
5		well maybe everybody but I was thinking of my, the
6		police responsibility if we had to go at him again
7		that we wouldn't get the, we wouldn't get as
8		close to him as the Supreme Court did.
9	Q	This is probably a good spot to break, Mr.
10		Commissioner.
11		(Adjourned at 11:55 a.m.)
12		(Reconvened at 1:34 p.m.)
13	BY I	MR. HODSON:
14	Q	Good afternoon, Mr. Pearson. To sort of finish up
15		on some matters here this afternoon, if we can go
16		to 056896. You'll be happy to know that we're
17		almost at 700 of 800 paragraphs. I don't think
18		I've covered this, this is March 8th, this would
19		be in the evening during the Supreme Court
20		reference, and it looks as though you called David
21		Asper, he wants you to interview Heather Bergan of
22		Corrections Canada:
23		" as she seems to know of other
24		sexual offences Fisher has admitted to.
25		Asper also suggested there are a number

1		of reports on Caldwell's prosecution
2		file which are for victims of sexual
3		attacks. Asper mentioned (V9) (V9)
4		as one. We had a lengthy discussion of
5		the case in general. Wolch also got on
6		the line, suggesting that Fisher
7		attacked his victims while walking
8		between Cliff Pambrun's home and his own
9		at 334 Avenue O South. Very little
10		discussion with Wolch. I feel contact
11		Bergan as requested."
12		Again, anything other than that note that you
13		recall today, Mr. Pearson?
14	A	No, there isn't.
15	Q	And I think this reference here to the attack
16		walking from Cliff Pambrun's home would be the
17		(V4), the location of the $(V4)$ assault. Do
18		you remember that?
19	A	Yes, yes.
20	Q	And so we see down here there's a column, and just
21		scroll down, March 10th, you in fact did call
22		Heather Bergan to get and I take it, I don't
23		think we need to go through it, but it was someone
24		at Corrections and information about whether Mr.
25		Fisher had committed other attacks on his prison
		Moyer CompuCourt Penarting

		1 age 19904
1		files; is that right?
2	A	Yes, that seems to be what the request was about.
3	Q	So again on March 8th, '92 Mr. Asper calls you,
4		asks you to contact her to get more information
5		and I take it you had no difficulty following up
6		and doing that for him?
7	A	No, no.
8	Q	And go back up to paragraph 697:
9		"Discussion with Mr. Williams on the
10		need to interview Bobs Caldwell, as the
11		possibility exists he may be called as a
12		witness."
13		Do you know who or how witnesses were decided at
14		the Supreme Court? What was your understanding
15		about who was deciding who would go?
16	A	I have no information at all as to what was
17		happening at the Supreme Court level.
18	Q	If we can go to 056897, we've now hit paragraph
19		700, here:
20		"I attended at the Crime Detection
21		Laboratory in Regina, Document Section.
22		I dropped Bobs Caldwell off at the
23		Provincial Court House for the purpose
24		of examining the prosecution file for
25		answers to questions being posed by the
		4

1 Federal Justice Department. I called 2 Mr. Williams from the Crime Detection Lab, (a) he wants me to determine the 3 manner, timing and extent of disclosure 4 5 to defence by Mr. Tallis, (b) determine what knowledge Caldwell had of other 6 sexual assault victims who came forward 8 at that time, (c) did he author the 9 theory pages, (d) does he know who did, 10 or can he at least speculate?" 11 So I take it those would have been your marching 12 orders from Mr. Williams as far as interviewing 13 Mr. Caldwell; is that correct? 14 Α I think that might have been in addition to some 15 others because I was already with Mr. Caldwell in 16 going down to the Provincial Court House to 17 review, he wanted to review the file, so there was 18 already something in place to have him answer some 19 questions, and I think these were some, maybe some 20 additionals. 21 Right, and I think we'll see when we get to his Q 22 statement, and we've already seen there was a note 23 that Mr. Caldwell had on his prosecution file of 24 what was overheard by, what some witnesses 25 overheard Nichol John say in the witness room at

1 the preliminary hearing. Do you remember that being a subject matter that you were checking out 2 with him? 3 4 Α Yes. 5 And then if we can just scroll down to 702 --Q actually, just go up to 701. It looks as though 6 here you had contact with examiners, document section: 8 9 "It had been suggested by Caldwell that 10 the theory pages appear to have been completed with a dot matrix printer." 11 12 And again I take it one of the things you were 13 looking at is who typed up the theory sheet; is 14 that right? 15 Yes. Α 16 And down at the bottom, 702: Q 17 "I remained at the Court House in Regina 18 with Bobs Caldwell, who was reading over 19 the prosecution file, in preparation for 20 my interview with him. At one point, 21 Caldwell went to a legal sized filing 22 cabinet, going through sub/files, as 23 we're trying to compare red numbers on 24 the file material with those on the 25 "theory sheet". Some of the numbers did

1		match, others could not be located. At
2		this time Caldwell located a photocopy
3		of the "theory sheet" in the second
4		drawer under a file headed, "Milgaard
5		witness - Roberts - Art - Polygraph
6		operator"."
7		Do you have any recollection of that incident?
8	A	No, I don't.
9	Q	And then would there be a reason you would record
10		that in your notes or
11	A	Well, I think that was one of the issues, was the
12		theory sheet, and it's just an item that must have
13		stood out at the time.
14	Q	Go to the next page, it looks as though for, and I
15		think the time is it looks like you spent about
16		five hours, is that right, with Mr. Caldwell that
17		afternoon getting his statement?
18	A	Yes.
19	Q	And if we could just call up 067169, this is a
20		March 10, 1992 memo from Mr. Williams to you, and
21		I think it's the day before your interview, and
22		accompanying this memorandum is a copy of the note
23		authored by T.D.R. Caldwell. I think this is the
24		note about what was overheard in the witness room.
25		"I would be grateful if you would

present the note to Mr. Caldwell and inquire into the circumstances which prompted him to write it, and the circumstances in which the words attributed to Nichol were heard. Also, please confirm that the three persons identified at the top of the note are the "all" referred to in the fourth line of the note.

Later today, I expect to transmit additional topics for questioning as soon as these have been confirmed by counsel."

So I take it maybe this note predated the other notes as far as information that you were to get from Mr. Caldwell?

A It would seem so, yes.

- And did you understand that you were getting information for Mr. Williams based on what other counsel before the reference were inquiring of?
- A I don't know if I knew that at the time or not.
- And then just for the record, 008818, and this is the statement of Mr. Caldwell, and we went through this with him, and can you just tell us generally whether you recall the manner in which this

Meyer CompuCourt Reporting =

1		statement was taken or whether it was taken in the
2		ordinary course?
3	А	Yes, this was a statement taken. Whether it was a
4		typed version, I don't recall all the details, but
5		I just recall being at his house after he had,
6		after we had both gone to Regina and he was
7		required to review the file to try and get the
8		information that was required to answer the
9		questions, and then it was put into a statement
10		format the next day when we were back in
11		Saskatoon, went to his house and went through it
12		in a question and answer format. As I recall,
13		some of the answers were very long in his response
14		to the complex question.
15	Q	Okay. If we can go back to 056898, and this is
16		March 12th, your discussions with Mr. Williams
17		again on the theory sheet, and you say:
18		"I think it was at City Police before
19		the file was sent to the prosecutor,
20		because of comments suggested in the
21		last few lines of the last page"
22		And here:
23		"On the other hand, Williams seems to
24		think this is a document that was made
25		by Caldwell."

1		So I take it there was some discussion at this
2		time trying to figure out not only who prepared
3		the theory sheet, but when the theory sheet was
4		prepared?
5	А	Yeah, I believe that's reasonable.
6	Q	And did you have any concerns again in your role
7		investigating this matter as to who prepared it or
8		when it was prepared? Did that matter in what you
9		were looking at?
10	A	No, I just don't know what I thought at the time.
11		I know it was certainly an issue of, the fact that
12		maybe some theory had been laid out before the
13		case was completely investigated, I know that was
14		an issue, but what I thought at the time right
15		now, I can't really help you.
16	Q	I think at the time an allegation had been made by
17		representatives of Mr. Milgaard that the theory
18		sheet was something that the police or Mr.
19		Caldwell or someone prepared before evidence was
20		obtained from Nichol John or Ron Wilson and that
21		it was used to script their evidence. Do you
22		recall that type of allegation being made?
23	А	Yes.
24	Q	And so it was your job to see if you could find
25		out who made it and when they made it or prepared

		r age reser
1		it?
2	A	That's what we were attempting to do here by
3		gathering some information and having the lab do
4		some comparative work, because no one really
5		seemed Mr. Caldwell wasn't clear on who
6		authored it
7	Q	Go to
8	A	is my recollection.
9	Q	056902, and this is March 23rd, '92, and it
10		looks as though you accompanied Mr. Fainstein to
11		North Carolina as part of taking exhibits down for
12		the DNA analysis; is that right?
13	A	Yes.
14	Q	And I won't ask you to explain what happened on
15		the DNA matter, but as far as your role in that,
16		would it be fair to characterize it as being
17		primarily in charge of the exhibits and continuity
18		of the exhibits there and back?
19	A	That was my role, yes.
20	Q	I think we have seen that those results were not
21		conclusive or a reading couldn't be obtained from
22		Gail Miller's clothing; is that fair?
23	A	That's right.
24	Q	And then go ahead to 056907. Now, this is March
25		28th, '92, so we're right near the tail-end of the $\P$

1		Supreme Court reference, and it says:
2		"At this time we also discussed"
3		This is with you and Mr. Williams,
4		" what further investigation could be
5		completed and it was agreed that we
6		would attempt to locate Dennis Elliott
7		and possibly Les Spence. It was agreed
8		that we would not interview these people
9		until we got further results of the DNA
10		testings. Williams will advise me in
11		this regard at a later date."
12		And I'm wondering, can you recall why you would
13		be talking to Mr. Elliott and Mr. Spence in
14		connection with
15	A	As I recall, he was with Gail Miller prior to the
16		murder, I think as a date if I'm not mistaken.
17	Q	Yes.
18	A	Okay.
19	Q	Yeah, Mr. Elliott, Dennis Elliott dropped Gail
20		Miller off the night before her murder at about
21		two a.m. and Mr. Spence was her, I think boyfriend
22		or friend at the time.
23	A	Yes.
24	Q	And would you be making inquiries of them as
25		suspects or to identify the fact that the semen on

1		her clothing may have been from an incident prior
2		to the rape and murder?
3	А	I don't believe at this time he was ever looked at
4		as a suspect, it was more of an elimination
5		process.
6	Q	Right. And let me just maybe ask the question in
7		a better way because I think in fact Dennis
8		Elliott's blood was obtained and a DNA analysis
9		was conducted, I think in 1997, I stand to be
10		corrected, but I think even in 1997 he was one of
11		the samples that was used to match with Gail
12		Miller, and my question is this: One scenario
13		would be that he would be a suspect. The second
14		scenario would be that if Dennis Elliott had
15		intercourse with Gail Miller the evening before
16		her death, that might explain why his DNA or semen
17		might be found on her garments; is that fair?
18	A	That's fair, yes.
19	Q	And was it the latter scenario that you were
20		pursuing Mr. Elliott and Mr. Spence for?
21	A	Yes.
22	Q	As opposed to being suspects in the murder?
23	А	Yes.
24	Q	And again the next page, I think this is what, you
25		got a statement from Dennis Elliott:
	f .	

1		" who was one of the last people to
2		see Gail Miller alive. He was
3		interviewed to determine if he could
4		have been responsible for the seminal
5		stains on Miller's underpants and if he
6		would supply a blood sample for DNA if
7		it was needed. Elliott stated quite
8		emphatically that he was at no time in
9		sexual contact with the deceased, and
10		that the seminal stains certainly were
11		not his, and also that he would gladly
12		cooperate in any way he could by
13		providing a blood sample if required."
14		So again I think that confirms what you told us
15		about the purpose of getting his blood sample?
16	А	Yes.
17	Q	Scroll down. So this is April 1, if you can just
18		scroll over to see the dates, April 1. And this
19		is before, I think before argument, there might
20		even be still evidence to come at the Supreme
21		Court:
22		"Mr. Williams called, stating that an
23		re-enactment of the Miller murder
24		completed by Milgaard's counsel, was
25		included in the reference material

1 before the Supreme Court. The theory is 2 that the murder could not have happened 3 as presented in the original trial, basically because there was insufficient 4 5 time to complete it as described." Do you recall, Mr. Pearson, whether you ever 6 looked at the video or whether you ever looked at the theory as to whether or not the murder could 8 9 have happened and whether it was possible it 10 could have happened as laid out at trial? 11 Α That was something that I had never reviewed, or 12 had seen, or was tasked with, no. 13 0 And then if we can go to the next page, and again 14 this is still April, April the 1, 1992. 15 "Mr. Williams ran the following theory 16 by me: 17 Williams states that Miller went out the back door of 130 Avenue O 18

19

20

21

22

23

24

25

Williams states that Miller
went out the back door of 130 Avenue O
South and then down Avenue N and was
stopped by Milgaard in the vehicle.
They then turned around behind the
funeral home and faked that they are
stuck, Milgaard then attempts to take
the purse, a struggle ensues, Wilson
sees things are going badly and leaves

1		the area in the opposite direction.
2		John hears screams and runs down the
3		alley to investigate, sees certain
4		activities, then runs away. John also
5		sees a figure involved with throwing
6		something in the garbage. Williams also
7		states that possibly both people grabbed
8		the girl, Milgaard dragging her into the
9		alley and Wilson later deciding he wants
10		no part of this."
11		I take it that is a note of what you and Mr.
12		Williams discussed on that date?
13	A	Yes, it appears to be.
14	Q	And when it says:
15		"Mr. Williams ran the following theory
16		by me:",
17		are you able to tell us what, how this came about
18		or what the purpose of this discussion was?
19	A	Umm, there must have been some discussion about
20		the potential of a vehicle being involved, and
21		this was a version that Mr. Williams had.
22	Q	Okay. If we can just scroll down, the next
23		paragraph:
24		"Mr. Williams is also discussing the
25		fact that Miller's white gloves had no
		4

1 blood on them, possibly because she 2 wasn't wearing them at the time. 3 also had a black pair of gloves and I believe one was found on her and another 4 5 was in the immediate area. I suggested to Williams that he determine if the 6 gloves were ever checked for hair and 8 fibre, as possibly Miller may have 9 attempted to fight off her attacker. 10 This could assist in future DNA analysis." 11 12 And then: "During this discussion I also related 13 to Mr. Williams the theories which I 14 15 believe also have some validity: " 16 And if we can scroll down to the bottom of the 17 page, if you can actually get the whole thing in 18 there, please. You say: 19 20 21

22

23

24

25

"My first theory is that Nicol John and Ronald Wilson know more and were involved more deeply than is currently believed. The fact that a car was seen in the alley between 7:00 and 7:10 a.m. by Mr. Diewold from St. Mary's Church, and that he observed a shadow go north

past the headlights, would suggest that there was activity in the vicinity at A theory which possibly holds the time. as much weight as any others is the fact that Miller may have been picked up and dragged into the car and under threats of being harmed by having a knife placed to her throat, she was viciously Possibly it was a robbery attacked. that escalated and got out of hand. Ιf the offence took place in the car, Nicol John and Ronald Wilson may have been a party to the offence ... ",

"... to the offence, or at least believed they were a party to the offence by possibly not doing anything to prevent the attack. The unusual crime scene, i.e., stab wounds through the coat but not through the dress, suggests that the offence took place in two stages. It would seem possible that the coat was taken off of Miller and that she was viciously attacked by having her dress ripped off her

shoulders and then sexually assaulted.

After the assault, it seems logical that she was then allowed to redress by placing her coat back on. If this assault took place inside the motor vehicle she could have possibly escaped and began running from where the car was seen parked by Mr. Diewold, north up the alley between Avenues O and N, and possibly the shadow that Mr. Diewold saw going north across the headlights was someone from inside the vehicle giving chase to catch up with Miller."

## If you can scroll down:

"She was then caught and stabbed through her coat and left to die where she was found. The seminal stains on her underpants and the semen found in the snow during the initial investigation may actually have been deposited on the clothing during the sexual act inside the car, and may have actually fallen into the snow from her clothing during the struggle at the death scene. To further support this, the fact that

1 Nicol John, from the very beginning, was a hostile witness, suggests that she 2 3 told only sufficient detail to protect herself from being drawn into a murder 4 5 investigation. As well, Wilson provided the 15 minute window of opportunity by 6 stating that Milgaard walked towards the 8 girl they had passed while he, Wilson, 9 went the other way to get help. 10 interesting to note that there was no evidence that the Milgaard vehicle was 11 12 stuck near the scene of the Miller 13 murder. It is quite possible that the 14 vehicle never was stuck and that 15 Wilson's exiting from the scene may not 16 have actually happened, ...", 17 scroll to the bottom: 18 "... and that it was a story only to 19 eliminate him from being associated to 20 Milgaard's activities. The fact that 21 Wilson, during his Supreme Court

The only rational explanation is

testimony, states that he lied during

question why he would have lied at that

the original trial, leaves one to

22

23

24

25

1 the fact that he had to lie to prevent 2 himself from being drawn into his 3 involvement in the Miller murder. the other hand, David Milgaard has 4 5 expressed his innocence from day one and is in the position where he cannot 6 implicate Wilson and John, if in fact he 8 has a recollection, as involving other 9 people in the murder will do nothing to 10 assist in his stance of innocence. The bottom line is that, if the facts 11 12 support Milgaard's involvement in this 13 murder, I strongly suspect that Nicol 14 John and Ronald Wilson may in fact have 15 been a party to this crime." 16 So if I can pause there, this is April 1, would 17 this have been a theory, then, you had at the time Mr. Pearson? 18 19 That is something that, that evolved over time as, 20 you know, you struggle through this to try and 21 make some understanding of what was happening and 22 in an attempt to try and look at what was known in 23 a different way, to try and rationalize what was 24 known 20 years later and try and theorize -- I 25 guess that's what it is, it's a theory, it's just

1 an idea of -- that may support some future 2 investigation or some --3 And I want you to focus on what you were thinking 0 4 at the time, Mr. Pearson, as opposed to what we 5 know today, --Yeah. 6 Α -- but at the time I think --Q Well at the time I certainly, again there was a 8 9 suspicion that David Milgaard could possibly have 10 been involved, and if he, if he was, with the 11 vehicle they were in that morning, it would seem 12 that Nichol John and Ronald Wilson would certainly 13 have had some knowledge of it. And when you look at the activities of Ronald Wilson and the fact 14 15 that he was lying in the Supreme Court, and the 16 ongoing problems with Nichol John being a hostile 17 witness, it caused one to wonder was there more 18 behind this than we know about. 19 And so am I right, the theory that you talked to 20 Mr. Williams about on this date -- and we'll see 21 it in a later document -- was one that had Mr. 22 Milgaard involved in the crime, but not in the way 23 that the evidence went in at trial? In other 24 words, I think this theory says that Nichol John 25 and Ron Wilson were also involved at least in part

1		of the incident, and that their stories at the
2		original trial were wrong because they were
3		somehow involved and knew a bit more than they let
4		on; is that
5	A	It was another way of looking at it and another
6		potential avenue to investigate.
7	Q	Now, again, did that did this theory arise out
8		of some suggestion by Mr. Wolch or others that,
9		the way the evidence went in at trial, that the
10		crime couldn't have happened that way?
11	A	I think, you know, there was a lot of information
12		out there, I'm sure some of it was from, from the
13		Wolch's side as to how this may or may not have
14		happened, and just a file review and just general
15		understanding of what was going on and trying to
16		rationalize it. I think there were a lot of
17		sources of the information.
18	Q	Yeah. For example, it was suggested I think at
19		the Supreme Court that it would not make sense for
20		the Milgaard vehicle or the Wilson vehicle, if the
21		car was stuck and they went out to look for help,
22		that it wouldn't make sense for someone to commit
23		a murder while their getaway vehicle was stuck; do
24		you recall that being a position or a criticism of
25		the theory of the Crown or the case at the

		<b>o</b>
1		original trial?
2	A	Yes.
3	Q	And
4	A	But at the same time, I mean there's lots of
5		irrational behaviour that goes on that doesn't
6		make sense, and if this was something that was
7		spontaneous and unplanned it's quite possible that
8		it could have been done and the car being stuck,
9		it's just the spontaneity. And who knows, there
10		was mind-altering drugs, alcohol involved,
11		emotion, fear, a lot of factors you would consider
12		at the same time.
13	Q	And so I think your starting of this theory is
14		that you said 'this theory has some validity'.
15		Now and I'm concerned about your thinking at
16		the time, Mr. Pearson, as opposed to what you now
17		know today but at the time, if this theory was
18		valid as you put forward here, I take it the
19		corollary of that would be that Mr. Fisher could
20		not have committed the murder; is that fair?
21	A	Well
22	Q	Under this theory?
23	A	you know, if this theory proved out that you
24		had some factual evidence that was that
25		surfaced that said David Milgaard did it, then I
		4

1		would conclude that Larry Fisher did not.
2	Q	And, again, are you able to help us out on the
3		and again maybe when I there's some additional
4		car theories that I think you flush out in a bit
5		more detail a bit later. Are you able to tell us
6		at this time, this April 1 call with Mr. Williams,
7		the, sort of the relative strength of this theory?
8		Was it just thrown out there to think about, it
9		was something that you thought "lookit, this might
10		fit the facts"?
11	A	I think it was just, it was just a theory, it was
12		just another, another set of circumstances that
13		maybe had some potential to consider.
14	Q	And your finishing point here is:
15		"The bottom line is that, if the facts
16		support Milgaard's involvement in this
17		murder, I strongly suspect that Nicol
18		John and Ronald Wilson may in fact have
19		been a party to this crime."
20		And is that what you would have thought at the
21		time?
22	А	Yes.
23	Q	And so that
24	А	Now this was done at that time, so
25	Q	Right. And so, based on what you had learned at
		1

1		that time was it was view that if Mr. Milgoard
1		that time, was it your view that if Mr. Milgaard
2		had committed the crime, that it was your view
3		that Wilson and John likely knew more than they
4		had let on at the trial, and certainly knew more
5		than they disclosed at the Supreme Court
6		reference?
7	A	Yes, and that was based on their, their historical
8		behaviour.
9	Q	And putting aside whether or not, the issue of Mr.
10		Milgaard's involvement in the crime, based just
11		solely on what you had learned about Mr. Wilson
12		and Ms. John and what their what they had said
13		at trial and what they were now saying in 1992 and
14		what you knew, did you think that they knew more
15		than they were disclosing?
16	A	Well that, that was, if you are going to pursue
17		this theory then you would have to assume they
18		did.
19	Q	But even if you are not forget the theory for a
20		moment. Did you have some concerns at the time
21		and I can show you some notes, maybe, when that
22		
23	А	I probably did suspect that they had some
24		knowledge. I, I just, I don't know what I
25		referred to when I say that, but I do believe
	1	

their possible involvement.  So the Ron Wilson evidence at the Supreme Court, think, is what you are referring to about the lying; is that right?  A Yes.  And are you telling us that that sent a flag up with you saying "okay, does he maybe know something more than what he is letting on, there might be something there that we don't know yet"  Mell it certainly raises some questions about, you know, when is he telling the truth or when is he lying, you know, is he telling the truth today or did he lie back then or, you know, it's worthy or a look.  But I guess the question sorry about whether

testimony previously at the trial or at the Supreme Court -- I think it was implicating David Milgaard, exculpating David Milgaard, those were the two positions that he was taking -- but as far as him being involved with Mr. Milgaard, I don't think he ever said. And my question is, at the time, whether you are able to tell us whether your thinking was that, based on what you heard about Ron Wilson's conduct and evidence at the Supreme Court, did you have suspicions that maybe he had more information about that morning that hadn't come, come out yet? Α I believe that was kind of a logical conclusion that I would have drawn. And secondly with Nichol John, again a bit 0 different, I think her issues -- you pointed out,

16 17 I think you called it hostility or whatever, the 18 fact that she did not repeat her sworn statement 19 at the trial, and I think at the time of the 20 Supreme Court reference also did not repeat it, 21 but again, was there anything, with what you knew 22 about Nichol John, that caused you to think that 23 there might be something at that time -- I just 24 want your knowledge at that time -- that maybe she 25 knew more than she was disclosing; did you have

		ŭ
1		that suspicion?
2	A	That was a gut feeling.
3	Q	Now if we can scroll down, you say:
4		"Another theory I have -",
5		if I could scroll down, is:
6		" "The Strange Car Theory" is as
7		follows: A vehicle driven by someone
8		unknown, such as Fisher, may have forced
9		Miller into the vehicle shortly after
10		she exited her residence. This is
11		supported by the fact that Chuck
12		Carriere and Dennis Elliott both report
13		seeing a vehicle parked at 130 Avenue O
14		South, with the headlights on and
15		someone actually walking in the area.
16		Elliott states that the individual had
17		his hair combed back, he had dark hair,
18		and had an angry look about him. The
19		possibility exists the person was
20		waiting for Miller and, when she left
21		her residence, forced her at knife point
22		inside the vehicle and then raped her as
23		described in theory above, and it was
24		this vehicle that was seen in the alley
25		by Mr. Diewold. Again, after the sexual

25

attack, Miller was given the opportunity to at least get her coat back on and she was either permitted to leave or escaped from the vehicle, and then again was chased down the alley and stabbed to death where her body was located. Mr. Elliott describes the vehicle he saw as being a reddish coloured car with extensive damage to the driver's side rear quarter panel. Inquiries are presently being made to determine if Cliff Pambrun's reddish brown 1958 Chev ever had damage to the quarter panel. If it is determined this vehicle was damaged, there would be some indication that possibly Fisher was in the area during that time. These inquiries are continuing through Cliff Pambrun." So here is a second theory that seems to involve,

I think you say a car driven by someone unknown, such as Fisher, but let's just put Mr. Fisher aside for the moment. We have heard evidence and there is the report that Dennis Elliott did see someone in a car across the street from Gail Miller's house on the evening prior to her murder

1		when he dropped her off; you remember that being
2		a piece of evidence that was there in '69 and
3		again in 1991 or 1992?
4	A	Yeah, yes.
5	Q	And I don't think, and I stand to be corrected, I
6		don't think anywhere, in any of the evidence we've
7		had, anybody has identified who, who that was or
8		whose car it was I think some may suspect it
9		may have been Mr. Fisher's but this theory
10		would have an unknown person being involved and/or
11		Larry Fisher being in that car
12	Α	Yes.
13	Q	and attacking Gail Miller in the alley?
14	A	Yes.
15	Q	And so this theory would have no involvement by
16		David Milgaard in the murder of Gail Miller?
17	A	That's right.
18	Q	Is that correct?
19	A	That's right.
20	Q	And, again, this would be a theory you discussed
21		in con with Mr. Williams in conjunction with
22		your other theory about David Milgaard possibly
23		being involved?
24	A	Yes.
25	Q	Now both of these theories have the assault taking
	ĬĪ.	<b>78</b>

place inside a motor vehicle?

A Yes.

Α

Q And was that something, at the time, that you had thought was a likely scenario?

> It was a, it was a possibility. It was just another way to look at, at the crime to see if that would lead you to some other avenue that you could pursue. It -- again when you -- and, again, earlier when I said there were two very opposing views in my own mind with regard to whether this happened in a car or happened like it's been known to happen, and that she was attacked, stabbed, and killed at the location where the body was found, and there are some -- when you take a look at the similar fact analysis that was done and you take a look at the methods that Larry Fisher was involved in, usually under cover of darkness, in an alley, attacking his victims from behind, in cases undressing them and going through all this clothing removal movements, there is some pattern of behaviour there. And while it seemed unusual that the stabbing took place through the coat and not through the dress, you could start to theorize it may have been happened -- it happened at two stages, one stage there and one stage away, but

that is little unlike Larry Fisher's MO in that he did have his, some of his victims undress, and he assaulted them at that location.

The other issue is the fact that, you know, would he take someone to his car and risk the potential of being identified through the vehicle that a potential victim was going to be dragged to, if in fact he -- the only alternative would be that he intended to kill this person, knowing that they couldn't identify him.

And then, if you even take it one step further and you take a look at the 690 review that had the analysis of all of the statistical comparisons that were made of Fisher's crimes -- and it was those findings that concluded that, or assisted in concluding that Larry Fisher was probably involved -- but if you used those same set of circumstances and the same facts that were analysed, then you would have to conclude that a vehicle was not involved because there was no reference to him ever being involved, in his previous assaults, through the use of a vehicle. So that's kind of the rationale of believing that the crime probably did happen where it happened, through the statistical analysis of how he

1 behaved. 2 0 Let me just back up. The theory advanced 3 at the reference by counsel for Mr. Milgaard I think was that Larry Fisher had Cliff Pambrun's 4 5 car and that the assault -- that the car was there, and that was the car that Mr. Diewold saw, 6 and that he then drove the vehicle to Mr. Pambrun's, dropped it off, and then walking 8 9 back assaulted (V4)---- (V4)---. And again in 10 that, based on those as being the, a theory of how 11 Mr. Fisher committed the crime, I'm not sure I --12 as far as the other seven known con -- known 13 convictions of Mr. Fisher, are you saying that that would be different? 14 15 Well if you are going to use the statistical Α 16 analysis for the basis of similar fact evidence, 17 and use it as evidence that he was involved, umm, 18 there was no, to my recollection -- now I stand to 19 be corrected -- but from my recollection there was 20 no evidence that any of his previous victims were 21 ever assaulted in a vehicle or taken to his 22 vehicle and the offence taken place in a vehicle. 23 So I guess just using some logic 24 of, if you are going to believe all the

statistical analysis that it was Larry Fisher that

25

1 committed these crimes, and then in the absence of 2 a statistic that shows that there was never a 3 vehicle involved, then I suppose you have to come to a conclusion that probably in this case a 4 5 vehicle was not involved either. But if you do the converse and you assume Q Okay. 6 that a vehicle was used in the murder based on 8 Henry Diewold's witnessing of the car --9 Α Yes. 10 -- and then go back and say "okay, a car was involved in the murder of Gail Miller", and as 11 12 well based on the clothing, etcetera, assume that 13 a car was involved, what would be your view then 14 as to whether or not that that would mean that Mr. 15 Fisher was less likely to be the culprit, based 16 upon the similar fact analysis and his previous 17 seven crimes? Do you follow? 18 No, I don't. Α 19 I think what you told us is that Mr. 20 Fisher's seven crimes, none of them involved a 21 vehicle, therefore if he is the person who killed 22 Gail Miller then it's likely a vehicle wasn't used 23 if you are going to rely on the statistics, 24 because he didn't use one before or something like 25 that; is that correct?

A Yes.

24

25

I want you to approach it from the other end saying you are trying to solve the crime, the murder of Gail Miller, and you are going to look at the pattern of Mr. Fisher's offences to see whether or not there are similarities or differences. If you assume that Gail Miller was murdered and a vehicle was involved -- and the basis would be Mr. Diewold's eyewitness or witnessing a car, etcetera, but assume that a vehicle was involved for a number of reasons, as well you talked about the state of her clothing and some other factors, but assume a vehicle was involved in the murder of Gail Miller -- and you were then asking yourself the question, okay, since a car was involved in the murder of Gail Miller, based upon Larry Fisher's previous assaults and offences, is it more or less likely that he was involved in the Gail Miller murder? Well I think there was a lot of overwhelming circumstances that would -- certainly, I don't think you would be put off by the fact that, because he never used a vehicle before, that he couldn't be involved in this one. With all of the circumstances going on in the neighbourhood at

1		that time, I don't think that would fly.
2	Q	So the fact that a car was involved, or might have
3		been involved in the murder of Gail Miller, did
4		not in your mind sort of discount or
5	A	Detract from Larry Fisher?
6	Q	detract
7	Α	No.
8	Q	Okay. And then just back on the converse, I think
9		you were saying that because he had never used a
10		car before you might lean more, if you were trying
11		to figure out how Larry Fisher committed the
12		crime, you might lean more towards saying a car
13		wasn't involved because he hadn't used one before;
14		is that what you are saying?
15	А	Well if you are going to rely on the analysis of
16		everything that he has done, if you are going to
17		rely on the fact that he conducted his offences
18		the way he did and he never used a vehicle, then
19		you, you would say his pattern is that he doesn't
20		use vehicles. But that doesn't mean that he would
21		never use a vehicle, that you would discount him
22		because, you know, there is no vehicle involved,
23		or there may have been a vehicle involved in this
24		one, but it's just another factor that's thrown
25		into the mix.
	I	

Q I see. If we could go to the next page and you say here:

"In my view, both theories ...",
and this is the one involving David Milgaard and
the one involving an unknown car such as -- or an
unknown car with a driver such as Fisher:

"In my view, both theories support the fact that the attack on Gail Miller took place in two stages, that she was probably assaulted at a location other than where she was found. supported by the fact that she was fatally stabbed through her coat, which was placed back on after her dress had been ripped from her shoulders. extreme cold temperatures would suggest that the sexual activity would, in all probability, have taken place inside a vehicle or residence. The fact that Mr. Diewold saw a car parked in the area of Miller's death would suggest that possibly she was inside the vehicle at one point and actually stabbed to death outside. Locating this vehicle, if it can be determined which one, would

1		certainly be of value in this inquiry."
2		So, again, I think this is some of what you have
3		told us; that at this time you thought that the
4		assault took place in a car in all probability;
5		is that fair?
6	А	According to the theory, yes. I mean this was a
7		theory we were developing
8	Q	Right.
9	А	to try and look at this in some other rational
10		way to say, you know, "did it occur here or did it
11		occur in a vehicle, if it occurred in a vehicle
12		how could you turn the investigation upside down
13		and have a look at it in a different way", is
14		really I think what this is all about.
15	Q	And if Mr. Fisher was the person who committed the
16		assault in a vehicle, then I think what you are
17		saying is that would be different than his
18		previous seven assaults,
19	А	Sure it would.
20	Q	but not such that you would exclude him?
21	А	Well no, it's, it's subject of a theory here, that
22		it could have happened inside the car, so if you
23		are believing that he could have done it in a car.
24	Q	And then you go on to say:
25		"After my discussion with Mr. Williams, $lacksquare$

1		it was suggested that he talk to Gary
2		Tidsbury, Sgt. at Kelowna GIS, to get a
3		feel for Nicol John, as there is a
4		strong possibility that she has been
5		holding out over the years because of
6		her involvement, and this may explain
7		the rather unusual behaviour she has
8		displayed over the years."
9		And again at that time, sir, would that have been
10		your thinking or your belief; that Nichol John
11		may have been holding out because of her
12		involvement?
13	А	That, that must have been my thinking at the time,
14		yes.
15	Q	And, again, is that along the lines of what you
16		talked about earlier, the fact that she was
17		hostile and did not, sort of did not repeat her
18		evidence again?
19	А	Yeah, I think she'd been controversial from the
20		beginning.
21	Q	Go to 056913, this is April the 3rd, it says:
22		"I also had a discussion with Mr.
23		Williams at this time, who briefly
		discussed that the video re-enactment by
24		discussed that the video re-enactment by

1		advancing the "two knife" theory,
2		stating that there were two knives used
3		during the attack. I pointed out to Mr.
4		Williams that in one of Nicol John's
5		first statements she described two
6		knives as being in the Wilson car, one
7		was a bone handled hunting knife and the
8		other was a maroon handled knife similar
9		to the one actually found at the scene.
10		Mr. Williams suggested that I get hold
11		of Mr. Neufeld, Sask Justice, to assure
12		this point is brought to his attention,
13		as it may become an important point
14		during their verbal presentation to the
15		Supreme Court on Monday."
16		Again, do you have any recollection of this
17		issue, Mr. Pearson?
18	A	I don't.
19	Q	Again, just scroll down to the bottom. It looks
20		as though you phoned him:
21		" to remind him that, in one of Nicol
22		John's original statements, she
23		indicated that there were two knives in
24		the Wilson car",
25		and it looks like you also related:
	1	

1 "... the theory of the crime scene being 2 in two parts and that it is quite 3 possible the sexual attack took place in a vehicle ...", 4 5 next page: "... with the death actually taking 6 place where the body was found. 8 advanced the Milgaard theory and the 9 fact that I suspected strongly that Nicol John and Ronald Wilson have more 10 of a story to tell, and their 11 12 involvement could explain the unusual 13 behaviour both have displayed during the 14 original trial and the recent Supreme 15 Court review. Mr. Neufeld seemed to 16 believe there is a strong possibility 17 that these two individuals could know 18 more than they are telling, however the 19 theory of course will require more 20 work." 21 And, again, would this have been your thinking at 22 the time? 23 Α I believe so. 24 And reading that, a couple of questions, Mr. 25 Pearson; one, it looks as though at this time

1		that, based on what's written here, it says you
2		suspected strongly that Nichol John and Ron Wilson
3		have more of a story to tell, and I take it that
4		that would be a story that might point towards the
5		guilt of, or the involvement of David Milgaard;
6		would that be fair?
7	А	I think that's fair, yes.
8	Q	And would the behaviour, conduct and evidence of
9		Nichol John and Ron Wilson throughout the Section
10		690 proceedings, and in fact their evidence at the
11		Supreme Court, would it be your knowledge of that,
12		did that cause you to change your thinking either
13		about their involvement or Mr. Milgaard's Mr.
14		Milgaard being a suspect?
15	А	It must have had some influence on my thinking, I
16		think it would have.
17	Q	Let me back up and rephrase it this way. Before
18		Wilson, Mr. Wilson recanted and testified at the
19		Supreme Court and before Nichol John went through
20		the hypnosis and at the Supreme Court, before
21		that, at that time do you think you would have had
22		suspicions that they knew more and were holding
23		out or might have been involved?
24	А	Well, I think that suspicion was probably there
25		for, by a lot of people for a lot of years $\P$

1		regarding Nichol John because of the difficulties,
2		and again, I have to say I didn't analyse
3		everything that Nichol John testified to over the
4		years, but it just, you know, as a gut feeling of
5		what she may know or not know. It just seemed to
6		be a question mark.
7	Q	Yeah. And maybe put it another way, would what
8		you learned about Ron Wilson and what he said at
9		the Supreme Court and what you learned about
10		Nichol John and what she went through and what she
11		was saying in 1991, 1992, did that cause you to be
12		more suspicious of their story in that they may be
13		holding something back and in turn might have
14		increased your suspicion of Mr. Milgaard as a
15		suspect?
16	А	I believe so, yes.
17	Q	Go to 057836, this is a letter, this relates to an
18		issue with this is a letter of April 8th, 1992
19		from an inspector at Dorval Airport:
20		" concerning the recovery of a piece
21		of luggage by Air Canada belonging to
22		one Albert Cadrain which had been
23		reported as missing in March.
24		Find enclosed originals of Air
25		Canada documentation as well as

photocopies of 25 pages of handwritten very explicit notes found in the luggage which obviously concern the David Milgaard case."

Do you recall how this came about or how you became involved in getting these notes? I don't know. I must have got a call from this inspector. How he got my name I'm not sure, but he must have known that I had some involvement in this because he ended up sending this to me and it's certainly something I didn't request Air Canada do. The only involvement I had with Cadrain at the time was I had located an address for him on behalf of Federal Justice so they could send a subpoena for the Supreme Court, so I really wasn't familiar where he was moving at the time, but this kind of came out of the blue and it appears that he had lost his luggage and it was located by Air Canada and it was eventually associated to the Milgaard review and somehow it ended up that they got my name and sent it to me. I then forwarded it on to Mr. Williams. If we could call up 067165, and this is your letter of April 13th, 1992 to Mr. Williams saying

14

Α

attached are the notes believed to be authored by

1		Albert Cadrain. I have no idea when these notes
2		were completed. And so I take it, Mr. Pearson, do
3		you have any knowledge as to how either Air Canada
4		or security in Montreal got the notes or why they
5		had the notes?
6	А	I'm assuming that he lost his luggage and they
7		went through the luggage to find out who owned it
8		and that's what they found and then they took it
9		from there, but, you know, if the inference is
10		being made that maybe I somehow wanted to check
11		him as he travelled to see what he had in his
12		suitcase, that's not true.
13	Q	Yeah, no, and I wasn't suggesting that. Other
14		than receiving them, I take it when you received
15		them, was that the first you heard that he had the
16		notes or that they were in his luggage or that he
17		lost his luggage?
18	А	I must I would think possibly I had a phone
19		call from this inspector fellow, I don't know, I
20		don't recall his name, I may have had a phone call
21		from him and said, well, send them out to me, but
22		I don't recall that, but either that or he just
23		got my name cold from somebody and mailed them.
24	Q	Other than receiving the notes and sending them on
25		to Mr. Williams, did you have any other
		1

1		involvement in getting the notes or doing anything
2		with them?
3	А	No.
4	Q	Go to 056915, this is a note where Ron Fainstein
5		called you about the Supreme Court decision, and I
6		take it, and I think you said you had already been
7		aware via the news media, and so I take it at that
8		time you had become aware that the Supreme Court
9		in the reference case advised the Federal Minister
10		to set aside Mr. Milgaard's conviction and order a
11		new trial? Do you recall finding out about that?
12	A	According to this I must have been aware of it by
13		this time, yeah.
14	Q	Do you recall, and I'll go through some of your
15		notes here, but just generally, Mr. Pearson, at
16		this time was your, did you have a mandate left
17		from Mr. Williams as far as the work you were
18		doing for him on the Section 690?
19	А	I'm not sure there was ever like a mandate. I was
20		involved in so many aspects of this that I was,
21		you know, following through on the tasks that he
22		thought I should do or whatever I could do to
23		provide assistance, but it wasn't like I was
24		focused on one particular aspect, I was just out
25		there.
		4

1	Q	Now, with the conviction set aside, as far as
2		investigating either the case against David
3		Milgaard or the case against someone else for the
4		death of Gail Miller, once the conviction was set
5		aside, would that be a matter of the Saskatoon
6		City Police jurisdiction or RCMP jurisdiction?
7	Α	The jurisdiction of the murder was within the
8		Saskatoon Police Service.
9	Q	And so again, as far as your role in the matter,
10		and in fact I think we'll hear from members from
11		the Saskatchewan Attorney General and from
12		Saskatchewan Justice about let me ask you this.
13		Did anybody direct you to reopen an investigation
14		into the death of Gail Miller?
15	A	No.
16	Q	And again, just from your view at this time, if
17		anybody was to reopen the investigation into the
18		death of Gail Miller, would that be an RCMP
19		function or a Saskatoon City Police?
20	A	Under normal circumstances it would go back to the
21		jurisdiction that had the responsibility in the
22		first place.
23	Q	We know in 1997 after the DNA results came out,
24		that I think the Attorney General of Saskatchewan
25		asked the RCMP to investigate Larry Fisher for a
		1

1		number of reasons, but that it would normally be
2		investigated by the city police; is that right?
3	A	Yes.
4	Q	And they asked for various reasons to have the
5		RCMP investigate it?
6	A	Yes, as I understand it.
7	Q	And I guess just back to your position in 1992,
8		once the conviction was set aside as far as the
9		question why didn't you go out and arrest Larry
10		Fisher or arrest David Milgaard or investigate the
11		matter, what's your answer to that?
12	A	Well, I was providing assistance to Mr. Williams
13		and Federal Justice under the 690 review and I was
14		not considering this as a fresh homicide
15		investigation, and I know the jurisdiction was
16		with the city and the Attorney General department
17		had the responsibility, or certainly the authority
18		to re-assign the case. That's what they
19		eventually did.
20	Q	And if the Attorney General for Saskatchewan had
21		come and asked you, or if the Saskatoon City
22		Police had come and asked you or the RCMP to
23		reopen the investigation, is that something that,
24		you know, again you would likely do?
25	A	If I was asked to do it by my superiors,
	1	

1		certainly.
2	Q	If you can go to 056917, and did you have, just
3		back on the decision, what was your reaction to
4		the Supreme Court decision if any, did it surprise
5		you or
6	A	I think when you of course being after the fact
7		I can maybe talk differently, but how I thought at
8		the very moment
9	Q	And that's what I'm looking for.
10	А	I don't know. I think the final few sentences of
11		their decision made a lot of sense about the if
12		Larry Fisher would have been known at the time, it
13		would have caused some doubt, and I think that was
14		a very logical decision to make, but how I reacted
15		to it, I don't remember really, I just don't
16		recall how I reacted to the news.
17	Q	As far as your thinking as to whether or not Larry
18		Fisher and/or David Milgaard were suspects or may
19		have committed the murder, did it assist you at
20		all in your thinking on that matter?
21	А	I don't think so. I think everyone, probably the
22		Supreme Court as well struggled with this. It was
23		just one of those cases that there was no clear
24		answer to and, you know, with the wisdom of the
25		Supreme Court and the information they had, there
		Meyer CompuCourt Reporting

1		was no clarity really in their final decision
2		either. I think they were left with some doubts
3		on both sides and that's where it stayed until
4		there was some defining evidence that could put an
5		answer to this.
6	Q	And in your mind, and again I'll go through your
7		report and your two theories that you prepared,
8		but in your mind did you continue to suspect both
9		Larry Fisher and David Milgaard for the murder of
10		Gail Miller?
11	А	Yes, I had no evidence to eliminate or confirm
12		either one of them. I mean, a lot of
13		circumstances, I mean, there were a lot of
14		circumstances and everybody could rationalize and
15		everyone did in those days, everyone had an
16		opinion based on the knowledge that they knew, but
17		it was a difficult time to try and put a defining
18		answer. It was a tough decision to make by the
19		people who had to make this.
20	Q	If we could go to 917, this is a discussion I
21		think of April 16th, 1992, and it says so this
22		is after the Supreme Court decision:
23		"During my conversation with Mr.
24		Neufeld, I also expressed to him my
25		theory that a car was possibly involved
		•

1 in the sexual assault on Gail Miller and I believe Wilson/John are more deeply 2 involved in this offence than is known 3 and that possibly further investigation 4 5 by police has some potential i.e. authorization for communication 6 interception. I advised Mr. Neufeld I 8 would be sending forward two theories 9 regarding the involvement of automobiles in this offence." 10 And I take it at this time -- Mr. Neufeld was 11 12 with Saskatchewan Justice. Is that who you 13 understood was making decisions as to whether 14 further investigations of either Mr. Milgaard or 15

Mr. Fisher would happen?

A Well, during the Supreme Court review,

Saskatchewan became involved, and yes, I would

have assumed that or would have known that at the

time.

16

17

18

19

20

21

22

23

24

25

And so again at this time you are saying that you believe Wilson and John are more deeply involved in this offence than is known and that possibly further investigation by police has some potential, and so that would be -- is that police being either generic police, being city police,

	RCMP or whoever is going to be investigating?
A	I just I think it was just more generic of
	whoever was going to be tasked with this if that's
	what it came to.
Q	And then you say you would send forward your two
	theories regarding the involvement of automobiles,
	and we'll get to that. If we can go to 056919,
	this is April the 23rd, and this is where you say:
	"I faxed two car theories involving
	Larry Fisher, the other involving
	Milgaard, Wilson and John, asking
	Williams to provide feedback on any
	factual errors or unreasonable
	conclusions.
	Williams called wanting
	information tracking enquiries made re:
	Fisher for their internal use and to
	prepare answers to various questions
	being posed. I will check policy and
	determine just what can be released
	directly to the Federal Justice
	Department."
	And so again you would be still dealing with
	Mr. Williams then on these couple of matters?
A	Yes.
	Q

1	Q	And then if we can go to the next page, this is
2		the last entry, April 28th, 1992 in your
3		chronology, it says:
4		"I returned a call to Ron Fainstein"
5		And it goes on to talk about Mr. Milgaard and his
6		whereabouts. And that would be your last entry
7		then in your chronology on this matter? If we
8		can maybe just scroll down.
9	A	Yes, and what happened at this, just to give
10		you there was a lot more that went on after
11		this, but at this point in time I was seconded off
12		of my unit and I went to lead the Milgaard (sic)
13		task force that was looking at this child abuse
14		case.
15	Q	Sir, you said Milgaard. I think Martensville.
16	A	Yeah, the Martensville case, after all the arrests
17		of everyone was made in very early June, so at
18		this time I left, I left my office and everything
19		that was going on there and I was seconded to a
20		separate office and we started up a task force
21		looking into the Martensville case, so I carried
22		that task force in addition to what I was moving
23		forward on with this and there was a lot of (V14)-
24		stuff going on as well.
25	Q	So and I'll go through, there's a final report
		Mayor Communicating

1		of April 29th, 1992 that sets out the car
2		theories, and I'll go through that in a moment,
3		but would that have at this point would your
4		work for Federal Justice and Eugene Williams then
5		be more or less complete?
6	A	Well, it wasn't, but I thought it was pretty well
7		complete, but there was still some things that I
8		was tasked with after that while I was now away
9		from this location and doing another task force
10		job.
11	Q	And what would now, let me just, and I'll go
12		through this a bit later. You did we do know
13		that in late 1992 the RCMP were asked to
14		investigate allegations of obstruction of justice
15		and wrongdoing by provincial officials and police
16		and I think you had a meeting with the RCMP
17		officers who were going to be involved in that
18		project; is that right?
19	А	That's right, yes.
20	Q	And that's what's known as the Flicker project,
21		but and I take I understand, sir, you didn't
22		have any direct involvement in the Flicker
23		project?
24	A	No, I didn't, no.
25	Q	And I think, and again we'll go through these

1		notes in a minute, but you had some involvement in
2		interviewing some witnesses related to the Michael
3		Breckenridge complaint or allegation in
4	А	Yes.
5	Q	In September, October, 1992; is that right?
6	А	Yes, that's right.
7	Q	And then had I think one meeting with the Alberta
8		justice officials and the RCMP officials on
9		Flicker to turn over some information that you
10		had; is that right?
11	A	As a briefing, yes.
12	Q	And then after that, other than testifying at the
13		Larry Fisher trial in 1999, would that have been
14		your involvement and, sorry, continuing on in
15		some dealings with Ms. (V14)-, would that have
16		been the extent of your involvement in the Gail
17		Miller, Larry Fisher, David Milgaard matter
18		generally?
19	А	Generally, yes.
20		MR. HODSON: Okay. This might be an
21		appropriate spot to break, Mr. Commissioner.
22		(Adjourned at 2:38 p.m.)
23		(Reconvened at 2:56 p.m.)
24		BY MR. HODSON:
25	Q	Call up 056634, and this is just to cover from

Superintendent Goodman who was your superior, this is the cover to your last report on this matter of April 29th, 1992, and it looks as though they forwarded it on to criminal operation for your information and attention, and then it says:

"The two theories provided by Sergeant Pearson in this report, certainly raise interesting questions which may never be

answered.

The Milgaard/Wilson/John car theory, Appendix WWW, would seem more plausible. I doubt Fisher would seek out another victim having just completed a sexual attack which culminated in murder.

Our involvement in this matter is concluding, however, we will continue to assist, as necessary, in the (V14)-matter.

A copy of our report is being attacked for Mr. Neufeld, Sask Justice."

So again, and I'll go through this report and the two car theories, but it looks at this time, Mr.

Pearson, that other than the (V14)- matter, that it says our involvement, being the RCMP, is

1		concluding; is that right?
2	A	That appears to be, yes.
3	Q	And Superintendent Goodman is suggesting that the
4		two theories, and we'll go through them, raise
5		interesting questions. One theory is that a car
6		was involved and that Mr. Milgaard committed the
7		crime and the other one was a car was involved and
8		Mr. Fisher committed the crime; is that right?
9		Those were the two theories you put forward?
10	A	Yes, uh-huh.
11	Q	And I think what he's commenting on is that the
12		first one seems more plausible because the second
13		one he doesn't think that Mr. Fisher would
14		sexually assault $(V4)$ $(V4)$ right after the
15		murder, and those would appear to be his views at
16		the time?
17	А	Yeah, just another individual with another view.
18	Q	Then if we can go to the next page, and we'll see
19		again this is your, as I said, the April 29th
20		report and this is what's being sent off. If we
21		can skip ahead to 056622, and you just went
22		through the report a number of entries in police
23		notebooks and police reports and this related to
24		the vehicles, and I think primarily matters
25		relating to Larry Fisher, the bus stop evidence,
		4

etcetera, and then you write:

Q

"The foregoing entries from police reports and notebooks suggest several unusual activities taking place in the area of the murder scene, which could or could not be associated to the Miller homicide. While the reading of such material today can conjure suspicions, it is unknown if follow-up inquiries were ever made at the time."

So I take it you were just putting forward your final thoughts on some possibilities and suspicions based on the police reports; is that fair?

A That appears to be it, yes.

And then if you could go to 056627, and again I think you are commenting on some of the evidence at the Supreme Court review, call out the last paragraph, and you say -- and this is Bobby Stadnyk who I think was a witness about discussions with Ron Wilson and the motel room reenactment:

"Stadnyk did confirm that in 1990 she spoke with Ronald Wilson, who confirmed that he had lied during his original

Meyer CompuCourt Reporting =

1		testimony at the Milgaard trial, and
2		that it had been bothering him for many
3		years. It should be noted that Wilson
4		was cited for contempt by the Supreme
5		Court of Canada during his testimony, as
6		he provided conflicting testimony as to
7		whether he was lying today or had lied
8		during the original Milgaard trial. It
9		is believed by this investigator that
10		Ronald Wilson knows much more of the
11		events of Gail Miller's death than has
12		been brought forward to date."
13		And again, this would be April 29th, 1992, and at
14		that time would that have been your belief?
15	A	I believe so, yes.
16	Q	And again, we talked earlier about his evidence
17		and his recantations, etcetera. Is that again the
18		same thing we're talking about here, is there
19		anything else that would cause you to have this
20		belief at the time?
21	A	Not that I can recall.
22	Q	So again it would be his evidence at the Supreme
23		Court and his recantation and his original
24		evidence as well?
25	A	Yes.

1	Q	Then to page 056629, paragraph 33, it says:
2		"During the Supreme Court review,
3		consideration was given to calling the
4		original prosecutor in the Milgaard
5		case, Mr. Caldwell. Questions of
6		disclosure at the time of the original
7		trial were being raised by Milgaard's
8		present counsel, suggesting that there
9		was evidence available which may have
10		shed a different light on the
11		prosecution. It was also suggested by
12		Milgaard's counsel the existence of
13		Larry Fisher may have been known to
14		police investigators and Crown
15		prosecutor during the murder
16		investigation. A statement was provided
17		by Mr. Caldwell, which answered specific
18		questions being asked of him by Federal
19		Justice. Mr. Caldwell's statement and
20		applicable attachments are attached as
21		Appendix QQQ."
22		And again we touched earlier when you went and
23		got that information from Mr. Caldwell about
24		disclosure, and were you aware in your
25		discussions with Mr. Asper that there were

1		concerns about what information he may have
2		disclosed to defence and whether or not he and/or
3		the police connected the Fisher assaults with the
4		Miller murder? Do you remember discussions along
5		that line?
6	А	No, I don't. I don't remember.
7	Q	Do you know now, Mr. Caldwell was not called as
8		a witness at the Supreme Court and we've heard
9		some evidence, and I suspect we'll hear some more
10		evidence about why why he was not called or
11		what went into that decision. Were you involved
12		or aware of any discussions, Mr. Pearson, about
13		either to have Mr. Caldwell testify or why he was
14		not called to testify?
15	А	I don't have any recollection of ever being
16		involved in those decisions. Like
17	Q	And again I'm sorry, go ahead.
18	А	Like I said, these decisions were being made by
19		people different than me as far as who was going
20		to be called. I did assist in serving subpoenas
21		and things like that, but the decisions on who was
22		to be called as witnesses, I don't believe ever
23		being counseled or discussed or called.
24	Q	And 056631, paragraph 40:
25		"Attached as Appendix JJJ is a theory

1 synopsis and statement index which 2 formed part of the original prosecution 3 file and which was entered in evidence to the Supreme Court by Counsel Hersh 4 5 Wolch and David Asper. The argument is being made that the theory surrounding 6 the death of Gail Miller was put into 8 place prior to witnesses Nicol John and 9 Ronald Wilson giving their final account 10 to police of what took place at the scene of the crime. Defence is 11 12 inferring the witnesses were pressured 13 to provide evidence that fit the theory. 14 It is speculated that either the police 15 investigator or the Crown Prosecutor at 16 the time authored this document." 17 Now, you told us about your involvement in trying 18 to figure out who prepared the document and when 19 they prepared it. Did you ever look at or 20 consider whether this defence theory or 21 suggestion had any merit as to whether or not 22 witnesses were pressured to provide evidence that 23 fit the theory? 24 Α I was never tasked with that, no. 25 And is that anything you looked at or considered?

1	A	I don't 1	recall ever looking at that, no.
2	Q	And the r	next page, please, and again under
3		summary,	paragraph 4, you say:
4			"Evidence at David Milgaard's trial
5			suggested that Gail Miller was sexually
6			assaulted and fatally stabbed at the
7			location where her body was found. The
8			usual crime scene suggests the sexual
9			assault occurred at a location different
10			than where her body was recovered. From
11			reading Saskatoon City Police files and
12			autopsy reports, it is not unreasonable
13			to conclude that a vehicle may have been
14			utilized when Miller was sexually
15			assaulted. With the foregoing in mind,
16			two theories have been developed, one
17			involving Larry Fisher, the second
18			Milgaard/Wilson/John, both of which
19			include the use of a vehicle during the
20			commission of the crime. Theories
21			attached as Appendix WWW and XXX."
22		And then	the next page:
23			"As Nicol John was declared a hostile
24			witness during the Milgaard trial, and
25			the fact that Ronald Wilson recently

1		recanted his original testimony at the
2		Supreme Court, one is left with the
3		impression the evidence that convicted
4		Milgaard may have been fabricated. The
5		hostility and recanting by the two
6		witnesses may have been their way to
7		protect themselves from becoming
8		suspects in the murder and to ensure the
9		police focus remained on Milgaard. A
10		potential exists for further police
11		investigation into this aspect of the
12		crime."
13		And again, would this be something then that you
14		thought at the time, Mr. Pearson?
15	A	Yes, I must have believed that at the time.
16	Q	And as well as further police investigation, would
17		that be in connection with if in fact the Crown
18		was going to proceed with another trial of Mr.
19		Milgaard?
20	A	Yes, it was a potential avenue to pursue.
21	Q	And at this time, again this is the end of April,
22		1992, are you able to tell us I take it at this
23		time did you still have some suspicions that Larry
24		Fisher was involved in the murder of Gail Miller?

Like I say, there was suspicion on

25

Α

Oh, yes, sure.

1 both sides.

2

3

4

5

6

8

9

10

11

12

- Q When you say both sides, are you saying David Milgaard as well?
  - A Milgaard and Fisher just based on everything that historically had been out there.
  - And this may be a difficult question to answer, but if you compare your situation, let's say April, 1992, the end of April, at the time you wrote this letter and put forward the two theories, and I think you are saying that both Mr. Milgaard and Mr. Fisher were suspects for different reasons; is that fair?
  - A That's fair.
- 14 Were you any closer in your own mind to sort of 15 figuring out which one was a better suspect or 16 which one might be the better suspect at the end 17 of April, 1992 than you were at the start when you 18 first got into this matter and started checking, 19 and you'll recall a few days ago when we talked 20 about when you first talked to Linda Fisher and I 21 think at that time you said you identified Larry 22 Fisher as a suspect and you always held the belief 23 that he was a suspect, or a good suspect, but you 24 also had suspicions that Mr. Milgaard was a 25 suspect, and I think you told us at some point

that the fact that he was convicted added some weight to that side of the equation, if I can call it that.

If you can now go ahead and here we are at the end of April after having gone through extensive investigations by you, a Supreme Court of Canada hearing, did you feel you were any closer in your own mind as to figuring out who might have killed Gail Miller?

- A Well, it would be easy to say that now.
- Q No, and I want at the time.

А

To go back at that time, you know, I struggled with this, it wasn't something that just rang clear, and I know some people went so far as to say that they know who did it and the evidence was there and all the other things that went along with it, but when you look at it, you know, trying to look at it real objectively, like I say, I always said that Larry Fisher was one heck of a good suspect just based on all those things that I mentioned before, and on the other side of the equation you've got Milgaard having gone through this, the justice system, and you could say, well, maybe I put too much emphasis on that, but at this time, you know, who is a stronger suspect? I'm

1		not sure I could really answer that. I'm not sure
2		I had it categorized.
3	Q	And not to ask who was the better suspect, I'm
4		trying to understand whether all of the work that
5		you did, the investigations that you did right
6		through to the end of April, 1992, the work on the
7		first application, the second application, what
8		you learned from others, what you learned from the
9		Court decision is with and I take it you would
10		agree that by the end of April, 1992 you would
11		have more information about Gail Miller and Larry
12		Fisher and David Milgaard as a suspect than you
13		would have had when you first started in 1990 on
14		this file; is that fair?
15	А	That's fair, yes.
16	Q	And I'm trying to get from you, if you are able to
17		tell us, that with all of the information that you
18		now had at the end of April 1992, whether you were
19		any further ahead in your own mind as in
20		assessing the two as suspects; was it an easier
21		task, a more difficult task?
22	А	Well, when you take a look at the violent history
23		of Larry Fisher, it certainly fit more in line
24		with the violence that was inflicted on Gail
25		Miller. If you apply that logic it he

1		certainly seems to have the propensity to commit
2		that type of crime, whereas if you look at the
3		David Milgaard side, there was not that violent
4		nature on record.
5	Q	Yeah, but you would have known that in 1990,
6		right?
7	A	That's true.
8	Q	And what I am trying to get at is whether, once
9		you have been through this whole process and you
10		are done your work on both Section 690
11		applications, and based with all the new
12		information that you had, I take it you still
13		weren't able to pick one over the other or to
14		eliminate one or the other; right?
15	A	There was, in my view there was no defining piece
16		of evidence that said "this is who did it". Umm,
17		you could weigh, weigh all the probabilities of
18		all the circumstances, but in my mind it was I
19		was still scratching my head.
20	Q	And I guess the and I appreciate that. What I
21		am trying to get at is whether you were scratching
22		your head more in 1992 than you were scratching it
23		in 1990, or about the same?
24	A	Gee, that's tough, you know. I wish I could
25		really give some clarity to this, because it was
		•

1		there were two people that, two people were out
2		there that I had suspicions of, and from what I
3		articulated in the report and the theory is based
4		on the activities of Nichol John and Wilson and
5		Fisher, based on all the history I knew on him.
6		How do you resolve that. I was certainly in no
7		position to stand up and say "I don't think he did
8		it and I think he did it", it was just one of
9		those issues out there that was, was hard to
10		conclude.
11	Q	And as far here you talk here about:
12		"A potential exists for further police
13		investigation into this aspect of the
14		crime."
15		And I think, when we go through the two car
16		theories, you indicate that there is a basis for
17		further investigation; is that fair?
18	A	That's fair, yes.
19	Q	And so, once the Supreme Court decision is out,
20		was it your view, Mr. Pearson, that the Gail
21		Miller crime could be investigated further with
22		both Mr. Milgaard and Mr. Fisher as a suspect?
23	А	I think there was some potential for work on both
24		of them, yes.
25	Q	If we can go to 057629, and this is the Larry $lack$

1 Fisher car theory that you prepared, is that 2 right? 3

Α Yes.

4

5

6

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

Α

And it says: 0

> "This theory is advanced for discussion/investigative purposes and is an attempt to rationalize the facts and circumstances as they existed at the time of Gail Miller's murder."

And so again, just by way of theory, can you tell us, Mr. Pearson, again a bit more. What was the purpose of putting forward this theory, and there is also the Milgaard/John/Wilson car theory as well, what were you trying to do here? Just trying to, I suppose, look at -- assuming there was going to be -- other people would be looking at this, it was another way to look at the crime, some other things to consider that may be of some investigative value to looking at it in this way as a theory as opposed to going back to what was presented at the time and to -- based on the fact that both were still, in my mind had some suspicious activities to them, so both were advanced trying to apply a car theory and say "would this advance the investigation in any way".

1 Q And if we can go back through parts of Okay. 2 this, then, umm, this theory -- if we can call out 3 that paragraph, please -- it says: "This theory concludes that Miller was 4 5 sexually assaulted by Larry Fisher Shortly after the sexual 6 inside a car. assault, Miller escaped from the 8 vehicle, was chased by Fisher, then 9 fatally stabbed at the location where 10 her body was found." 11 You say: 12 "The unusual crime scene supports a 13 theory that the death of Gail Miller 14 occurred in two distinct stages; the 15 first being the sexual assault and the 16 second being the fatal knife attack. 17 This theory supports the view that the 18 sexual assault occurred at a location 19 different than where Gail Miller was 20 fatally stabbed." 21 And if you can scroll down, you then talk about 22 the condition of her clothing, and then you say: 23 "The undressing and redressing by Miller 24 suggests she was first sexually 25 assaulted then allowed to put her

1		overcoat back on before being fatally
2		stabbed."
3		And I think your theory is that the undressing
4		and redressing and the sexual assault takes place
5		in the car, she then leaves and is stabbed in the
6		alleyway where her body is found, is that
7		correct?
8	A	Yes.
9	Q	And the theory for Fisher and the theory for
10		Milgaard are, in the respects of the car are the
11		same, just different car, different people; is
12		that right?
13	A	Yes.
14	Q	And, again, different circumstances as how as
15		to how she might be apprehended, but they both,
16		the premise of both of them is that Gail Miller
17		was in a car in the east-west alley behind the
18		funeral home, was raped there, had her clothes
19		removed, got dressed, ran down the alley, and in
20		one theory was stabbed by Larry Fisher, in the
21		other one was stabbed by David Milgaard; is that
22		right?
23	A	Yes.
24	Q	And there's more to it,
25	A	Yes.
		4

1	Q	but as far as that part of it?
2	A	Yes, right.
3	Q	And then again on the Fisher theory if you
4		scroll down again about catching the bus and
5		go to the next page. And I think you have in (b):
6		" Gail Miller was approached by
7		Fisher and, under threats of bodily
8		harm, forced into a car",
9		and then you go on if you can actually go to
10		the full page, please, and maybe just enlarge the
11		whole page if you can, and then scroll down. I
12		think on this theory no, go back up to the
13		top, please here you go that the Dennis
14		Elliott sighting of the car, your theory here is
15		that maybe that was Fisher who was in the car in
16		front of Gail Miller's house that Dennis Elliott
17		saw, and in the morning he approached Fisher
18		(sic) and got her into the car; is that right?
19	A	Yes.
20	Q	And then scroll down to (c), and then you talk
21		that she goes down Avenue N and then turned right
22		into the alley behind the funeral home, and I take
23		it that the car going down Avenue N was necessary
24		so that, when it turns into the alley, it's facing
25		Henry Diewold's church; is that right?

1 Yes. Α 2 And so in this theory Fisher is out front, gets 0 3 Gail Miller into the car, goes down 21st Street, then south on Avenue N, then turns right into the 4 5 alley, and this fits with the Diewold evidence; is that right? 6 Yes. Α 8 0 Then the next page you go on to talk about having 9 her coat removed and her sweater pulled off, I 10 don't think we need to go through that, but this is fitting in what are the known facts about how 11 12 her body was found and where her clothing was? 13 Α Yes. 14 And then, again, had her nurse's uniform ripped 15 from her shoulders to her waist, and then had her 16 underclothing pulled to her knees -- again next 17 page -- and then you talk about: 18 "At this stage, under continuous 19 threats, Miller was sexually attacked." 20 You talk about numerous superficial cuts in the 21 upper torso suggesting that a knife blade had 22 been held against Miller's skin, and the presence 23 of semen confirming sexual activity, so this 24 would be in the car and the knife marks in the

throat area then would be as a result of threat

		_
1		being used at the time to make sure that she
2		complied with Mr. Fisher raping her; is that
3		right?
4	А	Yes.
5	Q	And then you say here:
6		"After Fisher's aggressive sexual
7		attack, Miller had sufficient time to
8		get her coat back on."
9		And then you talk about Fisher began pulling
10		himself together, thus allowing a lull in the
11		aggression which permitted Miller sufficient time
12		to pull her coat back on, and but it did not
13		allow her to pull up her undergarments. I think
14		what you are then saying is she put her overcoat
15		back on over top of her and that her dress was
16		off when she put her coat back on; is that right?
17	А	Yes.
18	Q	And then, with her coat back on, Miller made her
19		escape from the passenger's side, began running
20		north of the alley, and I think this is where you
21		say Diewold saw Fisher then go in front of his
22		vehicle and chase her down the alley; is that
23		correct?
24	A	Yes.
25	Q	And then the next page. You talk about Miller
		4

1 running with undergarments around her knees and 2 minus one boot, was caught and stabbed to death 3 with a knife at the location the body was found, 4 and again that would be -- your theory would be 5 that would fit with where the body was found? Α Yes. 6 Fisher then returned to the passenger's side of Q the car and removed Miller's sweater and one boot 8 9 that she had left behind and covered them lightly 10 in snow nearby. And again. That would fit with what was found, with the boot and the sweater 11 12 buried in the snow; is that right? 13 Α Yes. 14 You then theorized that Fisher rifled Next page. 15 through Miller's purse, scattered in the immediate 16 area, in all likelihood money was taken and the 17 purse thrown in the garbage cans nearby, and that 18 Fisher retained Miller's wallet containing her 19 money and proceeded west through the alley, turned 20 left on Avenue O, and drove to his residence, and 21 then threw out the wallet I think at that point, 22 and that would explain why the wallet was near her 23 house; is that correct? 24 Α I believe so, yes. 25 And then you go to paragraph (p), that -- and you

1 have two scenarios, one:

"Fisher returned home and cleaned up while his wife was still in bed sleeping. Fisher may then have again left, returning the vehicle to the Pambrun residence, and walked home where he was eventually confronted by his wife Linda."

Or:

"Fisher, upon driving away from the scene of the murder, returned the car to Pambrun residence and walked home, encountering (V4)---- (V4)--- and approached her as she walked to the bus stop. Fisher may have retained Miller's wallet, throwing it away just prior to getting to his residence at 334 Avenue "O" South."

So, again, both -- sort of two alternates here, both involved having Cliff Pambrun's car, one where he went home and then returned the car later, the other is he returned it immediately and then walked home and assaulted or encountered (V4)---- (V4)---; is that right?

A Yes.

1	Q	Did you ever look at whether or not the time
2		factor would allow the second alternative, in
3		other words the murder of Gail Miller 6:45 to
4		whatever time, and then to allow Mr. Fisher to
5		drive to Pambrun's, drop the vehicle off, then
6		walk back and encounter $(V4)$ $(V4)$ at $7:07$
7		a.m.?
8	А	Well that's why I think there was an alternate
9		possibility here that he did or didn't commit the
10		(V4) attack. But to answer your question, no,
11		I never did a fine timeline comparison that I
12		recall.
13	Q	Yeah. And as far as the (V4) thing, if Larry
14		Fisher did not have anything to do with $(V4)$
15		(V4), if you assume that for a moment your
16		theory here then as far as what happened, would it
17		change in any way, I mean other than the
18	А	No, no, I don't think so.
19	Q	And can you tell us, in this theory, does the
20		(V4) assault $$ if we assume for the moment
21		that Larry Fisher was the person who assaulted
22		(V4) $(V4)$ does that help or hinder your
23		theory in any way or change its viability?
24	А	Well I suspect that if he was in fact involved in
25		the $(V4)$ assault, that chances are there was no

		7 age 20000
1		vehicle involved.
2	Q	No vehicle involved?
3	A	No vehicle involved.
4	Q	And why do you say that?
5	A	Because of the fairly compressed time frame
6		between the Gail Miller time frame and the $(V4)$
7		time frame and, you know, this having a vehicle in
8		the area, it just, I don't think it fits quite as
9		well.
10	Q	But
11	A	But who knows.
12	Q	Yeah, no I appreciate that, and this is theories
13		and speculation. And then in that scenario, after
14		killing Gail Miller, then he would run over to
15		Avenue H and assault $(V4)$ $(V4)$ ; would that
16		be again
17	A	Well yeah, you know, I guess there could be all
18		sorts of scenarios, I guess, but that's one, yes.
19	Q	If we can then scroll down to the bottom, I think
20		in (q) you say:
21		"Semen found near the deceased by police
22		several days later could have fallen
23		from the clothing of the deceased or
24		Fisher during the struggle at the death
25		scene and not necessarily deposited
	I	

1 there during a sexual attack." 2 And I think that was one of the theories at the time of the trial, that there was frozen semen 3 4 found near the body, and I think some speculated 5 that the sexual assault may have taken place right there in the snowbank, and here your theory 6 says that no, it may have come from her clothing 8 or from her person; is that right? 9 Α That's the theory, yes. 10 Yeah. And so that, that would -- again, the fact 11 that there was semen found in the snow by the body 12 would not mean that, that the assault had to have 13 taken place there, under your theory it could have 14 taken place elsewhere and the semen dropped from 15 her body or from Mr. Fisher; is that right? 16 That's right. Α 17 And if we go to 057636, I think you put a map 0 18 together for the Larry Fisher car theory, can't 19 see it very well but here's Avenue O, Avenue N, 20 and here's the T alley, here's the Miller 21 residence, and I think you are saying that Fisher 22 picked her up in front of her house, went down 23 20th Street, down south on Avenue N, and then down 24 behind the back alley; is that right? 25 Α Yes.

		Page 20062 —————
1	Q	If we can then go to 008894, and this is the
2		theory that would involve Milgaard, Wilson, and
3		John; is that correct?
4	А	Yes.
5	Q	And, again, you have the same note:
6		" for discussion/investigative
7		purposes and is an attempt to
8		rationalize the facts and circumstances
9		as they existed at the time of Gail
10		Miller's murder.";
11		correct?
12	A	Yes.
13	Q	And in this theory and you would agree these
14		are completely, compared to the Fisher theory this
15		is a completely different theory involving a
16		different car and different people; is that right?
17	А	Yes. And if
18	Q	But one of them
19	А	If one of them is right, the other is obviously
20		wrong.
21	Q	Okay. That was my next question. And so and
22		as far as some of the components of the theory,
23		they are identical for both as far as assault
24		taking place in a car
25	A	Yes.

1	Q	and being chased down the alley, etcetera. So,
2		here:
3		"This theory concludes that Miller was
4		sexually assaulted by David Milgaard and
5		Ronald Wilson inside Wilson's car.
6		Shortly after the sexual assault, Miller
7		escaped from the vehicle, was chased by
8		Milgaard/Wilson, then fatally stabbed at
9		the location where her body was found."
10		So this theory involves Ron Wilson and Nichol
11		John being involved, is that right, in at
12		least
13	А	Or having knowledge.
14	Q	Or having knowledge?
15	А	Yes.
16	Q	And, again, that's something that was different
17		than what was put forward at trial; is that
18		correct?
19	А	Yes, from my understanding, yes.
20	Q	Yeah. And then if we can scroll down, and again
21		you talk about unusual crime scene, I think this
22		is the same as the Fisher
23	A	Uh-huh.
24	Q	theory that there were it took place in two
25		stages. And then the next full paragraph, and I
		1

1		think tha	at's the same as well, the condition of
2			and the clothing. And then the next
		_	
3		paragraph	n you say:
4			"This theory will conclude that Ronald
5			Wilson and Nicol John were parties to
6			this offence, however, provided only
7			sufficient evidence to the police
8			investigators to ensure the focus
9			remained on Milgaard and away from
10			themselves."
11		And then	scroll down to (a):
12			"Milgaard/Wilson/John were driving south
13			on Avenue "N" and observed Miller
14			walking south towards 20th Street."
15		And, aga:	in, the evidence at trial talks about
16		stopping	the woman for directions. And:
17			"Evidence supports the view that
18			Milgaard/Wilson were considering robbing
19			this person for money."
20		So this	takes part of the original trial evidence
21		about sto	opping a woman for directions on Avenue
22		N; is tha	at right?
23	A	Yes.	
24	Q	Next page	e. And then here:
25			"After stopping and asking the woman for
			Marrie Carrer Carret Barrartina

1		directions, the Milgaard/Wilson vehicle
2		continued south and turned right into
3		the alley behind the funeral home."
4		And, again, that's not the evidence of Wilson and
5		John at trial; is that right?
6	А	I don't think
7	Q	At the original trial?
8	A	so.
9	Q	I think their evidence there was that they went
10		down, got stuck, and then left. So here your
11		theory is that they turned into the alley:
12		"The vehicle is now facing west in the
13		alley with its headlights turned towards
14		St. Mary's Church Stopping the
15		vehicle at this location would have put
16		Milgaard in close contact with Miller as
17		she walked south on Avenue "N".
18		Milgaard would have then exited from the
19		vehicle and come into contact with
20		Miller."
21		And, again, I think when we see on the map, this
22		theory has shortly after stopping her for
23		directions, under this theory they turn into the
24		alley and she would be right at the vehicle; is
25		that correct under this theory?

1	A	Yes.
2	Q	Scroll down. In (c):
3		"Because of the extreme cold and the
4		fact that Milgaard may have been in
5		stocking feet, Miller was forced inside
6		the car and was physically attacked,
7		probably in the back seat."
8		And again, this theory would be different than
9		what the evidence was at trial against Mr.
10		Milgaard, is that correct?
11	A	I believe so, yes.
12	Q	And here you say Wilson was the driver, Nichol
13		John was in the front seat, and that Mr. Milgaard
14		was in stocking feet:
15		" probably Miller was taken into the
16		back seat of the car by Milgaard. The
17		motive may initially have been robbery,
18		however, this quickly changed to a
19		sexual assault."
20		And then again, if we can go down to (d),
21		Miller's overcoat was removed. Go to the next
22		page. And I think (e) and (f), as far as the
23		removal of the coat, this would follow the same
24		theory as Larry Fisher as to what happened inside
25		the car and how the clothing was taken off?

1	Α	Yes.
2	Q	And then:
3		"Miller was then sexually attacked under
4		the threats of bodily harm (knife)."
5		You say:
6		"It is known there were",
7		call that out:
8		" there were knives in the Wilson
9		vehicle, as Nicol John, in one of her
10		early statements, indicated there was a
11		maroon handled knife as well as a rusty
12		bone handled hunting knife in the car
13		during their trip between Regina and
14		Saskatoon."
15		And then it goes on to talk about the cuts and
16		scratches. So, again, similar to the Fisher
17		theory that, in the course of the attack in the
18		car, the superficial wounds to the neck area
19		would have been inflicted; is that right?
20	А	Yes.
21	Q	And then down to (h), again the same as in the
22		Fisher theory, call out (h). The in this
23		theory you would have, after the assault, Miller
24		would put her coat back on. And then the next
25		page:
	Ĥ.	

1 "During the lull in the attack, Miller 2 was able to escape from the vehicle and 3 began running north up the alley toward her home." 4 5 And here you now, in this theory: "Milgaard chased Miller by exiting from 6 the same door that Miller had left by. 8 Wilson also exited the vehicle out of 9 the driver's side and began chasing 10 after Milgaard and Miller." And that's where you say that's who Mr. Diewold 11 12 would have seen going in front of the car; is 13 that right? 14 Α Yes. 15 And then scroll down, and you talk here: 16 "Miller was chased up the alley and 17 caught and stabbed to death at the 18 location where the body was found." 19 And, again, you talk about a large amount of 20 blood as well as a knife blade, and: 21 "The fact that Miller's underclothes 22 were down by her knees and ankles would 23 suggest her escape was hampered." 24 And I think that was the same as the Fisher 25 theory, that she was chased down the alley by

		. ago 20000
1		someone before she was stabbed?
2	А	Yes.
3	Q	And then again (k), if you can scroll down, the
4		boots and the sweater the same as the Fisher
5		theory. And then the next page, under (1), knife
6		handle being thrown away. Scroll down to (m)
7		oh, the previous page, you say:
8		"As Milgaard/Wilson had intended on
9		committing a robbery, they then rifled
10		through the purse contents and, in all
11		likelihood, money was taken and the
12		personal items of Miller's were
13		scattered throughout the area and thrown
14		in garbage cans nearby."
15		And then you say a search revealed that and:
16		" it is known that
17		Milgaard/Wilson/John were looking for a
18		potential robbery victim."
19		And, again, would that be something you got from
20		the original trial evidence?
21	A	I believe so, yes.
22	Q	Yeah. Scroll down to (n), and again you have the
23		same explanation in this theory as to how the
24		semen was found in the snow, again fallen from the
25		victim or the assailant; is that right?

1	A	Yes.
2	Q	And then down to (o), please. Under (o):
3		"The Milgaard/Wilson/John vehicle was
4		never stuck at the location, as
5		indicated in evidence.
6		There was no evidence at the
7		scene indicating a vehicle had been
8		stuck in the east-west alley, and the
9		two individuals that were said to have
10		pushed the Wilson vehicle out were never
11		located. Very little has been made of
12		these two people. Wilson states the
13		vehicle was stuck when he last saw
14		Milgaard walking toward the girl they
15		had just passed. This means the two
16		individuals that pushed the",
17		next page:
18		" vehicle out must have been on the
19		scene",
20		if you can call that out:
21		" two people that pushed the vehicle
22		out must have been on the scene
23		immediately after the murder. The
24		evidence by Wilson of the vehicle being
25		stuck and that he walked away from

the confrontation between Milgaard/Miller, may be nothing more than a convenient alibi to protect himself."

## Scroll town to (p):

"Wilson never did leave the scene as he suggests, but provided the 15 minute "window of opportunity" only to shift responsibility to Milgaard and away from himself. Wilson/John may have been parties to the offence of murder by assisting Milgaard by holding and/or robbing Miller.

Wilson stated the vehicle became stuck and that he (Wilson) walked in the opposite direction from Milgaard, who was last seen walking toward the girl they had just passed. In one of Wilson's statements he indicated that efforts were made by the occupants of the vehicle to get it unstuck, which would certainly provide sufficient time for Miller to walk past the scene on her way to the bus stop. Was John driving the vehicle while Milgaard/Wilson were

Meyer CompuCourt Reporting =

1 pushing? When Wilson was subsequently 2 interviewed by the police, he realized 3 that Milgaard was the main suspect because of what Albert Cadrain had said; 4 5 i.e., blood on Milgaard's clothes. Wilson then provided the "window of 6 opportunity" to keep the suspicion on 8 Milgaard and off of himself." 9 And then down: 10 "Nicol John became a hostile witness at trial and "forgot" much of what 11 12 happened. 13 John may have provided 14 sufficient evidence to protect her 15 and/or Wilson's involvement in this 16 crime. In all likelihood, there was a 17 conspiracy between Nicol John and Ronald 18 Wilson to provide evidence which would 19 keep the suspicions off themselves and 20 on David Milgaard. John may have 21 believed her actions were indirectly 22 responsible for Miller's death." 23 Next page: 24 "During Wilson's recent appearance

he lied during the original trial. One has to question today why he would have lied during the original trial.

It can be speculated Wilson lied during his original testimony to distance himself from his activities with Milgaard during the sexual attack/murder of Miller, and to provide an alibi which would protect himself from being implicated in this crime."

## Next paragraph:

"During Wilson's most recent Supreme Court of Canada testimony, one would have to ask why he would be lying today.

Again, this could be perceived as a possible way to protect himself from the events of the day; i.e., Milgaard will soon be out of prison. Wilson may now believe that he has others to fear and this is one way of today vindicating himself in the eyes of Milgaard, or possibly Wilson has a conscience and is being truthful when stating that he lied at the original trial. Wilson may have originally lied

Meyer CompuCourt Reporting =

1 about his own activities at the scene 2 only to protect himself from being 3 charged with murder and to keep the police focused on Milgaard." 4 5 And (t): "David Milgaard knows what happened 6 during Miller's murder, however his 8 position of innocence cannot be assisted 9 by drawing Wilson and John into the 10 investigation, as it will do nothing to 11 advance his position, and in fact would 12 confirm his involvement if he attempted 13 to implicate anyone else." 14 Again, Mr. Pearson, so this theory at the time --15 and I want you focus on what you thought at the 16 time, not with what you now know -- but, again, 17 what would be -- tell us, what was the purpose of 18 this and how did it come about that you put this 19 theory together?

I guess it was again looking at the crime scene in a different way, and not eliminating one suspect over the other, and looking at it as a possible potential for some future investigation.

20

21

22

23

24

25

Now in some spots here, as far as the vehicle and the timing, it looks like in some parts of this

1		theory you have tried to address concerns that had
2		been raised previously by Mr. Milgaard's counsel
3		about the implausibility of the theory and the
4		evidence at the original trial. And for example
5		the fact that by the time let me throw a couple
6		out the fact that by the time, if the vehicle
7		got stuck and they went looking for help, that
8		Gail Miller would already be at 20th Street;
9		correct? That was one thing that
10	A	Yes.
11	Q	I think Mr. Wolch had said "well that doesn't
12		fit"?
13	A	Yes.
14	Q	So, under this theory, would it be a case of
15		saying "okay, well if David Milgaard committed the
16		crime this might be one explanation or one theory
17		as to how it might have happened different than
18		what was said at trial"?
19	A	It's a theory.
20	Q	Right. But it's
21	A	It's not necessarily
22	Q	No, I appreciate that, but obviously at the time,
23		I mean, were you putting this forward as a
24		possible, possible way in which the crime was
25		committed?

1	А	Yes.
2	Q	And you felt that this was plausible and possible
3		at the time?
4	A	Well assuming, applying all the facts, it was
5		worthy of, it was worthy of consideration, yes.
6	Q	And I appreciate, Mr. Pearson, with what, with
7		what you now know it may be difficult to go back
8		and look at this, but I'm trying to understand, at
9		the time, what went into this theory and why you
10		were putting it forward and what you thought at
11		the time based upon what you knew at the time.
12		And so, at that time, were you again, was it a
13		case of saying, well lookit, here is a way to
14		explain away or answer the complaints or concerns
15		put forward by the Milgaard group about how the
16		original story put forward by Wilson and John
17		doesn't fit?
18	А	No, I think it was, I think it was originating
19		through the unusual behaviour of Nichol John and
20		Ronald Wilson.
21	Q	And so let me so this was prompted by saying
22		let me back up that because of Ron Wilson and
23		Nichol John, what they were saying and what they
24		had said up until that point, you started to think
25		that maybe they weren't telling the whole story
		Meyer CompuCourt Reporting ————————————————————————————————————

1		and here's a scenario that might work with the
2		facts, but involves them being involved, number 1,
3		and number 2, lying at trial?
4	A	Yes, that's fair.
5	Q	And not lying at trial because David Milgaard
6		didn't do it, but lying at trial because David
7		Milgaard did do it in this theory?
8	A	Yes.
9	Q	Now, again, once you put this together, do you
10		recall whether you had any follow-up other than
11		I'll talk about your meeting with the RCMP in,
12		later on in the fall of 1992, but apart from that,
13		were you involved in doing any further
14		investigation on any of this matter?
15	A	On the theories?
16	Q	Yes.
17	A	No.
18	Q	And when you put these forward, were you and I
19		think a copy went to Saskatchewan Justice were
20		you suggesting that these two theories ought to be
21		investigated?
22	A	It was just information. I'm not sure I thought
23		that everybody was going to react to it and start
24		investigating. I don't think I believed that at
25		the time, but it was some information that may be
		Meyer CompuCourt Reporting

1		worthy of consideration. I really didn't know
2		where all this was going.
3	Q	If let's just change the scenario. If in 1992
4		the Saskatchewan Attorney General came to you and
5		said lookit, we would now like to reopen the
6		investigation into the death of Gail Miller and we
7		would like you, Rick Pearson, to head it up, are
8		these two theories that you would have pursued if
9		you were in charge of the investigation into the
10		death of Gail Miller?
11	А	In the absence of anything else that may be
12		available, yes.
13	Q	Well, let's take the knowledge you had at the
14		time, and again probably more than any other
15	А	Yes, yes, I'll say yes to that. Yes.
16	Q	And I think probably at the time you would
17		probably be the police officer with the most
18		knowledge of what had transpired at least in the
19		last couple of years, not I appreciate others,
20		maybe Mr. Williams and others had more knowledge
21		on other matters, but as far as a police officer,
22		and again in April of 1992 if you were asked to
23		reopen the investigation into the death of Gail
24		Miller, tell us what you would do just generally?
25	A	Well, if there was a suspicion of Wilson lying,
		Meyer CompuCourt Reporting
	(	Certified Professional Court Reporters serving P.A. Regina & Saskatoon since 1980

1		again, you are going back to what tools do you
2		have available, and there may not be too many, but
3		again, using a police tactic of possibly putting
4		together a scenario of an undercover operation to
5		gain their confidence to try and work into this,
6		it would be a long-term process, but that's a
7		fairly common activity. Again, intercepting
8		private communications is another method, it had
9		potential if you were asked to reopen the
10		investigation and take a look at these people as
11		suspects, and the same goes for Larry Fisher.
12	Q	So just back just for a moment on David Milgaard
13		as a suspect, if you were to reopen the
14		investigation, would you pursue these two theories
15		then and investigate these two theories and try
16		and either establish one of them or eliminate one
17		of them?
17 18	А	
	А	of them?
18	A Q	of them? I believe so, I believe it would be, you know,
18 19		of them?  I believe so, I believe it would be, you know, worthy of an attempt.
18 19 20		of them?  I believe so, I believe it would be, you know, worthy of an attempt.  And on the David Milgaard theory, I think you
18 19 20 21		of them?  I believe so, I believe it would be, you know, worthy of an attempt.  And on the David Milgaard theory, I think you said, would you start with Ron Wilson and Nichol
18 19 20 21 22		of them?  I believe so, I believe it would be, you know, worthy of an attempt.  And on the David Milgaard theory, I think you said, would you start with Ron Wilson and Nichol John and try and focus on trying to establish
18 19 20 21 22 23		of them?  I believe so, I believe it would be, you know, worthy of an attempt.  And on the David Milgaard theory, I think you said, would you start with Ron Wilson and Nichol John and try and focus on trying to establish whether or not this theory held true with respect

1		car, I think you would just pursue them as
2		individuals to try and determine what you could
3		covertly get from them.
4	Q	And then as far as Larry Fisher as a suspect, tell
5		us what, if you were asked to reopen the
6		investigation at that time, what tools did you
7		have left and what would you have done to pursue
8		him as a suspect?
9	A	Well, I would say the tools are limited, but again
10		we're talking about using the same approach. I
11		mean, I can't think of too many other options that
12		you have available here as to how you can gain
13		evidence, so to speak, when someone is not going
14		to talk to you directly or is not prepared to
15		confess or is going to use their lawyer to
16		intervene, you have to look at doing a covert,
17		undercover operation or private communication
18		interception, something along those lines has
19		potential. I'm not going to say it's guaranteed.
20	Q	And DNA was done in 1997, and we'll hear from
21		others as to whether it could have been done in
22		1992 or not, but at that time if you were asked to
23		reopen the investigation, would you look at trying
24		to do a DNA analysis?
25	A	Absolutely. I think that was just on the horizon, $lack$

1 there was a lot of development going on there and 2 that was probably, would have been a key activity 3 I'm sure if you were to reopen it. 4 MR. HODSON: Mr. Commissioner, this might 5 be an appropriate spot to break for the day. Ι have just one small area to cover with Mr. 6 Pearson on Monday and some systemic issues that 8 might be maybe 15 to 30 minutes on Monday, but it 9 might be appropriate to leave that until then. 10 COMMISSIONER MacCALLUM: Okay. 11 (Adjourned at 3:47 p.m.) 12 13 14 15 16 17 18 19 20
