1		Transcript of Proceedings
2		(Reconvened at 9:10 a.m.)
3		COMMISSIONER MacCALLUM: Good morning.
4		ALL COUNSEL: Good morning.
5		MR. HODSON: I have no further questions
6		for Mr. Kujawa and I think the next to examine
7		will be Mr. Wolch.
8		COMMISSIONER MacCALLUM: Thank you.
9		SERGE KUJAWA, continued:
10		BY MR. WOLCH:
11	Q	Mr. Kujawa, I'm Hersh Wolch, I'm David Milgaard's
12		counsel and I have a few questions for you.
13		You indicated in your evidence
14		that you were upset at accusations or comments
15		that were made about, that may have challenged
16		your integrity over the course of time?
17	А	Yes, I was concerned, yes.
18	Q	Yes. And you felt, you said, hurt or upset or
19		whatever, the accusations being basically that
20		either you covered up certain things or else you
21		didn't do your job properly, things like that, I'm
22		not going to go into it in detail, but that's the
23		general tenor of it?
24	А	Yes, right.
25	Q	You might agree with me that those accusations
		Meyer CompuCourt Reporting

AS.

Page 26381

		——————————————————————————————————————
1		pale in comparison to being accused of murder and
2		rape and you didn't do it, far less serious
3		accusations?
4	А	I agree with that, yes.
5	Q	Right. And you indicated that you were upset, for
6		example, about this fellow Breckenridge that came
7		forward with some false comments about you?
8	А	Yes, I certainly was.
9	Q	Right. And I take it you would have been more
10		upset if instead of people saying look, his
11		accusations don't check out, they would have taken
12		him to a hypnotist or somebody to try to revive
13		memories or correct obviously incorrect things?
14	А	Well, I don't know how much use a hypnotist is at
15		all, but I agree with you that
16	Q	What I'm saying is you might put yourself in
17		David's position where Nichol John gives a story
18		that makes not much sense and instead of looking
19		at it critically, people try to revive her memory
20		by hypnosis and everything else assuming it must
21		be true. Do you see the parallel?
22	А	Yes, yes.
23	Q	Now, I don't intend to be that long, sir, but I
24		might say at the outset I'm not going to be
25		suggesting that you ever tried to keep an innocent
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Page 26382

Ī

1		man, or a man you believed to be innocent in jail.
2		Do you understand that?
3	А	Yes, and I appreciate that.
4	Q	Okay. But you might not appreciate that I am
5		going to suggest that you did things perhaps
6		wrongly or improperly believing the man was guilty
7		and trying to maintain the conviction of a guilty
8		man, this is where we may disagree, but that's the
9		area where I'm coming from so you know that, okay.
10	А	Okay.
11	Q	Now, back in 1969 when you were in Regina, reports
12		were provided to your department and to you
13		regarding the murder investigation of Gail Miller,
14		and I want to be sure I have your evidence, and if
15		we can turn to 065349. Now, I'm a little unclear,
16		it is it appears to bear your initials, so I
17		would expect the report came to you, and what is
18		the significance of your initial being there?
19	А	Just that I must have gotten that document and
20		then initialed it as having seen it.
21	Q	Well, that's what I want to be clear. I've always
22		understood you to be a responsible person
23		dedicated to your job.
24	А	Well, I certainly thought I was.
25	Q	And this is a very serious murder investigation?

Page 26383 =

1 A Oh, every murder is very serious.

2 Q This is a particularly brutal, unsolved at the 3 time, terrible crime?

4 A Yes, yes.

5 Q And would I be correct in assuming that you would
6 read the report?

7 A Not necessarily.

8 Q I find that difficult, sir, that in your position, 9 having received this report, that you wouldn't 10 read it, I don't understand that. Can you help me 11 with that?

12 Α Well, in my position I was not keeping track of 13 investigations of all kinds of crimes going around 14 all around the province, I had a whole lot of 15 other duties that kept me more busy than I wanted 16 to be, and so if there was a case from Saskatoon 17 that was being dealt with by the police, a senior 18 counsel by the name of Caldwell should have been 19 on top of it and should have been in touch with me 20 if he wanted to hear anything from me, that was 21 basically my attitude. I was a very busy fellow 22 and didn't have time to look at everything that 23 was going on in the Department of the Attorney 24 General.

25

Q

I'm not asking you to have studied it and made

—— Meyer CompuCourt Reporting —

		——————————————————————————————————————
1		notes of it, but it just would appear to me that
2		in the entire province there might be, in the
3		course of a year, how many, five, six, murders? I
4		don't know.
5	А	I don't either.
6	Q	Somewhere in that area in the course of a year?
7	А	I would guess that. I don't know.
8	Q	And a Gail Miller type of murder might be one a
9		year, one every five years?
10	А	Well, an outdoor rape in a snowbank at 40 below is
11		an extremely rare happening and I think that in
12		itself attracted some extra attention.
13	Q	What I'm saying is as the top guy you would want
14		to have some idea what it's about, so I'm having a
15		hard time understanding why you wouldn't read,
16		take the five minutes to read a report.
17	А	Because there were reports coming from all corners
18		of the province and I had other things that I was
19		busy at. I couldn't read all the reports that
20		came in.
21	Q	I'm sure there were reports on motor vehicle
22		accidents, minor things, but I'm having a hard
23		time with you not looking at the most serious case
24		that crosses your desk.
25	А	Well, I guess unless my attention was drawn to it,
		Meyer CompuCourt Reporting

= Page 26385 =

I

		1 ago 20000
1		I wouldn't know how serious it was until it got to
2		a greater stage, like whether it got into Court or
3		the Court of Appeal or something of that nature.
4	Q	So you are saying that putting your initials on it
5		really meant nothing?
6	А	I don't really know how all that initial stuff
7		went on there and I guess when I see that it looks
8		like my own SK, so I must have put that on and I
9		must have read that little bit, but what it tells
10		me I don't know.
11	Q	But you can see that there is a very real
12		possibility that you did read the report and then
13		put your initial on it?
14	А	Yeah, there's a real possibility, yes.
15	Q	And if we can turn to 335498, now, this is a list
16		of materials in your office and this list was
17		created, it wasn't found in the file, but so in
18		the file that would have been in your office, and
19		at the relevant times, I just want to draw your
20		attention to certain matters, and if we can just
21		scroll down a little bit, on this list you'll see
22		under number 15, statement of (V1) (V2)- (V1)-
23		dated October 22nd, 1969. You see that there?
24	А	Yes, I do.
25	Q	And do you know who (V1) (V2)- (V1)- is?
		Certified Professional Court Reporters serving P.A. Regina & Saskatoon since 1980

E

Page 26386 =

		——————————————————————————————————————
1	А	Right now, no, I don't.
2	Q	If I was to tell you she was a victim of Larry
3		Fisher, would that help you?
4	А	Well, it would because you wouldn't tell me that
5		if you didn't know it, but the name means nothing
6		to me right now.
7	Q	Okay. But you see it there, I'm just trying to
8		help you with that. And you'll see it's number 15
9		on this list. Number 14 is a statement of Ron
10		Wilson and number 13 is a statement of David
11		Milgaard?
12	А	Right.
13	Q	And right after (V1) (V2)- (V1)- we have listed
14		here (V2) (V2)- (V2), and you can take it
15		that she is also a victim of Larry Fisher.
16	А	Well, I'll take it if you say so, but I didn't
17		know who it was when I saw the name.
18	Q	No, I appreciate that, but I'm trying to refresh
19		your memory on it and that's just a fact.
20	А	Right.
21	Q	And then you have the statement of $(V3)$ $(V3)$
22		(V3), another one of his victims; do you see
23		that?
24	А	Yes.
25	Q	And then next to her you have here the statement
		Meyer CompuCourt Reporting

ĺ		——————————————————————————————————————
1		
1		of Nichol John. You see that?
2	A	Yes.
3	Q	And I'll just draw this to your attention, there's
4		no statement here regarding the fourth victim,
5		(V5) (V5), but her attack was later and
6		wouldn't be in this file, if you follow what I'm
7		saying?
8	А	Yes.
9	Q	And these are not minor statements, I believe one
10		of them, I think Miss (V1)-'s is seven pages long
11		in handwriting, I'm not going to go to the
12		document, we've all seen them, but they are
13		lengthy statements, full details. Can we not
14		presume you would have read them?
15	А	Well, again, unless that was somehow brought to my
16		attention where I was, I wouldn't read them
17		because I couldn't read all of the statements that
18		were brought into the Department of Justice.
19	Q	I appreciate that, sir, but this is a file of
20		significance, it's a file where you will have gone
21		to the Court of Appeal, it's a file where you will
22		have gone to the Supreme Court and you were a
23		thorough, dedicated prosecutor. Are you
24		suggesting that you might have gone to two
25		appellate levels without reviewing your file?
		Meyer CompuCourt Reporting

= Page 26388 =

		Ŭ
1	А	Well, the only thing that I took to the Court of
2		Appeal was the only material the Court of Appeal
3		relied on in deciding the case.
4	Q	I understand what you are saying, but I'm going to
5		suggest to you that a dedicated prosecutor reads
6		his file, reads the file to see, to understand the
7		whole picture as to what the case is about. Isn't
8		that normal, and particularly on a major case? I
9		want to be clear, you are saying that on a case of
10		this significance going to the Supreme Court, you
11		wouldn't have read the entire file?
12	А	You mean the investigation details?
13	Q	Everything that was in your you have a binder
14		of material that's in front of you.
15	А	Yes, I would have said I didn't read everything in
16		that file because the Court, the Supreme Court,
17		nor I, could deal with all of those things at that
18		level.
19	Q	I appreciate that, but don't you want to have a
20		handle on the prosecution?
21	А	Don't I which?
22	Q	Want to have an understanding, a grip on the
23		prosecution, as to what it's all about, be
24		prepared for anything that might arise? The Court
25		may ask you a question on any issue and you are
		Meyer CompuCourt Reporting

Page 26389 not going to say I haven't read my file. Well, the only file that I understood was involved Α was the transcript of the evidence and judging, judgmental comments by the trial judge. COMMISSIONER MacCALLUM: Yes, Mr. Wilson? MR. WILSON: Mr. Commissioner, Mr. Wolch is posing his questions on the basis, the presumption that the documents he's referred to on that list on the screen were in the file that Mr. Kujawa had. We had clear evidence from Mr. MacKay yesterday or the day before that the filing system then, where those went, where they would be at the time the file on the appeal, Milgaard appeal came to Mr. Kujawa nobody knows, but certainly they were not in his file that he didn't read as Mr. Wolch is suggesting.

17 COMMISSIONER MacCALLUM: Well, yes, the 18 question of whether there was only one file or 19 more of course is not finally answered at this 20 point, but I would invite you, Mr. Wilson, to raise that subject if you wish when it comes your 21 22 turn to cross-examine. 23 MR. WILSON: I'm sorry? 24 COMMISSIONER MacCALLUM: I would invite you

to raise that subject when it comes your turn to

Page 26390 1 cross-examine if you wish. I understand you are concerned about being fair to the witness, but if 2 3 he doesn't know the filing system, that's all he 4 has to say, sir. 5 MR. WILSON: Just as long as we're clear on that. 6 7 COMMISSIONER MacCALLUM: Yes. 8 BY MR. WOLCH: 9 Mr. Kujawa, my understanding is that there was one Q 10 file that was retrieved in 1993 by the RCMP and 11 all these materials were in it, that's my 12 understanding. Mr. Hodson I think can explain it 13 better than anybody else. 14 Well, if you are inviting me MR. HODSON: 15 to, the file that -- just so that there's no 16 misunderstanding in the document that we 17 prepared, the Commission received a set of 18 documents from the government a couple of years 19 ago that contained a number of documents. 20 Whether or not -- I was not led to believe that 21 it was the file, it was some documents that had 22 not previously been disclosed, and so, and I said 23 this at the outset, that our listing of the 24 documents, this index here, simply to say this is 25 the collection of documents that we have been

1	able to determine the Government of Saskatchewan
2	or the Attorney General would have had at around
3	that time and where they all came from, there
4	were some different sources, so I don't I
5	don't want it to be taken that we've made that
6	determination that they were all in one file. In
7	fact I'm having the original, I can have the
8	original box brought over.
9	COMMISSIONER MacCALLUM: That was my
10	understanding, Mr. Wolch, we just got the
11	material in.
12	MR. WOLCH: My understanding, though, is
13	that this witness initialed what was received
14	would have been the Rasmussen report and attached
15	to that would be the three complainants'
16	statements. I believe I have that right. I
17	don't want to be unfair, but
18	COMMISSIONER MacCALLUM: Yes, but I suppose
19	the question is whether or not those reports
20	bearing his initial were contained in the
21	material he later used to take to the Court of
22	Appeal, and we don't, I don't just remember any
23	conclusive evidence about that at all.
24	BY MR. WOLCH:
25	Q I'm assuming, sir, that your department tried to
	Meyer CompuCourt Reporting

Page 26392

F

		Page 20392
1		run your office in an efficient way; would that be
2		fair?
3	А	Yes.
4	Q	And if things came in on the Miller investigation
5		they would be put into a particular file,
6		presumably?
7	А	They'd be put into wherever they thought the
8		materials belonged.
9	Q	Outside of the Miller file, can you think of
10		anywhere else it should go?
11	А	Well, the Miller file was not necessarily in one
12		piece and all at one time, I imagine it was
13		well, for instance, if there were all kinds of
14		administrative details to do with any file that
15		hit the department, and where those things were
16		kept and why they were kept and for how long I
17		didn't know, and no one prosecutor knew because
18		there was too much of it.
19	Q	Well, but can I not assume that you have an
20		investigation going on on a particular case, that
21		anything coming in on that case would go into that
22		case file, or should at least?
23	А	I suppose it would, yeah.
24	Q	Isn't that the whole purpose of filing?
25	А	Well, the main purpose, I guess.
		Meyer CompuCourt Reporting

		Page 26393
1	Q	So you can retrieve what's relevant to that issue;
2	×	isn't that the whole purpose of having a file?
2	А	So I would what?
4	Q	Well isn't the whole purpose of having a file so
5		that you can keep everything in one central
6		location so when you need the file you get it all,
7		you don't miss things?
8	А	Yeah, well that seems right to me, yes.
9	Q	Yeah. Well you are not saying outright that you
10		didn't read it, are you, you are saying "I don't
11		remember if I read it or not" in terms of these
12		reports and the victims of Larry Fisher at the
13		time?
14	А	Well, I certainly didn't read all of them, but I
15		don't know what all I read, I certainly don't have
16		that good a memory and don't know. But I do know
17		that I certainly didn't read every file and every
18		bit of every file that came into the AG's
19		department, and until something drew it, the file
20		to my attention, or someone did, I didn't get to
21		see it until it hit the courts, or mainly the
22		Court of Appeal. That's when I got into most of
23		the files.
24	Q	Now how would you describe your involvement in the
25		actual prosecution of David Milgaard before the
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Page 26394

F

		Page 20394
1		appeal level?
2	А	Well I, as far as I can remember, I knew it was
3		going on, and I knew Caldwell was in charge, and I
4		remember one phone call from Caldwell asking for
5		some legal advice in a particular area, which I've
6		already mentioned and you've heard me talk about.
7	Q	Yes. I'm gonna suggest that you might also, and
8		did, give him advice on the rule of warnings for
9		accomplices; do you have any recollection of that?
10	А	No.
11	Q	Is it possible you may have?
12	А	Well, it's not likely. Again, I've mentioned
13		before that he was a more experienced prosecutor
14		than I was.
15	Q	Would you say you gave him considerable guidance
16		during trial?
17	А	Well, it's not considerable guidance if I answered
18		one question on a of law in the course of the
19		whole thing.
20	Q	Okay.
21	А	That's all I remember doing.
22	Q	No, and I appreciate it's been a long time, but if
23		we could look at 042956. This is a memorandum
24		prepared by Murray Brown to the to
25		Mr. Mitchell, the then-Minister of Justice, and I
		Meyer CompuCourt Reporting

= Page 26395 =

1		only want to refer you to this portion here
2		regarding yourself. The Minister has asked for
3		this information, and it says here that you were
4		the Director of Public Prosecutions when this case
5		first reached the courts in 1969, September, for
6		preliminary hearing, and January for trial:
7		"As such he provided considerable
8		guidance to Bobs Caldwell the
9		prosecutor who did the actual
10		preliminary and trial."
11		Now did Mr. Brown talk to you then to I'm
12		wondering how Mr. Brown would have got this
13		information, or if you know?
14	А	I don't know.
15	Q	So I take it you disagree with that comment that
16		he that you had provided considerable guidance?
17	А	Yeah, well, I've told you that I remembered giving
18		him guidance on one point only in the whole case.
19	Q	Okay, well what I am getting at is you don't agree
20		with that, that's fair game I guess, but I just
21		want to understand if you agree with what he
22		advised the Minister. It says here "considerable
23		guidance", which suggests to me more than one
24		phone call?
25	А	Well, you've heard my answer.
		Meyer CompuCourt Reporting

NG.

= Page 26396 =

1	Q	Okay. I was a little unclear, from your previous
2		testimony, as to what your position, and perhaps
3		your department's position, would have been, or
4		was, on a post-conviction and appeals request for
5		file information, documents, or whatever made by
6		counsel or by David Milgaard himself. I'm not
7		sure what your answer was; can you help me on
8		that?
9	А	Our answer to what request?
10	Q	Well let us say we're all done, and David Milgaard
11		is not accepting the result and wants to re-open
12		his case or whatever, and somebody comes to you
13		and says "Mr. Kujawa, can I go through your
14		files", by "somebody" I mean somebody with a
15		legitimate purpose; what would your position have
16		been?
17	А	Well, I don't know, I suppose it would depend on
18		who it was that says "I want to go through your
19		file" and why.
20	Q	Well I guess what I am puzzled about is this: The
21		trial and the appeals are handled with an
22		understanding that there has to be appropriate
23		disclosure to Mr. Tallis; right?
24	А	Yes.
25	Q	Would it be fair that people should be able to
		Certified Professional Court Reporters serving P.A. Regina & Saskatoon since 1980

1	r	Vol 131 - Thursday, March 2nd, 2006 Page 26397
		1 ago 20001
1		assume that Mr. Tallis got everything that was
2		relevant?
3	А	It should be fair to assume that, yes.
4	Q	That one should not expect to be able to go into
5		the files and find gems that point to acquittal;
6		should they?
7	А	That's right.
8	Q	That is if you assume that Mr. Caldwell has gone
9		through the material, he's a man of integrity, if
10		you assume that you have gone through the
11		material, assume it, and you're a man of
12		integrity, one can safely say "I don't expect to
13		find anything in there"; wouldn't that be fair?
14	А	Yes.
15	Q	And do you know of any policy on post-appeal
16		disclosure; is there any policy?
17	А	Well, I don't know what you mean by "post-appeal"?
18	Q	Well, the case is done,
19	А	Okay.
20	Q	if something comes to your attention that might
21		question the conviction do you feel an obligation
22		to disclose it?
23	А	Oh, certainly, if I find something or someone
24		points out something to me that might have a major
25		impact on a different impact on the case, it is
		Meyer CompuCourt Reporting

Page 26398 : 1 certainly my job to disclose it. 2 And --Q 3 I am required to do that. Α 4 You appreciate that from the Milgaard perspective, 0 5 20 or so years after the offence, that the thought 6 of solving the crime is pretty remote? 7 That the which? Α 8 The idea that you might be able to solve the crime 0 9 20 or so years later would be a very remote 10 possibility? 11 Α I suppose usually it is, right. 12 Q Well, you know that the police investigated, you 13 know the Crown had the reports, how can you, 14 without police training, go and solve a crime; 15 it's a pretty remote idea, isn't it? 16 I guess so, yeah. Α 17 And you might agree with me that the thought that 0 18 in the files there would be another suspect, a 19 very legitimate suspect, and that that wouldn't 20 have been disclosed to Mr. Tallis, might be 21 something that wouldn't necessarily cross your 22 mind? 23 Α Well, if I had thought there was that sort of a 24 suspect or that sort of an item in the file, I 25 would have disclosed it to Mr. Tallis.

1	Q	Well, yeah, and the other side could expect that
2		or should expect that?
3	А	Right.
4	Q	Are you aware that a request was made for access
5		to information?
6	А	Umm, a request to who for what, I don't know.
7	Q	004452. This is in '92, it's addressed to the
8		prosecutors in Saskatoon under the Privacy Act,
9		and received from David Milgaard, I take it, a
С		request for access to information. This went to
1		the, to Saskatoon, to the prosecutors office;
2		would you have been aware of this?
3	А	Well I don't think so, I certainly have no memory
4		of it, but I certainly don't have a memory of all
5		kinds of details.
6	Q	Do you have any information of anything being
7		disclosed of any significance?
3	А	Not that I know of, no.
9		COMMISSIONER MacCALLUM: I don't really
C		understand what you are talking about there,
1		Mr. Wolch, "do you have any personal
2		information"?
3		MR. WOLCH: I'm sorry?
1		COMMISSIONER MacCALLUM: What do they mean
5		by "personal information"?

E

= Page 26400 =

1		MR. WOLCH: Well, of any being requested to
2		provide information, being asked to "do you
3		have any files", from anybody coming to you and
4		saying "do you have anything to answer this
5		request", that's all I'm getting at. I'm just
6		wondering if he was approached by anybody saying
7		that this request has come in, do you have
8		anything on hand, or anything like that.
9		BY MR. WOLCH:
10	Q	And your answer is you didn't see that?
11	А	Right.
12	Q	Sorry, Mr. Commissioner, if I do you want me
13		to
14		COMMISSIONER MacCALLUM: Yes, go ahead.
15		BY MR. WOLCH:
16	Q	So, Mr. Kujawa, do you agree with the proposition
17		that there is an ongoing duty on prosecutors to
18		disclose anything relevant, or borderline
19		relevant, to the defence?
20	А	Yes.
21	Q	It doesn't stop at any point; does it?
22	А	No.
23	Q	And you've got a chance to look at the Rasmussen
24		report amongst others, have you not, the report
25		from the RCMP prepared way back at the beginning

1		identifying the person who turned out to be Larry
2		Fisher as an extremely viable suspect?
3	А	Did I know about that?
4	Q	No, you know it now at least?
5	А	Well, I've heard about it now, right.
6	Q	And you agree that that report should have been
7		disclosed at all times, it's always relevant? I'm
8		not quarrelling with whether you knew about it or
9		not, but I'm saying that it should have been
10		disclosed by anybody who knew about it, I'll put
11		it that way?
12	А	Well I would want to know more about the report
13		before I could possibly answer that question.
14	Q	Assume it identifies a viable suspect?
15	А	Okay, but what makes the suspect viable?
16	Q	That he was committing similar crimes in the very
17		same area, in the very same method, and warnings
18		had gone out to people in the area about him, and
19		the theory was that he had killed Gail Miller,
20		that trained investigators believed that or at
21		least believed it was a real likelihood.
22	А	I
23	Q	Are you quarrelling that defence should know about
24		that?
25	А	No. I'm saying that if they have any evidence of
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Page 26402 1 that, the defence should know about it sooner or 2 later or anywhere along, as soon as it's 3 discovered. 4 I agree with you. 0 But whether it is evidence or someone's suspicion, 5 Α I'd have to have some reason to choose one or the 6 7 other of the two. 8 0 Yeah, but you are not the one who should be doing 9 the choosing, it should be the defence; is that 10 not true? If you don't accept it or don't think 11 it has great merit, you're not the ultimate 12 decision-maker, are you? 13 Α Well if I'm not going to -- if I don't accept it, 14 if I don't think it has any justification, then I 15 certainly am not going to go and bug any defence 16 counsel saying "here's a bit of reading that you 17 should do because you might find it interesting". 18 Assuming you find it of some merit, it should be Q 19 disclosed? 20 If I find it is of some merit, it should be Α 21 disclosed, yes. And this report was not disclosed, and would it 22 Q 23 concern you to know it wasn't even disclosed at 24 the Supreme Court, that is that the Supreme Court 25 didn't know about it, his counsel didn't know

— Meyer CompuCourt Reporting =

1 about it, it was only found here or at least 2 disclosed here? 3 Well I don't know how it would be disclosed to the Α 4 Supreme Court. 5 Well, to his counsel, to use it? Q 6 Α Well if I knew about it, and if I thought it was 7 of some significance, I would certainly be 8 obligated to report it to defence counsel. 9 Now what if you looked at it and decided, in your 0 10 own mind, "well I realize they are in the same area and I realize there is a number of 11 12 similarities, the clothing being removed, that 13 kind of stuff, but I don't think it helps the 14 accused and I'm not gonna disclose it"; could you 15 have made that decision? 16 Well if I made the decision that it wasn't usable Α 17 evidence, then I had nothing to pass on, that's 18 the --19 0 That's your call. 20 -- the way my mind worked, --Α 21 But if it --Q 22 Α -- still does. 23 0 Okay. Now I've heard you very clearly, and you 24 did it on television even, had a lot of skepticism 25 in the value of the Fisher evidence. We saw you

1		on television saying it wasn't admissible and
2		things like that. Now I'm I want to pause
3		there. Is it not, then, very conceivable that,
4		when you were directly involved in the case, you
5		looked at Fisher, you looked at the statements,
6		and you made the judgement call that it doesn't
7		help Milgaard?
8	А	Well all I know is that I wasn't looking at any
9		Fisher file in dealing with the Milgaard file
10		because I was dealing with the law dealing with
11		Milgaard,
12	Q	But
13	А	and nothing
14	Q	Right.
15	А	that I knew about indicated to me that this
16		other file contained something that was of
17		interest on file number 1.
18	Q	Okay. Now the Milgaard file had the full
19		statements
20	А	The full which?
21	Q	the full statements of (V1)-, (V2) and
22		(V3) It had it, we know that, it had it.
23		It's in the, it's in your office somewhere, by
24		"your office" I mean the general office, it's in
25		the office, okay? When you are prosecuting Fisher

I

1		you likely have either the very same statements or
2		Mr. Corey's summary of those statements all at the
3		same time; do you understand that?
4	А	Would you please get a little closer to the
5		microphone? My hearing is not
6	Q	Oh, I'm sorry, I apologize. At the very same
7		time, in the general office, at least, and maybe
8		in your own personal office, there was, on the
9		Milgaard file, the statements, the full statements
10		of (V1)-, (V2), and (V3); you
11		appreciate that?
12	А	Okay.
13	Q	Okay. And at the very same time, on the Fisher
14		file, there was either the full statements, or at
15		the very least there was Corey's summary, a very
16		lengthy summary sufficient for you to go to Court
17		with, of the very same people; do you see that? I
18		mean those are facts, we can't I don't, I'm not
19		sure why you don't appreciate that?
20	А	But I was not prosecuting the Fisher file, I was
21		doing some technical applications to dispose of
22		certain pleas, but that's all I was doing with it.
23	Q	Well, I appreciate that, but when you take some
24		when you arrange for pleas of guilty you walk into
25		Court, you ask for a sentence, perhaps you might
		Meyer CompuCourt Reporting

1		agree that that could be defined as prosecuting?
2	А	See, I'm sorry, I
3	Q	You can't hear? I'll try again. When you go to
4		the Attorney General for a direct indictment, and
5		you make arrangements for an accused to be in
6		Court,
7	A	Right.
8	Q	and you appear in front of a judge and you ask
9		for a sentence, and you report the matter out,
10		isn't that prosecuting?
11	А	Well, in a technical way it is, yeah. But the
12		practicality of it is I'm merely putting this
13		through getting rid of a formal piece of
14		something, I have no evidence to support the
15		charge other than his guilty plea, and we've
16		formed an admission between counsel as to the
17		sentence.
18	Q	Okay.
19	А	So that's automatically done and I'm finished with
20		it.
21	Q	But you have to know the facts?
22	А	Well, I have to know the basic facts, that he
23		admitted raping woman X.
24	Q	Well, you have to know what the police say the
25		facts are, you have to know what facts to give to
		Meyer CompuCourt Reporting

		Page 26407
1		the Court?
2	А	Well, really, those are all the facts that I have
3		to give to the Court.
4	Q	I understand that, but you have to give the Court
5		an understanding of what the man did?
6	А	He raped this woman.
7	Q	Okay. Mr. Hodson then asked you yesterday whether
8		you would ever have a trial if somebody was
9		pleading guilty, and you said "no", do you recall
10		that?
11	А	Where they're yeah, I don't call it a trial if
12		somebody pleads guilty, right.
13	Q	Okay. But, if someone pleads guilty, there still
14		can be a trial on the facts?
15	А	If there is no agreement on it, yes, there is
16	Q	Yes. If Fisher was to say "look, I raped her but
17		I didn't have a knife", there still could be a
18		trial to determine that issue?
19	А	If that were an issue. The only thing that would
20		have a bearing on is the amount of sentence.
21	Q	Well, of course, but I mean but there still can be
22		a trial on an issue, a guilty plea doesn't end the
23		possibility of evidence being called?
24	А	Well it depends on the purpose of the evidence.
25	Q	So

Page 26408

		Page 26408
1	А	It's either for the, to support the charge, or to
2		enhance or decrease the sentence.
3	Q	So, as you understood it, Larry Fisher was
4		accepting the victim's version of what happened?
5	А	I don't I don't know if he ever heard the
6		victim's version of it.
7	Q	Well
8	А	I was going by his version of what happened, when,
9		and where.
10	Q	But you would have, I presume, given to the judge
11		the victims' version of what happened as contained
12		in Mr. Corey's summary?
13	А	I couldn't give him a different version than he
14		already got from our agreement as to what
15		happened. When we decided, when he decided to
16		make a guilty plea, the facts and time and all
17		about what happened were agreed upon between him
18		and the Crown, were taken to the Court, those
19		facts were presented, and on the basis of that the
20		sentence was passed, and usually we'd agreed on
21		the number of years in jail and that was not
22		argued, usually accepted and imposed.
23	Q	Are you saying that you and Mr. Greenberg sat down
24		and went over the facts as to what was for real,
25		and what he was accepting, and what he wasn't
		Meyer CompuCourt Reporting

Page 26409 1 accepting? 2 We went over the facts to which he was willing to Α 3 plead quilty, which is raping this woman at this place at this time. 4 You do agree that this was not a transfer of 5 Q 6 charges, correct, other than from Saskatoon to 7 Regina? 8 What do you mean "not a transfer of charges"? Α 9 Well a normal transfer of charge is if Fisher was Q 10 in Winnipeg and said "send me my rapes from Saskatoon and I'll plead guilty here", that's a 11 12 transfer of charge; correct? 13 А Well, I didn't think that was possible, I don't 14 know. 15 Q Well, no, you miss my question. That's only an 16 If Fisher was in Toronto and said "send example. 17 me my Vancouver charges", that's a transfer of 18 charges? 19 Α Well, as I say, I didn't know it was possible. 20 I'm not asking if it's possible, sir. 0 21 Well then, if it's imaginable, you, your Α 22 imagination is great, go ahead. 23 COMMISSIONER MacCALLUM: But obviously it's 24 not an inter-provincial transfer. 25 BY MR. WOLCH:

15

[Page 26410
1	Q	That's all I'm saying, sir. What I am saying is
2		in a normal situation, if a crime is committed
3		let's say in Saskatoon, if somebody was to commit
4		a murder today and flee to Vancouver and then was
5		arrested, that person would be brought back to
6		Saskatoon to face the charge; that's normal?
7	А	Yes.
8	Q	Okay. Fisher committed crimes in Saskatoon, he's
9		arrested in Winnipeg, so what's normal is to bring
10		him back to Saskatoon to face the charges, that's
11		normal; is it not?
12	А	Well it's not it doesn't have to be Saskatoon,
13		it's back to Saskatchewan, that's the only legal
14		
15	Q	I'm talking about normality.
16	А	Well I think it's through normality that, if you
17		commit an offence in Saskatchewan, you can be
18		tried anywhere in Saskatchewan and dealt with
19		there.
20	Q	Normally in the area in which the crime was
21		committed?
22	А	Ordinarily it was there, yes.
23	Q	So one would have expected him to be dealt with in
24		Saskatoon?
25	А	Well when you say "it would be expected", why
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Page 26411 would he? It's certainly not the most convenient way of doing it. Well I don't believe that we're normally worried about the convenience of multiple rapists, we're worrying more about the citizens of Saskatoon, who want to know that their streets are safe; isn't that the prime concern? Well, if he pleaded guilty in Saskatoon, would that increase that in some way?

10 Q Wouldn't the public, people in Saskatoon, be 11 relieved to know that the rapist was caught? 12 A I suppose those who found out would be, and I 13 don't know how much it was passed around, I just 14 don't know.

15QAnd don't we want to deter other criminals in16Saskatoon?

17 A Yeah, and in Saskatchewan.

18 Q Well, this case got no publicity at all, why would
19 it deter 'em? Isn't the purpose of punishment to
20 deter others?

21 A Yes.

8	Q	I'm trying to understand why he was treated so

11	А	I'm not worried about Mr. Fisher.
12	Q	Well, let's take a look at 010683, this is a
13		letter from Ken MacKay, but to Larry Fisher. I
14		mean, was it normally your practice to write to

2	Q	There's something you've said many times that I
3		have to take issue with and you've continually
4		said that there was no case against Fisher. Do I
5		have it right?
6	А	Yes, I said that continually. As far as I knew,
7		we didn't have a case against Fisher on those
8		charges.
9	Q	On all the charges or any of the charges?
10	А	Well, on those that were disposed of here.
11	Q	Okay. Now, we know that on at least two there
12		were confessions. Now, my understanding is that a
13		confession is very strong evidence.
14	А	And my understanding is exactly the same as yours
15		if it is an admissible confession, but a
16		confession obtained from an accused on a very
17		serious matter is always a questionable issue and
18		usually hard to prove. If there is some hang-ups,
19		little miscarriages in it, it will usually be
20		found unfit for admission.
21	Q	Well
22	А	And the fact that this fellow had a counsel and
23		the police knew that he had a counsel and ignored
24		him or evaded him to go and talk to this other
25		fellow in some little cubicle in the penitentiary,
		Meyer CompuCourt Reporting

Page 26415

		Page 26415
1		that starts off sounding like it wasn't a totally
2		
		voluntary confession, and if it isn't that, it's
3		not admissible in law.
4	Q	Well, let's back up a little bit. In 1970, '71
5		there was no right to counsel?
6	А	There was no which?
7	Q	Right to counsel.
8	А	I don't know if there was right to counsel or not.
9	Q	There was no warning given about the right to
10		counsel, correct, there was no Bridges warning
11		about Legal Aid, they all came years later?
12	А	But I understand that Fisher had counsel acting
13		for him. The Crown knew about it, the Crown
14		ignored that counsel and interviewed him and got
15		some sort of an admission.
16	Q	Well, let's back up.
17		COMMISSIONER MacCALLUM: Just a second.
18		MR. WOLCH: I thought you were finished.
19		I'm sorry, go ahead.
20	А	And I, for I don't know what combination of
21		reasons, but I had felt that I was going to get
22		that confession admitted as evidence in Court.
23		That's why I said I didn't have a case. I wasn't

2	Q	Well, let's back up a minute. In 1970, '71 I
3		suggest to you the practice was almost always for
4		the police to go talk to an accused after they had
5		counsel in the absence of counsel. In fact, it
6		strengthened the admissibility in those days that
7		he had a lawyer. The argument was he had spoken
8		to a lawyer, he had been told about his rights and
9		now he spoke to police, that was the position
10		invariably in a multitude of cases. There was no
11		right to counsel in 1970, '71.
12	А	Well, he didn't have the right, he had counsel.
13	Q	Right. The better argument would have been he
14		never had a counsel and they spoke to him. Having
15		a counsel strengthens the admissibility in those
16		days and you would have known that?
17	А	The admissibility in any confession depended on
18		the circumstances, all the circumstances of each
19		individual case, and I don't pretend to know all
20		of the circumstances now, but I know I felt that
21		we didn't have an admissible confession and
22		therefore we couldn't lay that charge.
23	Q	What did Mr. Karst tell you?
24	А	Mister who?

1	А	Oh, I didn't talk with him directly, but that's
2		the impression I got.
3	Q	Let's back up a minute. If you are concerned
4		about the voluntary nature of a confession, surely
5		you would talk to the officer who took the
6		confession?
7	А	Well, if I thought the circumstances under which
8		it was obtained were close enough to examine, I or
9		someone else would have examined it and decided to
10		go ahead if they so agreed.
11	Q	Well, you knew Mr. Karst; did you not?
12	А	I don't know that I even met him. I knew that he
13		existed as an officer in Saskatoon, yes.
14	Q	And you knew that he went to all the trouble of
15		going to Winnipeg to get a confession?
16	А	Yeah, I had heard that.
17	Q	By the way, you probably knew he was involved in
18		the Miller murder; did you not?
19	А	Pardon?
20	Q	You knew he was involved in the Miller murder; did
21		you not?
22	А	No, I didn't, or I don't think I did. I don't
23		know.
24	Q	You might have known that, okay. But you knew he
25		went to Winnipeg, you knew he got confessions on

1		very serious crimes; correct?
2	А	I knew he got something that looked, at least on
3		the face of it, like a confession, right.
4	Q	Well, can you explain to me, or to anyone, how you
5		could possibly make a judgment call on a
6		confession without talking to the officer who took
7		the confession?
8	А	Well, first of all, I wasn't in charge of the
9		cases that he was examining, and secondly, I knew,
10		I had gone through a lot of confessions in my
11		days, a whole lot of them, and unless they were
12		clearly voluntarily given, I found that they were
13		not admissible, so someplace or other I got the
14		impression that this thing was not admissible.
15		Now, I might have been wrong, but that's the
16		decision that
17	Q	What I'm getting at is this, the law in those
18		days for example, in 1969
19	А	Well, I'm talking about
20	Q	Let me finish. In 1969, if a statement was
21		exculpatory, you didn't even have to prove it
22		voluntary, you could beat it out of somebody, that
23		was the law. Do you recall that?
24	А	That you could beat it out of them?
25	Q	Yeah.
		1

1	r	Vol 131 - Thursday, March 2nd, 2006 Page 26419

1	А	And get it admitted?
2	Q	Yes, 1969. They changed it the day David was
3		convicted, in the Supreme Court.
4	А	Well, my memory is obviously worse than yours
5		because I don't remember that in '69.
6	Q	1969, the day David was convicted they changed the
7		law on exculpatory statements, any statement could
8		be beaten out of somebody and would be admissible
9		as long as they didn't confess, that was the law,
10		that was the attitude toward statements. Surely
11		you are not suggesting statements were being
12		tossed left and right out of courts? I would
13		suggest it was the exception that was found to be
14		not voluntary.
15	А	Well, you've heard my comment. I have nothing to
16		add to it.
17		COMMISSIONER MacCALLUM: I hope we're all
18		on the same page. We're dealing with your
19		suggestion relates to exculpatory statements?
20		MR. WOLCH: Yes. I'm saying the law was so
21		much different back then that the idea that your
22		lawyer was not there was meaningless.
23		COMMISSIONER MacCALLUM: But of course this
24		witness is giving his comments with respect to
25		inculpatory statements.

2	Q	Absolutely, but I'm saying the general tenor of
3		the law was so much different that it was routine
4		to question inmates after they seen their lawyer.
5		In fact, if a lawyer turned a client in and left,
6		the accused would be questioned routinely, even
7		today actually, that was a practice, and I'm
8		saying as an experienced man who spent your life
9		in this field you would know that. If you look in
10		the Milgaard file, they are eavesdropping on him,
11		he's talking to his mother, they are trying to
12		hear him. It was all different back then, there
13		was no Charter, there was no right to counsel.
14		The suggestion that he may have talked to a lawyer
15		and therefore this is not voluntary, I submit, has
16		no basis, no merit.
17	А	Well, if you are right and I was wrong, maybe we
18		did have a case that we could have taken into
19		Court.
20	Q	Well, I'm suggesting
21	А	But I concluded otherwise.
22	Q	Okay. But I'm suggesting that it would be totally
23		irresponsible of you, and you don't sound like an
24		irresponsible man, totally irresponsible of you
25		not to check with the detective who took the

1		actual statement to get the background and
2		circumstances.
3	А	I wasn't dealing with the case.
4	Q	Pardon me?
5	А	I wasn't dealing with the case at the time that he
6		took that and had that all done up.
7	Q	No, but you are going into a courtroom, you are
8		making judgment calls, you say you were greatly
9		influenced by the fact it might be difficult to
10		get the statement into Court. You were dealing
11		with the case, I don't know how you can say you
12		weren't. Are you maintaining you weren't dealing
13		with the case? I don't get it.
14	A	To the extent that I knew about some confession
15		being given somewhere, I was deciding whether I
16		thought that was possibly admissible in a Court of
17		law.
18	Q	I appreciate that, but do you understand the
19		difficulty with that position if you maintain you
20		didn't talk to the officer who took the statement?
21	A	It depends on why I took made that conclusion.
22		I don't know.
23	Q	Are you sure you didn't talk to the officer?
24	A	About 99 percent sure.
25	Q	And can you offer an explanation as to why you
		Meyer CompuCourt Reporting

ASS.

= Page 26422 =

1		wouldn't go to the statement taker, whom I assume
2		you respected and trusted, and say to him, "Tell
3		me the circumstances? Do you think it's
4		admissible? You are a very experienced officer,
5		do I have any problems?"
6	А	Well, first of all, whatever he did he reported to
7		somebody in Saskatoon, not to me in the
8		headquarters of Regina, so that's why he wouldn't
9		talk to me or I didn't talk to him. I wasn't on
10		the case, I wasn't dealing with his investigation.
11	Q	There's nothing stopping you from picking up the
12		phone and saying detective, should I be concerned
13		about the statement?
14	А	If I had a basis for wanting to do that, I could
15		have done it like you say, but I didn't do it, I
16		didn't think I had the basis for it.
17	Q	Well, from whom did you get the basis to conclude
18		that the statement may not be voluntary?
19	А	I don't know the details of that at all.
20	Q	Well, who could you have got it from?
21	А	I don't know.
22	Q	Fisher? Did you ever talk to him?
23	А	Not that I know of, no.
24	Q	The only other choice is Greenberg, so is
25		Greenberg the one who told you, hey, your

1		statement is no good, and you said okay, it's no
2		good?
3	А	I don't know.
4	Q	Did you talk to Lorne Huff or any of the Fort
5		Garry cops to say hey, how was this guy treated?
6	А	No, I didn't.
7	Q	Do you appreciate, with the benefit of hindsight,
8		that maybe you should have done those things
9		before you decided to ask for concurrent time and
10		thinking you had no case?
11	А	Whether I should have asked that I should have
12		done certain things before deciding I didn't have
13		a case?
14	Q	Yeah.
15	А	Well, I was, I had formed the opinion that we
16		didn't have a case, and I don't know the details
17		for the, to back up that opinion, but I had
18		confidence in it, to me that issue was done and
19		over with, and if you were working this sort of a
20		field, you have to make a lot of decisions whether
21		something is going to go on or it isn't day after
22		day, so this was not an unusual experience for me.
23	Q	I well, not unusual. I suggest it was unusual,
24		this is not an everyday case, we're talking about
25		four serious sexual assaults, very serious, they
		Meyer CompuCourt Reporting

Page 26424

F

		Page 26424
1		don't come around every day, they come around one
2		every five, six years, 10 years. This is not a
3		usual case.
4	А	And it's not usual that you get a confession in
5		such unusual cases either.
6	Q	He confessed in Winnipeg.
7		He which?
8	Q	He confessed in Winnipeg. Why not confess and
9		clean up your act? I don't understand,
10		confessions happen all the time. People have
11		remorse sometimes, they figure they are going to
12		get caught anyway, they might as well confess and
13		maybe get some brownie points, I don't know, they
14		confess.
15	А	They occasionally do, certainly.
16	Q	And when they confess, they are used in courts,
17		that's pretty obvious.
18	А	If the Court finds the admission admissible.
19	Q	And here's a guy who wanted to plead guilty.
20	A	Eventually he wanted to plead guilty according to
21		his lawyer and he wanted to clean up his record
22		and he wanted to get a new start on life. That's
23		what I was told.
24	Q	Okay. But surely you would have given some
25		thought to the fact, look, Bill Morton, the Crown
		Meyer CompuCourt Reporting

		Page 26425
1		in Winnipeg says the judge didn't know about this,
2		about his charges in Saskatoon, clearly implying
3		that he should be sentenced to something for
4		Saskatoon; correct? You saw that?
5	А	Okay, but what he thought about what the sentence
6		should be may or may not agree with my position on
7		it, and I think our position at that time was much
8		lighter sentences in Saskatchewan than in Manitoba
9		and so I would normally ask for a little less of a
10		sentence than he would.
11	Q	Well, you asked
12	А	Who was right, I don't know.
13	Q	You asked for nothing.
14	А	Pardon?
15	Q	You asked for nothing, you asked for not an extra
16		day in jail; isn't that correct?
17	А	Yeah.
18	Q	Now, isn't this the way it would have been
19		approached in those days, and even today, the
20		Manitoba judge was faced with the Manitoba charges
21		and would have given a global sentence taking into
22		account the principle of totality; would that be
23		right?
24	А	I suppose.
25	Q	No, do you I don't want to confuse you. Do you
		Meyer CompuCourt Reporting

= Page 26426 =

1		understand what I'm saying? A Manitoba judge
2		would have said look, the rape on (V7) should
3		be 10 years, the rape on (V8) should be 10
4		years, I'm not going to give him 20, I'll give him
5		13 in total because 20 is too much on the
6		principle of totality. Do you understand that?
7	А	Yeah.
8	Q	Okay. And what would normally be put before the
9		Saskatchewan judge is this, here's what you have
10		to consider, My Lord, what would the Manitoba
11		judge have given if he had been aware that there
12		were four additional crimes, that is, what would
13		the Manitoba judge have given if there was the two
14		from Manitoba and the four from Saskatchewan, what
15		would the global sentence have been, approach it
16		from that way. Isn't that the normal way of doing
17		it in a courtroom?
18	А	No.
19	Q	It's not?
20	А	His decision is what should the Saskatchewan Court
21		do with this charge if let's say that the
22		Manitoba Court sentenced him to 25 years.
23	Q	Yes.
24	А	It is certain in our attitude today that the
25		Saskatchewan Court of Appeal wouldn't consider for
		Meyer CompuCourt Reporting

Page 26427

1 a minute to enlarge it, in those days that's the 2 way it felt, as I understood it, about the 13 year 3 sentence. 4 Well, we looked at the Bonisteel case. Q Were you 5 here when we looked at that case the other day? The which case? 6 Α 7 Bonisteel, a couple of years later it was a life Q 8 sentence reduced to 20 years for two rapes, one in 9 Saskatchewan and one in Manitoba. Sentences for 10 guys with knives have always been very long in 11 rape cases. The guy hiding in the bush is a 12 terrible, terrible thing, that's a danger forever, 13 no one has ever been light on those, and I suggest 14 to you Saskatchewan was never light on those, it 15 just didn't have them. You weren't handling all 16 kinds of light rape sentences for guys with knives 17 in parking lots were you? 18 I don't know what your question is. Α 19 COMMISSIONER MacCALLUM: I think we'll take 20 a break. 21 Certainly, sir. MR. WOLCH: 22 (Adjourned at 10:18 a.m.) 23 (Reconvened at 10:41 a.m.) 24 BY MR. HODSON: 25 Mr. Kujawa, I would like to draw your attention to Q = Meyer CompuCourt Reporting =

Page 26428 1 a couple of documents, 010721, this is one of the 2 statements that Mr. Karst took from Mr. Fisher at 3 the crucial time and it would appear that he was 4 given the charge and you'll see where he's told: 5 "Do you wish to say anything in answer to the charge? You need not say 6 7 anything. You have nothing to hope from 8 any promise or favour and nothing to 9 fear from any threat whether or not you 10 say anything. Anything you do say may 11 be used as evidence at your trial." 12 0 Do you understand that the charge ... 13 Α Yes. 14 Do you understand the warning ... 0 15 Yes." Α 16 Now, isn't that a pretty good basis for getting a 17 statement admitted? 18 It seems that way right there, yes. Α 19 0 Now, this is one of the statements that you would 20 have determined, or believed to be not voluntary. 21 Do you understand that? 22 Α I certainly don't remember reading that part 23 before, so maybe I didn't. 24 0 How are you assessing a case without having the 25 confession of the accused?

3 A I don't.

Q I'm going to draw to your attention 012111. I won't read it all out, but once again you have exactly the same, the same beginning with the charge caution and what appears to be an understanding by Mr. Fisher. Do you see that? A Yes.

10 And I don't want to belabour it, but I'm having a 0 very difficult time understanding how you can come 11 12 to the conclusion that these statements were 13 unlikely to be admitted into a Court of law. 14 Α It seems to me I don't know, that's my number one 15 answer, I don't know, but it seems that maybe that 16 this understanding was made by him to the officer 17 on the basis of we want to clean up all of these 18 offences and that's why I'm asking you, that might 19 be the basis, I don't know.

20 **Q** Why would that affect him?

A Well, if you are telling the fellow we're doing
 this for the purpose of getting rid of these
 charges --

24 **Q** Yes?

25

A -- without any extra sentence, that would be quite

1		a considerable hope in the mind of the prisoner.
2	Q	Hope for what?
3	А	For no increase in sentences to clear up the
4		offences.
5	Q	Well, wouldn't you check with Detective Karst
6		first to say "Detective, did you offer that kind
7		of hope?"
8	А	I don't I don't think I ever checked with
9		Karst. I may have checked with whoever sent him
10		or whoever had any dealings with it, but I don't
11		know that I did.
12	Q	Okay. But the statement is signed by Karst, the
13		taker, on the witness. Scroll down to the bottom,
14		you'll see it's Karst please go down to the
15		bottom of the page. Witness - "E. Karst", that's
16		the name that appears there. There's no more
17		logical person to check with as to whether any
18		hope or promise of favour was given to Mr. Fisher
19		than Mr. Karst. There's no point to going to
20		somebody in Saskatoon and say did Eddie Karst
21		offer him a favour, you would go to Eddie Karst.
22		He wasn't hiding.
23	А	Well, I don't know, I just don't know.
24	Q	I'm trying to understand, I'm having a very
25		difficult time, as to why you would form this
		Meyer CompuCourt Reporting

Ī

Page 26431

		——————————————————————————————————————
1		conclusion that this, on the face of a very proper
2		statement, would not be admissible in a Court of
3		law.
4	А	And I've already given you my answer, which is I
5		don't know. If you want me to speculate, because
6		the Chief Justice of the Saskatoon Police Force
7		said Karst, go to Winnipeg, make this kind of a
8		deal, get him to admit it for no increase in
9		sentence and clear up his whole case.
10	Q	And what, probably pick Karst because he was
11		investigating the Milgaard case?
12	А	Pick Karst because he chose Karst. I don't know
13		why.
14	Q	Well, I'm sorry, I shouldn't have allowed you to
15		speculate, to that degree at least. I'm more
16		concerned with known facts. We know Karst took
17		the statement, we know the only sources of
18		information as to what transpired in that room
19		would be Karst, Fisher or perhaps Greenberg
20		repeating what Fisher told him.
21	А	Or it could have been whoever said Karst had given
22		him specific instructions along the lines I've
23		already outlined.
24	Q	But that person wasn't in the room to say what
25		happened.

– Meyer CompuCourt Reporting –

Page 26432 1 Α No. 2 0 But you agree that possible sources are Karst, 3 Fisher and Greenberg saying here, Fisher, those 4 are the only sources aren't they? 5 Α The only sources of what? Of what transpired to bring about the confession. 6 Q 7 Well, how about if the Chief Justice told Karst to Α 8 go down there and do this on this basis, wouldn't 9 that be a reasonable source? 10 0 I'm not going to answer your question, I'll move 11 on. Now, even with the benefit of hindsight, do 12 you see the inappropriateness of Fisher getting 13 not a day in jail for the four Saskatoon offences? 14 Α No. 15 Even with hindsight you don't? 0 16 Well, I've said it many times in this courtroom Α 17 already, do you want to repeat? 18 What I am saying to you is this; if all the Q 19 charges were dealt with at the same time in 20 Manitoba, or all of the charges were dealt with at 21 the same time in Saskatchewan, would it not be 22 fair to say that, for six terrible crimes, a judge 23 would have given a sentence approaching 20 years? 24 Α It might be, but it would depend on how many cases 25 we were able to bring before the Court without the

— Meyer CompuCourt Reporting –

= Page 26433 =

		ũ
1		cooperation of the accused, and since we let's
2		say it was seven cases and we could prove only one
3		without his cooperation, it's pretty hard to use
4		those other six guilty pleas to increase the
5		sentence. That's one of the reasons that the
6		sentences were not increased. And then we started
7		with the fact that 13 years, in Saskatchewan at
8		that time, was quite a long sentence even for that
9		number of offences.
10	Q	Now your counsel, I believe in questioning Mr.
11		MacKay, pointed out that Fisher got ten years for
12		the attack on (V10) (V10)-; were you here when he
13		did that or asked those questions
14	А	No,
15	Q	at all?
16	А	I have no recollection of that.
17	Q	I believe she was attacked at the end of, very end
18		of March, 1980, now so Fisher would have been
19		released on parole, obviously; do you agree? If
20		he committed the offence in 1980 he would have had
21		to have gotten paroled in about the eighth or
22		ninth year, eighth year, of his 13-year sentence?
23	А	I don't know. If you know, that's good enough for
24		me.
25	Q	Well, it makes sense. What I am saying is
		Meyer CompuCourt Reporting

= Page 26434 =

1		clearly, if Fisher had received consecutive or
2		additional time for the four Saskatchewan rapes,
3		he would not have been on the street when (V10)
4		(V10)- was attacked; you appreciate that?
5	А	Well I don't know when, who she is or when she was
6		attacked, but he would have been if he had
7		gotten more of a sentence he would have been in
8		jail longer.
9	Q	And from your experience in the sentencing system,
10		if in fact he was convicted in 1980 for attacking
11		(V10) (V10)- and got ten years, he would have had
12		his parole revoked and would have had perhaps four
13		or five years added on; would that be correct?
14	А	I don't know, I
15	Q	Well, from all your experience in dealing with
16		sentencing?
17	А	Well, it works generally that way, that's all I
18		know.
19	Q	Yeah. If you are on parole you lose your parole
20		time if you are caught committing an indictable
21		offence; isn't that how it works?
22	А	Basically, as I understand it, yeah.
23	Q	I want to turn to a different area, and I think
24		you will be really pleased to know that I don't
25		intend to go through all kinds of newspaper
		Meyer CompuCourt Reporting

1 S

= Page 26435 =

1		clippings and all kinds of reporting, but I do
2		want to touch on your attitude to the efforts to
3		correct the miscarriage and the efforts of
4		enlisting public support. I'm not really sure
5		what your position is on that. You quarrelled, if
6		I understood you correctly, with the concept of
7		people who don't know the facts jumping into the
8		fray, and those are my words, not yours; am I
9		accurate, though, as to what you were generally
10		saying?
11	A	I think I was saying a fair bit of that about the
12		news media, yes.
13	Q	That these people didn't know the facts, that were
14		making comments that were without bases, and were
15		threatening the entire system; is that the idea?
16	А	Well I thought that there was a certain amount of
17		that going on, yes.
18	Q	Well that would presuppose that you were reading
19		the paper?
20	A	Well, I was picking up some of the items from the
21		paper, I certainly wasn't reading it carefully
22	Q	Okay.
23	А	and constantly.
24	Q	And what did you understand the system to be that
25		was in jeopardy at that time, keeping in mind, as
		Meyer CompuCourt Reporting

= Page 26436 =

1		we know it, that the appeal procedure was
2		exhausted and there was this 617, 690, and right
3		now 696 mechanism or vehicle for going to the
4		Minister of Justice; what did you understand was
5		going on at this time or what system could be
6		undermined, what was being threatened?
7	А	Well the judicial system could be undermined if it
8		was being pushed around by loud, vocal public
9		opinion by people who were not qualified to
10		practice in that field.
11	Q	Well what does "qualified" mean to you, like why
12		can't any citizen voice an opinion on the merits
13		of a judgement?
14	А	Because most citizens don't understand the merits
15		or lack of merits of a judgement.
16	Q	And you say the average person can't read a
17		judgement and say "I agree, disagree" or anything
18		like that?
19	А	Yes, he can read that and he can say that, but I
20		say he has a lack of understanding, he or she has
21		a lack of understanding. After all, you've seen a
22		whole lot of lawyers talk about legal matters,
23		they showed very little understanding, and it's
24		the great Albert Einstein says that the only real
25		source of real intelligence and understanding is

Page 26437 1 experience, and not all of us have experience in 2 all areas. 3 Well I appreciate that not everybody has a lot of 0 4 experience, but surely a young person can look at 5 something and say "I don't agree" or "I see an error in it"; what is the problem in that? 6 7 Well I could listen to a fellow speaking in Greek Α 8 and say "I don't agree". 9 Are you saying the case is that complicated? Ι Q 10 mean --No, I'm talking about the only issue that's before 11 Α us, and that is can someone say that, and the 12 13 answer is, of course, they can say that. 14 But your issue is that they are uninformed, Q Okay. 15 now on what basis do you say they are uninformed, 16 how do you know what the writers know or what 17 they've got, how can you say they are uninformed, what basis for that? 18 19 Α Well, first of all, their lack of experience in 20 that field; and second, if you listen to them for 21 a very short while, you realize that they make no 22 sense, and so you jump to the conclusion that they 23 are uninformed. 24 0 Okay. Well, in terms of knowledge and experience, 25 might you agree that this particular case was

fact-driven?

2	А	Well, I don't know what you mean by "fact-driven"?
3	Q	Well it's not a matter of, you know, what is the
4		constitutional basis for admitting evidence, or do
5		we impose, apply Section 1 or Section 24, this is
6		a case of what are the facts. You don't have to
7		be a lawyer to look at the facts of this case and
8		make a conclusion or have an opinion, at least, so
9		I'm saying this is a fact-driven case, not a
10		legal-driven case or a law-driven case; do you
11		agree with that?
12	А	Well what is the difference between facts and
13		logic?
14	Q	Well no, what I am saying is when you are making a
15		comment, the lay person may have difficulty on the
16		constitutionality of a particular issue but the
17		lay person might not have difficulty looking at
18		the facts and saying, "eh, Larry Fisher did it".
19		You follow what I am saying?
20	А	I think I sort of follow what you are saying, but
21		I certainly don't understand.
22	Q	I'm trying to zero in on what your problem was
23		with the public being educated on the facts in the
24		Milgaard case. I'm having trouble with that.
25	А	I was not talking about the public being educated,
		Meyer CompuCourt Reporting

Page 26439

		——————————————————————————————————————
1		The talking about the public being extremely year
		I'm talking about the public being extremely vocal
2		in that case, without being educated.
3	Q	Well, what were they getting wrong, what did you
4		see as wrong?
5	А	Well what can be right about an argument presented
6		by someone who doesn't know what he is talking
7		about?
8	Q	Well where is your presumption they didn't know
9		what they were talking about, what is it based on?
10	А	Based on the lack of education and lack of
11		experience, experience in a way more than the
12		education.
13	Q	Are you aware that the reporters were given access
14		to everything that the counsel for David Milgaard
15		had, to look at it, read it, study it, do what you
16		want?
17	А	Yeah, but I'm not talking about what they had
18		access to, I'm talking about what they had
19		understanding of.
20	Q	Well, access gives understanding, does it not?
21	А	Not necessarily, no. If I had access to a great
22		argument by a couple of Greek philosophers would I
23		understand what they were saying?
24	Q	Well, who did you feel should be speaking, if
25		anybody?
		Meyer CompuCourt Reporting

		——————————————————————————————————————
1	А	People who had knowledge in that particular field.
2	Q	Who would that be?
3	А	People with knowledge.
4	Q	Who?
5	А	Whoever they are.
6	Q	Yeah, but who, what are you talking about?
7	А	Well basically, according to our rules, lawyers
8		and judges.
9	Q	Okay. The judges aren't going to speak to the
10		media, that's pretty obvious, is it not?
11	А	Well they speak to the media with their judgements
12		every day.
13	Q	Right. They are not going to offer opinions to
14		the media, so we're left with the lawyers,
15		correct? So you acknowledge that lawyers can
16		speak out?
17	А	Well the judges give opinions by the ton.
18	Q	I appreciate that. We're talking about opinions
19		that you find fault with, in that they shouldn't
20		be doing it because they are they don't have
21		the experience or the background, so you are
22		but were not the reporters reporting what lawyers
23		were saying and what witnesses were saying; isn't
24		that what they were reporting?
25	А	Well, I suppose they were, but so what?
		Meyer CompuCourt Reporting

- Page 26441 -

F

		Page 20441
1	Q	Well, are you finding fault with that?
2	А	Well, if they say that whatever the witness or the
3		lawyer says is the final answer, I find 100
4		percent fault with that.
5	Q	And
6	А	And so does anybody else who even has a half an
7		eye open.
8	Q	Are you finding there is something wrong with the
9		media reporting Larry Fisher committed all these
10		similar acts, same <i>modus operandi</i> , knives, bus
11		stops, clothing, lived in the area, lived in
12		Cadrain's house; is there a problem with the media
13		reporting that or was there a problem in your
14		mind?
15	А	Well there is no problem, as far as I can see, of
16		reporting the facts of any part of any case.
17	Q	Well I'm trying to understand, and I don't want to
18		get into this whole business, but I am trying to
19		understand why your reaction would have been not
20		to say "look, here's the other side of the story",
21		but to say "David, you are a kook" and "you guys
22		are prostitutes", why weren't you dealing with the
23		merits, why the personal attacks?
24	А	Well if I made some improper statements like
25		calling someone a kook, and that's an improper
		Meyer CompuCourt Reporting

= Page 26442 =

1		statement, I shouldn't have done that, I'm sorry,
2		I take it back. But that doesn't mean that he has
3		an Einstein-like understanding of legal matters.
4	Q	I understand that, I'm trying to identify what
5		motivated you to behave in that way, because the
6		criticism of you were fact-driven.
7	А	Well
8	Q	Hang on, let me finish. They were "you had this
9		report, you didn't do this, you didn't do that",
10		that was the basis, generally, for the criticism,
11		you know, the facts. But instead of dealing with
12		facts your response was to call people names; now
13		I want to know why?
14	А	My response was which?
15	Q	To call people names, I mean, to be very derisive.
16		I mean, I don't know why you didn't react in a
17		different way, and I'm trying to understand that?
18	А	Well, because I am certainly a helluva long way
19		from being in any way perfect, but I was certainly
20		being annoyed and pushed and walked around by
21		totally irresponsible people who were calling me a
22		criminal, a kook, a cover-upper, etcetera, and
23		those kind of people can get, until you grow up
24		enough to realize that they are helpless nobodies,
25		that they can be quite irritating, and especially

4	Q	But why wouldn't you deal with the merits, I mean
5	~	the ac
6	А	Well
7	Q	What was being said then was
8	A	the merits is people shouldn't be allowed to be
9	21	doing that.
, 10	Q	Well Fisher was dealt in Regina which seemed
10	×	strange, he got a sentence that seemed strange,
12		
		nobody knew about it which seemed strange, those
13		are all facts, they are facts that required
14		answers. I'm just thinking about your response
15		was to just attack as opposed to answer, that's
16		what I am trying to get at.
17	А	Well what answers did you want? The answer is he
18		was dealt with in a Court of Queen's Bench in the
19		City of Regina on the blank day of blank and here
20		is the sentence that was passed. Is that what you
21		want?
22	Q	No, what I want to understand is this; you are
23		saying that people and yet I suggest you have
24		no basis for saying it you are saying that the
25		opinions are uneducated or not properly founded,

1		and yet you say, yourself, you made no effort to
2		learn the facts yourself. As you are offering
3		opinions, at the same time you are saying you are
4		not reading reports, you are not educating
5		yourself, you are not even reading the Supreme
6		Court judgement if I understand you correctly, and
7		you are offering opinions. I don't understand how
8		you, with no basis, can say "everybody else
9		doesn't know anything"?
10	А	I didn't say everybody else doesn't know anything.
11	Q	Well you are saying they are not based on
12		experience, they are not based on study, they are
13		just
14	А	I'm saying that certain of the people that were
15		very vocal fit the category. That's all.
16	Q	Well why weren't you educating yourself?
17	А	Well I was trying to educate myself, but it was
18		hard to believe that some people were talking
19		like, like some people, if you will pardon the
20		expression, were talking.
21	Q	I've heard an expression several times, I want to
22		know if you agree with it, and that is that from a
23		prosecutor's perspective convicting an innocent
24		person is a prosecutor's worst nightmare; have you
25		heard that expression before?
		Meyer CompuCourt Reporting

1 Α I don't know if I heard it exactly in that form, but basically, yes. 2 3 Do you agree with that? 0 4 Α Yes. 5 Without being flippant, it seems to me you didn't Q lose an awful lot of sleep over this one? 6 7 Over which one? Α 8 Well when they -- when the Milgaards and their 0 9 support are coming forward and saying "this man is 10 wrongly convicted, another guy did it", I know of no evidence of you going back and saying "look, 11 12 I'm going to review the files, I want to know 13 everything to make sure I was right"? 14 Α They had never given me any evidence of who did 15 what, or where, or why, and the Supreme Court of 16 Canada said that this fellow was convicted 17 properly according to the law. That doesn't mean 18 everything was done in -- by perfection. 19 0 No, what I am getting at is from a personal level, 20 you were counsel at two appellate levels, as a 21 person, as a human being, as a man who would not 22 like to have his worst nightmare realized, why 23 wouldn't you, on your own accord, try to study it, 24 say "I'm gonna look at the Fisher evidence, I'm 25 gonna sit down myself, with all my experience, and

1		form an opinion, and if I decide that Fisher was
2		good evidence, I may even join in the
3		application"; why wouldn't you do that?
4	А	Because I never had the Fisher evidence before me
5		to deal with.
6	Q	Well, you had all of the Fisher evidence at one
7		time or other, but
8	А	What do you mean I had all of the
9	Q	Well you had the statements of the victims in both
10		of the, in both, in two different files?
11	А	Statements of victims and whatever the police have
12		found are not referred to me until there is a
13		basis for a charge to be laid.
14	Q	But
15	А	I'm not involved with the first-step
16		investigations of offences.
17	Q	But
18	А	I couldn't be.
19	Q	But are you suggesting, as a Member of the
20		Legislature and as the former Director of
21		Prosecutions, that if you went to Murray Brown or
22		to anybody and said "look, let me go through the
23		files" it would have been denied to you?
24	А	Do I think it would be denied?
25	Q	Yes?
		Mover CompuCourt Perperting

Page 26447 1 Α No, I don't think so, if the file was there it 2 wouldn't be. 3 Whatever was available you likely could have 0 4 seen --5 Right. Α 6 -- given your background? Q 7 I think so. Α 8 But you never made any single effort to see 0 Yeah. 9 if maybe you had contributed to a miscarriage of 10 justice? 11 Α No, and I have told you why I haven't. 12 Q Tell me again? 13 Α Okay, I'll tell you once more. Milgaard was 14 convicted according to proper evidence presented 15 in a Court of law, he was convicted by a jury, his 16 conviction was upheld on appeals, he didn't even 17 say "I didn't do it". That, in a prosecutor's 18 busy mind and busy day, means that case is over 19 with, what is piled up in front of me now. 20 Well, let me pause there. Are you not being a 0 21 little unfair to a 16-year-old in terms of 22 testifying and whether or not he had competent 23 legal advice that assisted him in that decision? 24 Α I am going by what is normally in the mind of a 25 prosecutor who's dealing with a file like that,

_____ Meyer CompuCourt Reporting ___

Page 26448 1 and when it's over it's done, he goes on to the 2 next half a dozen files that are waiting for him. 3 You knew he had made statements to the police in 0 the very beginning denying the offence, offered 4 5 samples, and did all of those sort of things at the time? 6 7 I didn't, I didn't go through the details of what Α he or anybody else did, the case was in the hands 8 9 of T.D.R. Caldwell in Saskatoon. 10 Q When the case is over are you saying that you don't even allow for the possibility there was an 11 12 error or a miscarriage? 13 Α I may -- I don't say that -- first of all, I don't 14 think human beings are ever 100 percent correct 15 and accurate, but when a thing has gone through 16 the process that this one has gone through and 17 it's done and over with, I go on to the next 18 things on my desk, I don't continue going through 19 that same file over and over. 20 No, but when somebody brings before you, or brings 0 21 out in the public credible arguments that there 22 was a miscarriage, you don't have to accept them, 23 but at least they have a foundation, they are not 24 pie in the sky, knowing you were involved are you 25 saying there was no desire on your part to say

1		"wait a minute, I don't want to have anything to

5	А	My position is if I think he was wrongfully
6		convicted, I'm gonna do everything I can to get
7		that straightened out, but who brought this stuff
8		to me that you say was brought to me?
9	Q	But you saw fit to comment publicly on the lack of
10		merit in the application; did you not?
11	А	Are you gonna answer my question?
12	Q	Sorry, I lost your question, I my you did
13		see fit to bring forward publicly that the
14		application was without merit?
15	А	Because I said that no one brought any merit to
16		show me.
17	Q	But why wouldn't you go and ask? You had much
18		more access to everything than anybody.
19	А	I told you that I didn't go and ask because I
20		considered the case done and over with, and no one
21		brought me all of these goodies that you are
22		talking about, and you certainly didn't bring any.
23	Q	Now you commented on the Supreme Court, and I have

1		Campbell and a whole bunch of people disagreed,
2		but I'm a little concerned about you calling them
3		silly. Do you regret saying that?
4	А	Well I don't know exactly how I said it or
5		whatever, but I know that I didn't read the
6		Supreme Court judgement at the time of that
7		interview alongside of Asper, and I was making
8		comments about what he said the Supreme Court of
9		Canada said.
10	Q	I don't want to
11	А	That's my memory of that situation.
12	Q	I don't want to replay it, but I see a bit of
13		irony in the fact that you are generally
14		complaining that people are making uneducated
15		comments and causing the system to be looked at
16		perhaps with a bit of scorn, but here we have a
17		man in your position, in your position, calling
18		the Supreme Court silly on a judgement you haven't
19		even read?
20	А	Okay, and it was because I was referring to the
21		expression of or it's a description of what
22		they have just did from this lawyer, and that was
23		a mistake on my part, and I was wrong, I shouldn't
24		have said it, I shouldn't have done it, I
25		shouldn't have concluded it, and I should not have
		Meyer CompuCourt Reporting

Page 26451 1 assumed that he knew what the Supreme Court of 2 Canada said. 3 Well --0 So I made a lot of mistakes. 4 Α 5 Well, it -- well, yeah. You said, there, that Q basically -- and I'm paraphrasing and I could be a 6 little bit off -- but you did basically say that 7 8 there is no bases for the admission of similar act 9 evidence; is that not what you said, or I don't 10 want to misquote you? Well basically that's just that kind of a 11 Α 12 statement, yes, I said that. 13 0 And I think you said no -- "I can't find a lawyer 14 in the land who would agree that that similar act 15 evidence is admissible", what was your basis for 16 saying that, why would you think it wouldn't be 17 admissible? 18 Α Because I know of no place in the field of 19 criminal law where it was held to be admissible. 20 Where what was held to be admissible? 0 21 Α Straight similar fact evidence with no other 22 connection between the accused and this offence. 23 0 Okay. Well Larry Fisher took the same bus as Gail 24 Miller, lived in the Cadrain home, attacked women 25 in the area in the same way, his wife said he

— Meyer CompuCourt Reporting =

1		didn't come home or didn't go to work that
2		morning, there were three jail, or four jailhouse
3		confessions; were you aware of all that?
4	А	No, I wasn't aware of all of that, and you say
5		that there were these number of confessions?
6	Q	Well I'm just saying, I'm giving you a picture to
7		say I can't, for the life of me, understand why
8		you say all those extremely similar acts would (a)
9		not be admissible against Larry Fisher at his own
10		trial, and for sure at David Milgaard's trial
11		where the threshold for admissibility is lesser?
12	А	Because just the fact that he may have committed
13		or been capable of committing that sort of an
14		offence is not evidence that he did it.
15	Q	Well, what are similar acts, what are they in our
16		law?
17	А	That he raped people.
18	Q	Well what's the evidentiary value of that?
19	А	Well that's my question to you; what's the
20		evidentiary value? Just the fact that he raped
21		people doesn't mean that he raped this particular
22		people and, therefore, it's not evidence
23		admissible on this particular charge.
24	Q	Are
25	А	That's all I'm saying.
		Meyer CompuCourt Reporting

ĺ		Page 26453
1	Q	Are similar acts ever admissible?
2	А	Pardon?
3	Q	Are similar acts ever admissible in your
4		understanding of the law?
5	А	They are not admissible unless they point at a
6		particular person. Just the fact that he may have
7		done something similar doesn't mean it's evidence
8		against him on which a jury could convict.
9	Q	Is that still your opinion?
10	А	That's still my opinion, yes.
11	Q	And that certainly would have been your opinion in
12		1969?
13	А	Yes.
14	Q	So, if you saw that, you would have thought
15		nothing of it?
16	А	If I
17	Q	If you saw that in, when you prosecuted Fisher
18	А	Okay, well if I saw something that wasn't
19		evidence, I wouldn't be looking at evidence.
20	Q	So if you saw and looked at Fisher's rapes in '69
21		in the early '70s when you saw them, you would
22		have thought nothing of it, you would have said
23		"this is not evidence that could be used by
24		Milgaard"? It's not a matter of you not seeing,
25		it's a matter had you seen it you would have
		•

1		thought nothing of it, that's your opinion then
2		and your opinion today?
3	А	Well, if it wasn't evidence, it wasn't evidence.
4		That's my opinion, yes.
5	Q	And that would have been your opinion back then?
6	А	That was my opinion always.
7	Q	Okay. Do you appreciate there might be a lower
8		threshold when you are trying to prove your
9		innocence as opposed to trying to establish guilt?
10		Do you understand what I'm saying? I'll help you
11		with that. If you are prosecuting Larry Fisher
12		there is concern on the judge's part that the
13		similar act has to be a stamp of the accused, so
14		to speak, because a jury might be overly persuaded
15		by it to convict. I haven't put it very well, but
16		that's the tenor of it. However, if an accused is
17		trying to raise a reasonable doubt, there's a
18		lesser threshold because you don't have the same
19		danger, you are not convicting on it, you are
20		acquitting on it is what I'm saying.
21	А	Okay, but that's if if he can call in similar
22		act evidence by someone else which has some means
23		of saying I didn't do it, he must have done it.
24	Q	Okay, yes, that's right.
25	А	If you have that, great, it's admissible evidence.
		Meyer CompuCourt Reporting

= Page 26455 =

		-
1	Q	Okay. Are you aware that on the higher threshold
2		the judge, in the eventual Larry Fisher
3		prosecution, admitted certain of the offences as
4		similar acts that could be led against Larry
5		Fisher?
6	А	I don't know, because when I was working on that
7		file I wasn't working on Fisher, I was working on
8		the Milgaard case.
9	Q	Okay. What would have been your reaction when you
10		learned of the DNA? By that I mean I'll be
11		more precise. In 1997 you are aware of the fact
12		that DNA established, with the aid of, I think
13		it's three reputable scientists and very careful
14		preservation of exhibits, led to the absolute
15		conclusion that Fisher was the man who committed
16		the crime. What was your reaction?
17	А	Well, first of all, once again, nothing is
18		perfectly proven and I don't know exactly how the
19		substance that was tested on those clothes got
20		onto that substance, but
21	Q	Sorry, what does that mean?
22	А	Well, I don't know where it came from.
23	Q	I don't want to be flippant, we did talk about a
24		semen fairy, but I don't get you. What do you
25		mean how it got on the clothes?
		Meyer CompuCourt Reporting

		Page 26456
1	А	When did it get on, how did it get on, was it on
2		there back in 1969 or could it have been put on
3		later.
4	Q	By who? Who would have Fisher's semen?
5	А	Whoever was looking for it might have been able to
6		find it, I don't know, but it's a possibility,
7		that's all I know.
8	Q	So your reaction was doubt? What was your
9		reaction? I mean, you have acceptance by the
10		police, acceptance by the RCMP, acceptance by the
11		minister. What was your personal reaction; doubt?
12	А	Well, my first question was where did this
13		substance that was tested come from.
14	Q	Okay. Your next question?
15	А	And the next question is, well, since it
16		apparently came from Fisher, Fisher would be
17		likely the one who was, who had committed that
18		offence.
19	Q	Okay. And then were you at that point even
20		satisfied that he did it or were you still in the
21		doubt stage or what stage were you at?
22	А	I have to be satisfied that that's what happened
23		and I certainly supported the prosecution of
24		Fisher for that event.
25	Q	Would it be fair to say that in truth you didn't
		Meyer CompuCourt Reporting

		Page 26457
1		believe it?
2	А	Didn't believe what?
3	Q	That they that it was Fisher's semen that was
4		discovered?
5	А	No, I didn't for a moment say or believe that it
6		wasn't Fisher's, my only question is when did it
7		get on those clothings, that's now, I don't
8		pretend to know all about it by any means, I don't

11		testable, maybe it is, maybe it isn't. They say
12		it is.
13	Q	I guess what
14	А	I have to accept their finding.
15	Q	I guess what I'm having difficulty with is this,
16		on one hand you doubt the confessions that Mr.
17		Karst took from Fisher, on another hand you have
18		some doubt about DNA that's so carefully taken,
19		and yet in prosecuting David Milgaard you don't
20		look at Nichol John's statement and go what is
21		this all about. Why didn't you apply the same
22		doubt to that case?
23	А	Why didn't I which?
24	Q	The same kind of scrutiny and taking a step back
25	~	and saying look, DNA, are you for real, these

1		confessions, are you voluntary, why didn't you
2		apply that same kind of mentality when you did the
3		appeals on David Milgaard, the evidence that is so
4		fraught with problems?
5	А	Well, because I was going by the only material
6		that I had before me to deal with that appeal and
7		if I was wrong and stupid, so were all the Court
8		of Appeal members because they agreed.
9	Q	Did you want a public inquiry?
10	А	Like
11	Q	here.
12	А	This public inquiry?
13	Q	Yes.
14	А	No, I didn't want it.
15	Q	You asked for it; didn't you?
16	А	No, I didn't. I don't know it's purpose,
17		objective or its limits or anything like that. I
18		don't pretend to know enough about it to know
19		whether I would vote for it or not. No one ever
20		asked for my opinion.
21	Q	Perhaps we might look at 033005. Have you seen
22		this document in preparing for your testimony?
23	А	Right now I can't read it. Unless it's enlarged I
24		won't be able to read it.
25	Q	I'll go through it with you. For now I just want
		Meyer CompuCourt Reporting

1 to know whether you've seen it in preparation. 2 Α I think I have, yeah, but if you read it, it would 3 qo faster. 4 Well, let's have a look at it, what it is. 0 Okay. 5 It's a memorandum from Murray Brown, who you know, 6 to John Whyte, Deputy Minister, who I presume you 7 know, and it's dated July 21st, 1997. Do you see 8 that? 9 Α Yes. 10 And that would have been pretty much around the 0 11 time the DNA results came in. The memo says: 12 "I have just spoken again with Sy Halyk 13 who represents Serge Kujawa and Bobs 14 Caldwell in one of the Milgaard law 15 He informs me that he will be suits. 16 holding a press conference today to do 17 two things on behalf of his clients. 18 First, he will apologize to David 19 Milgaard and second, he will call for a 20 public inquiry and ask that it proceed 21 as soon as possible." 22 Now, it would appear that he was doing that on 23 your instruction. Do you see that? 24 Α I see that statement, yeah, but I don't remember 25 giving any such instructions. Meyer CompuCourt Reporting =

1	Q	But it may be that you did ask him to ask for a
2		public inquiry?
3	А	Maybe.
4	Q	It says:
5		"First, he will apologize to David
6		Milgaard and second, he will call for a
7		public inquiry Consistent with what
8		I told you this morning, he wants the
9		inquiry to proceed after the criminal
10		case is finished but before the civil
11		case proceeds. He spoke to Roden
12		on the civil suit and Mr. Roden
13		apparently agrees that this is
14		appropriate.
15		He suggested as well that if
16		the questions at the press conference
17		allow, he intends to suggest publicly
18		that the inquiry process should start
19		now at getting things organized. Why he
20		is in that much of a hurry is difficult
21		to know except that it perhaps that
22		might take pressure off his clients."
23		Did you feel you were under pressure at that
24		time?
25	А	Not that I know of.

Dogo 26460

Page 26461 1 Q "He is also going to point out if he 2 gets the chance that several separate 3 inquiries into this case have failed to find any wrongful conduct on the part of 4 5 his clients. I suggested some caution 6 there simply because of the way that 7 might look at this stage." 8 Here's the part I'm concerned about: 9 "Sy also reports that Bobs Caldwell is 10 adjusting to this new reality but Serge 11 Kujawa is not. Apparently, Serge's view 12 is that you can get experts to say 13 anything you want and this is just 14 another case of that." 15 That was your view then? 16 To some degree, yes. Α 17 Were you aware of the process that Justice took to 0 18 handle the exhibits and to get the best experts 19 possible from three different countries to do the 20 analysis? 21 Α Well, I don't know how the exhibits were handled 22 and I don't think anybody does, most didn't even 23 know where the exhibits were for all of those 24 years. Now, how they were handled, how they were 25 discovered, what if anything was put on them I Meyer CompuCourt Reporting =

Page 26462 1 don't know, and will never know. 2 0 It goes on here: 3 "Sy thinks he has Serge under control 4 for the time being and will stay in 5 touch with him to ensure he remembers to keep his mouth shut." 6 7 It would appear that there was some problem with 8 you sounding off was there? 9 Α Well, the fellow put it in his letter. He must 10 have thought so. 11 Q Okay. Well, I mean, at the press conferences you 12 quite properly apologized and did all that, but it 13 would appear to me from this memo that it really 14 wasn't all that sincere, that you were doubting it 15 all and questioning it all and you weren't 16 adjusting particularly well. 17 Α Well, my apology was I'm sorry, Mr. Milgaard, that 18 you were improperly convicted, this DNA stuff has 19 proven that you were not the fellow who did it and 20 I'm sorry all of this happened, but I don't admit 21 to any wrongful or dishonest or improper moves on 22 the part of myself or anybody else that I knew of 23 and therefore it wasn't a complete apology of I'm 24 sorry what we did to you, because we did never 25 mean to do it. We made a mistake.

1	Q	Okay, but is it fair to say, though, that that
	Ŷ	
2		mistake may have been, in part, caused by the view
3		that you took then, and perhaps to a considerable
4		degree still hold, as to the value of similar act
5		evidence?
6	А	Well, what other comment could I make on that?
7	Q	Yes. You could agree with me. Do you understand?
8		I'm not trying to be difficult, but do you
9		understand what I'm saying?
10	А	What's your question?
11		COMMISSIONER MacCALLUM: I just have a
12		little trouble with the point of relevance, Mr.
13		Wolch, because I think at the time that he
14		expressed these opinions about similar act
15		evidence it was around 1992 and at the time in
16		question really when he argued the appeals he
17		simply said he didn't make the connection between
18		the two cases, so how could his opinion in 1992
19		about the admissibility of similar act evidence
20		have a bearing. The real problem was that he
21		didn't make the connection.
22		MR. WOLCH: Well, I'm suggesting he did, he
23		made a connection, but then decided it wasn't
24		it wasn't of any value, that's what I'm saying.
25		COMMISSIONER MacCALLUM: Well, you don't

all right, then, if you don't accept the premise. BY MR. WOLCH:

3 What I'm saying is we're going back a long time 0 and I'm saying to you that given what was in the 4 5 files, given that these are the two most high-profile cases probably you were doing at that 6 7 time, and you were doing them both at the same time, at least for a period of time, that it's not 8 9 a matter of you not making the connection, it's a 10 matter of you looking and saying look, on one hand 11 I have a rape/murder in an alley in Saskatoon, on 12 the other hand I have a bunch of rapes in alleys 13 in Saskatoon, I don't believe in similar acts, 14 that the second can be applied to the first. I'm 15 saying you made the decision, it's not a matter 16 about connecting them, you looked at them and made 17 a decision that they didn't connect, that's the difference. 18 19 Well, but what you are saying is that I walked Α

20 A well, but what you are saying is that I walked 20 outside at midnight, way out in the bush, and the 21 sun wasn't shining because it was midnight and 22 there was no moon light, and for me to say it was 23 dark out, is that what you are trying to make a 24 case of?

1	А	Well then
2	Q	I think your counsel has something to say.
3	А	Then you should replay what you just asked.
4		COMMISSIONER MacCALLUM: Sorry, Mr. Wilson,
5		I didn't see you get up. Yes?
6		MR. WILSON: Mr. Commissioner, after an
7		hour's restraint, I think I'm compelled to
8		observe that Mr. Wolch is on delicate ground
9		perhaps. Years back, 15 years perhaps, he
10		abandoned his role as counsel for the Milgaards
11		and joined them in a partisan way and made a
12		number of personal attacks on Mr. Kujawa that
13		were highly publicized, some of which we saw
14		yesterday, and now it's difficult for him to
15		maintain his objectivity as counsel because what
16		he is doing in large part is attempting to
17		justify his own extreme conduct of years past and
18		unprofessional statements made by him. Now to
19		stand here supposedly as counsel and utilize the
20		privileges of that status in the way he is I
21		submit is an abuse of the privileges of this
22		inquiry.
23		COMMISSIONER MacCALLUM: I can agree that
24		if he's doing that, of course that would be
25		abusive. The question is, is he, I suppose, and

– Meyer CompuCourt Reporting –

I'll ask him to comment.

1

2 Mr. Commissioner, I really take MR. WOLCH: 3 exception to what My Friend has just said. It is 4 not for him to say that "years ago abandoned the 5 role of counsel," at all times I've been acting In terms of what I have said in the as counsel. 6 7 past, I stand by every comment, they are made to advance a cause and made in good faith and are 8 9 still the views that we hold, there's no change 10 in position. It is not a matter of 11 professionalism or not, that is what I'm here 12 for, is to probe, and the difference in those 13 media articles and broadcasts are that the focus 14 I directed are the very same ones here as to here 15 are the questions that need answering and that's 16 why we are here in part on the inquiry. 17 What My Friend fails to 18 understand is that his client made personal 19 attacks and name calling. The focus of the 20 direction on his client was that what you've done 21 here appears to be either a cover-up or whatever 22 it might be and here are the facts and that's 23 what I'm probing, why was it done in Regina, why 24 didn't he get time, why do you say he shouldn't 25 get any time, why did nobody know, those are all

= Meyer CompuCourt Reporting =

Page 26467 -

1 legitimate questions, that's why we're here, 2 that's what I'm probing. 3 COMMISSIONER MacCALLUM: That's right, and those kind of questions didn't raise any 4 5 objection. I'm not sure they didn't. 6 MR. WOLCH: 7 COMMISSIONER MacCALLUM: Well, what has 8 happened, of course, is the investigation of this 9 witness' statements to the press after his 10 retirement from the Department of Justice, so 11 it's of course common ground that there was a 12 good deal of personal attacks on both sides, 13 we've seen it on TV clips, and my concern that I 14 voiced just a minute ago is that we're stretching 15 the bounds of relevance at this point. If it can 16 somehow be brought home to the Department of Justice that because of this witness' statements 17 18 they didn't take timely action on information 19 which came to their attention to re-open the case 20 sooner, then that's relevant, but otherwise just 21 to trade barbs about what was said in 1992 I'm 22 afraid is --23 MR. WOLCH: No, the question that --24 COMMISSIONER MacCALLUM: -- hardly 25 relevant. Meyer CompuCourt Reporting =

MR. WOLCH: My Friend stood up when I was questioning specifically on the course of conduct back in 1969, that was a question I had asked at the time.

COMMISSIONER MacCALLUM: Well, you Yes. are quite right, it was, but he said that he had been having difficulty restraining himself for the last hour and over the last hour we've been talking about just the sort of thing that followed his retirement, so I think to end all this, we're just going to have to try our best to focus on issues which relate to the third ground of the Terms of Reference, is this information which came to the attention of the authorities and which should have caused the re-opening to take place sooner than it did, and I'm left in some doubt that this witness' statements to the press and in conferences involving Mr. Asper and so on were really representative of any position taken by the government or which he should have taken as a former member of the Department of Justice and at the time a member of the legislative assembly --MR. WOLCH: Mr. Commissioner --COMMISSIONER MacCALLUM: -- as opposed to

_____ Meyer CompuCourt Reporting ____

1 simply pique and resentment at having his 2 reputation impugned, and really, I've heard about 3 enough of that. I mean, anybody can understand 4 what's going on here. 5 MR. WOLCH: I know, Mr. Commissioner, I 6 think, though, the point --7 COMMISSIONER MacCALLUM: Well, the point --8 just excuse me. I understand the point you are 9 trying to make is that even though he might not 10 have conspired or suppressed evidence for the 11 purpose of seeing an innocent man stay in jail, 12 he did so for the purpose of keeping what he 13 believed to be a guilty man in jail, and if the 14 evidence got out, then the fellow might get out, 15 be released, that's what you are trying to 16 establish. 17 MR. WOLCH: I was, yes. 18 COMMISSIONER MacCALLUM: But I don't know 19 how many times he's denied that, Mr. Wolch. 20 MR. WOLCH: My point -- well, I'll deal 21 with similar act evidence. I want to get back to 22 the point --23 COMMISSIONER MacCALLUM: And of course on 24 the similar act evidence, we do have the 25 distinction which I know you made, which might Meyer CompuCourt Reporting =

= Page 26470 =

1	not have been appreciated by everybody, that
2	there is a lesser onus if similar act evidence is
3	thought to be introduced by the defence to show
4	that a third party might have committed the crime
5	and not him as opposed to similar act evidence
6	which is thought to be introduced by the Crown to
7	establish that the accused committed the offence,
8	so those would be similar acts of the accused
9	himself. So as long as everybody is aware of
10	that distinction, including the witness.
11	MR. WOLCH: Yes, there were two points I
12	was making, one was that his understanding of
13	similar act evidence at the time could lead to
14	the conclusion by the trier of fact that he did
15	look at it, he looked at it and decided it was
16	not admissible evidence and put it aside, that
17	could have happened as opposed to giving it to
18	Mr. Tallis, that's the first point. The second
19	point about the press conference and the reaction
20	to the DNA, the point I will be making later is
21	that that's an example of tunnel vision; that is,
22	you are so convinced of your position that even
23	when, in the light of all this you get DNA you
24	still can't face the reality, and that's just on
25	prosecutor's tunnel vision, that was the purpose

Page 26471 =

1 of that. 2 COMMISSIONER MacCALLUM: Well, if that was 3 his -- are you trying to say that if that was the opinion he demonstrated, the point of view he 4 5 demonstrated in 1997 --MR. WOLCH: 6 Yes. 7 COMMISSIONER MacCALLUM: -- it must have 8 been the point of view he had in 1969? 9 MR. WOLCH: No, after the conviction, that 10 is, when he got to the appeal level. 1970, all right. 11 COMMISSIONER MacCALLUM: 12 MR. WOLCH: Yes. In terms of the whole 13 concept of re-opening these cases, that the 14 prosecutors involved very often get a tunnel 15 vision that even when they are faced with DNA, 16 it's hard to get them to appreciate or get them 17 into the reality of it, that's the point of that. 18 It wasn't anything more than that. 19 COMMISSIONER MacCALLUM: Mr. Wilson? 20 MR. WILSON: I heard Mr. Wolch say in 21 response to my original objection here a minute 22 ago was confirmation of what I see him doing in 23 that he is using his position here this morning 24 to prove and substantiate the allegation of 25 criminal conduct that he made against Mr. Kujawa

Meyer CompuCourt Reporting =

1	15 years ago which has been fully investigated at
2	homongous cost and found to be absurd as we saw
3	in the RCMP report yesterday, and there's not a
4	scintilla of evidence of criminal conduct
5	anywhere in this hearing and yet Mr. Wolch is
6	still beating that old drum.
7	MR. WOLCH: No, that's totally wrong.
8	First of all, if My Friend wants to point to a
9	particular accusation, I'll back it up. This
10	muddying of the waters is unacceptable. The
11	second point is to talk about other reports and
12	other findings, we know now what those people
13	didn't have, we know now they didn't even have
14	Rasmussen's report in the prosecutor's office, so
15	to start making speeches about that is just not
16	right.
17	COMMISSIONER MacCALLUM: Mr. Wilson, I have
18	not I am mindful of the content of your
19	objection, as I said before, and in my judgment
20	Mr. Wolch has not yet reached the point where the
21	questions have amounted to an abuse of his
22	standing as counsel in this inquiry. I recognize

1 long into this but -- I see somebody has the book. 2 I forget what it's called, there is a book by the 3 former Prime Minister, Kim Campbell, called The Making of a Politician, and I thought it would be 4 5 on CaseVault, I'm confident I turned in the chapter but I guess it didn't make it there. 6 But 7 in Chapter 10 and --8 MR. HODSON: We'll put it up there. 9 BY MR. WOLCH: 10 Q Okay. I want to show you some things, and I'm not going to be long with this because hopefully we'll 11 12 be able to ask Ms. Campbell about it, but there is 13 a full chapter devoted to the *Milgaard* case and 14 some of it you will find very interesting from a 15 personal point of view. I want to go through it 16 pretty quickly, I think I can do it without 17 reading that much time, I don't want to go through 18 it now because Mr. Williams and Ms. Campbell will 19 have much more to say about it, I'm sure, but the 20 chapter is called Doing the Right Thing, and this 21 is a book she wrote after the Supreme Court 22 reference, and I want to set the stage for it. 23 She deals with it in about 22 pages, and she talks 24 about how she learned the whole case over a 25 weekend, and there is obvious factual errors

— Meyer CompuCourt Reporting =

= Page 26478 =

1	regarding Nichol John, what she said and what she
2	did, and I won't go through that now. There's
3	indications here that Nichol John testified at the
4	preliminary hearing, that she saw the murder,
5	it's there's all kinds of facts that are
6	difficult to imagine that she would have thought
7	when she wrote the book. But she does explain the
8	thought process on the 690 review, and how she was
9	blindsided by Mr. Mulroney, and how she went to
10	Justice McIntyre for opinions, and she deals with
11	all the facts. And you will take comfort in this,
12	too, because she does say she was perplexed by the
13	Supreme Court, and talks about a threshold test,
14	it's quite informative. And I know I shouldn't
15	put it in through you, I don't want to, but there
16	is a part that is particularly relevant to you.
17	So the chapter starts at page
18	179 of her book, and for the first 20 or so pages
19	she gives a complete account of what she did and

The recommendations stemming from that 6 7 review, I'm told, are now making their 8 way to the office of the current 9 Minister, Allan Rock. In advance of any 10 major reform, Rock has made two 11 departures from prior practice in 12 dealing with the application of Colin 13 Thatcher, a former cabinet minister in 14 the government of Saskatchewan, who was 15 convicted of the murder of his wife." 16 That's why I say, I'm drawing your attention to 17 this, given your background there. 18 "First, he provided the department's 19 investigation brief (a summary of the 20 information gathered during the 21 investigation of the application) to the 22 applicant and his counsel for their 23 response and comment before he 24 considered it." 25 So, you see, she's saying here she made a change, = Meyer CompuCourt Reporting = Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

1 when she did the Thatcher one, with a little more 2 disclosure. 3 "That makes sense to me, although it 4 could sometimes create problems of 5 confidentiality. Second, his seventy-five pages of reasons for 6 7 rejecting the application were 8 immediately published in a form suitable 9 for distribution. I'm also told that 10 the Department of Justice is now more 11 aggressive in responding to inaccuracies 12 or attacks in the press relating to 13 ongoing section 690 applications." 14 Do you see that? Now my first concern is were 15 you, given your intimate involvement with 16 Thatcher, provided with that information? 17 Α No. 18 Did you have input into that? Q 19 Α No. 20 Because she is saying here she has changed the 0 21 system, or the system has been changed to a 22 degree, in terms of giving at least the applicant 23 more information. I'm wondering where the 24 prosecution would have fit into this? 25 Α I had nothing to do with this.

The powers comparable to those granted under section 690 are exercised in Britain by the home secretary. 1		Now, you see, she seems to say there that public
2		interest and public pressure:
3		" where it might lead to the
4		discovery of evidence or witnesses
5		capable of establishing a wrongful
6		conviction",
7		so she is not saying you shouldn't have public
8		pressure; is that something you might agree with?
9		Is that the way you would like to phrase it or do
10		you have a different view of that?
11	А	I don't
12	Q	She says she doesn't:
13		" want to do away with public
14		interest or even public pressure, where
15		it might lead to the discovery of
16		evidence or witnesses capable of
17		establishing a wrongful conviction."
18		In the <i>Milgaard</i> case, clearly publicity led to a
19		lot of information, there's no question about
20		that. Do you see that? If you read the entire
21		chapter you will note that she acknowledges that
22		public pressure was one of her reasons for
23		re-opening the case. She had turned it down
24		once, if she had her way, there never would have
25		been a clearing of David Milgaard or a conviction
		Meyer CompuCourt Reporting

Page 26484 1 of Larry Fisher, not deliberately, that would 2 have been the result. 3 "The capacity for publicly expressed outrage at injustice is a hallmark of a 4 5 free and democratic society. It is an important safeguard of justice, however 6 7 uncomfortable it may occasionally be for those on the receiving end." 8 9 Do you agree with that? 10 Α Well, I don't know, I can't make comments on a 11 great part of the book just seeing a bit here. 12 Q Well no, she's pretty obviously correct, that's 13 all I'm saying. It's not very difficult. But 14 here she goes on: 15 "Did David Milgaard kill Gail Miller? 16 Perhaps none of us will ever know for 17 certain. I had some tough questions 18 about the Milgaard case, but I don't for 19 a moment begrudge Milgaard his freedom. 20 The issue was never a personal one with 21 Whatever my own views, there came a me. 22 point when I had to let it go. Dealing 23 with this and other cases has made me 24 quite modest about my own ability to 25 know the absolute truth. That is why we

2		review that make possible a fair and
3		open-minded approach to the possibility
4		of error in our courts. But I hope I
5		can be forgiven for saying that
6		"wrongful conviction" can be just as
7		unjust when it occurs in the court of
8		public opinion as when it happens in a
9		court of law."
10		Is there anything there that you take issue with
11		or would like to elaborate on?
12	А	No.
13	Q	What about her comments about perhaps an
14		independent, an independent body, do you have any
15		feeling about that?
16	А	Well, if anyone has a final power in any area,
17		that's freedom. Without it, you can't have it. I
18		don't see what possible discussion you could have
19		on that.
20	Q	Okay. I guess part of the difficulty I have is
21		that here you have, after the Supreme Court
22		reference, if you read the chapter you'll see that
23		she still has a lot of doubts, she misinterprets
24		Nichol John completely, and that is her position
25		at this is after the Supreme Court reference.

1		And we know that getting there was all sorts of
2		bad feeling, argument, and whatever, and I'm
3		wondering, with your experience, if you would not
4		agree or suggest that maybe we need a different
5		system, something different? And I thought maybe,
6		because Colin Thatcher was mentioned there and
7		there was an adjustment there, that maybe you
8		would have had some input on that?
9	А	I didn't.
10	Q	Did you even know that the system was different
11		for Thatcher?
12	А	No.
13	Q	Did you have any comment on improving it and
14		changing it and making it better?
15	А	No.
16	Q	All right. I just had one last question. It's
17		quite clear that when it comes to people such as
18		yourself, Mr. Caldwell, Eugene Williams, Kim
19		Campbell, people in the justice system I can
20		add a lot more, it's not, I'm not going to be that
21		particular people in the justice system had
22		such a hard time accepting that there was a
23		miscarriage, that David was wrongly convicted, yet
24		people not in the justice system, the ordinary
25		person, could look at the Milgaard evidence and
		Mever CompuCourt Reporting

1		the Fisher evidence and come to the right
2		conclusion. Do you have any view why the people
3		in the system had so much difficulty with getting
4		to the right answer and that people out of the
5		system got it, got there so easily; do you have
6		any comment on that?
7	А	Well I have comments that you decide which is the
8		right answer and which is the wrong answer, and
9		that is your way of deciding the whole question, I
10		don't suppose anybody else on the planet would be
11		willing to do that so you are not likely to be
12		pushed out of your place.
13	Q	No, I'm trying to understand, like, why it is that
14		the average person can look at the obvious, what I
15		suggest is the obvious, the strength of the Fisher
16		evidence, weakness of the Milgaard, and come to
17		the conclusion that Fisher did it, I mean that's
18		what people decided; while all those in the system
19		didn't come to the same conclusion? And maybe the
20		answer is an independent group that has no
21		allegiance to anybody, that can just look at it
22		properly, do you not think that might be the
23		answer?
24	А	Well I think the group should have an allegiance
25		to justice, not to any particular direction or

2	Q	Well, that's what I am saying.
3	А	And that's what the justice system is supposed to
4		try and achieve. It's composed of human beings,
5		and it's not perfect, and it never will be.
6	Q	But we can try for it; can't we?
7	А	Well yes, we can try for it, but we need to try
8		honestly.
9	Q	And my final question is this: As the man who was
10		so deeply involved in the case, did you ever, for
11		your own sake, make any personal effort to
12		determine whether or not there was a miscarriage
13		of justice in this case?
14	А	Well I think I made that personal effort all the
15		way along, and I certainly am not saying that I
16		was perfect in the attempt or in the
17		accomplishment of it, but I've always wanted that.
18	Q	I don't think you are getting my question. I
19		don't mean back in the old days, we can argue that
20		forever, I'm talking about when the Fisher
21		evidence surfaced and Ron Wilson was saying that
22		he lied, when all that was coming out did you make
23		any effort at all on your own, as a person so
24		deeply involved, to go back, review, check, do

anything where you might have been in a position,

Page 26489 1 at the end of the day, to say "look, I think they 2 are right"? 3 Α Well, I've answered this many a time, the answer 4 _ _ 5 Only once? Q Α The answer hasn't changed. I had, I hope 6 7 properly, a great deal of faith in our justice system and a great deal of expectation from it. 8 9 We're seeking justice, we don't pull in evidence 10 unless it's proper evidence, etcetera, etcetera, 11 we take the case to the courts, and if they 12 dismiss the thing as this conviction is over with 13 and done and finished, then I go on to my other 14 piles of files that are stuck up and consider that 15 done. 16 I don't have the opportunity to 17 go back, nor do I have the ability to go back and 18 find out, with my great mind, whether they --19 everybody was always right. It's just never part 20 of the possibility of a person working in that 21 sort of thing doing that on a regular basis. 22 But the attempt to do justice 23 was always there and should have always been 24 continued, and so far as I understood me, it 25 always was.

4		the authorities at all?
5	А	Well, I've told you, I thought the case was done
6		and, according to law, that everything was over
7		with.
8	Q	Those are my questions, Mr. Commissioner.

20		Mr. Kujawa, this morning I went

24		that are you aware that Fort Garry police had

Karst got there?

2 A No. I wasn't aware of that, no.

Q Okay. We've heard from Lorne Huff here that there was a previous statement taken before Karst and Nordstrom came to Winnipeg. I just want to ask you if you knew anything about that at all?
A No.

8 0 And the last question I have is, if we can turn to 9 a document, 022706, and I only want to draw one 10 paragraph to your attention and ask if you can 11 comment on an answer that you would have given to 12 the RCMP in 1993. If we can go to 719, and I want 13 you to comment, if you can, on a portion of this 14 interview that you had with the RCMP where they 15 are talking about the same issue, and he talks 16 about the direct indictment and then you say 17 without his confession in Winnipeg -- you are 18 reading from the letter I take it -- we have no 19 evidence at all to charge Fisher, and you say: 20 "Yeah, I don't quite recall the exact 21 thing, but it seems right on with what I 22 remember happening." 23 And if we can go down a little bit, just go back 24 a little bit, and I want to get the question in 25 context, and the officer says:

6	again, this is going to be a difficult
7	question to answer. Do you recall what
8	concerns you might have had over the

10	had taken?"
11	And I pause there. He didn't ask you here about

14	and have you comment on it.
15	"Oh the statement to which I was

22	And if you go down to the officer's response:

1		Now, I take it you would agree you gave those
2		answers to the police?
3	A	I must have, yes.
4	Q	Can you explain what you might have meant by that?
5	А	Well, it was either a case of there was something
6		wrong with the statement that was given to Karst
7		or else he was referring to statements given in
8		connection with trying to get a guilty plea to get
9		rid of his charges.

14		Karst, and it doesn't appear you are referring to
15		the Fort Garry police, you are saying it's the
16		statements he made to his lawyer, that's what you
17		are saying, and, quite frankly, it makes no sense
18		to me and I'm asking you to help me with it.
19		That's all I want to know, that's my last question
20		of you. I don't understand it.
21	А	Here about
22	Q	Where that red line is.
23	А	The statement to which I was referring (witness
24		reading).
25	Q	I'm sorry, when I read that it sounds like what
		Certified Professional Court Reporters serving P.A. Regina & Saskatoon since 1980

= Page 26494 =

1		you are saying is you were planning on tendering
2		his lawyer's statements and couldn't get it in.
3		Now, if I'm misreading, please correct me.
4	А	No, my understanding then was that the statements
5		that were referred to to Karst were not what he
6		told to Karst, as I understand it, it's what he
7		told to his lawyer and Karst found out about it.
8		How I don't know.
9	Q	Okay. So to put it in context, we know he made
10		statements to the Fort Garry police, we know he
11		made statements to Detective Karst, and we also
12		assume he must have instructed his counsel, okay.
13		Now
14	А	We assume he must have which?
15	Q	I'm sorry, instructed his counsel or told his
16		counsel something. What I'm getting at is when
17		you give your memo saying that there's trouble
18		with voluntariness, I, for example, assume you are
19		talking about either Karst's statements or Lorne
20		Huff's statements or Doug Gilbert's, Fort Garry
21		police, that's what I assume you are talking
22		about, statements made to people in authority.
23		This seems to suggest your concern was with
24		statements made to his lawyer which puzzles me and
25		I'm trying to give you a chance to explain it,
		Meyer CompuCourt Reporting

that's	all.

1

2	А	Well, I'm not I guess I was never sure who the
3		statement was made to or under what circumstances
4		and that is why generally I had the feeling that
5		this is not a confession that I would be able to
6		get admitted in a court of law.
7	Q	Well, I would if you are talking about a
8		statement made to his lawyer, we're totally in
9		agreement, but not on a voluntary test, I don't
10		know how you could call his lawyer, but I'm trying
11		to be helped on that one quotation, it has me
12		puzzled.
13	А	And I'm just not sure who the statement, who it
14		was given to or what is the exact reason why I
15		thought the statement wasn't admissible, I never
16		did know that, or at least I never remembered
17		that, I had the idea that it wasn't admissible.
18		But there's no big deal because he wanted to plead
19		guilty anyway.
20	Q	Okay. But you see where your statement says you
21		are not talking about police statements, you are
22		talking about statements to his lawyer, that's the
23		only thing I'm concerned about.
24	А	Well, like I say, I never knew just what the story
25		was that came down through Karst or by Karst or at
		Meyer CompuCourt Reporting

Page 26496 1 that time, so it might have been a statement given 2 to the lawyer is what I had in mind at that time. 3 But I'm just a little bewildered. 0 Is there any 4 circumstance where you could try to call the 5 lawyer to give a statement? I don't know of any. 6 Do you? 7 No, and that's another reason why I thought if he Α 8 gave it to his lawyer I couldn't call him, I 9 couldn't present that as evidence, unless they 10 came in with an admission. So when you are talking about confessions, you are 11 Q 12 talking about confessions to counsel; is that 13 correct? 14 Α Yeah. 15 MR. WOLCH: Those are all my questions, 16 sir. 17 BY MR. FOX: 18 Mr. Kujawa, my name is Aaron Fox, I'm the lawyer Q 19 for Eddie Karst, and I thank my learned friend for 20 trying to clarify the business about the 21 confessions a little bit. 22 If we could bring up maybe, and 23 this is one of them that I'm referring to, 24 document 012111. Now, Mr. Kujawa, that's the 25 typewritten copy of one of the confessions that

Eddie Karst got from Mr. Fisher in Manitoba in Winnipeg in the fall of 1971, that's what that document is. Now, am I correct that at this

point in time, although you have a recollection that there were some problems, as you perceived it, with the admissibility of those confessions, what those exact problems were you are not able to tell us today; would I have that correct? Yes.

And we've heard -- Mr. Fisher, for example, has 11 Q 12 testified and referred to the fact that he was 13 either subjected to a beating that some guards 14 were perhaps involved with, and in fact I think 15 were disciplined as a result of it, circumstances 16 like that, if you were aware of them, might have 17 an impact on the voluntariness of a confession 18 that was given immediately thereafter? 19 Α Yes, but I'm not sure if that had that impact. 20 No, I appreciate that, but hypothetically if that 0 21 were a fact that you were aware of, that might 22 have some bearing on voluntariness? 23 Α Yes. 24 0 Secondly, we know that the Winnipeg City Police 25 who had caught Larry Fisher red handed committing

Page 26498 -

1		one rape and then obtained a confession from him
2		on a second rape, asked him about some of the
3		Saskatoon offences and he admitted to two of them,
4		so by the time Eddie Karst went to Winnipeg to get
5		the statement, he had already admitted to two of
6		the offences to the Winnipeg police, would I be
7		correct, you, as a Crown prosecutor, in looking at
8		whether or not the confessions, for example, this
9		one here would be admissible, you would have to
10		know what the Winnipeg police said to Larry Fisher
11		and what kind of discussions he had with them?
12	А	Oh, I would have to know the full details of the
13		prior interviews with him.
14	Q	And confessions generally, one of the two main
15		reasons they are not admissible, one would be if I
16		force or beat someone or force someone to admit
17		something, that would mean it wouldn't be
18		voluntary?
19	А	Force or sort of a promise of some favour.
20	Q	That would be the other reason, if
21	А	Or deception, those are the three main ways of
22		getting statements I think.
23	Q	Sure. So if you said to Larry Fisher, you know,
24		Larry, you just got beat up here, why don't you
25		tell us about all of the offences you committed
		Meyer CompuCourt Reporting
	(Certified Professional Court Reporters serving P.A. Regina & Saskatoon since 1980

= Page 26499 =

1		and we'll get you out of here and get you
2		someplace where you are going to be okay, that
3		might be a promise which would affect the
4		voluntariness of the confession?
5	А	Yes.
6	Q	We know that Mr. Fisher signed two confessions, or
7		gave two written confessions for two of the rapes
8		and sexual assaults from Saskatchewan. He
9		initially denied the other two and then eventually
10		pled guilty to all four. Do you know if, on the
11		two that he was denied, it's one in this
12		statement, there's another written statement, but
13		two that he denied that he eventually pled guilty
14		to, do you know if you were advised of his guilt
15		of that by his lawyer or by any other means or how
16		you became aware that he was prepared to plead
17		guilty to the other two?
18	А	I can't say for sure that I know, but I have
19		assumed for all of these years that I got the
20		information from his lawyer asking for a plea
21		bargain agreement from the Crown and that's where
22		I got this information.
23	Q	So you've got two written confessions which you
24		might be able to use and then his lawyer saying,
25		hey, okay, on these other two offences, if we can
		Meyer CompuCourt Reporting

Page 26500 1 do a deal on all of them he will plead guilty to 2 them as well? 3 Α Right. 4 That's your general impression of what went on? 0 5 Α Yes. 6 MR. FOX: Thank you. Those are all the 7 questions I have, Mr. Kujawa. 8 COMMISSIONER MacCALLUM: Thanks. 9 BY MR. LORAN: 10 0 Good afternoon, Mr. Kujawa. I'm Pat Loran and I'm here for the Saskatoon City Police. 11 I just have a 12 couple of questions for you. 13 With regard to the Milgaard 14 file, as I understand your evidence, your 15 involvement at the trial level was limited to a 16 conversation you had with Mr. Caldwell about the 17 provisions of The Canada Evidence Act; is that 18 correct? 19 Α As far as I can remember, that's correct. 20 And at the Court of Appeal level you had the 0 21 transcript and that's it in terms of the material 22 with which you were dealing when you argued the 23 appeal; is that correct? 24 Yes, the transcript, including not only the Α 25 evidence, but the legal part. Meyer CompuCourt Reporting =

15

= Page 26501 =

1	Q	Okay. But you would not have had access to the
2		police reports?
3	А	No, not there.
4	Q	And so you wouldn't be aware of evidence which was
5		collected which didn't make its way into the
6		transcripts?
7	А	No.
8	Q	Okay. Now, what I wanted is your confirmation
9		that you had no communications directly with the
10		Saskatoon City Police in the process of arguing
11		the Milgaard appeal?
12	А	Oh, I certainly wouldn't have any about the
13		appeal, I don't think I had about the
14		investigation even.
15	Q	Okay. Thank you. Now the, that appeal, the
16		Milgaard appeal, was argued in 1970, and at
17		would it be consistent with your recollection if I
18		told you that in January of 1971 the Court of
19		Appeal handed down its decision?
20	А	Well, I have no guess as to when it came down, but
21		I accept your statement.
22	Q	Okay. Now in March of 1971 we've got the first
23		correspondence, which went to Mr. MacKay of your
24		office, in regard to the Fisher matter; do you
25		know if there was earlier communications between

2		Saskatoon, or are you unable to comment on that?
3	А	I have no memory of any prior knowledge to that.
4	Q	Now in regard to the Fisher matter, aside from the
5		letter or letters that passed between Mr. MacKay
6		and the Saskatoon City Police, are we safe in
7		assuming that there was no further communication
8		between yourself and the Saskatoon City Police, or
9		at least none you can recall?
10	А	None that I can recall.
11	Q	Thank you.
12	ВҮ	MR. O'KEEFE:
13	Q	Good afternoon, Mr. Kujawa. My name is Eamon
14		O'Keefe, I represent Larry Fisher.
15		Mr. Wolch had confirmed with you
16		earlier on today that you had no direct
17		communication with Larry Fisher; is that correct?
18	А	Far as I can remember I had none.
19	Q	All of your communications with the defence while
20		you were negotiating a plea arrangement with
21		Fisher would have gone through his counsel?
22	А	Umm, I think that's I think that was all,
23		right.
24	Q	In your dealings with Mr. Greenberg do you recall
25		receiving any requests from him or him taking any
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

		——————————————————————————————————————
1		position that left you with the impression that he
2		was trying to conceal the fact of Mr. Fisher's
3		guilty pleas either from the public or from the
4		media?
5	А	There was zero, zero ingredients of that
6		description involved, as far as I know.
7	Q	Did Mr. Greenberg ever say anything to you that
8		caused you to believe that Larry Fisher was trying
9		to avoid media attention on his guilty pleas?
10	А	I got no impression to that effect at all.
11	Q	And, certainly, nothing would indicate to you that
12		Mr. Greenberg was requesting, for any purpose
13		related to Larry Fisher, that the pleas be taken
14		in Regina rather than Saskatoon?
15	А	No, that seemed to be of zero importance to him,
16		just getting the matter cleared up and the fastest
17		way we could arrange it was all he was asking for.
18	Q	Mr. Hodson went over, with you, a number of
19		different issues that you would take into account
20		in assessing the appropriateness of a sentence
21		back in the late '60s-early '70s while you were
22		handling sentence appeals?
23	А	Yes.
24	Q	You recall going through that with him?
25	A	I do, yes.
		Meyer CompuCourt Reporting

		Page 26504
1	Q	And, specifically, things that you would have
2		taken into account when assessing the
3		appropriateness of the 13 years that Mr. Fisher
4		had received in Manitoba?
5	А	Yes.
6	Q	I don't recall Mr. Hodson raising with you the
7		issue of pretrial custody, and I just wanted to
8		address that with you this afternoon, if I could.
9		You would have been aware, I assume, that prior to
10		Mr. Fisher's plea being entered in May of 2 of
11		1971, that he had been in custody for a
12		considerable period of time?
13	А	Well, I would have expected that he had been in
14		custody for some time, how long I didn't know and
15		I didn't care.
16	Q	I can tell you that it's approximately eight
17		months that Mr. Fisher spent in custody before the
18		plea was entered in Manitoba, and can I ask you
19		what effect the pretrial custody would have had on
20		your assessment of the sentence at that time?
21	А	Well as far as I know, according to our
22		experience, if someone put in time before the
23		actual sentencing was done he was given about two
24		days value for every day he had put in up 'til
25		then.
		Meyer CompuCourt Reporting

1	Q	That -	

2	А	That was generally the way our courts handled it.
3	Q	And that was the practice in other cases that
4		would go before the Court of Appeal on sentence?
5	А	The Court of Appeal or just Court of Queen's
6		Bench, right, and so it would be considered and
7		given a great big length of worth for the time
8		that was put in, and then whatever the offence and
9		the facts justified were added onto that.
10	Q	Do you think that that period of pretrial custody
11		would have been something that you were aware of
12		at the time that you were considering Mr. Fisher's
13		sentence in 1971?
14	А	I think that I would have been, but I have no
15		memory of it right now, none.
16	Q	I want to ask you as well about the issue of the
17		strength of the case that you believed you had
18		against Larry Fisher at the time that you were
19		negotiating this plea arrangement. You have
20		indicated that you didn't think you had a case
21		against Mr. Fisher, and I just wanted to ask you,
22		if you believed you did have a case against Larry
23		Fisher do you think that you would have got a
24		greater sentence from the Saskatchewan Court than
25		if you didn't believe you had a case?

		——————————————————————————————————————
1	А	I think we might have been able to get a little
2		more, but it would be very little more, because in
3		those years, according to my memory, 13 years for
4		sexual offences was a mighty long sentence.
5	Q	And taking into account pretrial custody it would
6		have been up over 14 years, basically, is what you
7		are saying?
8	А	Way over 14, if he had put in that many months.
9	Q	Would you have had concerns about calling Larry
10		Fisher's victims to testify about the rapes if you
11		didn't believe you could get any sort of
12		significantly longer sentence by running a trial
13		against Mr. Fisher?
14	А	Well, so far as I knew, we didn't really have any
15		evidence that we could call against him.
16	Q	Assuming you could have made a case against Mr.
17		Fisher on even one of the rapes, would you have
18		had concerns about calling the victims to testify
19		if you didn't think you could get anything more
20		than a few extra months added onto his sentence?
21	А	I would have had concern about that, and I would
22		have talked to the victim or had someone else talk
23		to the victim, because a great many rape victims
24		do not like going into Court and don't like, don't
25		like getting all that attention and having that
		Meyer CompuCourt Reporting

= Page 26507 =

		——————————————————————————————————————
1		bad history built up onto them, so if we are
2		trying to help the law-abiding people of our
3		community we have to have that in consideration,
4		and if we can get 13 years on a guilty plea,
5		exposing one of the victims to a whole lot of this
6		exposition and attention to get another few months
7		would not have been a great idea and I wouldn't
8		normally push for that.
9	Q	All right. Thank you, Mr. Kujawa.
10		BY MR. WILSON:
11	Q	Just a couple of matters that I would like to
12		clear up with you, Mr. Kujawa.
13		COMMISSIONER MacCALLUM: For the record,
14		this is Mr. Wilson, Mr. Kujawa's lawyer.
15		BY MR. WILSON:
16	Q	For the record, my name is Garrett Wilson, and I'm
17		your counsel. I think you told Mr. Hodson,
18		yesterday, you retired in 1989?
19	А	I think that's right, yes. Well I'm quite sure
20		that's right.
21	Q	Yeah, I'm quite sure it is too, it's in the
22		material that was presented to us. Now I
23		understand that the first application that was
24		made on behalf of David Milgaard under Section 690
25		of the Criminal Code to the Federal Minister of
		Meyer CompuCourt Reporting

Page 26508 : 1 Justice for a review of his conviction was made in 2 1988; do you have any recollection of that? 3 None that I -- that's in my mind now. Α At the time you retired in 1989 were you aware 4 0 5 that a movement was underway to review the Milgaard conviction? 6 7 Umm, I don't have any -- I can't say that I have a Α 8 memory of it. 9 I see. Q 10 Α I must have known something about it but it's not 11 there. 12 Q You have told us on several occasions that you 13 thought the justice system was the body to whom we 14 should look and upon whom we should rely to review 15 possible miscarriages of justice? 16 Yes. Α 17 Mr. Wolch asked you, when you discovered that Mr. 0 18 Milgaard was claiming that he was wrongfully 19 convicted, why you didn't get into the file and 20 investigate that. From and after 1989 you were 21 out of the office; correct? 22 Α Yes. 23 0 And from and after 1988 the question of the 24 wrongful conviction was in the hands of the 25 Federal Minister of Justice and being reviewed by

15

Page 26509

		Page 26509 ———
1		counsel at that level; was it not?
2	7	
	A	Some, to some effect that I don't, didn't entirely
3		understand, but it was.
4	Q	I take it that, so long as the alleged wrongful
5		conviction was in the justice system and being
6		reviewed according to the principles of that
7		system, you were quite content to let the system
8		look after the problem?
9	А	Well, not only content, but I didn't see any
10		alternative.
11	Q	Can we have a look at 004451, please, dash 002.
12		This is a letter dated April 29th, 1992 addressed
13		to the Province of Saskatchewan, Crown
14		prosecutors, from the access to information people
15		in Ottawa. Mr. Wolch put that to you this morning
16		and asked if you knew anything about that and you,
17		of course, didn't. You had been retired three
18		years at the time that document came into
19		existence; had you not?
20	А	Well, according to the date that you have already
21		mentioned, I guess.
22	Q	Yeah. Do you have any idea why Mr. Wolch would
23		put that document to you knowing you had been
24		retired for three years at the time it came into
25		existence?
		Meyer CompuCourt Reporting

Page 26510 =

1 No I don't. Α 2 I want you to tell us briefly about the Colin 0 3 Thatcher matter. I raised that a couple of times 4 and Mr. Wolch asked you about it this morning. 5 You acted as the trial prosecutor against Colin Thatcher in 1984 I believe? 6 7 Right. Α 8 Q And a conviction came down in early November of 9 1984? 10 Α I think that's right. And it went on to the Court of Appeal and then on 11 Q 12 to the Supreme Court of Canada, and I suggest that 13 the decision of that latter Court came down in May 14 of 1987, would that be about correct? 15 I think so. Α 16 And then a couple of years later, about the time Q 17 of your retirement, Mr. Thatcher opened a campaign 18 claiming wrongful conviction, new evidence, 19 suppression of evidence; do you recall that? 20 Α Yes. 21 And that public relations campaign was going on in Q 22 the media about the same time that the Milgaard 23 one was? 24 Α I think so. 25 And Mr. Thatcher had been a cabinet minister in Q

_____ Meyer CompuCourt Reporting =

Page 26511 1 the Saskatchewan Government in the 1980s; correct? 2 Α Yes. 3 His father had been the Premier of the province in 0 4 the 1960s? 5 Α Yes. Mr. Thatcher had a lot of prominence in his own 6 Q 7 right, and was able to command a lot of media 8 attention, and did so? 9 Α Yes. 10 0 And the media addressed quite a few inquiries to 11 you, as they did in the Milgaard matter? 12 Α Right. 13 0 And were you responding much in the same vein as 14 you were with respect to the Milgaard matter? 15 Well, I expect so, not that I remember every Α 16 response or every question that clearly, but it 17 would be pretty much the same. 18 Q So the point I wanted to make the Commissioner 19 aware of, Mr. Kujawa, is that there were two 20 high-profile Saskatchewan cases, claims of 21 wrongful conviction, receiving considerable media 22 attention, running parallel tracks in the same 23 time period in the late 18 -- 1980s and the early 24 1990s? 25 Α Right.

- Page 26512 -

		Page 26512
1	Q	Mr. Thatcher also made an application to the
2		Federal Minister of Justice for a 690 review and
3		was rejected, finally, in 1994?
4	А	Right.
5	Q	Following which he commenced action against the
6		Minister of Justice, etcetera. Colin Thatcher is
7		still in prison?
8	А	Far as I know, yes.
9	Q	He is using the National Parole Board, now, to
10		secure his release?
11	А	Well he's been making attempts to get parole, I
12		read details a bit in the paper, but that's all I
13		know about it.
14	Q	So just one last question. As I understood you to
15		tell me, that Mr. Wolch's almost-final question to
16		you before the noon break was "did you do anything
17		to check if Mr. Milgaard was innocent or not", and
18		I think you have told us that what you did was you
19		relied upon the justice system?
20	А	Would I have allied
21	Q	What you did, with respect to the guilt or
22		innocence of David Milgaard, was rely on the
23		justice system to determine that question?
24	А	Yes.
25	Q	Thank you.
