	1		Transcript of Proceedings
	2		(Reconvened at 9:02 a.m.)
	3		COMMISSIONER MacCALLUM: Good morning.
	4		MR. HARDY: Good morning, Mr. Commissioner.
09:02	5		We're ready to proceed with our first witness
	6		this morning, John Quinn. Ms. Monar Enweani will
	7		be leading Mr. Quinn's evidence.
	8		I just wanted to give you and
	9		the parties the heads up that following Mr.
09:02	10		Quinn's evidence, which should be completed this
	11		morning, we will resume the shorter video clips
	12		that we've been watching. We have approximately
	13		two hours of those left and assuming we still
	14		have time today, we'll then move on to a longer
09:02	15		video clip, The David Milgaard Story, which was a
	16		Global production played in late 1992 and that's
	17		approximately an hour and a half long.
	18	JOH	IN GORDON QUINN, sworn:
	19	BY	MS. MONAR ENWEANI:
09:03	20	Q	Good morning, Mr. Quinn.
	21	А	Good morning.
	22	Q	Thank you for attending today to give evidence. I
	23		understand that you presently reside in Prince
	24		Albert?
09:03	25	А	That's correct.
			Meyer CompuCourt Reporting

Page 33822 1 Q And you are a retired member of the Saskatoon 2 Police Service? 3 Α Yes. I have a summary of records of service that the 4 Q 5 Commission was provided with by the Saskatoon 09:03 police, it's doc. ID 325555 at page 6. 6 This 7 document lists your record of service and it 8 indicates that you started with the Saskatoon 9 Police Department on January 2nd, 1964; is that 09:04 10 correct? 11 Α That's correct. 12 Q And can you tell me when you retired from the 13 Saskatoon Police Force? 14 I retired from the Saskatoon Police Department on Α 15 December the 15th, 1998. 09:04 16 And after your retirement, did you Q All right. 17 take on any other paid positions? 18 I went to Prince Albert and I was the chief of Α 19 police in Prince Albert for four years and eight 09:04 20 months. 21 And then following that work, did you cease police Q 22 work? 23 Α I did. 24 0 And you are now presently retired? 09:04 25 Α I am.

		r	Vol 164 - Thursday, June 15th, 2006 Page 33823
	1	Q	Just turning back to your record of service, I
	2		note that July 2nd, 1967 you were a first class
	3		constable and you remained so until October 7th of
	4		1970. Of course we know that Gail Miller was
09:04	5		murdered on January 31st of 1969. Can you give me
	6		some idea of what your duties were as a first
	7		class constable?
	8	А	In that time period I was assigned to the traffic
	9		division of the Saskatoon Police Service
09:05	10		investigating traffic accidents, doing traffic
	11		enforcement, duties related to that line of work.
	12	Q	All right. And I understand that later in or
	13		about 1990 you had some involvement with the
	14		Milgaard matter and so from your record of service
09:05	15		it appears that on November 1st of '89 you were
	16		promoted to inspector?
	17	А	That's correct.
	18	Q	And the service record indicates inspector,
	19		patrol?
09:05	20	А	That's not quite accurate. Initially I was
	21		assigned to the patrol division. I spent one day
	22		in the patrol division and was then assigned over
	23		to the CID section which is the Criminal
	24		Investigation Division.
09:05	25	Q	All right. Can you give me a general description
			Meyer CompuCourt Reporting

1 J

= Page 33824 =

	1		of what type of duties you would have had as
	2		inspector in Criminal Investigation Division?
	3	А	I was basically overseeing the plain-clothes
	4		sections which include the general investigation
09:06	5		section, the major crime section, morality
	6		division, the NCIU, which was the National
	7		Criminal Intelligence Unit, the youth division,
	8		all plain-clothes sections, and my responsibility
	9		was to process correspondence for them to make
09:06	10		sure that they were on I guess review their
	11		files or major files to do correspondence for the
	12		sections and to I guess assist the superintendent
	13		in charge and to provide any assistance to them in
	14		their, in the daily duties of the plain-clothes
09:07	15		divisions.
	16	Q	All right. So that would involve then management
	17		and review of happenings on major files?
	18	А	Right.
	19	Q	All right. And then I note that on October 14th
09:07	20		of 1991 you were transferred to internal
	21		investigations, and was that a promotion or a
	22		lateral move?
	23	А	It was a lateral move.
	24	Q	And can you tell me how your duties changed?
09:07	25	А	The internal investigation section is responsible
			Meyer CompuCourt Reporting

Page 33825 1 for reviewing or investigating public complaints 2 against police officers. It's also responsible 3 for investigating internal disciplinary matters or processing the internal disciplinary matters. 4 Ι 5 worked in close co-operation with the complaints 09:07 investigator's office, that's part of the 6 7 provincial Police Commission, and with their 8 investigators. 9 The Saskatchewan Police Commission? 0 09:07 10 That's correct. Α 11 Q All right. And those were your primary 12 responsibilities? 13 Α Yes. Do you recall, Mr. Quinn, if you had 14 Q All right. 09:08 15 any involvement in the Gail Miller murder 16 investigation in 1969? 17 I wasn't involved in the actual investigation. Α Ι 18 think in the file there is one report that was 19 related to myself on some information I had 09:08 20 received from a lady that lived on 110th Street in 21 Saskatoon and it was regarding a suspicious auto 22 that she had observed, what she believed was 23 trying to pick up ladies or nurses, and I left a 24 handwritten report at that time which was 09:08 25 processed to the chief and it eventually found its

	1		way onto the Gail Miller investigation.
	2	Q	If we could bring up 009218, this would be the
	3		handwritten note that you just mentioned?
	4	А	That's correct.
09:09	5	Q	And it appears that at the top of the document the
	6		information was directed to Superintendent Wood;
	7		is that correct?
	8	А	Yes, I believe that's the name. It's kind of
	9		smudged there, but my recollection is that
09:09	10		Superintendent Wood was in charge of the CID
	11		sections at that time.
	12	Q	All right. And was it usual for you to report
	13		information of this nature in the form of a letter
	14		to the chief?
09:09	15	А	That was one of the methods that you could put
	16		information forward. It was possible if it had
	17		been related directly to a specific investigation,
	18		it would have been given that occurrence number.
	19	Q	Okay.
09:10	20	А	And I believe from reviewing it now, there was no
	21		specific file that I was directing it to, it was
	22		just information that I had received from this
	23		information.
	24	Q	So at the time it wasn't given to you in the
09:10	25		context of a piece of information that might
			Meyer CompuCourt Reporting

Page 33827 : 1 assist in the Gail Miller murder investigation? 2 Not from my recollection and not from what I read Α 3 in the report that I had submitted. All right. If we could see 025168, this is an 4 0 5 investigation report dated May 7th, 1969, and it's 09:10 authored by Detective Reid. I'll just read the 6 7 first part of it: 8 "In regards to a report left 9 by Cst. John Quinn on May 1/69 in 09:10 10 relation to a suspicious auto S.L. 37772 11 for the current year and listed to Ivan 12 Kresak as to it's activities in the 13 Sutherland area, particularly between the times of 2:30 and 3:00. 14 09:11 15 Since receiving this report, 16 observations and surveillances were 17 conducted..." 18 So it appears that the information you provided 19 was followed up on by Detective Reid. Did you 09:11 20 ever have any discussions with Detective Reid 21 about this? 22 Okay, I finally got it on the screen here. Α 23 0 Oh, sorry. 24 Α I don't recall ever talking to, I believe it was 09:11 25 Sergeant Reid at the time, or Detective Reid at Meyer CompuCourt Reporting =

Page 33828 : 1 the time, that the report was left, but from that 2 report obviously that information I had supplied 3 was followed up. In 1969 as a member of the Saskatoon Police 4 0 Okay. 5 Department, were you aware that David Milgaard was 09:11 arrested and then subsequently convicted for the 6 7 murder of Gail Miller? 8 Α Yes, I was. 9 All right. And in the years following 1969, let's Q 09:11 10 say through to 1989, did you have any involvement in the Gail Miller matter at all? 11 12 Α No. 13 0 And during that time did anything come to your 14 attention that would cause you to question whether 09:12 15 David Milgaard was properly convicted? 16 No, nothing. Α 17 If I can turn your mind then to 1990. Ι 0 18 understand that your role in the police service at 19 that time was as inspector in the Criminal 09:12 20 Investigation Division. Do you recall becoming 21 involved in the Milgaard matter in 1990? 22 Yes, I do. Α 23 Q And can you briefly explain to us --24 Α It was in the early, earlier part of 1990, I 09:12 25 believe around March we were contacted by the,

Meyer CompuCourt Reporting

Page 33829

	1		initially I think by the solicitor general's
	2		department and I think that correspondence came
	3		through Deputy Chief Montague. Subsequently there
	4		was a meeting that was held in that month with Mr.
09:13	5		Williams, Eugene Williams from the solicitor
	6		general's department and I believe it was Sergeant
	7		Rick Pearson from the RCMP and at that time the
	8		discussion centred around some information that
	9		Mr. Williams was pursuing in relationship, I
09:13	10		believe it was, to an application that had been
	11		submitted by David Milgaard's legal
	12		representatives, and Mr. Williams had been tasked
	13		with the job of carrying out some investigations
	14		into those matters and had got ahold of the RCMP
09:13	15		and they were going to assist him and they were
	16		one of the liaison with the Saskatoon Police
	17		Service to assist them in whatever means they
	18		needed at that time.
	19	Q	And I take it that you were then the liaison for
09:14	20		Sergeant Pearson?
	21	А	Yes, I was, and Mr. Williams.
	22	Q	All right. If I could turn you to document, it's
	23		178736, this appears to be a letter from David
	24		Milgaard's lawyers directed to Mr. Eugene Williams
09:14	25		at the Federal Department of Justice. I'll just

1 read briefly from this letter: 2 "This letter will confirm the 3 substance of our telephone conversation on February 28th, 1990. Mr. Wolch was 4 5 contacted on Monday, February 26th, 1990 09:14 by an individual who identified himself 6 7 as Sidney Wilson. This individual 8 refused to provide any details of his 9 personal identity and we do not have a 09:14 10 telephone number or anything of that nature to identify him. Mr. Wilson 11 12 informed us that he knew the true 13 identity of the killer of Gail Miller. He advised that the true killer's name 14 was Larry Fisher, an individual who was 09:15 15 16 apparently from North Battleford, Saskatchewan. Furthermore, Mr. Wilson 17 advised that Fisher had arrived at home 18 19 on the morning of January 31st, 1969, 09:15 20 covered with blood and that Fisher's 21 wife had seen this. Fisher's wife then 22 apparently heard of the murder later 23 that day and concluded that Fisher may have had some involvement. 24 Fisher's 09:15 25 wife then apparently told Wilson, who Meyer CompuCourt Reporting =

2	number of years ago with this
3	information. We further understand from
4	Wilson that Larry Fisher is currently
<i>09:15</i> 5	imprisoned serving a sentence arising
6	from a rape or murder or both.
7	Our information is that an
8	individual named Larry Fisher and his
9	wife rented the basement portion of the
<i>09:15</i> 10	Cadrain residence in Saskatoon for a
11	period covering the date of the death of
12	Gail Miller.
13	Obviously, this could be very
14	important in the development of the
<i>09:15</i> 15	Milgaard s. 690 application, and one
16	which we respectfully believe ought to
17	be fully investigated."
18	If we could now turn to page 3 of that same
19	document. Mr. Quinn, we know from the document
<i>09:16</i> 20	that immediately follows this one that this is
21	most likely a note authored by Deputy Chief
22	Montague in relation to a telephone conversation
23	he has with Eugene Williams. I'll just read from
24	this briefly and then I will ask you a few
<i>09:16</i> 25	questions.

Were you familiar with Constable Farion? 09:17 15 16 Yes. Constable Farion, at that time, was the А 17 criminal analyst for the Saskatoon Police Service, 18 and he -- his -- part of his responsibilities was 19 to review ongoing investigations and provide some 09:17 20 kind of -- provide a -- whether there was any 21 trends, similarities between the offences, and he 22 was also involved in reviewing older -- old files 23 and going back into I guess what we would call 24 cold investigations. 09:17 25 If we could turn to page 4, if you will Q Okay.

_____ Meyer CompuCourt Reporting __

= Page 33833 =

I

	1	just bear with me, I'll read this letter and then
	2	we'll come to your involvement in the matter.
	3	This is the March 1st, 1990 letter from Eugene
	4	Williams to Deputy Chief Montague following up on
09:18	5	the earlier conversation. The letter reads:
	6	"I am writing to confirm the
	7	substance of our telephone conversation
	8	of March 1, 1990. I sought to identify
	9	the person, whose assistance I should
09:18	10	obtain, to investigate certain facts
	11	concerning David Milgaard's application
	12	for mercy, pursuant to section 690 of
	13	the <u>Criminal Code</u> . Mr. Milgaard who is
	14	serving a life sentence, is an inmate of
09:18	15	Stony Mountain institution.
	16	To obtain a better
	17	understanding why the requests which
	18	follow are being made, some background
	19	information is needed. David Milgaard
09:18	20	applied to the Minister of Justice
	21	seeking among other things, a new trial.
	22	He contends that he was wrongfully
	23	convicted in January 1970 of the
	24	non-capital murder of Gail Miller, who
09:18	25	resided in Saskatoon when she was
		Meyer CompuCourt Reporting

Page 33834 1 murdered. This application spurred an investigation into the grounds for 2 3 review which were advanced in the 4 application. 5 Recently, the Department of 09:18 Justice was advised by Mr. Milgaard's 6 7 counsel, David Asper, that Mr. Sidney 8 Wilson, address unknown, had identified 9 Larry Fisher, as the true killer of Gail 09:19 10 Miller. Further, Mr. Wilson apparently 11 went to the police 'a number of years 12 ago' and provided the police with this information. 13 14 Mr. Asper has also informed me that Linda Fisher, who was described to 09:19 15 16 me as the wife of Larry Fisher, was 17 interviewed by the Saskatoon police force in connection with the Gail Miller 18 19 murder investigation. 09:19 20 This case has stimulated 21 widespread public and media interest. 22 As a result every investigative step 23 may, at some future date, be subject to 24 careful scrutiny. Accordingly, to avoid 09:19 25 any future suggestion of a conflict of

Page 33835 : 1 interest, by the organization involved 2 in determining the veracity of this 3 recent information, I have sought and obtained the assistance of the Royal 4 5 Canadian Mounted Police, to examine a 09:19 number of these claims, some of which 6 7 are contained in the attached letter 8 dated February 28, 1990. I understand 9 that, unlike the Saskatoon police, that 09:19 10 organization played a minor role in the conduct of the Gail Miller murder 11 12 investigation in 1969. 13 However, there are certain factual assertions which can only be 14 confirmed by the Saskatoon Police Force. 09:20 15 16 Accordingly I am writing to obtain your 17 assistance in determining the following: 18 . . . " 19 He sets out four questions: 09:20 20 Did the Saskatoon Police Force interview "1. 21 Linda Fisher during the murder 22 investigation of Gail Miller, or at 23 anytime thereafter in relation to 24 Ms. Miller's death? 09:20 25 2. If so, what information did Ms. Fisher

	Ī	Page 33836
	1	provide?
	2	3. Can it be determined whether Sidney
	3	Wilson, or anyone else, contacted the
	4	Saskatoon Police Force to advise that
09:20	5	Larry Fisher was the true killer of Gail
	6	Miller?
	7	4. During the Gail Miller murder
	8	investigation Albert Henry Cadrain,
	9	(Shorty), who later testified at the
09:20	10	Milgaard trial, was interviewed by the
	11	Saskatoon Police Force. Is there a
	12	record of that interview? If so, does
	13	it disclose whether Mr. Cadrain
	14	identified the individuals who then
09:20	15	resided at 3334 Avenue 'O' South in
	16	Saskatoon? Did Mr. Cadrain identify
	17	Larry Fisher as a resident or tenant in
	18	his dwelling during his discussions with
	19	police."
09:21	20	If I could then turn your attention to page 7 of
	21	178736. This appears to be a memorandum from
	22	Deputy Chief Montague addressed to you, and it
	23	reads:
	24	"Please have Constable Farion

So, essentially, he was going to Q 7 conduct the review and simply report back to you? 8 Right. Α 9 If I could turn your attention to 105320. 0 Okay. 09:23 10 This is a memorandum dated March 15th, 1990, it's 11 from Constable Farion, to Joseph Penkala, chief of 12 police, to your attention. It reads: 13 "As per the request by Deputy 14 Chief Montague I have reviewed the Gail 09:23 15 Miller Murder File and attached are the 16 answers to the questions posed by Mr. 17 Eugene Williams, Department of Justice The notebooks of former 18 Canada. 19 Inspector Parker were located and 09:23 20 checked by myself and you and they 21 contain no further information 22 pertaining to Linda Lillian Fisher's 23 statement of August 28th, 1990. 24 Therefore, the responses I have provided 09:23 25 are based on all the documented

1 information contained in the file which 2 I was given to review." 3 So I understand this to be Constable Farion's 4 report to you. Do you have any recollection of 5 being involved in locating or reviewing Parker's 09:24 notebooks? 6 7 I can recall, at some point, trying to locate a Α 8 number of notebooks from retired members, and 9 retired Staff Sergeant Parker's notebooks likely 09:24 10 would have been one of them, and I -- my 11 recollection is that in this particular case, 12 depending where the notebooks were, it may have 13 been necessary for me to access them, because of 14 the -- where they were stored, as they were not a 09:24 15 common area where all the members had access to, 16 and so that would have been one of the reasons I 17 would have been involved with Farion in reviewing 18 those. 19 0 All right. I take it that you would have read the 09:25 20 responses that Constable Farion prepared in 21 response to Mr. Williams' letter? 22 Α Yes. 23 0 And, essentially, would you have reviewed them to 24 ensure that they adequately addressed the 09:25 25 questions posed? 	1	А	That would be one purpose. The other one was to	
2			make sure that we had answered all the all his	
3			questions, or at least had given an explanation to	
	4		the questions that Mr. Williams had answered or	
09:25	5		asked in his letter.	
	6	Q	All right. And would this information, then, have	
	7		been forwarded by you on to Deputy Chief Montague?	
	8	А	It would have gone up to his office, or	
	9		addressed the way it was addressed was to the	
09:25	10		chief, but it would have gone to, in the	
	11		administration, and eventually to Montague.	
	12	Q	All right. If we could see document 155226. This

	21		The statement taken from Linda

Ken Wagner is now a Deputy 4 Chief with this Department." 5 So this letter indicates to Mr. Williams that 09:26 there was no follow-up to Linda Fisher's 1980 6 7 statement done by Ken Wagner, and that would have 8 been the conclusion reached as a result of 9 reviewing Parker's notebooks? 09:27 10 Α Umm, partially from maybe reviewing his notebooks, 11 but possibly from reviewing the file. 12 Q All right. And the letter makes reference to the 13 fact that you had not been able to contact Parker; 14 do you recall what kind of efforts were made to contact Parker at that time? 09:27 15 16 I don't recall specific requests, but I would А 17 suggest that he was retired, and he had been living in Saskatoon, but I believe there was a 18 19 period of time there where he was out of the city, 09:27 20 and I believe there was some health issues that he 21 was dealing with with his wife, and so I'm not too 22 sure whether it was basically making a phone call 23 or somebody going over to his residence, but I do 24 know that, at that time, they weren't able to 09:28 25 locate him.

	1	Q Okay. I'm just going to turn your attention	
2 3 4			briefly to the responses that were provided to Mr.
			Williams, just so we have some context of what
			kind of information was given at this time. I'm
09:28	5		looking at 155226, page 3. In response to the
	6		first question:
	7		"Did the Saskatoon Police
	8		Force interview Linda Fisher during the
	9		murder investigation of Gail Miller, or
09:28	10		at anytime thereafter in relation to
	11		Ms. Miller's Death?"
	12		The answer is:
	13		"There is no documented
	14	information to indicate that Linda	
09:28	15 Fisher was interviewed <u>during</u> this		Fisher was interviewed <u>during</u> this
	16		investigation; however, a statement was
	17		taken from her on August 28, 1980 by
	18		then, Inspector K. Wagner, in relation
	19 to this file."		to this file."
09:28	20		Question number 2:
	21		"If so, what information did
	22		Ms. Fisher provide?"
	23		The answer is simply a summary of the information
	24		that was contained in Mrs. Fisher's statement.
09:29	25	25 Turn to question 3:

Page 33843 : 1 "Can it be determined whether 2 Sidney Wilson, or anyone else, contacted 3 the Saskatoon Police Force to advise 4 that Larry Fisher was the true killer of 5 Gail Miller?" 09:29 6 The response is: 7 "There is no documented information in 8 the file to indicate that a Sydney 9 Wilson or anyone else contacted our 09:29 10 department to advise that Larry Fisher was responsible for this homicide. 11 The 12 only reference to a Larry Fisher concerns a brief interview done with him 13 14 by Detective McCorriston at 6:49 a.m. on 09:29 15 February 5, 1969. Larry Fisher was 16 checked while on his way to work and 17 provided his address as 334 Avenue O South, Saskatoon." 18 19 And I'll just pause there for a minute. Ιt 09:29 20 appears, at this time, what you were being asked 21 for by Mr. Williams primarily was to review the 22 actual Gail Miller murder file and determine any 23 information relating to Larry Fisher within that 24 particular file? 09:30 25 Α Yes.

2		А	That would be correct, yes.	
	3	Q	Okay. And at this time, at least, Mr. Williams'

	8	А	Not from his letter, no.	
	9	Q	No? All right. Now if I could turn you to

	11		your information, this document is an

1 Pearson. And the manner in which Mr. Pearson 2 0 All right. 3 describes the meeting; does that fit with your recollection of the meeting? 4 5 Α Yes. 09:32 6 And the purpose of it? Q 7 Yes. Α Can you recall if, at this time, there was a 8 0 9 request made of the police to conduct a search for 09:32 10 any police records regarding Larry Fisher? I don't recall any specific requests in that 11 Α regards at that time. 12 13 0 If I could turn to page 9 of this document, and 14 paragraph 4, Mr. Pearson writes: 09:33 15 "... ongoing review is being made of the 16 Saskatoon City Police file in the event 17 there is additional information which 18 may assist in providing answers to the 19 suspicion that Larry Fisher is 09:33 20 responsible for the death of Gail 21 Miller." 22 Mr. Pearson, I take it, was attending at the 23 police station on occasion to review the file? 24 Α We were in the process, if this is from March of 09:33 25 that year, we were in a process of indexing the Meyer CompuCourt Reporting =

	1	Gail Miller murder investigation file which had			
	2	been stored in our vault at the police station			
	3		for, obviously, a large number of years. It had		
	4		never been, I guess, processed or indexed up to		
09:34	5		this particular date. And what I mean by that is		
	6		that there were a number of names that would have		
	7		been in that file that would have never appeared		
	8		on our in our criminal records index cards,		
	9		because they were either witnesses or so one of		
09:34	10		the purposes, when we had this request from Mr.		
	11		Williams, was to index the file in order so it was		
12 easier for Mr. William			easier for Mr. Williams or Sergeant Pearson to be

	17		process of doing at that particular time, as well		
	18		as following up on any requests that would have		
	19		come in regarding information.		
09:35 20		Q	All right. And I think omitted to give you the		
	21		date of this investigation report, but it is from		
	22		April of 1990, so it would appear that time frame		
	23		fits?		
	24	А	Right, we would have been well under way on

1	Q Okay. So I take it, then, when Mr. Pearson		
2	×	started to review the file, it existed in an	
3	_	unorganized state?	
4	A	I would say that it was unorganized in the fact	
<i>0</i> 9:35 5		that, if you were looking for a particular report,	
6		you had no idea where it was in the	
7		relationship to that file. There was they	
8		weren't put in any kind of, what do I say,	
9		particular order.	
<i>0</i> 9:35 10	Q	All right. And you were in the process of	
11		indexing it; is that something that you oversaw?	
12	А	I had directed, part of it was through, I guess	
13		with Farion, but also with one of the civilian	
14		clerks, Myrna Gibson, and their task was to	
<i>09:36</i> 15		organize the file and put it in some semblance of	
16		order, along with the names, but divided into	
17		investigation reports, ident reports, the	
18		obviously the original occurrence, but statements	
19	and anything that was miscellaneous, could be		
<i>09:36</i> 20	36 20 investigators notes, etcetera. I think, whe		
21		ended up at the end of the process, it was six	
22		binders of documented matters related to the	
23		Miller investigation and one volume that was	
24		related to the indexing itself.	
<i>0</i> 9:36 25	Q And I take it that the instructions were that

Nothing was omitted, --09:36 Q 6 No. Α 7 -- left out? Q 8 If it was -- if it didn't fall into, say, an Α 9 investigation category or into something like 09:37 10 that, it was put in the miscellaneous binder, or I shouldn't say it's the miscellaneous binder but 11 12 that's -- it would be put into that sixth binder, 13 I guess, that would include the investigator's 14 notes, etcetera. 09:37 15 If I could turn your attention to document 0 Okay. 16 This is a March 26th, 1990 letter from 105648. 17 Eugene Williams to Deputy Chief Montague, it 18 reads: 19 "Thank you for your letter of 09:37 20 March 22, 1990 and its enclosed 21 The responses fully attachment. 22 answered my previous request. Page 33857 : 1 names of four Saskatoon rape victims, 2 allegedly assaulted by Larry Fisher. This information did not accord with the 3 information we had earlier received from 4 5 the R.C.M.P. and the Saskatoon City 09:47 Police, who advised us that there were 6 7 not any incidents of rape attributed to 8 Larry Fisher, which occurred in 9 Saskatoon." 09:47 10 The memorandum goes on to list the four Saskatoon 11 victims of Larry Fisher. 12 Do you recall if any request 13 was made of you to look for any incidents of rape 14 attributed to Larry Fisher during this period of time? 09:47 15 I don't recall if we were specifically asked for 16 А 17 that information. I think the initial reference 18 we've already covered in that one document was to 19 review to see if we, what information I think we 09:48 20 had on file on Larry Fisher, but I don't recall 21 being asked specifically for that. 22 All right. It's possible that Mr. Williams asked Q 23 somebody else within the police department to make 24 those inquiries? 09:48 25 It's possible. I just don't maybe recall it, but Α

_____ Meyer CompuCourt Reporting =

Page 33858 : 1 it's possible he could have, yes. 2 0 If we could turn to page 2, the memorandum 3 continues: "After speaking with Mr. Wolch, I asked 4 5 Sergeant Pearson to search the Saskatoon 09:48 City Police files to determine whether 6 7 Larry Earl Fisher was convicted, as 8 alleged of the rapes and indecent 9 assaults of the victims noted above. Ιf 09:49 10 there was a link, I requested that he 11 send occurrence reports and witness 12 statements, where available, which 13 relate to the offences. He agreed to do 14 so. 09:49 15 In a later conversation that 16 day, Sgt. Pearson noted that the 17 convictions registered in Regina 18 apparently occurred in Saskatoon. He 19 will redouble his efforts to locate the 09:49 20 files and provide the materials I 21 requested." 22 So it appears from this document at least, 23 Mr. Quinn, that in July, 1990, the names of Larry 24 Fisher's four Saskatoon victims were learned. Do 09:50 25 you recall in March of 1990 whether any of the = Meyer CompuCourt Reporting =

	1		names of Larry Fisher's rape victims were known
	2		or discussed or mentioned to you at least?
	3	А	I don't believe that we my recollection is that
	4		we didn't have that information. I think when the
09:50	5		initial inquiry had been done on the questions
	6		related to Fisher, there was no information on Mr.
	7		Fisher in our Central Records and there was
	8		nothing, so that information not being there, I
	9		would be unable to cross-reference it with
09:50	10		anything else that was possibly in our files.
	11	Q	So at some point you did conduct a search to see
	12		if Larry Fisher was in your records?
	13	А	I believe that was done when it could have been
	14		done when Farion was doing his initial inquiry
09:51	15		back in March of that year related to the
	16		questions that Mr. Williams asked about Fisher.
	17	Q	All right. I'll just draw your attention to a few
	18		more documents and then question I'll have a
	19		few questions for you. I'm looking at 056743,
09:51	20		page 42. This is Mr. Pearson's typed notes again,
	21		July 4th, 1990:
	22		"Mr. Williams called wanting
	23		to confirm if Saskatoon City Police had
	24		any information on convictions of Fisher
09:51	25		in Saskatoon in 1968 to 1970. It was

Page 33860 · 1 originally believed these were Regina offences but is now believed Fisher went 2 3 to court in Regina and the offences actually took place in Saskatoon. 4 5 I called Saskatoon Provincial 09:51 Court, Bob Taylor, and also Regina 6 7 Provincial Court, Shirley Newels. Ιt was determined that QB Court held 8 9 records in Regina. I called Maggie 09:52 10 Pelletier, Regina QB, who confirmed she had conviction records of Fisher on the 11 12 following dates." 13 And the four Saskatoon victims, (V1)--- (V1)-, (V2)----- (V2)-----, (V3) (V3)----- and 14 15 (V5) - - (V5) - - -. 09:52 If I could then turn you to 16 17 page 45 of that same document, and I believe it 18 has been established that this date should be 19 July 13th of 1990, I'm looking at paragraph 200: 09:52 20 "Mr. Williams and myself attended the 21 Saskatoon City Police and met with 22 S/Sgt. Ron Bertrand and obtained a copy 23 of the 1968 offence file involving 24 Fisher. We were trying to determine if 09:52 25 his M.O. (weapon) is consistent with any

Simpson for a few 4 minutes and updated him in a very 5 general way as to what was happening. 09:53 Mr. Williams and I also attempted to get 6 7 a locate on Melnyk and Lapchuk. 8 Unsuccessful at this time." 9 So it appears that Mr. Pearson and Mr. Williams 09:53 10 have come back to the police at this time to 11 request that an additional search be conducted. 12 Were you part of that at all? 13 Α I don't know if I was part of it. I recall when 14 the names were supplied to us that it was likely 09:53 15 information that we hadn't had prior to work off 16 of and I recall that there was a file located 17 during that time, but I can't recall which 18 particular file it was that was found in our 19 records. 09:53 20 All right. And who was Staff Sergeant Ron 0 21 Bertrand? 22 He was a staff sergeant, or a member that was А 23 assigned in charge of the plain-clothes detective 24 division at the time. 09:54 25 Q And is there any reason why Mr. Pearson would have

_____ Meyer CompuCourt Reporting =

Page 33862 1 met with him? 2 Α It's quite possible that maybe I wasn't available 3 or he had contacted me and I had asked Bertram to 4 look after it. Maybe Farion wasn't available. 5 Q All right. I would like to turn your attention 09:54 We know that on February 27th of 6 now to 1991. 7 1991 David Milgaard's first Section 690 application to the Federal Minister of Justice was 8 9 denied and that by letter dated August 14th, 1991 09:54 10 a second application to the Minister of Justice 11 was made. We'll get into some documents and some 12 details a little bit later, but are you able from 13 memory to give us an idea of how you were involved with the Milgaard matter in 1991? 14 09:55 15 I was still assigned to the inspector position at Α CID and so my, I guess, position as being a 16 17 contact person hadn't changed any and when the 18 issues of, I believe, the files being missed at 19 that time came forward, I guess I was designated 09:55 20 at that time to basically undertake an 21 investigation or an inquiry into where these files 22 were or whether we still had them in our 23 possession or what happened to them, and that 24 would have come down from likely Deputy Chief 09:56 25 Montague, or my immediate, the superintendent who

was my immediate boss. 1 2 0 All right. If we could look at 000184, again, you 3 may not have seen this document, it just provides 4 some context, so I'll read from a portion of it. 5 This is the letter dated August 14th, 1991, it's written by Hersh Wolch, David Milgaard's counsel, 6 7 and it's addressed to Kim Campbell. Starting at 8 the third paragraph: 9 "When we first made our application the

Whereas we suggested there 16 was a distinct pattern and although the 17 similarities were never placed before 18 you, we accepted that we were at that 19 time at a dead end.

	3		So it would appear from this letter that there is
	4		now some question being raised of whether there
09:57	5		are reports available on Larry Fisher's offences?
	6	A	Right, yes.
	7	Q	And that I assume is what prompted your
	8		involvement again in August of 1991?
	9	А	I believe that was part of it. There was there
09:57	10		was a lot of material or articles in the newspaper
	11		at that particular time and obviously it brought
	12		concern to the department because of the issues it
	13		raised and so that prompted, I think, part of the
	14		need to do a better, or a more thorough search or
09:58	15		another investigation into where these files were.
	16	Q	All right. If I could turn you to document
	17		333576. This is a memorandum to file prepared by
	18		Eugene Williams, it's dated August 20th, 1991, it
	19		reads:

Quinn will 18 initiate a search of their record system 19 and let me know what he can come up 09:59 20 with." 21 And the date of this entry is August 22nd of 22 1991. 	3		search for any possible file material on
	4		these investigations."
10:00	5		Can you recall briefly what you did to follow
	6		through on these requests?
	7	А	Okay, on the request that was identified on the
	8		22nd of August, I had contacted the crime analyst
	9		who at that time now was Constable Lorne Gelowitz
10:00	10		and asked him if he could provide those statistics
	11		for me and that was his task; however, it turned
	12		out that it required him to go through all the
	13		microfiche tapes that were on file because they
	14		were unable to do a search on the computer system
10:01	15		at the time to get those statistics, so he
	16		manually had to go through all these files,
	17		microfiche files to get the occurrence numbers.
	18	Q	He couldn't search at that time by offence type;
	19		is that what you are saying?
10:01	20	А	Right, so he was tasked with that, and I believe
	21		he had a number of other people helping him in
	22		that because it was quite an undertaking, and I
	23		believe there was also a request put in with,
	24		through Gelowitz to also check for these names
10:01	25		that were supplied in paragraph 2 of that request.

	1		There was other civilian members involved in that

	3		couple of the girls that worked, or ladies that
	4		worked in the Central Records department.
10:02	5	Q	Okay. It appears to me that these were two
	6		separate tasks. Is that
	7	А	They were, I think they came in at the same time,
	8		so it would be it could have been, they could
	9		have been ongoing at that particular time. It was
10:02	10		kind of, I think it's kind of, it could be my
	11		memory, it would have been something that was kind
	12		of an ongoing from a previous search that we maybe
	13		had done because obviously there had been a file
	14		located from previous notes and turned over to
10:02	15		Sergeant Pearson, so the search would have been
	16		done I think prior onto those names because we
	17		already had them.
	18	Q	In July of 1990?
	19	А	Right. I think we were being asked to go back and
10:03	20		check them again.
	21	Q	Okay. Are you aware whether an extensive search
	22		was conducted in July of 1990?
	23	А	I would think it had been fairly thorough, but I
	24		guess knowing now, or as time progressed, what
10:03	25		information we did not have available on our
			Meyer CompuCourt Reporting

Page 33868 : 1 system would have kind of hampered our ability to, 2 just by going to our computer system, because 3 knowing now some of those names were not on the 4 computer system. 5 Q All right. And we'll come to this in a minute, 10:03 6 but it appears in 1991 you are starting to look at 7 microfilm. Do you know if that was done in 1990 8 or was requested to be done? 9 I don't recall that. Α 10:03 10 All right. If we could turn to 012700, this is a 0 11 report of August 28th, 1991, it's prepared by 12 Constable Gelowitz, and it's addressed to the 13 chief of police to your attention. Perhaps I'll 14 read this document, it's brief: 10:04 15 "Analysis of sex crimes for 16 1968-1970. After having obtained the 17 complete list of occurrences relating to 18 rape and/or sexual assaults, I have 19 examined each file with regards to the 10:04 20 parameters that you provided to me and 21 would respectfully like to report the 22 following:" 23 And then by year he reports the total number of 24 reported cases of rape and also of sexual 10:04 25 assault. He continues:

Page 33869 1 "Of all the incidents that 2 were examined regarding m.o. and if a 3 weapon was used, it was ascertained that in all occurrences 4 were identified in 4 5 which a weapon (knife) was observed by 10:05 the victim." 6 And then he identifies those four occurrences 7 involving a weapon. If we turn to page 2, the 8 9 letter reads: "It should be also noted that 10:05 10 3 files were found to be missing from 11 12 the microfiche." 13 He lists those three files and it appears that number 10910-68 refers to the (V2)---- file. 14 Continuing on with the letter: 10:05 15 16 "Enclosed is a brief summary 17 of each report that was received by our 18 department. 19 After analyzing all of the 10:05 20 above-mentioned occurrences, there was 21 no suspect mentioned as being 22 responsible for more than one offence, 23 nor was there any clear trend or method of attack evident in the files 24 10:05 25 examined."

Page 33870 : 1 You would have instructed Constable Gelowitz on 2 how to carry out this search or would he have 3 determined that on his own? I think he determined that on his own what was 4 Α 5 required. I gave him the information that we 10:06 6 required for the response and the only place that 7 that information would have been available would have been from the Central Records system itself 8 9 or the microfiche which was on, in a storage area 10:06 10 in the police service building. I'm just wondering if you can help me understand 11 Q 12 the first paragraph of this letter, I'm back on 13 page 1. Constable Gelowitz writes: 14 "After having obtained the complete list 10:06 15 of occurrences relating to rape and/or 16 sexual assaults..." 17 Does that mean that he would have gone through all of the microfilm for '68, '69, '70 to 18 19 identify occurrences of rape and sexual assault? 10:06 20 That was my understanding at the time. А 21 All right. And then he says: Q 22 "I have examined each file with regards 23 to the parameters that you provided to 24 me..." 10:07 25 Right, which were identified as the indication of Α

Normal department practice 16 is for the basic information on a case 17 to be retained indefinitely on computer, 18 with the details preserved on 19 microfiche. 10:09 20 Four Saskatoon police 21 inspectors are now involved in trying to 22 track down the missing files, the police 23 source said. 2 The suspicion voiced by Mr. 3 Milgaard's supporters is that after Mr. Fisher did surface -- he was caught 4 5 while carrying out one of two rapes in 10:09 6 Winnipeg -- the Saskatoon investigators 7 realized that the pattern of his crimes 8 was unusually similar to the Miller 9 slaying, and that efforts were made to 10:09 10 keep the publicity to a minimum. In Mr. Fisher's four Saskatoon 11 12 attacks, the Globe reported last week, 13 not only were his victims never notified 14 of his arrest and conviction, but his 10:10 15 name never appeared in the rape-victims' 16 files at all. There is thus no 17 indication of what he may have said to 18 investigators when they questioned him." 19 Do you recall being made aware of this article at 10:10 20 the time it came out? 21 I don't particularly recall this particular Α 22 newspaper article or the one previous. I know 23 there was a number of articles that were appearing 24 in the daily newspapers in Canada. At some point did you become aware that there was, 10:10 25 Q

Page 33874 : 1 I guess, a Saskatchewan police source who was 2 alleging that Saskatoon police files had been 3 tampered with? 4 Α We felt there was somebody that was giving, or passing that information on. 5 10:10 6 To the press? Q 7 To the press or to possibly Mr. Milgaard's people. Α All right. If I could turn you to 327551, this is 8 0 9 a news release from the Government of 10:11 10 Saskatchewan, it's dated August 29th, 1991: "Saskatchewan Justice Milgaard and Fisher files 11 12 intact and secure." It reads: 13 "In light of controversy 14 regarding police files in the David 10:11 15 Milgaard and Larry Fisher cases, Justice 16 Minister Gary Lane today confirmed that 17 the Public Prosecutions Division of 18 Saskatchewan Justice is in possession of 19 its original files concerning these 10:11 20 cases. 21 To the knowledge of department 22 officials they are in the same form and 23 as complete as they were when the 24 prosecutions were carried out." 10:11 25 Do you recall having any contact with officials = Meyer CompuCourt Reporting =

	2	Q	Okay. So it could be that what you sent to her at
	3		this time is what the Saskatoon police had managed
	4		to find in terms of files on Larry Fisher or his
10:13	5		rape victims?
	,	_	

Right, and I quess going back to another question 6 Α 7 that you had asked me a while back related to the microfiche, when it had been searched, when Staff 8 9 Sergeant Bertrand had turned that file over to 10:14 10 Rick Pearson in 1990, he would have had to have obtained that file off the microfiche because that 11 12 was the only place it would have been available, 13 so we had gone through -- there had been some search done of the microfiche. 14

10:1415QAnd you are able to say that because -- we'll get16to that, but you continued on with your search in171991 and you came to that particular conclusion?18ARight. I think I just want to clarify, you asked19me if we had searched it back in 1990.

10:14 20 **Q** Yes.

10:14 25

	3		"Despite press reports alleging that
	4		Saskatoon police files were lost,
10:16	5		recently, the police told me in 1990
	6		that the files were not available. I
	7		relayed that information to Hersh Wolch
	8		shortly after I had received it. The
	9		Centurion Ministries report which
10:16	10		predates Milgaard's second application
	11		also notes that the 1968 files
	12		concerning Fisher's attacks in Saskatoon
	13		were not available. In my dealings with
	14		Saskatoon City Police, I have found no
10:16	15		evidence of a cover-up. I saw all
	16		relevant, available files that I
	17		requested. My correspondence with the
	18		Saskatoon police department is
	19		available, if necessary."
10:17	20		Are you able to comment at all on what Eugene
	21		Williams states in his memorandum?
	22	А	I guess my comment there would be that, going back
	23		to when I made reference to the file that Bertrand
	24		had turned over to him, that if the search had
10:17	25		been conducted on the names that had been supplied
			Meyer CompuCourt Reporting

Page 33879 1 it was possible, back then, that those files 2 wouldn't have been located. 3 Sorry, would have been? 0 Would not have been. 4 Α 5 Would not have been? 10:17 Q Right. So what he is saying in that letter is 6 Α 7 correct, that they were not available or they were 8 not there in 1990, and he was likely aware of 9 that, that he had passed that information on to 10:17 10 Mr. Williams. All right. Umm, he makes the statement that: 11 Q 12 "The 1968 assaults to which Fisher had 13 pleaded guilty had not been microfilmed 14 before they were destroyed." 10:18 15 Had the police by this time, by September 4th of 16 1991, already concluded that files missing had 17 been destroyed before being microfilmed? 18 Α I think it was safe to state that all those files, 19 irrespective of these particular files, all those 10:18 20 files back in that period of time had been 21 destroyed. That was a process that was done once 22 they were microfilmed. 23 Q So the paper copy would have been destroyed? 24 Α The paper copies would have been gone. 10:18 25 But they would have existed on microfilm? Q

	11	A	Yeah.
	12	Q	And it might assist us and provide some context.

Page 33885 : 1 it's 000263, and I'm looking at page 13. Umm, I 2 just want to try and get an idea of what exactly 3 was found in 1991 because it will provide the context for all of our other discussions. 4 5 "A search of the computer records by the 10:46 6 civilian manager in charge of Saskatoon 7 Police records failed to reveal the 8 names of Larry Earl Fisher, or the name 9 of the complainant in ... 10173/68 or 10:46 10 the name of the complainant in ... 101435 ..." 11 12 Now we will go back and get some detail on how 13 the Saskatoon Police Service maintained their 14 records and how their record-keeping changed over 10:46 15 the years, but at least we know from here that in 16 1991 there would have been a search of the 17 computer index done; is that correct? 18 That's correct. Α 19 0 You would have plugged in the names of Larry 10:46 20 Fisher, the names of (V1)-, (V2)----, (V3)----21 and (V5) ---, the four victims that had been 22 identified to you? 23 Α Yes. 24 0 Okay. And it appears, from this report, that what 10:47 25 was found by doing a search of the computer index

_____ Meyer CompuCourt Reporting =

	1		Vol 164 - Thursday, June 15th, 2006 Page 33886
	1		was that there was no record of a Larry Fisher?
	2	А	That's correct.
	3	Q	Okay. And that would mean that there was never
	4		any card index created with Larry Fisher's name on
10:47	5		it?
	6	А	Yes.
	7	Q	All right. Then we also know that, by doing a
	8		computer search, there was no record of the
	9		complaint in occurrence number 10173 of '68, and
10:47	10		that is the (V1)- file, so if somebody had entered
	11		the (V1)- name into the computer they wouldn't
	12		have got a hit; is that what this report is
	13		telling us?
	14	А	Yes, if you had entered the name, it wouldn't have
10:48	15		come up.
	16	Q	All right. And similarly with occurrence number
	17		also 11435 of '68, (V3), if you ran that
	18		name by a computer search nothing would come up?
	19	А	Nothing would have been shown.
10:48	20	Q	All right. So what we do know from this report is
	21		that if you did a search of the computer you
	22		wouldn't get any information on Larry Fisher, on
	23		(V1)- or (V3), but this report indicates:
	24		" the search did disclose the names
10:48	25		of the complainants in Occ. No. 10910/68

	2		And those occurrence numbers refer to the
	3		(V2) and (V5) matter respectively?
	4	А	Yes.
10:48	5	Q	So it would appear, for some reason, that there
	6		would have been a card index with (V5)' name or
	7		the occurrence number created, and that's how you
	8		were able to get a hit when you searched
	9	А	That's
10:48	10	Q	on the computer?
	11	А	That's correct.
	12	Q	And similarly for (V2) as well?
	13	А	Yes.
	14	Q	All right. Now we know and I'm looking at page
10:49	15		14 of the Laing report that there was actually
	16		some file material found regarding the (V1)-
	17		occurrence. I'm looking at paragraph number 1.
	18		So even though, when you searched the computer,
	19		there was no record of (V1)-, I'm assuming that
10:49	20		somehow, when you did the extensive microfilm
	21		search, you found a partial record of the (V1)-
	22		complaint?
	23	А	That's correct.
	24	Q	All right. If we go to paragraph 2, which relates
10:49	25		to (V5), first of all she would have that

	1		would have shown up on the computer search?
	2	А	Yes.
	3	Q	So then you would be able to easily obtain that
	4		file from microfilm; is that correct?
10:50	5	А	Yes.
	6	Q	Paragraph 3 refers to (V2), and again, this
	7		is one occurrence that, if you searched the
	8		computer, her name or the occurrence number would
	9		come up?
10:50	10	А	Yes, that's correct.
	11	Q	Okay. And this is a little different, I
	12		understand, because when you searched on the
	13		computer what you found was a notation saying:
	14		"See Supplementary List for this
10:50	15		occurrence"?
	16	А	That's correct.
	17	Q	Okay. So it might not be as easy to find that
	18		file on microfilm?
	19	А	Umm, it should have been.
10:50	20	Q	Okay. By going to the supplementary
	21	А	By going to the supplementary
	22	Q	microfiche?
	23	А	Right.
	24	Q	Okay. And then, lastly, paragraph 4 indicates
10:51	25		that there was no record at all of (V3)

	[——————————————————————————————————————
	1		located on microfilm, and the previous paragraph
	2		tells us, as well, that there was no hit when you
	3		searched the computer for (V3)?
	4	A	That's correct.
10:51	5	Q	All right. We'll later come back to this report,
	6		but if I could just turn you back to some earlier
	7		documents, and we'll start proceeding in a
	8		chronological fashion here again.
	9		If I could turn you back to the
10:51	10		September 4th, 1991 memorandum prepared by Eugene
	11		Williams, it is 333594. Here, Mr. Williams
	12		states:
	13		"The 1968 assaults to which Fisher had
	14		pleaded guilty had not been microfilmed
10:52	15		before they were destroyed."
	16		Now can we assume that this statement must be
	17		incorrect, for whatever reason, simply because
	18		you later discovered the (V1)-, or a portion of
	19		the (V1)- file on microfilm, which means that it
10:52	20		obviously wasn't destroyed before it was
	21		microfilmed?
	22	A	I guess it's not accurate with what we, I guess
	23		with what I know now, but I'm not sure on the
	24		context that he when he wrote that letter
10:52	25	Q	Right?
			Meyer CompuCourt Reporting

	1	А	whether, the way it's worded, whether he did
	2	Q	Yes.
	3	А	He means what he says.
	4	Q	Right. All right. So you are not aware of what
10:52	5		particular information was provided to Mr.
	6		Williams that would lead him to make this
	7		conclusion?
	8	А	No, I'm not, no. I don't I wasn't, I don't
	9		think I was present when that information was
10:53	10		given to Mr. Williams, so I'm not sure how it was
	11		interpreted by him.
	12	Q	Could I turn you next to document 333596, and I'm
	13		looking at page 2. This is a September 6th, 1991
	14		news release by the Saskatoon Police Department
10:53	15		and it reads:
	16		"During 1990, a
	17		representative of the Federal Justice
	18		Department requested access to several
	19		Saskatoon City Police files. The files
10:53	20		concerned were very old and only one
	21		from 1970 was located at the time. This
	22		file remains in the possession of the
	23		Saskatoon City Police.
	24		We recently renewed our search
10:53	25		for the remaining files and have since
			Meyer CompuCourt Reporting
		C	ertified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Page 33891 1 located further material which is being 2 provided to the Federal Department of 3 Justice. A search is continuing for the remainder of the files. 4 5 Files of the nature requested 10:54 are required to be maintained for only 6 7 10 years, but having been reduced to 8 microfilm, many are available beyond 9 that time limit. 10:54 10 We have no reason to suspect 11 that any files have been destroyed or 12 otherwise tampered with and there is no 13 internal investigation of any wrongdoing 14 underway. 10:54 15 Because there has been a new 16 application for a review, the Federal 17 Department of Justice has requested that 18 we not publicly discuss details of the 19 files." 10:54 20 My question is whether you had any part in 21 preparing this news release? 22 No, I did not. Α 23 0 All right. And the news release indicates that in 24 1990 a 1970 file was provided to the federal 10:54 25 Department of Justice, and assuming this = Meyer CompuCourt Reporting =

	1		information to be accurate, this must then
	2		indicate the (V5) file, which is the 1970 rape,
	3		it's occurrence number 1183 of '70?
	4	А	That would be the file, I would believe, yes.
10:55	5	Q	If we could have document 105189. Can you tell me
	6		what this document appears to be?
	7	А	That is an inter-department memo form that was
	8		used by the police service during that period of
	9		time, in 1991, and it's a memo from between the
10:55	10		two of the ladies that worked in our central
	11		records department. I recognize the names, their
	12		last names are not on there, but I I know who
	13		they are. I don't know if you want me to identify
	14		them or not?
10:56	15	Q	Sure, you can identify them?
	16	А	The memo is from a lady by the name of Elaine
	17		Kanoby, and I believe the spelling was
	18		K-A-N-O-B-Y, and it was to another supervisor
	19		they were both supervisors in central records at
10:56	20		that time Marie Unger, and its subject is
	21		missing missing files. And, basically, the
	22		memo is from Elaine identifying to Marie what she
	23		had done during her shift, or what she had done
	24		reviewing or looking for the files.
10:56	25	Q	All right. So are we able to take from this
			Meyer CompuCourt Reporting

Page 33893 : 1 document that, at least as of September 6th of 2 1991, this would show that a microfiche search is 3 under way by the Saskatoon City Police --4 Right. Α 5 -- to find information about these files? 10:56 Q 6 That's correct. Α 7 And I take it that you were, in part, overseeing Q 8 that search? 9 Α It was kind of two or three things going on Yes. 10:57 10 at the same time there in relationship to these, the microfilm or the microfiche at the time. 11 12 Q All right. If we could have 333600. 	3	I told the Mayor that I had
	4	received exceptional hospitality by the
10:58	5	police department and full cooperation
	6	with respect to my requests for access
	7	to their files. I outlined to him the
	8	background of my request, the steps
	9	taken to fulfil that request and the
10:58	10	reasons why I did not insist that a full
	11	search of each microfilm tape be
	12	conducted at the time of my initial
	13	request. I had obtained information
	14	from other sources which satisfied my
10:58	15	need for information and enabled an

	17	been raised by the applicant.
	18	Upon the receipt of Mr.

	21	I understand you wouldn't have any knowledge of
	22	this particular memorandum, but it appears to
	23	suggest that in 1990 an extensive search of
	24	microfilm was not requested by Mr. Williams?

	2		those microfilms from beginning to end.
	3	Q	All right. I think, earlier in your testimony,
	4		you indicated that that type of search might have
10:59	5		been done given that, in 1990, it appears that
	6		Mr. Pearson received at least one file that you
	7		thought came off the microfiche, and I'm wondering
	8		if the explanation for that could simply be that,
	9		in 1990 you were asked to do a computer search,
10:59	10		and if you had done that computer search what you
	11		would have come up with would have been a hit for
	12		(V5) (V5)?
	13	А	Right.
	14	Q	And that was a 1970 rape. You would you could
10:59	15		have then gone to the microfilm quite easily and
	16		provided that report?
	17	А	Yes.
	18	Q	All right. If we could go to 016097. This is a

Now I'm just wondering if you 23 have any recollection, at all, of being asked to 24 search for records in connection with a 11:03 25 complainant named (V4)---?

Page 33898 : 1 I don't recall, specifically, that particular Α 2 However, after reviewing the, some of the name. documents here, there was -- the name was there, 3 4 and there was obviously a request to search for 5 her, information related to her, and that's also 11:03 identified in that previous memo that I had 6 7 explained from the two central records 8 supervisors. 9 Umm, if we can look at 106110. 	17		"At its regular meeting on

	1	The Board is hereby requesting
	2	the Saskatchewan Police Commission,
	3	under its powers set out in Section 11
	4	of The Police Act, to enquire into the
11:06	5	allegations of tampering with files
	6	which were made on August 29, 1991.
	7	The Board and the A/Chief of
	8	Police remain confident that there has
	9	been no tampering with files and that
11:06	10	nothing improper or suspicious has
	11	occurred. However, to be sure that the
	12	citizens of Saskatoon retain confidence
	13	in their police force, we believe that
	14	an outside investigation is warranted."
11:06	15	And if we turn to the next page, page 3:
	16	"The following is an excerpt
	17	from the Minutes of Meeting of the Board

	23	"A/Chief Montague reported to

	2	Board that it is important to note that
	3	it is the Fisher files that have been
	4	requested, not the Milgaard files. All
11:06	5	of the Milgaard files are intact.
	6	The A/Chief explained that the
	7	paper files of what were requested were
	8	destroyed a number of years ago in the
	9	course of ordinary file management.
11:06	10	However, it was the practice at the time
	11	to microfilm the files before they were
	12	destroyed. He further reported that the
	13	police continue to search for the files
	14	on the microfilm tape. In fact, extra
11:07	15	staff have been assigned to this work
	16	and they are working double shifts.
	17	They are viewing all of the old
	18	microfilm tapes from 1968 to 1972.
	19	There are about 150 of these tapes so
11:07	20	the search will take some time.
	21	The A/Chief reiterated that
	22	there is no evidence, in his opinion, of
	23	tampering with files or any wrong doing.
	24	He specifically requested that the Board

	8		Do you recall having any discussions with Acting
	9		Chief Montague about possibly referring this
11:07	10		matter to the Saskatchewan Board of
	11		Saskatchewan Police Commission?
	12	А	I believe there was some discussion with Deputy
	13		Chief Montague as it related to what we were
	14		finding or hadn't found in relationship to the
11:08	15		search for the files, and also I guess it related
	16		to the publicity that was occurring, and somewhere
	17		in this particular time period there is a memo
	18		that I had sent to Deputy Chief Montague outlining
	19		what we had found during our, for our search for
11:08	20		the files and going through the microfiche and
	21		during that period of time there was one, the
	22		supplementary roll of microfiche for that year, I
	23		believe it was '69, was not there, it was missing,
	24		so there was a concern as to where that particular
11:09	25		roll of microfiche was, so there had been

Page 33903 =

discussion ongoing to the Commission for a separate investigation.

3 I'll ask you a little bit more about 0 All right. that supplementary roll in a moment, but if I 4 5 could just turn you to a November 18th, 1991 11:09 The document is 042831. This is a 6 memorandum. 7 memorandum that was prepared by Mr. Graham, the 8 Executive Director of the Saskatchewan Police 9 Commission, and I understand essentially from this 11:10 10 report Chairman Laing then authored the November, 1991 report? 11

If I can just back up for a minute. I guess prior 13 0 to the Saskatchewan Police Commission becoming 14 11:10 15 involved, you had undertaken efforts to find 16 files. Did that simply continue once the 17 Saskatchewan Police Commission became involved? 18 Α It -- yes, it did continue, but it was under their 19 mandate or under their direction. 11:10 20 All right. Just reading from page 1 of this 0

document:

"This particular

investigation was commenced after considerable local and nation wide publicity concerning David Milgaard and

Page 33904 : 1 attempts made by his lawyers to have his 2 conviction of murder retried. There has 3 been a well orchestrated media campaign to keep this matter before the public. 4 5 During this whole affair a 11:11 group called the Centurion Ministries 6 7 followed up on the leg work that the 8 Milgaard group had done and an 9 individual by the name of Larry Earl 11:11 10 Fisher came to light. When Saskatoon Police went back into their files to 11 12 recover files relating to Fisher they 13 ran into gaps in their files. The 14 matter was reported in the press and in 11:11 15 an effort to ensure an outside 16 investigation was carried out the 17 Saskatoon Board of Police Commission 18 passed a minute at a board meeting of 19 September 12th, 1991." 11:11 20 And if we can turn to page 5 of this document, 21 this appears to be a letter dated September 18th, 22 1991 from Bill Graham to Mayor Henry Dayday, it 23 states: 24 "In response to your 11:11 25 Commission's request that the

14 And if I could now turn you to page 8 of this 11:12 15 document, it appears that at some point in 16 September you would have met with Mr. Graham and 17 Mr. Treble, and I'm going to read from portions 18 of Mr. Graham's memorandum here, but do you 19 recall any particulars about your first meeting 11:12 20 with members of the Saskatchewan Police 21 Commission? 22 Α I recall meeting with them. The purpose of the 23 investigation was discussed and I was, I guess,

delegated as their contact person or their liaison person for the purpose of the investigation. At

_____ Meyer CompuCourt Reporting =

Page 33906 : 1 that particular time I believe I was still working 2 in the CID section. 3 All right. Reading from page 8, Mr. Graham's 0 memorandum indicates that: 4 5 "At 9:30 am, September 19, 11:13 1991 Mr. Treble and the executive 6 7 director met with Deputy Chief M. 8 Montague who was acting chief of police 9 after the retirement of Chief Penkala 11:13 10 and prior to Mr. Owen Maguire taking office. 11 12 Montague briefed us on the 13 involvement of the Force in supplying 14 the federal Department of Justice with 11:14 15 files relating to David Milgaard. 16 Mr. Eugene Williams, a lawyer with the 17 department and Sergeant Rick Pearson, 18 Royal Canadian Mounted Police Saskatoon 19 have worked on the Milgaard case. When 11:14 20 the request was made by the Department 21 of Justice for files relating to 22 Milgaard, Chief Penkala had his staff 23 indexed and placed this entire file into 24 ring binders. Subsequently this work 11:14 25 simplified the research work for

Page 33907 = 1 Williams and Pearson. Pearson advises 2 that they have had open-door 3 co-operation with the Saskatoon police on both matters of Milgaard and Fisher. 4 5 Montague advised that he had 11:14 6 assigned Inspector John Quinn to head 7 the search for the Fisher files. He 8 called Quinn into our meeting and 9 advised him that we had access to 11:14 10 anything and everything that we asked This offer has extended after 11 for. 12 Chief Maguire took office." 13 On to page 9: 14 "At 10:10 am, September 19th, 1991, 11:14 15 Quinn, Treble and Graham resumed the 16 briefing. Quinn advised that he had 17 been assigned to locate files relating 18 to Larry Earl Fisher. He advises that 19 files stored in dead storage are on site 11:15 20 and that there was a system of 21 microfilming of hard copy and that to 22 date they had scanned film from 1968 23 through 1971. They had retrieved what 24 appears to be a complete file of a 11:15 25 complaint of rape by one (V5) --

	3		investigation into a rape complaint for
	4		(V1) (V1) Quinn provided us with
11:15	5		complete copies of these files. Copies
	6		had been previously given to Williams."
	7		If I can just stop there for a minute, and if we
	8		could refer briefly to document 330902, this is a
	9		lengthy document and it appears to be the working
11:16	10		file of the Saskatchewan Police Commission?
	11	А	Okay.
	12	Q	And I'll direct your attention to page 150 of that
	13		document. It appears that here we have the
	14		information that the Saskatoon police would have
11:16	15		uncovered to date on Larry Fisher and his
	16		Saskatoon victims, and at page 150 we've simply
	17		got a photocopy of a card here that says:
	18		"See supplementary list for this
	19		occurrence."
11:16	20		Can you tell me what this indicates?
	21	А	On the microfiche, or the rolls of microfiche, if
	22		there was a file that was not in sequential order
	23		or was not available for microfiching at that
	24		time, there would be a card placed in the
11:17	25		microfiching processor and a photograph taken of
			Meyer CompuCourt Reporting

1		it and that would appear on the roll in place of
2		that file. Now, at the end of the microfiching
3		process for that year, every file that did not
4		appear in sequential order would have been placed
11:17 5		on what we refer to as a supplementary roll and
6		that, all those files would have then appeared on
7		that particular roll, or should appear on that
8		roll.
9	Q	So there should have been a supplementary roll for
11:17 10		each year?
11	А	For each year there should have been a
12		supplementary roll of the files that were not in
13		sequential order.
14	Q	And when we reviewed Laing's report outlining the
<i>11:17</i> 15		findings of the police, that report indicated that
16		with respect to $(V2)$, a hit had been received
17		on the computer, but that her file couldn't be
18		located and yet there was a reference to see
19		supplementary list, so can we conclude that this
11:18 20		relates to the (V2) file?
21	А	I would say yes because where her file number
22		should have been, there was this card in that
23		place. I can't tell by looking at this because it
24		doesn't refer to the occurrence number.
11:18 25	Q	Yes.

		A	Knowing the process that was undertaken, I would

	3		place of her file.
	4	Q	All right. And then if I can refer you to page
11:18	5		151, page 151 through to page 160 perhaps I'll
	6		describe what these documents are, but it
	7		appears it appears to me that this would be a
	8		portion of the (V1)- file that was found. If we
	9		look at page 151, this is an investigation report
11:19	10		relating to (V1)-, page 152 is another
	11		investigation report relating to (V1)-, page 153
	12		we have a Saskatoon police exhibit and seized

	14		are a handwritten statement of (V1) (V1)
11:19	15		Could this be the portion of the (V1)- file that
	16		the police found?
	17	A	Yes.
	18	Q	On the microfilm search. And then if we go to
	19		page 161 and the following 53 pages, this appears
11:19	20		to be the full file relating to the 1970 rape of
	21		(V5) $(V5)$ Do you recall that that would
	22		have been provided to Mr. Graham?
	23	А	Yes, it would have been provided to Mr. Graham.
	24	Q	All right. If we can turn back to Mr. Graham's
11:20	25		memorandum, which is 042831, I'm looking at page

	9		And do you recall providing that?
11:21	10	А	Yes, I do.
	11	Q	All right. There's just one other document I
	12		would like to refer you to in Mr. Graham's
	13		memorandum and if we could look at page 39:
	14		"On October 10, 1991, Constable Lorne G.

	16		analyst, and the member in charge of the
	17		actual search of the microfilm gave me a
	18		report on exactly what his involvement
	19		is in this search. Gelowitz is a very
11:21	20		competent constable and certainly I feel
	21		that if the reports were microfilmed he
	22		would be the individual that would find

	3		been provided to you as well, Mr. Quinn?
	4	А	Yes. I recall reviewing Gelowitz's memo. My
11:22	5		recollection is this was a second, this was a
	6		report to Mr. Graham, but there was also another
	7		report that I think Mr. Gelowitz, or Constable
	8		Gelowitz at the time had done for our previous

11:22	10	Q	Right. He prepared two reports, initially
	11	А	Right.
	12	Q	prepared a report relating to rape statistics

	14	А	But there had been another request of him yes,
11:22	15		and he would have provided a similar type of
	16		report.
	17	Q	Okay. And this would be the second report that he
	18		prepared?
	19	А	Right.
11:23	20	Q	And this would relate to what was found by
	21		conducting an extensive search of the microfilm?
	22	А	Yes.
	23	Q	If you'll bear with me for a minute, I'm going to

	3	Having been tasked with co-ordinating a
	4	search for specific files over a defined

	6	as being July, 1968 to December, 1972,
	7	as well as the last two and any

	12	(V1)-, (V2), (V3), (V5)
	13	"The examination of the
	14	microfilm was conducted by myself and

	17	He then provides their names. Onto page, the
	18	next page, which is 41 of the document:

11:24	20	examined which contained 61,600 files.
	21	Of the files which were targeted,
	22	occurrence #68-10173 ((V1)-) was

	3	The initial instructions that

11:24	5	throughout the entire examination of
	6	tapes were:
	7	1) To view every tape within the
1	8	identified parameters to ascertain

1	4	beginning and ending of every tape.
11:25 1	5	3) To document any major discrepancies
1	6	on the tapes that pertain to the
1	7	sequence of filing.
1	8	One area that was not
1	9	identified initially and has since been
11:25 20	0	brought to my attention was the actual
2	1	number of files that were not included
2	2	in the continual sequence of files that
2	3	were examined. I have discussed this

maintained of individual files missing unless a large block of files was missing and/or out of sequence.

If a decision was to be reached with respect to ascertaining the actual number of files missing from the total number of files searched, I believe that it would be essential to clarify whether or not the parameters of the search would be limited to include files out of sequence or files not included on the microfilm at all, as the task would be very labour intensive.

In conclusion, after having conducted the examination of the tapes which were identified as being the most probable of containing the files which we searched for two of four occurrences were not located. The whereabouts of the two files that have not been located would appear to have been included in a supplementary list which was indicated on the microfilm. However, the whereabouts, or actual existence of such a supplementary list has not been

11:28	10	А	For every year that the microfiche was
	11	Q	Was examined.
	12	А	Examined? There was a supplementary role for each
	13		year.
	14	Q	All right. Would it be fair to say that at this
11:28	15		point your involvement in searching for records
	16		pertaining to Larry Fisher or any of his victims
	17		was effectively over?
	18	А	Yes, yes.
	19	Q	And at this time there is we don't yet have the
11:28	20		report of the Saskatchewan Police Commission and I
	21		just want to ask you if as a result of your
	22		involvement in the search, did you come to any
	23		conclusion as to why not all four of those files
	24		could be located?
11:29	25	А	Well, there was, I guess, a number of reasons that

= Page 33918 =

1		had gone through, gone through my mind at the
2		time. First of all, we didn't know that they had
3		never been microfiched because the supplementary
4		roll was missing, but then there was the
11:29 5		possibility that the files, you know, there was
6		that possibility they hadn't been microfilmed and
7		that would have been due to just improper handling
8		in the Central Records portion of record keeping.
9	Q	Could that mean that someone had taken a copy of
11:29 10		the file from Central Records and not returned it?
11	А	It's possible that somebody could have taken that
12		file out for a purpose and it hadn't been brought
13		back. Now, during that time there was a number of
14		different moves within the department and it's
<i>11:30</i> 15		possible that the file could have got lost or
16		misplaced and ended up being in one of the boxes
17		of files that were being purged, which was kind of
18		an ongoing process from one year to the next.
19	Q	All right. As a result of your search, did you
11:30 20		have any view on the allegations that were being
21		made that files were not there because of a
22		cover-up or because of tampering?
23	А	My opinion was that there was no action on the
24		part of any of our members to cover up any portion
11:31 25		of the investigation, whether it be the Fisher
		Meyer CompuCourt Reporting

= Page 33919 =

			C C
	1		investigation or the Milgaard investigation or the
	2		Gail Miller file, and I had no reason to suspect
	3		that there had been any tampering. With the files
	4		that we found, it went back to that supplementary
11:31	5		roll missing and that was my biggest concern at
	6		the time.
	7	Q	All right. If we could turn again to Chairman
	8		Laing's report, 000263, this is his November, 1991
	9		report back to the Saskatoon Board of Police
11:32	10		Commissioners. I'm going to read a portion of
	11		this report starting at page 3 regarding Saskatoon
	12		City Police Filing System and then I'm just going
	13		to inquire whether the information fits with your
	14		recollection of the record system. I think this
11:32	15		will provide us with some context.
	16		"In the years 1968-1971, the
	17		Saskatoon City Police Department had a
	18		policy of retaining serious Criminal
	19		Code offence files for a period of 10
11:32	20		years. It was not until March 10, 1982
	21		that the Saskatchewan Police Commission
	22		enacted municipal police report forms
	23		and filing system regulations which
	24		provided for the same 10-year retention
11:32	25		period for serious Criminal Code

1	offences, and for indefinite retention
2	of unsolved serious Criminal Code
3	offences.
4	The system of reporting and
11:33 5	filing at the Saskatoon City Police
6	Department in the late 1960s consisted
7	of the following:
8	1. Four copies of each investigation
9	report were produced.
11:33 10	(a) One copy was for the central record
11	filing system and was not supposed to
12	leave central records except under
13	exceptional circumstances and then only
14	with the proper notation of where the
<i>11:</i> 33 15	file was located.
16	(b) Two working copies would be
17	available to investigators working on
18	the file, which working copies were not
19	part of a permanent record system.
11:33 20	(c) One copy was available for
21	information and administrative purposes.
22	2. When a file was opened as a result
23	of a complaint, an index card was
24	prepared indicating the complainant's
11:33 25	name, and an occurrence number was
	Meyer CompuCourt Reporting
	Cartified Professional Court Departure conving DA Degine & Sectionan since 1000

= Page 33921 =

	1	assigned to that matter. Each criminal
	2	investigation file acquired a sequential
	3	occurrence number for that year. In
	4	other words, on January 1 of each year,
11:33	5	a new numbering system commenced and
	6	each occurrence in the course of that
	7	year was sequentially numbered. If a
	8	person was convicted of the offence,
	9	that person's name was to be
11:34	10	cross-referenced on the index card to
	11	the name of the victim.
	12	3. In central records, hard copy files
	13	were retained for the current year and
	14	the two immediately preceding years.
11:34	15	After three years, if the file was not
	16	active, it was moved to a locked storage
	17	room.
	18	In approximately 1970 microfilm
	19	equipment was purchased by Saskatoon
11:34	20	City Police Central Records Department
	21	and thereafter attempts were made to
	22	record all serious criminal
	23	investigation files on microfilm prior
	24	to destruction of the file. This
11:34	25	activity was carried out by central
		Meyer CompuCourt Reporting

= Page 33922 =

	1	records staff as time permitted. It was
	2	not a highly structured activity. This
	3	activity would have commenced in 1970
	4	and the oldest files were the first to
11:34	5	be microfilmed. Each microfilm cassette
	6	would have written on it the beginning
	7	sequential number and the end sequential
	8	number contained on that particular
	9	cassette. Unfortunately, no date
11:35	10	appeared on the microfilm cassette
	11	indicating when the same was filmed.
	12	With respect to files dating from the
	13	1968-1971 period, the best estimate
	14	available of when such files would have
11:35	15	been microfilmed is in the period
	16	between 1975 and 1980.
	17	It is apparent that during the
	18	microfilming process, certain files were
	19	missing from their sequential order at
11:36	20	the time the microfilming was taking
	21	place. In such a case, the person doing
	22	the microfilming would microfilm a card
	23	which card stated 'see supplementary
	24	list'. The intention was that any files
11:36	25	that were subsequently returned to
		Meyer CompuCourt Reporting

	1	central records would be microfilmed and
	2	the microfilm labelled 'Supplementary
	3	List'. Microfilm tapes entitled
	4	'Supplementary List' were located and
	5	reviewed during the course of this
	6	investigation.
	7	In the year 1976, the Saskatoon
	8	Police Department moved from its old
	9	building to a new building next door.
11:36	10	All files held in dead storage should
	11	have been moved at this time. There are
	12	no quality control records that
	13	determine if in fact this occurred. At
	14	this same time, all index cards were
11:36	15	removed from drawers and placed in a
	16	mechanized cardveyor system. The move
	17	from the old building to the new
	18	building was accomplished in
	19	approximately 1 1/2 days.
11:37	20	In 1981, the Police Department
	21	converted its record keeping system onto
	22	computer. At this time there were over
	23	300,000 index cards to load onto the
	24	computer. This function was carried out
11:37	25	by central records staff and six extra

Page 33924 1 staff persons who were hired to load 2 such information on two shifts from 4 3 p.m. to 8 a.m. each day. The index 4 cards at this time were also purged to 5 some extent. Unfortunately, there is no 11:37 one that can say today the exact 6 7 criteria applied to the purging process. 8 However, it is established that one of 9 the criteria was to only load 11:37 10 information from index cards where there 11 was an existing file. If no file was 12 located, the information on the index 13 card was not loaded into the computer. 14 The index cards were kept for one year after loading of the information was 11:37 15 complete at the end of 1981. 16 At the end of 1982 the index cards were destroyed. 17 After the information from the 18 19 index cards was loaded onto the 11:38 20 computer, there was a very limited 21 number of people who could authorize a 22 deletion of an incident from the system. 23 From 1981 to 1987, the deletion program 24 was on a separate diskette which was 11:38 25 available only to two supervisory people

1	in central records. These people
2	indicate that there would be absolutely
3	no reason to delete specific information
4	from an occurrence file from the
11:38 5	computer and this in fact was not done.
6	The deletion program was available to
7	purge files after the 10-year retention
8	period, and not to delete specific
9	incident information.
<i>11:3</i> 8 10	From 1987 on, the computer
11	system was upgraded to require the name
12	and password of each user, and the
13	computer provided a maintenance trail of
14	all additions and deletions to the
<i>11:3</i> 8 15	system which maintenance trail produced
16	a hard copy once a month for review by
17	the civilian manager of the central
18	records department. This person has
19	been in place since 1982 and states to
11:38 20	his knowledge there has never been a
21	deletion of specific incident
22	information from the computer unless the
23	same was placed in the computer in error
24	or unless it was the subject of a

And then if we could just turn to page 12 of that 2 3 same document: 4 "The Attorney-General's files 5 in the City of Regina contain the four 11:39 certificates of conviction of Larry 6 7 Fisher. There is no record on the file 8 that indicates such certificates of 9 conviction were ever transmitted to the 11:39 10 Saskatoon City Police Department." 11 So, Mr. Quinn, I just -- I simply wanted to ask 12 you if the report, in your view, sets out or 13 explains how Saskatoon City Police records were maintained and the evolution of that 14 11:40 15 record-keeping system? 16 That record is quite, quite accurate. Α 17 All right. 0 18 I should note, on the initial part there where it Α 19 refers to the number of copies of reports that 11:40 20 were generated, it only speaks of the 21 investigation report. There was also four copies 22 of the occurrence report generated, it doesn't --23 that's not noted in that report. 24 0 Okay? And where would, I'm sorry, where would 11:40 25 those four copies then end up?

	3	Q All right.	
	4	A But he only that report only refers to the

	6	Q Yes.	
	7	A but within the police genre, when we we

11:40	10	investigation report.	
	11	Q Thank you.	
	12	COMMISSIONER MacCALLUM: So that 300,000

11:41	20	Q I think	
	21	A I think we're, we're talking of different thing	S

Page 33928 : 1 of the following: 2 Four copies of each investigation report 1. 3 I guess what I was trying to clarify there was 4 5 that the investigation report, it was a separate 11:41 6 report from the occurrence report, and the 7 occurrence report also had four copies. 8 0 All right. 9 So it was just something that was -- something Α 11:41 10 that was missed on there. 11 Q Okay. Can we turn to page 6. There is a 12 reference that: 13 "In 1981, the Police 14 Department converted its record keeping 11:41 15 system onto computer. At this time 16 there were over 300,000 index cards to 17 load onto the computer." 18 Would each of those index cards represent a file 19 or an occurrence number? 11:42 20 It would have represented an occurrence number, or Α 21 a complainant, and an occurrence number would have 22 been on that. Any subsequent follow-up, like if 23 somebody had been charged on that occurrence 24 number, their names should have showed up, should 11:42 25 also appear on that card as a cross-reference, --Meyer CompuCourt Reporting =

Page 33929

		5
1	Q	Okay.
2	А	plus the individual charge would get an index,
3		would also get an index card, and it should have
4		been cross-referenced with an occurrence number.
<i>11:4</i> 2 5	Q	All right. So, if there was a complaint of rape,
6		there would be an index card created with the name
7		of the complainant?
8	А	Along with the occurrence number.
9	Q	All right.
<i>11:4</i> 2 10	А	If an individual was subsequently charged with
11		that offence, when and he was convicted, then
12		his name would subsequently be placed on that
13		initial card as charged, and then he would also
14		get an index card in the system.
<i>11:4</i> 3 15	Q	All right. And the reason for placing the name of
16		the convicted person on the index card with the
17		name of the complainant and the occurrence number
18		is just to have better searching ability?
19	А	Better searching, a way to cross-reference. Umm,
11:43 20		I guess if we were looking for information and
21		somebody phoned in and said "I reported, I made a
22		complaint", if you went to that card you could
23		obviously we would also get the information on
24		whether there had been a charge laid in it, on
11:43 25		that particular case, or there had been a
		Meyer CompuCourt Reporting

Page 33930 : 1 conviction recorded on it. 2 0 Okav. And so we can assume that Larry Fisher's 3 name was not entered on any index card in the 4 system or -- and it wasn't cross-referenced with, 5 for example, (V5)---, because when you did a 11:43 search of the computer index there were no hits 6 7 for Larry Fisher's name? 8 That's correct. Α 9 All right. 0 11:44 10 COMMISSIONER MacCALLUM: Could I just ask 11 something before I forget, sir. 12 So for a given complaint there 13 would be many copies, or at least several copies 14 which were never -- detailing information of the 11:44 15 complaint which would never find their way back 16 to the official records, they would be 17 distributed amongst various investigators and 18 various offices; is that right? There were four 19 occurrence reports and four investigation 11:44 20 reports? 21 One copy of the occurrence report would have Α Yes. 22 remained in the central records; --23 COMMISSIONER MacCALLUM: Yes? 24 Α -- there was one copy was an administrative copy, 11:44 25 that went as an information to the chief or the

deputy; --

2		COMMISSIONER MacCALLUM: Right?
3	А	and then two would go to the section that
4		was would have been tasked with investigating.
11:45 5		COMMISSIONER MacCALLUM: Right.
6	А	If memory serves me correct, back in '69 one copy
7		would have stayed with the investigator, one copy
8		would have likely stayed with the if it went to
9		CID, with the detective sergeant who would
<i>11:4</i> 5 10		supervise the overall investigation.
11		COMMISSIONER MacCALLUM: Uh-huh?
12	A	When the officer had completed his investigation
13		reports, those reports were to go back to central
14		records and then the central records staff would
<i>11:4</i> 5 15		do a review of the completed file, and any items
16		that did not appear on the file in central records
17		would be taken off the investigator's file and
18		placed on the central records copy.
19		COMMISSIONER MacCALLUM: Okay. And
11:45 20	А	And then, subsequently, it would be destroyed.
21		COMMISSIONER MacCALLUM: Right. And did it
22		happen that copies remained elsewhere except
23		being returned to central registry or central
24		records I mean?
11:45 25	А	Umm, I
		Meyer CompuCourt Reporting

	Π		——————————————————————————————————————
	1		COMMISSIONER MacCALLUM: I mean was there,
	2		were people conscientious about, when a file was
	3		concluded, about returning it all to the central
	4		records, or did they simply keep copies
11:46	5		themselves?
	6	А	No, that was I have no way of knowing, but that
	7		was the process was that if, use myself as an
	8		example when I was in CID around that time, if I
	9		had been investigating a file and had left my
11:46	10		investigation reports and the detective sergeant,
	11		I had found that I was unable to successfully
	12		conclude or had arrested somebody on a particular
	13		file and left my initial or my final report,
	14		and it went through my supervisor and it was
11:46	15		concluded, then he would the process then was
	16		that concluded file was to go back to central
	17		records.
	18		COMMISSIONER MacCALLUM: Yes?
	19	А	Otherwise, it stayed on the work list as a file
11:46	20		COMMISSIONER MacCALLUM: Uh-huh?
	21	А	as a file that would have still been assigned
	22		to me.
	23		COMMISSIONER MacCALLUM: Yes?
	24	А	So supervisors supervising their people would
11:47	25		have would be coming back to the investigator
			Meyer CompuCourt Reporting

Page 33933 : 1 saying "where are the reports?" 2 COMMISSIONER MacCALLUM: Uh-huh? 3 They were all validated at that time. Α 4 COMMISSIONER MacCALLUM: What I am driving 5 at is whether there was any practicable way of 11:47 6 hiding a file because, you know, assuming 7 somebody wanted to do that, he went to central 8 records, for example, and lifted the file out and 9 didn't return it, how could he be sure that 11:47 10 copies that were made and intended to be returned to central records were, in fact, returned? 11 For 12 all he knew, they might still be out there 13 somewhere, in somebody's office? 14 Umm, the working copies could be with the Α 11:47 15 investigators. Any copy removed from the central 16 records, the original file, should have been 17 There should -- there was a system in logged. 18 place that if -- that was the only access to the 19 file that was available, that a person could get 11:47 20 it, but it had to be signed out to the 21 investigator. 22 COMMISSIONER MacCALLUM: Uh-huh. 23 Α And then the central records had a track on who 24 had that particular file, and they could go back 11:48 25 to that person and ask them for it back. 	1		wasn't a, I shouldn't say, it wasn't a usual
	2		practice. Usually, in most cases, it related to
	3		older files that were had, apparently had been
	4		closed, could have been closed off, and something
11:48	5		had come up in another investigation and there was
	6		a need to review it or go through it, another file
	7		that was in central records.
	8		COMMISSIONER MacCALLUM: Okay. So, to get
	9		back to your question, counsel, you said you
11:48	10		could assume that the Fisher name was not on an
	11		index card in the system, nor wasn't
	12		cross-indexed, and I think the witness said
	13		"yes", that was true?
	14		MS. MONAR ENWEANI: Yes.
11:48	15		COMMISSIONER MacCALLUM: Yeah.
	16	BY	MS. MONAR ENWEANI:
	17	Q	And I believe you indicated that the reason for
	18		that was, that you would know that was because
	19		when you did a computer search using the name
11:48	20		Larry Fisher, no information was retrieved?
	21	A	It Larry Fisher's name never came up.
	22	Q	All right. If I could turn your attention to page
	23		15 of 000263. This these are the conclusions
	24		reached by the Saskatchewan Police Commission:
11:49	25		"1. While the investigation has not been
			Meyer CompuCourt Reporting

Page 33935 = 1 able to explain in detail why the files 2 with respect to Occ. No. 10910 ... ", 3 (V2) - - - - : "... and 11435/68", 4 5 (V3) - - - - - : 11:49 "... and part of the file for Occ. No. 6 7 10173/68", 8 which is (V1)-: 9 "... did not end up on microfilm, there 11:50 10 was no evidence uncovered in the course of this investigation that suggests that 11 12 anyone deliberately attempted to avoid 13 microfilming these files. It appears obvious from the significant number of 14 11:50 15 files missing from microfilm that the 16 policy of always maintaining one 17 complete copy of a file in central records was not adhered to. The fact 18 19 that $1 \frac{1}{2}$ of the files ended up on 11:50 20 microfilm suggests that administrative 21 handling of the files including a move 22 to new premises is responsible for the 23 fact the missing files were not microfilmed. 24 2. 11:50 25 There is no evidence that anyone has

= Page 33936 =

	1		tampered with the computer records of
	2		the Saskatoon City Police Department
	3		since the same were computerized in
	4		1981. The investigation discloses there
11:50	5		was considerable discretion allowed the
	6		persons who were responsible for
	7		converting the manual index card system
	8		on to computer. It was more than 10
	9		years from the date of the offences at
11:51	10		the time the conversion took place.
	11		When files could not be located and
	12		where there was no cross-reference to a
	13		criminal, as in the case of the files
	14		here under consideration, the discretion
11:51	15		was wide enough to allow for a decision
	16		not to transfer the information onto the
	17		new system. However, it is to be noted
	18		that two of the four names of the
	19		victims and their occurrence numbers
11:51	20		were loaded onto the new system.
	21	3.	The fact that Larry Fisher's name does
	22		not appear in the computer record system
	23		of the Saskatoon City Police Department
	24		appears to be due in part to the fact
11:51	25		that the Saskatoon City Police

11:52	20	And if we turn to the next page, page 18:
	21	"The investigation discloses
	22	the importance of communication and
	23	record keeping in police work, and
	24	problems that can arise when an

		Meyer CompuCourt Reporting

	I 	Vol 164 - Thursday, June 15th, 2006 Page 33938
1		Considerable improvement has been
2		achieved in record keeping by all police
3		departments in the province since the
4		early 1970s, and in particular since the
11:53 5		Commission issued The Municipal Police
6		Report Forms and Filing System
7		Regulations in the year 1982."
8		And I wanted to ask you, did you have a chance to
9		review these conclusions when this report was
<i>11:</i> 53 10		released in November of 1991?
11	А	Yes, I believe I did.
12	Q	All right. And did you concur with the
13		conclusions that were released?
14	А	Yes.
<i>11:</i> 53 15	Q	All right. And I just, I have just one question.
16		Conclusion number 3, which appears at the bottom
17		of page 16 and continues on to page 17, there is a
18		reference here to an investigator having attended
19		in Winnipeg to take Mr. Fisher's statements, and
11:54 20		do you have any recollection or knowledge of who
21		that would have been?
22	А	I know, after the fact, who it was. I believe
23		that was Sergeant Ed Karst of the police service,
24		and I believe it was Inspector Elmer Nordstrom.
11:54 25	Q	All right. And is the gist of this paragraph
		Meyer CompuCourt Reporting

		- 3
	1	basically that, although we now know that Mr.
	2	Fisher was investigated in Winnipeg subsequent, or
	3	interviewed sorry in Winnipeg, subsequent to
	4	that interview, there appears to have been no
11:54	5	paper generated which would have led to Larry
	6	Fisher's name being inputted on any index cards?
	7	A From what we found, there was no from the files
	8	we've found, there was no reference to Mr. Fisher
	9	on the files, so there was nothing on the file to
11:55	10	indicate that the reports had been left and
	11	attached to those files.
	12	Q All right.
	13	I don't have much more for
	14	Mr. Quinn, I'm wondering if you would like me to
11:55	15	finish, or if we should break for lunch?
	16	COMMISSIONER MacCALLUM: Oh, you can
	17	finish.
	18	BY MS. MONAR ENWEANI:
	19	Q Can we turn to document 060939. Mr. Quinn, this
11:55	20	is a letter dated December 15th, 1992, it's from
	21	Chief Superintendent Egan to Chief Maguire, and it
	22	appears to indicate that an RCMP investigation is
	23	going to be taking place. The first paragraph
	24	reads:
11:56	25	"Further to our telephone

	1	conversation this date, I would like to
	2	confirm that Inspector Sawatzky and
	3	Sergeant Williams are being tasked with
	4	investigating the allegation that there
11:56	5	was criminal wrongdoing on the part of
	6	Saskatchewan Justice and the police
	7	during the initial Milgaard
	8	investigation."
	9	"It would be most appreciated
11:56	10	if you are able to designate someone
	11	within your department who will serve as
	12	the contact person with our
	13	investigators."
	14	And then if we have a look at 060947. This
11:56	15	appears to be a letter which was copied to you,
	16	it's December 22nd, 1992, written by Chief of
	17	Police Owen Maguire back to the RCMP. The letter
	18	indicates that:
	19	"Inspector John Quinn, Officer i/c
11:56	20	Internal Investigations, has been tasked
	21	with providing all assistance required
	22	to your investigators.
	23	Would you please have Inspector
	24	Sawatzky deal directly with Inspector
11:57	25	Quinn."
		Meyer CompuCourt Reporting

Page 33941 1 So it appears that you were designated as the 2 contact person within Saskatoon City Police to 3 assist --4 Yes. Α 5 -- the RCMP? 11:57 Q 6 Again. Α 7 And so did you end up, then, having a lot of Q 8 involvement? 9 A fair amount of involvement to provide assistance Α 11:57 10 to Inspector Sawatzky and, I believe it was, 11 Sergeant Rick Pearson. 12 Q All right. And can you describe for us generally, 13 can you recall any specific examples of the type 14 of assistance or the things that you would have been requested to do? 11:57 15 16 I think in some, one occasion I think I provided Α 17 them a background on a particular officer that was 18 involved in the investigation, and I guess it 19 would be if they needed access to, obviously, 11:58 20 files or material like that, I would be providing 21 that to them. 22 Q Okay. Could I turn your attention to document 23 054563 at page 11. This is an excerpt from an 24 RCMP continuation report dated September 16th of 11:58 25 1993, and it reads:

	1	"Sgt. Dressler advises that
	2	through enquiries and document analysis,
	3	he has been able to determine the
	4	identity of the source within the
11:58	5	Saskatoon Police Department. This
	6	source has always been a concern to this
	7	investigation and we have attempted to
	8	reveal the source's identity so that the
	9	source could be interviewed. The
11:58	10	purpose of any interviews with the
	11	source would be to confirm and document
	12	information provided to Centurion
	13	Ministries by the source. Previously
	14	this source had provided information
11:59	15	concerning the climate within the
	16	Saskatoon Police Department at the time
	17	of the Gail Miller murder. As well, it
	18	is felt this source could provide
	19	information about the missing files from
11:59	20	the department."
	21	Then, down at the bottom of that page:
	22	"On 93-09-21, S/Sgt. Tost and

	24	Chief McGuire. During this meeting, we

After the 5 meeting, Chief McGuire requested we meet 11:59 6 with Insp. Quinn of Saskatoon Police 7 Department, Internal Affairs Division 8 and provide him with the circumstances 9 surrounding our learning the identity of 11:59 10 this source. 11 After our meeting, Insp. Quinn 12 advised he would prepare some background 13 information to enable us to prepare to 14 interview Sqt. Vanin." 12:00 15 Would this be indicative of the example you just 16 provided? 17 Α Yes. 18 And if I could quickly turn to Q All right. 19 document 054574. This is a letter dated September 12:00 20 27th, 1993 authored by you, Mr. Quinn, and this 21 would be, I take it, the background information --22 Α Yes, that's correct. 23 0 -- you provided regarding Sergeant Vanin? 24 Α Yes. 12:00 25 If we can then turn to 054563, page 9. Page 33944 1 on this report is September 28th of 1993, it 2 reads: 3 Sawatzky & S/Sgt. "Insp. 4 Tost meet Insp. John Quinn, S'toon P.D. 5 this afternoon. Provided with a brief 12:01 overview of S/Sqt. Quinn's service ... ", 6 7 I think that should read Vanin: 8 "... i.e. what departments he has served 9 in and dates. 12:01 10 Discuss with Insp. Quinn if Vanin acknowledges the fact that he did 11 12 divulge information and offer files for 13 viewing to Joyce Milgaard and Centurion Ministries investigator we would advise 14 him that he may be subject to an 12:01 15 16 internal investigation. Therefore we 17 would undoubtedly be called as witnesses. We would afford him a 18 19 cautioning and the opportunity to seek 12:01 20 legal counsel even though we were not 21 about to accuse him of any criminal act. 22 Insp. 4	А	I think there was some follow-up information
3 5		received from the RCMP regarding some follow-up
6		correspondence they had or contact they had with
7		Sergeant Vanin, or Staff Sergeant Vanin, and
8		subsequently I know there was discussions
9		within my office and the chief or the deputy chief
4 10		regarding what action, if any, should be taken
11		against Staff Sergeant Vanin, and I cannot recall,
12		I don't believe there was an internal any
13		internal charges laid against him, and we
14		likely if memory serves me correctly, we likely
4 15		received some legal counsel on that whole matter,
16		but I think that's my recollection is that it
17		never proceeded any further after that.
18	Q	Do you recall being advised by Inspector Sawatzky
19		that, during the course of their meeting with
4 20		Sergeant Vanin, he wouldn't confirm or deny
21		whether he was the source of information to Joyce
22		Milgaard or Centurion Ministries?
23	А	That's was my recollection.

1			believe this would be March the 10th of 1993, but
2	2		I'm sure I will be corrected if I'm wrong. This
3	5		document seems to suggest that the RCMP met with
4			you and, in fact, interviewed you about the
12:05 5	5		involvement you had in searching for Saskatoon
6	,		police records concerning Larry Fisher, (V1)-,
7	,		(V2), (V3) and (V5) I'm wondering,
8	3		I don't intend to go through this in any detail,
9	,		I'm wondering if you could review that document
12:05 10)		and just let me know whether you believe it to be
11			accurate?
12	2	А	I recall I recall meeting with one of the
13	;		officers that was assigned to that particular
14			investigation. I cannot recall who it was at this
12:06 15			time. There obviously is notes, so I'm not going
16	,		to I can't question it. Second paragraph says:
17	,		"Unable to offer any assistance in the
18	;		area of issue number 1",
19	,		I don't know what issue number 1 is, so and I
12:06 20)		guess he is right that I was an inspector in the
21			internal affairs investigations section.
22	2	Q	All right. Maybe I'll just direct your attention
23			quickly to page 3 3, page 3 and page 2,
24			starting at page 3. It's recorded:
12:07 25			"It is difficult to say how

	1		the noted files went missing and when,
	2		given that we know that one and a
	3		partial file ((V5), (V1)-) made it to
	4		microfilm. That putting files on
12:07	5		microfilm ended in 1980 or 1981. There
	6		is a suggestion that the $(V4)$
	7		incident never became a file in itself,
	8		that the details went on the murder
	9		file. Info to date could suggest that
12:07	10		the (V3) and (V2) files were
	11		not available for microfilm entry.
	12		Hence the question: What happened to
	13		them prior to 1980 or 1981. Complete
	14		file or not, if they were not
12:08	15		missing/lost, they should have made it
	16		to microfilm and no later than 1980 or
	17		1981."
	18		And I take it those are thoughts that you are
	19		providing during the interview?
12:08	20	A	Umm, I don't think so.
	21	Q	You don't think so?
	22	А	I think that's the investigator's thoughts.
	23	Q	A summary of the conversation with you, perhaps?
	24	А	No, I
12:08	25	Q	No?

Page 33949 1 I think if -- can we go back to that, could we go Α 2 back to the previous page? 3 0 Yes. Page 3? 4 Α I think -- I think he's continuing on with his 5 report. I don't see any reference to myself in 12:08 6 there, so I can't say, but to me it appears that 7 he's -- that's his thoughts or his conclusion on 8 that particular report. 9 I think I'm cutting into everyone's lunch hour so 0 12:08 10 perhaps, in fairness to you too, we could break, 11 and you could review the document, and we'll come 12 back --13 Α Okay. -- after lunch. 14 0 12:09 15 COMMISSIONER MacCALLUM: Okay. 16 (Adjourned at 12:09 p.m.) 17 (Reconvened at 1:30 p.m.) BY MS. А 21 Before we took our break I had asked you to look Q 22 at an RCMP continuation report, document number 23 048086, starting at page 7, and that appears to 24 record an interview conducted by the RCMP with 01:31 25 yourself on March 10th of 1993. 	1		you if the document accurately recorded the
	2		information you provided to the RCMP. You've now
	3		had a chance to review it. Can you make any
	4		comment on this report?
01:31	5	А	The first I'm recalling how many pages are in
	6		that document. The first part of the document is
	7		accurate of what I provided him. The part that we
	8		were talking about earlier this morning, I've
	9		reviewed it again and I'm still, I'm of the
01:31	10		opinion that it's the officer's comments and that
	11		would be on the latter part of his report.
	12	Q	Okay. If I refer you to page 3, if you could look
	13		at page 3 and then page 2 and confirm that that's
	14		the part of the report you are speaking of?
01:32	15	А	Right, and one of the reasons I've come to that
	16		conclusion is at the top of that page he's
	17		referring to Acting Deputy Chief Corey, so he's
	18		onto another subject matter to start with there,
	19		and then to me it appears that it's his own
01:32	20		comments in the second part of that page.
	21	Q	All right, thank you. Those are all of my
	22		questions for you, Mr. Quinn. You may be

	13	MS. PAMELA WALLIN: It's the story of a
	14	mother's unflagging belief in her child and in
01:33	15	his innocence. Joyce Milgaard has spent
	16	literally years lobbying, petitioning and letter
	17	writing to have the murder conviction of her son
	18	David Milgaard re-opened and looked at again by
	19	the courts. Her perseverance has paid off.
01:34	20	Justice Minister Kim Campbell has now referred
	21	the case to the Supreme Court of Canada for
	22	review, and joining us this morning from Winnipeg
	23	to discuss the decision is Joyce Milgaard and her
	24	son David's lawyer David Asper. Good morning to
01:34	25	you both.
		Meyer CompuCourt Reporting

1 Good morning. MRS. JOYCE MILGAARD: 2 MR. DAVID ASPER: Good morning, Pamela. 3 Mrs. Milgaard, this has MS. PAMELA WALLIN: been a long time. I want to say congratulations 4 5 to you because you really have fought a campaign 01:34 for 22 years. What do you think really turned it 6 7 for you, was it the day you cornered the prime minister and said please look at this and he said 8 9 he would? 01:34 10 MRS. JOYCE MILGAARD: I really can't tell 11 you the exact corner. That probably was a good 12 part of it. I guess I'm just so happy today and 13 all weekend it's just hard to even think back at 14 the bad times. MS. PAMELA WALLIN: It's hard to think back 01:34 15 16 that you have spent more than 22 years on this 17 particular campaign? 18 MRS. JOYCE MILGAARD: It's been a long 19 time, but it's here. 01:35 20 MS. PAMELA WALLIN: David Asper, tell us 21 about what is here exactly, what does it mean? 22 The Supreme Court will look at this. What are 23 the options? 24 MR. DAVID ASPER: Well, this is a reference 01:35 25 under section 53 of the Supreme Court Act which = Meyer CompuCourt Reporting =

Page 33952

AS.

- Page 33953 -

		5
	1	you may be more familiar with in terms of
	2	constitutional questions. Essentially what the
	3	Supreme Court is being asked to do is inquire
	4	whether the continued conviction of David
01:35	5	Milgaard presents a miscarriage of justice and
	6	then the second part of the reference is that if
	7	the court finds that there has been a miscarriage
	8	of justice, what remedial advice it would give to
	9	the Minister of Justice pursuant to the Criminal
01:35	10	Code.
	11	MS. PAMELA WALLIN: So what do you as a
	12	lawyer have to do, do you have to prove David is
	13	innocent, do you have to prove somebody else is
	14	guilty? How does this work?
01:35	15	MR. DAVID ASPER: Well, I'm not exactly
	16	sure, and I think that within the next few days
	17	Mr. Wolch and I are hoping to get a meeting
	18	together with the Department of Justice officials
	19	and of course the Supreme Court so that we can
01:35	20	define the parameters. This has never been done
	21	before. The comparison is often made to the
	22	Truscott case.
	23	MS. PAMELA WALLIN: Yeah, the Steven
	24	Truscott case.
01:36	25	MR. DAVID ASPER: But it's different
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Page 33954 1 because we'll be calling many, many more 2 witnesses and we'll be asking the court to 3 consider a much broader scope of evidence. 4 MS. PAMELA WALLIN: But you have now got 5 the acknowledgement from the courts and from the 01:36 justice minister that there is new evidence 6 7 that's worth taking a look at, you've been making 8 this case for quite a while? 9 MR. DAVID ASPER: Yes. It's very 01:36 10 heartening to know that we've finally apparently crossed some kind of threshold and we're 11 12 confident now that we'll be in court, that the 13 strength of our argument will prevail. 14 MS. PAMELA WALLIN: Mrs. Milgaard, what's 01:36 15 David feeling today and over the weekend? Ι 16 mean, in a sense it's a bit of a mixed blessing, 17 the case is re-opened, but there he is, as I 18 think in his own words, still in his cage. Is he 19 feeling kind of torn? 01:36 20 He's feeling very MRS. JOYCE MILGAARD: 21 torn, and we are too. It seems somehow that if 22 you go before a court, you normally have the 23 option of bail, and I guess all along we've 24 thought that we would have too, so I'm just 01:37 25 hoping that they will work something out and

— Meyer CompuCourt Reporting =

Page 33955 : 1 maybe they can, people across Canada can write 2 the prime minister and say let him out, he's been 3 there 23 years. 4 Are you aware of what Kujawa is 5 saying? 01:37 Well, I know there's 6 MS. PAMELA WALLIN: 7 been some response from the Province of 8 Saskatchewan where of course this case was 9 originally tried and they say they may intervene, 01:37 10 so --11 MRS. JOYCE MILGAARD: Well, we have a 12 headline here that you should see. 13 MS. PAMELA WALLIN: Okay. David Asper? 14 MR. DAVID ASPER: I'll just hold up the 01:37 15 front page of the Winnipeg Sun. 16 That's from -- yeah. MS. PAMELA WALLIN: 17 MR. DAVID ASPER: That's from yesterday. 18 MS. PAMELA WALLING: Yeah. 19 MR. DAVID ASPER: That's in Winnipeg. 01:37 20 "Milgaard a guilty kook, says MLA," and then a 21 sub-headline, "Former Saskatchewan prosecutor outraged by decision to review case". 22 23 MS. PAMELA WALLIN: This was the man that 24 prosecuted the case originally? 01:38 25 MR. DAVID ASPER: Well, he prosecuted the = Meyer CompuCourt Reporting =

Page 33956 : 1 appeal and apparently offered advice to Mr. 2 Caldwell during the course of the trial. Now, 3 this article that follows the headline gives an 4 insight into perhaps the mindset that led 5 ultimately to the conviction of David Milgaard, 01:38 and I'll quote from the article, it says: 6 7 "It doesn't matter if Milgaard is 8 innocent of the 1969 murder for which he 9 spent 22 years in prison, his case 01:38 10 should remain closed," says Serge 11 Kujawa, now an NDP MLA. "I'm not 12 primarily concerned with his guilt or 13 innocence, what I'm concerned with is 14 that you, the media, and the lawyers, are selling us down the river." 01:38 15 16 MS. PAMELA WALLIN: Okay. Well, let's ask 17 about that, David Asper, you know, because 18 there's been so many questions about this, about 19 why it has taken so long to even look at the 01:38 20 case, the question of David's innocence or quilt 21 aside, there has been a change of evidence, a substantive change in evidence and new evidence, 22 23 why there is such resistance. Is the system just

not -- is it just not open to review in some way?

MR. DAVID ASPER: Well, something of this

— Meyer CompuCourt Reporting =

24

01:38 25

Page 33957 = 1 magnitude is very, very difficult to comprehend. That's true from the defence perspective, and 2 3 it's even more true, if you will, from the 4 perspective of the Department of Justice. These 5 are people who survive daily believing in the 01:39 system and that the system is generally 6 7 faultless. And if you admit 8 MS. PAMELA WALLIN: 9 mistake, that somehow the whole system is called 01:39 10 into question, I mean, is that --11 MR. DAVID ASPER: I think in part that's what we've been confronted with, and of course 12 13 we've always taken the view that the admission of 14 a mistake proves the strength of the system. 01:39 15 MS. PAMELA WALLIN: Now, there is new 16 evidence and you will be allowed to put that 17 forward. What are your key points, what --18 MR. DAVID ASPER: Do you have an hour? 19 MS. PAMELA WALLIN: Well, I think that some 01:39 20 of the original witnesses have recanted their 21 testimony I suppose is one. 22 MR. DAVID ASPER: Let me put it this way. The Crown at the trial had three levels of 23 24 evidence. One involved David's companions, 01:39 25 another involved forensic evidence, and the final

Page 33958 : 1 aspect involved what the Crown said was a reenactment or admission by Milgaard of the 2 3 crime. 4 MS. PAMELA WALLIN: Uh-huh. 5 MR. DAVID ASPER: We have, I think, dealt 01:40 completely with the companion evidence by virtue 6 7 of the recantation of Ronald Dale Wilson. 8 MS. PAMELA WALLIN: Right. 9 MR. DAVID ASPER: He admits now that he 01:40 10 lied at the trial. The forensic evidence has been thoroughly discredited and in its most 11 12 favourable light exonerates David Milgaard, 13 excludes him as the perpetrator. 14 MS. PAMELA WALLIN: Because there are some 01:40 15 new tests that exist today that didn't exist at 16 the time? 17 MR. DAVID ASPER: Essentially that's true. 18 And in terms of the admission or the reenactment, 19 we have located a witness who has provided sworn 01:40 20 evidence that David Milgaard did nothing of the 21 On top of all of that, we now have sort. 22 developed evidence relating to a serial rapist 23 operating in Saskatoon which evidence, in my 24 submission, if put before the jury, would lead 01:40 25 them to, at the very least, have a reasonable

Page 33960 1 You may recall just a short 2 while ago this morning the Federal Justice 3 Minister Kim Campbell has said that she will ask the Supreme Court of Canada to hold a review into 4 5 the 1969 conviction of David Milgaard for murder. 01:42 6 We're going to join that news 7 conference live now. 8 MRS. JOYCE MILGAARD: The first thing that 9 I want to do is thank God for the decision today 01:42 10 and I'm just so happy and so grateful and I know 11 Hersh is wanting to make a statement and David 12 Asper is, I know you are going to want to talk to 13 everybody, but it's joy to the world today for 14 me, and we have a few reservations we'll talk 01:42 15 about, but boy, are we happy, and next we --MR. DAVID MILGAARD: 16 (Inaudible). 17 MRS. JOYCE MILGAARD: No, no, we did agree 18 that Hersh was going to say something. 19 MR. DAVID MILGAARD: Before I say 01:42 20 something? 21 MR. HERSH WOLCH: David can say something 22 first. 23 MS. JOYCE MILGAARD: David, go ahead. 24 MR. DAVID MILGAARD: I think I will. Ι 01:42 25 think I will. Meyer CompuCourt Reporting =

1 MRS. JOYCE MILGAARD: We'll let you speak. 2 MR. DAVID MILGAARD: We're all kind of excited as you can see and the decision we're 3 4 happy with, right, it seems that it's flawed in 5 the sense that I'm not getting out today, and in 01:42 actuality when the government makes a decision to 6 7 tell the court to take a serious look at a matter, it does so with reason, and I think it's 8 9 rather ironic that they forgot the component part 01:43 10 of it, to give me an opportunity to be out today 11 which any other person would have in that 12 situation; in other words, I should be able to be 13 out on bail, and while the decision is good, they 14 haven't made that possible. As a matter of fact, at this point in time that's probably the biggest 01:43 15 16 issue we're trying to deal with and it doesn't 17 make much sense. 18 MAUREEN (MILGAARD): We just want him home. 19 MRS. JOYCE MILGAARD: We sure do. 01:43 20 MAUREEN (MILGAARD): It's been a long road 21 and now we want him home. 22 MR. DAVID MILGAARD: We will make it. 23 MRS. JOYCE MILGAARD: In spite of all of 24 it. And, Hersh, you would like to say something,

Page 33961 =

and then we can take some questions.

01:43 25

_____ Meyer CompuCourt Reporting =

1 Well, firstly, I suppose MR. HERSH WOLCH: we should be thanking Rockwood for their 2 3 co-operation, I think it's pretty important that they were so sensitive to the situation today and 4 5 understanding of -- for the emotion today. 01:43 As far as the decision is 6 7 concerned, we're anxious to get into court and establish David's innocence. 8 9 MR. DAVID MILGAARD: We'll probably be --10 sorry. 11 MR. HERSH WOLCH: Go ahead. 12 MR. DAVID MILGAARD: We'll probably be 13 looking for some avenue until the flaw that we 14 see there is resolved, I get some continued 01:44 15 co-operation there, and they have, they have been very reasonable, that's true, I agree. 16 17 MR. HERSH WOLCH: The question -- you've 18 got to understand that as lawyers we look at it 19 somewhat differently than David and his family, 01:44 20 you know, we've gone through a legal system that 21 for us has been very good and we have a lot of 22 faith and confidence in. It's pretty difficult 23 for David and his family to have one experience 24 that has been so awful, so we, you know -- so 01:44 25 normally lawyers speak for clients and echo their

Page 33962

Page 33963 = 1 words, but we can never appreciate what they've 2 gone through and we do have different 3 perspectives, but the one thing we share in common is that we're very confident in the result 4 5 that will emanate from the Supreme Court in the 01:45 6 end result. 7 On the issue that Dave 8 addresses, the one of release, we will certainly 9 look into that. With co-operation, we're very hopeful that David will be able to watch whatever 01:45 10 11 transpires as a -- in the papers. 12 That's really all I want to say 13 and I would rather have you simply let David and 14 his family have the moment and answer whatever 01:45 15 you might want. MRS. JOYCE MILGAARD: 16 And David and his 17 family, that includes --18 MR. DAVID MILGAARD: Chris. 19 MRS. JOYCE MILGAARD: -- David Asper and --01:45 20 MR. DAVID MILGAARD: And Chris, my 21 brother-in-law -- my brother and his wife, Pat, 22 and there's a lady, there's an unsung hero in 23 this and she's given me this shirt, and she's 24 probably watching this, or will be watching this, 01:45 25 and her name is Barb. 2 REPORTER: The Saskatoon Police Department 3 came in for heavy criticism today at the Supreme Court review of the David Milgaard case. 4 5 Milgaard has spent 22 years in prison for the murder of a Saskatoon nursing assistant in 1969. 6 7 Today his lawyers introduced evidence to show the 8 police may have manipulated some of the proof 9 they needed to show Milgaard was guilty. We get 10 more on today's review from Kathy Lyons (ph).

11REPORTER: David Milgaard returned to the12high court as it continued its effort to answer13the question was his conviction for murder a14miscarriage of justice. The 39 year old's01:511515lawyers had some new surprises, evidence they16claimed showed police went to great lengths to17pin the murder on Milgaard.

18 Lawyer Hersh Wolch produced a 19 police report written before the young Nichol 01:52 20 John and Ron Wilson changed their stories to 21 implicate Milgaard. Wolch pointed out the police 22 had a theory which no witness had put forward 23 that, "Milgaard would leave car to get purse. 24 Having seen Miller closer his sex drive takes 01:52 25 over and he forces her down alley."

Milgaard's counsel says John

and Wilson later produced stories close to the

3 police theory. The police had two 4 MR. DAVID ASPER: 5 points, they had (a), which was the death of Gail 01:52 Miller, and they had (b), which was their theory 6 7 of how it happened and what they needed to do was 8 connect the dots. 9 REPORTER: Milgaard's mother believes this 01:52 10 is crucial. 11 MRS. JOYCE MILGAARD: It was like a light 12 was turned on and I just felt that I've known all 13 along that the police, you know, the police put words in their mouth, but I didn't realize to --14 15 (Clip VT30 ends) 16 (Clip VT31 played) 17 REPORTER: ... now a Saskatchewan appeal 18 court judge. He testified that he didn't put 19 Milgaard an the stand originally because Milgaard 01:53 20 privately told him that he had a knife, that the 21 car got stuck and that he left it for a while, 22 three things that David Milgaard publicly claims 23 never happened. 2 Well, I think on balance, MR. HERSH WOLCH: 3 we had positive and negative evidence from David's point of view. 4 There was some very 5 positive evidence that came out today in terms of 01:53 the jail guard confession that obviously is 6 7 difficult to accept now with the contradictory evidence, we have a close friend of Ron Wilson 8 9 that now, telling us now that he admitted he lied 01:54 10 when he implicated David and she thought he was 11 sincere, and we have Justice Tallis confirming 12 that David always maintained his innocence and 13 also he recommended that David not testify. 14 REPORTER: You also have --All those are -- those 01:54 15 MR. HERSH WOLCH: 16 are all positives. On the negative side, Justice 17 Tallis does not agree with David on a number of 18 side issues that may or may not be important. 19 REPORTER: Well, is the fact that he got 01:54 20 stuck and left the car, is that a side issue? Ι 21 mean, that gives him his window of opportunity 22 for a murder, so why would that be a side issue? 23 MR. HERSH WOLCH: Well, I'm not sure that 24 that's a window of opportunity. I mean, where 01:54 25 If you look at David's notes were they stuck?

that were filed in court some time ago, they were

	2	stuck on some ice in a location that is nowhere

	4	window of opportunity is a far cry from saying
01:55	5	somebody did something.
	6	REPORTER: You had David Milgaard just a
	7	couple of weeks ago saying that he didn't get

	9	Justice Tallis is saying that David told him 23
01:55	10	years ago that he did get stuck and he did leave
	11	the car.
	12	MR. HERSH WOLCH: Well, there's no
	13	question, but the car got stuck many times, that
	14	wasn't denied. I think you've got to juxtapose
01:55	15	which time are we talking about. What David
	16	Milgaard says is in this area where Wilson once
	17	said and Nichol John perhaps said that something
	18	happened, he was never stuck, never got out of
	19	the car, and our position hasn't changed, that
01:55	20	that particular incident didn't happen.
	21	David, at the very beginning,
	22	the first time the police talked to him, talked
	23	about asking an older woman for directions, but
	24	you can't transpose one and the other and then

8 Well, we dealt with them MR. HERSH WOLCH: 9 rather extensively today and basically you've got 01:58 10 to recall that it's a 23 year memory without 11 notes and from a judge who's had countless very, 12 very serious cases in the meantime, David's only 13 had one case, and I think we were able to show 14 that David might be right on many of these issues 01:58 15 because on a number of them the questions asked 16 of witnesses by Justice Tallis then are somewhat 17 inconsistent with David having told him things 18 like a compact or a knife, and there are -- just 19 through that way I think we were able to show 01:59 20 that David could be right.

21 INTERVIEWER: But now that this former 22 defence lawyer is now a justice, isn't it a 23 little risky for you to perhaps suggest that the 24 testimony of an appeal court judge may be 301:59 25 somewhat faulty or questionable?

01:59	5	the question is, you know, what do you recall.
	6	You know, if somebody faulted my memory for what

	8	INTERVIEWER: The question that you built
	9	your case on largely, that perhaps David
01:59	10	Milgaard well, you are saying definitely David
	11	Milgaard did not commit the murder, but Larry
	12	Fisher did. Is it damaging for your case that
	13	the Supreme Court is saying that Larry Fisher's
	14	testimony will not be used in the final
01:59	15	determination? Is that a problem for you?
	16	MR. HERSH WOLCH: No, that's not the way I
	17	read it, the way I read it is that their mandate
	18	is not to judge Larry Fisher, and if they were to
	19	say Larry Fisher was guilty, that would be
02:00	20	totally unfair, he's never had a trial.
	21	Secondly, if they were to say

that, he could never have a trial, because how could he ever get a fair trial if the highest court in the land has already determined that you are guilty, so they simply can't do it.

13	MR. HERSH WOLCH: Well there are three
14	options that say 'there was a miscarriage of
15	Justice and we'll set David free with a
16	miscarriage'; there is one option that says
17	'there is no miscarriage but let him out on

HERSH WOLCH: Well, that's down the road, it will depend what the Court says, but 8 9 certainly there should be compensation if an 02:02 10 innocent man had been jailed for 23 years. 11 REPORTER: Where is Mr. Milgaard now, 12 what's he going to be doing in the meantime? 13 When will there be a decision, I quess, first of 14 all? 02:02 15 Well, hopefully before MR. HERSH WOLCH: 16 the NHL players come back, but I don't know. The 17 Court makes -- you know, it -- they have acted 18 very, very quickly so far, they have a lot to 19 look at, however, so, you know, a month, two 02:02 20 months, I really don't know. They gave no 21 indication as to when, but they are very 22 conscientious. REPORTER: 23 Okay. Thanks very much for 24 talking with us. 02:02 25 (Clip VT32 ends) Meyer CompuCourt Reporting =

1 (Clip VT33 played) 2 ... very understanding MR. HERSH WOLCH: You can imagine the pressure that's been 3 manner. building over the last number of years and the 4 5 last few days in particular. 02:03 Perhaps just some general 6 comments and then you can ask whatever questions, 7 8 and you can hear from the people you really want 9 to hear from, I'm sure it doesn't include me. 02:03 10 We are very pleased with the 11 decision. We are particularly pleased by the 12 example the Court set in rendering speedy justice 13 and we are hoping that will continue. 14 As we understand it -- and we have not read the decision, although we have had 02:03 15 it read to us -- the Court has found there was a, 16 17 or is a miscarriage of justice, and the continued 18 conviction constitutes a miscarriage of justice, 19 and that a new trial should be ordered. We would 02:04 20 anxiously await the new trial. We have complete 21 confidence as to what the outcome would be, and 22 we would -- we're ready to go to trial tomorrow 23 in this particular matter. We, over the last few 24 months, finally found out what the case is about, 02:04 25 and we have no fear at all to go to trial.

	1	We will find out, hopefully
	2	shortly, what Saskatchewan's position is in terms
	3	of going ahead, but we are not asking that it be
	4	not proceeded with on any sort of compassionate
02:04	5	ground or anything like that. We believe
	6	whatever little evidence there is is still
	7	available, and we're more than willing to meet
	8	it, so that we feel that there has been a fair
	9	bit of time to contemplate the ramifications of
02:05 1	10	this decision, and we're looking forward to a
1	11	speedy answer and a speedy release of David.
1	12	Those are all the remarks I
1	13	have, and I think you want to hear from the more
1	14	important people.
<i>02:05</i> 1	15	MS. SUSAN MILGAARD: Hooray.
1	16	MR. LORNE MILGAARD: Hip hip hooray.
1	17	MR. DAVID MILGAARD: I would like to say
1	18	that, for me, I'm glad this part of it is all
1	19	finished with and that when I go to Saskatchewan
02:05 2	20	that, you know, it happens as quickly as possible
2	21	and this is all over for all of us. It's it
2	22	seems we've got one step, and one step, and one
2	23	step, and one step, and it seems too damn long
2	24	sometimes. I don't know, that's just how I feel.
02:06 2	25	MRS. JOYCE MILGAARD: Can I say what I

MR. DAVID MILGAARD: Sure.

3 MRS. JOYCE MILGAARD: I just feel terrific. 4 I'm really so happy. It's a dream come true. 5 I'm sorry it didn't happen two years ago, I think 02:06 that it could have happened then if there had 6 7 been any kind of an investigation with the 8 Justice Department, if they had a different kind 9 of investigator, instead of Paul Henderson having 02:06 10 to go out with me and do the investigating. So 11 that I think it late, but boy, we've got it, so 12 I'm happy, even though it's late. 13 REPORTER: Is this the best it could be? 14 MRS. JOYCE MILGAARD: The best would have 02:06 15 been an (a), but believe me, anything that says 16 there has been a miscarriage of justice, that's 17 exactly right with me and with all of us. 18 MR. DAVID MILGAARD: I'm not so sure about, 19 like Hersh was talking about compassionate 02:06 20 grounds or something and Saskatchewan saying, you 21 know, like they are doing us a favour or 22 something like that. The fact, though, that the 23 Supreme Court has what was weighed, and they 24 established what they felt was, you know, enough 02:07 25 information to say there is a miscarriage of Meyer CompuCourt Reporting =

I

	1	justice, there isn't a sense of any
	2	disillusionment on my part that, you know, at
	3	least the answer has come out, you know, there's
2	4	been a miscarriage of justice, and that's it.
02:07 ⁵	5	We're not looking at
Ċ	6	Saskatchewan like a compassionate grounds saying
-	7	we are getting an opportunity for a new trial. I
8	8	find it rather ironic that, even if that trial
C	9	fails, I end up with a pardon of some sort. I
02:07 10	C	think what should happen myself, if there is a
11	1	change or some sense of direction in some of the
12	2	different things that have taken place throughout
13	3	all of this for the whole family, is that the
14	4	people that made all the mistakes somehow be
02:07 15	5	found, and found accountable for them, so that it
16	6	doesn't happen to other people. Other people
17	7	might be your son, might be your daughter.
18	8	That's how I feel.
19	9	REPORTER: David, do you think the fact
02:08 20	С	that you finally had a chance to, or you finally
21	1	did, in fact, tell them your story yourself in a
22	2	Court, do you think that that had something to do
23	3	with what they found?
24	4	MR. DAVID MILGAARD: In my time to talk in
02:08 25	5	the Supreme Court, the biggest feelings I had up

	1	inside of me was the sense when someone would be
	2	poking at me with questions, suggesting to me in
	3	a way that I was guilty of things, and knowing
	4	that I wasn't, it kind of twisted me around. And
02:08	5	even, they wouldn't listen to my answers, they
	6	would keep on doing it. That made me feel really
	7	lousy.
	8	REPORTER: But do you think the fact that
	9	you got your message, you finally had a chance
02:08	10	to
	11	MR. DAVID MILGAARD: I sure hope so. I
	12	sure hope so.
	13	REPORTER: But do you think that THAT had
	14	an impact on the judges, in other words did you
02:08	15	get through to them, is that part of what they
	16	came up with today?
	17	MR. DAVID MILGAARD: I sure hope so.
	18	MRS. JOYCE MILGAARD: I hope so.
	19	REPORTER: Are you, in fact, saying that
02:08	20	you want a new trial to go ahead, because it
	21	seems as if the option is now up to Saskatchewan
	22	to decide whether or not to proceed with the
	23	charges, presuming of course that the Federal
	24	Government goes along with this, but are you
02:09	25	saying that, given a choice between a stay of
		Meyer CompuCourt Reporting

Page 33983 -

proceedings and a new trial, you want a new trial?

3 MR. HERSH WOLCH: No. What I am saying is 4 this. Given the equal choice, we would prefer a 5 stay of proceedings, provided that the stay is 6 given without reservation.

1

2

7 We don't want a stay of 8 proceedings being explained as "we're doing you a 9 favour, we're giving you a break, we really think 02:09 10 you're guilty but, what the heck, you've done 11 enough time". We don't want an equivocal stay. 12 If you're going to stay it, stay it, is our 13 attitude; if you're going to go ahead, go ahead, 14 but don't sort of mollify it.

02:0915MRS. JOYCE MILGAARD: But we talked to the16Supreme Court, we took our evidence to the17Supreme Court, we're prepared to take that same18evidence to Saskatchewan and beat them hands19down.

02:0920REPORTER: But there's nothing preventing21the Government of Saskatchewan and the Attorney22General from saying exactly what you've just23worried about, and that is "okay we're going to24give him a stay because he's been in jail long02:1025

— Meyer CompuCourt Reporting =

1 know, we could convict him". 2 MR. HERSH WOLCH: Maybe we'll sue them 3 civilly if they say it. Great idea. 4 MRS. JOYCE MILGAARD: I have two of the 5 MR. DAVID MILGAARD: 02:10 greatest sisters in the world here with me, and 6 7 somebody might say what sort of thing it's been 8 for all of us in a circle of kind of growing up 9 in strength inside this picture, because we have, 02:10 10 it's taken so long, right. But my mum is often, 11 you know, running away and doing things and all 12 the rest of it, they are the ones that kind of 13 sit back with me when I need somebody, and I just 14 thought I want to say that too. Maybe the last thing I want to 02:10 15 16 say for right now is that there are people 17 that -- you know, all the way across the country 18 that have been a part of a blessing for all of 19 us, they have been supporters in every city, 02:10 20 there is always something someplace with Milgaard 21 buttons and shirts, and a lot of the times I've 22 never met any of those people and I may never 23 meet any of those people, and they basically have 24 been kind of the backbone of this thing and have 02:11 25 kept it going, and I want to take the time to

Page 33984

1 thank all of them, too, for what's -- for what 2 it's worth. 3 The fact that the Supreme Court REPORTER: 4 is asking -- throwing the ball into the 5 Saskatchewan court, but at the same time saying there is a miscarriage of justice, how would you 6 7 interpret that; "yes, there is a miscarriage of 8 justice but we're not 100 percent sure?" 9 What they are saying MR. HERSH WOLCH: No. 02:11 10 I think is, and I don't want to be presumptuous, 11 is that they are really not the forum to try 12 trials, and there was a lot of credible evidence 13 pointing to David's innocence brought forward 14 before them, you know, pointing a finger at somebody else, rightly, whatever. I'm sure it 02:11 15 16 was determined to be credible evidence. They are 17 not saying that it has to be accepted, but a jury 18 could easily look at that evidence, couple that 19 with the weakness of the rest of the case and say 02:11 20 "not guilty", I mean it's -- in fact I would be 21 shocked if it didn't happen. So that they are 22 simply taking one of the options and following 23 it. 24 REPORTER: Do you feel this, their ruling,

02:11

weakens a future claim for compensation?

Page 33986 = 1 MR. HERSH WOLCH: Well, I haven't really 2 analysed compensation, but I would think that if, 3 at the end of the day, a man has spent 23 years in jail and has never been convicted of a crime, 4 5 that one could clearly argue that he deserves 02:12 some sort of compensation. 6 7 Would that be the effect of a REPORTER : 8 stay, you said you --9 MR. HERSH WOLCH: Well, a stay or a not 02:12 10 quilty, I mean what do you do if a person has 11 spent most of his life in jail when he's not 12 guilty? 13 (BREAK IN TAPE) 14 MR. HERSH WOLCH: But the Minister of Justice, and those involved in the administration 02:12 15 16 of justice, will follow the lead of the Supreme 17 Court, and that is make quick decisions, and the first obvious one is to order a new trial. 18 19 Saskatchewan should be able to 02:12 20 decide that in a day. If they go ahead with a 21 new trial, then we will go for bail in 22 Saskatchewan, we will apply for bail, and I can't 23 imagine David not being released. If they stay 24 it, then he'll walk out. 02:13 25 REPORTER: But can you do that now?

Page 33988 : 1 MR. overall fairness of the trial. I didn't really think the Supreme Court was being asked, in particular, to determine the fairness of the trial.

I would rather that be 23 24 addressed perhaps through a commission of 02:15 25 inquiry, or whatever, who would have more time to

Meyer CompuCourt Reporting =

look into all the areas.

2 Keep in mind that, just for 3 example, two police officers weren't called, one 4 couldn't be found, he was somewhere in the 5 States, one was in -- wasn't well. I don't think 02:15 that time enabled us to really go into the, in 6 7 depth, into the question of fairness of trial or 8 not and, I mean, we concentrated on really trying 9 to show there was a miscarriage and that the door 02:15 10 should be opened, so I would think that there is 11 a lot more to it than just this. 12 REPORTER: You want a commission of 13 inquiry? 14 MR. HERSH WOLCH: We would like a 02:15 15 commission of inquiry to go through the whole 16 matter, and go through it in detail, but I think 17 that that has to wait until we get a decision, 18 obviously, whether David will go to trial or not. 19 But, in the long run, we would like a commission 02:15 20 of inquiry to go through the whole area and 21 determine what, what did go wrong here. 22 *REPORTER* : What the Court seems to be 23 saying, or the judgement says today, is that had 24 the jury in David's original trial known the 02:16 25 information about Larry Fisher --

	Vol 164 - Thursday, June 15th, 2006 Page 33990

2	REPORTER: that it might have resulted
3	in a different verdict?
4	MR. HERSH WOLCH: Yes.
02:16 5	REPORTER: Now are you saying that a
6	commission of inquiry, actually looking at the
7	fact that police officers knew about Larry
8	Fisher's existence some six or eight months after
9	conviction, they should have perhaps re-opened,
02:16 10	and the Crown should have re-opened at that
11	point?
12	MR. HERSH WOLCH: Well, yes, I think all
13	that should be gone through.
14	You have also got to remember
02:16 15	that the Minister ordered the re-opening at the
16	end of November, we were already in hearing by
17	January, and, quite frankly, much of what we
18	heard, we heard for the first time. It's almost
19	like we've now had a preliminary hearing, we now
02:16 20	know more what it's about, and there are avenues
21	that I would explore in the commission of inquiry
22	that were not really appropriate for the Supreme

24	REPORTER: Do you think all the Supreme
02:17 25	Court is actually saying is that David's

2	miscarriage of justice? I don't know if that's
3	what you interpret it, but if that is the case,
4	how would you interpret that as a victory?
02:17 5	MR. HERSH WOLCH: Well, I disagree with
6	you, I mean they weren't asked about continued
7	incarceration, the question the Minister posed
8	was continued conviction.
9	MR. DAVID MILGAARD: It's not really part
<i>02:17</i> 10	of a victory if we're sitting here looking at a
11	commission of inquiry and saying "now where
12	should we poke holes at it". You know, when we
13	look at the Justice Department, the way they've
14	failed us, miserably sometimes, all of these
<i>02:17</i> 15	places all have to be looked at. Why shouldn't
16	they. Nothing to fear.
17	MR. HERSH WOLCH: I'd like to address your

19	words I'll try and answer it, but
02:17 20	REPORTER: I can't, somebody just told me.
21	MR. HERSH WOLCH: But I'm just saying that

JOYCE MILGAARD: They did make a 02:19 mistake in 1970 when they had Larry Fisher and 6 7 they didn't let -- go back at that point in time, so if they want to start talking, that's the time 8 9 when they made their big mistake. 02:19 10 I've never said that I -- you 11 know, from day one, they probably did think that 12 my son was guilty, and they -- and I've never 13 felt badly that that jury did at the time. The 14 jury, at the time, certainly heard evidence that -- and I've never felt that they did a bad job, 02:19 15 that jury, I felt that they did what they heard 16 17 in front of them. 18 But we know, now, about a lot 19 of disclosure that we didn't have at the time, 02:19 20 and the police did know that, so they took the 21 facts that they didn't give us, and they forced 22 them into a picture that wasn't real, and they 23 convicted my son. 9	But, you know, just on that one
<i>0</i> 2:21 10	issue I don't want to leave unsaid, and that is
11	that the question of police wrongdoing, or
12	screwing up the investigation, or whatever, was
13	not our focus in the Supreme Court, because what
14	we had to do was show there was credible evidence
<i>0</i> 2:22 15	that leads to David's innocence. That's what we
16	did, that's what we established. It would do us
17	no good to have the Court say "the police didn't
18	do things properly, but there is no credible
19	evidence", so that we concentrated on what we had
02:22 20	to do for that forum.
21	If there's an investigation or
22	an inquiry as to conduct, or how these things
23	happened, then we will concentrate on what's

I can read more if 8 you like, but that's the words. 9 **REPORTER:** Okay. Well how do you interpret 02:24 10 that yourself? 11 MR. HERSH WOLCH: Speaks for itself. Well 12 it goes on to say, I'm not going to read it to 13 you now, but it goes on to say that they 14 recommend to the Minister that she set aside the conviction, that she set aside the conviction and 02:24 15 direct that a new trial be held, conviction set 16 17 aside. They go on to say --18 MRS. JOYCE MILGAARD: And that means 19 innocence, right? 02:25 20 MR. HERSH WOLCH: That's what it means in 21 Canada at least. It would be open to the 22 Attorney General of Saskatchewan to enter a stay 23 if that course was deemed appropriate in light of 24 all the circumstances. However, if a stay is not 02:25 25 entered, a new trial proceeds and guilty is Meyer CompuCourt Reporting =

DAVID MILGAARD: I'm really happy to 8 have an opportunity to be getting out of this 9 place. 02:26 10 MRS. JOYCE MILGAARD: We're really excited 11 about it, because that choice of a new trial is 12 also a choice that the Supreme Court has made, to 13 say that there was a miscarriage of justice and 14 that there should be a new trial ordered, or they could quash the conviction, and that whatever 02:27 15 16 way, you know, we've been before the highest 17 Court in the land and David's innocence was 18 established there, of that conviction, and if 19 Saskatchewan wants to try again, well boy, we're 02:27 20 ready for them. This time we have disclosure. 21 MR. DAVID MILGAARD: The situation, how 22 everybody is trying to add it up, the bits and 23 pieces as to, you know, what may happen and what 24 may not happen, sometimes I'm left with 02:27 25 wondering, myself, as to what's taking place.

2 MR. DAVID MILGAARD: But, through all of 3 it, what I do see is a sense of at least now there's an effort by a lot of people to sort of 4 get on top of the situation and find out where 5 02:27 people are responsible for making mistakes, where 6 7 they made mistakes in the Justice Department, where they made mistakes in Saskatchewan, where 8 9 the people that are making mistakes in relation 02:28 10 to just trying to resolve things. 11 Like even sometimes you get in 12 the House of Commons, they get into different 13 avenues of public opinion or things like that, 14 anything that will move a situation or people 02:28 15 around, as we have been moved around from the 16 very beginning by various groups of people and 17 stuff, are becoming under the gun --18 REPORTER: So, David, --19 MR. 1 looked into, and people should be held 2 accountable; is that what you are saying? 3 MRS. JOYCE MILGAARD: Definitely. 4 MR. DAVID MILGAARD: I'm saying 5 Saskatchewan, the whole Province of Saskatchewan, 02:28 should be gone over with a fine-tooth comb. 6 7 MRS. JOYCE MILGAARD: I agree. 8 *REPORTER:* Do you think, Mrs. Milgaard, 9 that there is going to be a new trial, I mean, 02:28 10 what's your best knowledge on this? MRS. JOYCE MILGAARD: I think it would be 11 12 highly unlikely, however, we are very encouraged 13 by what the Supreme Court has said. 14 The point is all the witnesses 02:29 15 are there that were there before, so they could 16 certainly call a new trial, it isn't as if 17 anybody is dead. However, if the Supreme Court 18 was able to see through that and feel that if a 19 jury heard that, the jury would not have 02:29 20 convicted David, then why would Saskatchewan want 21 to try again? I mean I think it's very clear, if judges can see it, I think that even Saskatchewan 22 23 is going to have to be forced to admit it. 24 (Clip VT34 ends) 02:32 25 (Adjourned at 2:30 p.m.) Meyer CompuCourt Reporting =

1 same, it's high pressure to solve a crime, and 2 you get an idea in your mind and you fix on it 3 and you discard everything that's not consistent 4 with what you have began to believe and you 5 become really biased in your approach. 02:46 It's not that the police want 6 7 to convict the wrong quy, it's that they believe the wrong guy is guilty and they don't have an 8 9 open mind to it, and that's been the case in 02:46 10 almost every wrongful conviction, and you find 11 that the witnesses who testify falsely are often 12 young people who are easily led or pressured into 13 saying what they believe the police want to hear. 14 The police don't want them to lie, the police want them to say what the police want to hear is 02:47 15 16 what the police believe. 17 I know it -- I'm perhaps 18 drawing a fine line, but that's really the way it 19 happens. 02:47 20 (Clip VT36 ends) 21 (Clip VT37 played) 22 THE HON. 1	The case of Milgaard is very, a
2	very unusual and complex one. It was referred to
3	the Supreme Court because of its unique
4	characteristics. It was important to have this
<i>02:4</i> 8 5	case reviewed by the highest court in the country
6	so that I might have the benefit of the wisdom of
7	that court. That process has proved to be very
8	useful and I now have the advice of the court
9	based in part on information not previously
<i>02:4</i> 8 10	available.
11	In its advice to me, the
12	Supreme Court of Canada noted that David Milgaard
13	had the benefit of a fair trial in January, 1970.
14	The court noted that it had not been presented
<i>02:4</i> 8 15	with any probative evidence that the police acted
16	improperly in the investigation of the robbery,
17	sexual assault and murder of Gail Miller, or in
18	their interviews with any of the witnesses. Nor
19	was any evidence presented to the court that
02:49 20	there was inadequate disclosure of the Crown's
21	case.
22	Milgaard was represented by
23	able and experienced counsel. It is significant
24	to note that the court concluded that no error in
<i>02:4</i> 9 25	law or procedure was established at the trial.

Page 34007 : 1 Indeed, the court observed that, and I quote: 2 "At the conclusion of the first trial 3 there was ample evidence upon which the 4 jury, which had been properly instructed, could have returned a 5 02:49 verdict of guilty." 6 7 The Supreme Court has indicated that it was not satisfied beyond a reasonable 8 9 doubt that David Milgaard was innocent of the 02:49 10 murder of Gail Miller, nor was the court 11 satisfied that David Milgaard was innocent of 12 that murder even on a preponderance of all of the 13 evidence. 14 The court was, however, satisfied that there has been new evidence placed 02:49 15 before it which is reasonably capable of belief 16 17 and which, taken together with the evidence 18 adduced at trial, could reasonably be expected to 19 have affected the verdict of the jury. 02:50 20 In the result, the Supreme 21 Court concluded that the continued conviction of 22 Milgaard would amount to a miscarriage of justice 23 if an opportunity was not provided for a jury to 24 consider the fresh evidence. In light of this 02:50 25 conclusion, I have today signed a direction under

Meyer CompuCourt Reporting =

Page 34008 : 1 Section 690 of the Criminal Code providing Mr. 2 Milgaard with a new trial. 3 I wish again to thank the court for the extraordinary time and effort it has 4 5 devoted to this very difficult case. The court's 02:50 advice has greatly assisted me in the discharge 6 7 of my responsibilities under the Criminal Code as 8 Minister of Justice. 9 (Clip VT37 ends) 02:50 10 (Clip VT38 played) 11 REPORTER: ...an independent inquiry to 12 look at the broader circumstances of this case as 13 well as some sort of compensation for the 23 14 years Mr. Milgaard has spent in prison. Is that 02:51 15 premature pending --THE HON. KIM CAMPBELL: 16 I think that's 17 highly premature. 18 Minister, you say that the court REPORTER: 19 had new evidence, but really the court made its 02:51 20 decision based on more or less what you had 21 before you in the application. Ah, the first 22 time around you came to a second decision than 23 the court did. How do you explain the difference 24 in your --02:51 25 Well, that's not THE HON. KIM CAMPBELL:

	Page 34009
1	quite true. If you recall my announcement when I
2	referred the case to the Supreme Court of Canada,
3	I indicated that on the second application I had
4	before me evidence of a very difficult nature,
<i>02:51</i> 5	that I was not certain what use I could
6	appropriately make of that evidence in the light
7	of my responsibilities under Section 690 of the
8	Criminal Code, and I indicated at that time that
9	that evidence would become evident, would become
<i>0</i> 2:52 10	public in the course of the hearing before the
11	court.
12	As you know, under Section 690
13	of the Criminal Code, the process is not a trial
14	and I am not bound by the rules of evidence, and
<i>02:5</i> 2 15	it is extremely important that that process be
16	dealt with that way.
17	I have discussed this process
18	at some length with my counterpart in Great
19	Britain, the British Home Secretary, who has made
02:52 20	it clear that from his perspective, and I agree,
21	but particularly in the cases that have occurred
22	in Great Britain with the exercise of the Royal
23	Prerogative of Mercy, many remedies have been
24	granted based on evidence that would not be
<i>02:5</i> 2 25	admissible in a court of law, so the exercise of
	Meyer CompuCourt Reporting

Page 34010 : 1 the ministerial discretion under Section 690 is 2 not a trial. 3 But having said that, I found that I had before me in the second application 4 5 evidentiary issues, some of which arose from the 02:52 submissions, some of which came out as a result 6 7 of our investigations, that I required some quidance from the court in order to know what 8 9 kind of weight I was entitled to give them, and 10 it's been very difficult, and those of you who 02:52 11 have sat through the hearings will recognize how 12 complex and difficult those questions are, and I 13 felt that it required, first of all, a public airing of the evidence that was under 14 consideration, but also the guidance of the court 02:53 15 16 as to what value could be given to that evidence 17 given that this was not a court of law, given 18 that this was not a process which was governed by 19 the ordinary rules of evidence, and so I'm 02:53 20 deeply, deeply grateful to the court for that, 21 but they considered evidence that was not before 22 They also had the ability to compel evidence me. 23 which I think gave them a much broader range of 24 evidence to look at.

1 2 THE HON. KIM CAMPBELL: I have ordered a 3 new trial and I think the Supreme Court of Canada has advised that the continued conviction without 4 5 the opportunity to put this evidence before a 02:53 court would constitute a miscarriage of justice 6 7 and I have therefore ordered a new trial to 8 permit that to happen. 9 *REPORTER:* Will it be up to you or will that be up to Saskatchewan? 02:53 10 11 THE HON. KIM CAMPBELL: It's now up to 12 Saskatchewan. I am what is known in the law as 13 functus in this case, I have discharged my 14 obligations and I have signed the order for a new 15 trial and it is now the responsibility of the 02:54 16 Attorney General of Saskatchewan. 17 What about the court's advice REPORTER: 18 that there be a conditional pardon if a new trial 19 goes ahead and he's found guilty? 02:54 20 THE HON. KIM CAMPBELL: No, that's not what 02:54 6 we're looking at. We're looking at improving the 7 process. 8 REPORTER: How can the process be improved? 9 THE HON. KIM CAMPBELL: There are two 02:54 10 aspects of it that I think need to be improved. One is the ability of the Minister of Justice to 11 12 compel evidence in the process. The advantage 13 that the Supreme Court of Canada had was that 14 they were able to require people to testify. 15 Under the process as it exists now, we must seek 02:54 16 the co-operation of witnesses, and I remind you 17 again it's not a trial, so there are 18 requirements, there are no -- there's no power in 19 the minister to require someone to co-operate 02:55 20 with an investigation that results from the 21 submission, but secondly, I'm also concerned 22 about the transparency of the process. I have 23 said and I believe it's vindicated by this 24 decision that the process is eminently fair. Ιn the course of the first application when 02:55 25

Page 34012 =

_____ Meyer CompuCourt Reporting =

1	aspersions were cast on the fairness, I moved
2	very quickly to get outside counsel because I was
3	very concerned that unfair attacks were being
4	made on the process and the investigation as it
<i>02:55</i> 5	was being conducted by the department.
6	In the course of the hearing in
7	front of the Supreme Court of Canada, no one was
8	able to avail themselves, for example, of
9	privacy, nor ordinarily when we are conducting
<i>02:5</i> 5 10	investigations, people will only speak to us on
11	the basis of confidentiality, we must respect
12	that.
13	What I want to look at is a way
14	of making the process more transparent, making it
<i>02:5</i> 5 15	more visible to the public what has been done. I
16	believe that that would go an enormous distance
17	towards reassuring people of the fairness and the
18	thoroughness of the process and I think that the
19	fairness and thoroughness of the process has been
02:56 20	eminently vindicated by the process before the
21	Supreme Court of Canada, so those are two things
22	I am very concerned to look at.
23	One is the compellability of
24	evidence, the ability of the investigations
<i>02:5</i> 6 25	conducted by the Department of Justice to require
	Meyer CompuCourt Reporting

Page 34014

people to participate, and I'm not sure what the recommendations will be there, and secondly, a clearer view of what the confidentiality requirements are and how we can make the record public in a way that would assure the public these things had been dealt with as thoroughly and fairly as they in fact are dealt with.

8 REPORTER: The Canadian Bar Association has 9 suggested that maybe the Supreme Court is not the 02:56 10 best avenue for this, maybe it would be better to 11 set up some sort of an independent body headed up 12 by a former justice, that way you wouldn't be 13 eating up valuable sitting days.

Well, first of all, 14 THE HON. KIM CAMPBELL: 15 let me point out that this process in front of 02:56 16 the Supreme Court of Canada was highly unusual. It was not a trial and it was not an appeal, it 17 18 was a reference to the Supreme Court to provide 19 me with a legal opinion, because I had before me 02:57 20 evidence of a very difficult nature. Determining 21 whether that evidence could bring me to a 22 conclusion that there had been a miscarriage of 23 justice such as to trigger any of the remedies 24 under Section 690 was not clear to me, it was a 02:57 25 very, very difficult question to answer, and

— Meyer CompuCourt Reporting =

Page 34015 : 1 there were a variety of reasons why I went to the 2 Supreme Court of Canada. 3 That is highly unusual and certainly I think there are a number of major 4 5 cases in Canadian history, I think of the 02:57 Truscott case and the Coffin case, where these 6 7 kinds of issues have gone before the Supreme Court in a variety of different forms, but it 8 9 would be quite wrong to challenge the process 02:57 10 based on this particular instance because it was 11 a highly unusual case. 12 I think that by making the 13 process work better in terms of putting more 14 power in the hands of the minister in conducting an investigation and by making it more 02:57 15 16 transparent, I think we can make it work better, but it is important to understand that this is 17 18 not and cannot become simply another step of 19 appeal. 02:58 20 This remedy is sought by people 21 who, first of all, have been convicted, who have 22 exhausted all avenues of appeal and who believe, 23 as a result of new evidence, that it is 24 appropriate to remit this to a lower court. Ι 02:58 25 receive about 30 of these applications a year.

Page 34016 : 1 Many of them are simply seeking me to substitute my view for that of the jury. Others, such as 2 3 the Nepoose case, are fairly straightforward and 4 trigger a remedy quite quickly. 5 The nature of the submissions 02:58 in this case is highly unusual, was very complex 6 7 and required that I undertake the process that I did, but that's highly unusual. 8 9 (Question and answer in French) 10 TRANSLATOR: Miss Campbell now saying it's 02:58 11 up to the Attorney General in Saskatchewan to 12 decide what happens next in this case. Remember 13 the Supreme Court held open the possibility that the Attorney General of Saskatchewan could enter 14 a stay in the proceedings, which means that there 15 02:59 would be no trial of David Milgaard again in the 16 17 case of Gail Miller. 18 (Question and answer in French) 19 TRANSLATOR: Miss Campbell now saying that 20 she has asked for advice on how Section 690 of 02:59 21 the Criminal Code should work, that in fact this

1 THE HON. KIM CAMPBELL: I spoke to him and advised him of my position and what I would be 2 3 doing as a courtesy. He happens, in fact, to be 4 in Ottawa, so --5 *REPORTER* : Given what the high court said 03:03 about the original trial, does it make it 6 7 unlikely now that the federal government will call an inquiry into the whole provincial justice 8 9 system? 03:03 10 THE HON. KIM CAMPELL: Well, I don't see, from this judgment, any indication that such an 11 12 inquiry would be appropriate. I think what the 13 court has gone to great pains to say is that it 14 has seen nothing, no probative evidence that indicates any impropriety in the way the trial 03:03 15 16 They have said that in fact the was carried out. 17 evidence before the jury, the jury was properly 18 instructed, was sufficient to justify the 19 verdict. They are talking about new evidence 03:04 20 that was not available at the time and they have 21 not indicated what that, what the weight of that 22 evidence would be, but they have said that it 23 could possibly affect the decision of a jury and 24 therefore fairness requires that such evidence be 03:04 25 put before a jury and that is the basis on which

Page 34019 :

Page 34020 : 1 they've made their recommendation and on which 2 I've ordered a new trial. 3 Just to return to the question REPORTER: 4 of compensation. Would it take a verdict of innocent in a new trial before you would consider 5 03:04 6 compensation? 7 THE HON. KIM CAMPBELL: Well, I think 8 that's highly, highly premature even to think of 9 that, we have not had a resolution of this case, 03:04 10 and I would remind you, I mean, I would just 11 refer you again to the wording of the court's 12 judgment that --13 REPORTER: But if fresh evidence is the 14 reason for making its recommendation, what did it 03:04 15 have that was different than the evidence or the 16 materials that were compiled to you by your 17 departmental lawyers that made you come to this decision? 18

19THE HON. KIM CAMPBELL: Well, there were a03:0420variety of things that were before the court that21did not come to me in the first application, they22came to me in the second application, and the23material with respect to, for example, to Mr.24Fisher being one of them, that it was before me03:0525

= Page 34021 =

1	important to have some very careful legal
2	guidance in how that was to be dealt with.
3	There was other evidence also
4	that came forward in the second application. I
<i>03:05</i> 5	don't want to get into specific points of detail
6	just as the court has not gotten into specific
7	points of detail as to the evidence that led them
8	to draw their conclusions, but there certainly
9	was a considerable amount of new evidence, some
<i>03:05</i> 10	of which was of a sort that it was very unclear
11	what to make of it, and I remind you again that I
12	don't have the simple criteria of what would be
13	admissible in a court of law because the question
14	to me is not is there evidence that could justify
<i>03:05</i> 15	necessarily a different verdict, but is there
16	evidence that would suggest that the conviction
17	was a miscarriage of justice.
18	Now, the court has said that
19	there was not a miscarriage of justice in the
03:06 20	initial conviction, what they have said is that
21	the continued conviction would be a miscarriage
22	of justice if new evidence was not able to be put
23	before a jury, and it's to avoid that miscarriage
24	of justice that I've ordered the new trial.
<i>03:06</i> 25	REPORTER: Does this new trial overturn the

conviction in the first trial, the ordering of a new trial?

3 Well, I think it's THE HON. KIM CAMPBELL: 4 interesting, the court used the expression to quash a conviction. That is not the power that 5 03:06 is available to me under Section 690, but I think 6 7 it probably has a similar effect and I think 8 that's something we should ask the Attorney 9 General of Saskatchewan. I've ordered the new 03:06 10 trial. 11 REPORTER: Does that vacate his previous 12 conviction?

13THE HON. KIM CAMPBELL: That's a legal14question that I really don't know the answer to,03:0615the exact technical working of that. I think16it's implied, but I think the Acting Attorney17General of Saskatchewan has a better sense.

18REPORTER: So you now have -- you now have19a man in prison who is not convicted of a crime?03:0620THE HON. KIM CAMPBELL: But he's subject to21a charge, yes, he is.22REPORTER: Ms. Campbell, when Canadians

hear, though, that you've ordered a new trial, that obviously, or people who just follow this on a general basis, it obviously casts some doubt on

- Page 34023 -

	1	Milgaard's conviction, the original conviction,
	2	even though the Supreme Court says the old
	3	evidence stays firm. Doesn't that throw another
	4	black mark yet on the Canadian justice system?
03:07	5	THE HON. KIM CAMPBELL: On the contrary. I
	6	believe that the court has made it very, very
	7	clear that David Milgaard, it has said it
	8	explicitly, that he had a fair trial in 1970. I
	9	think that most Canadians can understand that in
03:07	10	any kind of criminal process, after the process
	11	is finished new evidence may come to light that
	12	was not available to be considered before.
	13	Whether that new evidence is sufficient to change
	14	the verdict or not the court does not say, but
03:07	15	fairness requires that a method be found to
	16	consider it, but this does not mean that the
	17	original process was not fair, it simply means
	18	that there might have been evidence adduced that
	19	could alter the view of the jury and fairness
03:07	20	requires us now when we are aware of it to enable
	21	it to be considered.
	22	REPORTER: So that means the whole system
	23	works?
	24	THE HON. KIM CAMPBELL: I think it does, I
03:08	25	think it vindicates it, and think that in
		Meyer CompuCourt Reporting

- Page 34024 -

	1	fact, I have seen some extraordinary comments
	2	about the process in the papers, and people speak
	3	about the Donald Marshall case, for example, this
	4	is precisely the process that gave Donald
03:08	5	Marshall his freedom, it is a process that works
	6	well, it is a process that is not meant to be a
	7	substitute for an appeal court, it is a process
	8	that works actually relatively expeditiously.
	9	REPORTER: 23 years?
03:08	10	THE HON. KIM CAMPBELL: Well, this case was
	11	resolved fairly quickly when the submissions were
	12	complete. The submissions were made over a
	13	period of time and in order to give the full
	14	benefit of the doubt to Mr. Milgaard, each
03:08	15	submission that was made was given full
	16	investigation. It is a process that works. I
	17	think it is important that it not simply become
	18	an automatic level of appeal for everyone who
	19	disagrees with their verdict and that is why it
03:08	20	is very important that it be dealt with
	21	carefully, that it is not simply another step of
	22	appeal. It's an extraordinary remedy, but it is
	23	one that has worked to great effect.
	24	REPORTER: Ms. Campbell, the Supreme Court
03:09	25	moved, as you've noted, very, very quickly to
		Meyer CompuCourt Reporting

Page 34025 : 1 deal with this. How important now is it that the 2 next step happen just as quickly in terms of 3 justice for everyone involved in the case? THE HON. KIM CAMPBELL: 4 Well, the courts in 5 Saskatchewan will be subject to the, what we may 03:09 call the common law rule that has come down about 6 7 expeditiously dealing with charges under the 8 Criminal Code, so they will have their time 9 frames set out for them and I believe that they 03:09 10 will act appropriately, I have every confidence 11 they will act appropriately. 12 (Clip VT38 ends) 13 (Clip VT39 played) 14 MS. WENDY MESLEY: One by one the prison doors that led to David Milgaard's cell began 03:09 15 16 swinging open today. First, the Supreme Court 17 ruled this morning that his murder conviction 18 should be quashed in light of new evidence. Ιt 19 recommended Justice Minister Kim Campbell order a

03:1020new trial. She took that advice this afternoon.21The man who now holds the last22key to Milgaard's freedom is Saskatchewan23Attorney General Bob Mitchell. He will decide24whether to hold a new trial or he can order a03:1025

Page 34026 : 1 free. This afternoon Mitchell said he would 2 allowance his decision on Thursday. 3 Joining us now from Winnipeg 4 are David Milgaard's mother, Joyce Milgaard, and 5 his lawyer, David Asper. 03:10 Mrs. Milgaard, it looks like 6 7 one way or another your son is about to be free. 8 How does it feel that the struggle is over? 9 MRS. JOYCE MILGAARD: It's -- it's incredible. It's been such a see-saw type of an 03:10 10 11 event, you are up one moment and down the next, 12 but it really does look like we're on an up. 13 MS. WENDY MESLEY: And yet it is possible, 14 either through a new trial or a stay of proceedings, that doesn't say whether he's guilty 03:10 15 16 or innocent. David Asper, let me ask you, are 17 you prepared to live with that, that he could be 18 set free without it ever being clear whether the 19 courts think he's guilty or innocent? Well, I think that 03:11 20 MR. DAVID ASPER: 21 there's a very important issue that you have to 22 remember, which is that in ordering the new 23 trial, the Supreme Court has concluded that there 24 is new evidence not available at the trial which 03:11 25 could have affected the verdict of the jury.

_____ Meyer CompuCourt Reporting =

= Page 34027 =

1	Now, as a practical aspect of
2	this whole case, courts are loath to re-open
3	cases unless the evidence is so powerful that it
4	not only could affect the verdict, but is likely
<i>03:11</i> 5	to affect the verdict, so we take solace in
6	knowing that we've put our best foot forward and
7	we believe that we've established that David is
8	innocent and we believe that a new trial would
9	confirm that.
03:11 10	MS. WENDY MESLEY: What so is that your
11	preferred option now, you do want that trial?
12	MR. DAVID ASPER: Well, we've said to
13	Saskatchewan, if you are going to stay
14	proceedings, you can't stay proceedings by
<i>03:11</i> 15	default, and we call on Saskatchewan, if they are
16	going to stay proceedings, to do so on the basis
17	that there is no evidence linking David Milgaard
18	to this murder, no credible evidence whatsoever.
19	MS. WENDY MESLEY: Yeah, but you have no
03:12 20	guarantee of what the Attorney General is going
21	to say, he could just stay proceedings and say we
22	never know. How do you feel about that, Mrs.
23	Milgaard?
24	MRS. JOYCE MILGAARD: I would really, at
03:12 25	that point, be demanding a new trial because I
	Meyer CompuCourt Reporting

- Page 34028 -

1	think we have the right I mean, my son has a
2	right, the Supreme Court says, to a trial and to
3	be in front of a jury. If they are not prepared
4	to stay that conviction, and to stay it as my
<i>03:12</i> 5	lawyer has just explained, then I think that we
6	have that right to the trial.
7	There is an awful lot of things
8	that didn't come out at the Supreme Court. My
9	lawyer kept telling me the inquiry will bring
03:12 10	these things out, but, you know, when I sit and
11	listen to almost what appears to be a whitewash
12	of what went on in Saskatchewan, I'm not prepared
13	to sit still for that, and I guess our whole
14	family is too much of fighters to stand by and
<i>03:13</i> 15	say that Saskatchewan can just quickly slide away
16	and wash it all over and say, well, you know, we
17	don't know and this type of thing. We know he's
18	innocent.
19	And I know something else, the
03:13 20	Gail Miller family, they were very courageous in
21	coming forward and suggesting that this case be
22	re-opened. It would be very saddening indeed
23	that if the final thing should be a whitewash and
24	should not very clearly establish what really
<i>03:13</i> 25	went on and what happened to her.
	Meyer CompuCourt Reporting

Page 34029

1	MS. WENDY MESLEY: Your son said this
2	morning that the people who did this to him, who
3	kept him in prison for 23 years have to be held
4	accountable, a very strong suggestion throughout
<i>03:13</i> 5	the day, that you will eventually be seeking
6	compensation for his 23 years in jail. Is that
7	clear.
8	MRS. JOYCE MILGAARD: The compensation that
9	I would like, and I will be very clear about it,
<i>03:14</i> 10	is to see the accountability of the people that
11	wronged our family and my son. That's that's
12	
13	MS. WENDY MESLEY: What does that mean, is
14	that money, or is that saying they are sorry?
<i>03:14</i> 15	MRS. JOYCE MILGAARD: That could be, to me,
16	just saying you're sorry. I have never been
17	interested in money, I have been interested in
18	clearing my son's name, and that is the prime
19	object in this whole thing is that someone sits
03:15 20	down and says "we're sorry, when we knew about
21	Larry Fisher we should have, at that time,
22	re-opened the case, and we didn't do that". That
23	would make me feel really good.
24	MR. DAVID ASPER: I might add that David
<i>03:15</i> 25	himself has been very vocal all along the way in
	Meyer CompuCourt Reporting

- Page 34030 -

1	asserting that part of his case has got to be
2	beyond David Milgaard, to the extent that what he
3	has had to go through in terms of trying to get
4	the case re-opened and get redress, shouldn't
<i>03:15</i> 5	happen to somebody else, and so he's been very
6	forward-looking in that respect. And to the
7	extent that
8	MS. WENDY MESLEY: Well what do you plan as
9	a lawyer; should there be another step, legally,
<i>03:15</i> 10	to tackle the legal system?
11	MR. DAVID ASPER: Well, I think the first
12	step is to hear what Saskatchewan is going to do.
13	You know, if there's going to be a new trial,
14	that's going to be our next step. If there's not
<i>03:16</i> 15	going to be a new trial, I suppose we'll have to
16	hear how it is couched, but I think that, in a
17	broad sense, the next step, as the Minister said
18	in her news conference, is that the current
19	system and I guess I disagree with her a
03:16 20	little bit on how it works now but I do agree
21	that it needs refining, and if that can come out
22	of the David Milgaard case, I think that's a
23	very, very important step that we have taken, and
24	I know that it's something that David has been
<i>03:16</i> 25	concerned about from the very outset.
	Meyer CompuCourt Reporting

1 MS. WENDY MESLEY: All right. Well thank you very much, David Asper and Joyce Milgaard, 2 3 for being with us today, and I guess we'll find out Thursday the final step. Thanks so much for 4 5 being with us. 03:16 (Clip VT39 ends) 6 7 (Clip VT40 played) 8 NARRATOR: ... is in Stony Mountain 9 Penitentiary in Manitoba. That is Bob Mitchell 03:17 10 now, coming through the door, the Saskatchewan Attorney General, taking his place. And let's go 11 12 live, now, to Regina, Saskatchewan and Attorney 13 General Bob Mitchell. MR. BOB MITCHELL: The office of the 14 Attorney General of Saskatchewan has, after a 03:17 15 16 full review of the situation, decided that the 17 Crown will enter a stay of proceedings in the 18 murder case against David Milgaard. 19 Given the decision of the 03:17 20 Supreme Court of Canada earlier this week we have 21 decided it is not in the best interests of the 22 people of Saskatchewan, or of the justice system, 23 to proceed with this case. 24 The Supreme Court's ruling said 03:17 25 that, while it did not find David Milgaard

Page 34031

Page 34032 1 innocent of the rape and murder of Gail Miller, 2 it feels further evidence, which might or might not impact a jury decision, has been brought to 3 light and should be examined. 4 5 Following that finding, Federal 03:17 Justice Minister Kim Campbell has ordered a new 6 7 trial for Milgaard. We do not believe that a new trial is feasible. First of all, the evidence is 8 9 23 years old. Some witnesses have died and some, 03:18 10 as the Supreme Court hearing shows, just don't 11 remember what happened. 12 As well, the Supreme Court has 13 decided that Mr. Milgaard has served his term, stating in effect that, if he were convicted, the 14 Federal Justice Minister should pardon him 03:18 15 16 immediately. We have to ask ourself why the 17 people of Saskatchewan should pay for a trial 18 which cannot, in any sense, result in punishment 19 of Mr. Milgaard if he was convicted again. 03:18 20 In making today's announcement 21 we feel we have to make a couple of points 22 crystal clear. First, the government will not 23 order a commission of inquiry into the Milgaard 24 case. In the opinion of the Supreme Court, Mr. 03:18 25 Milgaard was given a fair trial after a competent

— Meyer CompuCourt Reporting =

Page 34033 1 police investigation, and was justly convicted on 2 the evidence presented. I do not see what an 3 inquiry could possibly establish that the Supreme Court has not already done. 4 5 Secondly, we will not be 03:19 6 offering any compensation to David Milgaard. Ιt 7 is, of course, his right to seek legal recourse 8 against the government, but we will oppose any 9 such claim. 03:19 10 The bottom line is that there is nothing that was brought before the Supreme 11 12 Court which convinced even one Justice that Mr. 13 Milgaard is either innocent or a victim of a 14 miscarriage of justice. Anyone who would suggest 03:19 15 otherwise has no understanding of what the 16 Supreme Court said. 17 I have asked the Public Prosecutions Branch to determine whether or not 18 19 there is sufficient evidence to bring a charge of 03:19 20 murder in respect of the death of Gail Miller 21 against any other individual. Like the Supreme 22 Court, they do not appear to think there is, but 23 they will continue their inquiry and will report 24 back to me. 03:20 25 In conclusion, I want to offer

Page 34034 1 my sympathies to the family of Gail Miller. We 2 would have liked to be able to allow you to close 3 that uqly and heart-rending chapter of your lives 4 but, unfortunately, we cannot. This case has not been an easy 5 03:20 one from the point of view of the fair and 6 7 judicious application of justice. I hope that 8 today's announcement will finally put it to rest. 9 (Clip VT40 ends) 03:20 10 MS. MONAR ENWEANI: Mr. Commissioner, that 11 appears to be an appropriate spot in the video 12 tape collection to break. 13 COMMISSIONER MacCALLUM: Thank you. 14 MS. MONAR ENWEANI: Thank you. 03:20 15 (Adjourned at 3:20 p.m.) 16 17 18 19 20 21 22 23 24 25 Meyer CompuCourt Reporting =
