# 1 Transcript of Proceedings 2 (Reconvened at 9:05 a.m.) 3 COMMISSIONER MacCALLUM: Good morning. 4 ALL COUNSEL: Good morning. 5 COMMISSIONER MacCALLUM: Counsel, I'll read my reasons on the application on behalf of David 6 Milgaard for an accommodation and, following that, Ms. Congram will distribute copies of the 8 9 written reasons. 10 In support of his application for accomodation to David Milgaard in giving his 11 12 evidence, Mr. Wolch called two witnesses, Dr. 13 Patrick Baillie, a psychologist, and Mr. Joel 14 Grymaloski, a therapist. 15 David Milgaard had signed an 16 undertaking, doc. ID 332559, stating in part: 17 "If the Commissioner concludes that I am 18 fit to testify, I undertake to appear 19 and testify before the Commission of 20 Inquiry on the terms directed by the 21 Commission." 22 The proviso in that undertaking 23 no longer applies. In abandoning his application 24 to be excused, David Milgaard has conceded that

he is fit to testify. The question remains, on

what terms? The accommodations sought are not based on what I might call logistical factors, such as ability to travel or conflicting commitments. Rather, they go to scope of questioning and the manner of taking evidence, limited, it is said, by Mr. Milgaard's emotional state.

It is worth noting that his stated reluctance to testify at the Inquiry is a very recent thing. I have seen a news report from 1991 in which he is quoted giving cogent and articulate reasons for wanting a public inquiry. None of the symptoms of unease reported in Mr. Milgaard by Mr. Grymaloski relate to the prospect of testifying at the public inquiry until October 2005.

Background on this application reaches back to October of 2004 when Commission Counsel informed Mr. Wolch that he wanted Mr. Milgaard as a witness. To have waited until October of 2005 to announce his refusal to testify is both presumptuous and discourteous.

5	Milgaard to be excused from testifying:

7	the Commissioner's ruling on the above
8	motion. If he is found to be fit he
9	will testify or lose his standing."
10	The next date is:

12	January 24th, 2006 - page 22,309
13	January 30th, 2006 - pages 23,004 to 23,129,
14	which covered a modified application for
15	accomodation.
16	Proposed accommodation from other counsel was
17	filed at that time. And, finally, on:
18	January 31st, 2006 - pages 23,135 to 23,344.
19	The family therapist, Joel
20	Grymaloski, holds a Masters in clinical
21	psychology. He began seeing David Milgaard in
22	1995 and has had, I find, only sporadic contact
23	with him since, consisting of occasional visits
24	of an informal kind, usually outside the office.
25	Mr. Grymaloski refused to bring his file to the

Inquiry, citing confidentiality, although it was made clear to counsel earlier that if the files of treating professionals were not made available, it would affect the weight of their evidence.

The therapist's report is doc.

ID 332554. It is notable for its lack of clinical detail, not surprisingly, because Mr.

Grymaloski did not treat Mr. Milgaard, saying that all his time with him has been spent trying to win his confidence.

The last paragraph of the report reads:

"For David Milgaard to appear at this
Inquiry at this time, would most
probably, undo the last 10 years of his
work and effort to stabilize his life
and move past his traumatizing past. As
such it would throw him back into the
dark chasm that was so long a part of
his life and that he is so valiantly but
slowly, climbing his way out of."

That, I find, is more the plea of an advocate rather than the assessment of a treating psychologist. Later in his testimony Mr.

Grymaloski acknowledged that he was an advocate for Mr. Milgaard's health and well-being.

The report shows a diagnosis of Post Traumatic Stress Disorder but does little to demonstrate it, relying mainly upon the undisputed ordeal of his long imprisonment. One difficulty I have, in terms of weight, is that the symptoms are described but not documented, leaving counsel with no means to verify or challenge the accuracy of the report. Another problem is that, as Mr. Grymaloski concedes, there is no literature in support of a wrongful conviction as the traumatic event for PTSD.

It is interesting to note that on October 25th, 2005, the day after Mr. Milgaard made his appearance before the cameras in this hearing room, he visited Mr. Grymaloski's office in Vancouver to announce that "there was no way he was going to the Inquiry".

What the report proves, if more proof were needed, is that Mr. Milgaard was determined not to give evidence at this Inquiry.

Mr. Grymaloski testified that his client has "quite an issue with people in authority".

I accept that. It explains his

determined effort to avoid testifying.

Also of interest is his evidence that after reading the report, Mr.

Milgaard was not pleased with the diagnosis of PTSD. Mr. Grymaloski said that Mr. Milgaard does not like to think that this has affected him in any way. Why then is he asking, through counsel, for special treatment on the basis that he has a trauma induced illness?

Mr. Grymaloski said that he opened a file on David Milgaard but did not record clinical findings, just observations. I suspect that there were no clinical findings. He admitted that he did not follow the common protocol of subjective history, objective findings, assessment and plan. And he has withheld his file, I find, without adequate excuse, relying on confidentiality when agreeing to testify on behalf of Mr. Milgaard at the request of the latter's counsel. He says, of his file, "I'm not sure it would have helped".

That, in the first place, is not for him to say, but it is revelatory in that it is an admission that his file contains nothing useful. His report is based only on observations

1	made of Mr. Milgaard during informal visits.
2	Asked when these were, Mr. Grymaloski said:
3	in 1995 - 5 visits
4	in 1996 - 4 or 5 visits
5	in 1997 - 1 or 2 visits
6	in 1998 - none
7	1999 - 1 visit
8	2000 - perhaps 3 visits
9	2001 - perhaps 1 visit
10	2002-2004 - none
11	We know that since then and
12	prior to the preparation of his report, Mr.
13	Milgaard visited him only once, on October 25th,
14	2005, and then only to express his determination
15	not to attend the Inquiry.
16	Mr. Grymaloski has never had
17	hospital records, or even admission or discharge
18	summaries. That explains why Mr. Wolch has never
19	produced any, despite his assertion that Mr.
20	Milgaard has been hospitalised every time he has
21	been required to speak about his experiences.
22	Dr. Baillie has suggested that
23	both the manner of taking testimony and the scope
24	of questioning are limited by Mr. Milgaard's
25	psychological frailty and he is at risk of being

harmed by having to recall traumatic events. The applicant seems to be 3 saying, as I understand Dr. Baillie: "I am fit to testify, but not in a formal setting and only in response to questions which do not suggest any personal responsibility for my own conviction."

Before considering Dr.

Baillie's evidence, let me say that I expected an assessment based upon current medical records and interviews with the applicant, who, as stated, had a year to make known to us his unwillingness to testify or to justify his need for accomodation.

And the applicant has withheld from us vital evidence, namely his medical records (which Commission Counsel and others requested in writing on December the 5th, December 13th, and December the 16th, 2005 (filed) which we had every right to expect. (And I refer you to pages 16,820 of the transcript)) and has declined to be interviewed by Dr. Baillie.

As a result, Dr. Baillie has

not been able to provide an assessment, as such, but has offered a commentary or opinion in his letter of the 13th of January, 2006, filed as doc. ID 335359. At page 7:

"In short, if other sources of information were available to me, including more recent medical records and, possibly, Mr. Milgaard's own words if he was willing to meet with me, then I could be in a better position in terms of providing the assessment needed by the Commission."

Dr. Baillie is eminently qualified for our purposes, both by experience and training, and his report, which he was led through in direct examination, makes the best of the information he had. He spoke to Mr. Grymaloski, Mr. Milgaard's therapist, who diagnosed his patient with PTSD.

Dr. Baillie agrees, based on a reading of historical documents, including medical records pre-dating 1994. His evidence is not persuasive being both derivative (from Mr. Grymaloski) and dated.

Let us be clear that Dr.

Baillie did not diagnose PTSD, Mr. Grymaloski

1 did, based not on a "forensic-style assessment", 2 but on the basis of "clinical observation and 3 professional experience." 4 "Nonetheless" says Dr. Baillie, 5 "I have no quarrel with the diagnosis in this case". 6 At pages 4 and 5 of the report, Dr. Baillie describes the four core features of 8 9 The first of these is: PTSD. 10 "... exposure to a traumatic event that involved death or serious injury or 11 12 threat to physical integrity, and the 13 person's response to the event involved intense fear, helplessness or horror 14 . . . Asked where such an experience was had by David Milgaard (who has said that he was not at the scene of the Miller murder, and could not therefore have been exposed to it), Dr. Baillie explained (as I understand him) that the definition was wide enough to comprise Mr. Milgaard's conviction and what happened to him as a result. While conceding that the literature contained no example of a conviction, per se, as the "traumatic event", Dr. Baillie said that the

event was not discrete - but rather a series of bad experiences which flowed from it.

Dr. Baillie frankly conceded that his opinion was limited by the lack of an assessment. He says (by way of reminder to me, I suppose) that a balancing test must be performed - one which weighs the potential value of his evidence against the risk of damaging his mental health.

I find that Dr. Baillie was seriously hampered in his work by lack of information he should have had from David Milgaard's medical records and from interviewing him. One example was the assumption he worked on that over the past ten years Mr. Milgaard was hospitalised as a result of recounting his experiences. There is no evidence of this. And the fact is that David Milgaard successfully gave evidence under oath on examination for discovery in 1996, doc. ID 198515, and pronounced himself healthy. Dr. Baillie did not read the transcript.

Mr. Milgaard also testified before the Supreme Court of Canada in 1992, not, to be sure, without discomfort, but he did it.

The doc ID is 182051.

Although aware of David Milgaard's televised press conference in the Inquiry hearing room on October 24th, 2005, Dr. Baillie did not view it. He relied on Mr. Wolch's assurance that Mr. Milgaard was reading from a prepared text. That helped, I suppose, but he also took questions from reporters about this Inquiry and answered emphatically and apparently without difficulty. Had Dr. Baillie seen this, as I did in the broadcast, I wonder if he would be as apprehensive about Mr. Milgaard's fragility. In the absence of a formal assessment, and with the lack of recent evidence, I would be reluctant to accept the label of Post Traumatic Stress Disorder as a condition currently applying to Mr. Milgaard.

Dr. Baillie, I think, has been persuaded that nothing of value remains to be learned from Mr. Milgaard who has already answered "thousands of questions". Possibly he is correct, but that is not for him to say. The second half of the test is more in his line - the probable harm to Mr. Milgaard. Here, his opinion is forcefully expressed in saying that if

questioning goes beyond general inquiries of knowledge of an event and seeks to find out why a certain thing happened or if it happened, Mr.

Milgaard might conclude that he is being asked to share the blame, at least in part, for his conviction and will be devastated. But one must acknowledge the obvious. The point of the questions will not be whether Mr. Milgaard killed Gail Miller, but whether his words or actions led the authorities to believe he did, or at least to suspect him; and secondly whether it should have led to an earlier reopening of the case.

As to Mr. Milgaard's possible devastation, that is a matter for the exercise of the Commission's discretion. By analogy the court proceedings, complainants or plaintiffs, often deeply traumatized children or women, are asked hard questions about intensely personal matters. Proof of a civil claim requires it and in criminal cases, the public interest demands it. If the witness cannot answer, discretion is exercised to alleviate the pain and embarrassment of testifying in public. Sometimes, the testimony does not come and the Court must then decide if the onus has been met.

We would not have required Mr. Milgaard's testimony if we did not believe that the public interest required it. I refer you to pages 16822 and following.

In his report, Dr. Baillie suggested accommodations which might permit the reception of Mr. Milgaard's evidence without causing him to bolt.

Amongst these is an audio/video examination by Commission Counsel in the presentation of Mr. Wolch. Referred to the method suggested by other counsel with standing, Dr. Baillie agreed that it was a reasonable middle ground. I observe, however, that it would permit, subject to my discretion, questions to be put to Mr. Milgaard which call upon him to explain alleged words or actions which put him under suspicion or which might have affected the reopening. If he did not say or do what is alleged, he can say so. If he did or said what is alleged, he can, if he wishes, offer an explanation. But let him be under no allusion that which is relevant to the terms of the reference may be asked.

Commission Counsel has gone to

some pains to disclose his areas of interest.

They are relevant. I am happy to say that he enjoys the confidence of all counsel for his tact and sensitivity to witnesses' concerns. As well, he has successfully met with Mr. Milgaard in recent months, so I am satisfied that he would cover the ground for all counsel were he to examine Mr. Milgaard under some form of accommodation.

It appeared from

cross-examination that David Milgaard, during the 1990's, gave paid presentations about his story to various groups including schools and universities. Dr. Baillie was not aware that since his release, Mr. Milgaard had also made public accusations against Saskatchewan Justice.

It has not been satisfactorily explained to me why David Milgaard, who has functioned adequately in other venues, both public and legal, should find it so upsetting to testify at this Inquiry that he would suffer emotional harm or perhaps bolt.

I understand from Mr. Wolch's re-examination of this witness that although he could agree to the suggested accommodation, his

client will not. That is an uncomfortable position for counsel. Mr. Milgaard has already undertaken to testify on terms set by the Commission. Mr. Wolch has no argument to present against the suggested terms and his own witnesses support them.

In argument, Mr. Wolch proposed acceptance of past testimony by Mr. Milgaard as his evidence with counsel to suggest questions on any remaining, uncovered areas.

That would be a departure from our practice. We necessarily make use of past testimony where a witness is dead or simply cannot testify for some other reason. best evidence is potentially, at least, to be had viva voce. It helps me observe the witness, and it affords the chance to cross-examine. These are not advantages to be foregone simply because a witness does not want to testify, saying that he has nothing to add. That is our decision to make before calling him, not his. Furthermore, the scope of questioning in the first instance is within the Commission's exclusive domain. there is cross-examination, counsel for parties with standing, of course, choose their own

questions. If an accommodation were to be extended which did not allow for cross-examination, such as the one suggested here, it would be reasonable to allow counsel to have questions put by Commission Counsel which had not been asked at the first session, subject to vetting by the Commissioner.

One counsel, although he favoured the proposed accommodation, asked for the right to cross-examine personally if unsatisfied with aspects of Commission Counsel's examination. This has the potential to render nugatory the curative effect of the accommodation, so I would not permit personal cross-examination. The proposal, as it stands, appears to meet the possible need for further questions after the first session.

Mr. Wolch' witnesses, both psychologists, approved of the proposal. Mr. Wolch reported that his client would not agree. The best he would do involved written questions and answers, but for reasons stated, I will not accept that.

The onus of showing the need for accommodation lies with Mr. Milgaard. He

alleges that testifying will make him sick and even proving the allegation by attending upon his own expert will make him sick. He has refused, without any reason, to the release of hospital records by means of which we could test his allegation (as expressed by Mr. Wolch) that by speaking about his experiences in the past has caused him to be hospitalized. His onus of proof has not been met by the evidence of Dr. Baillie and Mr. Grymaloski.

Accordingly, the need for special terms for testifying has not been made out. Were it not for the accommodation to which other counsel would still consent, I would dismiss the application and call upon Mr.

Milgaard to appear before the Commission to be sworn and to testify as he undertook to do. But the suggested accommodation is still open and there is no dispute amongst all counsel, including Mr. Wolch, that I could order it without the ambit of the Notice of Motion.

I will do so, but lest there be uncertainty about the consequences of non-compliance, I have already indicated that refusal to testify will cost Mr. Milgaard his

1 standing. If he continues to refuse even the 2 proposal to receive his evidence by audio/visual 3 recording, he will lose standing. My order is that he appear at 4 5 Vancouver on the 6th of March, 2006 at a place to be designated by Commission Counsel and to remain 6 there to give evidence until its completion according to the terms of the proposal, doc ID 8 9 335366. 10 Mr. Wolch may be present as counsel for the witness, but shall not be 11 12 entitled to suggest answers or put questions to 13 the witness. 14 Any objections to the questions 15 may be dealt with by the Commissioner by 16 telephone. 17 Mr. Hodson? 18 CALVIN FORRESTER TALLIS, continued: 19 BY MR. HODSON: 20 Thank you, Mr. Commissioner, we will continue with 21 Mr. Tallis' evidence. 22 Yesterday, Mr. Tallis, we 23 finished going through your cross-examination, or 24 how you dealt with Albert Cadrain, and there's

just one area that I wanted to just touch on that

1 I neglected to. We talked yesterday about the 2 3 compact and the fact that David Milgaard had 4 acknowledged that event to you and I note in your 5 cross-examination of Mr. Cadrain at trial and in his evidence-in-chief Mr. Cadrain said yes, on the 6 trip out of Saskatoon Nichol John found a compact and said whose is it and that David Milgaard 8 9 grabbed it and threw it out the window. 10 cross-examination you did not raise that at all 11 and I'm just wondering if you can, and I 12 appreciate you've explained generally, but just 13 with respect to Mr. Cadrain, explain why you would 14 not have asked him any questions on that? 15 Well, in light of my instructions, it would not Α 16 lie in my mouth to suggest something to the 17 contrary. 18 And so did you then make the decision not to bring Q 19 up the subject matter again, if I can put it that 20 way, in front of the jury? 21 With him, that's correct. Α 22 Q Now, yesterday when we adjourned we were dealing 23 with Ron Wilson's first statement, and I think we 24 went through, this was the March 3rd, 1969

25

statement, the first one that he gave to Inspector

1		Riddell, that did not contain any incriminating
2		information with respect to David Milgaard, but I
3		think you described it as containing significant
4		omissions, and I think in one case to be
5		inconsistent with what David Milgaard had told
6		you; is that correct?
7	A	Yes.
8	Q	And the one inconsistency was that Ron Wilson had
9		said in his statement that there was only one
10		occasion where he and David were apart, that was
11		for a couple of minutes, and that's when, at the
12		Cadrain house, David drove around the block;
13		correct?
14	A	Yes.
15	Q	And I think you told us, and we'll come back to
16		this a bit later, but just when we broke, that I
17		think I asked you the question about use of that
18		statement and you told us that it wasn't as simple
19		as simply putting that to the witness and saying
20		isn't this the truth; is that correct?
21	А	That's correct.
22	Q	So now let's go to the second statement and that
23		is 065361. Now, we have heard, and this is the
24		typewritten version, and just for the record, this
25	l	1000 - 131

was given on May 23rd, 1969, I believe to

Α

Detective Karst, and it was given after a polygraph session with Inspector Roberts, and then the next day, May 24th, and I'll call this up in a moment, there was a second statement given, a supplemental statement. Now, at this Commission of Inquiry we have heard a fair bit of evidence and reviewed police reports and heard from police officers about the sequence of events of May 22, 23 and 24, 1969 and in particular have gone through in some detail about what was discussed by Mr. Wilson with various officers, what was said by him that was incriminating before he met with Mr. Roberts and what was said after he met with Mr. Roberts.

Can you tell us, again going into the trial, I think you told us you would have had the statements, what information would you have had about the circumstances under which Ron Wilson gave his three statements? Focus on the latter two, the May 23rd and 24th.

Yes. As I told you, I had arranged to interview Mr. Roberts because I was interested in trying to find out the circumstances that existed at that sort of phase or chapter, but I didn't feel that he was helpful in any way from David's

1		perspective. Quite the contrary.
2	Q	Right. And as far as let me ask it this way.
3		Looking at the documents and some of the evidence
4		we have heard, it would appear that at least the
5		most incriminating aspects of Ron Wilson's
6		statement came after he met with Inspector Roberts
7		and I'm wondering if that was something that you
8		would have been aware of at the time of trial?
9	А	Well, I didn't have any access to police reports
10		outlining the background. I certainly had
11		interviewed Mr. Roberts with a view to trying to
12		capture the atmosphere and background under which
13		omissions or statements were made, but as I told
14		you yesterday, he basically represented himself as
15		an expert polygraph operator who just dealt with
16		the technical aspects of it. I tried to elicit
17		from him the questions that were put before and
18		after, if any, and he didn't have any, or he
19		didn't volunteer any information about that and
20		emphasized that he just ran the polygraph test.
21	Q	And based on that, what did he tell you about what
22		was tested?
23	А	Well, he sort of, he summed it up without any
24		details, because he didn't go into details with
25		me, that Wilson was telling the truth.

		Page 24168 ————
1	Q	So let me just pause there. The May 23rd or 24th
2		statements, and maybe we can deal with those
3		together, I think the May 24th supplemented the
4		May 23rd.
5	A	Yes.
6	Q	Was it your understanding, from what Mr. Roberts
7		told you, that he tested the veracity of Ron
8		Wilson's May 23rd and 24th statements, or the
9		contents of it anyway, and verified it as being
10		truthful?
11	А	Yes, that was the gist of what he told me, and he
12		kept going out of his way to emphasize it, but I
13		tried to elicit from him, well, what questions did
14		you put, either by way of preliminary questions,
15		and even I was looking for what I would call, for
16		want of a better word, the virtue testing
17		questions, and then any subsequent questions,
18		because I was quite aware of the fact that in sort
19		of post-polygraph discussions, sometimes that's
20		when conversation is struck up, but I had no
21		success in getting anything like that out of him.

Q Would you have been familiar at this time about how polygraph operators worked in the sense of how they set up the questions and how they went about conducting a polygraph?

22

23

24

1	А	Yes, much more familiar than I am now, but I had
2		had some involvement with the use of a polygraph
3		much before, quite a bit before that, and at that
4		time I had a good sense of the type of preliminary
5		questions that were put and then following it
6		through, and also with respect to the habit of
7		often having what I will call a little chat off
8		the record after the results. I don't know
9		whether you follow me or not on that.
10	Q	Yes. And I think we've heard actually some
11		evidence from Mike Robinson who is a polygraph
12		operator and we saw some reference, and I'll come
13		back to this, when Inspector Roberts testified at
14		the Supreme Court, but what Mr. Robinson testified
15		about is that often the polygraph is used as a
16		tool and that it's what comes after the polygraph
17		test that is of real value to the authorities. Is
18		that what you are referring
19	А	Well, I wasn't aware that Mr. Robinson had so
20		testified because I haven't read his evidence.
21	Q	Yes.
22	А	Indeed, I don't think I even know that he was
23		called here, but that certainly is my recollection
24		going back many, many years, and of course through
25		the years I suppose the use of a polygraph evolved
	Ĩ	

1		to some extent, but in that era I am quite
2		convinced that that was part of the technique, and
3		I refer not only to the pre-test questioning, but
4		the sort of post-polygraph test discussions.
5	Q	Were you suspicious at the time, again the time of
6		the trial and the prelim and your dealings with
7		Inspector Roberts, that the polygraph may have
8		been used as a tool by Inspector Roberts to cause
9		Mr. Wilson perhaps to enhance or change his
10		evidence?
11	А	I'm quite sure at the time I was. I can't now
12		point to anything in my memory that would say that
13		definitely, but it's certainly a reasonable
14		inference to me at this stage that that would be
15		so. It was not admissible in evidence, so it
16		follows from that it would be used as an
17		investigative tool.
18	Q	Do you recall whether you had a concern that it
19		may have been the polygraph session and the use of
20		the polygraph that may have caused Ron Wilson to
21		give incriminating evidence against David Milgaard
22		in his statement?
23	A	Looking back, I can't pinpoint anything in my
24		memory on that, but the way you have put it, I
25		would say that that sounds reasonable to me, and $\P$

1		very likely was the situation.
2	Q	And I appreciate, Mr. Tallis, that you are going
3		by memory without the benefit of your notes, but I
4		think, and I'll show you a couple of these
5		documents in a moment, you asked for Inspector
6		Roberts to be flown into Saskatoon so that you
7		could interview him at the time of the preliminary
8		hearing and I think as well as at trial
9	A	Yes.
10	Q	as a possibility. Would it be fair to say that
11		your purpose in doing so was to interview and
12		canvass with him to try and learn more about the
13		circumstances under which Ron Wilson gave his
14		incriminating statements?
15	A	Yes, that's correct.
16	Q	And I think you told us that what Inspector
17		Roberts said to you was he simply administered the
18		test and did not elaborate on anything before or
19		after; is that fair?
20	A	That's a fair assessment. In other words, he
21		represented himself, I hesitate to say, as a mere
22		technician, but that's the way it came across.
23	Q	So in other words, saying here's what Ron Wilson
24		said, he incriminated David Milgaard, I ran it
25		through the machine and it came out true?
		4

		Page 24172 ————
1	А	That's right.
2	Q	Okay.
3	А	And I think I was interested in the virtue testing
4		aspect too as I call it, test questions, but he
5		really didn't, he did not indicate what questions
6		he used and so forth, that was just blank.
7	Q	And by virtue testing, and I think we heard a bit
8		about this from Mr. Robinson, that it's a test
9		where you ask the witness to lie to a question so
10		you can see how the machine picks it up; is
11		that
12	А	Yes. I'm sure I'm not using the correct technical
13		term, but I use the term virtue testing.
14	Q	That may well be the term.
15	А	I doubt that it is, but that's sort of a term I
16		used in talking to you to convey the meaning that
17		I was trying to
18	Q	And I think in Mr. Robinson's case, in his
19		evidence he said sometimes the polygraph, the
20		thought of a polygraph itself will cause some
21		witnesses to change their evidence before they
22		even go through the polygraph. Is that something
23		that you would have been aware of?
24	Α	I can't say at this time, but I would think that
25		in some circumstances it would certainly be very
	I	4

1		intimidating.
2	Q	And is it fair to say that based on what Inspector
3		Roberts told you in your interview with him, that
4		if he were called as a witness, the evidence that
5		he would give would be, as you've described, I was
6		a mere technician, I tested Ron Wilson's
7		incriminating statement with the polygraph and he
8		passed as being truthful, or something of that
9		nature?
10	A	Yes.
11	Q	And I take it, sir, and I think you told us this
12		yesterday, that would be something that would not
13		be helpful to David Milgaard's case?
14	A	No, and if the Crown had tried to call him for the
15		purpose of oath helping, if I may use that term, I
16		certainly would have resisted it.
17	Q	Now, let's talk about, and again I appreciate
18		we're looking back now with the benefit of
19		hindsight and with more information than what you
20		had, would one approach with Inspector Roberts
21		that you may have contemplated, at least with the
22		interview, is to try and get some evidence that
23		might explain why Ron Wilson would have changed
24		his story after or in the course of the polygraph?
25	A	I'm sure that I was wondering about that, but once

	i	
1		again, without my notes, I can't pinpoint anything
2		for you, but your suggestion is certainly a
3		reasonable one and makes sense to me.
4	Q	Did you believe Inspector Roberts when he told you
5		what he did with Ron Wilson, that he was being
6		completely truthful with you?
7	А	I didn't think he was being frank with me,
8		particularly on the questioning, but that was
9		based on some previous experience I had had with
10		how a polygraph is done.
11	Q	Okay.
12	A	And that's why I I'm sure I revisited those
13		points with him during the discussion, but he held
14		fast to his view, or stated position that he was,
15		to use the word I used a moment ago, a mere
16		technician.
17	Q	At the Supreme Court reference Inspector Roberts
18		testified about his session with Ron Wilson, I
19		won't call it up, but I can summarize it for you,
20		and what he said at the Supreme Court is that he
21		called in Ron Wilson, that to that point Ron
22		Wilson had not implicated David Milgaard in the
23		crime yet, although he may have said some things
24		that were suspicious, that he did not believe Ron
25		Wilson when he said he didn't know anything about

the murder and that he was trying to get the truth out of Ron Wilson, and what he thought the truth was is that David Milgaard had killed Gail Miller, Ron Wilson knew that, and that he tested Ron Wilson on the polygraph and Ron Wilson denied, or did not provide any incriminating information against David Milgaard; in other words, did not say the things that are in his statement. was some debate about the questions, it may have been, "Do you know who killed Gail Miller? Do you suspect who killed Gail Miller?" there was some debate over that, and I think that's what Mr. Roberts said he asked, and that after that test Inspector Roberts told Mr. Wilson and testified at the Supreme Court that he had failed on two questions; namely, the "do you know" and "do you suspect", although there's a bit of a debate over that, and that it was after that in telling Mr. Wilson, and Inspector Roberts also testified that before he even conducted the test he told Ron Wilson that he didn't believe him. After the first test he said that he was lying on two points and it was at that point that Ron Wilson then gave incriminating evidence against David Milgaard, and again I appreciate that that's just a summary.

1		Did Inspector Roberts tell you anything of that
2		sort when you interviewed him?
3	A	Most definitely not.
4	Q	And if you would have been aware of, and again I
5		appreciate that I'm just giving you a quick
6		summary, but if you had been aware of those
7		circumstances, can you tell us what you might have
8		done or thought about doing at the time, and I
9		appreciate it's difficult to go back and try and
10		pick up, take a piece of information that you
11		didn't know about, but can you elaborate on how
12		that might have affected what you did with Ron
13		Wilson?
14	A	Well, that would have led me on a chain of inquiry
15		and it would have opened up potential areas for
16		cross-examination.
17	Q	For Mr. Wilson?
18	A	Yes.
19	Q	Okay. At the time of trial, again based on your
20		interview with Inspector Roberts, and any other
21		information you had at the time, was it your
22		understanding that the May 23rd and/or May 24th,
23		1969 incriminating statement that Ron Wilson gave
24		had been verified by the lie detector? In other
25		words, that Ron Wilson, when he made these

1 incriminating statements, passed the polygraph 2 test? 3 Α That's correct. And I take it, would that -- you had told us 4 0 5 earlier that you found Mr. Wilson to be treacherous. Can you tell us what was going 6 through your mind at the time, how you reconciled 8 or what you thought about this purported polygraph 9 approval, if I can call it that, of his statement? 10 Α Well, looking back, I know that I would have been very cautious about putting any questions that 11 12 would elicit a reference to the polygraph or 13 polygraph test in the presence of the jury because 14 of the potential inference that might be drawn 15 from that. Now, that's trying to reflect back on 16 my mental processes, but as I've told you any 17 number of times, it's very difficult to 18 specifically recall those processes or 19 microanalyse or microdissect them, but I know that 20 the last thing in the world I would have wanted 21 would have been a mention of the polygraph because 22 the inference I think would be that he had passed 23 it and I wasn't prepared to concede in any way 24 that he was telling the truth and I didn't want to 25 leave that impression.

1	Q	So let's take that a bit further. I think what
2		you have said, and I don't think there's any doubt
3		that the polygraph evidence was not admissible as
4		oath-helping or proof of Ron Wilson's statement,
5		correct, that wasn't admissible to the jury to say
6		"lookit, you must"
7	A	That's correct, unless counsel, in
8		cross-examination, opened the door, and then you
9		can't be heard to complain.
10	Q	And as far as getting that door open, for example
11		if it was a question or if evidence came out that
12		Mr. Wilson said, "well I was in the room hooked up
13		to that polygraph machine"
14	A	Yeah.
15	Q	that would be the type of information that a
16		jury might say well (a) he must have been
17		polygraphed, and (b) he must have passed it; is
18		that the concern?
19	A	That certainly is.
20	Q	Okay. So putting that aside, and I think I hear
21		you on that, saying I can't go there because even
22		the mention of Ron Wilson being polygraphed will
23		add to his credibility or may add to his
24		credibility in the eyes of the jury; is that fair?
25	А	Yes.
	1	<b>_</b>

1	Q	Now let's contrast that with what we talked about
2		in Inspector Roberts and trying to get into
3		discrediting Ron Wilson's statement by saying that
4		it was this polygraph process that may have
5		improperly influenced or caused him to give a
6		statement
7	A	Yeah.
8	Q	that may not be reliable. And I think, and I'm
9		summarizing a bit, but that, I think you said,
10		could have been said to be one of your tacks or
11		one of your thoughts at the time?
12	A	Yes.
13	Q	And that would require you to get into the fact
14		that a polygraph was undertaken in the presence of
15		a jury, is that in the presence of the jury?
16	A	Yes.
17	Q	And so if you take the risk of trying to establish
18		that the polygraph was somehow misused in the
19		process and caused Ron Wilson to give an
20		untruthful statement, I take it the risk would be,
21		if you didn't succeed, that you would be helping
22		the credibility of his evidence?
23	A	Yes. And there is a further aspect to that.
24		Cross-examination of that nature, which I would
25		have considered very risky for the reasons I've

1		told you, might also open the door for the Crown
2		to elect to call Mr. Roberts, not for the purpose
3		of describing the polygraph test or anything like
4		that, but for the purpose of demonstrating to
5		testify that he didn't put any pressure on the
6		witness during the course of the interview.
7	Q	And, based on your interview with Inspector
8		Roberts, I think you told us that's something you
9		wanted to avoid?
10	A	Yes. I mean, tactically, one wouldn't want to do
11		something that would place the Crown in a position
12		where they would say "I'm forced to call Dr
13		Mr. Roberts".
14	Q	Were you concerned that
14 15	Q A	Were you concerned that  But, you know, these are things that sort of go to

Just before we move off of Inspector Roberts, in addition to the fact that he said "I was a technician, I simply ran the test and simply verified the statement", did you have any other

1		to your client's case?
2	A	Well, let's put it this way, I was very leery.
3	Q	Of him?
4	A	That I just didn't think he was being frank with
5		me. I don't like to malign a person but you've
6		asked me for my assessment and, accordingly, I had
7		to take that into account.
8	Q	And, again, did you have concerns that, if you
9		took steps that resulted in him being called as a
10		witness, that there might be things that he didn't
11		tell you in the interview that he might say that
12		might be harmful to your client's position?
13	A	I think that, if I did that, it would be, in
14		effect, inviting an attempt to oath-help.
15	Q	Okay.
16	A	And that anything, even though it technically was
17		not oath-helping, would be detrimental to David's
18		interests.
19	Q	Okay. If we can now go through, this is now the
20		second statement, and again I want to go through
21		this statement because I will have some questions
22		when we go through what you did at trial and at
23		the prelim with respect to Ron Wilson's statement,
24		and that certainly has been an issue in this
25		Inquiry as to how these statements came to be and
		1

25

how they were used. So if we can go through, and again this is the typewritten version, and again I'll repeat it, Mr. Tallis, but this, the evidence that we have heard is that this statement was provided -- let me just back up -- that on the two days before Ron Wilson was subjected to the polygraph he was interviewed by a number of Saskatoon police officers, I think a Regina police officer, an RCMP officer, and gave some information, further information regarding the events of January 31, about getting stuck, seeing a lady, things of that nature, but he did not, prior to the polygraph and prior to this statement, at least according to the evidence we've heard, he did not give direct evidence implicating David Milgaard, namely the admission in Calgary, the comment "I fixed her", and the witnessing blood and seeing the maroon-handled paring knife. So, if we go through that, he's talking about the first statement to Riddell, he now adds the stop in Aylesbury where they broke into an elevator office and I think he stole a flashlight, and, based on what you told us, that is consistent with what Mr. Milgaard told you; is that correct?

1	А	Yes, except I think I did mention to you that I
2		wasn't sure that there was a flashlight taken on
3		the basis of what I don't
4	Q	Your, I think you've told us you don't recall
5		that?
6	Α	Yes.
7	Q	We have had, we've seen other evidence on that,
8		you are telling us you don't remember that?
9	Α	That's right, and I don't recall David telling me
10		that he took a flashlight, but the fact of the
11		elevator office and so forth, we've canvassed
12		that, and
13	Q	And then I think you also told us that this you
14		viewed as being a significant omission in his
15		March 3rd, '69 statement; is that correct?
16	A	Yes.
17	Q	And then, second, he says:
18		"Also today Mr. Roberts showed me 5
19		small knives at the Cavalier Hotel and I
20		picked out a brown bone handled one
21		which I had seen Milgaard with somewhere
22		between Regina and Saskatoon. He may
23		have got this knife from the Champs
24		Hotel where we ate that day. I don't
25		know just where I seen this knife on him

1		but I remember it or one like it."
2		Now you've told us that David Milgaard told you
3		that he had a knife on the trip Regina to
4		Saskatoon,
5	A	Yes.
6	Q	and I think you told us that it had a flexible
7		blade but that you could not recall any other
8		details, the colour of the handle for example?
9	A	No, nothing like that, I don't recall. But I do
10		recall David making it clear that it was not the
11		knife that was tendered as having been the weapon
12		used in this homicide.
13	Q	It was not a maroon-handled paring knife in other
14		words?
15	А	That's right. And the term "paring knife", if you
16		think of a knife, a paring knife as having a
17		serrated blade, I'm quite sure that it was not a
18		serrated blade, from what David told me.
19	Q	We have seen some reference, and we'll see it
20		again when I go through some of the transcripts,
21		of a bone-handled hunting knife, which presumably
22		is different than a maroon-handled paring knife.
23		Do you recall whether David described it as a
24		bone-handled hunting knife?
25	A	No, I that was a, I think there was some
		•

		1 ago 2 1700
1		question of whether there was a second knife,
2		being a hunting knife.
3	Q	Yes.
4	A	And I'm quite sure David told me that he didn't
5		have a hunting knife along with him.
6	Q	And he didn't
7	A	And I'm sure that's something I would remember,
8		because I'm familiar with hunting knives.
9	Q	I think the evidence of Nichol John and Ron
10		Wilson, and we'll see it in the transcript, I
11		think both refer to seeing two knives on the trip,
12		one well here it's a brown-handled one
13	A	That's what I am referring to.
14	Q	Yeah.
15	A	He had made me aware of that.
16	Q	Yeah, okay. So this statement here would be
17		inconsistent with what David Milgaard told you to
18		the extent of the description of the knife, I
19		think you are saying he said he had a knife, but
20		you can't recall other than saying it wasn't a
21		maroon-handled paring knife and you don't think it
22		was a bone-handled hunting knife
23	А	Well, I'm quite sure it wasn't a bone-handled
24		hunting knife.
25	Q	Okay.
	Ī	

1	A	And I remember the flexible blade business because
2		of the use that could, potentially, be made of it.
3	Q	Then it goes on to say:
4		"Also when we got to Saskatoon and were
5		looking for Cadrain's we got stuck
6		earlier trying to make a "U" Turn",
7		I'm sorry, let me just pause there.
8		The fact that Ron Wilson, in
9		his first statement, said he did not in his
10		March 3rd statement he said he did not see a
11		knife in David Milgaard's possession, and I think
12		at that time you said "well that might be
13		inconsistent with David, although if he didn't
14		see it, then that might explain it", here he is
15		now saying "okay, I did see a knife with David".
16	A	Yes.
17	Q	And so if he had always seen a knife, putting
18		aside the description for a moment, would that
19		have been a significant omission in the March 3rd,
20		
21	A	Yes.
22	Q	'69 statement?
23	A	Yes.
24	Q	So we go down to it says:
25		"Also when we got to Saskatoon and were
		1

1 looking for Cadrain's we got stuck 2 earlier trying to make a "U" Turn just 3 after we had spoken to a young lady in a dark coat about directions. 4 This was in 5 the area where the police showed me the all night cafe. She said she didn't 6 know where Peice Hill was and when we 8 left Milgaard said she was a stupid 9 She had been walking on the bitch. 10 passenger side and Milgaard was the only 11 one that spoke to her. I should also 12 mention that on the way to Saskatoon we 13 discussed pulling B. & E's, rolling 14 someone or purse snatching for money. 15 don't really remember if this girl was 16 carrying a purse." 17 So, again, we have the incident of getting stuck after speaking to, he describes the person as: 18 19 "... a young lady in a dark coat about 20 directions. This was in the area where 21 the police showed me the all night 22 cafe.", 23 which I think was Avenue P and 22nd Street: "... didn't know where Peice Hill was 24 25 and when we left Milgaard said she was a

1 stupid bitch." 2 If we can just pause there, I think you've told 3 that, with respect to Ron Wilson's March 3rd 4 statement, that the getting stuck -- stopping a 5 woman for directions and getting stuck was a significant, or were both significant omissions; 6 is that correct? Α Yes, yes. And so here, if we take a look at what Ron Wilson 10 is saying in this statement compared to what David 11 Milgaard has told you, I take it there's some 12 consistencies and some inconsistencies; is that 13 fair? 14 Yeah, that's a fair way of putting it. Α 15 And so the -- certainly getting stuck David agreed 16 with, and: 17 "... just after we had spoken to a young 18 lady ...", 19 he says it was an older lady, and again it may 20 have been more than half a block, but putting 21 that aside: 22 "... in the area where the police showed 23 me the all night cafe.", 24 I think David was not able to tell you where this 25 was other than over, I think you said over on the

		1 age 24103
1		west side between 20th and 22nd Street on one of
2		the avenues?
3	A	Yes. Yes. That's the best we could figure out,
4		you know.
5	Q	Right. And then the comment about "stupid bitch",
6		I think you told us that you don't recall or do
7		you know whether or not David acknowledged saying
8		that when he discussed it with you?
9	А	I don't think that he said that.
10	Q	Okay.
11	А	That is I don't, he told me that he didn't recall
12		saying anything like that, and I think he was
13		quite firm on that,
14	Q	Okay.
15	А	that he hadn't called her that kind of name.
16	Q	Okay. And then the discussion about:
17		" pulling B. & E's, rolling someone
18		or purse snatching for money.",
19		I think you have told us that David acknowledged
20		having some thoughts about either robbing or
21		snatching the purse of the woman they stopped for
22		directions, but as far as discussions on the trip
23		between Regina and Saskatoon, I think you told us
24		that you don't recall whether he
25	Α	I don't recall anything like that.
	Ĥ.	

1	Q	Then we carry on, and Mr. Wilson says:
2		"Dave and I got out to push when we got
3		stuck but we couldn't get out. Dave
4		said he'd go for help and he left and
5		disappeared behind the car."
6		Now in the statement that he gives the next day
7		he adds that Ron Wilson also left the car and,
8		with that proviso, I take it that would be
9		consistent with what David had told you?
10	A	Yes, subject to the time
11	Q	Right.
12	A	factor that we had mentioned before.
13	Q	And he says:
14		"About 15 minutes later Dave came back,
15		kind of running and breathing heavy and
16		got into the car."
17		And your evidence has been that David told you
18		that he left but I think it was "a short while"
19		were your words; is that right?
20	A	Yes, I think he was maybe I said "short while"
21		or "a few minutes", I just don't recall now.
22	Q	Okay. So again, and I think you told us yesterday
23		that Ron Wilson, his failure to state in his March
24		3rd, '69 statement that he and David had left the
25		car, putting aside the time factor, I think you
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A. Regina & Saskatoon since 1980

1		said was a significant omission; the failure to
2		mention that, putting aside the time, the failure
3		to mention that in the first statement?
4	A	Yes.
5	Q	And so here, the 15 minutes, I think there's an
6		issue there. I think David I don't want to put
7		minutes to you but I think you said "maybe a
8		couple of minutes", so or "a short while" or "a
9		couple of minutes", so there would be a
10		significant inconsistency there with respect to
11		the time away; is that fair?
12	A	That's correct.
13	Q	And then Mr. Wilson now adds that when David got
14		back he said "I got her" or "I fixed her", and I
15		think you have told us that David said there was
16		no words to that effect said; is that correct?
17	A	That's correct.
18	Q	And then it says:
19		"I don't remember just when we got out,
20		if it was before or after David came
21		back that 2 men in a cream coloured
22		dodge or chrysler pushed us out by
23		hand."
24		And I think you have told us that you don't
25		recall the description of the vehicle or the

		3
1		people, but that David told you two men came
2		along and pushed the car out, is that correct?
3	A	That's correct.
4	Q	And then they go on to describe going to the
5		motel, and then here he describes the changing of
6		the clothes, which I believe he did in his first
7		statement. But here he says:
8		" I noticed blood on the front of his
9		pants at Cadrain's, I also noticed they
10		were ripped up the ass."
11		And the blood, you've told us David was firm in
12		denying that, so this would be an inconsistency
13		between what David told you and what Mr. Wilson
14		told you?
15	A	That's correct.
16	Q	The next paragraph Mr. Wilson says:
17		"On the way to Calgary Nicky found a
18		white or cream coloured compact with
19		flower design, I'm not just sure about
20		the color. She found this someplace in
21		the car. She asked Dave who's it was
22		and I don't know what he said, he just
23		took it and threw it out the window. I
24		remember on the road to Calgary Nicky
25		would scream every now and then, I don't

1		know what was the matter with her."
2		On the compact, I take it that's something that
3		was consistent with what David Milgaard had told
4		you?
5	А	Yes, as I've outlined earlier.
6	Q	And then as far as Nicky screaming on the road to
7		Calgary, and there may have been some discussion
8		about David's driving causing her some concern,
9		what do you remember about David telling you about
10		whether Nichol screamed or not on the trip to
11		Calgary?
12	A	I know he said he liked to drive fast, but the way
13		this came out it almost would suggest that she was
14		hysterical about it, and David was very clear that
15		there was no type of hysteria like that.
16	Q	Then, if we can go to the next page, and then he
17		says:
18		"At Calgary we went to the bus depot,
19		that is Dave and I. Nicky and Shorty
20		stayed in the car. We went to make a
21		few phone calls for a girl I knew -
22		Heather Beaton who I couldn't fine.
23		This is when Dave told me he hit a girl
24		in Saskatoon, or maybe he said he did a
25		girl in in Saskatoon. I don't remember

for sure which. He told me he grabbed her purse and she fought and he said he jabbed her with a knife a few times, and said he put her purse in a trash can.

He said he thought she'd be alright."

And you've told us that David Milgaard told you that this did not happen; correct?

A That's correct.

What were your thoughts, Mr. Tallis, when you became aware of this information, and in particular I guess the -- how Mr. Wilson described what happened in Calgary about the jabbing, that he thought she'd be all right, and put the purse in the garbage can, and as far as trying to understand where this might have come from? Well it, I think, goes back, you know, to I was trying to probe to see if it arose from Inspector Roberts, as we've discussed earlier. That's sort of the general recollection that I have now. as I recall it David didn't, you know, certainly told me that he never said anything like that. may or may not have been able to recall whether he was ever at the bus depot there, but the conversation was certainly something that he said just never took place, because he never did it.

1	Q	And then just scroll down:
2		"A little later in Calgary when Nicky
3		and I were together I told her what Dave
4		had told me and she said she already
5		knew. I don't know when he told her.
6		We talked about ditching Dave but we
7		were afraid of him so we decided against
8		it."
9		And, again, I take it Mr. Milgaard wouldn't have
10		any knowledge about that, other than saying that
11		he didn't say the first part, so that the second
12		part therefore couldn't have happened; is that
13		right?
14	А	That's right, yeah.
15	Q	And then he goes on to say:
16		"Other than these 4 pages I can't think
17		of anything different than before. I
18		might also add that I am sure Milgaard
19		killed that nurse, Gail Miller."
20		Did you get that sense from Mr. Wilson when he
21		was testifying, that he was sure that David
22		Milgaard had killed that nurse?
23	А	Well, I come back to what I said to you, I think
24		it was yesterday. I was of the view that Wilson,
25		for whatever reason, was a treacherous witness. I

1		know that word can convey a lot of things but I
2		really can't think of a better word to use to
3		reflect my sort of mental processes at the time.
4	Q	So are you telling us that he may have felt that
5		way, or he may not have felt that way, and was
6		just going out of his way to harm a friend?
7	A	I think, if you'd asked me at that time when
8		things were fresh in my mind, I would have thought
9		that he didn't genuinely feel that and that he
10		was, for some reason, blaming a friend.
11	Q	And, as far as the reason, did you have any
12		thoughts at the time as to what that might be?
13	А	Well I think I, you know, canvassed it to some
14		extent with you yesterday, and I'm not sure I can
15		add to that. Naturally, I was speculating.
16	Q	Yes.
17	А	You know, this business was money the motive, had
18		there been friction, you know, had there been
19		somewhere along the way a bad drug deal or
20		something, you know, all sorts of things go
21		through your mind. And to canvass all the areas
22		that I was speculating about at that time, I
23		really couldn't improve much on what I have said
24		generally yesterday
25	Q	If we

A -- and today.

22

23

24

25

2 If we can go to 065360, please. Now this is a 0 3 statement that is given the next day, May 24th, 1969, and I believe the evidence that we have 4 5 heard is that after Mr. Wilson gave this statement to the police -- actually, I'm sorry, after he 6 gave his May 23rd, 1969 statement to the police, 8 that he then spent some time with Inspector 9 Roberts and Nichol John, and that Inspector 10 Roberts had interviewed Nichol John, Nichol John 11 hadn't given her statement yet, but if one is to 12 take Inspector Roberts' evidence at the Supreme 13 Court and Nichol John's statement of the next day 14 during the interview with Inspector Roberts, 15 Nichol John apparently told him that she now 16 remembered witnessing a murder. So then I think 17 the evidence we've heard is Ron Wilson, Inspector 18 Roberts, and Nichol John get together, and then 19 the next morning he adds this statement. 20 "I would like to add further occurrences 21 to what I said yesterday in my sworn

to what I said yesterday in my sworn statement. When Dave and I got out to push the first time we were stuck we couldn't push the car so I said to Dave 'you go one way for help and I'll go the

other'."

16

17

18

19

20

21

22

23

24

25

Α

And I think, from what you have told us already, that that would be consistent, or perhaps maybe not the words being spoken, but David Milgaard told you that, when they got stuck, he and Ron went different directions for help; is that fair? That's correct.

And then he says:

"I went to the corner on the drivers side of the car and walked down the block, I couldn't find help so I went back to the car the same way I had left. The car was still stuck. Nicky was waiting in the car almost hysterical. Ι asked her what was wrong and she told me she saw Dave carry or drag a girl down the lane and bring out the knife and stab her a few times. Then she broke down again. Dave came back to the car from the back I think and got in beside She shrugged away from him. Nicky. rest is the same as I told you in the other statement."

And then it goes on to describe the car that picked them up.

Now in this statement, Mr.

Tallis -- and we have been through Mr. Wilson's statement and Nichol John's statement -- he is now adding that they both left the car, which I think you are saying is consistent with Mr. Milgaard's information to you, but now he is saying that when he got back to the car Nichol told him that she had witnessed Dave stabbing a girl, and I'm wondering how -- and again let's just identify, if I can, the inconsistency between this statement where in -- on May 23rd, the day before, Ron Wilson says in -- that -describes the event of that morning, does not say anything about Nichol telling him about seeing David grab a girl, but then says the next day in Calgary he talks to David at the bus depot and David tells Ron "I stabbed a girl" or "I jabbed a girl", etcetera, he then goes and tells Nicky, and Nicky says "I already know". question is this, or the inconsistency, is why would Wilson go and tell Nicky something that Nicky told him the day before. Do you follow? Yes, yes I do.

A 0

And so, again, do you recall -- and maybe let me

just preface this before I ask the question.

1		Presumably, at trial, discussions between Ron
2		Wilson and Nichol John would be hearsay; is that
3		fair?
4	A	I was just about to say that but you took the
5		words out of my mouth. Yeah.
6	Q	Okay. Well maybe you can
7	A	No, no, you go ahead. That's correct.
8	Q	And as far as, and maybe "exploiting" is the wrong
9		word, but do you recall looking at Ron Wilson's
10		statement and Nichol John's statement and trying
11		to identify inconsistencies?
12	A	I have no doubt that I did, but I also have no
13		doubt that one has to be very concerned about
14		opening the door with respect to hearsay.
15	Q	And so let's just go through that for a moment.
16		Well, if you were to try and challenge Ron Wilson
17		on the stand and say, well, I don't think your
18		story is believable because on the one hand, you
19		know, when you first told the police about
20		incriminating information you said you had learned
21		from David Milgaard what he had done, and you told
22		Nichol John and she said she already knew, then
23		the next day you said no, she had already told
24		you, which then undermines the credibility of your
25		statement, your first statement. Why would you go

1		tell Nichol something as significant as a stabbing
2		or a murder when, the day before, she had told you
3		that she had witnessed it? And I take it that
4		that line of questioning, is it fair to say, would
5		be you would not be able to pursue unless you
6		got into hearsay evidence; is that fair?
7	А	Yes, with the attendant risks, because during the
8		course of the trial there was some hearsay
9		evidence that the Crown were trying to get in and
10		I managed to keep it out. I've just forgotten the
11		particular point now, but I think that that's a
12		fair recollection of what happened.
13	Q	And so if Nichol John had adopted her statement in
14		its entirety, in other words at trial had
15		confirmed that she had witnessed these events, is
16		it fair to say that the discussions between her
17		and Ron (a) would be hearsay, and (b) you probably
18		wouldn't want to get into; is that fair?
19	A	Yes, I think that would be very risky.
20	Q	And then let's take it a step further. If Nichol
21		John does not adopt her statement, in other words
22		she doesn't testify about witnessing the stabbing,
23		
24	A	Yes.
25	Q	is there any way that you can, in the presence

1		of the jury, bring to their attention this
2		inconsistency between Ron Wilson's two statements
3		of May 23rd and May 24th?
	_	
4	A	Well, again, I in my respectful view it would
5		have been a and I'm sure that was my view at
6		the time it would have been a hazardous type of
7		approach.
8	Q	And might it result in either Ron Wilson's
9		statements being tendered as an exhibit, namely
10		the May 23rd and 24th statements?
11	A	It could well have.
12	Q	And did you want those statements before the jury?
13	A	No, I did not.
14	Q	So if we take a look at, and let's look at the two
15		statements of Ron Wilson together, the May 23rd
16		and 24th as one statement for the moment; is it
17		fair to say, Mr. Tallis, that if we take the first
18		statement of March 3rd that Ron Wilson gave, I
19		think you said that that contained some
20		significant omissions
21	A	Yeah.
22	Q	and perhaps an inconsistency or two with your
23		understanding of the facts, and I think you told
24		us and let me maybe just ask it again. Based
25		on what David Milgaard had told you would you have

1		been comfortable putting forward Ron Wilson's
2		March 3rd, 1969 statement to him as the truth and
3		the whole truth?
4	А	No, I couldn't have done that, and furthermore,
5		putting that in would have, in my view, opened the
6		door for a skillful re-examination on certain
7		aspects.
8	Q	And what aspects would those be?
9	А	Well, the omissions for one thing, and that would
10		lead into a potential discussion of whether or not
11		he amplified it.
12	Q	And why he changed his story?
13	А	That's correct.
14	Q	So then as we
15	А	As I said to you, I viewed Wilson as a treacherous
16		type of person who, and I was hoping nobody would
17		ask it, either the Crown or the trial judge, why
18		did you change your story, that he would be the
19		type of person who would likely say, well, I was
20		doing it to protect my friend, you know, I gave
21		the first statement to protect my friend. I
22		thought he was that treacherous a type of person.
23	Q	If we then go ahead to the May 23rd, 24th, '69
24		statements and view them as one, being what he
25		revealed at that time would it be fair to say that
		4

1		certainly the omissions in the March 3rd, '69
2		statement were addressed in the sense that he now
3		added in those things that were not in the March
4		3rd statement; is that fair?
5	A	Yes.
6	Q	And that in some of the new information that he
7	*	provided, some of that was consistent with what
8		David Milgaard had told you; is that fair?
9	A	That's correct.
10	Q	And in other cases it was not?
11	A	That's correct.
12	Q	And would it be fair to say that some of the
13		information that he added in these two statements
14		that was consistent with what David Milgaard had
15		told you would be considered, let me ask by you,
16		to be somewhat suspicious in the sense of the fact
17		that they got, asked the lady for directions,
18		talked about break and enters, got stuck and that
19		David left the car, that he threw the compact out,
20		things of that nature, and I think you told us
21		earlier that those were matters that caused you
22		concern because the jury might view them as
23		suspicious; is that fair?
24	A	Yes.
25	Q	And again in the statement of May 23, 24, '69, $\blacksquare$

1		some of the omissions that he has filled in would
2		be both truthful or, in a sense, consistent with
3		what David had told you and also be somewhat
4		incriminating; is that a fair word to use?
5	А	Yes, incriminating or damaging.
6	Q	Damaging? And then next there would be some
7		further information, and I'm thinking mainly of "I
8		got her, I fixed her," the admission in Calgary,
9		blood on the pants, that would be inconsistent
10		with what David told you and very incriminating
11		and damaging; is that fair?
12	А	Yes.
13		MR. HODSON: This is probably an
14		appropriate spot to break, Mr. Commissioner. I'm
15		now going to go into the evidence.
16		COMMISSIONER MacCALLUM: Thanks, Mr.
17		Hodson. Before I go, I just wanted to pick up
18		the fact that during my reading of the reasons I
19		corrected a typo on page 5, the year was, on the
20		third paragraph, it's supposed to be 2005, not
21		2006. Thanks.

24	ВУ	MR. HODSON:
25	Q	Mr. Tallis, I want to just go through a couple of

documents relating to your visit with Inspector Roberts, if we can call up 025305, and this is Mr. Caldwell's letter to the administrative officer with the AG's department, October 2nd, '69, and I just want to read this part here, he says:

> "During the Preliminary Inquiry Mr. C.F. Tallis, Q.C., who was appointed under the Legal Aid Plan to defend Milgaard, became aware of the participation of Inspector Roberts in questioning the crown witnesses, Wilson and John, and formally requested me to have Inspector Roberts subpoenaed and brought to Saskatoon as a potential defence witness at the Preliminary Inquiry. As you know, Section 6(a) of the Plan requires the Crown Prosecutor to place such defence witnesses, as requested by defence counsel, on the crown witness sheet and have them summoned to attend and pay them as if they were crown witnesses."

## And scroll down:

"Inspector Roberts attended at Saskatoon and was interviewed by myself and

5		the Preliminary Inquiry."
6		And then it goes on to talk about billing. And
7		would that be, does that assist your recollection
8		of how would that be an accurate description
9		of how he came to Saskatoon?
10	A	Yes, I'm quite sure that letter accurately
11		reflects a request that I made and it was in fact
12		met in terms of bringing him here. Now, if you go
13		to the paragraph was interviewed
14	Q	Jointly?
15	А	by myself and Mr. Tallis jointly
16	Q	Yes.
17	А	now, initially there was just a joint
18		introduction, so to speak, but I actually spoke to
19		Mr. Roberts alone for a period of time and then
20		after that, I assume that's when Mr. Caldwell had
21		interviewed him. Now, it could be that Mr.
22		Caldwell had spoken to him before I actually saw
23		Mr. Roberts.
24	Q	Right. And it talks here about having him attend
25		for the possibility of being a defence witness and

1		I think what Mr. Caldwell told us is that if,
2		after your interview, you had indicated your
3		desire to have Inspector Roberts testify at the
4		preliminary hearing, that he would have called him
5		as a Crown witness. Is that your understanding of
6		what
7	A	I'm sure he would have, because I would have asked
8		him to do so, and I think that he would have done
9		so without question.
10	Q	And similarly at trial I think the same
11		arrangement was put in place, he was subpoenaed?
12	A	Yes.
13	Q	And available, and I think Mr. Caldwell's evidence
14		was that if you wished to have him testify at the
15		trial, he would call him as a Crown witness?
16	A	Yes.
17	Q	And then if we can go to 007022, these are Mr.
18		Caldwell's notes, it may well be of a telephone
19		conversation September 3, '69, because it's got
20		the phone numbers there, but it would be around
21		the time, or shortly before when he came to
22		Saskatoon. Presumably, Mr. Tallis, you would have
23		had your own notes of your discussions with Mr.
24		Roberts?
25	A	Yes. I'm unfamiliar with these particular notes

2		have any recollection or does this assist you in
3		any way of refreshing your memory as to what it
4		was that, the questions that Mr. Wilson supposedly
5		failed on the polygraph?
6	A	No, this is information that was not conveyed to
7		me by Mr. Roberts, and my recollection is that
8		this is the type of thing I was looking for in the
9		interview that I had with him, and I've already
10		alluded to that, the sort of pre-test questions,
11		the post-test questions as well as the, any other
12		questions during the operation of the polygraph.
13	Q	And then just one last document on this point,
14		006948, and I probably could have got a better
15		reference, I think this was an internal memorandum
16		to Mr. Caldwell January 12th confirming that
17		Inspector Roberts was, had received his subpoena,
18		and we have other documents on the record
19		indicating that Inspector Roberts was served with
20		a subpoena to testify, and I understand from Mr.
21		Caldwell that you then told him you did not want
22		him called at trial; is that correct?
23	A	That's correct.
24	Q	And would that be for the reasons you've already
25		stated?

## Page 24211

1	A	Yes. I would just have to revisit what I told you
2		earlier.
3	Q	I think what yeah, what you told us earlier
4		about the reasons, I think you were saying you did
5		not trust Mr. Roberts, you did not think his
6		evidence would help David Milgaard and that it
7		would be oath helping to Mr. Wilson and things of
8		that nature?
9	A	That's right.
10	Q	Yeah. And so as far as I think Mr. Caldwell's
11		evidence was, he didn't intend to call him because
12		he didn't think there was any evidence he could
13		put in and I think what you've told us is that you
14		didn't want him to testify either because you did
15		not think he would help your case?
16	Α	No.
17	Q	Is that fair?
18	Α	That's correct, subject to a qualification I will
19		have with respect to the 9(2) application.
20	Q	Right, okay.
21	Α	Yes.
22	Q	And when we get to Nichol John we'll talk about
23		that. We're done with that document. I now want
24		to go to the preliminary hearing and the trial of
25		Ron Wilson and talk about what you had and what
	I	

1		approach you took with him and why you took it,
2		and I suppose we've gone through the statements
3		and just to quickly summarize, you've told us, as
4		you did with Albert Cadrain, that you were
5		professionally and ethically precluded from
6		challenging evidence of Ron Wilson or of a witness
7		that was consistent with what David Milgaard had
8		told you; is that correct?
9	A	That's right.
10	Q	So
11	А	Facts that he acknowledged were matters that I
12		accepted as being correct and, accordingly, I
13		could not, in good conscience, suggest something
14		to the contrary.
15	Q	So if we go through some of the key pieces,
16		certainly the elevator break-in, although I think
17		you managed to keep that out at the trial
18	А	Yes.
19	Q	but that would be something that you could not
20		say, well, that didn't happen; is that fair?
21	А	That's correct, and, you know, until the ruling
22		was made, there was no guarantee it would be kept
23		out, or until the Crown elected not to put it in,
24		because from my recollection of the briefing of
25		the matter, there could have been a significant
	II .	<b></b>

1		argument over it on the footing that that
2		reflected the motive that might go into any
3		subsequent conduct.
4	Q	And so there was an argument that it possibly
5		could be admissible then?
6	A	I thought so. I don't have a copy of my brief
7		now, but I thought on balance the opportunity was
8		there to keep it out.
9	Q	Okay.
10	A	And that's the line that I certainly pursued, both
11		in discussions with Mr. Caldwell and also would
12		have emphasized with the Court.
13	Q	Now let's go to the issue of the knife. What Ron
14		Wilson has in his statement is that he saw two
15		knives, I believe a bone-handled or a
16		brown-handled knife and then the maroon-handled
17		paring knife. Now, you've testified that David
18		Milgaard told you he had a knife, but that it
19		wasn't a paring knife, it wasn't the
20		maroon-handled paring knife, it was a different
21		type of knife. Tell us, what were your limits, if
22		any, in how you would challenge Ron Wilson with
23		respect to the knife knowing that your client has
24		told you that he had a different kind of knife?
25	A	Well, there was no suggestion in the evidence as I

1		recall it that a hunting knife had been used in
2		this homicide and the type of knife that David
3		described to me with a flexible blade was
4		something that one couldn't challenge the
5		existence of a knife of that nature.
6	Q	And so again as far as approaching Wilson, a
7		question such as, you know, you know David didn't
8		have a knife at all on the trip, that would be
9		something that you couldn't put?
10	A	In light of my instructions, no.
11	Q	Now, the stopping a lady for directions, your
12		instructions were that it was an older lady, dark
13		coat?
14	A	That's right.
15	Q	But that David did not see the face of the woman.
16		I think Ron Wilson's evidence was, or his
17		statement, that it was a younger lady, dark coat,
18		and I believe, and I stand to be corrected on
19		this, I don't think he saw her face either, and
20		since he was driving the vehicle and Mr. Milgaard
21		was closer to her, I think one might assume that
22		if Mr. Milgaard didn't see the face, the others

any you had in challenging Mr. Wilson on that

23

24

25

point?

likely didn't either. Tell us what limitations if

	ll .	
1	А	Well, first of all, I knew that from what David
2		had told me about one of the additional purpose,
3		so to speak, that is, to look her over, was a view
4		to possibly robbing or snatching her purse, I
5		don't recall whether it was robbing or
6		purse-snatching at this stage, but one had to be
7		mindful of that background and try to avoid
8		fostering any undue emphasis on alleged
9		conversation about robbing people or
10		purse-snatching to get money, because these young
11		people had left Regina, as I told you, without
12		really having any funds for a trip, so I didn't
13		want to do anything that would expand on that
14		notion because in my view that would have been
15		very detrimental.
16	Q	In light of what Mr. Milgaard told you about his
17		thoughts when they approached this woman to ask
18		for directions, and in particular his thoughts

20

21

22

23

24

25

thoughts when they approached this woman to ask for directions, and in particular his thoughts about robbing her or stealing her purse, did you have a concern that that topic may have been discussed with Ron Wilson right about that time and that Mr. Wilson might, in the course of giving evidence, say what David had thought and maybe said to him? I'm maybe not asking that very well,

Meyer CompuCourt Reporting = urt Reporters serving P.A. Regina

but in other words --

1	A	No, I understand what you are asking me. Well, I
2		had a concern and wanted to be careful that I
3		didn't put any questions and, you know, there's
4		always a risk, but put any questions that would
5		prompt him to improve his memory or concoct a
6		statement that, oh, yes, I remember David
7		mentioning he was going to look her over to rob
8		her.
9	Q	Okay. And that statement, I guess, did you know
10		whether or not Mr. Wilson might say that or
11		whether David had said to Ron Wilson, had
12		expressed his thoughts just prior to pulling the
13		vehicle over?
14	А	No, I didn't, but having assessed this chap as a
15		treacherous type of person, I didn't want to do
16		anything that would spawn that type of statement.
17	Q	And if he in fact had said, Mr. Wilson had said
18		yes, either Dave mentioned this or about when we
19		pulled this woman over for directions we had
20		thought about robbing her or stealing her purse,
21		in light of your instructions how would you have
22		been able to deal with that statement?
23	А	Well, I wouldn't have been able to challenge it.
24	Q	So again in your, planning your cross-examination
25		of Mr. Wilson then, would that have been a concern $lack$

1		on your mind, that and you may have already
2		said this, to try and prevent that type of
3		information coming out?
4	A	Yes, that would certainly be one of the pitfalls I
5		would try to avoid in drafting up my
6		cross-examination of this witness.
7	Q	What about the young versus old lady, is that
8		something that you felt you could challenge him,
9		saying look, wasn't it an older woman, based on
10		what David had told you?
11	A	Yes, although sizing him up, I had the sense that
12		he would re-emphasize his view.
13	Q	Okay. Now, the evidence of Mr. Wilson that they
14		got stuck shortly after stopping the woman for
15		directions, again that's something, I suppose, the
16		length of time between leaving the woman and
17		getting stuck may have been at odds with what
18		David Milgaard told you; is that correct?
19	А	That's right.
20	Q	So that it would be appropriate for you to suggest
21		that maybe it had been further away?
22	А	That's correct.
23	Q	Now, he also said that it was in the vicinity, in
24		his statement anyway, of where the all-night cafe
25		was, which I believe was Avenue P and 22nd Street.
	ı	

1		I think at trial he ended up getting a bit more
2		specific and put it on Avenue N, but certainly on
3		his statement he said it was in that vicinity.
4		Based upon what David Milgaard had told you about
5		where it was they stopped the woman for directions
6		and where it was they got stuck, how comfortable
7		were you in how you could attack or challenge
8		Mr. Wilson regarding the location of getting stuck
9		and stopping the woman for directions?
10	A	Well, I knew from what David had told me, and
11		there was real difficulty in pinpointing anything,
12		but that it was during the course of, you know,
13		north-south driving, as I've mentioned to you
14		earlier, down some of the avenues, but of course
15		we weren't able to pinpoint that.
16	Q	For example, based upon what your instructions
17		were, could you have gone to Mr. Wilson and said
18		look, I suggest that where you got stuck and where
19		you stopped the woman for directions was five
20		miles away from where Gail Miller's body was
21		found, on the north end of the city or the east
22		end of the city?
23	А	No, that would have been unrealistic and I think
24		would, in the eyes of a fact finder, smack of an
25		absurd suggestion.

1	Q	As far as leaving the car for help, and we've
2		touched on this, in light of your instructions
3		from Mr. Milgaard, would it be fair to say that
4		the only tact you could take with Mr. Wilson
5		regarding his evidence that he and David left the
6		car to look for help would be the length of time
7		they were away from the vehicle?
8	А	Yes, that was most definitely one aspect of it,
9		but I think there was also a second aspect,
10		whether you would call it secondary or primary I
11		leave to others, and that is that the car had
12		the car was stuck and there had been spinning and
13		from the information that I had it had been
14		spinning enough that it would leave marks, spin
15		marks or tire marks where they were stuck in the
16		snow or packed snow, so that was an aspect of it
17		too. Now, whether I whether one pursued that
18		with him is one, you know, is a matter for
19		consideration, or whether you leave it for police
20		officers who inspected the scene, and I think in
21		this particular case, based on the information and
22		instructions David gave me, that I questioned a
23		police officer or police officers about that
24		because they actually were looking for that type
25		of thing.

1	Q	And so is what you are telling us, that one
2		approach with Mr. Wilson would be to try and
3		adduce facts that on their own might not be of
4		assistance, but when you take it to other facts
5		such as the scene of the crime and observations,
6		that you might be able to get evidence from
7		Mr. Wilson that would, in effect, put them
8		somewhere other than near where Gail Miller was
9		found?
10	A	Yes.
11	Q	Is that fair?
12	A	That's fair enough.
13	Q	And again, based on what Mr. Milgaard told you,
14		that was something that you were quite fine to do?
15	А	Yes, and I remember discussing this business of
16		being stuck enough with the smooth tires,
17		relatively smooth tires, that marks would be left
18		in the snow or packed snow, and I don't want to be
19		repetitious on that, I've already told you about
20		it yesterday I think it was.
21	Q	The item of evidence that, and we've again touched
22		on this, but the two individuals came and pushed
23		the car out?
24	А	Yes.
25	Q	And again I think you've told us that David
		<b>4</b>

1		confirmed that, so that's something you couldn't
2		challenge?
3	A	Yes.
4	Q	And lastly, the finding of the compact, we've
5		touched on that, that's something again that you
6		could not challenge; is that fair?
7	A	That's correct.
8	Q	Now, if we take just that part, and let's just
9		talk about Ron Wilson's statement, and you may
10		have already covered this, but what was in his
11		statements, the May 23rd and 24th, the
12		incriminating statements, and you pare it down so
13		that all that's left in Ron Wilson's statement is
14		what is consistent with what David Milgaard told
15		you, would you view that evidence as being
16		incriminating against your client, or damaging?
17	A	Well, there were portions in that statement that
18		were damaging and I think we've alluded to those.
19	Q	Yes, and that would be the getting stuck, the
20		stopping the woman for directions, the compact,
21		the driving around, things of that nature?
22	A	Yes.
23	Q	And so again, even if you got Ron Wilson to pare
24		back his evidence and only give evidence
25		consistent with what David Milgaard told you about

1		the facts, was it your assessment that that
2		evidence would still be damaging and
3		incriminating?
4	A	Yes. In the context of this case, I would say
5		yes.
6	Q	And certainly the, would you agree that it would
7		not be nearly as incriminating as the entire
8		statement, in other words, there's more in the
9		statement that's far more damaging than those
10		items that were not, that you could not dispute;
11		is that fair?
12	A	That's correct.
13	Q	And again, if we look at the parts of his
14		statement or anticipated evidence that was not
15		consistent or that based on what David Milgaard
16		had told you were untruthful, it would be
17		certainly, number 1, the age of the woman they
18		stopped for directions, young versus old, the
19		duration that they were away from the vehicle,
20		being 15 minutes versus maybe a couple of minutes,
21		the description of the knife being maroon handled,
22		would you agree with those, those would be ones
23		that would be damaging but not truthful according
24		to what David had told you?
25	A	That's right.
	ĺ	<b></b>

1	Q	As well, Mr. Wilson's evidence about returning to
2		the car and having Nichol John tell him what she
3		saw about David Milgaard, now, that would be
4		inadmissible as hearsay presumably, but
5	Α	Yes, unless one opened it up.
6	Q	And the comments that Wilson attributed to Mr.
7		Milgaard, "stupid bitch" and "I got her" or "I
8		fixed her" again would be damaging, but untruthful
9		according to what David had told you?
10	A	Yes.
11	Q	The observation of blood on David's pants made by
12		Ron Wilson and as well what Mr. Wilson said he was
13		told in Calgary by David Milgaard about jabbing a
14		person again, those would be, according to what
15		David had told you, untruthful and I think again
16		quite damaging; is that fair?
17	A	Yes.
18	Q	And I don't mean to simplify it, but would it
19		be as far as your approach to Mr. Wilson, would
20		it be fair to say that you would want to take
21		issue and challenge and try to undermine the
22		credibility of those damaging pieces of
23		information which, based on your instructions,
24		were untruthful?
25	A	That's correct.
	I	

1	Q	And with respect to those damaging pieces of
2		information from him that were truthful according
3		to your instructions, what if anything could you
4		do with those?
5	А	I suppose looking at it in a practical way, try to
6		avoid emphasizing or over emphasizing them.
7	Q	And so interwoven in this chain of events then
8		that Mr. Wilson has in his statements
9	A	And I should add, if there was an innocent
10		interpretation that could be placed on them, that
11		of course would be a matter for argument.
12	Q	And so again, interwoven in the story that
13		Mr. Wilson was telling in these statements were,
14		again according to your instructions, damaging
15		evidence, some of which was truthful, some of
16		which was not truthful?
17	A	That's correct.
18	Q	Let's just talk generally about
19	A	Now, I just should add this, that in making that
20		assessment, I'm trying to look at it and I was
21		trying to look at it as objectively as I could. I
22		suppose you might say I was, I'm using the
23		objective bystander test when I respond to your
24		questions in this area.
25	Q	Okay. And I want to just talk about the actual

1 written statements, and we know that there were 2 three, --3 Α Yes. -- the March 3rd statement and then the May 23rd 4 5 and 24th statements. And I think we viewed the first one as being not incriminating and the 6 second two being incriminating? 8 Α Yes. Can you tell us what your thoughts were, or concerns may have been, about the extent to which 10 these statements would be (a) used in the course 11 12 of the trial and heard by the jury, and secondly, 13 your concerns or thoughts about whether any of 14 them ought to be, or might be, put in as exhibits? 15 For my part, I'm quite sure that I concluded that Α 16 if you go down that path and elect to put in, 17 through a Crown witness, the, we'll say statement 18 number one, you run the risk of two things, a real 19 risk at least at that time in that trial; and 20 number one was that in re-examination Crown 21 counsel would likely have been permitted to focus 22 on significant omissions; secondly, I think that 23 it would also invite an inquiry with respect to, 24 you know, "well did you give a subsequent 25 statement or statements"; and, finally, you

couldn't overlook the possibility that the presiding judge, at the invitation of Crown counsel, would call for the production of those other statements so as to put in the whole picture.

Now I'm distilling that down, but those were concerns that I certainly had, and I did not want -- and this was a judgement call on my part -- I did not want any of those statements, that is the combination of them, to end up in the jury room. Because, once again, sooner or later somebody would have asked the question "well why did you change your mind", and I think I've already -- or "why did you change", and I anticipated that his answer, being a treacherous type of person that I mentioned, would likely be "I was protecting my friend when I gave the first one".

Q Okay.

- A And "when did you tell the truth" would be a question then, and "I told the truth in the later statements I gave", and --
- And it may be obvious and doesn't need to be asked, but what was your assessment of how -- of the impact that that would have on the case

1		against David Milgaard before the jury?
2	A	Well, I thought it would have a devastating
3		impact.
4	Q	Just back on the first statement, did you see any
5		way that you could get the first statement, the
6		March 3rd statement, before the Court without
7		running into all of the risks you've just
8		identified about the statements?
9	A	Well, looking back on the atmosphere of the trial,
10		I don't think so.
11	Q	I'll now go to 007595, please. And I'm going to
12		try and use the skipping technique, Mr. Tallis, to
13		go through these, so bear with me. This is the
14		preliminary hearing transcript
15	A	I'm not asking you to adopt my practices. That's
16		many years ago.
17	Q	This is Mr. Wilson's examination-in-chief at the
18		preliminary hearing by Mr. Caldwell, and I just
19		want to touch on a couple points, in particular
20		his key evidence about the length away or the time
21		away from the car.
22	A	Is this the trial evidence?
23	Q	No, this is the preliminary hearing.
24	A	Okay, thanks.
25	Q	Actually, we can go to 007601. I just want to

highlight this part. This is where Mr. Caldwell is asking Mr. Wilson about the break and enters on the way, and he takes the benefit of the protection of the Canada Evidence Act, on the next page I think you object to the relevance of the matter and, I think, set the stage for an argument you make at trial. Mr. Caldwell says he thinks And it would appear just from the it's relevant. record that the presiding judge or the magistrate at the preliminary hearing allowed it to go in with the idea that, at trial, maybe different considerations would apply; is that fair? Yes, Magistrate Cumming ruled as he did there. Would it be fair to say that, at a preliminary hearing, you'd be less concerned about inadmissible evidence being heard unless the issue of a committal is a live one; is that fair? Yes, and I think it's also fair to say that the, that at least in that era the application of the rules of admissibility were somewhat relaxed by the presiding magistrate or Provincial Court Judge. Now at that time -- and I was going to deal with this later but I will bring it up now -- the law prohibiting publication of evidence at a

1		preliminary hearing, I think, was enacted shortly
2		after this preliminary hearing; do you recall
3		that?
4	А	I don't recall the specific date when it came in
5		but I'm sure that your research is correct on it.
6	Q	In fact, yeah, in fact there is a reference in
7		that we'll look at in one of your exchanges with
8		Chief Justice Bence that talks about what the
9		jurors might have read from the preliminary
10		hearing.
11	А	Yeah.
12	Q	So if we can maybe go ahead to 007616, and again
13		this is Mr. Caldwell, and Mr. Wilson just talks
14		about the knife and he describes it as I think
15		he described it in his statement as brown,
16		bone-handled, and then here a brownish red handle
17		and a brownish handle.
18		And if we can go ahead to
19		007619, and he just described the U-turn and
20		getting stuck and the next page and then
21		says:
22		"A I'm not sure if it it was at a corner or
23		near an alley. I'm not positive because
24		there was alot of snow out and I don't

know the city.

1		Q	You are not sure that if it was at
2			an intersection or not?
3		A	No."
4		And, aga	in, I think later we'll see that he
5		becomes	a bit more specific about that. And then
6		scroll d	own:
7		"Q	Were you successful in getting unstuck?
8		А	No, we weren't.
9		Q	And what did you do then?
10		А	Go look for some help, so we could get
11			unstuck.
12		Q	You said you went for some help?
13		А	We said we would go look for some
14			help.
15		Q	Alright. Now, the place where you got
16			stuck, how far would it be from the
17			place where you talked to the lady?
18		А	About three-quarters of a block.
19		Q	And would it be in the same block, or
20			had you gone across?
21		А	Yah, it would be in the same block."
22		And I th	ink this is something that you said was
23		differen	t from what David Milgaard had told you;
24		is that	right?
25	А	Yes.	
	I		

		. ago 2 .20 !
1	Q	It would have maybe been a little further, I
2		think?
3	A	Yes.
4	Q	Next page. There is a fair bit and I won't go
5		through it but a fair bit in the transcript of
6		both Ron Wilson and Nichol John about the
7		directions, both that the car was facing and
8		that the directions Ron Wilson and David
9		Milgaard went when they left the car. And, again,
10		do you recall, recall that being an issue, Mr.
11		Tallis, or where that fit in?
12	A	Yes, I recall it being an issue in the sense that
13		Wilson either went to the, direction-wise to the
14		left or forward, and David went in the opposite
15		direction.
16	Q	It would seem from the transcript that the issue
17		was that some of the witnesses, or Wilson and
18		John, were suggesting that Mr. Milgaard left the
19		vehicle in the direction where the woman was who
20		had been asked for directions; is that fair? And
21		I think you were trying to take issue with that,
22		and that maybe he didn't go in that, or went a
23		different direction; is that a fair way to put it?
24	A	I think that's a fair way of putting it.
25	Q	So down at the bottom:
		4

1		"Q	where did you go looking for help?
2		А	Up a couple of blocks."
3		And then	I'll just skip over, scroll down, 169:
4		"Q	When you got back to the car, who was
5			there?
6		А	Nicol John."
7		What was	going on with Nichol John when she got
8		in the ca	ar:
9		"A	She was pretty well hysterical when I
10			got back.
11		Q	What was she doing?
12		А	Crying and just pretty well
13			screaming."
14		And then	down:
15		"Q	And how long would you estimate that you
16			were away in the course of walking up a
17			couple of blocks?
18		А	Five or ten minutes."
19		And I jus	st remind you that in his statements that
20		he gave t	to the police of May 23rd he said 15
21		minutes,	now let me just verify, I think that was
22		15 minute	es that David was away from the car.
23		Actually	, what he said is that Dave left, and
24		about 15	minutes later Dave came back.
25	А	Yes.	
			4

1	Q	That in his statement the total time that he had
2		David away was about 15 minutes, so here Wilson
3		says he was gone 5 or 10 minutes, and I asked her
4		what was wrong, and then Mr. Caldwell says you
5		can't tell us anything of what she said. And this
6		is the point we touched on earlier, that the
7		exchanges between Ron Wilson and Nichol John would
8		not be admissible as being hearsay; is that
9		correct?
10	A	That's correct.
11	Q	And then what happened next:
12		"A Dave came back to the car."
13		And then down at 186:
14		"Q What happened when Dave got in?
15		A Nicol kind of shrugged away from him."
16		And then the next page, he talks about when Dave
17		got back to the car was there anything said
18		between you:
19		"A Yes, there was."
20		"A He fixed her or something to that
21		effect."
22		And then the next page, 202:
23		"Q How did you get unstuck?
24		A Two men helped us."
25		And I think that's, again, something that David
		•

		1 ago 24204
1		had confirmed for you?
2	A	Yes.
3	Q	And then to 007634. This is where he says he
4		observed blood on the front of his pants.
5		And then 007643, this is an area
6		that we maybe haven't touched on yet, or in
7		detail. He's asked, and this is when they are at
8		the garage getting the car fixed, Mr. Caldwell
9		asked:
10		"Q Did the accused do anything in
11		particular while you were waiting?
12		A He cleaned out the car."
13		And I think there was some suggestion that that
14		might have whether consciousness of guilt or
15		cleaning up or getting rid of things from the
16		car; do you recall that being an issue that you
17		addressed?
18	А	I recall, I think that the mechanic's evidence
19		dealt with that to some extent, I believe
20		Mr. Davis.
21	Q	Yes.
22	А	And, you know, I can be wrong but I think I
23		canvassed that with him or some other person?
24	Q	Yeah, I think the evidence was that they had
25		cleaned out some wrappers and some garbage.
	Ĩ	

1	Α	Yeah, and I think that I dealt with that aspect of
2		it, and I don't think that the evidence, as I
3		recall it, I don't think that the evidence was
4		that he was the only one involved in the cleaning,
5		but I my memory could be faulty on that.
6	Q	Do you remember discussing this issue with David
7		Milgaard at all?
8	А	Not specifically, but I'm sure I did, in the light
9		of some of the questions that I believe I asked
10		Mr. Davis.
11	Q	Okay. If we can go to 007650. Again, just for
12		the record, this is where Mr. Caldwell asks him
13		about Mr. Wilson about the discussion in
14		Calgary, and Mr. Wilson says David said he:
15		" he said that he had 'hit a girl',
16		which I figured like taking her purse or
17		something like this, or 'he got a girl',
18		something to this effect.",
19		words to that effect, etcetera, and I think
20		that's consistent with what he had in his
21		statement.
22		If we can go to page 007666.
23		This is where Mr. Caldwell asks him if you let
24		me just back up, I'm sorry Mr. Tallis. This is
25		now your cross-examination, and just for the

1 record that starts on 007659, and so these are 2 your questions: 3 And I take it that there came a time " O 4 when he indicated to you ...", 5 and we're talking about the police officers: "... that you may as well realize that 6 you were under suspicion in connection 8 with this matter? 9 Α Yes." 10 And can you tell us, what was the importance of 11 establishing that, that he was a suspect; where 12 were you trying to go with that? 13 Α Well my recollection is that this was looking into 14 the potential for a -- or the possibility of a 15 motive to change his story, much like I mentioned 16 to you yesterday with respect to Albert Cadrain, 17 Shorty Cadrain I should say to keep consistency. 18 I'm sure that's where I was probing, the area I 19 was probing. 20 If we can go to 6, page 668, please. And, again, 21 there's some further questions here that you ask 22 about. I think the evidence was that, at the time 23 of the preliminary hearing, Ron Wilson was in 24 jail, in fact, he was brought in from custody. 25 was in jail in Regina at the first time Inspector

Α

Riddell interviewed him, I think he got out of jail in early May '69 then went back into jail

August 15th on some other charges, and I believe he was in Fort Saskatchewan or somewhere in Alberta, if I'm not mistaken. And so here you question him about, when he was in the Regina jail, getting advice, street lawyers, etcetera.

Can you tell us Mr. Tallis, at

that time, what was your experience or what was your sense of people who were in prison testifying in criminal proceedings; was there some -- can you give us some background of what you might have been thinking with respect to Mr. Wilson?

Well I'm sure that I had in my mind that an inmate testifying often is viewed as violating what I could call the 'code of silence', if I may use that term. I think that was generally well-known by people who were defending cases, so that when somebody became a 'snitch', to use the language that I sometimes heard used, questions were often raised within the institution and sometimes the consequences were pretty serious.

And so again with Mr. Wilson, knowing that he had been in jail when he was first interviewed, and now was in jail at the preliminary hearing -- and

1		I note, here, some questions about what he may
2		have discussed with other prisoners
3	A	Yes.
4	Q	what did you make of the fact that, number 1,
5		you would have known, I think you told us, that
6		Mr. Wilson or we've heard evidence anyway
7		was hanging around with a crowd that might have
8		been, not a bike gang, but possibly that type of
9		group, and secondly, that he was in jail; what did
10		you think about those facts and the fact that he
11		was here giving evidence against a friend?
12	A	Well, it was difficult to figure out the real
13		motive, if there was a real motive. I'm sure I,
14		you know, engaged in speculation, like many
15		lawyers would do in those circumstances.
16	Q	And then if we can go to the next page. And
17		again, here it questions
18	A	Now I should just add this. I probably was also
19		speculating or wondering whether he was, you know,
20		seeking favours from law enforcement people, but
21		even then that is to some extent quite
22		inconsistent with the 'code of silence', if I may
23		use that term to convey the notion I'm trying to
24		convey.
25	Q	So when you talk 'favours', in other words

1		favourable sentencing
2	A	Yeah.
3	Q	or favourable imprisonment terms, is that
4	A	Yeah, a good word on sentencing, and so on. You
5		can't rule when you are speculating I certainly
6		wouldn't rule anything like that out.
7	Q	And had you encountered occasions where witnesses
8		might stretch evidence or fabricate evidence with
9		the hope of getting something in return on a
10		different matter, for example?
11	A	Yes, I had seen instances of that.
12	Q	If we can go to the bottom of here we talk
13		about or you ask him that Mr. Walters, who was a
14		Regina police officer, visited him in Regina, and
15		this was about the first interview back in March,
16		and no recollection of what I told him. Then the
17		next page, and here you get into the first
18		statement:
19		"Q But in any event, I think we can agree,
20		you certainly didn't suggest to him at
21		that time that David had anything to do
22		with this tragedy in Saskatoon?
23		A No, I didn't.
24		Q As a matter of fact, anything you said
25		at that time would tend to negative any
		4

		•
1		participation on his part in this thing?
2		A Yes.
3		Q You can remember that much about your
4		interview?
5		A Yes."
6		Quite sober, yes. And so would you, here, be
7		trying to establish the circumstances under which
8		he gave the first statement in the event that you
9		might use that at trial?
10	А	Yes, or at least use the information,
11	Q	Now if we can go to the next page
12	А	as distinct from the statement.
13	Q	And here we get into the statement:
14		"Q And when Mr. Riddell came to see you,
15		you still hadn't been told that you were
16		a suspect?
17		A No.
18		Q This was before you were a suspect. And
19		did any other policemen come to see you,
20		apart from these two gentlemen, before
21		you were told that you were a suspect?
22		A Well, they told me I was a suspect
23		after they had gotten the statement."
24		And then, the next page, he goes on to say that
25		he was told that by Riddell. So, again, this

1		would be probing to try and find out what
2		happened when he gave the first statement?
3	A	Yes.
4	Q	Go to page 007675. So here at 170, and again
5		talking about the statement:
6		"Q What did you say on that occasion?
7		A All I said then, that Dave had nothing
8		to do with it.
9		Q I see. In other words, you told them
10		that David had nothing to do with it and
11		I suppose by the same token, you said
12		that nobody else in the car had anything
13		to do with it?
14		A Yes."
15		And again, and I think we maybe see this at
16		trial, would one approach be to try and get in
17		front of the jury, without putting the statement
18		there, the fact that initially, when he talked to
19		the police, he didn't implicate David?
20	A	That's correct.
21	Q	And so they would at least know that at one point
22		in time he did not implicate him, but I take it
23		what you are saying is that you tried to do that
24		without getting the statement in; is that fair?
25	A	Yes, get the substance of portions of the

1		statement, in effect, before treating it as an
2		oral statement where certain acknowledgements he
3		made to the inquiring officer were before the
4		jury.
5	Q	Then if we can go to 007680, you question him
6		about the polygraph test, and I take it at the
7		preliminary hearing you would be less concerned
8		about this information coming out before the Court
9		because there is no jury there; is that fair?
10	A	That that's right.
11	Q	And would it be correct to say that the
12		preliminary hearing would be your opportunity to
13		find out, to the extent that you could, what
14		happened and what gave rise to his statements?
15	A	That's quite correct.
16	Q	Then 007687. Just at the bottom, there is a
17		reference to he and Nichol being together, and
18		we've already been through this with other
19		witnesses. I think you then also go through and
20		question him about, I think in some detail, when
21		he gave this statement, who he met with, when he
22		gave the second statement, etcetera, and that
23		would be to try and establish what happened to see
24		how you might use that at trial?
25	A	To, yes, get
		4

		Page 24243 —————
1	Q	Backing?
2	А	further assessment of the circumstances under
3		which he changed his mind.
4	Q	If we can go to 007691, and here you actually get
5		into the questions that he was asked, and he says:
6		"A One question he said I had lied on."
7		And you talk about when you went in there you
8		were going to tell the truth:
9		"Q And did you find it a bit upsetting,
10		after having tried to tell the truth,
11		that he should make this allegation
12		against you that you weren't telling the
13		truth?
14		A This certain question, I knew I had
15		lied about to start with."
16		And I think that might be the virtue question
17		that you had referred to?
18	А	I rather suspect so.
19	Q	And then the next page he says:
20		"Q Was there only one question that you
21		lied about to him?
22		A Yes, I think so."
23		And then he says:
24		"A No, there was two.",
25		and then goes on.
	1	•

1		Were you able to tell, from
2		your examination of Mr. Wilson, just what he was
3		asked and what he passed and what he failed in
4		the polygraph?
5	А	No, I wasn't. And that goes back to Mr. Roberts
6		and why I was wanting to talk to him and find out,
7		with some precision, as to what had been said and
8		done.
9	Q	And then again 007699. Again, just for the
10		record, you had mentioned the other day about
11		learning of a conspiracy to commit fraud that he
12		had been involved in, and identified, and I think
13		you told us you had learned that it wasn't David
14		Milgaard and that's why you put it to him; is that
15		correct?
16	A	Yes, I felt safe in putting that question, and I
17		wanted to be able to establish that David Milgaard
18		was not involved in any conspiracy with him in
19		light of the charges that were mentioned.
20	Q	If we can go to 007704. And we deal with the
21		toque here, and you will recall that the physical
22		evidence the Crown had, they had a blue toque
23		found in the house next door to the Cadrain house,
24		a woman by the name of Helen Gerse, and there was
25		a substance on it that appeared to be blood but I
		Meyer CompuCourt Reporting

1 don't think the lab, they weren't able to type it, 2 and I think they confirmed that it was blood but I 3 stand to be corrected. In any event, you questioned Mr. Wilson here about the toque that 4 5 David was wearing, and he describes it as: 6 "0 White, green, and brown. And that's the toque that he was wearing on the morning 8 in question? 9 Α Yes." 10 And so would that be an effort to try and use Mr. 11 Wilson to exclude the toque as belonging to David 12 Milgaard, the blue toque? 13 Α Yes. 14 Without having to call David Milgaard to state 15 that, I take it? 16 Yes. Α 17 Go to 007718. And, again, this is where you start 0 18 to question, and I think you spend a bit of time 19 with Mr. Wilson at the preliminary hearing -- I 20 won't go through it all -- but trying to pin him 21 down exactly where it was that they stopped the 22 woman for directions and where they got stuck; is 23 that correct, that you would be --24 Α I was endeavouring to at that stage. 25 I think, as well, you then questioned him -- and I Q

1		won't go through it but as well about police
2		officers driving him around in the area, you do
3		the same thing with Nichol John; what would be the
4		purpose in establishing that evidence or getting
5		that evidence?
6	A	Well, primarily to consider the circumstances
7		under which the damaging testimony against David
8		emerged, and whether or not he really knew or
9		whether or not certain things had been suggested
10		to him.
11	Q	So the purpose there would be to say the reason
12		you can now say you were in the vicinity is
13		because the police drove you there?
14	A	Yes.
15	Q	And influenced your thinking?
16	A	That was the potential there, that his thinking
17		had been affected.
18	Q	Then go to 007721, and at question 667 you have
19		him confirm that it was definitely on a street
20		that they were stuck, not in a back alley, and
21		then on the next page you go on and have him
22		confirm that he was never in the alley where Gail
23		Miller's body was found. 675:
24		"Q Well, you know that one that I'm talking
25		about"

1 Or let me back up. 2 And from driving over that area --" 3 Which is with the police, "-- I take it you are quite satisfied 4 5 that you were never at any time stuck in the alley? 6 Not in that particular alley." Α 8 It refers to Gail Miller: 9 "Q And you're quite satisfied that your car 10 was never stuck in that alley? 11 Α No, it wasn't. 12 0 Either in the north and south lane or 13 the east and west lane? 14 Α No. 15 And I take it that your position is that 0 16 you have never driven your car through 17 either of those alleys? 18 Α No, I haven't." 19 And again, at this time, Mr. Tallis, there was 20 the evidence of Henry Diewold, the St. Mary's 21 church caretaker, who said he observed a car in 22 the east-west alley at the T intersection near 23 where Gail Miller's body was found. Do you 24 recall that being evidence that was tendered and

25

the suggestion that that was the vehicle that

1		David Milgaard was in?
2	А	Yes, and I certainly was aware of that testimony
3		before the, or the likely testimony on that point
4		before the preliminary hearing and this was part
5		of my preparation.
6	Q	Okay. And so I take it here, and I may be stating
7		the obvious, that at the prelim that you would
8		seek to pin down and confirm that Mr. Wilson had
9		never been in that alley with his vehicle?
10	A	Yes, that's the way I read it, just as you have.
11	Q	And as well I take it at this time, and I don't
12		know if Nichol John had testified yet, but
13		certainly in her statement she had said that her
14		vehicle was stuck on the incline in the back alley
15		behind the funeral home, and would that be
16		something that you were aware of?
17	A	Yes.
18	Q	And then 007728, just on this point at 741, you
19		have him confirm that:
20		" where you got stuck there wasn't
21		any Funeral Home?
22		A I don't know.
23		Q Well, you didn't see any Funeral Home?
24		A No. I wasn't looking for one
25		actually.

1		Q No, and I appreciate that, but having
2		gone back and looking over the place,
3		you have no recollection with
4		associating the place where you got
5		stuck with a Funeral Home?
6		A No."
7		So again, I take it that would be the same
8		purpose as the earlier questions?
9	А	That's correct.
10	Q	Then 007731, and here's where we're dealing with
11		again about where they got stuck right after
12		asking the woman for directions, and this is the
13		reference at 770:
14		"Q Well, what I'm getting at is, did you
15		spin them enough so they would leave
16		clear marks in the snow?
17		A Yes."
18		And again I think you've told us about that, that
19		you would then try to use this evidence with the
20		other officer's evidence of observations in the
21		area and the fact that no marks or spin marks
22		were found in the snow; is that correct?
23	А	That's correct.
24	Q	Then if we can go ahead to 007734, and here you
25		are questioning him about how far he walked when
		1

1		he left the vehicle, and you had already asked him
2		about his clothing and here's where you say:
3		"Q How far did you walk?
4		A Maybe two and a half blocks."
5		Is that one way or is it a total.
6		"A One way."
7		So two and a half blocks there, two back, you say
8		five blocks.
9		"Q So you walked not more than five blocks?
10		A No."
11		Down the same street? Yeah. So again, would
12		this be trying to pin down how far he would have
13		walked to try and give you some sense of how long
14		he was away from the vehicle?
15	A	Yes. This was focusing on of course the distance
16		he walked, but also on the time factor.
17	Q	And if we can go to the next page at 812, you say:
18		"Q I see. So that actually you were away
19		for just a few minutes then?
20		A About five minutes.
21		Q About five minutes. And then you
22		returned to the car?
23		A Yes, I did.
24		Q And did you run because of the cold?
25		A Kind of trotted because my feet were
	ř	<b>·</b>

1		getting cold."
2		And I take it that if he was running, that would
3		shorten the time to go two and a half blocks?
4	А	Yes.
5	Q	So then he says, if we can scroll down, at 817, so
6		he said he's been away for about five minutes and
7		you say:
8		"Q And now as I understand it, David came
9		back, according to you, shortly after
10		you got there?
11		A Yes.
12		Q And that would be when we say shortly
13		after, how many minutes would you say?
14		A No more than five minutes after I got
15		back."
16		So again, it appears here that you have him
17		saying he was away for about five minutes and
18		then when he got back no more than five minutes
19		before David got back; is that fair?
20	А	Yes.
21	Q	So his first statement was 15 minutes that David
22		was away, here he's down to about 10 minutes.
23		Were you trying to get him to two minutes?
24	А	Well, I'm trying to get him to a short time frame.
25		I couldn't say two minutes or three minutes, but a $lacktree$

1		very short period of time in light of what David
2		had told me.
3	Q	So with this evidence and how he stated it, were
4		you still, would you still have been of the view
5		that this was inconsistent with what David
6		Milgaard had told you about the length that he was
7		away from the car?
8	A	Well, I certainly felt it was longer than what
9		David had indicated to me, but, you know,
10		assessment of time can be a difficult matter for
11		some witnesses, but I certainly wanted to pin down
12		the time as being a short period of time and to
13		pin it down as much as I could into minutes.
14	Q	And would the fact that it was 40 below that
15		morning, and I won't bring the questions up, but I
16		think you referred to, questioned them about their
17		clothing to suggest that if they were gone for 10
18		or 15 minutes, that without proper clothing, that
19		they would freeze or have frost bite?
20	A	Well, that's right, it was a bitterly cold
21		morning, as I recall the evidence, and that was
22		certainly consistent with my recollection,
23		personal recollections since I was living in
24		Saskatoon at the time.
25	Q	If we can go to 007762 and here you are
20	~	are and go to out to and nere you are

questioning him, you say:

"Q I take it that you didn't know anything about a murder of a girl in Saskatoon on January 31st, 1969 until the policeman told you about it?

A That's right."

Ken Walters, and then the next page:

"Q So that when you told Mr. Riddell that all during the trip there was never any mention about the murder of a girl in Saskatoon, in fact, I didn't even know about this murder until the police told me today, you were telling him the truth, were you?

A Yes."

Now, if I can pause there, we know from Ron Wilson's statement that he gave, that on May 23rd, or at least in the May 24th statement he says that after he got back in the car Nichol told him that David had grabbed a girl and stabbed her and that the next day Ron Wilson in his statement said David told him that he had jabbed a girl and threw her purse in the garbage can. So again, would that -- how did you rationalize that with the fact that here he's

1		saying l	ookit, I didn't know about the murder
2		until Mr	. Riddell told me?
3	Α	Well, I	wanted to once again pin him down to this
4		version	and
5	Q	Maybe if	I can just scroll down, I think maybe
6		here's t	he he literally you are talking
7		about Ri	ddell, was friendly and courteous.
8		"Q	He literally let you tell your own
9			story?
10		A	Yes.
11		Q	And you weren't cross-examined on
12			answers and so on by him?
13		A	I was every once in a while."
14		And then	:
15		"Q	But to the best of your ability at that
16			time, you told him the truth, didn't
17			you?
18		A	No, I didn't.
19		Q	You didn't tell him the truth?
20		A	No.
21		Q	Just part of the truth?
22		A	Yes."
23		Next pag	e:
24		"Q	And the part that I have referred to
25			here was the truth?

		Page 24255 —————
1		A Yes.
2		Q But you didn't tell him the complete
3		truth, you say?
4		A No, I didn't."
5		And again, would this be something, was this the
6		type of answers that you were concerned about?
7	А	Yes, and I was concerned, but I also wanted to pin
8		him down as much as I could.
9	Q	And so at the preliminary hearing would you be
10		prepared to get into areas with him that you might
11		not at trial?
12	А	Yes.
13	Q	Go to page 007769, you questioned here, and you do
14		the same with Nichol John about their use of LSD
15		and hallucinations?
16	А	Yes.
17	Q	And there's a bit of a cross-examination there.
18		What was your purpose in that?
19	A	Well, this was during this of course was quite
20		some time, this was after the homicide, and I
21		certainly wanted to raise this as, on the issue of
22		reliability of recollection in addition to
23		credibility. I viewed reliability and credibility
24		as possibly different things, or different
25		concepts, and in this particular case I was
	1	<b>4</b>

1		probing to see whether or not, as an alternative,
2		his recollection could be faulty because of the
3		use of drugs on some of these trips.
4	Q	I think you told us a day or two ago, and please
5		correct me if I'm wrong, that this issue of drug
6		use was a double-edged sword or something like
7		that?
8	A	Yes.
9	Q	Cuts both ways?
10	А	Yes.
11	Q	Can you explain that in connection with this
12		evidence? Let me phrase it this way. Was there a
13		concern or risk you saw in bringing out evidence
14		that Ron Wilson and/or Nichol John were taking LSD
15		and hallucinating after the events of January 31,
16		1969?
17	А	Yes, that was a risky area.
18	Q	And what were some of the risks or what was
19	А	Well, for one thing, that kind of association
20		would be visited upon David in the minds of people
21		and in this particular case one had to, at least
22		in my judgment, one had to make sure that there
23		was no suggestion that they were under the
24		influence, and particularly David, during the trip
25		from Regina to Saskatoon and then when they left,

1		because if I recall it, that became a question
2		that was raised early in the trial by I think the
3		jury, and I believe the judge may have asked
4		several questions on that too as a result of that.
5	Q	Yeah. In fact, during the course of Ron Wilson's
6		evidence, and we'll see that this afternoon
7	А	Yeah, I'm just speaking now from vague
8		recollection, and I'm sorry for jumping ahead of
9		you.
10	Q	No, no. So just on the drug issue, I take it one
11		approach would be that if you could discredit
12		Wilson and John, that perhaps their LSD or drug
13		taking and their hallucinations might lessen their
14		credibility and therefore their recollections
15		might not be as good?
16	A	Yeah.
17	Q	That would be helpful to David's case?
18	A	Yes.
19	Q	And the damaging effect, I think you indicated,
20		was that the jury might associate their drug use
21		with David, and I think your concern was the day
22		of the events of January 30, 31, if the jury felt,
23		notwithstanding the evidence of no drug use, that
24		there may have been drug use, that that would be
25		damaging to David's case?

A Yes. I really wanted to maintain what I understood to be sobriety during that significant period.

MR. HODSON: Okay. This is probably an appropriate spot to break.

Q

Afternoon, Mr. Tallis. If I could call up 005172. We'll now deal with the trial transcript of Ron Wilson, and I apologize, this version of the transcript is not as legible as some of the others. Go to page 005179. And this is where Mr. Caldwell is questioning about the knife, and there is a number of spots in here, in fact in general in looking at the trial transcript it appears that Chief Justice Bence, on many occasions, would interject with questions; would that be -- again, the transcript speaks for itself, but would you have a recollection of Chief Justice Bence participating in the questions a fair bit? Yes. I would say -- well of course the transcript, in my view, reflects that, and I certainly have a recollection of that. And here is where Mr. Caldwell asks again, we'll

1 maybe call that out, about the knife. And he says I saw a knife, and the Court says wait a minute, 2 3 you saw a knife in the car, saw it, how would you 4 describe the knife, etcetera. And then the next 5 page, and then he describes it as a reddish brown handle, and sort of a paring knife type: 6 7 Now, had there been any knife of that 8 sort in your car to your knowledge when 9 you started out? 10 Α No." And I wondered, from that, if there was an 11 12 implication that it was obtained from the 13 elevator in the break-in; do you recall that 14 being an issue? 15 I don't, I'm trying to just recall, I don't recall Α 16 anything of that now. I mean I knew what David 17 had told, I mean I've told you what David had told 18 me, but just from looking at that now, I assume 19 that that's what Mr. Caldwell was probably 20 focusing on. 21 If we can go to 005192, please. And I won't go Q 22 through the earlier question and answer but he is 23 -- we've gone through it before -- Mr. Caldwell is 24 questioning him about when they got stuck and when

they left the vehicle. And here he asks:

1		"Q how far did you go when you went
2		away on foot?
3		A I didn't go any more than five blocks.
4		Q And did you find anything in the way of
5		help of some sort?
6		A No, I didn't."
7		And I'll take you, we'll go a bit later to where
8		you cross-examine on this, but what was your
9		initial reaction when you heard this evidence,
10		Mr. Tallis, having known that at the preliminary
11		hearing he told you 2 1/2 blocks?
12	А	Well I'm sure that I noted in my brief book that
13		and bearing in mind that I had not only an
14		index of the witness' evidence at the preliminary,
15		but I had a trial brief including a draft
16		cross-examination of him there, I'm sure that I
17		immediately realized that he was, if I may use the
18		term, "improving" that is in quotation marks
19		on his testimony.
20	Q	Perhaps if we could just go to, you talked about
21		your summary, if we could call up 179451. And we
22		looked at these earlier. I think this, you told
23		us, is your summary that you prepared from
24	А	Yes.
25	Q	the preliminary hearing. If we can go to page

1		179453. And, again, these are parts from the
2		preliminary hearing transcript, is this your
3		handwriting by line 96? I think it says
4	А	I'm quite sure it is.
5	Q	And, as well, by line 99?
6	А	Yes.
7	Q	Can you tell us what that says?
8	A	I can't. I think the second word is "house" but
9		I'm not sure of the first word now.
10	Q	Okay. And then "only knife"?
11	А	I think "only 1 knife", I think there is a 1 in
12		there.
13	Q	And then 179474. Here is where we see "he went up
14		a couple of blocks" and then "NB"; would that be
15		your writing, the NB?
16	А	The NB is certainly mine.
17	Q	And so
18	А	And the tick mark, I think, is mine too.
19	Q	And so this would be where you had summarized his
20		evidence about going up a couple of blocks?
21	А	Yes, and I noticed that it is highlighted, and my
22		copy probably was underlined in red because some
23		portions I would underline in red, as distinct
24		from blue, and just not that I recall it being
25		underlined in red but it's one of the things that
		<b>A</b>

1		might well have been. And as I recall it I
2		some of those crucial areas like that, when I
3		prepared the brief for cross-examination I not
4		only had my draft question, but below the draft
5		question I would have incorporated into the brief
6		the actual text of what he said at the preliminary
7		hearing with a reference to the page and question
8		number. Now I've gone through that with you
9		before
10	Q	Right.
11	A	and I'm I'll try not to unnecessarily repeat
12		that procedure when you are asking me questions.
13	Q	I think you have told us that would be that you
14		could quickly put that to a witness if the witness
15		strayed from what he or she had told you at the
16		preliminary hearing?
17	А	That was the reason for that kind of preparation.
18	Q	And if you go to 179291, which is the remainder of
19		this summary, and this picks up at page 6 and,
20		again, this is the Ron Wilson summary if you
21		can go to 179335, please, and this is right at the
22		very end of your notes
23	A	Yes.
24	Q	on is that your handwriting?
25	А	Yes, I'm quite sure it is.

		1 ago 2 1200
1	Q	Maybe we could just quickly go through that. I
2		think it says "Cadrain - long hair"; is that
3		correct?
4	A	Yes, I think that's correct.
5	Q	Then could you just carry on and tell us what the
6		rest is?
7	A	"Query re knife". These are obviously some
8		thoughts that I jotted down. "Only one knife in
9		car that he saw between Regina and Saskatoon", and
10		then "where did you go looking for Shorty's
11		girlfriend? Was he directing you? Were you
12		picked up for questioning by RCMP to see if car is
13		stolen, or if you"
14	Q	I think this may relate to
15	А	"or if you were supposed to leave province
16		since you were on bail".
17	Q	I think that relates to an incident in Banff, yes.
18	А	Yeah. And then "did you drop Shorty and Nicky off
19		at a dope purchase place", and "where were blood
20		samples taken? Did Shorty have long hair at that
21		time to his shoulders?" Now those are notes that
22		I obviously put on there after that was typed up
23		and, while I don't recall writing them, I rather
24		think they were additional references that I
25		worked up when I was preparing my trial brief.
		•

		Page 24204 —————————————————————————————————
1	Q	Okay.
2	A	But I can't be sure of that, but
3	Q	Sure.
4	Α	I certainly know that I had been looking over
5		certain aspects, because there are actual
6		references to question numbers there in the
7		right-hand column.
8	Q	Okay. If we could go back to 005172. Again, this
9		is the transcript if we can go to 005194
10		again, this is Mr. Wilson being examined by Mr.
11		Caldwell, and here he is asked a question about
12		what time they got stuck, and this would be right
13		after stopping the woman for directions. He says:
14		"A I think approximately it would be around
15		six thirty."
16		on the morning of January 31. Based on what
17		David Milgaard had told you were you in a
18		position to dispute the time that this witness,
19		at least, suggested they got stuck?
20	А	It had I'd have to say that, just trying to
21		recollect from what he said, he really wasn't that
22		sure of the time, but I knew it was in the early
23		morning, and I think it would be fair to say it
24		was probably in that neighbourhood in terms of
25		time.
	ii	

1	Q	I think at the, in his direction to the jury or in
2		the charge to the jury Chief Justice Bence, I
3		think, put it at 6:45 to 7:10, in that time frame,
4		that their vehicle would have been somewhere or
5		wherever they were was at that time period; is
6		that correct?
7	A	Yes.
8	Q	And would that be roughly in accord with what you
9		ascertained from what David told you and what you
10		gleaned from other information?
11	А	Yes, I and part of it would be gleaned from,
12		you know, what had transpired at the trial.
13	Q	Okay. If we can go to the next page, please,
14		again Mr. Caldwell asks about when he got into the
15		car, he says that Nichol was screaming:
16		"Q And what was the next thing that
17		happened?"
18		And then:
19		"A Yes, Dave came later on.
20		Q And which part did he come into?"
21		And then here's the question:
22		"Q Now how much time would you estimate had
23		elapsed between you parting company with
24		David when the both of you went for help
25		and the time when he got back in the

1

car?

2 Around fifteen minutes." 3 just to recap, in his statement of May 23rd, '69 he said that David was away from the car for 4 5 about 15 minutes; at the preliminary hearing he said that -- Wilson said he went 2 1/2 blocks one 6 way, 2 1/2 blocks back, took about five minutes, 8 and then he said David got back to the car about 9 five minutes later. So here at the trial, now, 10 he is saying he went five blocks out, five blocks 11 back, and that David was gone about 15 minutes in 12 total; is that a fair summary of his evidence? 13 Α Yes, I believe so. I haven't read it over as 14 carefully as you but I certainly accept that. 15 And so here he has added, it appears, five 0 16 minutes from what he said at the preliminary 17 hearing, in addition to five blocks in total; is that fair? 18 19 Α That's right, both additional time and additional 20 blocks, which I suppose can be rolled together. 21 And then the next page -- actually, sorry, just at Q 22 the bottom of that page the judge interjects and 23 says: 24 "... you didn't go any more than five 25 blocks on your walk?

		——————————————————————————————————————
		<b>C</b>
1	A	Yes.
2	Q	Did you go five blocks?
3	A	I'm not sure if I went five blocks.
4	Q	What's your best estimate then of how
5		far you went?
6	A	Possibly four.
7	Q	Would it be four for sure?
8	A	For sure would be four.
9	Q	And were they ordinary city blocks?
10	A	Yes, they were.
11	Q	And you turned around and you came back
12		and walked the four blocks back?
13	A	Yes.
14	Q	And how long were you in the car before
15		the accused Milgaard turned up?
16	А	Five to six minutes."
17	And so as	gain it appears that when the judge
18	questione	ed him he went back to four for sure, and
19	then sim:	ilar to what he said at the preliminary
20	hearing,	that he was in the car for five, he says
21	five or s	six minutes before David got back. So,
22	again, j	ust bear that in mind for when we go to
23	your cros	ss-examination.
24		If we can go to page 005201

actually, I'm sorry, this is a break, this is

1		still, he's still in examination-in-chief, but
2		here are some questions that the judge asks about
3		the lady on the street. And he says:
4		"Q Were you able to see her face?"
5		And scroll down, please:
6		"A No, I wasn't.
7		Q You're not able to say then - there is
8		nothing that you saw which would
9		indicate to you in any way how old a
10		woman she was?
11		A No.
12		Q I see; was there anything to indicate
13		how tall she was?
14		A No."
15		So, again, it appears the judge elicited from Mr.
16		Wilson the fact that he couldn't see the woman's
17		face and nothing to say how old she was; is that
18		correct?
19	A	That's correct.
20	Q	And would you have had concerns asking those types
21		of questions?
22	A	Well, they were not the type of question that I
23		would ask, for obvious reasons.
24	Q	Then to 005213, again here's where Mr. Wilson,
25		this is still examination-in-chief, describes the
		1

1 blood on David's clothes, he says: 2 "I imagine it wouldn't be any more than 3 an inch and a half or two." And would that be consistent with 4 In diameter. 5 what Mr. Cadrain had said about the blood he saw? I think Cadrain had used splotch or 6 Α Yes. something like that, but as I recall it, he said in his testimony something about a dimension 8 9 similar to that. 10 If we can then go ahead to 005225, and again this is still Mr. Caldwell, they are talking about 11 12 driving when they left Saskatoon, and you rise and 13 say: "My Lord, my learned friend is entering 14 15 into an area now where I think there are 16 one or two things that should be 17 discussed in the absence of the jury." 18 The jury retires, and then the next page, and 19 then we won't go through all of this, it's in the 20 record, but here's where you raise, you say you 21 anticipate that he's going to go into areas of 22 "so-called bad driving on the part of the 23 accused." Can you tell us, what was your concern 24 about that evidence going in? 25 Α Now, this is the bad driving after they left

1		Saskatoon?
2	Q	Yes.
3	A	Well, my concern was that that would dovetail with
4		the Crown argument or theory that this was
5		evidence of flight or consciousness of guilt that
6		was rolled up with the notion that he was getting
7		out of town as quickly as possible.
8	Q	And then if we can just scroll down a bit, please,
9		I think here you talk about the fact that there's
10		other evidence suggesting that they were not in a
11		hurry, and you say, yeah, I think the evidence
12		will show there was no rush to leave Cadrain's or
13		anything like that but such evidence is of very
14		little if any probative value and yet in front of
15		a jury in this type of case it might be highly
16		prejudicial, and then you talk here about bearing
17		in mind the authorities which I know Your Lordship
18		is familiar with. Would you have filed those
19		authorities with him?
20	A	When I read that, I'm sure that that's an
21		indication that I had filed a list of cases or
22		authorities and I'm sure that in accordance with
23		the usual practice I would have given Mr.,
24		probably given Mr. Caldwell a copy.
25	Q	Then if we can go to 005229, I don't think I need

1 to read through the argument, but here the judge 2 says: "... under all the circumstances the 3 evidence would be such that it would be 4 5 just as consistent if not more so with the desire of a person just to get 6 behind a wheel and drive fast; and I 8 think it might prejudice the jury, Mr. 9 Caldwell - it might possibly be 10 prejudicial to the jury and wouldn't be of sufficient probative force to allow 11 12 me to admit it." 13 So again this appears to be where that evidence was ruled to be admissible; is that correct? 14 15 Yes. Α 16 And again I won't bother bringing up the Q 17 transcript, but again he gives similar evidence 18 about the compact, similar evidence about his 19 discussion with David Milgaard in Calgary. 20 If we can go ahead to 005247 --21 actually, sorry, to 005249. I apologize, again 22 this isn't a good copy, but I think we can 23 decipher the words. So this is where you start 24 your cross-examination, and I think you start off

with the question of how far you walked:

		1 age 2-212
1		"Q And then I think you told My Lord the
2		Chief Justice that you were satisfied
3		that it was at least four?
4		A Yes.
5		Q Now, Witness, I suggest to you that in
6		fact you"
7		I'm sorry, I can't
8	А	I think "did not" I believe.
9	Q	" did not walk any more than two to
10		two and a half blocks and then came back
11		to the car, is that not correct?
12		A It's not.
13		Q So today your position is that you
14		walked at least four blocks and probably
15		five?"
16		And then go to the next page, and here's where
17		you then direct him to the evidence of the
18		preliminary hearing; is that correct?
19	A	Yes.
20	Q	And so you would be going to him saying you
21		testified under oath at an earlier time and at
22		that time you said two and a half blocks and now
23		you've changed; is that fair?
24	A	Yes, that was the gist of it.
25	Q	And then if we can go to the next page, the

1		bottom, you ask:
2		"Q Is it fair to say that you were given
3		plenty of time to answer the questions
4		that were put to you?
5		A Yes."
6		And I think that's referring to the preliminary
7		hearing?
8	А	Yes, that refers to the questions and answers with
9		respect to what he said at the preliminary hearing
10		about the time and the distance I believe.
11	Q	And then go to 005253, please, and you actually go
12		through the questions again with him and you say:
13		"Q Why do you choose to double it under
14		oath on this occasion?"
15		Actually, go back to the previous page, and you
16		say, you now say it was five blocks instead of
17		two and a half, you choose to double it under
18		oath, and then the next page he says:
19		"A Because since the preliminary I have
20		been thinking about it a lot.
21		Q I see; you've been thinking about it a
22		lot?
23		A Yes.
24		Q And of course you thought about it
25		before?
	ıl	

		1 age 24214
1	A	Not that much.
2	Q	I see; you had been interviewed on many
3		occasions?
4	A	Yes.
5	Q	So it wasn't just like coming into court
6		cold, was it?
7	А	No.
8	Q	No, you had seen any number of people
9		and talked to them prior to the
10		preliminary hearing?
11	A	Yes.
12	Q	Many police officers?
13	A	Yes.
14	Q	So it wasn't a question of coming in
15		without thinking about it?"
16	And agair	n just scroll down, and again you put the
17	question	to him about how long he was away, five
18	minutes,	and then the next page, again we'll just
19	touch on	these, again you put that to him where
20	you asked	d the question and he gives the answer
21	yes, and	then on the next page, you say here:
22	"Q	And is it fair to say that David came
23		back to the car just a few minutes after
24		you returned?
25	A	Yes.
		1

And would it be fair to say that that 1 0 2 would be not more than five minutes 3 after you got back? Not more than five or six minutes." 4 Α 5 And then you refer to the five minutes at the preliminary hearing. Were you concerned, in 6 examining Mr. Wilson about -- I think you said 8 that he had improved his evidence between the 9 preliminary hearing and the trial by adding 10 blocks and time. Were you concerned that he 11 might say something to the effect that at the 12 preliminary hearing I was trying to help my 13 friend, or words of that nature? Was that a 14 concern? 15 That's an area that I was trying to avoid Α 16 eliciting because, as I've told you, this to me 17 was just further indication of how treacherous he could be. 18 19 And again we touched on this earlier, I take it 20 that based on what Mr. Milgaard had told you by 21 way of instructions and the facts, that you were 22 not in a position to say to Mr. Wilson that he was 23 making up this getting stuck and leaving the car 24 business?

25

Α

1		you, but certainly the time factor and distance
2		that this witness walked were.
3	Q	And 005265, again this is similar to the prelim,
4		you asked him about the toque, a mixture of green
5		brown and white, and he says yes, so that would be
6		to get in front of the jury the fact that David
7		Milgaard's toque was not a blue toque, but rather
8		a green, brown and white toque; is that correct?
9	A	That's right.
10	Q	005266, you ask questions about what he was
11		wearing when he left the car and that he started
12		to freeze pretty fast, he could feel him being
13		frostbitten:
14		"Q Could you?
15		A Yes I did."
16		I think what you told us earlier is that
17		obviously with the weather at 40 below, that
18		might suggest that a person would be out a
19		shorter length rather than a longer length of
20		time; is that fair?
21	A	That's correct.
22	Q	005270, and you are questioning Mr. Wilson about
23		what he observed of David Milgaard when he
24		returned to the car after they got stuck and he
25		went looking for help. You say:

1 "О Well now, Witness, when David came back 2 to the car after the two of you had been 3 separated for this interval that we have 4 talked about, you've told us you didn't 5 see any blood." 6 That was an earlier question. 7 "Now, I take it that when he came back 8 into the car you didn't observe him 9 carrying anything in his hands? No I didn't. 10 Α And he got into the front seat with you 11 12 and Nichol John at the time? 13 Α Yes. 14 And in particular you didn't see him 0 15 with a wallet or anything like that? 16 Α No. 17 0 Or a compact case or anything of that 18 nature? 19 No." 20 And I take that this would be to counter the 21 suggestion that the compact thrown out after they 22 left Saskatoon had come from Gail Miller because 23 if it had, one might expect Mr. Wilson to have 24 seen Mr. Milgaard have that in his hand when he 25 returned to the car?

		, age 2 1270
1	A	Yes.
2	Q	And secondly, the same with the wallet, the Crown
3		theory was that it was thrown out near the Cadrain
4		house when Mr. Milgaard drove around the block.
5		Again, the fact that Mr. Wilson didn't see it on
6		his possession would allow you to argue that maybe
7		that didn't happen; is that fair?
8	А	That's correct. I just add this, as I told you
9		before, I don't specifically recall asking these
10		questions now and the mental processes I went
11		through in preparation or asking the questions,
12		but I'm quite sure that your assessment of it is a
13		reasonable assessment and it's one that I would
14		infer from reading over this material.
15	Q	Okay. Then if we can go to 005285, and again this
16		is some questions, and I think we went through all
17		of this with Ron Wilson, but you questioned him
18		about when he was considered a suspect and the
19		first statement, and so again:
20		"Q and accordingly you spent some time
21		talking to him about Saskatoon?
22		A About an hour.
23		Q Yes; on the morning in question on a
24		friendly basis?"
25		And then to the next page, and:
		Movey CompuCount Penerting

		3
1	"Q	you spent I believe approximately an
2		hour with Inspector Ruddell?
3	A	Yes.
4	Q	And as I understand it this discussion
5		took place approximately March the 3rd
6		1969?"
7	Which is	the date of the statement.
8	"Q	you were asked whether you knew
9		anything about this murder?
10	A	Yes.
11	Q	And you told Mr. Ruddell that you
12		certainly had nothing to hide?
13	A	That's right.
14	Q	In fact you were quite prepared to be
15		straightforward with him?
16	A	Yes.
17	Q	And I think it's fair to say that you
18		mentioned that David had left the coat
19		that he had been wearing at your
20		mother's place?
21	A	Yes.
22	Q	You told him where he could get the
23		coat?
24	A	Yes.
25	Q	Did you mention to him about the sweater
		1

1		of your dad's that he may have been
2		wearing?
3		A No, I didn't."
4		And was this to indicate that he was being
5		co-operative with the police in giving them
6		information relating to David?
7	A	Yes, and that his initial sort of description of
8		that aspect of it was the one that was more
9		believable than his testimony.
10	Q	And then the next page there's some questions
11		about, again this same visit about where your car
12		was located.
13		"Q As far as you knew?
14		A Yes.
15		Q he could go look at it if he wanted
16		to?
17		A Yes.
18		Q he might be interested in seeing the
19		interior of it?
20		A Yes."
21		And David's clothes, and I would take it at this
22		time, Mr. Tallis, you would be aware that
23		Mr. Wilson's vehicle had been checked by the
24		police and the RCMP lab and nothing was found in
25		there of any suspicious nature?
	1	•

			S .
1	A	That's c	orrect, yes.
2	Q	Then the	next page, here's where we get into your
3		question	ing regarding the first statement, you
4		say:	
5		"Q	And I suppose that it's fair to say that
6			when you were talking to Inspector
7			Ruddell on this occasion you told him
8			that nobody in your car had anything to
9			do with the terrible thing that happened
10			in Saskatoon?
11		А	That's right.
12		Q	And in particular you said that you
13			hadn't had anything to do with it?
14		А	Yes.
15		Q	And that David hadn't had anything to do
16			with it?
17		А	Yes.
18		Q	And as I understand it, you gave him as
19			best you could recollect particulars of
20			the various spots that you had been in
21			Saskatoon even though you couldn't
22			designate the name of the motel and so
23			forth?
24		А	I didn't give him everything."
25		Let me j	ust pause there. Was that an answer that
			1

		——————————————————————————————————————		
1		concerned you?		
2	Α	Undoubtedly it was.		
3	Q	And then if we can scroll down:		
4		"Q So after Mr. Ruddell left you were told		
5		I take it by someone that you were now a		
6		suspect?		
7		A Yes."		
8		And I think you told us when we were looking at		
9		the preliminary hearing that one strategy you had		
10		was that if Ron Wilson thought he was a suspect,		
11		that might explain why he would point the finger		
12		at his friend to avoid the finger being pointed		
13		at him; is that correct?		
14	А	Yes, I'm sure that was part of my speculation, or		
15		maybe even more than that.		
16	Q	Page 005292, a couple of areas here, you question		
17		him about being in the presence of Nichol John		
18		with police officers. What was your purpose in		
19		getting that evidence in front of the jury?		
20	A	Well, I think essentially for the same reason that		
21		we discussed a moment ago.		
22	Q	And next 005293, just a confirmation, and again		
23		this came up at the prelim, confirming:		
24		"Q that you never at any time drove		
25		your car down this east-west lane back		
	Ĭ			

of the funeral home at 1402 on 20th Street?

A No, I never did."

And I think it had already been put in evidence that it was Ron who was driving the vehicle when they got stuck?

A Yes.

And after. If we can then go to 005296, and again the proceedings broke for the day and this is the morning -- just give me a moment here -- I think this relates to the bad driving and the fact that it would not only preclude it being asked of Ron Wilson, but also Nichol John, but if you can go to 005298, and this is where the Court, the judge says:

"Well now, gentlemen, I have been asked by members of the jury to put certain questions to the witness on the stand; that's why I arranged to have him absent and I thought I had better mention them to you at this time because it seems to be in the interests of your client, Mr. Tallis, it might be better that I put them before you complete your cross-examination.

And those questions are:

/

Α

(1) Is there any evidence that any of the three of the parties in the car on the trip from Regina to Saskatoon was under the influence of alcohol or drugs?"

Let me just pause there. I think, Mr. Tallis, that those witnesses, I think that had already been covered with Mr. Wilson and as well Miss John, although I'm not sure if she was before or after Mr. Wilson. Do you recall whether you attached any significance at the time to the fact that the jury would be asking the judge to raise this issue again with Mr. Wilson?

Well, I think earlier in my testimony I mentioned to you that it occurred to me that they might have considered the evidence as involving sort of a frenzied attack resulting in the sexual assault and stabbing death of this girl, and once again I'm speculating, but I think some of the circumstances may have prompted some of them to decide that this is a question that they would like to pursue, have -- see pursued further.

And would it be fair to read into this that it

And would it be fair to read into this that it might be important to establish or re-establish

1		that there was not drug use amongst this group on
2		the morning in question?
3	A	I'm sure I thought so.
4	Q	And then as well:
5		"Another question is - there was
6		evidence that the dash light was not
7		operating and the question is:
8		(2) Was the interior light working in
9		the car?"
10		Next page:
11		"(3) What were the light conditions
12		which would enable the witness to have
13		seen the knife which he said was in the
14		possession of the accused - or on the
15		accused I think was the word he used?"
16		And would a fair reading of that be that maybe
17		the jury was having trouble with Mr. Wilson's
18		evidence that he said he saw a knife in the car
19		on the trip from Regina to Saskatoon?
20	A	Well, I'm sure I speculated about that, but, you
21		know, it's very difficult to say because the jury
22		deliberations are secret.
23	Q	Right. But again, as far as defence counsel, I
24		take it that when the jury comes back with
25		questions, you might try and interpret something
		Meyer CompuCourt Reporting

		in those questions and might tailor your future
2		questions to address those issues; is that fair?
3	A	Yes, I would say you pay very careful attention to
4		jury questions at any stage of the proceedings,
5		and at this particular stage, one would carefully
6		consider what questions might be put to, in
7		effect, answer that type of inquiry if it is a
8		proper question.
9	Q	And then the last two questions are four and five:
10		" $(4)$ How much time did the witness
11		spend in trying to move the car when the
12		car was stuck at that U-turn incident?
13		(5) How much time did the witness and
14		the accused together spend in trying to
15		free the car?"
10		
16		And I suppose that last one might be related to
		And I suppose that last one might be related to how long Mr. Wilson and Mr. Milgaard may have
16		
16 17		how long Mr. Wilson and Mr. Milgaard may have
16 17 18	A	how long Mr. Wilson and Mr. Milgaard may have been exposed to the elements that morning; is
16 17 18 19	A Q	how long Mr. Wilson and Mr. Milgaard may have been exposed to the elements that morning; is that a fair read of that?
16 17 18 19 20		how long Mr. Wilson and Mr. Milgaard may have been exposed to the elements that morning; is that a fair read of that?  I would think so.
16 17 18 19 20 21		how long Mr. Wilson and Mr. Milgaard may have been exposed to the elements that morning; is that a fair read of that?  I would think so.  And then I want to go down here to your, the judge
16 17 18 19 20 21 22		how long Mr. Wilson and Mr. Milgaard may have been exposed to the elements that morning; is that a fair read of that?  I would think so.  And then I want to go down here to your, the judge then asks, if you can scroll down, comments, and

1		if I may say so, because I wouldn't want
2		the witness wandering off into other
3		occasions, if you know what I mean."
4		And can you explain what you were referring to
5		there, please?
6	A	Well, I was thinking about earlier times in Regina
7		and later times in Alberta.
8	Q	And so you wanted to keep out the drug use outside
9		the relevant time frame when the murder took
10		place; is that fair?
11	А	That's correct.
12	Q	And then 005302 there's an exchange, I'm skipping
13		over parts of the exchange between you and the
14		Court and Mr. Caldwell on the drug issue, and then
15		you say:
16		"I think also, My Lord, in light of the
17		questions that the jury has asked Your
18		Lordship to pose to the witness - I
19		think probably it would be an
20		appropriate time for Your Lordship to
21		direct the jury - I don't think it was
22		said in so many words at the opening
23		that they are not to pay any attention
24		to things they may have heard about this
25		case through various sources. This case

1 has attracted a great deal of 2 attention." 3 And then down at the bottom: "Well, I think it should be said now, 4 5 secondly this preliminary hearing was not in camera and the new legislation 6 did not apply to it and I can tell you 8 frankly certain evidence was admitted 9 which I objected to and which Your 10 Lordship has now ruled to be inadmissible; and certain other evidence 11 12 went in which I objected to but which my 13 learned friend I think quite soundly did 14 not pursue because I think it is 15 inadmissible and not relevant to the 16 issue here." 17 And so again it would appear that you expressed a 18 concern about evidence at the preliminary hearing 19 that is now inadmissible at trial might be in the 20 public domain and be read by the jurors? 21 Α Well, they might have picked up information 22 through that source or others, and in light of the 23 questions, I certainly wanted the learned trial 24 judge to give a very emphatic direction on this.

And was it the drug use that was of concern to

25

Q

		, age 1 ,200
1		you, that type of evidence?
2	A	Yes, that was a particular concern because it was
3		the focal point of one of the questions, and as I
4		recall, the learned trial judge did give a
5		direction on this.
6	Q	Actually, 005304, scroll down, there's a direction
7		there that the trial judge asks the jury to:
8		" the fact that there was publication
9		of some of the preliminary inquiry
10		evidence; you are to entirely disregard
11		all of that"
12		And then if we can go ahead to 005306
13	А	I think he made clear that they could, should
14		disregard anything they heard over the radio or in
15		the press or anything like that.
16	Q	Yes, that's correct. And again here's where the
17		question is put by the Court, that the jury asked
18		of Mr. Wilson:
19		"Q During the course of that trip was there
20		anything to indicate to you that the
21		accused was under the influence of
22		either alcohol or drugs?
23		A No, there wasn't."
24		And then if you can skip ahead to 005318
25	A	And the witness gave the same answer with respect

1		to the condition of Nichol John and himself.
2	Q	Yes, yeah. I'm sorry, I should have read that.
3		So certainly he was asked about whether he had, or
4		whether he had observed Nichol John or David
5		Milgaard and the answer was no to each of those?
6	A	Yes.
7	Q	Now here's where you get into the May 22nd time
8		frame and you say:
9		"Q And right up until about May the 22nd or
10		May the 23rd you had always insisted
11		that nobody in your car including David
12		had anything to do with this incident?
13		A That's right.
14		Q And you had insisted that you had
15		nothing to hide?
16		A That's right.
17		Q And then not too long before you were
18		released from jail though, some blood
19		samples were taken from you?
20		A Yes."
21		And then hair samples, and again, you were trying
22		to put in the minds of the jury that he was a
23		suspect or thought he was a suspect?
24	A	Yes, and to perhaps point to a motive for changing
25		his position.

1	Q	And if we	e scroll down a little bit, we'll see you
2		actually	put that to him:
3		"Q	you realized you were still a
4			suspect at least to some extent?
5		A	Yes.
6		Q	And now you are up here and as I
7			understand it Nicky was here too?
8		А	Yes she was."
9		So this i	is May 22nd, 23rd. Next page, and you
10		ask him:	
11		"Q	And you and Nicky were together on
12			certain occasions with the police?
13		A	Yes we were, yes.
14		Q	And I believe you were together up at a
15			room in the Cavalier Hotel, was it, with
16			certain police officers?
17		A	Yes.
18		Q	Yes; and how many - these were fairly
19			lengthy sessions, weren't they, some of
20			them?
21		A	Yes they were.
22		Q	Maybe six hours?
23		A	Yes."
24		So again,	, along the same lines of establishing
25		that they	y spent a considerable amount of time
			4

1		with police officers prior to giving the
2		statements?
3	А	Yes.
4	Q	And then to page 005324, and I think in the middle
5		of your exam, or cross-examination of Mr. Wilson
6		on the subject matter of the treatment by police,
7		the judge says:
8		"Now what I was going to ask now may be
9		something that you were going to cover,
10		Mr. Tallis."
11		You say:
12		"Well, I won't interfere with Your
13		Lordship's questions unless I have an
14		objection, which I think I'm obliged to
15		take with deference if the need arises."
16		And then the following questions are from Chief
17		Justice Bence down at the bottom, and then he
18		says:
19		"And then when did you first tell the
20		police the story that you have told in
21		this courtroom"
22		And then:
23		"Q just a minute please - which tended
24		to implicate - now, implicate means to
25		bring the accused into the thing as a

1		possible culprit - when did you first
2		tell that to the police?"
3		Let me just pause there. I think you had told us
4		you were wanting to be quite careful with
5		Mr. Wilson in this area; is that correct?
6	А	Yes, well I didn't want to do anything to bring
7		about the introduction of the contents of the
8		statement by having it entered as an exhibit.
9	Q	And did you have some concern that the trial judge
10		was getting into areas that you might not want to
11		be delved into?
12	A	Oh, I have no doubt that I was concerned.
13	Q	And then again I think the answer here, he says
14		that:
15		"In Regina on approximately May 22nd
16		",
17		and then the rest of the page are his questions,
18		and the next page, which I think if we can skip
19		ahead to 005333. And we touched on this in the
20		prelim,
21	Α	Yes.
22	Q	again it looks as though, here, you are asking
23		Mr. Wilson about his LSD use and hallucinations,
24		that he hit it heavy in May of 1969, which is the
25		month he gave his incriminating statements. And
		Meyer CompuCourt Reporting —————
	(	Certified Professional Court Reporters serving P.A. Regina & Saskatoon since 1980

1		the hallucinations, and I think you've told us
2		that that would be to perhaps discredit his
3		recollection of events around that time, is that
4		fair?
5	A	Yes. And I think, having read it over in context
6		the way you have, I probably decided that I had to
7		pursue that aspect in light of the questions that
8		he had been asked by the presiding judge.
9	Q	If we can then go to 005341. And, again, this is
10		right after an adjournment and it looks like the
11		jury has come back with another series of
12		questions. Was it common, Mr. Tallis, for the
13		jury, in the course of questioning witnesses, to
14		provide questions to the judge to have put to
15		witnesses, or was this unusual?
16	А	No, I must say through the years it happened, in
17		cases that I was involved in, fairly frequently.
18		Not, certainly not in every case, but I can recall
19		several cases where there were far more questions
20		put than to the judge by the jury than in this
21		case.
22		COMMISSIONER MacCALLUM: Sir, and you are
23		speaking of during the course of not during
24		jury deliberations but, rather, during the course
25		of receiving evidence?

1	A	That's correct, My Lord.
2		COMMISSIONER MacCALLUM: Okay.
3	B	Y MR. HODSON:
4	Q	And again, it looks as though the judge raised
5		these with you, and you told us earlier that
6	A	Yes, that was the practice, when generally
7		speaking the practice, when questions had been
8		posed by the jury, usually they gave them to the
9		Sheriff or the attendant, they were passed on to
10		the judge, and then the usual practice was that in
11		the absence of the jury the judge would read the
12		questions to counsel and then deal with it.
13	Q	And I think you told us that you would pay a great
14		deal of attention to what the jury was asking to
15		get some insight into what they I don't think
16		these were your words but insight into what
17		they felt might be an important area?
18	A	Yes, and also to make sure that, in going into
19		answers to questions of that nature, the Court did
20		not embark on letting in inadmissible evidence,
21		even though the jury might like to hear it.
22	Q	Right. Well here the subject matter, they are
23		asking about clarification of the time which
24		expired between the time they left Regina and the
25		time they arrived in Saskatoon, and keep in mind
		Certified Professional Court Reporters serving P.A. Regina & Saskatoon since 1980

1		that you were able to keep out any evidence about
2		the break-in of the elevator in Craik; and then
3		secondly:
4		"What was the purpose of the stop in
5		Craik?
6		How long were they in Craik?"
7		And:
8		"Question - Was the knife seen during
9		this stop?"
10		And let me just pause there. Is one reading of
11		that that the jury might have thought "what were
12		they doing in Craik and was that where they got
13		the knife"?
14	А	Or another aspect that I think I was concerned
15		with, what were they up to in Craik, and that of
16		course, at least in my speculation, would involve
17		whether or not they were trying to break into
18		places or something like that.
19	Q	And would it be fair to say that the people on
20		this jury would, of their own knowledge, know how
21		long it would take to travel from Regina to
22		Saskatoon?
23	A	I'm quite sure that at least some of them would
24		know that.
25	Q	And then what about the knife being seen during $\P$

1		this stop; did you read anything into that or
2		speculate as to where that might be coming from?
3	A	No. I knew from what David had told me that he
4		had a knife, and I think the it was all tied
5		together, and just what mental processes I went
6		through at the time I don't recall. But I notice
7		here that I thought that the trial, I didn't want
8		the trial judge to be too quick in putting those
9		questions, because I had some observations to
10		make, and I was very concerned about whether or
11		not, putting questions in that way, it may elicit
12		what I considered to be inadmissible and
13		prejudicial evidence.
14	Q	And so the elevator break-in and stop in Craik,
15		you viewed that as being prejudicial, or possibly
16		prejudicial?
17	А	Oh, I yes. And I'm thinking, you know, going
18		back to Aylesbury, then you see Craik is the next
19		town west of Aylesbury well I know you know
20		that, you've driven the road many times but you
21		can see the
22	Q	Yes.
23	А	scenario shaping up.
24	Q	Okay. And then I think what you, what you say:
25		" those questions frankly are in my

view objectionable because they may
elicit evidence which is inadmissible
and which my learned friend told me he
did not propose to adduce because I
think I fairly told him that I would be
objecting to it."

So it may be that Mr. Caldwell had agreed not to
adduce the elevator break-in evidence as opposed
to a ruling from the Court; is that fair?

Α

adduce the elevator break-in evidence as opposed to a ruling from the Court; is that fair?

I think that that's correct, looking through the material. As I told you, I was quite ready to argue that it was inadmissible, and Mr. Caldwell knew well in advance that I would be taking that position. I think I probably gave him a pretty clear indication of that at the time of the preliminary hearing if not shortly before.

If we could then go to the next page, please. The judge brings up another question from the jury that he says is more important:

"The question is put in this way but I think it should be put somewhat differently if it is going to be put:

Was this witness under the influence of drugs during the period of statement given to the police in the station?"

1 And, again, I think this followed up on your 2 questions about the hallucinations and the LSD 3 use. And then if we can go to 4 5 005343, I think there's some further discussion, and to -- actually, go to 005346. There's some, 6 still, further debate on these questions, and the 8 Court says: 9 "Yes - excuse me before you do that, 10 though - it would probably be advisable under the circumstances for me not even 11 12 to mention the matter of the purpose of 13 the stop in Craik. Mind you, it's in 14 the minds of the jury now." 15 And you say: 16 "Well, obviously because they read the 17 newspaper on the preliminary hearing." 18 And the judge says: 19 "Oh no, I didn't read the newspapers and 20 it came to my mind immediately I heard 21 the evidence." 22 And you say: 23 "Well I mean, I'm saying everybody that 24 lives here would know exactly what was 25 adduced at the preliminary hearing."

1		"The thing that occurred to me was why
2		did they leave the highway - that's why
3		I asked",
4		that's what the judge said. So, again, I think
5		this is along the same line as the concern you
6		had, is that the jury would be suspicious about
7		the stop in Craik; is that correct?
8	А	Yes, perhaps for the purpose of break-ins.
9	Q	And then if we could go to 005348, and here's what
10		ends up happening by way of questions from the
11		Court to Mr. Wilson:
12		"Q How long were you in Craik?
13		A Over an hour.
14		Q Did you see any knife during that stop?
15		A No, I didn't."
16		And so that was what was distilled down to be
17		asked of Mr. Wilson; is that correct?
18	A	Yes.
19	Q	And then 005350, and again, asked the questions
20		about whether he was under the influence of drugs
21		on May 23rd or May 22nd, and he answered no, he
22		wasn't.
23		You had mentioned, Mr. Tallis,
24		that you viewed Mr. Wilson as a treacherous
25		witness from the prelim and from what you had
		4

1		viewed. When you were done cross-examining him at
2		the trial had your view changed at all on that?
3	А	I don't think so.
4	Q	And I think what you have told us, that you felt
5		that there were certain risks in Mr. Wilson, in
6		what he might say, that he hadn't already said,
7		that might be damaging to Mr. Milgaard; is that
8		fair?
9	А	Yes.
10	Q	If we can just call up your address to the jury,
11		and I'll just touch on what you had to say about
12		Mr. Wilson, 031284. You say:
13		"Now I want to deal with the evidence of
14		Wilson, and once again my learned friend
15		has invited you to find him, on the
16		question of credibility, a very credible
17		witness, and it is frankly his story I
18		most disagree with",
19		and then a break in the transcription:
20		"I have suggested to you, and I
21		re-emphasize the point, that it is more
22		reasonable, by the practical, common
23		sense tests, to give weight and
24		consideration to evidence of people,
25		average people who do their work, who

1 do", 2 and a break: 3 "and show", 4 and a break: 5 "without regard to other activities. And that is why I have emphasized the 6 evidence of the likes of Rasmussen, the 8 Danchuks and so forth." 9 And so I take it you are comparing his 10 credibility to some of the other witnesses and saying he should not be viewed as credible? 11 12 А Well, that's right. My position was that, 13 compared with people like the Danchuks and 14 Mr. Rasmussen, he would certainly be an unsavoury 15 type of person. 16 And then scroll down to the bottom. You say: Q 17 "Now, on the question of the time 18 element, my learned friend suggested 19 that perhaps I was nitpicking to say 20 there isn't much to really warrant going 21 two blocks or two and a half blocks in 22 comparison to five blocks. Now, lady 23 and gentlemen when you are getting down 24 to matters of minutes, which is what 25 this is, five blocks, or four blocks, or

two blocks isn't a trifle matter, this is not something to be reckless with and you may understand that when I asked him those questions as to what he said on the preliminary hearing it wasn't ... of nitpicking",

## then a break:

"about half a block or something like that. It was because the question of minutes is of importance in this case, and I suggest to you that you examine that evidence very carefully. And if my learned friend even takes the evidence of Wilson as he invited you, I suggest to you that when you analyze the time it is unreasonable, it defies common sense to suggest that all of the things that he alleges, that everything that he ",

## and then a break:

"true happened in that space of time."

And, again, is there anything that you can
elaborate on that, Mr. Tallis, other than what is
stated?

No, I think it focusses on the areas that we have discussed.

1 Q And then to 031289, again hampered a bit because 2 this transcription, there is a number of breaks in 3 here, but I think it's referring to Wilson's questioning by Inspector Riddell in Regina: 4 5 "What was his position on numerous occasions before? His position was very 6 clear", and a break: 8 9 "to his car and had nothing to do with 10

"to his car and had nothing to do with it. And even then, when under cross-examination, as I understand it, he said David was quite normal. You have all these things, he's covered one way or another but his position had always been until quite late in May that there was no blood or anything like that involved, there was no suggestion of blood when David came back to the car, and that's",

"and it is not without significance that he was not asked about the toque. I noticed that the toque in question which was in evidence was not put to any of the witnesses, was not shown to Wilson,

1		and I can only assume",
2		a break:
3		"to my learned friend, he would have
4		asked the question, there is no
5		suggestion that that is the toque."
6		And, again, I take it that you would have raised
7		with the jury, in this part, the fact that Mr.
8		Wilson had earlier said nothing to implicate Mr.
9		Milgaard; is that fair?
10	А	That's correct. And also to, you know, negate any
11		suggestion that this toque that was found in that
12		area was something that David had thrown out.
13	Q	And then, if we can turn to 031291, you say:
14		"Now once again there are areas that I
15		invite you to consider, you have got to
16		consider his background,",
17		you are talking about Ron Wilson:
18		" his education and so forth. I'm
19		not going to dwell on it tell you",
20		break:
21		"upon his reputation, but these are
22		things which you must, in my submission,
23		you ought to consider how you may
24		while considering the vagueness of his

	II	

1 the Chief Justice about the knife, in 2 the matter of how he could see it and so 3 You may while considering this and 4 assessing the reliability that you can 5 place on this type of evidence and you may, while considering the fact, that I 6 said, which is common ground, that he, 8 himself, was a suspect in this case", 9 as then a break: 10 "as my learned friend", 11 and then a break: 12 "until May 22nd or 23rd, as my learned 13 friend said -- and I think the date is 14 accurate -- ... when certain things are 15 shown and so forth ..." 16 And I think that's all from the address. 17 So that would, again, relate to 18 one of the other matters that you had raised in 19 the cross-examination, that he had been a 20 suspect, and that that might be a reason why his 21 evidence changed so he might not be reliable? 22 Yes. 23 I want to call up an article, 004752. This is a 24 newspaper article of July 17th, 1990, and it 25 relates to some commentary about Mr. Wilson's

evidence and the statement, and I just want to go through parts of this to get your response. And so this is July 17th, and Dan Lett is a reporter with the Winnipeg Free Press. It says:

"A statement given by a star witness in the *David Milgaard* case that could have discredited his entire testimony appears to have been withheld from defence counsel during the 1969 trial, two lawyers close to the case have charged."

And then they go on and talk about the March 3rd, '69 statement, and you've already told us that you had that statement. Can you answer this about the use -- and maybe you've already touched on this -- but use of the March 3rd, 1969 statement to discredit Mr. Wilson's entire testimony; have you got anything else to add, other than what you have told us, about how you used and -- or thought you used that statement and couldn't use that statement?

Well I think I had the, used the information to establish the fact that he did not in any way implicate David or anyone else in that time frame that we have been discussing, and so I don't think

Meyer CompuCourt Reporting =

1 I can usefully add anything more than what you 2 have already reviewed with me. 3 And then if we could just scroll over to the right 4 And, again, this is at a time when Mr. 5 Wilson has provided another statement, or provided a statement recanting some of his earlier 6 evidence, and in this it says: 8 "... Wilson claimed he was pressured by 9 police into testifying against his friend." 10 And I'm just looking for your observations back 11 12 at the time, in 1969-1970, I'm not asking you to 13 go beyond what you would have thought at that 14 Did you have the sense, Mr. Tallis, when 15 dealing with Mr. Wilson at the preliminary 16 hearing and at the trial, that he may have been 17 pressured by police into testifying against his friend? 18 19 Well I certainly wondered why he changed his 20 testimony, and what the motive was, but there was 21 nothing that he came up, even when I was 22 questioning him at the preliminary, with the 23 suggestion that he was pressured into doing that. 24 At least that's as I recall the preliminary 25 hearing evidence that you have referred me to.

1		was certainly exploring it.
2	Q	And again, beyond exploring it, did you ascertain
3		anything or of the nature that might support
4		the contention that the police were responsible
5		for influencing Mr. Wilson to give evidence that
6		was not true?
7	A	No, I didn't.
8	Q	If we can then go down to the scroll down a
9		bit, and I will be talking a bit later about the
10		media and your dealings with them, or lack of
11		dealings with them, but here they talk about
12		actually, just scroll up a bit. It says:
13		"The revelation of the first
14		statement has created serious concerns
15		about whether Cal Tallis, Milgaard's
16		lawyer in 1969 and now a Saskatchewan
17		Court of Appeal justice, was ever told
18		of its existence."
19		And it says:
20		"Tallis will not discuss the
21		case."
22		And you may have already covered this on the
23		opening day, but were you in the were you
24		talking to reporters about this matter at any
25		time?

1	A	No. I think that my regardless of the
2		frequency of invitations I received, either
3		directly or indirectly, I did not think it
4		appropriate to discuss a client, a former client's
5		case, with the press.
6	Q	And why not?
7	A	Well, for one thing, I always respected the
8		sanctity of solicitor/client privilege; and
9		secondly, there is no doubt there was no doubt
10		in my mind that it would be unseemly for a member
11		of a Court, where the issue or related issues
12		might come before it, to start discussing it in
13		any way as if he or she were assuming an advocacy
14		role.
15	Q	Now I think you told us that you would have talked
16		to Mr. Asper and Mr. Wolch and previous counsel on
17		behalf of David Milgaard; is that correct?
18	A	Yes, I did.
19	Q	And here, this is July 1990, it says:
20		"David Asper, Milgaard's
21		Winnipeg lawyer, noted Tallis made no
22		reference to the first statement in
23		questioning Wilson at either the
24		preliminary hearing or trial."
25		And I think we've gone through the transcript and
		•

1		identified, or you identified that you did in
2		fact question Wilson at least about the contents
3		of the statement, is that correct?
4	A	Yes.
5	Q	It says:
6		"Asper said it is
7		inconceivable that Tallis, if he had
8		known of the original statement, would
9		have ignored it at the trial.
10		'It is painfully obvious from
11		the transcripts that Tallis did not
12		direct Wilson to the original
13		statement,' Asper said. 'It strikes me
14		that it would be serious misconduct for
15		the Crown not to provide that
16		information to the defence.
17		'It suggests to me that Tallis
18		may never have known about it.'"
19		And do you recall whether you would have had any
20		discussion with Mr. Asper or Mr. Wolch about this
21		subject matter?
22	A	I don't recall specific discussion about it, but
23		you've shown you've referred to portions of the
24		transcript, and I know that I did use the
25		information for purposes of cross-examination,

1		although I didn't put the statement in for use as
2		a statement of a a written statement of the
3		witness.
4	Q	And then just over. I think Mr. Watson, who was
5		Ron Wilson's counsel, says that:
6		" not only does the first statement
7		lend credibility to his client's recent
8		recant of his testimony, it suggests a
9		serious omission in information given to
10		Tallis.
11		'I can see no reason (for the
12		statement to be withheld),' 'Any
13		lawyer would have questioned it and it
14		would have been quickly exposed in a
15		Court.'"
16		And you may have already covered this, I think
17		you said it wasn't as simple as simply presenting
18		the statement, is that fair?
19	A	Yes, that's quite correct.
20	Q	Do you have anything else to add, other than what
21		you've already told us, about the suggestion made
22		here by Ron Wilson's counsel about how you should
23		have used that statement?
24	A	Well I think I've already answered that, really,
25		in responding to your question yesterday. I

1 decided, in the exercise of my best judgement, to 2 handle the matter in the way in which I did, and 3 that of course was based not only on my experience, but also with a general knowledge of 4 5 how things sometimes come to be handled. As I said, by that time I think 6 I had appeared in every Court in Saskatchewan on quite a number of occasions, and certainly was 8 9 aware of some of the pitfalls, at least, if you 10 embark on certain courses of action. 11

If we could just scroll down a bit, and there's one last comment here from Mr. Wilson -- actually, scroll further. It says:

"Wilson, in an interview from his B.C. home, said he did not remember giving the first statement, but firmly believes Tallis could have broken him on the stand if he had used it at the trial.

'It's all a bunch of crap,'

Wilson said of his testimony. 'The

first one was the one that was supposed

to be in court. If they had used it

then, it would all have been over.'"

And do you have anything to say in response to

1		that suggestion made by Ron Wilson at that time?
2	A	Well I guess I have to leave that to others to
3		judge, and I don't think it was quite as simple as
4		he has stated, if that comment is an accurate
5		comment. There were opportunities for him if he
6		had wanted to concede certain things, and one had
7		to be very careful with him, because his tendency
8		was to improve his evidence if a question was
9		asked that appeared to be helpful to David.
10	Q	And did you get any sense, at the time you were
11		examining Mr. Wilson at the trial, that if you
12		pushed the right button you might get him to say
13		"whoops, I'm sorry, I take everything back, I
14		didn't see anything"?
15	A	No. Quite the contrary, I thought that he would
16		be very quick to explain why his first position
17		was not what he said was not the truth, and
18		that he would have said among other things, if
19		asked by anyone including the judge, "well why did
20		you change your story", he would have said "I'm
21		protecting" likely would have said "I'm
22		protecting my friend" or "I was protecting my
23		friend".
24	Q	Okay. I'm now moving on to Nichol John. It's
25		quarter to 3:00, I can break now, Mr.

1 Commissioner, or we can carry on until 3:00, I'm 2 3 COMMISSIONER MacCALLUM: Let's break. 4 MR. HODSON: Break? 5 (Adjourned at 2:45 p.m.) (Reconvened at 3:12 p.m.) 6 BY MR. HODSON: 8 0 Mr. Tallis, I now move to Nichol John. Again, if 9 you can tell us just your general impressions of 10 Nichol John based on what you observed at the 11 preliminary hearing and at the trial? 12 А I think the best place for me to focus, in terms 13 of my recollection, is at the, is on the trial, 14 and I have to say that I think she created the 15 impression along the way at the trial, at least in 16 the mind of the judge, presiding judge, that she 17 was holding back and perhaps doing so to protect 18 her friend. I say that because I recall, and 19 indeed you've referred me to some material in the 20 record that would indicate that he wondered 21 whether or not anybody from the defence side, that 22 includes counsel for the Milgaard family, had any, 23 had exerted any pressure or influence on her. 24 And again we will spend a bit of time going 25 through that part of her evidence where she did

1		not adopt parts of the incriminating statement.
2		You had made the comment that at least from the
3		judge's perspective you thought that the judge
4		perceived that she was holding back. Was that
5		your sense, that she might have been
6	A	Well, I think the best way I can put it is that if
7		you listened objectively to the way things
8		unfolded, I could see where people might draw that
9		inference or conclusion. I think I was probably
10		of mixed views and mixed concerns at that stage,
11		but of course my thinking was coloured naturally
12		by what David had told me and that is of course
13		that he had had no involvement in this murder, but
14		the atmosphere at trial was certainly something
15		that I'm trying to put it in respectable
16		language here was something that one could, I
17		think, sense if you were looking at it from a
18		particular perspective. I'm not saying it was my
19		perspective, but
20	Q	Right.
21	A	I sensed the perspective from the standpoint of
22		others if I tried to stand back and look at it
23		objectively.
24	Q	And that would be what sense, that she was holding
25		back?

1	А	Yes, and that more likely than not, that she was
2		trying to protect a friend, and I know I'm
3		coloured by my perception of what I thought the
4		judge thought and I guess I was affected by at
5		least one or two of the questions that were put
6		and that's why I asked a number of questions very
7		early in the going to try to establish that I
8		hadn't talked to her, that nobody from the
9		Milgaard family had talked to her about this and I
10		think in particular David had not been in touch
11		with her.
12	Q	You had referred to, on an early occasion, I think
13		a couple of times, about what an objective
14		bystander might perceive, and again I'm trying to
15		get a sense from you, Mr. Tallis, as to how Nichol
16		John well, I started off asking your impression
17		of her, and I appreciate what you are saying is
18		you would have a coloured view because you were an
19		advocate for Mr. Milgaard?
20	А	Yes.
21	Q	But I think what you are saying is based on what
22		you observed from the judge and others, that one
23		might reasonably take the position that she was
24		holding back and trying to help David; is that a
	Ü	

fair summary of what you are saying?

1	A	Yes. I think if you apply an objective bystander
2		test, that could well be so.
3	Q	And again we'll get into the specifics, but again,
4		the holding back, holding back incriminating
5		evidence, I take it, because the jury would have
6		known what was in the statement?
7	А	Yes.
8	Q	And just for a moment if we compare that, if the
9		jury did in fact believe that, that she was
10		holding back and not giving the full, truthful
11		story because she was trying to help her friend,
12		just generally if you compare the impact or
13		credibility of that versus the situation where she
14		actually adopted and repeated the incriminating
15		evidence and allowed you an opportunity to
16		challenge her on it, are you able to give us some
17		sense of what might be more damaging to David
18		Milgaard's interest?
19	А	Well, looking back and trying to reflect on it in
20		the manner in which you have asked me to, I'm
21		inclined to the view that the that her conduct
22		was, as we've talked about it, was probably more
23		damaging to David because of the atmosphere that
24		it created. Now, there's another aspect to this
25		too and that is that it's sort of incidental to

1		the process, her conduct may have helped to
2		enhance the credibility or reliability of, say,
3		Wilson, albeit in a rather indirect way.
4	Q	Would that be the situation that if the jury,
5		viewing the totality of what Nichol John said and
6		didn't say and the demeanour, etcetera, which we
7		will go through, if they concluded that her
8		statement that was not adopted was the truth, then
9		that might support some of what Wilson had to say;
10		is that fair?
11	A	Yes. Now, I have to say to you that I'm sure that
12		in a sense I'm speculating because one doesn't
13		really know the answer to that question, but I'm
14		giving you my personal assessment based on a
15		recollection going back many years.
16	Q	Sure.
17	A	Which may be faulty in many respects. I think
18		that's as objective an assessment as I can give
19		you.
20	Q	Sure. Let me just take that a bit further and go
21		back to the time of trial, and some might say that
22		if the Crown had an alleged eye witness of the
23		murder, in fact, someone who would say I saw David
24		Milgaard commit the crime or grab a girl and stab
25		her and that at trial she did not adopt that
		Meyer CompuCourt Reporting

1		evidence and did not provide the evidence, some
2		might say that that would be favourable to the
3		accused; in other words, it's a good thing that
4		evidence didn't come out. In fact, that's what
5		happened at the trial, and we'll go through what
6		and how that happened, and again, are you able to
7		look back and provide any observations on whether
8		or not you might have been better off or Mr.
9		Milgaard's position might have been better off if
10		she had in fact adopted the statement and allowed
11		you to cross-examine on it, and I appreciate
12		that's maybe not a fair question because you never
13		did get the chance to do that, but what I'm trying
14		to get at is whether or not her failure to adopt
15		the statement may have actually harmed David
16		Milgaard's position more than if she had adopted
17		it.
18	A	Well, once again here I'm trying to address it,
19		address a hypothetical in a retrospective manner,
20		but I think there may well be merit to your
21		suggestion.
22	Q	Okay. Now, just back to the statements, and we
23		talked, when we dealt with Mr. Wilson and
24		Mr. Cadrain I asked you similar type questions
25		about, based upon the information David Milgaard

provided to you when you then looked at what Nichol John had to say, and we'll go through the evidence, and I think at trial what her evidence was was not as incriminating obviously as her statement, but may have had some incriminating components such as the compact and stopping for directions, but let's go back to the statement of May 24th and I'll go through that with you. you -- what were you, what was your sense of what might explain how she would come up with a sworn statement where she said she witnessed David grabbing the girl and stabbing her and things of that nature, did you ever -- what were you looking at to try and get an explanation to rationalize that statement with what David Milgaard had told you? Well, David and I talked about that I'm sure on Α

Alberta, and on the question of whether or not she was looking for money, and by that I mean reward money, I don't think that he thought that that was a consideration, although I know that I was speculating about it, and that's why even on the eve of trial I had checked to see whether any one of the three or all of them had applied for the reward money even in advance, so that I guess really left in my mind the question of whether or not something had influenced her and that's one of the reasons why I was probing with Mr. Roberts to try and find out what had happened with her, and I didn't get any useful information in that connection. I knew that he had not administered the polygraph to her, but I don't recall all the details now and where I got them, but certainly she had been in his company, and I'm trying to separate from my thinking what I now know from some of the things you have shown me and what I had in front of me. Would you have known at that time, at the time of trial, that Nichol John's incriminating statement of May 24th came after she met with Inspector Roberts? I think I probably thought that because I think

1		that was certainly one of the areas I hoped to
2		find out more about when I spoke to him.
3	Q	Let me maybe assist you on this and I'll show you
4		the statement in a moment. In the May 24th
5		statement Nichol John says I have not told anyone
6		about witnessing this murder, I didn't recall
7		actually witnessing a murder until yesterday when
8		I talked with Mr. Roberts.
9	A	Yeah.
10	Q	And on May 23rd Mr. Roberts showed me a coat, and
11		so again you would have been aware of the contents
12		of that statement at the time?
13	A	Yes.
14	Q	When you talked to Mr. Roberts, and again you've,
15		we've dealt with your discussions with him in
16		connection with Ron Wilson, would you have had a
17		similar interview with him or similar questions
18		about what happened when he met with Nichol John?
19	A	Yes.
20	Q	And do you recall whether you, what you came away
21		from that meeting with as far as his dealings with
22		Nichol John?
23	A	Well, certainly it was very little and I didn't
24		I didn't think that he had anything he was
25		prepared to offer in that connection, because I
		4

1		was interested in what questions he had put to her
2		and so forth and he wasn't of any help to me,
3		let's put it that way.
4	Q	And did you have similar concerns with respect to
5		his dealings with Nichol John as you did with his
6		dealings with Ron Wilson?
7	A	Yes.
8	Q	Now, just back on you mentioned you had talked
9		to David and considered trying to figure out what
10		would, what would be the motive for Nichol John to
11		give the incriminating statement which, based on
12		David's instructions to you, significant parts of
13		it were false; correct?
14	Α	Yes.
15	Q	And I suppose a second issue might be what would
16		motivate her not to repeat it in the Court
17		proceedings. Is that fair, that those were two,
18		maybe competing things, but
19	Α	Yes.
20	Q	Were both of those things on your mind trying to
21		figure out what would cause her to, number one,
22		say something you don't believe to be true, and
23		then secondly, once having said it and sworn it in
24		a statement, not to carry through and repeat it?
25		Not retract it or anything, but just not repeat
		4

		1 age 24020
1		it?
2	A	Or indicate I don't remember.
3	Q	If we could call up 006329, and I take it,
4		Mr. Tallis, you've told us this with respect to
5		Cadrain and Wilson, that you would have relied
6		upon the statements of Nichol John in trying to
7		prepare an approach for her cross-examination; is
8		that fair?
9	A	Yes, and of course by the time we got to trial, I
10		had, you know, the benefit of a preliminary
11		hearing, although at the preliminary hearing the
12		section 9(2) application did not arise.
13	Q	Just on that point, was there any reason, perhaps
14		it would have been Mr. Caldwell, I think it was
15		Mr. Caldwell's choice, and I think what he told us
16		is that he did not do it at the preliminary
17		hearing because he thought maybe at trial, I think
18		he said he thought she was afraid and that maybe
19		at trial she wouldn't be afraid and would give the
20		evidence there. Do you recall any discussion
21		about why that was not done at the preliminary
22		hearing?
23	А	No, I don't recall any such discussion with him
24		about that, and furthermore, I don't recall any
25		suggestion that she was afraid of David.
	I	

1	Q	And I think that was Mr. Caldwell's view as he
2		described to the Commission, that he viewed that
3		she was afraid and that that's why she did not
4		repeat the incriminating statement. Did you have
5		any sense, based on your observations, at trial
6		and the preliminary hearing, that Nichol John was
7		afraid of David Milgaard and that that might have
8		influenced her in not repeating parts of her
9		earlier statement?
10	А	I didn't have any sense of that from what anybody
11		said to me or from what David and I had discussed,
12		and I'm sure if I had been, you know, asked about
13		it at that time, I would have said, you know,
14		there's just no basis for that suggestion.
15	Q	And that's not something then that influenced or
16		guided your thinking at the time, that when you
17		approached Nichol John to cross-examine her, that
18		be careful, she's afraid of David, that type of
19		thing, is that something you are telling us was
20		definitely not on your mind?
21	A	I'm quite sure that was not on my mind.
22	Q	So back on this statement
23	A	There's nothing to indicate that in what was said
24		to me and in particular in my discussions with
25		David.
	l	

1	Q	And as well what you observed of Nichol John in
2		the Court proceedings?
3	A	Yeah, yeah.
4	Q	So again, I think you've told us with respect to
5		Ron Wilson's statements, Albert Cadrain's
6		statements, that they were important both as to
7		what they contained, but also what they did not
8		contain; is that fair to say with respect to
9	А	That's correct.
10	Q	Nichol John's? So this is the first statement,
11		if we can scroll down, she's got the time at 6:30,
12		between 6:30 and 7:30 a.m., and I think you've
13		told us with respect to Mr. Wilson that that was,
14		I think he had a bit of an earlier time, but that
15		was in the ballpark as to when you believed your
16		client was in Saskatoon?
17	А	Yes. As I told you, David wasn't able to pinpoint
18		the time, but certainly he, I think, would have
19		told me that, you know, I can't say, but this is
20		in the range or in the ballpark.
21	Q	And then again she talks about driving around and
22		the first event then is the map at the
23		Trav-a-leer, it doesn't say Trav-a-leer, but the
24		map at the motel where David went in with stocking
25		feet, then getting stuck at the Danchuks'. Go to
		<b>1</b>

1		the next page. Then to Albert's house, met
2		Albert, his little brothers, little sister. It
3		talks about Ron and David changing clothes. She
4		says:
5		"I didn't see any blood on anybody's
6		clothing."
7		It talks about David driving the car around the
8		block, and the next page:
9		"All during the morning we were in
10		Saskatoon, the three of us were together
11		and I am sure that David or Ron never
12		left me for more than one or two minutes
13		that morning."
14		And again, that, would that be consistent with
15		what David had told you as far as being with them
16		on the morning of January 31, 1969?
17	A	Yes, generally speaking that's so.
18	Q	Now, there's a comment here:
19		"Just yesterday or the day before, Barb
20		Berard, a friend of mine, told me that
21		David had returned to Regina and I think
22		it was him that told her that he was
23		going to be picked up for murder."
24		So this would be March 11th, 1969, it would be
25		about eight days after David Milgaard was

1 interviewed in Winnipeg. Do you recall 2 discussing this point with David, as to where 3 Barbara Berard got this from or whether he said that to her? 4 5 Α No, I don't recall any discussion on that. I may well have had it, I probably did, but there's 6 nothing that I can recall of assistance to you in that connection. 8 9 And again, if we just go through, I think I've 10 covered the key parts of what is in the statement, 11 and again putting aside for the moment what might 12 be explanations as to why matters may not have 13 been included in the statement, and we identified 14 a couple, one may have been that the officer 15 didn't ask Nichol John about it, or secondly, 16 that, for completely innocent reasons, the witness 17 did not think of including it, but putting aside 18 what reasons might be there, can we just go 19 through again and identify what might be, what 20 were considered by you to be significant omissions 21 in this statement, and I think the first two we've 22 talked about, the stolen battery in Regina and the 23 elevator break-in along the way, would you 24 consider those to be significant omissions? 25 Α Yes, when you were looking at the narrative.

1	Q	Yeah. And then as well the discussion of purse
2		snatching and break-ins along the way, I think
3		which although you've told us you don't remember
4		David telling you that, I think that was Ron
5		Wilson's statement in evidence, and again, would
6		that be the fact that Nichol John later said
7		yes, we talked about it, the fact that it's not in
8		this statement, would that be a significant
9		omission?
10	A	Yes.
11	Q	Stopping the woman for directions, would that be,
12		the failure to mention that, would that be a
13		significant omission?
14	А	Yes, in the context of this case and as related to
15		me by David.
16	Q	And getting stuck and David Milgaard and Ron
17		Wilson leaving the car, would that be a
18		significant omission?
19	A	Yes.
20	Q	Throwing the compact out of the car, or David
21		Milgaard throwing the compact out of the car,
22		would that be considered a significant omission?
23	A	Yes.
24	Q	If we can then go to 018589
25		COMMISSIONER MacCALLUM: Can I have the doc

1 ID for the statement of March? 2 MR. HODSON: 006329. 329, thank you. 3 COMMISSIONER MacCALLUM: BY MR. HODSON: 4 5 Q Now this is a typed version -- sorry, 018589. Now this is the May 24th, 1969 statement, Mr. Tallis, 6 that was -- just to give a bit of background, I think she was brought into Saskatoon I believe on 8 9 May 22nd, although it may be May 21st. 10 event, interviewed by and driven around by Saskatoon police officers, interviewed, and then 11 12 interviewed by Inspector Roberts on the afternoon 13 of May 23rd, and then on the morning of May 24th 14 she provided this statement to Raymond Mackie. 15 Now, this statement, as was Mr. Wilson's, was a sworn statement. Was that the practice at the 16 17 time, to have witnesses swear a statement and was 18 there any significance to that in your view as 19 defence counsel? 20 I don't think it was the invariable practice, but 21 I can recall having observed it in various cases 22 that I was involved in. In other words, there 23 were justices of the peace on staff at the city 24 police station and I was thinking Mr. Manton and

Mr. Burron, I recall them as being there, and from

25

1		time to time you would see statements and get
2		statements that were sworn in front of one of
3		them. Now, there may have been other justices of
4		the peace there. At this time I don't know who it
5		was sworn before, unless I see the name.
6	Q	I think this was Taylor.
7	Α	Oh, yes, well then he certainly came after Mr.
8		Manton. I remember him now that you mentioned his
9		name.
10	Q	And as defence counsel, would it matter any
11		whether this statement was sworn or not as to what
12		weight you might put on it or how you might use it
13		or how it might be considered by a jury?
14	A	Well, that's certainly one factor you would want
15		to consider.
16	Q	The fact that it's sworn?
17	A	Yes.
18	Q	As perhaps lending it more credibility?
19	А	It could in some circumstances be so construed,
20		yes.
21	Q	So again, if we can go through parts of this, and
22		I just want to identify those parts that are
23		consistent with what Mr. Milgaard had instructed
24		you and those which are not. Again, we've been
25		through these issues a couple of times, so we'll

1 quickly go through them. The first one is about the stop at Aylesbury where David Milgaard broke 2 3 into an elevator, returned with the flashlight. think you've told us you don't remember the 4 5 flashlight being discussed. And then: "Shortly after Dave got back in the car 6 I saw a knife he had. I do not know if 8 the knife came from the elevator or not. 9 I am sure I never saw the knife prior to 10 the breakin at the elevator." 11 So I take it the part about the breakin is true. 12 As far as the knife, and again, 13 I'm not sure, I think the best we can say is that 14 David told you he had a knife, she's now saying I 15 saw a knife, and we'll describe it a bit later 16 and I'll ask you about it, but the fact that she 17 saw a knife on David in the car, without describing the knife, that would not be 18 19 inconsistent with what David told you; is that 20 fair? 21 No, that's right. Α 22 Q Then we go on, describes the knife as: 23 "... a kitchen knife used to peal 24 potatoes and things like that. It had a 25 maroon handle. This knife was the same

1		as one of a group of knives I was shown
2		by Mr. Roberts."
3		And that, I take it, would be inconsistent with
4		what David Milgaard told you about the type of
5		knife he had; is that correct?
6	A	Yes. Now I can't as far as the flexible blade,
7		I remember that, but certainly nothing in the
8		nature of a maroon handle, and he specifically
9		told me that the knife that was in Court, the
10		broken one, was not the knife that he had.
11	Q	Right. And, again, so this would be, while I said
12		inconsistent,
13	A	Yes.
14	Q	according to David Milgaard's instructions
15	А	That's right.
16	Q	this would be false;
17	A	Yes.
18	Q	is that correct?
19	А	Yes.
20	Q	And then:
21		"On the way to Saskatoon Dave spoke of
22		wanting to snatch a purse. I didn't
23		like the idea of the B & E or the
24		snatching the purse bit."
25		And, again, I think what you have told us is you
		3

1		can't recall David telling you that they
2		discussed it on the trip, but that he thought
3		about it when he approached the woman; is that
4		right?
5	A	Yes, that's correct.
6	Q	And then they talk about getting stuck in another
7		town, she says she thinks it was Girvin, and I
8		think it was actually Craik; is that right?
9	A	Well, you know, Craik is the next town west
10	Q	Yes.
11	A	of Craik so, you know, I think one of the
12		witnesses had referred to Craik, this girl
13		mentioned Girvin. I think that, from talking to
14		David, they may have stopped at Craik.
15	Q	Did you
16	A	That's my sense of things.
17	Q	So certainly after the elevator, after stopping
18		and the elevator break-in,
19	A	Yeah.
20	Q	they stopped at the next town
21	A	Yes.
22	Q	or at another town; is that fair?
23	А	Yes. And from talking to him, I think it was
24		Craik, but
25	Q	There's some reference, and I think we may see it
		1

1		in one of the transcripts, that a truck may have
2		been stolen or borrowed at that time to try and
3		get their car unstuck; do you recall anything
4		about that being discussed with David?
5	A	I have no recollection of that discussion.
6	Q	I think this is
7	A	And I, frankly, don't think that he ever said
8		anything to that effect.
9	Q	I think this is when they got stuck and stripped
10		the reverse out of the car.
11	A	Yeah, that's I just don't recall anything about
12		stealing a truck or anything like that.
13	Q	I think it I think the reference, and we may
14		come across it in the transcript, is that they
15		went and borrowed a truck, someone else's truck,
16		presumably without their consent, to try and pull
17		the vehicle out, and when that didn't work the
18		truck was left there, but I'll see if we we may
19		come across that in her evidence. And then here
20		she says:
21		"After we got to Saskatoon we drove
22		around for about 10 or 15 minutes. Then
23		we talked to this girl. This was in the
24		area where Sgt. Mackie drove me around."
25		And I guess at this point we don't know exactly

1		where he drove her around but I believe it would
2		be in the vicinity of where Gail Miller's body
3		was found. And, again, would that be, without
4		getting too specific as to exactly where it was,
5		would that be generally consistent with what
6		David told you, and as well I guess "girl" may be
7		considered younger than
8	A	Well, that's right. The term "girl", we talked
9		about "older lady", and I would view that as
10	Q	Inconsistent?
11	A	something different from "girl".
12	Q	Then we go down, asked the girl for directions,
13		and again with the proviso that it was a lady
14		described by David, and then the comment
15		attributed to David:
16		"The stupid bitch",
17		we talked about that with Ron Wilson, and again I
18		think you told us that David said he did not say
19		those words; is that right?
20	A	That's my recollection, he made no such comment
21		about
22	Q	She then says:
23		"We started to drive away and only went
24		about half a block when we got stuck.
25		We ended up stuck at the entrance to the

1		alley behind the funeral home."
2		And I take it some consistencies, some
3		inconsistencies, I think David said they went
4		further and, secondly, made no mention of an
5		alleyway behind the funeral home; is that
6		correct?
7	A	That's correct.
8	Q	Were you able to, when you went through this with
9		David about where they got stuck, would you have
10		actually tried to identify the funeral home for
11		him to see if that was a familiar?
12	A	Yes, I I can't recall all of the sort of
13		landmarks I tried to use to pinpoint the location,
14		but I know that I asked him about the funeral
15		home, and my recollection is that he had his
16		recollection was there was no funeral home nearby
17		that he observed.
18	Q	And, again, if you
19	A	Now you have to remember that at this time, I
20		think that not only at that hour of the morning it
21		was quite dark, but I think there was some sort of
22		ice fog or something.
23	Q	Yes, we've heard evidence of that.
24	A	I don't know if there's evidence on that?
25	Q	Yes, there is.
		4

		——————————————————————————————————————
1	7	My recollection, from talking to him, was to that
	A	
2		effect.
3	Q	If
4	Α	And it was certainly consistent with my personal
5		recollection of some of the days that winter,
6		without being specific.
7	Q	If David Milgaard had testified and been asked the
8		question to the effect that "lookit, if you don't
9		know exactly where it was is it possible that you
10		were near the funeral home when your car got
11		stuck", how would he have answered that question?
12	A	He probably would have said "I don't know, I
13		didn't see a funeral home".
14	Q	Okay.
15	A	It depends, you know, how robust the
16		cross-examination was on him, and but I think
17		that would have been the nature of his answer.
18	Q	Was it your sense, from talking to him, that he
19		could positively deny that he was in the vicinity
20		of on the street of the funeral home?
21	А	I don't think he could say that, but he could
22		certainly say that he didn't see any funeral home.
23	Q	Or a building, a brick building?
24	Α	Or a building of that nature.
25	Q	Okay.
		<b>A</b>

		——————————————————————————————————————
1	А	I think, you know, he would have been quite clear
2		on that.
3	Q	Then the next part:
4		"Ron and Dave got out and they tried to
5		push the car. They couldn't get it
6		out."
7		And I think that's consistent with what David
8		told you; is that correct?
9	A	Yes.
10	Q	And then:
11		"I recall Dave going back in the
12		direction we had spoke to the girl. Ron
13		went the other way past the funeral
14		home."
15		Let me just pause there. I think David Milgaard
16		had told you that he and Ron left the car to look
17		for help; do you recall whether he said it was in
18		the direction of the woman they had asked for
19		directions or not?
20	А	Well I think one of them went one way and one went
21		the other way, but there was no suggestion on his
22		part that he had gone, as such, in the direction
23		of the older woman.
24	Q	Okay. And then:
25		"The next thing I recall is seeing Dave
		1

1		in the alley on the right side of the
2		car. He had a hold of the same girl we
3		spoke to a minute before. I saw him
4		grab her purse. I saw him grab for her
5		purse again. Dave reached into one of
6		his pockets and pulled out the knife. I
7		don't know which pocket he got the knife
8		from. The knife was in his right hand.
9		I don't know if Dave had a hold of this
10		girl or not at this time. All I recall
11		seeing is him stabbing her with the
12		knife."
13		And, of course, you've told us that David denied
14		all of that information; correct?
15	А	That's correct.
16	Q	What did you make of the fact that, we've heard
17		evidence that David Milgaard was left-handed, the
18		fact that Nichol John described him using his
19		right hand?
20	А	Well, I remember that aspect of it quite well,
21		because I did quite a lot of reading and, I might
22		say, preparation on that aspect even before the
23		preliminary hearing. I can't tell you in
24		particular the medical books that I read, but I
25		recall reading a segment of a publication dealing
	Ĥ.

with stab wounds, and I can't remember all the details now but there was a discussion about the indicia of right-handed or left-handed wounds, and I came to the conclusion that perhaps some headway could be made in establishing that these wounds on the girl's body had likely been inflicted by a right-handed person. I knew that David was left-handed from things he wrote for me, and accordingly at the preliminary hearing I think that I asked those questions, and if I recall correctly I believe that one of the people I asked about it was Mr. Karst, who I think without any reservation, without any hesitation, said that he was left-handed. Yes. Now I think Mr. Penkala qualified it somewhat by saying words to the effect "well I meant that they were inflicted by a person using his right hand". At least I interpreted that as a distinction with a difference --Right, and so ---- as -- in contrast to a distinction without a difference. And then I believe I asked Dr.

Emson about this too, but I may be wrong, but I

1		guess what I am saying to you, I thought that that
2		was of significance
3	Q	I think Dr. Emson
4	A	at the time, and I can't really assist you any
5		more than that at this stage. But I know I
6		certainly directed my mind to it, and it was based
7		not just on speculation, it was based, number 1,
8		on the fact that David was left-handed; and number
9		2, that I had done some research on it and I may
10		have even talked to a doctor about it.
11	Q	Just back to this part of the statement where
12		Nichol John says "I saw him grab the knife in his
13		right hand".
14	A	Yes.
15	Q	And, again, would it fair to say that, given your
16		information that David Milgaard was left-handed,
17		that you might have concerns about what she is
18		saying here?
19	A	I'm sure I, in the light of our discussion, I'm
20		sure I would have.
21	Q	Now the fact that Nichol John did not adopt this
22		part of the statement either at the preliminary
23		hearing or at the trial, I take it that would have
24		precluded you from challenging her on this point
25		or cross-examining her on this point, is that

1		fair?
2	A	Well it would be with an attendant risk if you,
3		you know, persuaded her to remember a number of
4		things, having regard to the position that she had
5		taken.
6	Q	So in order to ask her about how she could see
7		David using his right hand you would have to
8		refresh her memory or get her to the point where
9		she says "okay, now I remember seeing him use his
10		right hand"
11	A	Yeah.
12	Q	and then challenge it; is that fair?
13	A	I think that's the way one would have to go about
14		it.
15	Q	And then if her evidence is "I don't recall seeing
16		that or saying that" I take it it would be very
17		difficult, if not impossible, to question her
18		about something she has no recollection of saying
19		or seeing; is that fair?
20	A	Yes.
21	Q	Did this cause you, the fact that she would say
22		she saw Mr. Milgaard use his right hand, did this
23		cause you to doubt, further, the veracity of this
24		part of her statement?
25	А	Well, I'm sure it did, when I consider the
		4

approach I took with those other witnesses. I mean I don't remember, as I say, the mental processes that I was going through, but looking at the approach taken with these other witnesses, that is a signal to me that it was of concern, and certainly on my part it was an attempt to discredit any suggestion that a left-handed person like David would have committed, you know, would have committed the stabbing.

## Q And then:

"The next thing I recall is him taking her around the corner of the alley. I think I ran after that. I think I ran in the direction Ron had gone. I recall running down the street. I don't recall seeing anyone. The next thing I knew I was sitting in the car again. I don't know how I got back to the car."

And in your very first memorandum, or one of the ones that we looked at, you had referred to this part of the statement as being very confusing.

Do you recall, now having looked at this, about her saying that she left the car, ran, and doesn't know how she got back into the car; did you have concerns about that?

1	A	Well I don't recall dictating the memorandum, but
2		having read it, I must have had concerns, although
3		I don't recall, at this time, the specifics of it.
4	Q	Then, next, she talks about:
5		"I seem to recall seeing Dave putting a
6		purse into a garbage can. I don't
7		remember which time it was or where I
8		was when I saw this.
9		I recall there were two garbage
10		cans. The one on the left had the lid
11		tipped. I don't recall which one he put
12		it in."
13		Do you recall, when you were looking at the scene
14		in that back alley, observing any garbage cans in
15		that area?
16	A	I'm sure I looked, and I'm sure I observed what
17		was there, but unless I have a you know, had
18		notes or a memorandum reflecting it, I couldn't
19		say to you that I remembered it in that kind of
20		detail.
21	Q	And then she says:
22		"I don't remember talking to Ron before
23		Dave got back. I do not recall Dave
24		saying anything."
25		And of course Mr. Wilson, in his statement of the
		4

1		same date, says that when he got back Nichol was
2		hysterical and told him that she saw Dave grab
3		the girl, so that would be an inconsistency
4		between those two; is that fair?
5	A	That's correct.
6	Q	If we can then scroll down:
7		" do not recall seeing blood on
8		Dave's clothes or seeing the knife
9		again."
10		Certainly the clothes and no blood would be
11		consistent with what David said?
12	A	That's correct.
13	Q	And, again, the changing of the clothes, did not
14		see blood. And then in the last paragraph, I
15		won't go through it, but she describes the
16		incident at Cadrain's house where David took the
17		car for a ride, and that would be consistent with
18		what David had told you; is that correct?
19	А	Yes, I think that detail is quite consistent with
20		what David had told me.
21	Q	And then, the next page, she describes the
22		compact:
23		"I saw a cosmetic case which I opened
24		up. There was a compact, 2 lipstick and
25		an eye shadow in it. I asked whose it
	l	

1		was. Nobody knew whose it was then dave
2		grabbed it and threw it out the window.
3		Dave was driving at this time."
4		And, again, that would be consistent with what
5		David Milgaard had told you?
6	А	Yes.
7	Q	Then if we can scroll down, again, here she talks
8		about being in Calgary and saying that:
9		"Here Ron told me Dave had killed a girl
10		in Saskatoon. I told him 'I know'. I
11		do not recall anything further being
12		said about this murder."
13		And, again, that would seem to coincide with what
14		Ron Wilson said in his statement of the same day
15		or the day before; is that correct?
16	А	Yes.
17	Q	And then she says:
18		"I have not told anyone about witnessing
19		this murder. I didn't recall actually
20		witnessing a murder until yesterday when
21		I talked with Mr. Roberts. I was aware
22		that however that I was somehow
23		involved."
24		Did you find this statement of any concern, in
25		particular that she didn't recall witnessing a
		4

		ŭ
1		murder until she had met with Inspector Roberts?
2	A	Yes, I'm sure that I did, but of course then the
3		other part of her answer is somewhat contradictory
4		or confusing.
5	Q	If she had adopted her statement of witnessing the
6		murder is this an area, this part of the statement
7		where she says "I didn't recall seeing it until I
8		met with Inspector Roberts", would that be
9		something that you might cross-examine her on?
10	A	I think so. But trying, of course, to avoid any
11		description of him as a polygraph operator.
12	Q	Right. But the fact that a witness who supposedly
13		
14	A	Yeah.
15	Q	witnessed a murder provides a statement six
16		weeks later saying "nothing happened", and then
17		two months later saying "I now remember, I did see
18		a murder";
19	A	Yes.
20	Q	would that be something that you might be able
21		to use
22	A	Yes.
23	Q	to challenge her credibility if she had adopted
24		it?
25	A	Yes.

1	Q	Next page, I think again the description of the
2		clothing.
3		Would it be fair to say and I
4		don't think we need to go through this as we've
5		done with the other statements that in this
6		statement there would be some statements made by
7		Nichol John that, based on what David Milgaard had
8		told you, would be truthful statements and
9		incriminating; is that fair?
10	A	Yes.
11	Q	And, as well, there would be some statements in
12		this statement that, according to what David
13		Milgaard told you, were untruthful and
14		incriminating?
15	A	Yes.
16	Q	And so again forgetting, putting aside for the
17		moment that, presumably before the preliminary
18		hearing started did you have any idea whether
19		that Nichol John was not going to adopt this
20		statement as her evidence?
21	A	No, I had had no intimation of that.
22	Q	And so, in preparing for her evidence at the
23		preliminary hearing, would it be fair to say that,
24		much like Ron Wilson, you would have a statement
25		that has some or anticipated evidence that
		4

1		would be incriminating and truthful based on what
2		David Milgaard had told you, but as well some that
3		would be incriminating and untruthful based on
4		what
5	A	Yeah.
6	Q	David Milgaard had told you?
7	A	Yes.
8	Q	And, again, would it be the same tack for Nichol
9		John as for Ron Wilson, and that would be to try
10		and undermine the veracity of the untruthful
11		incriminating evidence and perhaps, I think you
12		said, provide innocent explanations for the
13		truthful incriminating evidence?
14	А	Yes, yes.
15	Q	Prior to the preliminary hearing do you recall
16		whether you had any information about how Nichol
17		John was treated by the police on May 23rd-24th
18		and where she was kept, where she stayed
19		overnight?
20	А	You know, without my notes, it's very difficult
21		for me to say with any degree of certainty.
22		Judging from some of the questions that I asked
23		her, I believe at the preliminary hearing, I think
24		I may have had some information about the
25		circumstances under which she was held, but that's
	li .	

		3
1		very vague. The reference, I think, to the matron
2		that is in was in some of the material, which I
3		think you showed me,
4	Q	Yes.
5	A	causes me to pause and wonder if I didn't maybe
6		even speak to the matron, but I can't say for
7		sure, but
8	Q	The name of the matron
9	A	But there was something about the line of
10		questioning that I used that prompted me, that
11		prompts me to say that, but I have to tell you
12		that I can't really work back and trace it with
13		any degree of confidence.
14	Q	In the questions, when it came up about the
15		matron, you said you asked Ms. John whether the
16		matron's name was Mrs. Tetreault?
17	А	Yeah.
18	Q	And she wasn't able to provide a name; does that
19		assist you at all in
20	А	No, it doesn't now.
21	Q	So is it fair to put it this way, that based on
22		your recollection you can't say for certain, but
23		you may have talked to the matron and made some
24		inquiries?
25	А	Yes. I may have, you know, talked to her either
		1

1		directly or indirectly, because those questions
2		that I put and which you drew my attention to
3		caused me to try to reflect, but I'm afraid I
4		can't really assist you any more than I have on
5		that point.
6	Q	Maybe, when we go through the transcript on those
7		points, that may assist.
8	А	Yeah. I have read it over, though, at your
9		request, so I'm not just flying blind at this
10		stage, if I may use that term.
11	Q	Just one other point I want to touch before we get
12		into the transcript. I think you told us that
13		prior to let me ask this. When did you first
14		learn or realize that Nichol John was not going to
15		repeat certain of the incriminating parts of her
16		May 24th, 1969 statement when she was giving
17		evidence at the preliminary hearing?
18	А	Well, I didn't learn before she was testifying, it
19		emerged during the course of her evidence. And as
20		I recall it, when Mr. Caldwell for the prosecution
21		was trying to elicit testimony from her, it seemed
22		to me that this is when I realized that she was
23		taking the position that "I don't remember".
24	Q	Okay. And so you had no prior inkling of that or
25		any idea?
	Ĥ.	

1	A	I had no prior inkling or
2	Q	We have heard evidence
3	А	idea of it.
4	Q	Sorry. We have heard evidence in this Inquiry
5		from Mr. Caldwell and have had a chance to look at
6		a note from his file and as well we've heard from
7		Peggy Miller evidence to the effect that, I
8		believe it was at the preliminary hearing, during
9		the course of the preliminary hearing I think
10		before Nichol John testified that she was in a
11		witness waiting room with Albert Cadrain, Peggy
12		Miller and Gail Miller's mother and according to
13		those people in the room said words to the effect
14		that 'I don't know why he didn't kill me too, I
15		saw him do it,' I'm paraphrasing, but words to
16		that effect reported to people in the room which
17		in turn was reported to Mr. Caldwell. Were you
18		ever made aware of that or do you recall hearing
19		about that?
20	А	I'm quite sure that I was never made aware of that
21		and, furthermore, in my discussions with David,
22		which we've gone over, there was certainly never
23		any suggestion of threats or worries like that
24		that he had directed toward Nichol or any other
25		witness.

1	Q	Now, I think Mr. Caldwell, putting aside the issue
2		of the threat for a moment, I think what Mr.
3		Caldwell was saying is the fact that she repeated
4		this comment in the witness room to these people
5		about being a witness to the murder and then went
6		on the stand and didn't repeat it at the
7		preliminary hearing may have caused him to perhaps
8		think that the reason she wasn't repeating it was
9		because of fear, but as well might be another
10		occasion other than May 24th, 1969 where she
11		repeated to someone that she had witnessed the
12		murder, and again, I'm wondering, if you had been
13		made aware of this, the fact that there was this
14		utterance at the hearing room, can you tell us
15		what effect if any it would have had on how you
16		dealt with her?
17	А	Well, I'm sure I would have first discussed it
18		with David again in a very specific way and then I
19		would have this is a hypothetical question, so
20		I'm not at this stage I'm really not sure what
21		I would have done with it.
22	Q	And putting aside I think the threat part of it
23		was more I don't know why he didn't kill me too
24		because I witnessed it, and I think the latter
25		part, in your dealings with Nichol John as a

witness, if you would have known that there may

'		withess, if you would have known that there may
2		have been this utterance by her, in addition to
3		the May 24th statement, would that have caused you
4		to change how you dealt with her evidence?
5	A	It's possible, but, you know, I'm not sure. I
6		mean, this wasn't a situation that I was
7		confronted with.
8	Q	Sure.
9	A	So it's very difficult for me to say at this time
10		what I might have done.
11	Q	Okay.
12	А	I just have no I had no intimation that this
13		was the reason and I was proceeding on the footing
14		that nothing like that had happened.
15	Q	And can you, and I appreciate that this is now
16		hypothetical or speculative because you didn't
17		know it at the time, but can you envision some
18		circumstance where this utterance might be used in
19		the proceedings, in the 9(2) proceeding or somehow
20		to bolster the position that, I mean, another
21		prior inconsistent statement, albeit this one is
22		not in writing? Would that be a concern?
23	A	It would be, but when you get into that area of
24		the 9(2), it would also be something that the
25		prosecution might well have decided to lead if the
		4

1		matter had been conducted in the absence of the
2		jury.
3	Q	Well, we'll maybe come back to that when we get to
4		that part.
5	А	Yes. I could see that being an aspect of it,
6		but
7	Q	In those proceedings, asked the question of her,
8		did you not tell witnesses at the preliminary
9		hearing that you had witnessed the murder?
10	А	Yes, and frankly, I think the trial judge probably
11		would have permitted that.
12	Q	If we can go to 030692, this is the transcript of
13		Nichol John's evidence at the preliminary hearing.
14		030696, again this is just talking, again examined
15		by Mr. Caldwell, where she describes not the
16		maroon-handled paring knife, but the other knife,
17		and she says:
18		"A It resembled a hunting knife I think
19		it was a bone handle, and it had sort of
20		carvings in it, brown and sort of
21		tannish color."
22		Is that something that you would have gone back
23		to David and said is this possibly the knife that
24		you had, did it have a brown and tannish colour
25		handle on it?

1	A	Well, as	far as the hunting knife, or similarity
2		to a hun	ting knife, he told me that he had no such
3		knife.	
4	Q	If we ca	n go to page 030699, and they are talking,
5		this is	the incident after Aylesbury:
6		"Q	And did anything else happen on the way
7			up?
8		A	Yes, a truck was stolen in the same
9			town.
10		Q	Was this at the time you were stuck?
11		A	Yes.
12		Q	And was it used for some purpose?
13		А	No.
14		Q	Well could you just tell the Court the
15			sequence of events there?
16		A	Well David said he was going to get
17			help, and he came back with this
18			truck, and we were going to pull the
19			car out but there was no chain, so
20			then he just parked the truck
21			somewhere, and then got into the car.
22		Q	And did you use the truck, or did Dave
23			or anybody use the truck in helping get
24			the car out?
25		А	No."
	1		•

1		Do you have any recollection of discussing that
2		fact, or that allegation with David, about
3		whether a truck was stolen?
4	A	No, I don't. I recall us discussing the stop in
5		what I believed to be Craik, but as far as any
6		details, now, there may have been a discussion
7		about the reverse gear going out, but I don't
8		recall any such discussion.
9	Q	Go to 030704, again this is Mr. Caldwell just
10		going through about where they got stuck, she says
11		here, " behind the funeral home," and then the
12		next page, and it talks about Ron and David
13		getting out, and then the next page:
14		"Q What happened then?"
15		And then she says:
16		"A I don't recall."
17		And I think Mr. Caldwell made a couple of
18		attempts to have her talk about what happened in
19		the alley and it was "I don't recall."
20		If we can go to the next page,
21		030708, and then here:
22		"Q I see. Now then, when the two, Dave and
23		Ron got back in the car, what happened
24		next?
25		A I remember driving down another
		4

1

2

alley."

And then I think she carries on about going to the motel, it talks about the compact, which I don't think we need to go through, and then to page 030727, I think here Mr. Caldwell makes another effort to go back, he says:

I'd like to go back, just over one area, and ask you some more things, please, and that is the area where you've told the Court where you've told the Court that the car got stuck in the entrance to the alley, near the funeral home, do you remember that?

A Yes."

And then I think he goes on with some questions and she does not recall again.

Then to page 030730 is where you start your cross-examination. Would you have had any discussion with Mr. Caldwell after this point about what he was going to do or what his thoughts were about his case in light of the fact that someone, according to a statement, who was an eye witness now, was not repeating that evidence?

We may have, but I certainly don't recall any

		Page 24361 —————
1		discussion of that nature.
2	Q	Would you have gone to him and asked him to review
3		the case again or anything like that?
4	А	It's possible, but I just simply don't recall any
5		discussion at that time with this course of
6		conduct in mind.
7	Q	The first question you ask Nichol John, now this
8		is at the preliminary hearing, is:
9		"Q Miss John, I don't think that you've
10		ever spoken to me before in your life,
11		have you?
12		A No."
13		Would there be a purpose in that question?
14	А	Well, I think even at that stage, the atmosphere
15		was such that there might well be a suspicion that
16		somebody had exerted persuasive influence on her.
17	Q	And so the purpose here would be to establish that
18		you had never talked to her?
19	А	That I or anyone on behalf of David. I didn't
20		want anything of this nature being visited upon
21		him either directly or indirectly.
22	Q	Now, we talked a couple of days ago about your
23		practices in interviewing significant Crown
24		witnesses and you told us that there were perils
25		in doing so. Can you tell us what position you
		•

1		would have been in if you had in fact interviewed
2		Nichol John prior to the preliminary hearing and
3		then at the preliminary hearing and trial she did
4		not adopt the incriminating parts of the
5		statement?
6	A	Well, there's always the risk of an allegation or
7		a suspicion that somebody got to her and certainly
8		in re-examination it might well be that the Court
9		would permit a question to be asked, well, who did
10		you speak to since giving that statement, and of
11		course in those circumstances the atmosphere might
12		well be that the defence had something to do with
13		her change of mind and that would reflect badly on
14		David.
15	Q	Go to 030734, again, you do ask her is it fair
16		to say that you would have changed your approach
17		to your cross-examination of Nichol John at the
18		preliminary hearing based upon her
19		evidence-in-chief?
20	А	There's no doubt that I would.
21	Q	So here she indicates that after they talked to
22		the girl, it was only a few minutes later, two to
23		three minutes when they got stuck, and would that
24		be more consistent with what David Milgaard had
25		told you?

		——————————————————————————————————————
1	А	Yes, except with your preamble concerning the
2		distance, I wasn't sure, you know, how far they
3		had gone.
4	Q	Right.
5	А	But certainly the time factor is there and
6		consistent with what he had told me.
7	Q	Page 030743, confirmed here that there was no
8		blood on the trousers, that David had changed, and
9		I think that was her position through not only the
10		statement, the prelim and trial; is that correct?
11	А	That's my recollection, as well as no blood on his
12		hands or anything like that.
13	Q	We're done with the prelim transcript. Now
14		COMMISSIONER MacCALLUM: Sorry, that was
15		Ron's trousers?
16		MR. HODSON: I'm sorry, did I have the
17		COMMISSIONER MacCALLUM: I just wanted to
18		be sure that we're all thinking about the same
19		thing.
20		MR. HODSON: Okay, I think 139 I gather
21		you did not see anything like that on Ron's, and
22		then 139:
23		"Q And you did not see any blood, or
24		anything resembling blood on the
25		trousers that David changed?"
	li .	

1 And then: 2 None that I can recall at least." 3 So I think it was both Ron and David. COMMISSIONER MacCALLUM: 4 And that was --5 the witness' answer, that was consistent with --With what David had told you. 6 MR. HODSON: COMMISSIONER MacCALLUM: Did David tell him 8 anything about seeing blood on Ron? BY MR. HODSON: 10 0 Oh, I'm sorry. Maybe I haven't asked you that. Do you recall talking to David Milgaard about 11 12 whether he observed any blood on Ron Wilson's 13 pants? 14 No, David was quite firm with me that he had no Α 15 blood on his clothes or person and he did not in 16 any way suggest that anybody else in the car had 17 blood on them, and that included Ron. In other 18 words, he was very firm that nobody in the car had 19 anything to do with this. 20 Now, after you were done with Nichol John's 21 evidence at the preliminary hearing, would you 22 have had further discussions with David Milgaard 23 about what, again trying to assess -- you earlier 24 told us you were trying to assess her motive in

what would cause her to make the May 24th

25

1		statement. Did you have some discussions about
2		what might have caused her to not repeat that or
3		what was going on?
4	A	Well, I'm sure I did because I did send him a copy
5		of the preliminary hearing and then we discussed,
6		you know, the contents of the preliminary hearing
7		and what had happened, and I don't recall the
8		specific conversation, but I know that he
9		certainly didn't have any suggestion as to why she
10		might be doing what she was, but in particular I
11		know from what he told me that he had not been in
12		touch with her and it was quite clear to me,
13		although I can't recall the exact conversation,
14		that he hadn't arranged to have anybody else get
15		in touch with her.
16	Q	Would you have pursued that issue with him to
17		ensure that
18	A	Oh, yes, I wanted to know so that that wasn't an
19		explanation that was later offered in any
20		proceeding.
21	Q	And were you, did you become satisfied that no one
22		from, no one on David's behalf had talked to
23		Nichol John prior to her giving evidence at the
24		preliminary hearing?
25	A	I was quite satisfied of that, that no attempt had

1		been made to exert pressure on her at all, and I
2		don't think anybody had talked to her. Certainly
3		David hadn't.
4	Q	Okay.
5	A	And I don't think anybody in his family had.
6	Q	Now, before the trial, do you recall whether you
7		would have had any further discussions with Mr.
8		Caldwell about anticipating what she might say at
9		trial?
10	A	We may have, but I do not recall anything about
11		it.
12	Q	I think we've heard some evidence that section
13		9(2), which we'll deal with tomorrow, was a recent
14		amendment to the Evidence Act; is that right?
15	Α	Yes, I think that's accurate, but I don't think I
16		recall as I recall it, there was no reported
17		cases on it at that time.
18	Q	Prior to the trial then, would you have briefed or
19		looked into the law in this area as to what use if
20		any could be made of Nichol John's May 24th, '69
21		statement in the event that she testified as she
22		had at the preliminary hearing?
23	Α	Well, from work that I had done, I was quite
24		familiar with the new amendment even before it
25		came into force, and I know that I directed my
	1	

1 mind to it in general terms being involved in the 2 practice, and secondly, I realized that to at 3 least some extent it appeared to me to codify principles that had been articulated I think in 4 5 some English cases, and maybe even some other cases, but I recall in general terms having looked 6 into it very early in the going in the sense that before it became an established provision in the 8 9 Evidence Act, I knew it was coming into force. 10 MR. HODSON: And maybe I'll break here and 11 pick up on this tomorrow morning when we get into

the trial transcript.

COMMISSIONER MacCALLUM: Thank you.
