Appearances Milgaard Inquiry Vol 121 - Thursday, February 9th, 2006

Commission Staff:

Mr. Douglas C. Hodson,	Commission Counsel
Ms. Candace D. Congram,	Executive Director
Ms. Sandra Boswell,	Document Manager
Ms. Kara Isabelle,	Document Assistant
Ms. Cheryl Ellerman,	Document Assistant

Support Staff:

Ms. Irene Beitel,	Clerk to the Commission
Ms. Karen Hinz, CSR,	Official Q.B. Court Reporters
Mr. Hugh Esson,	Security Officer
Mr. Tony Fitzgerald,	Audio Technician

Appearances Milgaard Inquiry Vol 121 - Thursday, February 9th, 2006

Page 24371

Appearances:

Mr. Hersh Wolch, Q.C.,	for Mr. David Milgaard
Ms. Joanne McLean,	for Ms. Joyce Milgaard
Ms. Lana Krogan,	for Government of Saskatchewan
Ms. Catherine Knox,	for Mr. T.D.R. (Bobs) Caldwell
Mr. Garrett Wilson, Q.C.,	for Mr. Serge Kujawa
Mr. Pat Loran, Esq. and M	r. Jay Watson, Esq., for the
	Saskatoon Police Service
Mr. Aaron Fox, Q.C.,	for Mr. Eddie Karst
Ms. Rochelle Wempe,	for the RCMP
Mr. David Frayer, Q.C.,	for Minister of Justice
	(Canada), The Hon. Vic Toews
Mr. Alexander Pringle, Q.	<i>C.,</i> for Justice Calvin Tallis
	(Retired)

1		Transcript of Proceedings
2		(Reconvened at 9:05 a.m.)
3		COMMISSIONER MacCALLUM: Good morning.
4		ALL COUNSEL: Good morning.
5	<u>.</u>	CALVIN FORRESTER TALLIS, continued:
6	1	BY MR. HODSON:
7	Q	Good morning, Mr. Tallis. When we broke yesterday
8		we had started to talk about Nichol John and her
9		evidence and went through the preliminary hearing
10		and we talked a bit about her statement and what
11		was in her statements, what wasn't in her
12		statements and her evidence at the preliminary
13		hearing. Before I go to the trial transcript, if
14		we could call up 179439, please, and just for the
15		record, you told us these would have been the
16		notes that you would have prepared based upon her
17		evidence at the preliminary hearing and I think
18		you told us that these would have been used as a
19		guide for you in preparing your cross-examination
20		questions at trial; is that correct?
21	А	Yes. I prefer to call it an index of the
22		testimony with references in it.
23	Q	And if we can go to 179446, please, just at the
24		bottom, can you tell us whether that is your
25		handwriting?
		Meyer CompuCourt Reporting

I

1	А	Yes, that certainly is my handwriting.
2	Q	And maybe we'll just go through these. I think
3		number one says, "Were you shown where the body
4		found on May 23rd and 24th, that is"
5		I'm not sure if I got that. Maybe you better
6		read that for me. It might be a prescription is
7		it?
8	А	My prescription I guess.
9	Q	It says were you shown?
10	А	"Were you shown where her body found on May 23rd
11		or 24th, this is before statement and were you
12		told that the girl had been stabbed a number of
13		times." And then, "purse, wallet, contents of
14		purse, Cavalier, tear on trousers, how was she
15		dressed, toque, long toque - green in it, how long
16		were you and Wilson out there by Shorty's."
17	Q	So would these be reminders of areas that you
18		might want to canvass?
19	А	I'm sure that they were not notes that I put on
20		there at the time I prepared this index and
21		summary of the testimony at the preliminary
22		hearing, but somewhere along the way I jotted them
23		down on the master copy, if I may use that term.
24	Q	Okay. If we could now go to the trial transcript,
25		003050, please. Just give me a moment, I'm going
		Meyer CompuCourt Reporting

Page 24375 =

		——————————————————————————————————————
1		to aboak the data According to our abranalogy. T
		to check the date. According to our chronology, I
2		believe the first two witnesses called at the
3		trial, the first was Ron Wilson and the second was
4		Nichol John. Does that accord with your
5		recollection?
6	А	I'm sure that you are correct. I don't at this
7		stage recall the order, but just looking at the
8		index
9	Q	Actually, I'm sorry, it looks like Thor Kleiv was
10		the first.
11	А	Kleiv, but the first of the, you might say,
12		friends.
13	Q	And then if
14	А	Wilson
15	Q	I'm sorry?
16	А	Wilson, John and Cadrain, I'm sure that's in the
17		right order.
18	Q	And then if we could go to 003055, again this just
19		talks about time, 6:30, and then the next page,
20		this is examination-in-chief, I just want to touch
21		on a couple of areas before we get to your
22		cross-examination, and then this is the reference
23		to the two knives that Mr. Wilson said he saw.
24		Yesterday we talked, we spent a bit of time on the
25		bone-handled hunting knife that both I think Ron
-		•
L		Meyer CompuCourt Reporting

1		Wilson and Nichol John, and I stand to be
2		corrected, but I think they both said they
3		observed that on David Milgaard on the trip from
4		Regina to Saskatoon. We have heard some evidence
5		regarding a bone-handled hunting knife that was
6		found by the police in the alley I think a couple
7		of months after the murder by Constable Oliver and
8		the evidence we've heard is that it was brought
9		to, I think both the preliminary hearing and the
10		trial, but the Crown didn't tender it as evidence,
11		and I think Mr. Caldwell's evidence here before
12		the Commission was that there was nothing to
13		suggest that it was involved in the crime and I
14		think he said that you were aware of it, shown to
15		you and basically it wasn't tendered and returned
16		to the police. Do you have any recollection of a
17		bone-handled hunting knife being found by the
18		police and its involvement in these proceedings?
19	А	I'm sure I was aware of it because I had talked to
20		David about whether or not there was a second
21		knife and I've already told you about that.
22	Q	And the fact that Mr. Caldwell had this
23		bone-handled hunting knife and didn't tender it,
24		would you or did you see under any circumstance
25		where it would help your case to tender a second
		1

knife, the bone-handled hunting knife as being

1

1		kinite, the bone-handled hunting kinite as being
2		found in the back alley in any way to help David
3		Milgaard's defence?
4	А	I'm sure I didn't think so.
5	Q	In fact, what about, if that bone-handled hunting
6		knife had been tendered as an exhibit as being
7		found in the alley, based on the evidence did you
8		have any concerns whether that might be damaging
9		to David's case?
10	А	Well, it might be viewed as tending to confirm
11		some of the statements of Wilson and John, but I
12		use the term might, and I'm sure I was thinking
13		about that, but now to tell you specifically what
14		was going on, I really can't do it, but I'm quite
15		sure that what you've mentioned is correct.
16	Q	Maybe just take that a bit further. In light of
17		what the evidence of Nichol John and Ron Wilson
18		was about the bone-handled hunting knife, would
19		you be in a position to say, for example, argue
20		that there were two murder weapons and the second
21		one was a bone-handled hunting knife found in the
22		back alley a month later and somehow try to put
23		that forward saying that's a murder weapon too or
24		belonged to the murderer and therefore that
25		exculpates or helps David's case?
		Meyer CompuCourt Reporting Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

1	А	I don't think there was anything about the knife
2		or its examination that identified it as a
3		potential as a murder weapon, but I don't
4		recall now that, but
5	Q	I think that's the case. As defence counsel,
6		would you want the jury to be aware that a
7		bone-handled hunting knife was found in the back
8		alley near where Gail Miller's body was found?
9	А	No, I do not think that such testimony or physical
10		evidence would have helped his case in the
11		circumstances, but particularly in the light of
12		what he had told me.
13	Q	Would it have hurt his case in your judgment?
14	А	It may well have, and I'm sure that was going on
15		in my mind at the time. I don't remember going
16		over to look at it, but I'm sure if Mr. Caldwell
17		said that he showed it to me at some stage, I'm
18		sure that I did see it and made a decision with
19		respect to as a matter of fact, I might well
20		have objected to it being tendered in evidence on
21		the footing that the Crown was not able to connect
22		it in any way to the homicide, and it's like
23		anything else that's found, unless there's some
24		causal link, I don't think I would want the
25		proceedings cluttered up with a knife of that
		Meyer CompuCourt Reporting

10

11

nature or any other knives or instruments that had been found there unless there was something significant from our standpoint.

Q Okay. If we can go to page 003060, and again this is Mr. Caldwell's examination, and I just want to touch on what she said in chief about their trip and what she didn't say so that we can put your cross-examination in the 9(2) proceedings in context. She talks about seeing a church as a landmark, did you see any people, at what stage was that in relation to the church:

12 " A It was before I saw the church." 13 And then if we can go to the next page, she talks 14 about stopping a woman for directions, and I 15 think we've been through this in the statement. 16 Were you able to, as far as how they described, 17 both Ron Wilson and Nichol John described this 18 woman as wearing a dark coat, Nichol John 19 describes it as a cape of that nature, was that 20 consistent with what Mr. Milgaard had told you 21 she was dressed in, the woman they stopped? 22 Α Well, I think he used the term coat, that's my 23 recollection now, but as far as any other 24 specifics, I don't recall what type of hat he said 25 she was wearing or anything like that.

AS.

- Page 24380 -

		Page 24380
1	0	And then just down at the bottom of that page
	Q	
2	A	I noticed that, I remember Nichol John didn't use
3		the term "girl" as I recall it, she used the term
4		"woman", or slightly different words.
5	Q	Right.
6	А	But a lady, but later on she of course referred
7		to her being in the 20s.
8	Q	Right. If we can maybe just go to the top of the
9		page, she does:
10		"A It was a woman."
11		And down at the bottom, she said:
12		"A She was approximately in her twenties I
13		figured."
14	А	Yes.
15	Q	So again I think we had Ron Wilson saying girl,
16		Nichol John saying woman in her 20s and David
17		Milgaard saying an older woman which I think you
18		took to be in the early to mid 30s; is that
19		correct?
20	А	Well, I think I I think I indicated to you
21		perhaps within the 35 to 40 range.
22	Q	Oh, I'm sorry.
23	А	But, you know, this is very difficult to recollect
24		in specific terms, but that's my sense today, and
25		it was the other day, that it was in that range,
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

	because we spent quite a bit of time, at least I
	spent quite a bit of time, so did he, talking
	about how he arrived at the term "older woman",
	and as I've told you before, the aspects that I
	raised including a comparison, say, with my own
	age.
Q	If we can go to page 003065, and here's where she
	described after leaving the woman went about half
	a block to another intersection, and next page,
	and she describes getting stuck, going around the
	boulevard on some ice, and then scroll down, we've
	been through this before, it's a bit confusing, I
	think she describes getting stuck for a short
	while before they actually got stuck again behind
	the funeral home, and I think when the examination
	is occurring I think there might be some confusion
	about that and we've been through that.
	If we can then go ahead to
	003075, and I don't think she was able to say how
	long they were away from the car, but here's where
	Mr. Caldwell asks:
	"Q So then when Dave got back in the car on
	what we have been calling the second
	time at the curb as you say, what
	happened then?

Calvin Tallis by Mr. Hodson Vol 121 - Thursday, February 9th, 2006

	Page 24382
	1 úgo 2 4002
1	A Then we drove away."
2	And then go to the next page:
3	"Q What is the next place you got to that
4	you can assign a name to or a
5	description?
6	A Well, I remember getting stuck in
7	another alley which I now know to be
8	behind a funeral home."
9	It goes on to describe that, and in an alley, and
10	on an incline.
11	And if we can go to the next
12	page, and here Mr. Caldwell asks her about what
13	happens:
14	"Q what happened when you got stuck at
15	that juncture?
16	A Well, Dave got out of the car to see
17	if we could get unstuck. He came back
18	into the car and then he told Ron that
19	we couldn't. So then I remember both
20	of them getting out and looking.
21	Other than that I think they tried to
22	push the car; I'm not too sure
23	though."
24	And then the next page, and then talks, just
25	scroll down, talks about Dave getting out only
	Mever CompuCourt Reporting

1 for a few minutes, just to the back of the car 2 and then back in, and then at the bottom she says 3 they both got out, so this is the second time. ... okay; are we to understand that on 4 "0 5 this occasion on the incline where you were stuck that that would be the first 6 7 time Ron was out, that is when they both 8 went out together? 9 Α Yes." 10 And then some questions, go to the next page, and then again, as I said, it's a bit confusing, but 11 12 I think they are getting mixed up, the questioner 13 and the answerer between which occasion, but in 14 any event, when they arrived back -- let me just 15 I think Nichol John talked about when back up. 16 they first got stuck on the incline behind the 17 alley they got out to check for a couple of 18 minutes to try and push them out and then got 19 back in the car, and then here again: 20 "A Well, Ron went one way and Dave went the 21 other way. 22 Q ... so this incident we have been 23 talking about up to now was simply a go 24 to the back of the car and look sort of 25 thing, was it? Meyer CompuCourt Reporting =

Ī

1	A Yes."
2	And now middle of the page, the description, any
3	attention to which way either of them went:
4	"A Ron went to the left and David went to
5	the right as the car was facing."
6	Then the next page, I think this is where we get
7	into the key area, the question:
8	"Q Now, what is the next thing that
9	happened?
10	A Well, I remember Dave getting back
11	into the car. That's about all."
12	And I've skipped through the transcript,
13	Mr. Tallis, but this is where in her statement
14	she had described, before David got back,
15	witnessing him grabbing the girl and stabbing
16	her, so now this is the same time frame, she
17	says:
18	"A Well, I remember Dave getting back into
19	the car, that's about all.
20	Q And who got back first of the two?
21	A Well, Ron must have because when Dave
22	got back into the car I moved over to
23	Ron so
24	Q You say Ron must have been back before
25	Dave?
	Meyer CompuCourt Reporting

Calvin Tallis by Mr. Hodson Vol 121 - Thursday, February 9th, 2006

Page 24385 1 Right. Α 2 How much before Dave? 0 3 I don't know. Α 4 How long do you estimate Dave was out on Q 5 this occasion? I don't know ... 6 Α 7 I take it all you can say is longer at 0 8 any rate? 9 Α Yes." 10 And then the next page: Now, up till the point when Dave got 11 "O 12 back in on this occasion had you up till 13 this point seen anything of any other 14 person than the two of them and yourself 15 since you got unstuck at the 16 intersection? 17 Not that I can recall." Α 18 And again, that would be in her statement where 19 she said that she did see David Milgaard and the 20 And then the Court: qirl. 21 "O And when you were stuck there on this 22 incline I take it from what you said 23 there wasn't any car in front of you ... 24 No." Α 25 And just scroll down. = Meyer CompuCourt Reporting =

by Mr. Hodson Vol 121 - Thursday, February 9th, 2006 Page 24386 1 "0 Alright; now, when the two of them were 2 back in did you notice anything about 3 say the condition or appearance of either of them? 4 5 Α Well, Dave looked cold, that's about all. 6 7 And what happened when they were both 0 8 back in? 9 Then we started driving again." Α 10 And then the next page, she's asked about how 11 they got unstuck and she says: 12 " A I can't recall that." 13 And then the next page, Mr. Caldwell is asked 14 about how their car got stuck and the judge says: 15 "Surely you must have known whether 16 somebody was pushing you. You remember 17 sitting in the car in the front seat -18 you must have known whether someone was 19 pushing you to get out of there, don't 20 you? 21 Α I don't remember." 22 And at this point, Mr. Tallis, just trying to get 23 a sense of whether you recall whether Chief 24 Justice Bence at this point -- I think you've 25 told us earlier the atmosphere during Nichol

Calvin Tallis

		Page 24387
1		John's evidence, and we'll get into this in a bit
2		greater detail, but do you recall whether at this
3		point the judge was becoming concerned about
4		Nichol's evidence?
5	А	Well, I don't recall this specific area, but
6		reading it over and trying to reflect back, I
7		would say certainly at this stage, even in the, in
8		this stage of the examination-in-chief, his words
9		indicate to me that he was skeptical.
10	Q	And as far as
11	А	By the words he my sense was that he was
12		skeptical of the words "I don't remember".
13	Q	Right.
14	А	And I think that comes through, and while I don't
15		specifically recollect this area of examining, I
16		certainly recollect that in her
17		examination-in-chief I sensed that he was
18		skeptical of the "I don't remember" or inability
19		to recall.
20	Q	Right. Now, the day earlier, or the day of this
21		evidence Ron Wilson was the prior witness, the
22		Court would have heard Ron Wilson testify that,
23		similarly when they left the car, but that when he
24		got back Nichol was hysterical?
25	А	That's correct.
		Meyer CompuCourt Reporting

K

Page 24388

Ī

		1 age 2 +300
1	Q	And so I take it Chief Justice Bence would have
2		been aware of that evidence and as well Ron
3		Wilson's other evidence that tended to incriminate
4		Mr. Milgaard, that had already been out at the
5		trial; correct?
6	А	Yes.
7	Q	As far as her statement, Nichol John's statement,
8		would the judge have been aware of the contents of
9		that are you able to tell us at this stage?
10	А	I don't think he would have been.
11	Q	Now, when we get
12	А	Because and I say that because that statement,
13		I don't think he had read the preliminary hearing,
14		but I don't think that that statement would not
15		be on the Court file.
16	Q	And I suppose at this point though, in light of
17		what Mr. Wilson said, the question may have been
18		if she was hysterical must have been I suppose
19		an inference could be drawn that if she was
20		hysterical, she must have seen something; is that
21		a fair inference that the jury might draw?
22	А	Yes, I think the inference you suggest is a
23		reasonable one.
24	Q	And so is it possible at this point that the judge
25		is concerned that Nichol John maybe is holding
		Meyer CompuCourt Reporting
	(Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

1		back? I mean, I think you told us yesterday that
2		that may have come out a bit later. May it have
3		started at this point on how they got pushed out?
4	А	I think so, having read it, this is a reasonable
5		suggestion on your part. I have no difficulty
6		understanding what you are saying.
7	Q	And I appreciate, I think what you are saying is
8		you can't specifically recall, you can't go back
9		and say yes, I remember this question and I
10		remember at that point that things started to go
11		this way, but looking back at it, I think you've
12		told us you have a general recollection and
13		impression of the judge's demeanour towards her
14		and, based on that, this may have been the start
15		of it; is that a fair summary of your evidence?
16	А	Yes, and I have a general impression too of the
17		witness' demeanour and that I'm sure is something
18		that caught the attention of the presiding judge.
19	Q	And can you tell us again at this early stage, I
20		presume that you would have been fairly
21		attentive well, throughout the trial, but
22		certainly at this stage you knew at the
23		preliminary hearing that she didn't repeat her
24		evidence
25	А	That's right.

		——————————————————————————————————————
1	Q	about this part, presumably at trial you didn't
2		know whether she was going to repeat it or not; is
3		that fair?
4	А	Yes. You know, you learn to expect the unexpected
5		at times and
6	Q	And when she went through this part of her
7		evidence-in-chief with Mr. Caldwell, and I've just
8		gone through parts of it where she says I don't
9		remember, what observations did you make about
10		Nichol John's demeanour in giving that evidence?
11	А	Well, first of all, this was consistent
12		essentially with what, how she handled herself at
13		the preliminary hearing, but I could see that
14		having regard to the answers and her demeanour
15		people might well feel that she was holding back
16		for some reason, and when I say that, of course, I
17		refer not only to the impression she may have been
18		making on the jury, but also on the presiding
19		judge. Now, I certainly can't look into the
20		judge's mental processes, I have enough difficulty
21		trying to revive my own.
22	Q	So on this point, just before we leave this then,
23		I think what the judge is saying, even when she
24		describes the incident and what happened, he's
25		picked up on one point, is that lookit, you know,
		Meyer CompuCourt Reporting

		Page 24391
1		you've told us about what happened there, you got
2		out of there, surely you must know how you got out
3		of there, you were in the front seat, in a way of
4		doubting is it fair to read that that he was
5	А	That's why I used the term skeptical.
6	Q	Yeah, that he was maybe doubting her answer about
7		"I don't remember"?
8	А	Yes.
9	Q	Is that a fair read of that?
10	А	Yes, that's what I was trying to convey when I
11		used the term skeptical.
12	Q	If we can go to 003111, and again just for the
13		record, I don't think we need to go through this,
14		we've covered it before, she talks about the
15		cosmetic bag and again gives similar evidence
16		about the contents of the cosmetic bag or the
17		compact and it being thrown out.
18		And then if we can go to 003115,
19		and again this is where she testifies that:
20		"A Nobody said anything and Dave - all of a
21		sudden Dave grabbed it and he threw it
22		out the window anyway."
23		And again I think we've touched on that with
24		other witnesses and I think, I'm assuming the
25		same would apply with Nichol John that your
		Meyer CompuCourt Reporting

Page 24392 =

		——————————————————————————————————————
1		approach on the compact bag with her would be, in
2		cross-examination, to ignore it because you could
3		not dispute it?
4	А	You are correct.
5	Q	And 003123, again these are questions from Mr.
6		Caldwell confirming that neither Nichol, Ron or
7		David Milgaard were under the influence of liquor
8		or drugs during the morning of January 31, 1969.
9		And then if we can go to 003126,
10		this is where Mr. Caldwell has concluded his
11		examination and asks for an opportunity to raise,
12		and here's where we get into the section 9(2).
13	А	Yes.
14	Q	And I think you may have told us this, but would
15		you and I think you told us that you would have
16		anticipated this as a possibility and that you
17		would have briefed this area and had a position
18		ready to put forward to the judge?
19	А	Yes, I was familiar with the change in the law and
20		I'm quite sure that not only had I followed or
21		sort of tracked this development, but that that
22		was a point that I had to be prepared for, and
23		that's why I'm able to say that at that time there
24		were no reported cases or even unreported cases in
25		this jurisdiction dealing with the application of
		Meyer CompuCourt Reporting

Page 24393 1 section 9(2). 2 And again, just to sort of refresh our minds about 0 3 9(1) and 9(2) of the Canada Evidence Act, 9(2)4 states: 5 "Where the party producing a witness alleges that the witness made at other 6 7 times a statement in writing or reduced 8 to writing inconsistent with his present 9 testimony, the Court may, without proof 10 that the witness is adverse, grant leave 11 to the party to cross-examine the 12 witness as to the statement and the 13 Court may consider such 14 cross-examination in determining 15 whether, in the opinion of the Court, 16 the witness is adverse." 17 And then subsection 9(1) allowed a party calling 18 a witness to cross-examine where that witness was 19 hostile or adverse. Is that correct? 20 Yes, I think you fairly state the situation. Α 21 And it's my understanding that prior to section Q 22 9(2), the challenge was if you had an earlier 23 inconsistent statement that you wished to use to 24 establish the witness was hostile, it was a 25 difficult process to do that, to cross-examine

your own witness before you got the ruling on adversity; is that correct? Α Yes. I'm oversimplifying it, but --0 No, but I think that distills the point. The only Α thing I would add to that is that I think that by that time, although it wasn't involved here, but before section 9(2) came in, I think the Coffin case had been described and been decided in the Supreme Court and trial judges often allowed a fair degree of latitude to Crown counsel in having a witness look at a statement that they had given, read it over of course without doing it out loud, and then inviting them to refresh their memory by looking at the statement. Now, that wasn't applicable here, but just so that you understand that I was well aware of the, of that procedure and I'm sure that I had it briefed in case that path had been chosen as an alternative to begin with. Indeed, some -- I recall on occasion some trial judges would direct that that be done first. 0 And so that just so that I have this right, and please correct me if I'm wrong, that under section 9(2) it was contemplated that in this case, for

____ Meyer CompuCourt Reporting =

Page 24395 1 example, Mr. Caldwell could take a prior 2 inconsistent statement under 9(2), seek leave of 3 the Court to cross-examine his own witness as to 4 the statement? 5 Α Yes. And then use that cross-examination if its allowed 6 0 7 to then say to the judge I want her declared 8 adverse, and if that's granted under 9(1), a full 9 cross-examination going beyond? 10 Α Yes. And under the 9(1) cross-examination, at that 11 Q 12 stage the previous inconsistent statement could be 13 used by the prosecutor then to try and undermine 14 the credibility of his own witness; is that a 15 fair --16 Yes, under 9(2) as I recall it, the Α 17 cross-examination, of course it was not in any way 18 limited to the statement once the witness was 19 declared adverse or hostile. 20 Right. 0 21 It could become a wide-ranging cross-examination. Α 22 Q Under -- I think under 9(1)? 23 Α That's right. 24 0 Yeah. Just so we have it clear, under 9(2) you 25 get one crack to cross-examine on the previous Meyer CompuCourt Reporting =

1		inconsistent statement for the purposes, I
2		presume, of having the witness declared adverse.
3		Once that's done, if successful, then under 9(1)
4		you are entitled to cross-examine the witness on
5		broad-ranging matters, including the statement?
6	А	Yes.
7	Q	If we can then just go through some of these
8		submissions. Mr. Caldwell restates the section.
9		If we can go to the next page, and think,
10		Mr. Tallis, the key issue here and at trial, and
11		we're going to spend some time on this, is the
12		question of whether or not the cross-examination
13		under 9(2), the initial cross-examination, is done
14		in the presence or absence of the jury, and
15		perhaps as well the scope of that initial 9(2)
16		examination; in other words, what witnesses are
17		called and what are the parameters. Is that a
18		fair
19	А	Yeah, I think you've identified the crucial area.
20	Q	And so here Mr. Caldwell submits that he should
21		be, the cross-examination of Nichol John on the
22		earlier statement should be done in the absence of
23		the jury, that was his position, and I believe
24		that was your position as well; correct?
25	А	Yes. I think Mr. Caldwell was well aware of the
		Mover CompuCourt Penerting

1		position that I was taking, I'm sure that I had
2		indicated that to him, and I'm also not only
3		well, the record makes it quite clear to me that
4		he was in agreement with the procedure that you
5		have just outlined and that is that the matter
6		should be dealt with in the absence of the jury.
7	Q	If we can maybe simplify this a bit because we
8		went through this with Mr. Caldwell, would you
9		agree with the following, that I mean,
10		ultimately the Court of Appeal ruled on this issue
11		and set out a test under $9(2)$, and you are
12		familiar with that test; correct?
13	А	Yes. I couldn't recite the seven steps or
14		whatever they are, but I certainly
15	Q	And I will show them to you in a moment.
16	А	Yes.
17	Q	But that test, is it fair to say that in making
18		submissions to Chief Justice Bence, that both you
19		and Mr. Caldwell, number one, were in agreement on
20		how section 9(2) should be applied, and secondly,
21		that your respective submissions, both of you,
22		were consistent with or identical to what the
23		Court of Appeal ultimately ruled how the section
24		should be interpreted; is that fair?
25	А	I think that's quite an accurate and fair
		Meyer CompuCourt Reporting

assessment.

1

2	Q	And the judge didn't agree; is that correct?
3	А	No, and I think somewhere during the course of the
4		proceedings, I just want to put this in
5		perspective, I think that he indicated that he had
6		discussed it with at least some of his judicial
7		colleagues, and since this was a new section, I
8		thought that the consultation that had occurred
9		reflected, I can't say the view of every member of
10		the trial Court, but at least the view of not only
11		the presiding judge, but some colleagues on the
12		Court who probably were available for consultation
13		in Saskatoon.
14	Q	I'll go through
15	А	I surmise that from I think a comment perhaps that
16		you had directed my attention to.
17	Q	Sure, and we'll go through that. If we could just
18		go to 003129, please, and here's where the judge
19		says I think his initial position is that based
20		on the previous law:
21		" all examinations prior to the
22		enactment of this section for the
23		purpose of determining whether a witness
24		was adverse or not, was always in the
25		presence of the jury."
		Meyer CompuCourt Reporting

I	And I think what he was saying is lookit, if it's
ā	a question of determining adversity of a witness,
t	that's done in front of the jury, so his
i	inclination, at least initially, was that this
S	should be as well. He then says he wants a few
n	minutes to consider this because he didn't know
i	it was coming up, and then down at the bottom you
S	say:
	" I would like to outline my position
	on the interpretation of this section
	and prior to the enactment of this
	section it has always been my
	understanding of the law that before
	counsel could be permitted to
	cross-examine on a previous statement of
	his own witness there had to be a ruling
	by the judge"
	"Now the enactment of this
	section makes an exception to that rule
	and as I understand it you may, that is
	there is a discretion to grant leave to
	cross-examine a witness as to the
	statement and the Court may consider
	such cross-examination in determining
	whether in the opinion of the Court the

_____ Meyer CompuCourt Reporting ____

Page 24400 1 witness is adverse." 2 And then you go on, if we could scroll down, you 3 say: "... with deference I find myself in 4 5 disagreement with Your Lordship's observations ... " 6 7 Judge Bence says: 8 ". . but, Mr. Tallis, the thing is so 9 plain. If the legislature . . " 10 And then you say: "If Your Lordship would hear me . . " 11 12 He says: 13 ". . may I finish - if the legislature 14 had intended anything otherwise then it 15 should have been in the section. Do you 16 want me to read something into the 17 section that isn't there?" 18 And then you go on to talk about subsection 9(1), 19 and then the next page, and I'll just touch on, 20 if we can just scroll down -- the entire 21 transcript is in for the record for the purposes 22 of this Inquiry, Mr. Tallis, so I just want to 23 touch on some of the key parts. 24 Α Yes. 25 This is you speaking: Q

	Tage 27401
1	" I think it would be most improper
2	for Your Lordship to permit
3	cross-examination on such a statement in
4	the presence of a jury and then having
5	so permitted that to make a ruling at
6	that stage that the witness is adverse;
7	because if you do it in that manner -
8	and I say this with deference - whatever
9	observations you would then make to the
10	jury with respect to your findings -
11	suppose you said: Well, having regard
12	to the situation I am not prepared to
13	say that this witness is adverse - I
14	cannot see with respect a jury
15	necessarily following that comment, and
16	it is my contention that there is an
17	issue that must be determined by the
18	Court not by Your Lordship and the jury
19	and that is whether in the light of all
20	the circumstances the witness is
21	adverse; and I say that in considering
22	whether or not the witness is adverse
23	Your Lordship should also look at what
24	she has said here in court, her
25	demeanour, what was said in the
	Mover CompuCourt Peperting

F

		Voi 121 - Thursday, February 9th, 2006
1		nucliminanu beauing which is before Vern
		preliminary hearing which is before Your
2		Lordship"
3		Etcetera. And then if we can scroll down, I
4		think there's some further disagreement. Maybe
5		go to the next page, here you say:
6		"I say with respect that when the
7		amendment came out I can honestly say
8		that I have not been able to find a case
9		which deals with the interpretation of
10		this section "
11		And I take it that that was the status of the law
12		at that time, there was not a definitive ruling
13		on this section?
14	А	Well, and I think it's during the course of my
15		submissions I indicated that I had been unable to
16		find any case on it, and that included any
17		unreported cases, but of course we didn't have
18		computers in those days where we could dig up
19		cases the way we can now.
20	Q	And then if we can go to page 00
21	А	I might say, I think Mr. Caldwell and I were in
22		agreement that there were no reported cases, so
23		his research hadn't turned up any either.
24	Q	Then if we can go to 003135, and then the judge
25		says, and this is again still in the initial
		Mever CompuCourt Reporting

Page 24403 1 argument, the judge says: 2 "I think I had better look at the 3 statements. Have you any objection to 4 my looking at the statements now, 5 Mr. Tallis?" And you say: 6 7 "No." 8 But you say he should also look at the 9 preliminary hearing. We'll come back to that a bit later. He says: 10 "Why should I look at the preliminary 11 12 inquiry evidence?" 13 You say: 14 "... because the section vests you with 15 a discretion. It says "may", not 16 "must", and in determining whether or 17 not to grant a request to my learned 18 friend it is my submission that you must 19 look at all of the circumstances." 20 Can you maybe just elaborate on that for us, 21 Mr. Tallis, on that position? 22 Α Well, when I talk of all the circumstances, I had 23 in mind that this is the type -- the circumstances 24 should be inquired into in the absence of the 25 jury, and although this was not dealing with the = Meyer CompuCourt Reporting =

1		admissibility of a confession on a voir dire, I
2		thought that it was very important that a <i>voir</i>
3		dire be conducted even though the learned trial
4		judge disagreed almost at the very beginning of
5		the argument, and my reason for that was that I
6		thought that there would then be an obligation on
7		the Crown to call evidence of the relevant
8		circumstances under which this statement was made
9		so that the presiding judge would have those
10		circumstances before him in deciding whether or
11		not to exercise his discretion to permit that type
12		of cross-examination, and I felt that of course
13		the previous testimony that she had given at the
14		preliminary hearing was part of part of the
15		circumstances that might be relevant. Now, I've
16		tried to distill it without being too long winded
17		and, if I have, just tell me that I'm being too
18		long winded.
19	Q	No, that's fine, no. And I think when we go to
20		the actual application of the test, I'll ask you
21		to touch on this issue again.
22		If we can go to 003139, please.
23		I think then after, and I've skipped over some of
24		the discussions back and forth, but the record
25		does reflect that you and Mr. Caldwell are in
		Meyer CompuCourt Reporting

Page 24405

ſ

1		agreement regarding the exclusion of the jury.
2		The judge then decides to adjourn to consider the
3		point overnight, and the next page, 003140, he
4		comes back with his ruling.
5		You had mentioned, Mr. Tallis,
6		that you had a recollection, and I may have missed
7		it in the transcript, it may be in there, that
8		Chief Justice Bence either had or intended to
9		consult some of his colleagues on the bench?
10	А	Well, I think somewhere he made a reference
11	Q	Okay.
12	А	to that.
13	Q	I'll maybe look for it on the break.
14	А	But my recollection could be wrong, but
15	Q	And then again he asks for any further points, you
16		make a submission regarding the <i>Hunt</i> case, and
17		then he goes on to make his ruling.
18		If we can go to the next page,
19		he says:
20		"At this stage Mr. Caldwell has not
21		asked to have the witness declared
22		adverse. He has merely asked for
23		permission to cross-examine under the
24		amendment. Presumably he will after
25		such has been done ask that the witness
		Meyer CompuCourt Reporting

	Vol 121 - Thursday, February 9th, 2006
	rage 24400
1	be declared adverse if he thinks such
2	has been demonstrated.
3	There is nothing in the section
4	to state that such cross-examination is
5	for the purpose of determining
6	adversity. If Parliament had intended
7	otherwise it should and I believe would
8	have said so. It provides, however,
9	that I may consider such
10	cross-examination if the question of
11	adversity arises."
12	Ask then scroll down:
13	"I have determined that the
14	cross-examination under the section
15	shall take place in the presence of the
16	jury."
17	And calls the jury back in.
18	Now, before I go through what
19	happened in Mr. Caldwell's examination and your
20	cross-examination of Nichol John, I want to take
21	a look at what the Court of Appeal subsequently
22	concluded was the correct procedure and I want to
23	go through that and get your comments, and then
24	we'll go back and look what actually happened at
25	the trial, what you did based on Chief Justice

Meyer CompuCourt Reporting ___________ Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980 Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv

1 S

[Page 24407
1		Bence's ruling, and secondly, what you could and
2		would have done if he had made the correct ruling
3		that the Court of Appeal said he should have
4		done. Do you follow where I'm going to go?
5	А	Yes.
6	Q	And if we can go to 009340, and this is the Court
7	-	of Appeal, if we can go to 009363, and in fact one
, 8		of the grounds of your appeal to the Court of
9		Appeal was the fact that Chief Justice Bence erred
, 10		
	7	in the application of section 9(2); correct?
11	A	That's correct.
12	Q	And so this starts at the bottom, we can just skip
13		ahead to 009365, and I think it might be
14		worthwhile just to go through this. The Court
15		says:
16		"It is to be noted that the right to
17		cross-examine one's own witness
18		respecting a statement in writing, or
19		reduced to writing, previously made by
20		the witness inconsistent with the
21		evidence given, is not an absolute
22		right. The Judge, in the exercise of
23		his discretion, may or may not grant
24		that permission. This requires some
25		preliminary inquiry by the Judge. That
		Meyer CompuCourt Reporting

E

Page 24408

1		being so, I think the consideration and
2		disposition of the application in jury
3		trials should be made in the absence of
4		the jury. Allegation in the presence of
5		the jury that the witness had, on
6		another occasion, said something
7		inconsistent with what she said in
8		evidence, when leave to cross-examine is
9		refused, might have a very adverse
10		effect on the jury's deliberations,
11		particularly as to the effect to be
12		given to the evidence of that witness."
13		I think that's one of the points that you had
14		raised that we touched on in front of Chief
15		Justice Bence; correct?
16	А	Yes.
17	Q	And then the next page, the Court sets out the
18		seven steps which I think became known as the
19		Milgaard Rule; is that correct, Mr. Tallis?
20	А	Yes, certainly that was one way of expressing it
21		in shorthand.
22	Q	And let's just quickly go through them. The first
23		step is:
24		"(1) Counsel should advise the Court
25		that he desires to make an
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

	Page 24409 — Page
1	application "
2	Mr. Caldwell did that.
3	(2) When the Court is so advised, the
4	Court should direct the jury to retire."
5	I think that was partly done.
6	(3) Upon"
7	Actually, the jury did retire to consider the
8	application.
9	"(3) Upon retirement of the jury,
10	counsel should advise the learned trial
11	Judge of the particulars of the
12	application and produce for him the
13	alleged statement in writing, or the
14	writing to which the statement has been
15	reduced."
16	That happened.
17	(4) The learned trial Judge should read
18	the statement, or writing, and determine
19	whether, in fact, there is an
20	inconsistency between such statement or
21	writing and the evidence the witness has
22	given in Court. If the learned trial
23	Judge decides there is no inconsistency,
24	then that ends the matter. If he finds
25	there is an inconsistency, he should
	Meyer CompuCourt Reporting

Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980 Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv Ż

Page 24410 1 call upon counsel to prove the statement 2 or writing." 3 I think that was done as well. Counsel should then prove the 4 (5) 5 statement, or writing. This may be done 6 by producing the statement or writing to 7 the witness. If the witness admits the 8 statement, or the statement reduced to 9 writing, such proof would be sufficient. 10 If the witness does not so admit, counsel then could provide the necessary 11 12 proof by other evidence. 13 (6) If the witness admits making the 14 statement, counsel for the opposing 15 party should have the right to 16 cross-examine as to the circumstances 17 under which the statement was made. А 18 similar right to cross-examine should be 19 granted if the statement is proved by 20 other witnesses. It may be that he will 21 be able to establish that there were 22 circumstances which would render it 23 improper for the learned trial Judge to 24 permit the cross-examination, 25 notwithstanding the apparent

	Vol 121 - Thursday, February 9th, 2006 Page 24411
	1 age 24411
1	inconsistencies. The opposing counsel,
2	too, should have the right to call
3	evidence as to factors relevant to
4	obtaining the statement, for the purpose
5	of attempting to show that
6	cross-examination should not be
7	permitted.
8	(7) The learned trial Judge should then
9	decide whether or not he will permit the
10	cross-examination. If so, the jury
11	should be recalled."
12	Next page:
13	"The cross-examination provided for in
14	Section 9(2) must be in the presence of
15	the jury."
16	So again, that's once it's done. And then at the
17	bottom of the page, we'll just finish up on what
18	the Court ruled:
19	"In the present case, the learned trial
20	Judge did not pursue the procedure which
21	I have suggested be followed. After
22	deciding that the statement of Nichol
23	John previously made, was inconsistent
24	with the evidence she had given, he
25	recalled the jury. Proof of the
	Meyer CompuCourt Reporting
	Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

1 statement was then made in the presence of the jury. 3 Had the learned trial Judge no permitted the cross-examination, then I 5 think strong exception could have been taken to the procedure which he followed. In the present case he did allow the cross-examination and there i nothing that took place in the cross-examination of the witness, eithe by Crown or defence counsel, that would not have occurred had he followed the procedure I have outlined." 14 And then goes on to say at the bottom: 15 "Under these circumstances, if he erred in law, I would apply the curative provisions" 16 court to reverse the verdict; is that fair? 17 Period the court of the with the court to reverse the verdict; on the fair? 18 of the code. So in other words, it was an error that was not significant enough for the court to reverse the verdict; is that fair? 21 A 22 So if we can just go back to the previous page a maybe spend a bit of time actually, one back, 009367, and I want to talk about five and six, a in particular six, so let's talk about five and six, a in particular six, so let's talk about five and six.	I	1	Vol 121 - Thursday, February 9th, 2006 Page 24412
2 of the jury. 3 Had the learned trial Judge no 4 permitted the cross-examination, then I 5 think strong exception could have been 6 taken to the procedure which he 7 followed. In the present case he did 8 allow the cross-examination and there i 9 nothing that took place in the 10 cross-examination of the witness, eithe 11 by Crown or defence counsel, that would 12 not have occurred had he followed the 13 procedure I have outlined." 14 And then goes on to say at the bottom: 15 "Under these circumstances, if he erred 16 in law, I would apply the curative 17 provisions" 18 of the code. So in other words, it was an 19 error that was not significant enough for the 20 So if we can just go back to the previous page a 21 A 22 So if we can just go back to the previous page a 23 maybe spend a bit of time actually, one back, 24 009367, and I want to talk about five and six, a <td< td=""><td></td><td></td><td>1 ago 2 ++ 12</td></td<>			1 ago 2 ++ 12
3 Had the learned trial Judge no 4 permitted the cross-examination, then I 5 think strong exception could have been 6 taken to the procedure which he 7 followed. In the present case he did 8 allow the cross-examination and there i 9 nothing that took place in the 10 cross-examination of the witness, eithe 11 by Crown or defence counsel, that would 12 not have occurred had he followed the 13 procedure I have outlined." 14 And then goes on to say at the bottom: 15 "Under these circumstances, if he erred 16 in law, I would apply the curative 17 provisions" 18 of the code. So in other words, it was an 19 error that was not significant enough for the 20 Court to reverse the verdict; is that fair? 21 A 22 Q So if we can just go back to the previous page a 33 maybe spend a bit of time actually, one back, 34 in particular six, so let's talk about five and six, a 35 in particular six, so let's	1		statement was then made in the presence
4 permitted the cross-examination, then I 5 think strong exception could have been 6 taken to the procedure which he 7 followed. In the present case he did 8 allow the cross-examination and there i 9 nothing that took place in the 10 cross-examination of the witness, either 11 by Crown or defence counsel, that would 12 not have occurred had he followed the 13 procedure I have outlined." 14 And then goes on to say at the bottom: 15 "Under these circumstances, if he erred 16 in law, I would apply the curative 17 provisions" 18 of the code. So in other words, it was an 19 error that was not significant enough for the 20 Court to reverse the verdict; is that fair? 21 A 22 Q So if we can just go back to the previous page a 23 maybe spend a bit of time actually, one back, 24 009367, and I want to talk about five and six, a 25 in particular six, so let's talk about five and	2		of the jury.
5 think strong exception could have been 6 taken to the procedure which he 7 followed. In the present case he did 8 allow the cross-examination and there i 9 nothing that took place in the 10 cross-examination of the witness, eithe 11 by Crown or defence counsel, that would 12 not have occurred had he followed the 13 procedure I have outlined." 14 And then goes on to say at the bottom: 15 "Under these circumstances, if he erred 16 in law, I would apply the curative 17 provisions" 18 of the code. So in other words, it was an 19 error that was not significant enough for the 20 So if we can just go back to the previous page a 21 A 22 Q 30 if want to talk about five and six, a 23 maybe spend a bit of time actually, one back, 24 009367, and I want to talk about five and six, a 25 in particular six, so let's talk about five and	3		Had the learned trial Judge not
6 taken to the procedure which he 7 followed. In the present case he did 8 allow the cross-examination and there i 9 nothing that took place in the 10 cross-examination of the witness, eithe 11 by Crown or defence counsel, that would 12 not have occurred had he followed the 13 procedure I have outlined." 14 And then goes on to say at the bottom: 15 "Under these circumstances, if he erred 16 in law, I would apply the curative 17 provisions" 18 of the code. So in other words, it was an 19 error that was not significant enough for the 20 Court to reverse the verdict; is that fair? 21 A 22 Q 30 if we can just go back to the previous page a maybe spend a bit of time actually, one back, 009367, and I want to talk about five and six, a 25 in particular six, so let's talk about five and	4		permitted the cross-examination, then I
followed. In the present case he did allow the cross-examination and there i nothing that took place in the cross-examination of the witness, eithe by Crown or defence counsel, that would not have occurred had he followed the procedure I have outlined." And then goes on to say at the bottom: "Under these circumstances, if he erred in law, I would apply the curative provisions" of the code. So in other words, it was an error that was not significant enough for the Court to reverse the verdict; is that fair? So if we can just go back to the previous page a maybe spend a bit of time actually, one back, 009367, and I want to talk about five and six, a in particular six, so let's talk about five and	5		think strong exception could have been
 allow the cross-examination and there i nothing that took place in the cross-examination of the witness, eithe by Crown or defence counsel, that would not have occurred had he followed the procedure I have outlined." And then goes on to say at the bottom: "Under these circumstances, if he erred in law, I would apply the curative provisions" of the code. So in other words, it was an error that was not significant enough for the Court to reverse the verdict; is that fair? A Yes. So if we can just go back to the previous page a maybe spend a bit of time actually, one back, 009367, and I want to talk about five and six, a in particular six, so let's talk about five and 	6		taken to the procedure which he
 9 nothing that took place in the 10 cross-examination of the witness, eithe 11 by Crown or defence counsel, that would 12 not have occurred had he followed the 13 procedure I have outlined." 14 And then goes on to say at the bottom: 15 "Under these circumstances, if he erred 16 in law, I would apply the curative 17 provisions" 18 of the code. 1 let's talk about what should have happened. 2 I think what we know, if I can 3 just back up, what we know from the facts and the record, that Nichol John was interviewed by a 4 5 number of police officers prior to May 23rd, she was then interviewed by Inspector Roberts on May 6 7 23rd at the Cavalier Hotel, was not polygraphed. We've heard some evidence that that interview may 8 9 have been recorded or listened in by some other 10 police officers based on the information of Mr. 11 Chartier. We also know that she was then kept 12 overnight at the Saskatoon police station and then 13 the following morning she gave a sworn statement 14 to Ray Mackie, and I suppose we could go back even 15 further and say that we know on March 11th, '69 16 she gave her initial statement to Inspector 17 Riddell and the record also shows that she was 18 interviewed by the police on at least one more 19 occasion in between the two statements. 20 If we go back, Mr. Tallis, and 21 look at what the Court of Appeal said about -- and 22 talk about the circumstances. Certainly what we 23 know, and I'll take you to this, Nichol John, when 24 she was examined by Mr. Caldwell, or 25 cross-examined, said basically yes, I signed the Meyer CompuCourt Reporting =

1		statement, I gave the statement, I remember giving
2		it to Mr. Mackie, but I don't remember, I think in
3		essence, telling him certain parts of it, and I
4		don't remember those parts of it happening, and so
5		as far as the giving of the statement, I think she
6		acknowledged that it was hers, but if we can talk
7		for a moment on what you could have or would have
8		done if let's talk about paragraph 6, applied.
9		Can you tell us for example,
10		let's start off with Nichol John. If you had
11		if you would have been allowed to cross-examine
12		her in the absence of the jury with respect to the
13		giving of the statement and the circumstances
14		under which the statement was made, can you tell
15		us some of the areas you may have canvassed with
16		her given that opportunity?
17	А	Well, in general terms, it would have been safe to
18		conduct a much more wide-ranging cross-examination
19		and, in particular, to deal with her contact with
20		the polygraph operator and the circumstances there
21		as well as with respect to as well as with
22		other police officers. Now, that sums it up
23		because this would be consistent with the position
24		I took, and which I think the judgment on appeal
25		recognized, that the judge should, on this

Inquiry, have an opportunity to consider all of the circumstances, and that would include all the background to the giving of the statement that is in question.

And if it were done in the absence of the jury, as it ought to be done, I'm quite sure that I would have taken the position that the onus was on the Crown to call the evidence of other law enforcement people that were involved, either directly or indirectly, in the taking of this statement. That would include, of course, Mr. Roberts as well as some of the other witnesses that you have mentioned, and if there was a recording of the interviews, then of course I would contemplate that those recordings could be produced and played.

17 Now, I don't want to be too long 18 winded about this, but the circumstances under 19 which the statement was given might well be 20 analogous, and I'm sure I would have argued this, 21 to the taking of a confession, and at that time, 22 if my recollection is correct, there was, I think, 23 very respectable authority for the proposition 24 that on a voir dire, to determine the 25 admissibility of a statement, there is a duty or

—— Meyer CompuCourt Reporting –

Page 24416

1		burden on the Crown to call all the witnesses who
2		had anything to do, either directly or indirectly,
3		with the taking of that statement, and that
4		includes, in some cases, quite a number of
5		witnesses, and unless there's a very good reason
6		for the absence of such a witness and failure to
7		call a witness, then that was the principle that
8		was applied and could, in some circumstances,
9		result in an inference being drawn that if the
10		witness, police witness had been called, he or she
11		would not support the position advanced with
12		respect to admissibility of the confession.
13	Q	And what would be your objective, and we'll go
14		through in a bit more detail, Mr. Tallis, about
15		who might be called and specific approaches, but
16		in this scenario what would be your objective,
17		what would you be trying to establish in front of
18		the judge with respect to the circumstances under
19		which Nichol John gave her previous inconsistent
20		statement?
21	А	Well, to raise the question as to whether or not
22		she had been pressured in any way or whether she
23		had been led into believing certain things, and
24		here in the light of what I now know about some of
25		it from what you have told me, I think the
		Meyer CompuCourt Reporting
	(Certified Professional Court Reporters serving P.A. Regina & Saskatoon since 1980

1		polygraph operator, particularly if, you know,
2		particularly if the discussions with him had been
3		monitored and recorded even though no polygraph
4		test was administered, that could be very relevant
5		and material.
6		Now, I appreciate that I'm
7		speculating here because I don't have all of that
8		information, but I think that I draw the analogy
9		between that and the rule with respect to
10		confessions as I recall it. You will understand
11		what I'm talking about.
12	Q	Right. In fact, I think if we, apart from that
13		law, the Court of Appeal judgment says you would
14		have the right to call evidence as to factors
15		relevant to obtaining the statement for the
16		purpose of attempting to show the
17		cross-examination should not be permitted because
18		the Court says it may be able, that you will be
19		able to establish that there were circumstances
20		which would render it improper for the learned
21		trial judge to permit the cross-examination,
22		notwithstanding the apparent inconsistencies, and
23		so I think what you are telling us is that yes,
24		the objective would be there to put forward all
25		the circumstances under which the statement was

1 The

Page 24418

1		obtained and then you would urge upon the trial
2		judge to say notwithstanding the inconsistencies,
3		it's not proper to allow the statement?
4	А	That's right.
5	Q	And let's just go
6	А	And one of the reasons that I indicated earlier in
7		my submissions before the Court, that the judge
8		should look at the preliminary hearing, I thought
9		that it would be a relevant consideration or
10		circumstance that this witness had given testimony
11		under oath at that preliminary hearing. In other
12		words, this evidence "I don't remember" was not
13		something that just happened at trial.
14	Q	Would you let me throw an example. Would you
15		equate then that type of evidence at the
16		preliminary hearing for example, if on May
17		25th, 1969 Nichol John had given a sworn statement
18		saying I don't remember anything that happened
19		after David left the car, that type of would
20		that be an analogy there where
21	А	That would certainly yes, and that would be a
22		relevant consideration in my view that should be,
23		should have been placed before the trial judge in
24		the absence of the jury, because in this
25		particular case I've already told you, I think it
		Meyer CompuCourt Reporting

1 would be very hazardous to start cross-examining 2 in the presence of the jury about a polygraph 3 operator. 4 Right. 0 5 Whether he took the -- whether he administered the Α test or not. 6 7 Let's just talk about, and you had Q Right. mentioned, and we'll go through this when we look 8 9 at the actual questioning that took place and the 10 judge's involvement, but you have told us that it 11 was your observation and, you believed, possibly 12 or likely the jury's observation as well, that the 13 judge -- that the judge was of the view that 14 Nichol John was holding back and that that's why 15 she was not repeating the contents of her 16 statements and saying more, that she was trying to 17 hold back, and I appreciate these were your 18 observations, but I think you said a reasonable 19 bystander might take that view that she was trying 20 to help David in holding back information. 21 If you would have been given an 22 opportunity in the voir dire contemplated by the 23 Court of Appeal regarding the circumstances of the 24 taking of the statement, would that have given you 25 an opportunity to try to persuade the judge that

Page 24419

1		he might be wrong on that view and that there are
2		other circumstances that might explain why a
3		witness would give a sworn statement saying she
4		witnessed a murder, but then later said she
5		couldn't recall; in other words, something more
6		favourable to Mr. Milgaard's position?
7	А	Yes, and I should just say this, that if the Crown
8		declined to call the witnesses as to the
9		circumstances, then as a defence counsel I would
10		have had to make a decision whether or not I would
11		call them even though, in effect, I would be going
12		into the opposing camp, but that's something that
13		we never reached, but I think the judgment of the
14		Court of Appeal certainly contemplated situations
15		where defence counsel might well call witnesses on
16		this issue, but in most cases, when a statement is
17		taken, basically you just have police witnesses
18		around, but suppose the boy's this girl's
19		mother or father had been present when the
20		statement was being taken, one might well decide
21		to call the parent or parents if the Crown did not
22		do so, but I still think that at the end of the
23		day this is the type of situation where the burden
24		is on the Crown to call evidence of the
25		circumstances of the taking of the statement.
		Mever CompuCourt Reporting

I

1	Q	Based upon your dealings with Mr. Caldwell, and in			
2		particular based upon the fact that he brought in			
3	Inspector Roberts both for the preliminary hea				
4		and the trial at your request, what is your sense			
5		as to, if you would have gone and asked him, if			
6		this procedure had been employed, to say would you			
7		please call Inspector Roberts and Mr. Mackie and			
8		others who may have been involved?			
9	А	Frankly, I think that if the ruling had gone the			
10		way it could have gone on the basis of our joint			
11		submission, that there should be a voir dire, I			
12		think in all likelihood he would have called him			
13		to give evidence on the voir dire.			
14	Q	And so again and if he didn't, I know we're			
15		speculating, but if he didn't, for example, call			
16		Inspector Roberts, you would have the right to			
17		call him?			
18	А	Yes.			
19	Q	And I suppose you would lose the right to			
20		cross-examine him as opposed to examine him, but			
21		you would get to question him in the absence of			
22		the jury?			
23	А	That's right.			
24	Q	And let's just talk again about what approach you			
25		might take with these witnesses if the jury were			
		Meyer CompuCourt Reporting			

F

		1 age 2 7722			
1		not present. We've talked about Nichol John a			
2		little bit. I think you said you would be, be			
3		prepared to go into areas that you might not if			
4		the jury were present; is that fair?			
5	А	That's correct.			
6	Q	For example, in front of the jury you might not			
7		want to be too hard on her, is that fair, you			
8		wouldn't want the jury to think you were being			
9		mean to her, things of that nature?			
10	А	I think that's a fair assessment.			
11	Q	In the absence of the jury might you consider			
12		taking a harder approach with her to try to get to			
13		the truth?			
14	А	Yes, and also, and in the course of that probing,			
15		what Mr. Roberts had told her, all this type of			
16		background.			
17	Q	Now, let's just talk about the risk that you			
18		talked about before in examining Nichol John in			
19		the presence of the jury, and there's a couple of			
20		things I think you've told us, number one, you			
21		would be worried that she might turn on you and			
22		adopt the statement and say, okay, sorry, I do			
23		remember, I did witness the murder, that would be			
24		one scenario. The second scenario we talked			
25		about, the concern would be is how do you			
		Meyer CompuCourt Reporting			

- Page 24423 =

1		challenge the credibility of that part of her		
2		statement that she doesn't adopt; in other words,		
3	if she doesn't adopt it, it's harder to challeng			
4	Now, let's go back and deal with			
5		both of those. The first one is the risk of her		
6		turning on you. If in the course of this		
7		proceeding, if it would have happened, can you		
8		tell us what you might have done in the course of		
9		that if she did in fact change her evidence in the		
10		course of your cross-examination, would you be		
11		left with any arguments to keep, to still keep the		
12		statement and her evidence out of the jury, away		
13		from the jury?		
14	А	It would be very difficult. I think the trial		
15		judge would have ruled that that was the answer,		
16		but, you know, I'm speculating here.		
17	Q	Would you have available and I appreciate that		
18		in argument to say that lookit, this is so		
19		unreliable because on the one hand you've given a		
20		sworn statement, then under oath at the prelim you		
21		can't remember, then at the trial you can't		
22		remember, then at the trial you do remember, I		
23		take it it would give you some		
24	А	Oh, I would have made that type of argument. I		
25		think you've pointed to basically the, oh,		
		Meyer CompuCourt Reporting		
		ennen ennessional Louit Renorders serving e 🖉 Regina X. Naskatoon since 10x0 - 📬 🔤		

Page 24424 -

probably the only argument you could make under those circumstances.

Q And then I suppose if she did adopt it, you would then have the ability to cross-examine her on the credibility of the statement, which I think you told us yesterday you, I think, and correct me if I'm wrong, I think you said you would have been better off, your position would have been better off if she had adopted it and allowed you to cross-examine than how it ended up going in at trial; is that correct?

12 A Probably, yes.

1

2

3

25

13 0 So that's the one risk. The second one we talked 14 about is in the absence of the jury could you see 15 yourself cross-examining her on the basis of 16 saying lookit, this statement that you supposedly 17 swore is so ridiculous I don't know how you could 18 have said it, and go through some of the things, 19 and how could you say you just witnessed a murder, 20 or just realized you witnessed a murder when you 21 talked to Inspector Roberts, that sounds pretty 22 foolish, things of that nature, is that something 23 that you would have --24 Α Oh, yes, and that's why I mentioned a moment ago

you would want to know what Mr. Roberts had told

— Meyer CompuCourt Reporting =

1

2

3

24

25

her and then try to get the circumstances from him or other police officers under which he uttered certain things to her.

4 0 Let's talk about Mr. Roberts. Assuming you get 5 him there in the absence of the jury and are entitled to either cross-examine him or examine 6 7 him, can you tell us what types of things you 8 would ask him or what areas you would cover or 9 what tact, and I appreciate this is -- you are 10 looking back and saying here's what I might have 11 done, but what types of things -- well, let me 12 back up. I think in fairness, you considered his 13 position, you knew what he told you at the time, 14 you were suspicious of him. If you were given an 15 opportunity to cross-examine him in the absence of 16 the jury, what would you have done? 17 Well, of course it would depend a great deal on Α 18 the examination-in-chief testimony that he would 19 have given had Mr. Caldwell had called him. 20 Right. 0 21 But I would have of course probed some of the Α 22 areas that I mentioned to you yesterday, the types 23 of questions that he put to her, but what details

he told her and where did he get those details

from, if he got any, and of course you've

_____ Meyer CompuCourt Reporting =

1		mentioned that there probably was a recording of
2		some of these proceedings, and if one had access
3	3 to that recording that had been over had	
4		made, I don't know now what questions I would have
5		asked, but they would have been governed by some
6		of that information that I gather you indicated
7		was probably available at the time.
8	Q	We've heard some evidence from Mr. Chartier, I
9		don't think from anybody else, that he set up the
10		tape.
11	А	I see.
12	Q	But if that were available, then that's something,
13		if you learned of it in the course of the
14		examination, you would probe into; is that fair?
15	А	That's correct.
16	Q	What about Mr. Mackie, he is the officer who took
17		the statement. Would you examine him?
18	А	Well, I certainly would examine him. Of course,
19		if he was involved in overhearing any of the
20		discussions between Mr. Roberts and Miss John or
21		was aware, you know, of things like that, then of
22		course I would ask him about it, and also ask him
23		about what Mr. Roberts had told him. In other
24		words, there may one would want to consider
25		whether there was a chain of information that was
		Meyer CompuCourt Reporting
l	L	Meyer CompuCourt Reporting

		Page 24427
1		used in ultimately taking the statement.
2	Q	What about the officers who dealt with Nichol John
3		on the day or two prior to her meeting with
4		Inspector Roberts who drove her around and
5		interviewed her, would you seek to have those
6		officers called?
7	А	Well, it would my view is that that would be
8		part of the circumstances that should be inquired
9		into and I would expect that that evidence would
10		be called, and I think if the ruling had gone on
11		the basis of our joint submission, I think Mr.
12		Caldwell would likely have called it.
13	Q	Would you go so far as to go back to March 11th,
14		'69 and considered Inspector Riddell, who took the
15		very first statement from Nichol John, as a
16		witness about that statement?
17	А	At this stage that's a little more difficult for
18		me to answer. I'm inclined to think that one
19		could make a persuasive argument that that too was
20		relevant in light of the subsequent statements.
21	Q	If Nichol John's statement of May 24th had not
22		been, if the jury had not been made aware of the
23		contents of that statement, and I appreciate that
24		the judge gave a direction that they weren't to
25		consider the unadopted portions, can you give us
		Meyer CompuCourt Reporting

Page 24428 =

1		an assessment of how significant that would have
2		been in the result, and I'm not asking you to
3		guess what the jury might have done differently,
4		but can you tell us, as defence counsel, the
5		significance of the section 9(2) proceedings and,
6		in particular, how it was handled and the fact
7		that the May 24th statement contents, the jury,
8		(a), became aware of them, and (b), how it all
9		played out and the demeanour of Nichol John and
10		the judge with respect to how she was asked about
11		why she couldn't remember those things?
12	А	I'm not sure that I can give you an unbiased
13		comment, but I'll do my best to apply the
14		objective bystander test that I mentioned to you.
15	Q	I'll take both, your biased view and your
16		objective bystander.
17	А	You can have your cake and eat it too then. I
18		know that my personal assessment of it was that
19		this was a devastating turning point in all
20		likelihood and using the objective bystander test,
21		if I may use that term, I think that the reference
22		to that particular statement in some of the
23		contents, crucial contents, in light of the
24		testimony of Mr. Wilson, probably marked a turning
25		point in the proceedings.
		1

Page 24429 =

7

Now, I'm trying to look at it objectively when I apply this test, but I think, looking back and trying to capture the atmosphere, I have made a fair assessment. Others might take a different view, but from being there, that is the way I would answer the two limbs of your question.

If we can just go a bit further, and once we go 8 0 9 through and see what happened, I'll ask you the 10 question again about your observations about how 11 it unfolded and how that may have impacted the 12 jury. Let's go back, and let me put it to you 13 this way, if the statement -- if the Court had 14 ruled that the previous statement could not be 15 used to cross-examine Nichol John, so in other 16 words, all that the jury heard was her evidence 17 that we met a lady, asked for directions, got 18 stuck, then went to the Trav-a-leer -- that David 19 and Ron left, then went to the Trav-a-leer, and 20 there was no evidence whatsoever regarding 21 portions of her statement that she did not adopt, 22 I take it you would have an argument to say, well, 23 lookit, jury, the two people in the car with Mr. 24 Milgaard, surely if Ron Wilson saw and heard all 25 these things and claimed that Nichol was

Meyer CompuCourt Reporting

	hysterical and, etcetera, and Nichol John says			
	nothing of the sort, would that undermine Ron			
	Wilson's credibility?			
А	Yes, I think it would undermine his credibility			
	and considerably weaken the prosecution's case.			
Q	And so conversely, did the fact that her statement			
	did get in front of the jury in the manner that it			
	did, and again we'll talk about that demeanour, in			
	your view did that enhance the credibility of Ron			
	Wilson's evidence in your view?			
А	I think it probably did.			
Q	So in addition to let's just talk about the			
	damaging impact of Nichol John's, I think you said			
	a devastating turning point with respect to not			
	only the fact that the jury heard the statement,			
	but the circumstances, is it fair to say that in			
	addition to her evidence and how it went in			
	hurting David's case, in addition it may have			
	bolstered other evidence that may have been			
	unreliable?			
А	Yes, and I think in the consideration or			
	observations I made, I should have made it clear			
	that part of my assessment involved her demeanour			
	as others likely perceived it in the courtroom.			
Q	Right, and we'll go through that.			
	Meyer CompuCourt Reporting			
	Q A Q			

1

А

Yes. 2 This is probably an MR. HODSON: 3 appropriate spot to break, Mr. Commissioner. (Adjourned at 10:24 a.m.) 4 5 (Reconvened at 10:48 a.m.) BY MR. HODSON: 6 7 Mr. Tallis, I now want to go, I think we've spent Q some time looking at what the Court of Appeal said 8 9 should have happened with respect to the 9(2) 10 proceedings. I now want to go back to the 11 transcript and walk through what did happen, and I 12 want to keep two things in mind that I will ask 13 you about, one is I would like your, you to tell 14 us your recollections of, to give us some idea of 15 the atmosphere in the courtroom based on your 16 recollection, how you perceived it, whether it was 17 your own view or a reasonable bystander's view, 18 and secondly, I'll ask you from time to time to 19 comment on what you might have done if the jury 20 had not been present, so if we can go back to 21 00 --Actually, before I do that, 22 23 Mr. Fox has provided me with a reference about 24 Chief Justice Bence referring to his colleagues, 25 003128 is the page number. Actually, maybe it's

= Meyer CompuCourt Reporting =

Ī

		rage z443z			
1		at the top, maybe just go up to the top. Yeah,			
2		here's where he says:			
3		"- the point hasn't come up before me,			
4		it's been discussed amongst my			
5		colleagues and it was felt that I should			
6		be or the presiding judge should inquire			
7		with respect to the application			
8		Etcetera. So again I think that's the reference			
9		that in this case Chief Justice Bence may have in			
10		fact talked to some of his colleagues; is that			
11		your understanding?			
12	А	That's the comment that I had in mind when I spoke			
13		to you earlier during the course of my testimony.			
14	Q	Right. Okay. If we can go back to page 003143,			
15		and I think just again I'll restate it, under			
16		section 9(2) it's really a two step process. 9(2)			
17		is the cross-examination regarding the previous			
18		statement to prove that the statement was given			
19		and the circumstances and what's contemplated then			
20		is the judge then says yes, I will admit the			
21		statement, or I will then rule on the adversity of			
22		the witness and I will allow a much fuller			
23		cross-examination, so here's where he starts, and			
24		if we can go to page 003145, and we went through			
25		this before, Mr. Tallis, with both Nichol John and			
		Meyer CompuCourt Reporting			

K

	Page 24433			
1	Mr Caldwell on Twonit cover all of the			
	Mr. Caldwell, so I won't cover all of the			
2	questions and answers. Here's cross-examination			
3	by Mr. Caldwell and talking about the statement:			
4	"Q And did you have the opportunity - who			
5	did the writing, by the way?			
6	A Sergeant Mackie did."			
7	And:			
8	"Q And did you have the opportunity to read			
9	it over?			
10	A Yes I did.			
11	Q And did you read it over?			
12	A Yes.			
13	Q And did you sign it in due course?			
14	A I think so.			
15	Q Now, Miss John"			
16	And I want to pause here because here he's asking			
17	her the questions did you sign it, I think so,			
18	and the Court says:			
19	"Q well, you would know whether you			
20	signed it or not?			
21	A Yah, I believe I did, yah."			
22	Are you able to tell us whether again your and			
23	maybe just generally through this part, what was			
24	your observations about Chief Justice Bence and			
25	his demeanour towards Miss John?			
	Meyer CompuCourt Reporting			
	Contified Professional Court Papartors sonting A Pagina & Saskatoon since 1080			

1 Α Well, at that stage it was certainly one of skepticism as I said to you earlier. 2 3 And would this --0 4 Skepticism with respect to the answers. Α 5 And would this be an example of that? Q Yes. 6 Α 7 If we can go over the page, 003147, I don't think Q 8 there's any reference here about the meeting with 9 Inspector Roberts, at least to this point, and 10 then asked about meeting with Detective Mackie, 11 just to two of us, and where it was located. 12 And then go to page 003148, and 13 he actually shows the statement and the judge then 14 intervenes and says: 15 "May I suggest that you ask about the 16 signatures." 17 And then to the next page, Mr. Caldwell goes 18 through every page and she confirms her 19 signature, and then the next page: 20 "0 And I ask you now whether or not you 21 made that statement? 22 Α I did." 23 And then Mr. Caldwell asks her to read it. And 24 if we can go to the next page. So he's asked 25 Miss John to read it to herself silently and then = Meyer CompuCourt Reporting =

1 he says: 2 Are pages 3, 4 and 5 true?" "0 3 And pages 3, 4 and 5 of the statement are 4 essentially the incriminating parts, or at least 5 the parts that describe observing David Milgaard in the alley, grabbing the girl, stabbing her and 6 7 things of that nature and the purse in the 8 garbage can, those are contained on pages 3, 4 9 and 5. She answers: 10 "A I don't know." 11 The judge says: 12 "O What do you mean you don't know? You 13 signed them? 14 Yah, I know I did but I don't know - I Α 15 don't remember saying that. 16 You signed the pages each one at the 0 17 bottom of the page? 18 Yes. Α 19 Ο And you gave a detailed statement with 20 respect to what you said had taken 21 place, didn't you? 22 Α Yes. 23 Q Now, having read it - having read it, 24 does that refresh your memory 25 sufficiently that you can now tell this Meyer CompuCourt Reporting =

- Page 24436 -

[Page 24436
1		Court what happened on January the 31st?
2		A No it doesn't; I don't remember saying
3		that."
4		And again, do you have anything else to add
5		regarding Chief Justice Bence and his demeanour
6		with respect to the witness other than what
7		you've told us? Would this be fall into that
8		category of skepticism?
9	А	I think it would be a sterner type of skepticism
10		at this point, if I may use that term.
11	Q	And I guess the first question, you know:
12		"Q "What do you mean you don't know? You
13		signed them?"
14		Was he upset, was it your observation that he was
15		upset with her?
16	А	Yes, I believe so.
17	Q	Then at the end of that Mr. Caldwell says:
18		"Now, My Lord, if your Lordship pleases,
19		with that question I am ending my
20		cross-examination of this witness and
21		I'm going to next ask Your Lordship for
22		the ruling as to adversity. I suppose,
23		My Lord, ought this statement just
24		be marked for identification?"
25		And then just at this point, if we go back to
		Meyer CompuCourt Reporting
		Cartified Professional Court Reporters serving P.A. Regina & Saskatoon since 1080

Page 24437 1 what we looked at early, I think what the Court 2 of Appeal said, is that before the section 9(2)3 process is complete, that you should be given an 4 opportunity to cross-examine, actually in the 5 absence of the jury? 6 Α Yes. 7 But that you should be entitled to cross-examine Q 8 with respect to giving the statement and the 9 circumstances; correct? 10 Α Yes. Before the judge rules --11 Q 12 Α Yes. 13 0 -- on the adversity. So here Mr. Caldwell says I 14 The judge says: am done. 15 "Q You recall giving the statement to 16 Detective Sergeant Mackie; you've 17 already admitted that? Yes I do." 18 Α 19 And then the next page, this is again the 20 judge -- actually, I think this is -- actually, 21 If we can just go back to the I'm not sure. 22 previous page. This in fact, this may be Mr. 23 Caldwell, I may have misread that. Then to the 24 next page, it goes through the giving of the 25 statement that was read over to you, and then if

— Meyer CompuCourt Reporting —

Page 24438

	Page 24438				
1		you can scroll down:			
2		"Did you have any discussions about this			
3	statement with anybody outside of the				
4	police officers afterwards?				
5		A No.			
6		Q Afterwards?			
7		A Afterwards with what?			
8		Q With anybody afterwards as to what you			
9		had said?			
10		A Are you talking about Mr. Caldwell -			
11		including Mr. Caldwell?"			
12		And from that answer, I'm sorry, I believe this			
13		to be the judge.			
14	А	A Yes, that's the way I read it, and I recall that			
15		type of question being asked.			
16	Q	Right. So I think if we just, sorry, go back to			
17	the previous page, I think Mr. Caldwell is done,				
18		he says he asks he says, I'm ending my			
19	cross-examination, and I think from here on is the				
20	judge who questions about the giving of the				
21	statement, and then the next page, and the judge				
22		says:			
23		"Q And you remember quite clearly that it			
24		was read over to you?			
25	A Yes.				
		Meyer CompuCourt Reporting			

			Caivin Tailis by Mr. Hodson Vol 121 - Thursday, February 9th, 2006
			——————————————————————————————————————
1		Q	You remember quite clearly that you
2			signed every page?
3		A	Yes.
4		Q	Well, can you tell me why you can't
5			remember what you said on that occasion?
6		А	I don't know.
7		Q	Did you have any discussions about this
8			statement with anybody outside of the
9			police officers afterwards?
10		А	No.
11		Q	Afterwards?
12		А	Afterwards with what?
13		Q	With anybody afterwards as to what you
14			had said?
15		A	Are you talking about Mr. Caldwell -
16			including Mr. Caldwell?
17		Q	No, no; I mean anybody else?
18		A	No."
19		Would th	at be the exchange? I think you
20		mentione	d earlier about the fact that you
21		inferred	that Chief Justice Bence thought someone
22		maybe go	t to Nichol John, someone from David
23		Milgaard	's camp, if I can call it that; is that
24		right?	
25	А	Yes, and	I think that's the area that I was

	alluding to when I mentioned that to you, but of
	course this is much more specific than the general
	statement I made.
Q	And this part that I read to you, was it your
	perception at the time that he was trying to
	ascertain or inquiring as to whether or not
	someone on behalf of David Milgaard, either you or
	others, got to Nichol John and influenced her to
	change her evidence from her statement and not
	remember?
A	Yes, that's the way I interpreted it.
Q	And again, I'm not asking you to look into the
	minds of the jurors, but was it a concern of yours
	that the jump might have had that wing as well?

that the jury might have had that view as well? A Yes, and I think I did my best to try to remove that suggestion or minimize the effect of the question.

18 Q And so again the fact that this type of question 19 being asked in the presence of the jury as opposed 20 to in the absence of the jury as contemplated by 21 the Court of Appeal, did you find that to be 22 prejudicial?

23 A I'm sure I'm not being unbiased when I say this,
24 but I certainly did.

Q And then once Chief Justice Bence is done, he

_____ Meyer CompuCourt Reporting =

Page 24441

<pre>1 says: 2 "I am declaring this witness to be 3 adverse in the sense that she is hostil 4 within the meaning of "hostility" as 5 referred to in the decision" 6 Etcetera, and the statement is marked. Now, let 7 me pause there. You did not have an opportunity 8 to cross-examine her on that before he made that 7 ruling did you?</pre>	7
 adverse in the sense that she is hostil within the meaning of "hostility" as referred to in the decision" Etcetera, and the statement is marked. Now, let me pause there. You did not have an opportunity to cross-examine her on that before he made that 	2

7 me pause there. You did not have an opportunity 8 to cross-examine her on that before he made that	
8 to cross-examine her on that before he made that	
0 ruling did you?	
9 ruling did you?	
10 A No. The ruling was made then and there.	
11 Q In the presence of the jury?	
12 A Yes.	
13 Q And so I take it when we look back at what the	
14 Court of Appeal said, in addition to having the	
15 jury excluded you were supposed to have the	
16 opportunity to cross-examine her before he made	
17 that ruling; correct?	
18 A Yes.	
19 Q Now, I suppose, did you give any thought at that	
20 time to rising and asking to or was the horse	
21 out of the barn?	
22 A I'm sure I did, but given the fact that it was i	ı
23 the presence of the jury, I had to make a judgme	ıt
24 call on that because at that stage you are still	
25 thinking of what the jury, you know, how the jur	
Meyer CompuCourt Reporting Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980	7

1 might be charged later on. 2 So then Mr. Caldwell goes on and now asks, seeks 0 to cross-examine the witness on the statement and 3 asks for leave under section 9(1) to prove that 4 5 the witness at another time made a statement inconsistent with her present testimony. 6 So now 7 he's asking to cross-examine her as a hostile witness using this previous statement; correct? 8 9 Α Yes. 10 And the judge says very well, which presumably is 0 the leave that Mr. Caldwell is seeking and then he 11 12 carries on to cross-examine her. 13 If we can then go to the next 14 page, and then what we have seen, and we've been 15 through this, is that basically Mr. Caldwell goes 16 through the entirety of the statement and asks 17 questions, did you tell Detective Sergeant Mackie 18 the following, and in some cases she said yes. 19 "0 You remember telling him that? 20 Α Yes. 21 And was that true? 0 22 Α Yes." 23 That's an example. And then on the next page, 24 and we're talking -- this is about stopping --25 actually, go back a page, I'm sorry, about = Meyer CompuCourt Reporting =

1 stopping the woman for directions, and she says 2 yes, that was true, and I told Detective Mackie. 3 Scroll down. And here the judge says: You distinctly remember saying that? 4 "0 5 Α Yes, I remember saying that." Then scroll down, and this is the comment about 6 7 offered her a ride and the comment the stupid 8 bitch. 9 Did you tell Sergeant Mackie that? "Ο 10 Α Not all of it. I don't remember 11 saying part of it." 12 And then the judge: 13 "0 You said you didn't say it - did you say it? 14 15 The first part I said but I don't Α 16 remember saying the last part here. 17 Well just a minute - that's the kind of Q 18 thing I suggest you might not easily 19 forget - the expression "Stupid Bitch"? 20 I don't remember him saying anything. Α 21 Well, do you remember telling Sergeant 0 22 Mackie that? 23 Α No. 24 0 You're suggesting that he wrote it in 25 then? Meyer CompuCourt Reporting =

Page 24443

Page 24444

ſ

1		A I don't remember saying it."
2		Would it be fair to characterize that as a testy
3		exchange between the judge and Miss John?
4	A	Testy might be too strong a word, but it was
5		certainly in the form of an interrogation in stern
6		terms.
7	Q	And again, was it your perception that the judge
8		was skeptical of Nichol John's explanation that
9		she could only remember saying part of it?
10	А	Yes. I think I would put it this way, by this
11		stage the indication was that there was a high
12		degree of skepticism.
13	Q	Okay. If we can then go to the next page, we
14		then talk about the statement, about Ron and David
15		leaving.
16		"Q "Do you remember telling him that?"
17		Yes. Was it true? And then the judge says:
18		"Q So he did go back in the direction of
19		the girl?"
20		And this is referring to David when they left the
21		car for help.
22		"A Yes."
23		And he says:
24		"Q Yesterday you told us you couldn't
25		remember?
		Meyer CompuCourt Reporting

Calvin Tallis

Page 24446 1 Mackie that? 2 I'm saying I don't remember if I did Α or if I didn't. 3 Well, if you did see the accused grab 4 Q 5 the purse it's something you would have remembered, isn't it? 6 Isn't it? 7 Witness? 8 I don't know. Α 9 Take a drink of water and stop crying. 0 10 If I could tell you what happened I'd Α 11 telling you. I don't remember. Т 12 can't remember." 13 Let me pause there. Do you remember that 14 exchange, Mr. Tallis? 15 Yes, I do. Α 16 Can you tell us what your observations were of Q 17 your perceptions of the judge's demeanour and as well Nichol John's demeanour? 18 19 Α Well, from this particular part of the transcript 20 it's clear that she was crying, and the -- I'm 21 trying to use words to describe it. I think I can 22 fairly describe this as a stern admonition by the 23 judge and I've thought about and it's probably, 24 although maybe my words don't express it well, 25 somewhat like the admonition of a stern father.

Meyer CompuCourt Reporting =

		6
1		Whether that assists you or not, I don't know, but
2		that's what I feel is a fair way of expressing it.
3		I think you used the term testy exchange earlier
4		with respect to the matter and I think testy is
5		probably, conveys a different meaning than the one
6		I'm conveying.
7	Q	And what about Nichol John at this time, other
8		than the part that she's crying, what was your
9		sense of, I guess her credibility, or what did you
10		observe her for and how do you think a jury might
11		have, or a reasonable bystander might have viewed
12		what was happening to her?
13	А	I think that a reasonable bystander or objective
14		bystander, and I think the judge and quite likely
15		the jury thought that her demeanour was such that
16		she was deliberately holding back.
17	Q	And when you say holding back, what she would be
18		holding back would be the contents of her
19		statement?
20	А	Yes. In other words, putting it another way, I
21		could see people feeling that this was not an
22		honest "I don't remember".
23	Q	Okay. And would it be fair to say that if they
24		believed that it was not an honest "I don't
25		remember", that the only alternative available to
		Meyer CompuCourt Reporting

		Page 24448
1		the jury to consider for what she might remember
2		would be in her May 24th statement?
3	А	Yes, I think that's a fair assessment, Mr. Hodson.
4	Q	And I'll come back to that a bit later. If we can
5		just finish up here:
6		"Q The point is this. You told Sergeant
7		Mackie on March the 22nd according to
8		this statement."
9		And I think he's got the month wrong.
10		"Now are you saying you did tell
11		Sergeant Mackie or you didn't tell him?
12		A I don't know if I did.
13		Q Did you see Dave have ahold of the girl?
14		Did you see Dave have ahold of the girl?
15		A I don't remember anything. My mind is
16		a blank. Nobody understands. Nobody
17		wants to believe me.
18		Q You remember the other things, don't
19		you?
20		A Yes I do."
21		And then the judge says "go ahead".
22		Then Mr. Caldwell goes
23		through if we can then scroll down the
24		statement where she said that Dave reached into
25		one of his pockets.
		Meyer CompuCourt Reporting

F

		Page 24449
1		"Q Did you tell Mackie that?
2		A I don't remember."
3		Etcetera. Now, I take it as well, Mr. Tallis,
4		that it would appear from going through this that
5		she remembers parts of her statement; in other
6		words, she has a recollection of observing things
7		that are in her statement that she says yes, I
8		remember that, for example, stopping the woman
9		for directions, I remember that and I remember
10		telling Mr. Mackie that, but that the parts that
11		are very incriminating, it's only those parts
12		where she says I don't remember that and I don't
13		remember telling Mr. Mackie that?
14	А	Yes.
15	Q	And putting aside any reasons for that, would it
16		be fair to say that, again the objective
17		bystander, that that might be suspicious, that a
18		witness would remember only parts of the statement
19		clearly but not others; is that fair?
20	А	Yes. I think that the way it unfolded, this could
21		convey, and probably did, the notion of a
22		selective memory the way it was coming out.
23	Q	And the suggestion might be why do you only forget
24		those parts that are damaging to your friend, that
25		type of thing?
		Meyer CompuCourt Reporting

		Page 24450
1	7	Veg and I think that is what undoubtedly gave
1	A	Yes, and I think that's what undoubtedly gave
2		rise, at least in my mind, to the trial judge's
3		high degree of skepticism.
4	Q	If we can go to the next page, please, and Mr.
5		Caldwell, and again they've gone through the
6		incriminating parts which she says she didn't
7		remember, Mr. Caldwell says:
8		"Q Now, Miss John, I put it to you that
9		that is something that you absolutely
10		would never forget if you saw that
11		happen?
12		A As far as I'm concerned I don't know
13		what happened. I don't even know if I
14		was on that trip or not."
15		Do you remember that exchange at all?
16	А	No, I don't specifically, but it's clear to me
17		that it took place.
18	Q	And then the judge says:
19		"Q Well, you've already given evidence that
20		you were on the trip - very extensively
21		yesterday. Have you forgotten since
22		yesterday that you told us you were on
23		the trip."
24		And again, I'm not sure if that's a sarcastic or
25		rhetorical question, do you recall this exchange,
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

1 and the answer is: 2 If you just stop and think how much this " A 3 bothered me - I'm beginning to wonder if I even did it or not." 4 5 Do you recall that? No, I don't recall that specifically, but I'm sure Α 6 7 that, you know, that took place as recorded. COMMISSIONER MacCALLUM: 8 That page number 9 was what, please? 10 MR. HODSON: That page is 003160. 11 COMMISSIONER MacCALLUM: I'm sorry, 160? 12 BY MR. HODSON: 13 0 160, yes. And what about the comment where she 14 says, "I'm beginning to wonder if I even did it or 15 not," and I'm not clear, it's hard to tell from 16 the transcript whether that was said in 17 seriousness or whether it was trying to explain 18 that --19 Α It's difficult for me to say now. 20 If we can then go ahead to 003162. 0 Okay. So 21 we've gone through, and I haven't touched on them 22 all, but basically Mr. Caldwell went through those 23 incriminating parts of the statement, pages 3, 4 24 and 5, and she said she didn't remember them, nor 25 did she remember telling Mr. Mackie, and then he Meyer CompuCourt Reporting =

Page 24451

Ī

1		gets to the compact and reads to her the statement
2		where she says she saw the compact, and then the
3		next page, Mr. Caldwell asks:
4		"Q Did you tell Mackie those things?
5		A Yes I did.
6		Q And do you remember telling Sergeant
7		Mackie those things?
8		A Yes.
9		Q And are those things true?
10		A Yes."
11		And the judge says:
12		"Q How is it you can remember that?
13		A I don't know. If I had a solution for
14		it"
15		And the judge:
16		"Alright - go ahead."
17		Again, would that fall into the same category
18		we've talked about as far as the perception you
19		had of both of the judge's demeanour towards
20		the witness?
21	А	Yeah. I would say also indicative of his
22		assessment of the witness.
23	Q	In other words, how can you remember that detail
24		when you didn't remember the others?
25	А	Yes.
		Meyer CompuCourt Reporting

Page 24453 =

1 Q Now to page 003164 and I think Mr. Caldwell is finishing up here and he says: 2 3 "0 So that your position today is, as I understand you, that you don't know 4 5 whether you saw Dave in the alley with the same girl that he had spoken to 6 7 shortly before for directions? 8 No I don't. Α 9 Alright; and you don't know whether you 0 10 saw him grab her purse . . ?" 11 And then the judge: 12 "Excuse me a minute, just a minute -" 13 And then says to the witness: 14 "It's very easy for you to stop crying 15 because you've done it several times 16 when you were asked a question with 17 which you would agree - so would you 18 please stop crying." 19 Do you have a recollection of that exchange? 20 Yes, I remember that, and I would characterize Α 21 that in my recollection as a very stern 22 admonition, and I think maybe I'm even erring on 23 the side of modesty when I use that term. 24 0 And again, it appears to be along the lines of how 25 can you remember some things, not the others and Meyer CompuCourt Reporting =

AS.

		——————————————————————————————————————
1		here how come you only cry on the questions that
2		you don't remember?
3	А	Yes, that's what I was trying to capture when I
4		used the term selective memory.
5	Q	Right. Then if we can go to the next page, and
6		Mr. Caldwell finishes up. No, sorry, just a sec.
7		478, the previous page, Mr. Caldwell finishes, and
8		then the next page the judge then asks some
9		questions, I think asking about Wilson's evidence.
10		"Q when Wilson returned to the car were
11		you crying?
12		A I don't know.
13		Q Were you hysterical?
14		A I don't know.
15		Q Were you hysterical and crying at the
16		time during the early hours of that
17		morning?
18		A No, not as far as I can remember."
19		'Did you notice any blood? No. Did you notice
20		some on the trousers? No.'
21		"Q Do you know why the accused and Wilson
22		changed their clothes?
23		A Yes I do.
24		Q What was the reason?
25		A Ron had - acid was eating through his
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

= Page 24455 =

ſ

1		pants; and Dave's pants were ripped."
2		And then if we can go to the next page, and this
3		is where Mr. Caldwell says:
4		"And that is, having made the ruling, My
5		Lord, to ask Your Lordship for leave to
6		prove that the witness made at another
7		time a statement inconsistent with her
8		present testimony; and what I propose of
9		course is calling Sergeant Mackie to
10		deal with parts of that document which
11		is P.31 for identification. That's what
12		I would ask Your Lordship and I of
13		course will abide by your ruling."
14		And it would appear here that Mr. Caldwell, again
15		going back to 9(2) and 9(1), is looking at
16		calling Mr. Mackie as part of the process to
17		prove the statement, he being the fellow who took
18		the statement, and the Court says no, and I
19		believe, I think the judge has already ruled that
20		it's proven.
21	А	Yes.
22	Q	He already ruled before that it was proven
23	А	Yes.
24	Q	based on her statement and before you
25		cross-examined. Is that a correct read of that?
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980
		Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv

Page 24456 —

A Yes, that's the way I read it.

Q And scroll down, you say:

1

2

3 "My Lord, if I may, I feel duty-bound to interject here if Your Lordship is going 4 5 to give the direction which I anticipate your Lordship is going to give. I think 6 7 it only proper to observe that in my 8 submission to Your Lordship the witness 9 should be out of the courtroom when you 10 give that direction, because I haven't even started my cross-examination." 11 12 And I think at this point the judge is going to 13 give the direction to the jury to not consider those parts of Nichol John's statement that she 14 15 didn't adopt; is that correct? 16 Yes, I believe this is the sequence of it. Α 17 And then to the next page. So this is all before 0 18 you've had a chance to cross-examine; correct? 19 Yes. Α 20 The judge then says: 0 21 "... that except where the witness has 22 admitted the truth of any particular 23 part of the statement that the contents 24 of the prior statement - the contents of 25 that statement which has been referred = Meyer CompuCourt Reporting =

		Fage 24437
1		to - are not to be taken as evidence of
2		the truth of the statements contained
3		therein. They are not to be taken as
4		evidence of the truth of the statements
5		contained therein. They merely serve to
6		test the credibility of the witness. I
7		want to make that quite plain now. I
8		will repeat my directions when I come to
9		address you later in my charge"
10		And then called the witness back in, and then you
11		say there's a point I wish to make.
12		Now, did you have concerns
13		about the fact that, and I think just in
14		fairness, the next part, which we'll go to, I
15		think you go back to the judge and say lookit, I
16		don't think you did a good enough job in that
17		direction to the jury, I want you to go further.
18		But again, did you have any concerns at this time
19		that you had not even cross-examined this witness
20		and the judge was going to give a direction to
21		the jury about the use of the statement?
22	А	I don't recall one way or the other on that now at
23		this stage. I may well have, but I certainly
24		wanted a strong direction on this point. Whether
25		it was at this stage or not I don't remember,
		1

Ī

Calvin Tallis by Mr. Hodson Vol 121 - Thursday, February 9th, 2006

Page 24458

1

2

3

Q I want to --

A That's the best I can do to assist you.

I raised this point a bit earlier, but I just want 4 0 5 to come back to this, this notion of utilizing a previous inconsistent statement to challenge the 6 7 credibility of a witness, which is the process we 8 went through, and certainly in cases where a 9 witness might in an earlier statement say I saw 10 Bob do something and in his second, evidence at 11 trial saying I saw John do it, certainly there 12 it's easy to see how you might take the previous 13 inconsistent statement and say lookit, don't 14 believe the witness when she says John did it 15 because earlier she said Bob did it.

16 A

Yes.

17 And so that's pretty straightforward. Where you 0 have a situation as here where Nichol John is 18 19 basically saying I don't recall -- now, some might 20 debate, and I might debate, whether or not a 21 previous statement that has a recollection is 22 inconsistent with that, but let's assume for the 23 moment it is. If the objective of using the earlier recollection of that statement in 24 25 challenging the credibility of the witness and

— Meyer CompuCourt Reporting =

1		challenging the credibility of the statement "I
2		don't recall", is it fair to say that if you are
3		successful in that and the jury says okay, I don't
4		believe her when she says "I don't recall", that
5		the jury then will have to saying, okay, she
6		must recall something, that the only other
7		available recollection before them is the earlier
8		statement which, (a), they are supposed to ignore
9		the truth of it and only use it to challenge the
10		credibility, are they not put in the position of
11		basically accepting the earlier unproven statement
12		as the recollection? I'm not sure if I've stated
13		it that way, and again, is that not the effect of
14		what happened here?
15	А	Yes, I think generally speaking that is, and of
16		course as you, I think, illustrated, composed some
17		very practical difficulties.
18	Q	And I suppose the first one is that the, if I can
19		call it, the substituted recollection, being the
20		earlier one that they are not supposed to accept,
21		if that becomes the if they say yes, I don't
22		believe her when she says I don't recall, she
23		recalls something, it must be this, (a), you are
24		precluded from the opportunity of challenging the
25		credibility of that, aren't you, the substance of
		Meyer CompuCourt Reporting

Page 24460 1 the earlier statement? 2 Α Yes. Because you can't cross-examine a witness about 3 0 4 something she says I don't remember --5 That's right. Α 6 -- seeing or saying. Q 7 Yeah. Α 8 0 We may come back to that point. If we could go to 9 the next page, 003169, I think, Mr. Tallis, here 10 you are saying that you don't think the judge's direction was sufficient, it should go further: 11 12 "... and make it abundantly clear in 13 language which the jury will understand 14 that those statements are not evidence 15 against the excused ... " 16 Now, let's just pause there, because Etcetera. 17 the judge did not only here go back and give a 18 direction, but gave a direction to the jury at 19 the end that said please disregard those parts of 20 the statement which he didn't adopt. 21 Now, in a general sense, 22 Mr. Tallis, if the jury hears something and then 23 are told by the Court or by the judge lookit, you 24 have to disregard that, would it be fair to say 25 that it may be difficult for jurors to take out Meyer CompuCourt Reporting =

1 The

Page 24461

1		of their mind something that they've heard?
2		Would that be a concern of defence counsel, that
3		notwithstanding the direction, you never know
4		how, what a juror has heard might impact their
5		thinking; is that fair?
6	А	Yes.
7	Q	And so that's always a risk when they've heard
8		something like that. If we go a bit further, and
9		back to the question that I just asked you, that
10		where they are being asked to find that Nichol
11		John is not credible when she says "I don't
12		recall" and they have this piece of evidence that
13		they are not supposed to consider and they are
14		trying to figure out, okay, well, we don't believe
15		her, can we try and figure out what maybe she did
16		recall and see, again, would you agree that once
17		again there would be a concern that the jurors
18		might, even more so in that case, consider
19		something that they are not supposed to consider?
20	А	I think the potential is there because that's a
21		very difficult concept at the best of times, I
22		think, to get across.
23	Q	And if we can scroll down, I'm not sure where this
24		fits in, but I think I have to read it because you
25		say here:
		Meyer CompuCourt Reporting

1 "Well, Courts of Appeal have been wrong 2 too, My Lord." 3 And then you go on --4 That was prophetic. Α 5 Q I'm not even going to touch that. But I think what you are saying is Chief Justice Bence had 6 7 talked about, I think what he was saying is lookit, I used the direction approved by the 8 9 Court, the Court of Appeal, and then you go 10 further, and if we can go to the next page, I 11 won't read it, I just highlight it because this is 12 part of the record, but again, you go on to urge 13 the judge to be more specific in the direction to 14 the jury at this point. 15 And then to page 003172, and 16 think, in effect, what you are saying, if I can 17 sum it up, Mr. Tallis, what you were saying to him 18 was you may have given the legal direction to the 19 jury, but I want you to put it in layperson's 20 terms, not legal terms so that the jury 21 understands it I think is what --22 Α Yes, you understand what I was saying, or trying 23 to say at that time. 24 0 And so here then the judge comes back and gives 25 another charge, what he says is: Meyer CompuCourt Reporting =

Page 24462

	Vol 121 - Thursday, February 9th, 200
	Page 24463
1	" the warning I gave you a few
2	minutes ago is a proper one and a
3	correct one but I wish to put it another
4	way"
5	And:
6	" the only evidence which can be
7	considered as being against the accused
8	are statements which she has accepted
9	under oath in the witness box as being
10	the truth, and that any statement which
11	she has not admitted as being the truth
12	are not evidence against the accused."
13	Then we go down to the bottom, this is where you
14	start your cross-examination.
15	Now, at this point, and,
16	Mr. Tallis, if we compare the position you are in
17	right here at this point in the trial where Chief
18	Justice Bence has already allowed Mr. Caldwell to
19	cross-examine on the statement in the presence of
20	the jury, he's already concluded that the
21	statement was voluntary and that the
22	circumstances are such that he should allow it to
23	go in, he has declared her hostile and he has
24	allowed Mr. Caldwell to cross-examine her as a
25	hostile witness, if you compare that, before you
	Meyer CompuCourt Reporting

Ī

		Taye 24404
1		get up to ask any questions with what the Court
2		of Appeal said should have happened, it may be
3		stating the obvious, but would it be fair to say
4		that you were put in a far worse position at
5		trial than you should have been?
6	А	I think that's an objective assessment of the
7		situation.
8	Q	And then as far as your approach to Miss John at
9		this point, can you tell us, and again I'll go
10		through this with you and it may become evident,
11		but can you shed any light on what concerns you
12		would have had at this point as to where you could
13		go with this witness in light of what just
14		happened?
15	А	I'm sure that I felt that I had to be very
16		cautious in light of the way matters had unfolded.
17	Q	Did you think you could rehabilitate this witness?
18	А	Well, she wasn't my witness to begin with, but
19		so
20	Q	Sorry, that's maybe the wrong word.
21	А	Yes. In the strict sense of the word, it wouldn't
22		be rehabilitating the witness. I thought I might
23		still be able to get some concessions from her on
24		certain things, but I knew that I had to tread a
25		very cautious path the way things had unfolded.
		Meyer CompuCourt Reporting

ĺ		——————————————————————————————————————
1		If she had suddenly come across as very
2		co-operative with me, that would have just, I
3		think, aggravated what was already a bad
4		situation, but I did recognize that I should try
5		to get what I could from her that would be of
6		assistance to David.
7	Q	Are you saying in effect that you wanted to get
8		some favourable evidence, but if you got evidence
9		that was too favourable, it might backfire and the
10		jury might think that she was simply trying to
11		help you?
12	А	Yes, that's something you have to always consider
13		in my view under these circumstances, and one of
14		the things I thought that I could erase was any
15		notion that people representing or supporting
16		David had gotten to her, to use your term.
17	Q	And I think the first question that you asked her
18		was:
19		"Q Miss John, you have been asked a number
20		of questions here this morning and I
21		must ask you a few. First of all during
22		the course of your questioning here you
23		were asked whether or not you had seen
24		anyone else about this case apart from
25		the police and you mentioned Mr.
		Meyer CompuCourt Reporting

			— Page 24466 —————————————————————————————————
1		Caldwel	l - and this is no reflection on
2		Mr. Cal	dwell, as you know - you remember
3		his Lor	dship asking you a question about
4		that?"	
5		And then the juc	lge says:
6		"You're	e talking about exclusive of the
7		police	and exclusive of any counsel."
8		Next page, you s	say:
9		"Q Now, yo	ou recall being here as a witness
10		at the	preliminary hearing?
11		A Yes.	
12		Q And at	that particular time I believe
13		it's fa	air to say that you had already
14		met Mr	Caldwell?
15		A Yes.	
16		Q And is	it also accurate to say that the
17		first t	time you ever saw me to hear my
18		voice v	vas when you were cross-examined
19		by me	In the witness box there?
20		A Yes."	
21		And again, would	d that be to address the point
22		that you just ta	alked about?
23	А	Yes.	
24	Q	And is it fair t	to say that you wanted the jury to
25		know that you ha	ad not talked to this witness
		Mev	er CompuCourt Reporting

R

		——————————————————————————————————————
1		prior, other than at the preliminary hearing?
2	А	Yes, because I didn't want any such suggestion
3		visited upon David.
4	Q	And then as well you go through, the bottom, you
5		ask prior to coming to the prelim you saw the
6		police, you were brought up by the police, with my
7		dad.
8		The next page, and then a number
9		of questions to show that she had spent a fair bit
10		of time with not a fair bit of time, but to the
11		extent that she was involved in this case, she was
12		dealing with the police and the Crown; is that
13		fair?
14	А	Yes.
15	Q	And then the next page, just a couple of points.
16		Let me just pause here for a moment. Back on your
17		earlier point about how, I think you said you were
18		concerned that if she was too co-operative the
19		jury might view that as, and these aren't your
20		words, but perhaps fueling the suspicion that
21		maybe she was holding back to help David; is that
22		fair?
23	А	Yes. I felt one had to be cautious and try to
24		avoid creating that impression, inadvertently of
25		course.
		Meyer CompuCourt Reporting

E

■ Page 24468

1	Q	And again if you were able to, I'm just trying to
2		think here, if you were able to get her to the
3		point of lookit, I now realize, I just, you know,
4		I made that stuff up in the statement, or you got
5		something so favourable in the sense that she
6		recanted the statements, I take it that might be
7		viewed with some skepticism; is that fair?
8	А	Yes.
9	Q	Here's reference, I'll just go through a few
10		questions here to identify what areas you were
11		dealing with her about, that she had testified
12		about being by the funeral home and you say:
13		"Q Well, was it a policeman that told you
14		it was a funeral home?
15		A Yes it was."
16		And then the next page, it looks as though,
17		Mr. Tallis, you were having her go through her
18		contact with the police and perhaps trying to
19		infer or suggest that some of the information in
20		her statement may have come from the police; is
21		that fair?
22	А	Yes, or arisen from the contact during the course
23		of being driven around.
24	Q	Then to 003177, it looks like you then get into
25		meeting at the Cavalier, and I think you've told
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

		Page 24469
1		us at this point you would be leery of having the
2		polygraph come out; is that fair? I mean, she
3		didn't take the polygraph, but she met with
4	А	No, but very concerned that no reference be made
5		to the polygraph operator.
6	Q	And then you talk about being together with Ron
7		Wilson, and what would be the purpose of
8		establishing that she spent time with Ron Wilson
9		before she gave her statement?
10	А	Well, to show that maybe some of it emanated from
11		his suggestions, or his comments.
12	Q	Then to 003180, I'll go through this, but I want
13		to compare this to what you might have done if the
14		jury had been absent and this had been before she
15		had been declared hostile, etcetera. It says:
16		"Q During the course of this discussion
17		with this police officer whose name you
18		don't recall in the room at the Cavalier
19		Hotel, is it fair to say that this
20		discussion took place before you were
21		with Mackie? In other words, perhaps
22		you don't understand me - you told my
23		learned friend about being with Mackie
24		on the 24th."
25		And so here it looks like you are establishing
		Meyer CompuCourt Reporting

Page 24470 -

		——————————————————————————————————————
1		
1		that before she gave the statement to Mackie, she
2		was in a room with the police officer at the
3		Sheraton Cavalier discussing matters; is that
4	А	Yes.
5	Q	Were you concerned about going further on that
6		subject matter?
7	А	Yes, I'm sure I was treading cautiously.
8	Q	And what would you again, what would you be
9		concerned about? Why would you not get into
10		some for example, I think you told us that you
11		would canvass with her and with Roberts if the
12		jury was not present. Why would you not explore
13		these now?
14	А	Well, first of all, I wouldn't want any reference
15		to the polygraph operator to come out, and
16		secondly, one had to be as careful as possible not
17		to elicit too much hearsay that might be damaging.
18	Q	Then on the next page you ask a question here, and
19		I think we have heard evidence, maybe it was even
20		in Inspector Roberts' Supreme Court evidence,
21		where I think he said that he showed the bloody
22		dress to Nichol John, and here you ask the
23		question:
24		"Q I see; and do you recall now whether the
25		dress"
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Page 24471 -

1 And this is about the meeting with the man at the Cavalier, I don't think you ever used his name, I 2 3 think he was referred to as the man, you say: I see; and do you recall now whether the 4 "0 5 dress was held up having blood on it, that is apparent blood stains?" 6 7 And the judge answered: "She doesn't remember any dress." 8 9 And then you say: 10 "Well, I just want to try and see whether or not that refreshes her 11 12 memory, My Lord." 13 And again, I'm wondering on that, whether that 14 would be unusual, to have the judge answer the 15 question you put to Miss John? 16 Well, I think this points up what you raised Α 17 earlier, and that is if her responses quickly 18 appeared to be quite favourable to my questions, 19 there might be an inference that she had held 20 back, but if she thought it was helping out David, she would say something, and I think this, you 21 22 know, is a follow-up to the judge's skepticism 23 about the question of this nature in light of what 24 she had said and her demeanour earlier. 25 And again, would it be fair to say that when the Q Meyer CompuCourt Reporting =

		——————————————————————————————————————
1		indre en mener the monthing hefere also de services
1		judge answers the question before she does, saying
2		she doesn't remember any dress, that that might
3		affect her subsequent answer?
4	А	Yes, and it might I think probably the jury
5		would be watching the judge's assessment too of
6		the situation.
7	Q	And again, I take it the dress and the blood being
8		shown to her would be relevant to whether that
9		might be a circumstance that gave rise to the
10		statement, or might explain why the statement came
11		about; is that fair?
12	А	Yes.
13	Q	And then if you can go to 003182, and at the
14		bottom you say:
15		"Q And is it fair to say that under oath at
16		that time"
17		And you are talking to her about the knife she
18		identified and talking about the knife blade,
19		keeping in mind that the knife blade was found
20		under Gail Miller's body and the matching maroon
21		handle was found in a back yard, and you say:
22		"Q at the preliminary that my learned
23		friend showed you a knife blade?
24		A Yes.
25		Q And is it fair to say that under oath at
		•
	L	Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

	Calvin Tallis by Mr. Hodson Vol 121 - Thursday, February 9th, 2006
	——————————————————————————————————————
	that time you indicated to Mr. Caldwell
	that the blade of the maroon handled
	knife that you saw in the car was longer
	than the broken blade?
	A Yes.
	Q Yes; and that is the actual knife blade
	was longer?
	A Yes.
	Q And you're satisfied with that, are you?
	A Yes."
	Now let me just pause there. It would seem from
	this answer that although she identified a
	maroon-handled paring knife on David Milgaard in
	the car, she's saying the one she saw, the blade
	was longer; is that a fair reading of that?
А	Yes.
Q	And that would be considered favourable evidence
	from Mr. Milgaard's perspective?
А	I thought so.
Q	Were you concerned that the jury might view that
	as helping, as being not credible and helping Mr.
	Milgaard?
A	Well, I suppose there was that risk, but I thought
	in some of these areas I could pursue them without
	as great a risk as others.
	Meyer CompuCourt Reporting

= Page 24474 ·

Γ

1	Q	If we can go to 003185, and then you ask her about
2		the hunting knife, the bone-handled hunting knife
3		and engravings, etcetera, on it, and at that time
4		I think you've told us that you would have been
5		aware of the fact that a hunting knife, a
6		bone-handled hunting knife had been located in the
7		alley where Gail Miller's body was?
8	А	Yes.
9	Q	Would you have had concerns that that might be
10		tendered as evidence in light of what these
11		witnesses were saying?
12	А	I think that Mr. Caldwell indicated he wasn't
13		going to tender it.
14	Q	If it had been tendered as an exhibit as being
15		found in the alley and possibly the murder weapon,
16		would you have pursued this line of questioning
17		with these witnesses?
18	А	It's hard for me to say at this time whether I
19		would have pursued it with her.
20	Q	Okay. If we can go to 003195, I just wanted to
21		ask you here, and again this is your
22		cross-examination, you say:
23		"Q Well now, apart from Mr. Mackie and a
24		man in the Cavalier Hotel were you
25		interviewed by any other police officers
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980 Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv

	[——————————————————————————————————————
1		in Saskatoon?
2		A Not really."
3		And again, your reference I'm assuming that's
4		Inspector Roberts?
5	А	Yes.
6	Q	And would that be deliberate not to refer to him
7		by name?
8	А	Yes.
9	Q	And again to 003198, I won't go through this, but
10		again you have similar questions as you did with
11		Ron Wilson regarding Nichol John's use of LSD and
12		hallucinations, and the same question I had with
13		respect to Mr. Wilson, would you be trying to
14		establish in the minds of the jury that Nichol
15		John at the time, around the time she was
16		interviewed by the police had been using LSD and
17		had hallucinations and that maybe inferring that
18		some of what she put in her statement might be an
19		hallucination?
20	А	That's correct, something that may have affected
21		her imagination.
22	Q	And again, what you've told us with respect to
23		this issue when you were examining, or
24		cross-examining Ron Wilson, I think you said but
25		there was a risk, the flip side is that the jury
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A. Regina & Saskatoon since 1980

Vol 121 - Thursday, February 9th, 2006 Page 24476 might associate that drug use with David Milgaard; is that fair? Α Yes. And so it would apply to your questioning of Q Nichol John as well? That's correct. Α And then again on 003204, you ask her. Q "Ο ... did you tell the man in the Cavalier about taking LSD? Α Well, he asked us questions like that, yes. 0 I see; and he's the only one that you told? Well, there's one more person." Α And then it goes on to say Raymond Mackie. So again this would be probing a bit about what might have been discussed with Mr. Roberts? Α Yes. 0 Actually, then at 003209, I think here you get to, back to the Cavalier. "Q ... you were told by a police officer there - he was a man in plain clothes I believe?

Α Yes."

And then you ask her about the name and she says

= Meyer CompuCourt Reporting =

1 yes, Roberts, so it does come out at the end. 2 And then the next page, the 3 judge says: 4 "Q Excuse me, I thought you told me this 5 morning you didn't recall that?" 6 And she says: 7 I didn't say that; like Mr. Tallis said "Α 8 that I didn't recall his name and I was 9 going to add that but he finished the 10 question too fast." 11 And then down at the bottom -- actually, we can 12 skip ahead to page 003214, and here, Mr. Tallis, 13 we get into questions relating to Nichol John's 14 stay at the Saskatoon City Police building on the 15 night of May 23rd and I believe May 22nd, and 16 again you spend some time cross-examining her on 17 who took her where, etcetera, and we get to this 18 point: 19 "Q And is it then that you were taken up to 20 the little room that you described to 21 His Lordship?" 22 And that's the room where I think she gave the 23 statement to Raymond Mackie. She says: 24 "A Not right away. 25 ... where were you taken first?" 0

Page 24477

1 And she says: 2 To the cells." "A 3 And you say: "0 Pardon?" 4 5 She says: To the cells." 6 "A 7 And you say: 8 "Ο To the cells - well were you under 9 arrest? 10 Α No, I wasn't. 11 0 I see; were you put up in the cells? 12 Α Yes." 13 Now, when I look at the preliminary hearing 14 transcript --15 I think you said "put up in the cells". Α 16 Or put in the cells. Q 17 Put in the cells. Α 18 I'm sorry, "Were you put in the cells." When I Q 19 look at the preliminary hearing transcript, and I 20 stand to be corrected, but I don't believe this 21 area came up at the preliminary hearing, and I'm 22 wondering, Mr. Tallis, if you are able to recall 23 whether this information about Nichol John being in the police cells, whether this would be the 24 25 first time you learned of it, at this point in the

Page 24478

— Meyer CompuCourt Reporting =

Page 24479 =

		Page 24479
1		cross-examination, or whether you had been aware
2		of that prior?
3	А	I think I was aware of it prior, but I couldn't
4		tell you how it came about. At the preliminary
5		hearing of course she didn't give the testimony
6		that was expected and indicated she didn't
7		remember in crucial areas and so there wouldn't be
8		the same reason to go into it as there was at this
9		stage.
10	Q	So it's I see. So at the preliminary hearing
11		there would be no reason to question her about the
12		circumstances of giving the statement because the
13		statement didn't go in at the prelim, nor did any
14		of the incriminating contents?
15	A	That's right.
16	Q	And I think you are telling us your memory is that
17		you would have been aware of that fact before the
18		trial?
19	А	I'm quite sure that I was.
20	Q	Then if we can go to the next page, and I'm
21		sorry, go right to the top.
22		"Q you weren't arrested for anything?
23		A No.
24		Q What cells were you put in?
25		A In the women's and then I didn't want
		Meyer CompuCourt Reporting

F

		——————————————————————————————————————
1		to be in there so they put me in the
2		little room where the matron stays.
3	Q	I see; and you were in the charge of a
4		matron there?
5	А	No, I was there by myself.
6	Q	Oh, you were in the room - but they put
7		you in the cells first?"
8	"Q	And how long were you in the cells?
9	А	Only about two minutes.
10	Q	I see; and you complained about that?
11	А	Yes.
12	Q	And then you were in the room where you
13		understand the matron stays?
14	A	Yes.
15	Q	And is this the room just up near the
16		women's cells?
17	А	Yes.
18	Q	Just opposite the women's cells?
19	А	Yes.
20	Q	So that when a woman prisoner is in
21		there the matron has this room to wait
22		in?
23	А	Yes.
24	Q	And you were left in there for some
25		little time, were you?
		Meyer CompuCourt Reporting
Į	Certified Profession	Meyer CompuCourt Reporting

ſ

1		A Yes."
2		Next page. Would you have been familiar with the
3		area of the police cells that she was talking
4		about?
5	А	I believe I was, but to describe them now I
6		couldn't, but
7	Q	At that time would you have been aware of what she
8		was talking about do you think?
9	А	Oh, yes.
10	Q	And then if we can scroll down and what would
11		be the purpose in probing in this area?
12	А	Well, she had given some damaging evidence at
13		trial and even though there was a direction with
14		respect to other portions of the statement, these
15		were part of the circumstances of course that
16		would have been explored in much more detail if
17		one had had a voir dire, but at this stage that
18		wasn't going to happen, so I endeavoured to get
19		whatever I could to show that perhaps she felt she
20		was under significant pressure, and one of those
21		aspects to that potential pressure was the fact
22		that she was being held in the cells.
23	Q	Now, if we pause there, if you were using the
24		procedure that the Court of Appeal said you should
25		have used, your objective in getting into that
		Meyer CompuCourt Reporting

Meyer CompuCourt Reporting ______ Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980 Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv

30

		Page 24482
1		area, I think you told us, would be to try and
2		convince the judge that there are circumstances
3		relating to this statement which should cause you
4		not to allow it to be used in cross-examination;
5		correct?
	л	
6	A	That's correct, I thought that would support an
7		argument that he ought to exercise his discretion
8		in our favour and not allow cross-examination on
9		the statement.
10	Q	And what actually happened, I think by the time
11		that you got to cross-examine Nichol John, the
12		statement had already been put before the jury;
13		correct?
14	А	That's correct.
15	Q	So at this point, is it fair to say that putting
16		forward these circumstances, that it would be too
17		late to say judge, look at these circumstances,
18		that statement, the circumstances of that
19		statement being given are unsafe, don't let it go
20		before the jury, it's too late for that; do you
21		agree?
22	А	That's right.
23	Q	So the objective
24	А	In a sense, this was an alternative path in the
25		hope that one could salvage something from the
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

1

2	Q	Now, let's just talk about, I guess in the eyes of
3		the jury, it might be to say that lookit, the
4		circumstances that gave rise to this statement are
5		somewhat suspect; is that fair, therefore
6	А	Yes.
7	Q	Here might be an explanation as to why she would
8		give a statement that she doesn't now adopt?
9	А	And there's a subsidiary aspect to that as well.
10		I thought that evidence of this nature might cause
11		the trial judge to take a slightly different view
12		of the situation and perhaps that could be
13		reflected in the final charge or instructions to
14		the jury.
15	Q	Did you consider that there might be a risk based
16		on what you had said earlier, that if the jury was
17		of the view and the judge was of the view that she
18		was holding back to help her friend, that somehow
19		this, the fact that she was in jail might have
20		been attributable to that fact; in other words,
21		that she wasn't cooperating with the police, so
22		she had to put her in jail, something of that
23		nature? Was that a consideration?
24	А	Oh, I'm sure that I thought of that, but that on
25		balance I thought that if one was careful you
		Meyer CompuCourt Reporting

1 could take a calculated risk in putting the 2 questions of this nature, albeit in a rather limited fashion. 3 4 If we can then go ahead to 003219, you ask here: 0 5 "O Well, when you were put in the cell on the night of the 23rd did you complain? 6 7 Not especially." Α 8 And the judge: 9 Well, did you complain at all? "O 10 Α Well, something happened when I was in 11 there so they had to bring a matron 12 that night." 13 The judge says: 14 "O But you didn't complain before you went 15 there about the cell. 16 No." Α 17 The Court: 18 "The cell block I should say." 19 "Yes." 20 And then you go on about the matron. Did you 21 have any sense of how the judge was viewing this 22 evidence based on his questions or demeanour or 23 anything of that nature? 24 Α Well, I think the question he put tended to 25 minimize perhaps the atmosphere that I had = Meyer CompuCourt Reporting = Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv

Page 24485 1 established at least to some extent. 2 0 And the next page, there's a reference here about 3 she called the matron, banged on the door. ... and was that matron Mrs. Tetreault? 4 "Ο 5 Α I don't know what her name was." Would you have talked to the matron to get 6 7 information about that night? 8 I've thought and thought about that because I know Α 9 you've asked me, and I can't recall whether I 10 talked to the matron or not. I'm inclined of the 11 view that I may well have because I used the name 12 here. 13 0 And again, there's some further questions that 14 we've gone through with other witnesses, just 15 further exploring the point. 16 If we can go to 003224, and you 17 ask: 18 "O Is it fair to say that at that 19 particular time you didn't know how long 20 you were going to be kept at the 21 station? 22 Α No, I didn't." 23 And then: 24 "0 Well now, were you getting - let's put 25 it this way - were you still unhappy

Page 24486 1 about being kept there? 2 Α Yes I was. 3 And were you still anxious to get out of Ο 4 the place as quickly as you could? 5 Α Yes." And then: 6 7 "O Well now, somewhere along the line I 8 suppose that you were told that you were 9 going to be taken up to get a statement 10 from you? Yes." 11 Α 12 So again, this would be along the lines you 13 discussed earlier about trying to establish the 14 circumstances under which she was kept there? 15 Yes, and of course I don't want to be too Α 16 repetitious, but it illustrates the type of thing 17 that, in my view, would be canvassed on a voir dire. 18 19 0 Right. Now, what about the March 11th statement, 20 her first statement, and we went through that, 21 which I think you told us had some significant 22 omissions compared to her May 24th statement, and 23 I think when we went through it that there were 24 some omissions of things she said on May 24 that 25 were true and not disputed; for example, the

— Meyer CompuCourt Reporting =

1

2

3

4

25

compact, stopping the woman for directions and David leaving the car. Can you tell us why you wouldn't have used the March 11th statement with her?

5 Α Well, for essentially the reasons I've given to you on earlier occasions with respect to the other 6 7 witnesses, but in this particular case I had the information and I thought that I could make better 8 9 use of that information by putting questions to 10 her. I think that in the circumstances, if one 11 were to have put the statement in, it would have 12 opened up the potential for an awful lot more 13 expansive type of re-examination by Crown counsel 14 and undoubtedly, in my view, the learned trial 15 judge would have asked quite a lot of questions 16 having regard to the way this unfolded. 17 Would there be a risk that that initial statement 0 18 would be viewed by the judge and perhaps the jury 19 as being consistent with this thought that she was 20 holding back and trying to help a friend? 21 Α Yes. 22 And similarly, with respect to the preliminary Q 23 hearing evidence, I don't think -- at the 24 preliminary hearing she did not, I think what her

evidence there was that once they got to the alley

— Meyer CompuCourt Reporting =

Page 24488 1 and that David left and got back, she then remembers driving away I think to the Trav-a-leer? 2 3 Α Yes. 4 0 And again, would the same reasons apply as to why 5 you wouldn't put that to her, saying lookit -- I suppose, though, it would be consistent with what 6 7 she said at trial? 8 Α Yes. 9 So there would be no reason to put the preliminary 0 10 hearing evidence to her at the trial? 11 Α No, and it might even open up things that I didn't 12 want to see opened up at that stage. 13 MR. HODSON: This is probably an 14 appropriate spot to break. 15 (Adjourned at 11:58 a.m.) 16 (Reconvened at 1:33 p.m.) 17 BY MR. HODSON: 18 Mr. Tallis, I just want to finish up on Nichol Q 19 John, I finished your cross-examination. If we 20 can go to 031255 which is your address to the 21 jury, and go to 031292, and again just, I'll 22 provide the caution that there are breaks in this 23 transcript that were not able to be transcribed. 24 At the bottom you start about, I think this is 25 where you talk about Nichol John's evidence and

— Meyer CompuCourt Reporting =

Page 24489 =

1 referring to Mr. Caldwell: "Now he anticipated that I was going to 2 3 refer to the circumstances under which she gave a statement, and members of the 4 5 jury I have no intention of rehashing Those circumstances are before that. 6 7 you and they are, in my submission, factors which you can quite properly 8 9 take into account." 10 And again, some breaks there, and: 11 "Now my learned friend urged some ... to 12 you, and once again My Lord will give 13 you direction as to the relative value 14 of this particular nature, but certain 15 ... were urged and my learned friend put 16 it to the witness and quoted, as I 17 recall it, there was a reference to 18 seeing the girl stabbed right there. 19 There was some reference to that. Now 20 members of the jury I am not going to 21 rehash the physical evidence ... and is 22 that statement in that form even ... a 23 possibility? I suggest to you that it 24 isn't. After all it is common ground I 25 think that those stabbing wounds on the = Meyer CompuCourt Reporting =

1 back were inflicted when the coat --2 after the coat had been taken off, the 3 dress taken down and the coat put back 4 on." 5 And then some further marks. And let me -- I think, Mr. Tallis, as I read that, 6 7 notwithstanding the fact that the part of the Nichol John's statement where she said she saw 8 9 David grab the girl and stab her was not 10 evidence, it appears that to the jury you 11 indicated that putting aside the circumstances, 12 etcetera, that the stabbing, as put forward in 13 that statement, does not fit with the physical 14 circumstances, is that fair, and in particular 15 the clothing? 16 Yes. Α 17 And I think as well there's a reference to it 0 18 being from a right-handed person as well, so I 19 take it you would have made the decision to try to 20 address the part of the statement that the jury 21 was not to consider as the truth; is that fair? 22 Α Yes, and to focus on the physical evidence that 23 you've just alluded to. 24 0 So in other words, jury, even though you are not 25 supposed to accept it as evidence in the event Meyer CompuCourt Reporting =

Page 24490

ASS.

- Page 24491 -

1		that you look at it, it doesn't fit because, it
2		doesn't fit the evidence for a couple of reasons,
3		one, the dress had to be pulled down first if what
4		Nichol said was true, and secondly, David was
5		left-handed; is that fair?
6	А	That's correct, and of course bear in mind that,
7		you know, there were other things said by the
8		Crown about their theory of the killing and this
9		addressed that aspect of it.
10	Q	And would that be the type of thing you might have
11		put to Nichol John if she would have adopted the
12		statement?
13	А	Yes.
14	Q	I now want to move we've covered Cadrain,
15		Wilson and John. I now want to move to the motel
16		reenactment evidence, and if I could call up
17		007070, and this is a letter from Mr. Caldwell to
18		you, January 21st, 1970. We've heard from Mr.
19		Caldwell and gone through some documents that
20		suggest the time frame for how this all played out
21		and I just want to go over parts of that with you.
22		So this is January 21, the trial
23		started on January 19th, and Mr. Caldwell says:
24		"You will recall me advising you, on
25		Sunday, January 18th, that I had learned
		Meyer CompuCourt Reporting

AS.

ſ		Vol 121 - Thursday, February 9th, 2006 Page 24492
		J. J
1		that day of an alleged incident in
2		Regina, in which Milgaard was supposed
3		to have stated in front of witnesses
4		that he had stabbed or killed the nurse
5		in Saskatoon."
6		And then he goes on to say:
7		"I had Detective Karst go to Regina on
8		January 19th to interview the people
9		supposedly involved "
10		Let me pause there. Do you have a recollection
11		of getting a call like that the eve of the trial,
12		the Sunday before the trial?
13	A	No, I don't, but I have no doubt from the material
14		here that I would have.
15	Q	And then he goes on to say that I arranged to get
16		statements from these people, Craig Melnyk, George
17		Lapchuk and Ute Frank and copies are enclosed, and
18		if we can scroll down:
19		"I intend to arrange, somehow, to
20		interview these witnesses in the very
21		near future and depending on the results
22		of these interviews, as I mentioned to
23		you earlier, I may well attempt to lead
24		evidence in the present trial from one
25		or more of these three witnesses as to
		Meyer CompuCourt Reporting

- Page 24493 =

1		the admissions allegedly made by
2		Milgaard in their presence."
3		And we'll get into the statements in the
4		evidence, but was this and it sounds like this
5		was new evidence that came to the attention of
6		the authorities a day or two before the start of
7		the trial. Did you give any thought to seeking
8		to adjourn the trial on the basis of this
9		evidence coming to light at this late hour.
10	А	I'm sure I did, but I can't recall the mental
11		processes that I went through at the time. This
12		was in a time period when we had moved some years
13		before to fixed dates, and adjournments, if
14		opposed, and even if by consent once there had
15		been a date fixed were not easy to come by, and I
16		undoubtedly would have taken into account any
17		publicity that might have attached to such an
18		application, but one of the things that I do
19		remember is that as soon as I got details, I spoke
20		to David about it as soon as possible and I think
21		he was brought down actually a little before the
22		trial. I mentioned to you that I think that it
23		was, that I arranged to have him brought down a
24		little earlier than usual, and the other thing is
25		once I became aware of these witnesses, I know I

– Meyer CompuCourt Reporting –

ASS.

Page 24494

1		immediately caused inquiries to be made in Regina,
2		particularly about Melnyk and Lapchuk.
3	Q	Okay. And we'll come to that once I get to their
4		statements. Maybe if we can call up 007069 and
5		we'll just try and get the time frames down and
6		then we'll get into the substance of their
7		statements. This is a note that Mr. Caldwell
8		prepared, and I can't recall when he prepared it,
9		but I think you said it summarized what he had
10		done with the witnesses, Lapchuk, Melnyk and
11		Frank, and I just want to go through this as far
12		as the time line and see if this accords with your
13		recollection. We've already talked about this,
14		Sunday, January 18, Saskatoon police learned for
15		the first time of an alleged admission by Milgaard
16		in Regina to killing a nurse in Saskatoon.
17		Same date they advised me, and
18		same date I advised "T", which you said was
19		Tallis, by phone of what I knew of this and that
20		depending on interviews I might call them.
21		Same date I arranged for
22		investigator to go to Regina, Monday, January 19,
23		and interview these persons.
24		This done Monday, January 19,
25		and on Tuesday, January 20 I received three
		Meyer CompuCourt Reporting
	C	Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980 🛛 🔭 🗖

AS.

= Page 24495 =

Γ

1		statements from these persons.
2		Wednesday, January 21, I
3		delivered copies of all three statements to Tallis
4		and advised I would interview them ASAP and may
5		well call evidence from one or more at the trial.
6		And then had two to Saskatoon
7		Friday, January 23 and interviewed and advised
8		Tallis Saturday, January 24. I would plan on
9		calling these two late in Crown's case.
10		And we'll come in a bit to Ute
11		Frank, but putting Ute Frank aside, does that
12		sound generally right time wise about, or do you
13		have any reason to dispute that?
14	А	I have no reason to dispute it, even though on
15		some of the aspects of it I would have no personal
16		knowledge.
17	Q	I appreciate that, and I should have raised that.
18	А	As far as talking to, or getting calls from Mr.
19		Caldwell, I know that he contacted me, but in
20		terms of the specific times, I don't recall at
21		this stage.
22	Q	Is it fair to say that he would have advised you,
23		it appears, the day before the trial, generally of
24		the information that he was going to get
25		interviews, and then according to the letter I
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

AS.

]		Page 24496
1		showed you about the third day of the trial I
2		think you got copies of the statements of Melnyk,
3		Lapchuk and Frank, and then I think they were
4		called towards the tail-end of the trial; is that
5		correct?
6	А	Yes, Lapchuk and Melnyk.
7	Q	Melnyk and Lapchuk?
8	А	Yes.
9	Q	If I could call up 178215, please, and I just want
10		to go through the statements of Melnyk, Lapchuk
11		and Frank and then I'll have some questions about
12		what steps that you took, so the first one is
13		January 19th in Regina, Craig Melnyk, and we've
14		been through these before, Mr. Tallis, so I'll
15		just touch on a couple of points.
16		He mentions in his statement
17		that Debbie Hall was in the motel room when this
18		happened, I think she's in Vancouver now, and then
19		the next page, he describes what Mr. Milgaard did
20		in the hotel room as follows, that he grabbed the
21		pillow with his hand and was saying:
22		"I killed her, I killed her, I fixed
23		her! Then he rolled on the bed awhile $\&$
24		laughed hysterically."
25		And then down at the bottom he says, the night I
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Calvin Tallis by Mr. Hodson Vol 121 - Thursday, February 9th, 2006

1 stayed -- sorry, here, he says: 2 "Knowing David I think he is capable of 3 murder because of his personality. One moment he is real -- " 4 5 And I'm not sure, "-- and the next he goes off the deep 6 7 end." 8 I'm not sure what that word is. Anybody? 9 UNIDENTIFIED SPEAKER: Nice. 10 BY MR. HODSON: 11 Q Nice? Thank you. 12 "One minute he is real nice and the next 13 he goes off the deep end. I have never 14 had a fight or any ill feeling towards 15 Hoppy." 16 So that's his. Next, 155218, this is George 17 Lapchuk's statement of the same date, he also 18 identifies Ute Frank and Debbie Hall being in the 19 room and again his version of events is that he 20 started bugging Hoppy about murdering the nurse 21 and then he said I didn't -- or: 22 "He said yeh, I did it. Then he blew up 23 & started to stab with his hand & asked, 24 "Where's my paring knife." He said yeh, 25 I stabbed her. I stabbed her 14 times & Meyer CompuCourt Reporting =

Page 24497

Page 24498 1 then she died. I got scared & dropped 2 the subject & no more was said about 3 it." And then Ute Frank's statement is 277583 and she 4 5 describes Debbie Hall as being present and in her statement she simply says: 6 7 "I was quite stoned & sometimes wasn't 8 aware of what was going on around me. Ι 9 was also hallucinating quite a bit. Ι 10 recall asking Hopy if he killed that 11 nurse they were talking about & he just 12 looked at me & smiled oddly. I had 13 become involved with David on this occasion ..." 14 15 Etcetera. So again there's no, that's the only 16 reference of what went on in the motel room. 17 So those would be the three 18 statements that Mr. Caldwell provided. Can you 19 tell us, sir, what you would have done with this 20 information? 21 Α Well, with respect to Lapchuk and Melnyk, I may 22 have got some details orally before there were 23 actual statements. I'm not sure of that, but I 24 know what I did do was --25 Sorry, would that be from Mr. Caldwell? Q

____ Meyer CompuCourt Reporting =

1	А	Possibly from him. I think that's where I got
2		some oral details. And depending on when David
3		was brought down, the date he came down, as soon
4		as I became aware of it, this information, I spoke
5		to him; that is, visited with him, here in
6		Saskatoon I'm sure it would be, because I think he
7		was brought down earlier, so it wouldn't be by
8		phone, and discussed whether or not there was an
9		instant in the motel, and he told me that, you
10		know, he didn't recall, he couldn't deny it, but
11		he said that in any event it would be a joke, he
12		said he was stoned I think was the term that he
13		used, which I understood to be based on the use of
14		drugs.
15	Q	Did he recall or acknowledge being in the room
16		with Melnyk, Lapchuk, Ute Frank and Deborah Hall?
17	А	Well, certainly at one point he emphasized that he
18		thought he was, he thought Ute Frank was
19		essentially a friend of his and, frankly, with
20		respect to Deborah Hall, I sensed he didn't feel
21		the same way about her as he did Ute Frank, and so
22		I found out some information about Lapchuk and
23		Melnyk. Whether it started even before I got the
24		statements or not I can't say, but I did
25		immediately make some inquiries in Regina.

– Meyer CompuCourt Reporting –

- Page 24500 =

		5
1		Now, I'm not sure who I first
2		went to there. I have a pretty good idea who it
3		was because it would be the logical person I would
4		speak to, and that would be the late Mr. McIntyre,
5		but, you know, I can't recall all the details or
6		anything like that, but that's the most probable
7		thing, but in any event, I got some details and
8		information that would indicate to me they were of
9		an unsavoury nature.
10		And then with respect to Ute
11		Hall
12	Q	Sorry, Ute Frank?
13	А	Ute Frank I tried to locate her and Deborah
14		Hall. I couldn't and I spoke to the Crown, Mr
15		I'm sure it was Mr. Caldwell or somebody in his
16		office about locating them and making them
17		available to me, and as I recall it, Miss Hall
18		couldn't be located, but the one that David
19		particularly focused on was Ute Frank.
20	Q	Let me just stop you there for a moment. Why did
21		you try and locate those two to interview as
22		opposed to Melnyk and Lapchuk?
23	А	Well, having regard to what I believed their
24		character to be, I thought it would be unwise to
25		interview them.
		Meyer CompuCourt Reporting

Ir

		Page 24501
1	Q	Did David Milgaard give you reason to believe that
2		Ute Frank might be co-operative?
3	А	Certainly that was the impression I had, that not
4		only would she be co-operative, but would be
5		inclined to be favourable toward his position, and
6		I think he thought that she would be a pretty
7		reliable person.
8	Q	So you arranged though Mr. Caldwell then to locate
9		Ute Frank?
10	А	Yes, and arranged to have her brought up.
11	Q	From Regina?
12	А	Yes, I'm sure that's where they located her, and
13		she was brought up and I interviewed her in a room
14		at the courthouse, but it was completely separate
15		from Mr. Caldwell. I don't know whether at
16		that time I didn't know whether he had talked to
17		her beforehand to any extent, but after talking to
18		her in the room, I learned that he had spoken to
19		her, but I got the impression, or probably not the
20		impression, my recollection is that she told me
21		that she really had not co-operated with him, she
22		had a few words with him, but I then proceeded to
23		discuss matters with her, and she, I thought,
24		opened up quite a bit to me and I had no reason to
25		think that she was trying to mislead me.
		Meyer CompuCourt Reporting

- Page 24502 =

1		She emphasized in our
2		discussions that she had found faith and having
3		found faith she condemned, in her words, the
4		lifestyle that she had been leading as well as the
5		lifestyle of her friends, and that of course
		-
6		included David. I know I probed this with her at
7		some length because I wanted to see whether, at
8		least my assessment of the sincerity of what she
9		was telling me about her approach, and she
10		indicated that she had found something much better
11		than she had been living and that was a different
12		lifestyle.
13		Now, I don't recall all the
14		details, and I had an inkling from somebody that I
15		spoke to in Regina, and I can't recall who it was,
16		that Ute Frank had given every indication that she
17		had found faith. Now, she may well I think she
18		probably used the term Jesus Christ or something
19		like that, but our discussion was conducted in a
20		very civil way and
21	Q	Did she come across as credible and reliable to
22		you?
23	А	Very much so, and that's why I probed her
24		description of how she had changed her style of
25		living and why she had changed it.
		Meyer CompuCourt Reporting

- Page 24503 =

1		Now, sometime during this
2		discussion I got the impression, and yet I can't
3		recall why or the basis for it, that something had
4		been said or otherwise when Mr. Caldwell had
5		spoken to her that caused her to be a bit
6		antagonistic toward him, I just can't recall the
7		extent to which I probed that or the nature of the
8		information that gave rise, that she outlined,
9		but now, she acknowledged that she had been on
10		drugs, there had been, in effect, a drug party in
11		the room and she was with David, and I'm going
12		into the salacious details of it.
13	Q	Tell us about what she told you about her
14		observations of David in the motel room and, in
15		particular, with respect to the allegation that he
16		had reenacted or admitted the murder?
17	А	Well, during the course of our discussion she said
18		that he had reenacted it, and I can't recall all
19		the details, but there were quite a few details
20		that she mentioned and comments that she
21		attributed to him, but I recall that she did not
22		treat it as a joke, I mean, she didn't go
23		overboard the other way, but she treated it
24		seriously and certainly conveyed that information
25		to me.
		Mayor CompuCaurt Departing

= Page 24504 =

1		Now, without my notes, I simply
2		cannot give you all the details that I would like
3		to be able to give you, but at the end of the day
4		I realized that her testimony would not be of
5		assistance to David and I discussed the matter
6		with her quite carefully because of what he had
7		told me about her in terms of feeling that she
8		would be co-operative and likely reliable and
9		favourable.
10	Q	If we can go back just, and again, as far as the
11		details of what she described to you of David
12		Milgaard's actions, would it be consistent with
13		what Mr. Melnyk and Mr. Lapchuk were saying as far
14		as, I think, grabbing a pillow in a stabbing
15		motion, would it be generally of that nature do
16		you recall?
17	А	Yes. I think that most of what she told me was
18		quite consistent with what I had been given in
19		that connection, but of course she always
20		emphasized that she had found faith, found
21		something much better in terms of a lifestyle and
22		indicated that this was the path she was now going
23		to follow, and she was quite critical of herself
24		as well as her friends for the lifestyle and
25		things that they had been doing.

Page 24505 =

		Page 24505
1		She was quite candid about the
2		sexual relationship in the motel, she certainly
3		referred to that, but as I say, I wasn't
4		particularly interested in sort of too many
5		salacious details. I'm sure I asked at the time,
6		but
7	Q	Just
8	А	I can't recall them now.
9	Q	Just on that point, are you able to tell us
10		whether, and again I think Mr. Melnyk and
11		Mr. Lapchuk as well talked about some of those
12		salacious details, but would it be fair to say
13		that what she had to tell you about what was going
14		on in the motel room would be consistent with what
15		others had said?
16	А	Generally speaking, yes, without having my
17		specific notes.
18	Q	But, for example, she didn't say anything that
19		might cause you to say, okay, well, Melnyk and
20		Lapchuk were wrong about what they said, for
21		example, David was doing when they entered the
22		room or some of the details that might cause you
23		to challenge the credibility of Melnyk and
24		Lapchuk's story?
25	А	No, she didn't.
		Meyer CompuCourt Reporting

		——————————————————————————————————————
1	Q	And as far as what she told you about the words
2		that David spoke as part of this, this
3		reenactment, did she indicate that he had
4		admitted, or had made words to the effect "I
5		stabbed her, I killed her," anything of that
6		nature, "yes, I did it"?
7	А	Well, I know that she used words to that effect in
8		describing it to me, but to give you the sequence
9		or the precise words
10	Q	And she said that she did not, I think you told us
11		she did not think that David was joking; is that
12		correct?
13	А	Well, she took it seriously and so from that I
14		took it that David was not joking in her mind.
15	Q	Did she, or did you ask her whether she felt that
16		David Milgaard had killed Gail Miller?
17	А	No, I don't remember whether I did or not, without
18		my notes.
19	Q	Based on your interview
20	А	With her taking it the way she framed it about
21		taking it seriously, I think it's a fair inference
22		that she thought that he may well have. That's
23		the fairest way I can frame it.
24	Q	Did you, and again I think you told us that David
25		Milgaard told you that he was there, he was stoned
		Meyer CompuCourt Reporting

Page 24507 : 1 and he couldn't deny it and if it did happen it 2 was a joke? 3 Yeah, that's essentially the way he characterized Α it. 4 5 Q In light of what Ute Frank told you, can you tell us what your thoughts were about what Mr. Melnyk 6 7 and Mr. Lapchuk were having to say and whether, to 8 what extent you could challenge their version of 9 what went on in the motel room? 10 Α Well, I thought the opportunity for challenge was limited in light of the information. 11 12 Q For example --13 Α The --14 Q Oh, I'm sorry. 15 Go ahead. Α 16 Did you think you could go in there and say Q 17 lookit, Melnyk and Lapchuk, this never happened, 18 you are making this up, you are lying? 19 Α No, I didn't feel so in the light of what David 20 told me about Ute, and particularly what Ute had 21 told me. 22 Q Now let's talk about the issue of joke versus 23 seriousness. I think David had told you that if 24 he said it, it would be a joke? 25 Α Yeah.

— Page 24508 ————

1 Q Ute Frank said she took it as being serious; is 2 that correct? 3 Α Yes. Do you recall whether you asked her how others in 4 Q 5 the room may have considered it or what she observed of Melnyk and Lapchuk and Deborah Hall? 6 7 I'm sure I asked, but I can't recall, you know, Α those details. 8 9 And, for example, did she convey to you the sense Q that others in the room took it the same way that 10 11 she did, or may have taken it the same way she 12 did? 13 Α I think she probably did, but here again, you 14 know, it's very difficult to summon up that type 15 of detail. 16 In your view --Q 17 -- without notes. Α 18 In your view, would Ms. Frank have been a Q Yeah. 19 more damaging witness against David Milgaard than 20 Craig Melnyk or George Lapchuk? 21 That was certainly my conclusion. Α 22 Q And why is that? 23 Α Well, for one thing, the backdrop of her finding 24 faith, and my sense was that she was very sincere 25 in this, we talked about it a great deal and she = Meyer CompuCourt Reporting = Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv

1		seemed to open up, I thought, a great deal to me,
2		on why she was changing her lifestyle, or actually
3		had changed it and what she felt was wrong with it
4		and all those details, and I knew that if she was
5		called and at that time I thought there was
6		still a good light maybe the Crown will end up
7		calling her, but I thought that if there was this
8		bit of antagonism, they may well elect not to, but
9		if I called her, she would be subject to
10		cross-examination, and I was quite sure what she
11		would say about her assessment of those comments
12		as being taken seriously, and whether she could be
13		persuaded to say that the others took it the same
14		way I couldn't tell you at this time.
15	Q	Do you know why Mr. Caldwell did not call her as a
16		witness?
17	А	No, I didn't know why he elected not to call her,
18		but I wondered, and it occurred to me that there
19		was this antagonism that had arisen just based on
20		one or two comments. Let's put it this way, she
21		told me she was telling me the whole story and
22		that she had not told Mr. Caldwell.
23	Q	And did she tell you that?
24	А	Oh, yes, and I didn't get what happened that made
25		her feel, I thought, a bit of a sense of
		Meyer CompuCourt Reporting

antagonism.

1

2	Q	We read her one page statement and there's nothing
3		in that statement along the lines of what she told
4		you other than there's maybe a few details. Did
5		she tell you that she did not tell the police
6		about the full details either?
7	А	I think she did, but I'm not sure now.
8	Q	The evidence that we heard from, I think, both Ute
9		Frank and Mr. Caldwell before this Commission of
10		Inquiry was to the effect that the meeting between
11		Mr. Caldwell and Ms. Frank, that she did not tell
12		him much of anything, that she was stoned and
13		didn't remember anything and didn't want to
14		testify and wouldn't testify and so Mr. Caldwell
15		said he did not think it was anything of value.
16		Her version of that is that she didn't want to
17		testify and therefore told him nothing of value
18		basically. Now, does that, is that consistent
19		with what she told you?
20	А	No, I don't recall her saying words to that
21		effect. I think she appreciated why I was
22		interviewing her, that is, as a potential witness
23		for the defence, because I had told her, you know,
24		that I had spoken to David, I mean, I laid the
25		background out and I didn't in any way deceive her
		Mever CompuCourt Reporting

— Meyer CompuCourt Reporting —

Page 24511 as to why I was talking to her. 1 2 0 But as far as what she told you, she did tell you 3 that the story, or the version of events she told you she did not tell Mr. Caldwell and you don't 4 5 think she told the police that either? That's my recollection now. 6 Α 7 In light of the fact that Mr. Melnyk and Mr. Q Lapchuk were called, is it fair to presume that if 8 9 what she told you she had told the Crown 10 prosecutor, that she would have been a witness at 11 trial? 12 А Yes, I think if she had told the Crown and 13 co-operated with the Crown the way she did with 14 me, she would be a better witness at trial than 15 either Melnyk and Lapchuk because of her new-found 16 faith, and I'm not saying that in a derogatory way 17 of anybody's faith, I just want to make that 18 clear, because that's a very private matter and I 19 don't want to be taken as belittling her faith or 20 anyone else's. 21 And I think you told us that you found, that the Q 22 reason that she was telling you these things, to 23 be reliable and credible; is that correct? 24 Α Yes. 25 Now, let's just go back to Deborah Hall for a Q

- Page 24512 -

1		moment. She was mentioned as being the fourth
2		person in all of the statements and the one
3		statement of Mr. Melnyk said that he thought she
4		was in Vancouver. You earlier told us that you
5		tried to locate both Ute Frank and Deborah Hall
6		and you went through Mr. Caldwell to try and find
7		them and you found Ute Frank?
8	А	Yes. Well, I first tried to find them myself by,
9		this would be by phone, but I wasn't, so I then,
10		bearing in mind the obligation on the Crown, as I
11		understood it to be, I got ahold of Mr. Caldwell
12		and I thought that there was a likelihood that
13		they wouldn't have too much difficulty locating
14		them.
15	Q	After you talked to Ute Frank, did you still want
16		to find Deborah Hall?
17	А	Frankly, I didn't see how she would be of
18		assistance because David did not have the high
19		regard for her that he had for Ute Frank and I
20		don't know now why he made some comments, but this
21		is the sense that I had.
22	Q	And the evidence that we have heard is that
23		Deborah Hall, I'm not sure if she ran away from
24		home, but was out of the province at the time, and
25		I just want to if we can call up 047622, and
		Meyer CompuCourt Reporting

= Page 24513 =

1	this is Deborah Hall's evidence at the Supreme
2	Court reference where she testified under oath
3	about her recollection of what happened in the
4	motel room. If we could go to page 047631, and
5	here she's being examined by Mr. Wolch, the news
6	comes on, talks about Melnyk and Lapchuk being in
7	the room:
8	"While David was on the bed and such
9	forth this news telecast came on about
10	Gail Miller. I guess they had said they
11	didn't have any suspects in custody at
12	the time."
13	And then to the next page, and then she talks
14	about the news cast coming on and Melnyk
15	" and said to David, "You did it
16	didn't you?" I recall George Lapchuk
17	chiming in, like kind of cajoling him,
18	saying, "`fess up, Hoppy. You know you
19	did it."
20	And then down at the bottom, and what was David
21	doing:
22	"A Well, he was in the process of jumping
23	around on the bed, being a fool and
24	playing with the pillow, kind of
25	punching it up and things at the time he
	Meyer CompuCourt Reporting
	Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980 Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv

Page 24514 1 was asked." 2 And then the next page: 3 Tell us exactly what he said to the best "Ο 4 of your memory. 5 He responded to the question while he Α was -- and he was actually bouncing on 6 7 the bed too and punching up this 8 He said, "Yeah, sure. pillow. I 9 stabbed her and fucked her brains out, 10 that's a really good -- you know, it's 11 a really good time for me. 12 0 He made a comment -- take your time. 13 Α I think -- it was very -- it was a crude remark and it was sarcastically 14 15 said." 16 And I think then she went on to say that she took 17 it as a joke or that it was not said seriously. 18 And there was other excerpts that -- just give me 19 a moment. Based on what I've read you there, if 20 you would have been aware of that being Deborah 21 Hall's recollection of events in the motel room, 22 if you would have known that in 1970 would you 23 have called her as a witness at the trial in 24 defence of David Milgaard? 25 Α I rather doubt it based on what he had told me Meyer CompuCourt Reporting =

Page 24515

I

1		about his feelings toward her, and particularly
2		having regard to what Ute Frank had told me and
3		the type of person that she came across as.
4	Q	And what about Deborah Hall's version of what was
5		said by David and what he did in the room, would
6		that be helpful evidence or harmful evidence?
7	А	Well, it would portions of it would certainly
8		be confirmatory.
9	Q	And then her comment about it was said
10		sarcastically or a joke, would that
11	А	Yes, I don't recall anything, a salacious detail
12		like that being mentioned by Ute Frank.
13	Q	I think I can say that the remark, her version of
14		what was said goes beyond what Melnyk and Lapchuk
15		testified was said.
16	А	Oh, as I said, I don't recall Ute Frank even using
17		that kind of a description
18	Q	Putting aside
19	А	in terms of the sexual aspect of it.
20	Q	Putting aside whether it was said sarcastically or
21		jokingly or not, would the words that she
22		attributed to David Milgaard, that is, Deborah
23		Hall, be more damaging than what Melnyk, Lapchuk
24		and Frank attributed to him?
25	А	Having looked at it, since you brought it up to
		Meyer CompuCourt Reporting

ASS.

= Page 24516 =

1		show me, I think they probably would have, but I
2		would put it on this basis at least that they
3		would tend to be confirmatory in the sense that
4		you have four people in the room saying that
5		certain comments at least were made, rather than
6		there being some saying that it happened and some
7		saying it didn't happen.
8	Q	And then I take it the only question might be then
9		whether it was said seriously or not, or taken
10		seriously or not?
11	А	Yeah, that's right.
12	Q	If we can go to 002134, I'll go through part of
13		Melnyk and Lapchuk's evidence. Do you recall,
14		based on their evidence, of Melnyk and Lapchuk,
15		was it your view, sir, that they had taken David
16		Milgaard's remarks in the motel room and his
17		conduct as being serious or whether they took it
18		as being in a joking manner?
19	А	I haven't read their testimony.
20	Q	I will go through it for you.
21	А	No, my recollection is that they may have come
22		across as taking it seriously and that may today
23		be a misperception on my part, but I'm trying to
24		do my best to recall it for you.
25		COMMISSIONER MacCALLUM: I'm not sure what
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Page 24517 : 1 we're speaking of, at the Supreme Court or at the 2 trial? 3 No, I'm talking at the trial, MR. HODSON: 4 I'm sorry, at the original trial. 5 Α Yes. BY MR. HODSON: 6 7 I'll go through parts of the evidence here and Q then I'll ask you some further questions. 8 Go to 9 002143 -- actually, to 002144, again the evidence 10 is similar to what's in the statement, Mr. Melnyk talks about David Milgaard grabbing the pillow, 11 12 sitting upright: 13 "A ... and he started hitting the pillow 14 like he was stabbing something. 15 Just a minute please - go ahead? 0 16 He was hitting the pillow like he was Α 17 stabbing something and he said - I 18 killed her or something fourteen 19 times." 20 "A I'm not sure if it was - I killed her -21 but 14 times was in there. It was 22 either "I killed her . . " or "I stabbed 23 her 14 times." 24 And then he said: "I fixed her." "Α 25 And then the next page: Meyer CompuCourt Reporting =

		Page 24518
1		"A And then he sort of rolled on his side
2		and started laughing."
3		And then he was asked:
4		"Q Now, what happened when this took place?
5		A The room sort of - just everybody just
6		sat there and just sort of looked in a
7		daze like."
8		And then to the next page, I think he's asked the
9		question about whether he was on drugs and he
10		said no.
11		And then if we can go to
12		actually, this is to 002146, this is where you
13		start cross-examination, and in the
14		cross-examination I don't believe, Mr. Tallis,
15		that you asked the question of Mr. Melnyk, did
16		you, to the effect that did you think David was
17		joking or did you take it as a joke. Can you
18		tell us why you did not ask that question?
19	А	Well, earlier you ran through testimony here in
20		chief where I think that there were, you might
21		say, different interpretations that can be put on
22		it, but in the latter part when he described them,
23		all there in a daze, I then, in my sort of
24		analysis now, likely backed off from pursuing that
25		because he, in my view, would probably have said,
		Meyer CompuCourt Reporting

Page 24519 =

		——————————————————————————————————————
1		if Thad put the question directly "No T took it
-		if I had put the question directly, "No, I took it
2		seriously." I thought there was a margin of
3		difference there from an earlier comment than the
4		last one.
5	Q	And were you influenced at all in exercising your
6		judgment with respect to that question by what Ute
7		Frank had told you of her observations in the
8		room?
9	А	I have no doubt that I was.
10	Q	And if you had received the answer to that
11		question of "No, I don't think he was, I took him
12		seriously," what effect would that have had on
13		your position before the jury about the subject
14		matter, if any, or tell us how that might have
15		affected your case?
16	А	Well, I think it would have been damaging.
17	Q	If you can go to 002153, it appears that you asked
18		some questions here highlighting the fact that
19		David was laughing hysterically when he was doing
20		this:
21		"Q And you said he started to laugh. I
22		suggest to you that a better
23		recollection is that he started to
24		laugh, as you describe it hysterically?
25		A Yah, well, he was laughing.
		•
		Meyer CompuCourt Reporting

Page 24520

I

		1 000 2 1020
1		Q well, didn't you tell the police
2		that he turned over on his side and was
3		laughing hysterically?
4		A Yes."
5		So would you be trying to send a message that
6		maybe David thought it was a joke through this
7		witness?
8	А	Yes.
9	Q	Go to 002155, you then go through some questions
10		here about Craig Melnyk's criminal past, and I
11		think I can summarize it this way. He was
12		charges were pending for armed robbery, in fact,
13		it may have been that the day he was in Court
14		testifying for the Crown in the David Milgaard
15		case may have been a date very close to when he
16		was in some Regina proceedings, and I take it
17		that's something you would have been you would
18		have found out in your inquiries; is that correct?
19	А	Yes, I had obtained that information and that's
20		why I was able to put these particular questions.
21	Q	And what were you trying to do with that line of
22		questioning?
23	А	Well, I was trying to set the stage for possible
24		direction on, I'll say, unsavoury witnesses, or
25		witnesses of unsavoury character would be a better
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

		C C
1		way of putting it, and in particular to compare
2		the type of people that were some of the main
3		Crown witnesses with what I think I would call,
4		you know, lunch bucket witnesses, who go to work
5		every day, and I'm thinking of Mr. and
6		Mrs. Danchuk, people like that, and some of the
7		other people that were called.
8	Q	So here
9	А	In other words, witnesses like this and, say,
10		witnesses like Cadrain were far different from
11		witnesses like the ones I have described.
12	Q	And did you have any sense that Mr. Melnyk and/or
13		Mr. Lapchuk were being motivated to either improve
14		their evidence or fabricate their evidence to get
15		a better deal from the Crown or to get a break on
16		other unrelated matters?
17	А	Well, that was certainly in my mind, that they
18		were the type of people that were capable of doing
19		that.
20	Q	And capable of it, but did you have any
21		information that they had in fact made
22		arrangements with the Crown to exchange evidence
23		in this case for a break in their case?
24	А	Nothing directly like that, but I think that's the
25		kind of thing that would be uppermost or would
		Meyer CompuCourt Reporting

[Page 24522
1		be in their mind when they were
2	Q	- And so you would
3	A	offering to testify.
4	Q	So you would want the jury to think that these
5	×	people have a motive to either stretch their
6		evidence for other reasons?
	7	
7	A	Yes.
8	Q	And did you have the sense that they were
9		stretching their evidence?
10	А	Well, I considered them to be unsavoury types, so
11		in a situation like that, it's difficult to
12		pinpoint specifically what their motives might be,
13		but I'm sure at the time I didn't think they were
14		good motives.
15	Q	If Ute Frank had been called as a Crown witness
16		and gave the evidence that she told you, would you
17		have been able to take the same tact with her as
18		you did with Melnyk and Lapchuk to try and
19		discredit her evidence?
20	А	No, particularly in the light of what she would
21		have said about how she had changed her lifestyle
22		and her approach to life, and even though one
23		might not have necessarily asked all those
24		questions, she was a very talkative person about
25		that time, and while I'm not saying she described
		Mayor CompuCourt Poporting

I

		1 390 2 1020
1		this change with evangelistic fervor, she
2		certainly portrayed to me a person who deeply
3		believed in the change that she had made.
4	Q	I'll just go through parts, here you ask him:
5		"Q As a matter of fact you didn't tell this
6		story to any police officers until you
7		yourself had been charged with armed
8		robbery, isn't that right. Wasn't it
9		after you were charged with armed
10		robbery?
11		A Yes."
12		And skip ahead to 002158, and here's where you
13		ask him about whether he had ever been asked to
14		be a stooly or a stool pigeon and an informer and
15		getting paid to give evidence for the Crown. I
16		take it both of those things would be to try and
17		advance the position you were trying to get
18		the jury to think that these people were
19		unsavoury witnesses?
20	А	Yes, and I hoped to get a direction from the judge
21		to that effect because I was, during the course of
22		the trial I always tried to keep my eye on
23		potential matters as well for a direction to the
24		jury as well as sorting through and including
25		certain things in the jury address.
		Meyer CompuCourt Reporting

Page 24524 1 Q So what you were hoping to get is that a direction 2 for the jury not to put much weight on the 3 evidence of Melnyk and Lapchuk? 4 That's right, and in particular, to scrutinize Α 5 their evidence very carefully --If we then --6 Q 7 -- when you compare it or weigh it as against some Α 8 of the other evidence. 9 Go to 002161, you finish your examination, and I Q 10 take it that you told us you were careful in where 11 you went with Mr. Melnyk; is that fair? 12 Α I tried to be. 13 0 Were there some risks that he might, based on your 14 questions, get into areas that might be more 15 damaging? You gave us the one example about the 16 joking versus serious that could potentially cause 17 damage. Were there any others? 18 Α Well, I didn't want him to, you know, stray too 19 much into David's lifestyle or anything like that. 20 Now, there was some that you couldn't avoid 21 because it came out about his condition in the 22 room, but I just didn't want other details in 23 there. 24 0 Here, once you are done, the judge says: 25 "Now, Mr. Tallis, I'm not at all

= Page 24525 =	
----------------	--

1		satisfied if I may say so with respect
2		to some of the information which I think
3		should be obtained from this man and I
4		thought I'd ask the questions and I
5		think it would only be fair that I allow
6		you to cross-examine on anything arising
7		out of it in view of the seriousness of
8		this matter -"
9		And then just scroll down. Do you have any sense
10		of how the judge viewed the evidence of Melnyk
11		and Lapchuk, and again, just looking for your
12		observations as to how their evidence may have
13		came across, whether it came across as credible
14		or whether he had some doubts about it?
15	А	Well, I really can't recall anything now, but
16		looking at the intervention, one might infer that
17		he was interested in probing areas that counsel
18		had not probed, and when I say counsel, I include
19		Mr. Caldwell as well as myself.
20	Q	Okay. He then asks here:
21		"Q The only time you ever remember
22		mentioning it to anybody would be about
23		two weeks ago, is that right?
24		A Yes.
25		Q To whom?
		Meyer CompuCourt Reporting

Calvin Tallis by Mr. Hodson Vol 121 - Thursday, February 9th, 2006

1 To Ron Wilson. Α 2 To Ron Wilson? 0 3 Yes." Α 4 The same Ron Wilson. 5 "O Where were you talking to him? 6 Up town in Regina. Α Was that before he gave evidence in this 7 0 8 case, do you know?" 9 Before the trial. 10 "Ο Who raised the subject?" Ron; he was talking about coming up to 11 Α 12 Saskatoon. Yes? Did he ask you if you knew 13 Q 14 anything about it or did you volunteer 15 to him? 16 I asked him, like . . Α 17 . . just leave it at that, don't give 0 18 the conversation. Did he say to you 19 that he knew you knew something about it 20 or anything like that, or did you 21 volunteer it to him? 22 Α I think I volunteered it to him. 23 0 And when is the next time that you 24 mentioned it to anybody? 25 After that occasion? Α

Page 24526

- Page 24527 =

1		Q Yes.
2		A The following Monday.
3		Q Was that to the police?
4		A Yes.
5		Q Did the police come to you or did you go
6		to them?
7		A They came to me.
8		Q Where?
9		A In Regina, like
10		Q to your home?
11		A No; they phoned me"
12		So again this line of questioning I think brought
13		out the fact that it was Ron Wilson who got the
14		information initially right before the trial and
15		gave it to the police and the police contacted
16		them; is that a fair reading of that evidence?
17	А	Yes, and that he had volunteered it to Ron Wilson.
18	Q	Can you tell us that exchange or that information,
19		whether it was helpful, harmful to this evidence
20		against your client?
21	А	I think that the response that the witness Melnyk,
22		from the witness Melnyk, that he had volunteered
23		the information to Wilson, was probably damaging
24		to the accused. Certainly I can put it at least
25		this way, that it was not helpful.
		Meyer CompuCourt Reporting

1	Q	And so the theory that they had maybe gone to the
2		Crown with some information that I'll trade you a
3		break on my case if I help you over here, the fact
4		that it now looks like they volunteered it to Ron
5		Wilson and Ron Wilson gave it to the police might
6		undermine that argument a bit; is that fair?
7	А	Yes.
8	Q	And what about the credibility of Ron Wilson in
9		the eyes of the jury, or let me rephrase that, the
10		fact that it appears Ron Wilson was gathering
11		information and providing it to the police, or
12		obtaining information, what if anything did that
13		do to your views on Ron Wilson and how the jury
14		might view his evidence?
15	А	Well, I think that one view of it might be that
16		this type of questioning tended to enhance
17		Wilson's credibility, or reliability, but that's,
18		you know, an assessment that I could be dead wrong
19		on it.
20	Q	And then to 002164, Mr. Caldwell in re-examining
21		simply establishes that Mr. Melnyk's armed robbery
22		charges were in Regina and dealing with Regina
23		police and that the Saskatoon City Police were the
24		ones who interviewed him; is that correct?
25	А	Yes.
		1

Page 24529 -

1 Q If we can then go to 006010, this is Mr. Lapchuk's 2 transcript. Go to 006016, again he describes, 3 we've been through this, "Where's my paring knife?" 4 5 And then the next page, he's asked about what happened when the accused did 6 these things, he said: 7 8 "A Well, I was shooked, like I hadn't 9 expected a display like that, you know; 10 and I just started looking at him and I believe everybody else was looking at 11 12 him also; and then he looked up and saw 13 that everybody - that I was staring at 14 him with my jaw hanging down." 15 And again, I think in the cross-examination of 16 Mr. Lapchuk you did not ask him the question did 17 you take it as a joke or take it seriously, and 18 would you have the same reasons as Mr. Melnyk? 19 Α Yes. 20 This is probably an MR. HODSON: 21 appropriate spot to break. I'm moving on to a 22 different area, Mr. Commissioner. 23 (Adjourned at 2:34 p.m.) 24 (Reconvened at 3:00 p.m.) 25 BY MR. HODSON: Meyer CompuCourt Reporting =

ī		——————————————————————————————————————
		1 ugo 2 1000
1	Q	Sorry, Mr. Tallis, there's just a few more items
2		of Mr. Lapchuk that I should finish up on, and
3		again just for the record, 006026, and this is
4		Lapchuk talking about:
5		"Q You're expected to stand trial on what
6		is that that's coming up?
7		A Forgery and uttering and possession of
8		stolen goods"
9		And I think this may well have been theft, or
10		someone else may have been involved in a theft of
11		David Milgaard's wallet or ID. And again, so you
12		would have had the same approach with Mr. Lapchuk
13		as you did with Mr. Melnyk, trying to put
14		evidence before the jury that they were of
15		unsavoury character?
16	А	Yes, I think that's a fair assessment.
17	Q	And then if we can go to 031302, which is the
18		address to the jury, and here's how you deal with
19		Melnyk and Lapchuk.
20		Let me just, before we get into
21		that, what was your sense, this was right at the
22		tail-end of the trial, this evidence. Are you
23		able to give us some idea of how you thought it
24		affected the case against Mr. Milgaard?
25	А	It's very difficult to assess, but speaking on a
		Meyer CompuCourt Reporting

1		comparative basis, I thought that it had nowhere
2		near the impact that the testimony of Nichol John
3		delivered in the manner in which it was and under
4		the circumstances had. I don't know whether that
5		answers your question, but that's the, that's my
6		sense of things trying to reflect back a good many
7		years. I think if you had asked me that question
8		not too long after that, I would have probably
9		addressed it in much the same way, that is, on a
10		comparative basis.
11	Q	Would it be fair to say, though, that it was
12		damaging evidence?
13	А	I think it was depending on the view that was
14		taken of these people.
15	Q	And I think what Chief Justice Bence said in his
16		charge to the jury, there were really two issues,
17		one is can you believe Melnyk and Lapchuk when
18		they say David Milgaard said these things, and
19		then if you do, the second test is was David
20		Milgaard serious and truthful when he said them;
21		is that fair?
22	А	Yes, and I know that's the type of direction I was
23		hoping to get, at least with respect to the latter
24		part of it.
25	Q	And so here with Melnyk and Lapchuk you say:
		Meyer CompuCourt Reporting

= Page 24532 =

F

		Page 24532
1		"There's no real discrepancies in the
2		evidence as between them."
3		And then to the next page, you talk about their
4		background, you say:
5		"Not only are they not all America, but
6		they are not all Canadian."
7		And then go on to say
8	А	I guess Mr. Caldwell baited me a little.
9	Q	That's right, I think he called them all America,
10		you went one step further.
11	А	I didn't even think they deserved to be called all
12		Canadian.
13	Q	If we can go to the next page actually, you
14		know, I think that finishes up. So again, it
15		would be the unsavoury the manner in which you
16		chose to deal with that evidence was to, it seems,
17		call into question their character, put in the
18		minds of the jury that there might be reasons to
19		question their modis in testimony, in particular
20		given their trouble with the law and some upcoming
21		charges; is that fair?
22	А	Yes.
23	Q	If we can now turn to the issue of the secretor
24		defence, and, Mr. Tallis, we've heard a fair bit
25		of evidence, we've heard from Mr. Paynter, Mr.
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980 Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv

	1	
1		Penkala, Dr. Emson, Dr. Ferris on the subject
2		matter, so that we have canvassed it in a fair bit
3		of detail, and I want to go through with you what
4		your take was at the time about this evidence and
5		how it fit in, and you've already told us about, I
6		think you said before the preliminary hearing you
7		took steps to look at it. Can you tell us maybe
8		just generally what your view was of the frozen
9		semen, or the semen that was found in the snow and
10		how you intended and how you used that at trial to
11		assist Mr. Milgaard's case?
12	А	Well, I proceeded on the footing that David was a
13		non-secretor and I did so because at that time I
14		thought there was an evidentiary basis for that.
15		That being so, I thought there would be an
16		advantage to him to have the seminal fluid
17		introduced in evidence. Now, of course bear in
18		mind that it had been established that the best
19		evidence with respect to seminal fluid had not
20		been retained as I recall it, so I proceeded on
21		that footing because if he was a non-secretor and
22		that the donor of that seminal fluid sample was a
23		secretor, it would exclude him as the attacker.
24		Now, I'm trying to summarize,
25		distill it so that I don't go into too much detail
		Meyer CompuCourt Reporting

because, as you've said, you already have all that, so I think that's the way I would summarize it.

4 0 And I think the issue at the preliminary hearing 5 and trial focused on, and I think what you say was accepted by the Crown and the other witnesses 6 7 except for the fact that the Crown and some of the witnesses then went further to try and explain --8 9 tried to explain how the semen with A antigens 10 could have come from an A non-secretor, and I 11 think the question then became was, I think 12 initially -- let me start off by saying this, that 13 the initial response was, and I think what Staff 14 Sergeant Paynter said, that if it's pure seminal 15 fluid and the fact that there's A antigens in 16 there, then it would have to come from an A 17 secretor? 18 Yes. Α

19 **Q** Is that --

1

2

3

20 A That's correct.

21 Q And then I think they went further and said okay, 22 if there was blood, whole blood in the semen and 23 that came from an A non-secretor, an A 24 non-secretor's blood would have A antigens in 25 there and that if the donor got his blood in his

— Meyer CompuCourt Reporting =

1		semen in some way, that might explain why A
2		antigens would be in the semen and therefore you
3		could say that semen with A antigens could come
4		from an A non-secretor; is that fair?
5	А	Yes, I think that summarizes it I think fairly.
6	Q	And I think the issues that were canvassed with
7		Mr. Paynter and Dr. Emson were focusing on that in
8		the frozen semen, was there blood in there, number
9		one, or could they establish that there was blood
10		in there and, if so, what type of blood?
11	А	Yes.
12	Q	To try and, I guess not discount, but I think the
13		position of some of the people in response to your
14		position was, well, there could be blood in there
15		and that might explain the antigens; is that fair?
16	А	Yes, I think you have the benefit of all this
17		other testimony you've heard, but I accept what
18		you've set forth.
19	Q	Now, on the issue of David's secretor status, we
20		know now I think in 1992 he was tested and it was
21		determined that he is in fact a secretor, and
22		let's just go back to 1969, 1970, and I can tell
23		you that in the evidence presented by the Crown,
24		in particular, by Mr. Paynter, he confirmed that
25		in the saliva test that he conducted, that there
		Meyer CompuCourt Reporting

F

		1 age 2+000
1		was no A antigens and on that basis he concluded
2		that he was a non-secretor.
3		Now, there's some, I think when
4		he testified here he said that that doesn't mean
5		you are a non-secretor, it just means on that test
6		you didn't have antigens in there, but I think at
7		trial everybody was proceeding on the basis that
8		he was a non-secretor. Did you have any doubts at
9		that time about whether he was or was not a
10		secretor or did you accept what the Crown had put
11		forward?
12	А	Well, I had no reason to doubt the results of the
13		test by Mr. Paynter. I knew that he had given
14		expert evidence for many years in the courts in
15		this province, and I think other courts, and I
16		suppose I should also acknowledge that in my view
17		that analysis, which I assumed to be correct,
18		ought to operate in favour of David, and of course
19		he had, David had co-operated fully in making
20		available a saliva sample and there was no
21		suggestion that he had done anything to
22		contaminate it or anything like that, so it had
23		been taken under strict controls, and in the
24		circumstances I proceeded on the footing that
25		David was a non-secretor.
		Meyer CompuCourt Reporting

1	Q	If you had been aware in 1969, 1970, and whether
2		the test was done right or not I'm not saying, but
3		if the test at that time had shown that David was
4		a secretor, would you have taken a different
5		position with respect to the admissibility of the
6		frozen semen that was tendered?
7	А	I might I think I probably would have.
8	Q	We have heard, and I think in particular Dr.
9		Ferris and perhaps others say that the fact that
10		it was found three or four days after the murder,
11		the risk of contamination was such that from a
12		forensic scientist perspective it was not a
13		reliable piece of evidence to be used to either
14		eliminate or implicate a suspect, and I'm just
15		wondering back in 1969, 1970 if you were of the
16		view that this semen was incriminating or damaging
17		to Mr. Milgaard, whether you might have taken
18		steps to challenge its admissibility on that basis
19		or a similar basis?
20	А	I might have, but how successful I would have been
21		I cannot say, but as I say, I was, that's
22		hypothetical from my perspective because I was
23		proceeding on the footing that he was a
24		non-secretor and I certainly wouldn't want to do
25		anything to take away a potential piece of helpful
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Page 24538 1 evidence from his perspective. Would it be fair to say that going into trial, and 2 Q 3 indeed at the preliminary hearing, that you viewed 4 the semen, the frozen semen, as being helpful to 5 David Milgaard's case? There's no question about that. 6 Α 7 And in fact exculpatory? Q Yes, and I may add, I think the Crown viewed it as 8 Α 9 such and that's why, you know, the explanation was 10 considered and advanced for blood in the semen. 11 Q And let me just understand that. In the absence 12 of evidence of blood being, whole blood being in 13 the semen, are you saying that the Crown viewed it 14 as being exculpatory then? 15 That was my assessment, and I may be wrong because Α 16 I can't go into their mental processes on it, but 17 standing back, I would think that was likely, and 18 the fact that it was sent back for retesting, or 19 an additional test, would lend support, I think, 20 to the view that I took. 21 And when you talk about it being exculpatory, can Q 22 you tell us, what was your view or your position 23 at the time, are we talking something that is, 24 tends to favour him or would you go so far as to 25 say that it would prove his innocence or prove

— Meyer CompuCourt Reporting =

- Page 24539 =

		——————————————————————————————————————
1		that he didn't commit the crime, can you give us
2		some sense of where on the spectrum the weight of
3		this evidence would be?
4	А	I always considered that it was entitled to great
5		weight.
6	Q	Sufficient to raise a reasonable doubt as a
7		starting point?
8	А	Yes.
9	Q	And perhaps a bit further?
10	А	Could well be.
11	Q	And again before we get into the transcripts, I
12		think I might I'm sorry?
13	А	And I would say this, and I don't mean to inject
14		improper things, but I remember after the case
15		was, the trial was concluded, and I have no
16		recollection of this, but I remember Miss Wilson
17		saying to me not too long before she passed away,
18		she said, you know, I remember you saying to the
19		sheriff, or whoever it was that was gathering up
20		the exhibits, according to her, but I have no
21		memory of it, made the comment that, you know,
22		these exhibits should be carefully preserved
23		because some day medical science may answer the
24		question that was raised here. Now, I have no
25		recollection of that, but she certainly did, and
		Meyer CompuCourt Reporting

■ Page 24540

1		that was consistent with my view of the importance
2		of this evidence.
3	Q	And that discussion would have been after the
4		trial was concluded?
5	A	That's right, and usually the sheriff gathered up
6		the exhibits, sheriff or Court official gathered
7		them up, but as I say, I'm passing along another
8		recollection, but it's certainly consistent with
9		my view of the importance of this evidence, and I
10		thought that right from the very beginning and
11		that's why I prepared well in advance to deal with
12		it for the preliminary hearing.
13	Q	Do I take it from that then that your view was
14		that the scientific evidence, namely, the secretor
15		issue as you then knew it, was something that you
16		felt exonerated David Milgaard, or excluded him as
17		the perpetrator?
18	A	I know that in my partisan thinking that that was
19		my view.
20	Q	Again, just before we get into Mr. Paynter's, some
21		of his evidence, can we distill it this way,
22		that and I mentioned this a bit earlier, that
23		the real issue was whether or not there was blood,
24		whole blood in the frozen semen, that was the
25		focus, because if there was no blood, then there
		Meyer CompuCourt Reporting

Page 24541

		——————————————————————————————————————
1		was no explanation for the A antigens being in the
2	_	semen other than coming from a secretor?
3	A	Yes.
4	Q	And I think there was two issues that were really
5		alive, one is the test that Mr. Paynter did for
6		blood, I think he called it a presumptive test,
7		whether it actually proved there was blood in
8		there, and secondly, the evidence from Dr. Emson
9		about how medically a person may get blood in his
10		semen?
11	А	Yes.
12	Q	You told us earlier that you had read literature
13		on the subject and consulted experts; is that
14		correct?
15	А	Yes, I think I've covered that with you as best I
16		can.
17	Q	Did you have any doubts or concerns that this
18		frozen semen was human as opposed to from a dog?
19	А	Well, knowing Mr. Paynter as the expert witness
20		that I knew him to be, I did not think that he
21		would present a conclusion that something was
22		human semen unless as a scientist he was sure of
23		that.
24	Q	If we can go to 008027, and I think you told us,
25		Mr. Tallis, that you read literature, consulted, I
		Meyer CompuCourt Reporting

AS.

Page 24542

ſ

1		think you said you obtained some draft questions
2		from a publication on the subject and that after
3		you to prepare your examination of Mr. Paynter,
4		and that after you were done the preliminary
5		hearing you had the questions and answers reviewed
6		by an expert friend?
7	А	Yes. I was put in touch by my medical friend here
8		in town with someone who had more expertise in the
9		area, and without my file I can't tell you who it
10		was, but I did it over the phone, so I know it was
11		long distance, but I actually had all the
12		questions and I received great co-operation on it
13		and read them carefully and then of course sought
14		advice.
15	Q	And then I think you said after you got to Mr.
16		Paynter's answers, or perhaps Dr. Emson's as well,
17		you communicated those to your expert?
18	А	Yes, that's what I'm talking about, I had reviewed
19		them with them.
20	Q	And I think you told us that he told you that
21		that's as good as you are going to get, or better
22		than you might expect?
23	А	Yes. I was told that and I had no reason to doubt
24		it at that time.
25	Q	If we can go to 008031, please, again, this is the
		Meyer CompuCourt Reporting

Page 24543 1 preliminary hearing of Mr. Paynter, just a couple 2 of questions here that Mr. Caldwell asked. 3 Actually, if we can just go over to show the 4 question 31, it says: Now that's as far as you went in that 5 "O first examination." 6 7 And again, we're talking about I1 which was the 8 frozen semen. 9 "What would that, of itself, indicate to 10 you about the donor?" He said he found A antigens. He said: 11 12 " A This would indicate that if the sample 13 was pure seminal fluid it would have to 14 come from a person of group A blood, who 15 was a secretor." 16 So again I think that's a point we made earlier, 17 if it's pure seminal fluid with A antigens, it 18 has to come from a secretor. 19 Then the next page, he talks 20 about, Mr. Caldwell asks: 21 "A ... I examined the fluid remaining in 22 the vial marked "I 1" for the presence 23 of blood. 24 0 Alright, had you specifically examined 25 it for the presence of blood the first

Calvin Tallis by Mr. Hodson Vol 121 - Thursday, February 9th, 2006

1		time?
2		A No, sir."
3		And then the next page, the top, it says at
4		question 40:
5		"Q I see. Alright, now, on this occasion,
6		what did you find about the two vials?
7		A In Exhibit marked "I 1", I conducted
8		what we refer to as a presumptive test
9		for blood. I found this to give a
10		positive result in the case of the one
11		marked "I 1"."
12	And I think we've heard from a number of	
13		witnesses that a presumptive test for blood
14	doesn't necessarily a positive presumptive	
15	test for blood doesn't necessarily mean it's	
16	blood. Do you understand that to be the case,	
17	Mr. Tallis?	
18	А	Yes.
19	Q	And then if we can skip ahead, 008036, again just
20		for the record I'll point this out, question 69,
21		sorry, 70 at the bottom, and he's asking if P.36
22		is Mr. Milgaard's saliva sample.
23		"A I examined the saliva sample for
24		the presence of any blood group"
25		And I think this is where the Crown led evidence
		Meyer CompuCourt Reporting

Page 24544

F

1 that a person would have to be a secretor to be 2 able to find them, and then scroll down to 3 question 75: "A 4 I found neither A nor B antigens in the 5 saliva stains." So is this what you would be relying upon? 6 Ι 7 think you told us earlier you proceeded on the 8 basis that the Crown's evidence about Mr. 9 Milgaard's secretor status, you accepted that? 10 Α Yes. And then if you go to page 008039, and here I 11 Q 12 think right off the bat, question 2, you talk 13 about the testing for blood, what tests, it talks 14 about the hemostix test, checking for blood, is 15 this the only test you used on the articles? No. 16 And then -- actually, I think then the next page 17 you talk about a second test, a hemochromogen 18 crystals test which is a test I think they did on 19 perhaps some of the clothing, but not on the 20 frozen semen; is that correct? 21 I believe you are right on that. Α 22 Q Then you went through a fairly detailed set of 23 questions about A, B, O and antigens. If you can 24 go to 008042, and again the question that your 25 blood type and grouping doesn't change from birth

Page 24545

_____ Meyer CompuCourt Reporting ____

15

		Page 24546
1		to death. Next page, he agrees. And then you ask
2		him some questions about further grouping group A
3		into A1, A2 and A3, and do you recall what the
4		purpose of that was or whether that was just
5		general information or were you going anywhere
6		with that?
7	А	Well, I know that I had done some work and had
8		been briefed on sub-groups and I wondered whether
9		or not, and this was at the preliminary hearing,
10		whether this breakdown would be of any relevance
11		to the tests that he might conduct, or might have
12		conducted I should say.
13	Q	And I think we've heard some evidence that even
14		amongst A secretors you can actually eliminate, or
15		identify one A secretor from a different sub-type
16		of an A secretor. Was that your understanding?
17	А	Looking at this, I'm sure that's what I had been
18		briefed on.
19	Q	Yeah. And then to page 008045 you ask, question
20		47:
21		"Q Well now, in this particular case, did
22		you conduct any testing with respect to
23		sub-grouping?
24		A No, sir."
25		So it appears that you would have confirmed that
		•
I		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Page	24547
r aue	24041

he didn't do any of that?

2 A That's right.

1

3 And then the next page, he confirms for you at 56 0 and 58 his report to the police, his opinion that 4 5 the seminal fluid was probably from a secretor of group A, and if we could go ahead to 008048, here 6 7 I think you have some questions about the secretor test on David, the saliva test, and confirms that 8 9 it was using an accepted test in the field, and 10 the next page, I won't go through it, but again 11 some further questions here on page 008049 12 confirming the testing he did and whether he did 13 any further tests on the saliva sample, but I 14 think confirming that at least according to Mr. 15 Paynter, the secretor test that he had done on 16 David Milgaard was done in accordance with 17 accepted practices; is that a fair summary? 18 Yes, that was certainly my conclusion based on Α 19 what he said. 20 If we could then go to 008051, and then in his 0 21 examination-in-chief I think he had said something 22 about the positive tests for blood, and I1 is the

24 A Yes.

23

25

Q -- of the semen. You say:

frozen sample --

Calvin Tallis by Mr. Hodson Vol 121 - Thursday, February 9th, 2006 Page 24548 "0 ... and when you checked "I 1", you indicated to my learned friend that you found a trace of blood, did you? This is what was indicated, yes. Α 0 Now was this a very minute trace of blood? I would say it was, there was no color Α indication in the liquid that in other words, from a microscopic 0 __ " Α Macroscopic. Q "-- macroscopic examination of the liquid, you wouldn't know? That is correct." Α And then: "O What particular test did you use to check for the presence of blood in that fluid? Α This is where I mentioned the Hemostix test, the one used by hospitals to identify ... " And then to the next page, you ask: "0 And I take it that would be due to the fact that the amount was so minute?"

 Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv

He says:

	Calvin Talli by Mr. Hodson Vol 121 - Thursday, February 9th, 200
	Page 24549 ———————————————————————————————————
1	"A There was not sufficient there to
2	attempt a blood grouping in our normal
3	method."
4	Then you ask:
5	"Q So that as far as you were concerned,
6	there was no method that you knew of
7	that you could have used to test the
8	blood group of that blood that was
9	there?
10	A No sir, the test that I use to obtain
11	the antigens in the sample of liquid,
12	is one of the tests that we use in
13	grouping blood stains."
14	And then goes on to say just actually scroll
15	down to 112 at 113:
16	"Q And I take it"
17	Again testing the seminal fluid:
18	"Q And I take it that you found antigens?
19	A I did. I could not say if they were
20	from seminal fluid or blood."
21	So in other words, he's saying I can't say
22	whether or not it's from an A secretor or from
23	type A non-secretor who had blood in his semen.
24	Then if we can scroll down, you
25	then ask:
	1

Page 24550 1 "0 But the nature of the antigens that you 2 found indicated to you that they came 3 from a person who would be a secretor?" 4 He says: 5 "A If they were from the seminal fluid. Ιf they were from the blood, the person 6 7 would not have to be a secretor." 8 Again, I think that's what we're talking about. 9 "O You just couldn't say one way or the 10 other? 11 Α No, sir, if there was Group A blood 12 there, you would get that reaction, 13 whether or not the person was a 14 secretor." 15 Next page: 16 "If there was no blood there, you would 17 not get the reaction unless he was a 18 secretor." 19 And you say: 20 "0 So that what you are saying then is that 21 a person with Group A would have had to 22 lose some blood, in some way, under 23 those circumstances? 24 Α Yes sir. There would be traces of his 25 blood in the seminal fluid, if the = Meyer CompuCourt Reporting =

1			seminal fluid was from a person of
2			Group A."
3		And again	n, that would be the situation if that
4		seminal,	if that semen was to be attributed to
5		David Mi	lgaard; is that correct, that there would
6		have to l	be his blood in there?
7	А	Yes.	
8	Q	Then you	ask:
9		"Q	But would that - you say traces of the
10			blood, does seminal fluid ordinarily
11			have traces of blood in it?
12		А	I couldn't really say on that, I would
13			not suspect so, the pure sample."
14		Scroll do	own:
15		"Q	No, what I'm getting at is, this trace
16			of blood would have to come from - in
17			your view, from somewhere other than the
18			emission of ordinary seminal fluid?
19		А	I would suspect it could be contained
20			in the seminal fluid as a result of a
21			strain, or something like that, or the
22			rupture of a blood vessel in the tract
23			where the seminal fluid was emitted
24			from."
25		And then	scroll down to 120, I think then you ask
			Meyer CompuCourt Reporting

F

1		about:
2		"Q in this particular case, you know of
3		no way that one could test for blood
4		grouping with an amount of blood that
5		you found in this "I 1"?"
6		So in other words, I think you are confirming
7		that he can't, if there is blood in the frozen
8		semen, he can't group the type, because I think,
9		Mr. Tallis, in your closing address to the jury,
10		one of the suggestions you put forward, that if
11		there was blood in his frozen semen, or in the
12		semen found in the snow, the most likely source
13		would be from Gail Miller; is that correct?
14	A	Yes.
15	Q	And to the next page actually, I think we can
16		skip ahead to that's all for the preliminary
17		hearing.
18		So after you examined Mr.
19		Paynter at the preliminary hearing and based on
20		the discussions with your expert, did you conclude
21		that you had a basis to argue that this frozen
22		semen excluded Mr. Milgaard as a donor?
23	А	Yes, I did.
24	Q	If we can then go to trial, the trial transcript,
25		041925. Did you consider whether you needed to

Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980 Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv

É

1 S

		Page 24553
1		have your own expert testimony on this subject
2		matter?
3	А	Yes, but the advisors I had indicated to me that I
4		couldn't hope to get anything more than I did have
5		and with that, I thought that I should take their
6		advice and follow through on that basis.
7	Q	So in other words, use the Crown witnesses to
8		prove the evidence that you needed to exculpate
9		your client?
10	A	Yeah.
11	Q	If we can then go ahead to 041941, again I won't
12		go through what I went through from the prelim,
13		just on the explanation, that here is where Mr.
14		Caldwell asks him about what he did to confirm
15		that it's human seminal fluid.
16		"One is a test for an enzyme produced by
17		the male prostate gland known as
18		phosphatase enzyme."
19		And a microscopic examination. And I take it,
20		Mr. Tallis, you did not take issue with Mr.
21		Paynter's evidence that this frozen semen was in
22		fact from a human?
23	А	No, I didn't.
24	Q	If we can then go to 041943, and then Mr. Caldwell
25		asks him to explain, again we'll just focus on the
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Page 24554 1 issue of blood, whole blood being in the semen: 2 On this occasion examination was to " A 3 determine if there was any blood 4 present." 5 "O And what was the result of this second examination? 6 7 If I may explain that test. This test Α 8 is one used by hospitals to test for 9 blood in urine and they find that it 10 is specific for their purpose for testing for blood in this liquid. 11 Ι 12 have used this test and tested it with several substances and I found that it 13 14 will give a false positive reaction 15 with certain green vegetables and with 16 leather. 17 What do you mean by a false positive 0 reaction? 18 19 Α It will give a positive result - the 20 same result with these substances as 21 it will with blood." 22 And so in other words, I think what he's saying 23 is if you have some semen with leather or leafy 24 vegetables, or certain green vegetables 25 contaminating them, you will get a positive test Meyer CompuCourt Reporting =

l			——————————————————————————————————————
1		for bloo	d; is that right?
2	А	That's m	y understanding.
3	Q	So in ot	her words, a positive test on this type of
4		test doe	s not necessarily mean that there's blood
5		in the s	ubstance; correct?
6	А	That's r	ight.
7	Q	And then	if we scroll down, Chief Justice Bence
8		says:	
9		"Q	In other words, it's something from the
10			vegetables that's there and not blood
11			and mistaken for blood, is that what you
12			mean?
13		A	No sir; I'm saying that the test -
14			when tested against other substances -
15			a few other substances will give a
16			false positive and for that reason I
17			cannot positively say that a substance
18			is blood from using this test alone.
19		Q	It's not much good then, is it?
20		A	Well, we use it as a screening test to
21			eliminate stains and then if it is
22			positive we attempt to do a further
23			test to positively identify it as
24			blood if there is sufficient there."
25		Again, t	he next page, and then so I think what
			Mever CompuCourt Reporting

Page 24556 1 Mr. Paynter is saying, you do the hemostix test 2 to get past step 1, if it's positive doesn't mean 3 that there is blood, but then you go do a second test to positively identify it as blood; is that 4 5 your understanding? That's right. 6 Α 7 And then here he says: Q 8 "A I obtained a positive result for blood 9 with this test." 10 And then he says here. ... there was insufficient blood in this 11 "O 12 sample - or coloring in this sample that 13 I was able to attempt any confirmation 14 tests to absolutely prove that there was 15 blood present." 16 And then the Court says: 17 It turned out to be useless then, didn't "0 18 it? 19 Α Chemically I could not say that it was 20 definitely blood there." 21 And again, would this be the type of evidence 22 that you had expected from Mr. Paynter? 23 Α Yes. 24 0 And then we scroll down, Mr. Caldwell asks the 25 question: Meyer CompuCourt Reporting =

by Mr. Hodson Vol 121 - Thursday, February 9th, 2006 Page 24557 1 "0 And as I understand you, Staff, this would be a matter of the quantity you 2 3 had to work with? 4 That is correct, sir. Α 5 0 And can you describe or not the quantity of blood revealed to you in this way?" 6 7 You then object: 8 "My Lord, my learned friend is using the 9 question quantity of blood and with the 10 utmost deference . . " 11 And the judge says: 12 ". . there is no evidence whatsoever of 13 blood." 14 And you say: 15 ". . and I think accordingly the 16 question should be framed differently." 17 And then the Court -- if we can just actually 18 scroll down, the Court says: 19 ". . there is no evidence whatsoever of 20 blood." 21 ". . and I think accordingly the 22 question should be framed differently." 23 I'm sorry, I've read that already. The Court 24 says: 25 "Well, there is no proof of any blood." = Meyer CompuCourt Reporting =

Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980 Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv

Calvin Tallis

		Page 24558
1		And again, would that be the evidence and the
2		direction you were seeking, Mr. Tallis, based on
3		what your advisors had told you?
4	А	That's certainly the direction I was trying to
5		point people.
6	Q	And the next page, Mr. Caldwell goes at it a
7		different way and says:
8		"Q This was in effect - well, I won't
9		pursue that, My Lord -
10		Alright now, if indeed there was blood
11		as such - I'm asking about this time -
12		in the sample at the time you checked
13		for blood as such"
14		And the judge says:
15		" excuse me, but there was no blood."
16		And then says:
17		" you just can't ask hypothetical
18		questions like that unless you're
19		prepared to prove that there was blood
20		there. If you can't prove that there
21		was blood there through some witness or
22		other I won't allow you to pursue it."
23		And then scroll down, about the test he says:
24		" Well, it was positive for blood but
25		he has already said that that might be
		Meyer CompuCourt Reporting

		Vol 121 - Thursday, February 9th, 2006 Page 24559 Page 24559
		r aye 24008
1		false because of the other factors that
2		he mentioned and he said that there
3		wasn't enough to make a positive
4		identification as to whether it was a
5		false positive or not a false positive."
6		And then I think you interject:
7		" excuse me, if I may interject here.
8		He even went further, My Lord, and said
9		chemically I would not say it was
10		blood."
11		Next page, Mr. Paynter says:
12		"Chemically I could not positively
13		identify it as blood."
14		So at that point, Mr. Tallis, were you satisfied
15		that the evidence at least before the Court on
16		the issue of whether or not there was blood,
17		based on a scientific test of the semen, that
18		there was no evidence that there was blood in
19		that semen?
20	А	Yes, and I thought that Sergeant Paynter was quite
21		direct in answering questions on that.
22	Q	So the individual who does the scientific testing
23		says I can't say there's any blood in there,
24		there's no evidence that there's blood in the
25		semen, what you told us a bit earlier, that once
		Meyer CompuCourt Reporting

1 you establish that, then I think you were saying 2 there's no way the semen could have come from 3 David Milgaard; is that fair? 4 Α That's right. 5 Q If we can then go to 041964, you were asked the question here in your cross-examination 6 7 confirming: 8 "0 ... that about 85% of the population 9 secrete blood grouping factors in ... 10 fluids other than blood." 11 So I take it -- next page. I take it from that, 12 then, that a non-secretor would be in the 13 minority; is that correct? 14 Α That's what I was trying to establish. 15 If we can go to page 041969. Actually, go to 0 16 041968, just at the bottom. I think Chief Justice 17 Bence interjects: 18 "I'm sorry, I'm going to have to 19 interrupt you, Mr. Tallis, to clear up a 20 point on this business of being a 21 secretor -" 22 And then the following couple of pages are some 23 questions: 24 "0 You said at the time you made your 25 report that in your opinion the seminal = Meyer CompuCourt Reporting = Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv

Page 24561 1 fluid came from a secretor of group "A"?" 2 3 Paynter says: 4 "A Probably came from a secretor of group 5 "A", I believe it was." 6 And then carrying on: 7 "O Alright; and if the substance that you 8 found there turned out - that is the 9 free blood, which you thought was free 10 blood - turned out to be not free blood 11 - you understand what I mean? One of 12 those other substances that you referred 13 to that came from leafy lettuce and so If it wasn't blood - if it came 14 on? 15 from one of those other things, what would that do - confirm or . . " 16 17 And then: . . this would indicate that it came 18 "A 19 from a secretor of group "A", or group 20 A-B, yes, sir. 21 If it was not blood? 0 22 Α If the substance that gave me this 23 positive test was not blood." 24 And then: 25 But if it was blood . . " "O

1 And the answer is: 2 . . if it was blood I could not say " A 3 whether or not it was a secretor because . . " 4 5 And then the judge says: . . and yet you can't tell me or tell 6 "0 7 the jury whether it was blood or it 8 wasn't blood, is that right? 9 I cannot tell you definitely. In my Α 10 opinion it probably was blood but I cannot tell you positively. 11 12 Q It might not have been blood? 13 Α There is a chance, yes. 14 Alright; so that you can't say 0 15 definitely then that the person whose 16 seminal fluid you examined on this 17 occasion was a secretor or not a 18 secretor? 19 Α I cannot say, no sir." 20 And I just want to pause there, Mr. Tallis, and 21 get your comments on that line of questioning and 22 what if any effect that had on your position 23 before the jury about the exculpatory nature of 24 this. 25 Α Well, I can't recall exactly my reaction, but = Meyer CompuCourt Reporting =

Page 24562

Ī

		- Fage 24303
1		reading it over, I think it's fair to say that the
2		questions cut down on the progress that I had made
3		in this area.
4	Q	If I can maybe restate that to you. I think
5		before the judge asked the question you had
6		established that there was no evidence of blood in
7		the semen and therefore it could not have come
8		from David Milgaard; correct?
9	А	Yes.
10	Q	And I think that's what you were trying to
11		establish. If I look at this question and answer
12		here, what Mr. Paynter is saying is I can't tell
13		you, which is probably correct, but I can't tell
14		you whether this came from a secretor or not, and
15		I suppose to a juror might that be let me ask
16		you to
17	А	Well, I think it undermines what I consider to be
18		the position I had generally established.
19	Q	And then he goes on to say:
20		"Alright. I'm sorry I'm a little dense
21		on that, Mr. Tallis, but I had to get it
22		through."
23		And then you carry on to the next page, 041977,
24		and you are now asking him about the semen and
25		the colour and about how much blood it would take
		Meyer CompuCourt Reporting

AS.

- Page 24564

		Page 24564
1		to turn the colour pinkish, he says:
2		"A It would not take a great deal to start
3		giving a pinkish color to the liquid.
4		Q That's right; and you had enough to do
5		with the samples that it's fair to say
6		that you didn't even detect a pinkish
7		color
8		A I did not suspect any blood in it
9		when I first received it, sir.
10		Q And when you looked at it even later on
11		there was no pinkish coloration or
12		anything like that that the naked eye
13		could see?
14		A No sir."
15		So again I take it this would go to the issue of
16		whether or not there was blood in that semen?
17	А	Yes, and I think I asked these questions in light
18		of the questions that had been put by the Court.
19	Q	Is it fair to say that you would have rather not
20		had the judge ask those questions?
21	А	That's correct.
22	Q	Go to 255230, please.
23	А	I don't want to be facetious, but I sit here and
24		wonder if I didn't do some of this when I was a
25		trial judge. Tried not to, but
		Meyer CompuCourt Reporting

by Mr. Hodson Vol 121 - Thursday, February 9th, 2006 Page 24565 1 Q I've got a number of your judgments I was involved 2 with that I'll deal with at the end. 255230 is Dr. Emson and this is 3 4 at the trial, Dr. Emson was the pathologist, and 5 if we can go to 255256, so -- and I think what we talked about earlier, there was really two 6 7 components to this question of how can there be 8 blood in an A non-secretor's semen, and we just 9 went through Mr. Paynter's evidence which was look 10 at the substance and have a scientist chemically analyze it and tell me whether or not there's 11 12 blood in there, which he said no, I can't, and 13 here Dr. Emson is asked the question about 14 medically can a person, how can a person and what 15 is the probability of a person getting his blood 16 in the semen, and this is an examination by Mr. 17 Caldwell, this is at trial, he says: 18 "O Now, Doctor, your work involves the 19 examination of seminal fluid and its 20 constituent spermatozoa as you have told 21 us? 22 Α Yes. Are there conditions under which human 23 0 24 blood as such can get into seminal fluid 25 or spermatozoa in the male person?

Calvin Tallis

_____ Meyer CompuCourt Reporting ____

Page 24566 Yes. Α Could you tell the Court what they are 0 please? One would be local injury to the male Α genitals. A second and quite common occurrence would be any inflammation either internal or external of the male genitals. 0 Are there any other causes? There are rarer conditions but I think Α the injury and the inflammation are the most common ones. 0 You understood my question to be speaking of blood as such as opposed to any constituent of blood? Yes - blood cells." Α And then it goes on: "Ο If you had some bladder trouble, blood from the bladder that might . . ? . . yes, My Lord. Inflammation Α anywhere in the genital or urinary system." Let me just pause there. Is that an issue that

you had raised with your expert advisors?

_____ Meyer CompuCourt Reporting =

K

= Page 24567 =

		Page 24567
1	А	Yes, I was aware of this possibility and
2	Q	Did your advisors tell you whether or not it was
3		possible for a male, or young male to have his
4		blood find its way into his semen in the manner
5		suggested by Dr. Emson?
6	А	I was advised that that could be so.
7	Q	We then go to 2
8	А	Let's put it this way, that medical people that I
9		had spoken to would not have been able to, at that
10		time at least, to dispute, or would not have
11		disputed what he was saying.
12	Q	And so that it was possible that that could
13		happen; is that fair?
14	А	Yes.
15	Q	And if you would have called an expert on that
16		subject matter, based on what your advisors were
17		telling you, what would your experts say?
18	А	Well, they would essentially have supported the
19		position Dr. Emson took and, frankly, that's why I
20		had spent so much time with Mr. Paynter on the
21		tests and the inability to identify blood in a
22		positive way.
23	Q	If we can go to 255272, this is where you question
24		Dr. Emson about that and you say:
25		"Q Now, you told my learned friend also
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

1	I	Vol 121 - Thursday, February 9th, 2006 Page 24568
1		that blood is sometimes located in the
2		seminal fluid of a male person and you
3		told my learned friend, the jury and His
4		Lordship certain things that may cause
5		this. Now, would I be correct - well,
6		have you ever found blood in say a
7		sixteen and a half year old boy where
8		you have tested his seminal fluid - have
9		you personally ever found that
10		condition?
11	А	I don't ever recollect having done it
12		before on a sixteen and a half year
13		old boy.
14	Q	I see; you've never personally done it?
15	A	No.
16	Q	And I take it that - well do you
17		recollect ever having done it on we'll
18		say a seventeen or eighteen year old boy
19		- in that area?
20	А	I'm afraid I can't give you the ages
21		of the patients on whom this has been
22		done. It is I think accepted medical
23		knowledge that small amounts of blood
24		commonly find their way into seminal
25		fluid of males of any age beyond
		Meyer CompuCourt Reporting

	[Vol 121 - Thursday, February 9th, 2006 Page 24569
		/ dgo 2 /000
1		puberty, in conditions particularly of
2		slight infection anywhere in the
3		genital or urinary system; and less
4		commonly in the event of external
5		injury."
6		And again, would that have been consistent with
7		what your advisors were telling you?
8	А	Yes, and I think the reason the question was
9		framed about whether he had personal knowledge of
10		something like that from his work was deliberate.
11	Q	And for what purpose?
12	А	Well, to at least raise a question perhaps about
13		the reliability of the opinion, although I knew
14		that if I called the people that were advising me,
15		they would have generally had to agree with that.
16	Q	And in fact if you can scroll down, and you say
17		here:
18		"Q But you haven't personally conducted any
19		tests on any group ?
20		A I have never done any series of
21		this."
22	А	That's right.
23	Q	If we can go ahead to 031297. The doc ID is
24		031255, this is the address to the jury
25		actually, go to page 031298, and I went through
		Meyer CompuCourt Reporting

= Page 24570 =

		-
1		parts of this when Dr. Ferris was here last week,
2		but I want to go through parts of this with you,
3		and this is your address to the jury. First of
4		all you talk about, you say there is no
5		criticism"
6		" this is no criticism of Dr. Emson,
7		but I think it is unfortunate that the
8		sample that was from the vaginal cavity
9		was not saved, because if it had been
10		saved it is quite clear from his
11		evidence that the blood could have been
12		analyzed for grouping."
13		And you may have already touched on this I think.
14		Are you saying that that would have been a better
15		sample than what was found in the snow?
16	А	Yes. And of course if there was blood in the
17		sample and they extract if from the vaginal
18		cavity, the logical check to make would have been
19		the deceased, was it the blood of the deceased,
20		and we've alluded to this.
21	Q	Right. So that if there was I think she was
22		blood type O. If in that sample there was the
23		deceased's blood in that seminal stain, I think
24		the argument made later was that the frozen semen
25		may have come from the deceased as she was laying
		Meyer CompuCourt Reporting

1		——————————————————————————————————————
		Ŭ
1		in the snow?
2	А	Yes.
3	Q	And therefore the blood, if there was blood in the
4		semen, it would have come from her?
5	А	Yes.
6	Q	And then if you might be able to help out where we
7		get some of these breaks, Mr. Tallis, if you are
8		able to fill in any of that:
9		"Now members of the jury there is no
10		suggestion that other than a
11		non-secretor and the possibility of
12		secreting the blood factor in his
13		seminal fluid is great"
14		There's a break there, but we did see evidence
15		that it's 85 percent:
16		" the effect of that evidence that
17		the seminal fluid contained what are
18		called "A" antigens. Now this may be,
19		and I suggest is something that you
20		should consider pretty carefully, and as
21		you see, if in fact the donor of that
22		seminal fluid was an "A" group secretor,
23		and there was no blood, as such, in the
24		seminal fluid from that person with that
25		"A" grouping, it cannot have been, the
		1

Page 24572 1 man could not have been the ... " 2 And then a break. Are you able to shed any 3 light? I'm sure that refers to the accused, David. 4 Α 5 And then you go on to say: Q Okay. "Now it is suggested that the traces of 6 7 blood that Sergeant Paynter found --8 that might have been blood -- now 9 frankly I am not here to argue that 10 there was ... at that time of the year 11 and I am not ... anything to suggest . . . " 12 13 Again, I'm not sure, are you able to help us with 14 what might be in there? 15 No, there's something missed there and it's pretty Α 16 difficult for me to say at this stage. 17 And then you get on to: 0 18 "... when you get down to the question 19 of reasonableness, first of all, 20 Dr. Emson points out that the blood in 21 the seminal fluid in the vagina that he 22 threw away -- spermatozoa -- could well 23 have come from Miss Miller's "O" group. 24 It could have come from her in two ways: 25 From the inflammation that was referred Meyer CompuCourt Reporting =

 λ

= Page 24573 =

1	to, or from the possible onset of
2	menstruation; or from the donor. And
3	then let's examine another point in this
4	connection, when that frozen lump was
5	found out in that area that had been
6	up, may I suggest to you that if there
7	was blood in this sample, as he thought
8	there might be, he could not say that
9	for sure, but let's forget what for
10	the moment and be reasonable about this.
11	Is it not more likely that since he
12	scooped up the area to get the patch
13	where the blood had seeped through, that
14	it was some other blood in the snow? Is
15	this reasonable? I suggest not. And as
16	you see, if the blood that got into that
17	seminal fluid was "O" group, and the
18	donor didn't have any secreted blood in
19	his seminal fluid, then of course, the
20	result would have proved it. There is
21	no suggestion in respect of the sample
22	that that was done."
23	And then:
24	"There is no evidence that David is a
25	person who is afflicted with any

		Vol 121 - Thursday, February 9th, 2006 Page 24574
		r age 24374
1		condition which caused blood to be in
2		his seminal fluid, and I suggest to you
3		that these other matters that I raised
4		with you are more probable than the
5		possibilities that have been urged upon
6		you."
7		I pause there. I take it that that would be the
8		possibilities of him getting his own that it
9		was his whole blood in the semen; is that
10		correct?
11	А	Yes.
12	Q	And then down at the bottom, you finish up:
13		"Now those are factors when you are
14		assessing the forensic evidence, that I
15		invite you to consider very critically
16		and I suggest to you that they tell
17		heavily in favour of David. They are
18		factors which are dealt with by honest
19		and reliable witnesses, and I say this
20		with regard to the crime detection
21		laboratory people and the identification
22		officers who dealt with this"
23		So I take it that as you said earlier, you were
24		getting this evidence from the police witnesses;
25		is that correct?
		Mever CompuCourt Reporting

1	А	Yes, and the Crown experts, or people called by
2		the Crown as experts.
3	Q	Dr. Ferris gave some evidence, or some commentary
4		about, just generally about whether juries
5		understand forensic-type evidence. Based on your
6		recollection or your observations at the time, did
7		you have any concerns about whether or not the
8		jury followed this evidence or not, and I
9		appreciate you can't go into the minds of the
10		jury, but do you, was it your sense that how this
11		evidence came out and was presented to them was

fairly straightforward?

12

I thought that they followed it quite closely and 13 Α 14 I suppose that part of my thinking is today and 15 would have been then that Mr. Paynter tended to explain things quite slowly and respond to 16 17 questions clearly. Furthermore, having regard to 18 the way the trial proceeded with the jury 19 conveying questions that they wanted to have 20 answered, that is, to the judge to look over, and 21 also the fact that they would know that, from 22 observations the judge intervened from time to 23 time to ask questions, I thought that if there was 24 anything unclear in their minds about it, that 25 they collectively, through their foreman, wouldn't

— Meyer CompuCourt Reporting =

I

		1 890 2 101 0
1		hesitate to ask a question or questions that were
2		bothering them.
3	Q	So do I take it from that that you had no reason
4		to believe that this evidence wasn't understood by
5		the jury?
6	А	No, I thought Sergeant Paynter's evidence was
7		particularly clear, and he dealt, you know, in the
8		main with that more so than Dr. Emson.
9	Q	I now want to move on to a couple of other
10		witnesses. The first is Shirley Wilson who is Ron
11		Wilson's mother, 032363. She was called, I think
12		you had asked her to come to testify at the
13		preliminary hearing, but then she wasn't called at
14		the trial 032363 and this is the preliminary
15		hearing evidence, and if you can go to 032370, and
16		I think your cross-examination related to the coat
17		that David was wearing that morning had been
18		returned to her and she threw it out after talking
19		to Ken Walters and that she had washed the
20		clothing of both David Milgaard and Ron Wilson
21		when they returned and did not go to the next
22		page was asked, did not see anything like blood
23		stains on it. That may be referring to the coat.
24		And I'm just wondering, Mr. Tallis, was there, if
25		you recall, what the reasons were that you had her
		Mever CompuCourt Reporting

AS.

Page 24577

1		attend at the preliminary hearing and whether
2		there was any reason you didn't have her called at
3		trial or asked to have her called at trial?
4	А	I recall that in some of the information I had,
5		and perhaps it was in her statement or somewhere
6		else, she had indicated that David had changed his
7		trousers in Regina, I believe my recollection is
8		correct, and I thought that would, calling her on
9		that, with that evidence would undermine what
10		seemed to be a pretty clear situation, that David
11		changed his trousers at Cadrains' because of the
12		rip that we've heard a great deal about, so I
13		thought there was a real risk of confusing the
14		issue on that aspect.
15	Q	Sir, are you telling us that her evidence at trial
16		might have hurt David's position?
17	А	Undermined
18	Q	Undermined?
19	А	the position, yes.
20	Q	The next one I want to deal with is Marie Indyk,
21		076620 is the preliminary hearing evidence, we've
22		I think read through some of this, and she had
23		provided a statement to the police about
24		observations on the morning of the murder around
25		St. Mary's Church, describing I think at the
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

ī		Page 24578
1		preliminary hearing two women that she encountered
2		that morning, and I think she was also a witness
3		that you asked to have called at the preliminary
4		hearing and at the trial, and in fact at the trial
5		the jury asked to have her evidence read back to
6		them I believe; is that correct?
7	А	Yes.
8	Q	Do you recall what went into your request to have
9		her appear and give evidence?
10	А	It's very difficult for me to go through, recall
11		the mental processes I was going through, but
12		trying to reflect back as best I can, I recollect
13		that at the, I believe that at the time when she
14		was there in that vicinity, she didn't recall or
15		mention any vehicle as such that attracted her
16		attention, and I'm not just sure now, but there
17		was an area where she observed I think a young
18		woman?
19	Q	Yes.
20	А	And I'm just not sure now in my mind the exact
21		area, exact location, but I know I was probably
22		thinking that her testimony might indicate that
23		some untoward incident had occurred that would be
24		unrelated to the one that had been described by
25		some of the witnesses and that that would raise a
		Meyer CompuCourt Reporting

1		question possibly about whether this business of
2		any car with young people in it had been involved
3		in anything. I know that my sense of things was
4		that she may not, in the end, have anything to
5		contribute, but having heard her evidence at the
6		preliminary hearing, I didn't see how she could
7		possibly do any harm or undermine David's
8		position. That's the best I can do at this stage.
9		I'm sure there were other thoughts in my mind at
10		the time, but I remembered feeling, when the jury
11		asked to have all her evidence read, I remembered
12		that I was glad that I had asked to have her
13		called.
14	Q	Okay.
15	А	Now, why I felt that way I can't tell you now.
16	Q	If we could just I want to quickly deal with a
17		few other witnesses, and I don't propose to call
18		up their transcripts because we've had a chance to
19		look at them, but let's start with and they
20		come under the category of people who observed
21		David Milgaard on the morning of January 31, 1969
22		and I think they were all questioned by you about
23		what they saw, what they observed of Mr. Milgaard,
24		his demeanour, his clothing, the lighting
25		conditions, etcetera, and I think they all gave

		Page 24580
1		evidence that they did not notice anything unusual
2		and did not see any blood on his clothing. The
3		first one would be Robert Rasmussen, the
4		Trav-a-leer Motel operator; correct?
5	А	Yes.
6	Q	And again, you would have questioned him about
7		what he saw of David Milgaard. According to the
8		Crown's theory, Mr. Rasmussen would have seen Mr.
9		Milgaard shortly after he had allegedly committed
10		the rape and murder; is that correct?
11	А	Yes.
12	Q	And again, what we have read, or had his evidence
13		read in, you questioned him about what he saw and
14		I think what you said to the jury is that with
15		Mr. Rasmussen, if one would expect the murderer to
16		be covered with blood, then you would expect
17		Mr. Rasmussen, who spent a bit of time with him,
18		to have observed that; is that fair?
19	А	That's correct.
20	Q	And that would have been your purpose in
21		questioning him on that?
22	А	Yes.
23	Q	And then Walter and Sandra Danchuk I think we've
24		talked about a fair bit, in fact, they both
25		testified before this Commission, and I think you
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980 Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv

did question them in some detail about how long they spent with this group, what the lighting was like, what Mr. Milgaard did, what he didn't do, and whether they observed anything unusual; correct?

6 A That's correct.

1

2

3

4

5

And would it be fair -- how did you view the 7 Q evidence of Walter and Sandra Danchuk to be as far 8 9 as the importance of that evidence to your case? 10 Α Well, I thought they were reliable and credible 11 witnesses who supported David's position. They 12 had ample opportunity to observe him and it seemed 13 to me that Walter, Mr. Danchuk in particular, 14 wondered what people were doing around that hour 15 of the morning and I thought it likely that he 16 would be more observant than if it was the middle 17 of the day and, frankly, I thought he came across 18 as that type of person.

19QNow, these were Crown witnesses and I think what20Mr. Caldwell said is that, words to the effect21that he called these people because they were22relevant witnesses or part of the narrative.23Putting that aside, would you -- I mean, if Mr.24Caldwell had not called them, would you have25called the Danchuks and Mr. Rasmussen?

— Meyer CompuCourt Reporting =

Page 24582 =

		Page 24582
1	A	I'm quite sure that I would have.
2	Q	And again, not that, I don't want to characterize
3		as to whose witnesses they were, but would you
4		have viewed the Danchuks and Mr. Rasmussen as
5		being witnesses favourable to David Milgaard's
6		position?
7	А	Yes, I viewed them as honest and favourable to
8		him.
9	Q	And their evidence being favourable?
10	А	Yes.
11	Q	And as well we have the evidence I think of
12		William Campbell who was the tow truck operator,
13		garage operator at Danchuks'?
14	А	Yes.
15	Q	I think the same approach there; is that correct?
16	А	Yes.
17	Q	And then George Davis who was the fellow at the
18		second garage when they were getting the
19		transmission fixed?
20	А	Yes.
21	Q	And again I think you questioned him as well about
22		what he observed of the group; is that fair?
23	А	Yes.
24	Q	I now want to turn and talk about the decision, or
25		your advice to Mr. Milgaard about testifying, and
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

1		we've already talked a fair bit about it when
2		we've covered various areas and you've identified
3		areas and concerns that you had based upon the
4		evidence and based upon some of Mr. Milgaard's
5		actions or statements that you felt might cause
6		him some problems if he testified; correct?
7	А	Yes.
8	Q	Can you tell us, just walk us through how that
9		decision happened, when it happened and what went
10		into it in a general way, and then I'll go through
11		some specific items that you've already
12		identified, but I'm thinking when did the
13		discussion take place, what was discussed and what
14		was Mr. Milgaard's reaction.
15	А	Well, I had discussed that, you know, the issue of
16		whether or not he would be called at trial even
17		before the trial started. Before the preliminary
18		hearing I had explained to him in detail the
19		difference between a preliminary hearing and the
20		trial and so I discussed it. I you know, I
21		went to Prince Albert I now know on two occasions
22		after the preliminary hearing and I'm sure I
23		discussed it on at least one of those occasions,
24		and then during the course of the trial I know
25		that I discussed it with him, and of course there
		1

1	came a time when the final decision had to be made
2	and I discussed that with him and reviewed with
3	him the areas that I thought would involve some
4	difficulty for him in cross-examination, and also
5	even if I lead it, which I intended to do in some
6	areas, but I don't want to repeat myself.
7	And I indicated to him that from
8	my assessment and based on my experience, and in
9	my judgment, that I thought it would be, that it
10	was a situation where I thought it would not
11	strengthen his hand. I thought that some of this
12	evidence would be supportive of the Crown theory
13	and on balance I thought that it would be in his
14	interest not to testify.
15	Now, I'm really narrowing this
16	down because I don't have all the details now and
17	notes or anything, but just to back up for a
18	moment, I was of the view as a counsel that when
19	you come to the question of whether or not a
20	client should testify, he or she was entitled to
21	the benefit of my advice and that of course would
22	be based on my assessment of the Crown's case, my
23	assessment of the testimony that would be elicited
24	from him by me and particularly my assessment of
25	any difficulties he might have explaining some of

– Meyer CompuCourt Reporting –

1	the answers that he would give and which I knew he
2	would give to questions that might be put in
3	cross-examination. I think he understood that the
4	cross-examination would be far more robust than
5	the questions I would be asking him, and this was
6	conducted on a very civil basis as between the two
7	of us and I emphasized that I thought counsel
8	should accept the responsibility for giving that
9	kind of advice because I was aware and knew that
10	there were two schools of thought. One was that
11	you should take the time to assess the situation,
12	give advice and take instructions. The other
13	school of thought, and this was certainly a
14	minority view, but at least was held by some
15	leading English barristers, and that is that the
16	decision whether or not to testify was the
17	decision of the client and the client alone, and
18	accordingly, the written instructions were not
19	preceded by any advice as to the course that
20	should be taken.
21	I recall many years ago reading,
22	some of them just had a little piece of paper, "I
23	wish to give evidence, I do not wish to give
24	evidence," you strike out the one and sign it, and
25	I didn't subscribe to that view, and I don't know

of any lawyers in Saskatchewan that did at the time. And so having had that discussion and giving that advice, I didn't take any written instructions at that time. Indeed, I indicated to him that at this stage he was free to talk to his parents about it and to think about it and that I think it was the following day that he indicated to me, and I think maybe his parents were even there at one phase, that they thought he should take the advice that I gave him and indicated that he had decided not to testify. If he had decided to testify, I would not have viewed that as any lack of confidence in me, I understood that to be his right to do so, but of course, as I've said, I thought he was entitled to the benefit of my assessment and advice, and with that, and here I'm summarizing, he did give me written instructions to the effect that I have just outlined. One of the things I would like to just add is that at no time did I tell him that

> he had to take my advice. I know there were suggestions at least in some of the writings at that time that counsel might view a decision not

> > _____ Meyer CompuCourt Reporting ___

1		to take the advice as being a loss of confidence
2		and the question then would be how would counsel
3		handle it. I believe that it was before that time
4		there was a situation where counsel called an
5		accused in an open court in front of the jury and
6		said that against my advice I call the accused,
7		and that I think was held to be quite improper,
8		and I think the Supreme Court of Canada commented
9		on that, so nothing like that would ever happen as
10		far as I was concerned, and I would proceed to
11		then examine him in chief because in this case
12		there were no ethical constraints about doing
13		that.
14	Q	And what do you mean by that?
15	А	Well, if he had told me that he had done this,
16		then that would alter the situation; in other
17		words, I would not be able to lead evidence from
18		him that he did not, and there was no suggestion
19		to me that he would do anything but respond to the
20		questions that I was going to put, but of course,
21		as I've already indicated to you, there were some
22		areas, let's take, for example, the compact
23		field the compact figured, you know, as one of
24		the items in my consideration and questions like,
25		"Well, where did it come from? I don't know.

1		Well, why did you do it?" That is, why did you
2		throw it out. "I don't know." And these we had
3		gone over, and I knew that the prosecution would
4		really pursue this vigorously. And the same with
5		the looking over of the older lady with a view to
6		maybe robbing or snatching her purse and I knew
7		that would invite not only a robust
8		cross-examination, but a discussion of motive and
9		the need for money and so on, so these are things
10		that I had reviewed with him on more than one
11		occasion, and so that essentially is it. I know
12		that I've distilled it down, but I think that that
13		fairly summarizes the situation.
14		Now, I can also say this, I
15		always found that to be a very difficult area in
16		which to give advice, but I didn't think that as a
17		counsel one should shirk away from it, and
18		secondly, I always appreciated that it was a
19		difficult decision for an accused person, whether
20		a young person or an adult, and that is why I
21		would certainly have respected his decision if it
22		had gone the other way and I would have done
23		nothing by way of preamble or otherwise to
24		undermine him in the eyes of the Court and jury.
25	Q	Do you recall whether or not, and again, what Mr.

15

Page 24589

ſ

		5
1		Milgaard's view was, he ended up, I think you are
2		telling us, accepting your advice and instructing
3		you that he did not wish to testify, but did he
4		express a desire to do so?
5	А	No. Of course if he had wanted to testify, I was
6		quite prepared to call him, but in light of my
7		advice, he made the decision not to testify.
8	Q	Did you get any sense from him, though, in the
9		course of your discussions in explaining this to
10		him, that he wanted to get up there and tell his
11		side of the story?
12	А	Well, I'm sure that he weighed and considered it
13		in the light of the discussion I had with him, but
14		at the end of the day I think he decided and
15		indicated to me that he decided he was going to
16		take my advice.
17	Q	Did he at any time let's talk prior to this
18		discussion at the end when you are giving him the
19		advice. Prior to that did he indicate to you that
20		he wished to testify?
21	А	Well, this had been a discussion that had taken
22		place more than once and we never really got to a
23		situation where he had to make a decision until
24		the appropriate time, so that I'm sure that we
25		weighed the well, I know that we discussed the
		Meyer CompuCourt Reporting

example [18] - 24377:19, 24395:1,	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6,	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22,	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22,	24583:5 Ferris [4] - 24533:1, 24537:9, 24570:1, 24575:3
example [18] - 24377:19, 24395:1, 24414:9, 24418:14,	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6, 24542:17, 24552:20,	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22, 24457:13, 24474:5,	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22, 24583:1	24583:5 Ferris[4] - 24533:1, 24537:9, 24570:1, 24575:3 fervor [1] - 24523:1
example [18] - 24377:19, 24395:1, 24414:9, 24418:14, 24418:16, 24421:15,	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6, 24542:17, 24552:20, 24553:1, 24566:25,	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22, 24457:13, 24474:5, 24479:17, 24481:21, 24483:19, 24483:20,	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22, 24583:1 fairest [1] - 24506:23	24583:5 Ferris[4] - 24533:1, 24537:9, 24570:1, 24575:3 fervor [1] - 24523:1 fess [1] - 24513:18 few [11] - 24383:1,
example [18] - 24377:19, 24395:1, 24414:9, 24418:14, 24418:16, 24421:15, 24422:6, 24434:5,	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6, 24542:17, 24552:20, 24553:1, 24566:25, 24567:15	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22, 24457:13, 24474:5, 24479:17, 24481:21, 24483:19, 24483:20, 24490:7, 24511:7,	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22, 24583:1 fairest [1] - 24506:23 fairly [7] - 24389:20,	24583:5 Ferris[4] - 24533:1, 24537:9, 24570:1, 24575:3 fervor [1] - 24523:1 fess [1] - 24513:18 few [11] - 24383:1, 24399:5, 24463:1,
example [18] - 24377:19, 24395:1, 24414:9, 24418:14, 24418:16, 24421:15, 24422:6, 24434:5, 24442:23, 24449:8,	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6, 24542:17, 24552:20, 24553:1, 24566:25, 24567:15 expertise [1] - 24542:8	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22, 24457:13, 24474:5, 24479:17, 24481:21, 24483:19, 24483:20,	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22, 24583:1 fairest [1] - 24506:23 fairly [7] - 24389:20, 24393:20, 24446:22,	24583:5 Ferris[4] - 24533:1, 24537:9, 24570:1, 24575:3 fervor [1] - 24523:1 fess [1] - 24513:18 few [11] - 24383:1, 24399:5, 24463:1, 24465:21, 24468:9,
example [18] - 24377:19, 24395:1, 24414:9, 24418:14, 24418:16, 24421:15, 24422:6, 24434:5, 24442:23, 24449:8, 24470:10, 24486:25,	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6, 24542:17, 24552:20, 24553:1, 24566:25, 24567:15 expertise [1] - 24542:8 experts [4] - 24541:13,	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22, 24457:13, 24474:5, 24479:17, 24481:21, 24483:19, 24483:20, 24490:7, 24511:7, 24519:18, 24520:12, 24521:21, 24523:5,	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22, 24583:1 fairest [1] - 24506:23 fairly [7] - 24389:20, 24393:20, 24446:22, 24535:5, 24545:22,	24583:5 Ferris[4] - 24533:1, 24537:9, 24570:1, 24575:3 fervor [1] - 24523:1 fess [1] - 24513:18 few [11] - 24383:1, 24399:5, 24463:1, 24465:21, 24468:9, 24501:22, 24503:19,
example [18] - 24377:19, 24395:1, 24414:9, 24418:14, 24418:16, 24421:15, 24422:6, 24434:5, 24442:23, 24449:8, 24442:23, 24449:8, 24470:10, 24486:25, 24505:18, 24505:21,	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6, 24542:17, 24552:20, 24553:1, 24566:25, 24567:15 expertise [1] - 24542:8 experts [4] - 24541:13, 24567:17, 24575:1,	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22, 24457:13, 24474:5, 24479:17, 24481:21, 24483:19, 24483:20, 24490:7, 24511:7, 24519:18, 24520:12, 24521:21, 24523:5, 24527:13, 24528:3,	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22, 24583:1 fairest [1] - 24506:23 fairly [7] - 24389:20, 24393:20, 24446:22, 24535:5, 24545:22, 24575:12, 24588:13	24583:5 Ferris[4] - 24533:1, 24537:9, 24570:1, 24575:3 fervor [1] - 24523:1 fess [1] - 24513:18 few [11] - 24383:1, 24399:5, 24463:1, 24465:21, 24468:9, 24501:22, 24503:19, 24510:4, 24530:1,
example [18] - 24377:19, 24395:1, 24414:9, 24418:14, 24418:16, 24421:15, 24422:6, 24434:5, 24422:23, 24449:8, 24470:10, 24486:25, 24505:18, 24505:21, 24507:12, 24508:9,	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6, 24542:17, 24552:20, 24553:1, 24566:25, 24567:15 expertise [1] - 24542:8 experts [4] - 24541:13, 24567:17, 24575:1, 24575:2	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22, 24457:13, 24474:5, 24479:17, 24481:21, 24483:19, 24483:20, 24490:7, 24511:7, 24519:18, 24520:12, 24521:21, 24523:5, 24527:13, 24528:3, 24528:10, 24534:7,	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22, 24583:1 fairest [1] - 24506:23 fairly [7] - 24389:20, 24393:20, 24446:22, 24535:5, 24545:22, 24575:12, 24588:13 fairness [2] - 24425:12,	24583:5 Ferris[4] - 24533:1, 24537:9, 24570:1, 24575:3 fervor [1] - 24523:1 fess [1] - 24513:18 few [11] - 24383:1, 24399:5, 24463:1, 24465:21, 24468:9, 24501:22, 24503:19, 24510:4, 24530:1, 24555:15, 24579:17
example [18] - 24377:19, 24395:1, 24414:9, 24418:14, 24418:16, 24421:15, 24422:6, 24434:5, 24442:23, 24449:8, 24470:10, 24486:25, 24505:18, 24505:21, 24507:12, 24508:9, 24524:15, 24587:22	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6, 24542:17, 24552:20, 24553:1, 24566:25, 24567:15 expertise [1] - 24542:8 experts [4] - 24541:13, 24567:17, 24575:1, 24575:2 explain [10] - 24420:2,	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22, 24457:13, 24474:5, 24479:17, 24481:21, 24483:19, 24483:20, 24490:7, 24511:7, 24519:18, 24520:12, 24521:21, 24523:5, 24527:13, 24528:3, 24528:10, 24534:7, 24534:15, 24535:21,	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22, 24583:1 fairest [1] - 24506:23 fairly [7] - 24389:20, 24393:20, 24446:22, 24535:5, 24545:22, 24575:12, 24588:13 fairness [2] - 24425:12, 24457:14	24583:5 Ferris[4] - 24533:1, 24537:9, 24570:1, 24575:3 fervor [1] - 24523:1 fess [1] - 24513:18 few [11] - 24383:1, 24399:5, 24463:1, 24465:21, 24468:9, 24501:22, 24503:19, 24510:4, 24530:1, 24555:15, 24579:17 field [2] - 24547:9,
example [18] - 24377:19, 24395:1, 24414:9, 24418:14, 24418:16, 24421:15, 24422:6, 24434:5, 24442:23, 24449:8, 24470:10, 24486:25, 24505:18, 24505:21, 24507:12, 24508:9, 24524:15, 24587:22 except [2] - 24456:21,	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6, 24542:17, 24552:20, 24553:1, 24566:25, 24567:15 expertise [1] - 24542:8 experts [4] - 24541:13, 24567:17, 24575:1, 24575:2 explain [10] - 24420:2, 24451:17, 24472:10,	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22, 24457:13, 24474:5, 24479:17, 24481:21, 24483:19, 24483:20, 24490:7, 24511:7, 24519:18, 24520:12, 24521:21, 24523:5, 24527:13, 24528:3, 24528:10, 24534:7, 24534:15, 24535:21, 24537:9, 24538:7,	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22, 24583:1 fairest [1] - 24506:23 fairly [7] - 24389:20, 24393:20, 24446:22, 24535:5, 24545:22, 24575:12, 24588:13 fairness [2] - 24425:12, 24457:14 faith [8] - 24502:2, 24502:3, 24502:17,	24583:5 Ferris[4] - 24533:1, 24537:9, 24570:1, 24575:3 fervor [1] - 24523:1 fess [1] - 24513:18 few [11] - 24383:1, 24399:5, 24463:1, 24465:21, 24468:9, 24501:22, 24503:19, 24510:4, 24530:1, 24555:15, 24579:17 field [2] - 24547:9, 24587:23
example [18] - 24377:19, 24395:1, 24414:9, 24418:14, 24418:16, 24421:15, 24422:6, 24434:5, 24442:23, 24449:8, 24470:10, 24486:25, 24505:18, 24505:21, 24507:12, 24508:9, 24524:15, 24587:22 except [2] - 24456:21, 24534:7	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6, 24542:17, 24552:20, 24553:1, 24566:25, 24567:15 expertise [1] - 24542:8 experts [4] - 24541:13, 24567:17, 24575:1, 24575:2 explain [10] - 24420:2, 24451:17, 24472:10, 24534:8, 24534:9,	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22, 24457:13, 24474:5, 24479:17, 24481:21, 24483:19, 24483:20, 24490:7, 24511:7, 24519:18, 24520:12, 24521:21, 24523:5, 24527:13, 24528:3, 24528:10, 24534:7, 24534:15, 24535:21, 24537:9, 24538:7, 24538:18, 24548:24,	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22, 24583:1 fairest [1] - 24506:23 fairly [7] - 24389:20, 24393:20, 24446:22, 24535:5, 24545:22, 24575:12, 24588:13 fairness [2] - 24425:12, 24457:14 faith [8] - 24502:2, 24502:3, 24502:17, 24504:20, 24508:24,	24583:5 Ferris[4] - 24533:1, 24537:9, 24570:1, 24575:3 fervor [1] - 24523:1 fess [1] - 24513:18 few [11] - 24383:1, 24399:5, 24463:1, 24465:21, 24468:9, 24501:22, 24503:19, 24510:4, 24530:1, 24555:15, 24579:17 field [2] - 24547:9, 24587:23 fight [1] - 24497:14
example [18] - 24377:19, 24395:1, 24414:9, 24418:14, 24418:16, 24421:15, 24422:6, 24434:5, 24442:23, 24449:8, 24470:10, 24486:25, 24505:18, 24505:21, 24507:12, 24508:9, 24524:15, 24587:22 except [2] - 24456:21, 24534:7 exception [2] -	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6, 24542:17, 24552:20, 24553:1, 24566:25, 24567:15 expertise [1] - 24542:8 experts [4] - 24541:13, 24567:17, 24575:1, 24575:2 explain [10] - 24420:2, 24451:17, 24472:10, 24534:8, 24534:9, 24535:1, 24535:15,	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22, 24457:13, 24474:5, 24479:17, 24481:21, 24483:19, 24483:20, 24490:7, 24511:7, 24519:18, 24520:12, 24521:21, 24523:5, 24527:13, 24528:3, 24528:10, 24534:7, 24534:15, 24535:21, 24537:9, 24538:7, 24538:18, 24548:24, 24553:22, 24569:16,	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22, 24583:1 fairest [1] - 24506:23 fairly [7] - 24389:20, 24393:20, 24446:22, 24535:5, 24545:22, 24575:12, 24588:13 fairness [2] - 24425:12, 24457:14 faith [8] - 24502:2, 24502:3, 24502:17, 24504:20, 24508:24, 24511:16, 24511:17,	24583:5 Ferris[4] - 24533:1, 24537:9, 24570:1, 24575:3 fervor [1] - 24523:1 fess [1] - 24513:18 few [11] - 24383:1, 24399:5, 24463:1, 24465:21, 24468:9, 24501:22, 24503:19, 24510:4, 24530:1, 24555:15, 24579:17 field [2] - 24547:9, 24587:23 fight [1] - 24497:14 figure [2] - 24461:14,
example [18] - 24377:19, 24395:1, 24414:9, 24418:14, 24418:16, 24421:15, 24422:6, 24434:5, 24442:23, 24449:8, 24470:10, 24486:25, 24505:18, 24505:21, 24507:12, 24508:9, 24524:15, 24587:22 except [2] - 24456:21, 24534:7 exception [2] - 24399:19, 24412:5	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6, 24542:17, 24552:20, 24553:1, 24566:25, 24567:15 expertise [1] - 24542:8 experts [4] - 24541:13, 24567:17, 24575:1, 24575:2 explain [10] - 24420:2, 24451:17, 24472:10, 24534:8, 24534:9, 24535:1, 24535:15, 24553:25, 24554:7,	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22, 24457:13, 24474:5, 24479:17, 24481:21, 24483:19, 24483:20, 24490:7, 24511:7, 24519:18, 24520:12, 24521:21, 24523:5, 24527:13, 24528:3, 24528:10, 24534:7, 24534:15, 24535:21, 24537:9, 24538:7, 24538:18, 24548:24, 24553:22, 24569:16, 24571:21, 24575:21,	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22, 24583:1 fairest [1] - 24506:23 fairly [7] - 24389:20, 24393:20, 24446:22, 24535:5, 24545:22, 24575:12, 24588:13 fairness [2] - 24425:12, 24457:14 faith [8] - 24502:2, 24502:3, 24502:17, 24504:20, 24508:24, 24511:16, 24511:17, 24511:19	24583:5 Ferris[4] - 24533:1, 24537:9, 24570:1, 24575:3 fervor [1] - 24523:1 fess [1] - 24513:18 few [11] - 24383:1, 24399:5, 24463:1, 24465:21, 24468:9, 24501:22, 24503:19, 24510:4, 24530:1, 24555:15, 24579:17 field [2] - 24547:9, 24587:23 fight [1] - 24497:14 figure [2] - 24461:14, 24461:15
example [18] - 24377:19, 24395:1, 24414:9, 24418:14, 24418:16, 24421:15, 24422:6, 24434:5, 24442:23, 24449:8, 24470:10, 24486:25, 24505:18, 24505:21, 24507:12, 24508:9, 24524:15, 24587:22 except [2] - 24456:21, 24534:7 exception [2] - 24399:19, 24412:5 excerpts [1] - 24514:18	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6, 24542:17, 24552:20, 24553:1, 24566:25, 24567:15 expertise [1] - 24542:8 experts [4] - 24541:13, 24567:17, 24575:1, 24575:2 explain [10] - 24420:2, 24451:17, 24472:10, 24534:8, 24534:9, 24535:1, 24535:15,	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22, 24457:13, 24474:5, 24479:17, 24481:21, 24483:19, 24483:20, 24490:7, 24511:7, 24519:18, 24520:12, 24521:21, 24523:5, 24527:13, 24528:3, 24528:10, 24534:7, 24534:15, 24535:21, 24537:9, 24538:7, 24538:18, 24548:24, 24553:22, 24569:16, 24571:21, 24575:21, 24578:4, 24580:24	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22, 24583:1 fairest [1] - 24506:23 fairly [7] - 24389:20, 24393:20, 24446:22, 24535:5, 24545:22, 24575:12, 24588:13 fairness [2] - 24425:12, 24457:14 faith [8] - 24502:2, 24502:3, 24502:17, 24504:20, 24508:24, 24511:16, 24511:17, 24511:19 fall [2] - 24436:7,	24583:5 Ferris[4] - 24533:1, 24537:9, 24570:1, 24575:3 fervor [1] - 24523:1 fess [1] - 24513:18 few [11] - 24383:1, 24399:5, 24463:1, 24465:21, 24468:9, 24501:22, 24503:19, 24510:4, 24530:1, 24555:15, 24579:17 field [2] - 24547:9, 24587:23 fight [1] - 24497:14 figure [2] - 24461:14, 24461:15 figured [2] - 24380:13,
example [18] - 24377:19, 24395:1, 24414:9, 24418:14, 24418:16, 24421:15, 24422:6, 24434:5, 24422:3, 24449:8, 24470:10, 24486:25, 24505:18, 24505:21, 24507:12, 24508:9, 24524:15, 24587:22 except [2] - 24456:21, 24534:7 exception [2] - 24399:19, 24412:5 excerpts [1] - 24514:18 exchange [9] -	experience [1] - 24584:8 expert [8] - 24536:14, 24541:19, 24542:6, 24542:17, 24552:20, 24553:1, 24566:25, 24567:15 expertise [1] - 24542:8 experts [4] - 24541:13, 24567:17, 24575:1, 24575:2 explain [10] - 24420:2, 24451:17, 24472:10, 24534:8, 24534:9, 24535:1, 24535:15, 24553:25, 24554:7,	24430:15, 24432:10, 24437:22, 24439:20, 24440:18, 24441:22, 24457:13, 24474:5, 24479:17, 24481:21, 24483:19, 24483:20, 24490:7, 24511:7, 24519:18, 24520:12, 24521:21, 24523:5, 24527:13, 24528:3, 24528:10, 24534:7, 24534:15, 24535:21, 24537:9, 24538:7, 24538:18, 24548:24, 24553:22, 24569:16, 24571:21, 24575:21, 24578:4, 24580:24 factor [1] - 24571:12	24564:19, 24567:13, 24580:18, 24580:24, 24581:7, 24582:22, 24583:1 fairest [1] - 24506:23 fairly [7] - 24389:20, 24393:20, 24446:22, 24535:5, 24545:22, 24575:12, 24588:13 fairness [2] - 24425:12, 24457:14 faith [8] - 24502:2, 24502:3, 24502:17, 24504:20, 24508:24, 24511:16, 24511:17, 24511:19 fall [2] - 24436:7, 24452:17	24583:5 Ferris[4] - 24533:1, 24537:9, 24570:1, 24575:3 fervor [1] - 24523:1 fess [1] - 24513:18 few [11] - 24383:1, 24399:5, 24463:1, 24465:21, 24468:9, 24501:22, 24503:19, 24510:4, 24530:1, 24555:15, 24579:17 field [2] - 24547:9, 24587:23 fight [1] - 24497:14 figure [2] - 24461:14, 24461:15 figured [2] - 24380:13, 24587:23
