WOLCH: 01:02 6 Q Mr. Brown, if a factually innocent Thank you. 7 person was convicted of a crime, would that be a 8 miscarriage of justice? 9 A factually innocent person, yes. Α 01:02 10 So in 1970 the conviction of David Milgaard was a 0 11 miscarriage of justice? 12 Α We didn't know that at that point, no. 13 0 That wasn't my question. Well, if you look at it that way, yes. 14 Α We have to 01:03 15 deal with what we know, so in 1970 we didn't know 16 that. 17 0 I didn't say that. You agree it was a miscarriage 18 of justice? 19 Α Ultimately, yes, that's correct, and it was shown 01:03 20 to be, whenever it was, in 1997. 21 Mr. Brown, you say ultimately. It was always a Q 22 miscarriage of justice; was it not? 23 Α Yes, that's what I said, and it was ultimately 24 shown to be in 1997. 01:03 25 I would like to touch on the Supreme Court Q

1		decision again, 058828, and if we can go to 29,
2		please, and we dealt with this last time so I
3		don't intend to spend particularly much time with
4		it, but we dealt with the question posed to the
01:04 5		court; correct?
6	А	Yes.
7	Q	Okay. And the answer to (a) would be either yes
8		or no?
9	А	Yes.
01:04 10	Q	But in terms of (b), in terms of the remedy to be
11		recommended, the court set out some guidance for
12		how they would determine what remedy to recommend;
13		would that be fair?
14	A	Yes.
<i>01:04</i> 15	Q	And we'll skip (a), we know what it is, we'll go
16		to (b) and then to (c). Now, (a), (b) and (c) are
17		together, and if we can scroll to (c), (c) is much
18		akin to the test for fresh evidence; is it not?
19	A	Yes, it's a modified fresh evidence test.
01:05 20	Q	And if we scroll down, or to the next page rather,
21		sorry, now (d) is what should be done if they fail
22		to establish a miscarriage of justice as in (a),
23		(b) or (c)?
24	A	Yes.
01:05 25	Q	Right? Now, do you agree with me it seems to be
		Meyer CompuCourt Reporting

		Ŭ
1		saying that (a), (b) and (c) are miscarriage of
2		justices?
3	А	Well, it seems to say that, but then when you read
4		(a), (b) and (c), it says would be.
01:05 5	Q	But that was the question posed.
6	А	Well, that's the way they worded that, yes.
7	Q	Okay. So here is if you don't in effect, what
8		(d) is saying, if you don't find a miscarriage of
9		justice, if we don't find rather, you might
01:06 10		consider a conditional pardon, and was it your
11		evidence, and I don't want to misquote you, that
12		that paragraph is based on sympathy?
13	А	Well, that's what I referred to as the sympathy
14		option simply because if you don't find a
01:06 15		miscarriage of justice or you don't find something
16		upon which to hang your hat, ordinarily there
17		wouldn't be a remedy, and certainly that would be
18		the minister's what the minister would do, but
19		the Supreme Court had a different view.
01:06 20	Q	Well, rather than sympathy, what if the court was
21		left in a position that it felt the new evidence
22		didn't meet the fresh evidence test, and I'm
23		paraphrasing (c), didn't meet it, but caused them
24		to have concerns about the conviction, what do
01:07 25		they do?
		Meyer CompuCourt Reporting

1	А	Well, presumably they could have said that if
2		that's what their concern was, but they didn't.
3	Q	But this was set up before they made any
4		determination.
01:07 5	А	Yes, I'm aware of that.
6	Q	They hadn't determined what they were going to
7		determine in the end.
8	А	Yes.
9	Q	So looking forward, they could very easily
<i>01:0</i> 7 10		envision a position, would they not, where the
11		applicant didn't meet the test but still caused
12		them concern as to the appropriateness of the
13		conviction and (d) would be the way to handle it?
14	А	Perhaps, yes.
<i>01:07</i> 15	Q	So (d) wouldn't be sympathy, it would just be a
16		matter of the fresh evidence test, which is quite
17		difficult, hasn't been met, but, you know, maybe
18		Fisher did it, maybe David is innocent, here is a
19		way to look at it if we're in that ballpark.
01:07 20		Nothing to do with sympathy at all.
21	А	Well, you can interpret it that way.
22	Q	Okay. And of course if the answer is no, that's
23		the end of it, to the first question, if the court
24		says no, don't do anything, we're done.
01:08 25	А	Well, presumably you don't get to (b).

	1	<b>Q</b> Yeah. You don't even get to (d). Now
	2	COMMISSIONER MacCALLUM: Well, Mr. Wolch
	3	MR. WOLCH: Sorry.
	4	COMMISSIONER MacCALLUM: sympathy, at
01:08	5	least in its abject title form, is used in the
	6	second last line of (d).
	7	MR. WOLCH: Yes, but that's sympathetic
	8	consideration; that is, if you can't it
	9	doesn't go to his personal circumstances, but
01:08	10	rather to the facts is what I'm suggesting. That
	11	is
	12	COMMISSIONER MacCALLUM: I see.
	13	MR. WOLCH: That is, if you are in that
	14	legal quandary, I mean, sympathy, it's hard to
01:08	15	think what's sympathetic in the facts, but I'll
	16	deal with that.
	17	BY MR. WOLCH:
	18	<b>Q</b> Because the other line that causes some concern,
	19	and I think you commented on it, if we go to 36:
01:09	20	"However, if a stay is not entered, a
	21	new trial proceeds and a verdict of
	22	guilty is returned, then we would
	23	recommend that the Minister of Justice
	24	consider granting a conditional pardon
01:09	25	to David Milgaard with respect to any

1		sentence imposed."
2		And you interpret that as some form of sympathy?
3	А	Yes. If we had gone through the process of
4		running a new trial, got a conviction, the
01:09 5		sentence is automatic, I think that is a
6		sympathetic, and, frankly, an appropriately
7		sympathetic result.
8	Q	Unless it's not sympathetic at all.
9	А	At that point what would it be?
01:09 10	Q	Well, what if, for example, the court thought
11		there was real doubt about the guilt, real doubt,
12		even on further conviction, here is a way around
13		it because the court felt he was innocent.
14	А	Well, again, Mr. Wolch, you can read that in if
<i>01:10</i> 15		you want. I don't read it in, but
16	Q	Well
17	А	feel free.
18	Q	Let's examine it a little more. If David went to
19		another trial and was convicted, that would
01:10 20		conclusively say he robbed, raped and murdered
21		Gail Miller; correct?
22	А	Well, not on the basis of what you are saying.
23	Q	No, no, no, but in law it would?
24	А	Yeah, the question is concluded as far as the law
01:10 25		is concerned.

1	Q	Okay. Now, he's convicted of murder, a horrible,
2		horrible murder; correct?
3	А	Uh-huh.
4	Q	He hasn't taken treatment, he's avoided it saying
01:10 5		I'm innocent, don't give me treatment; correct?
6	А	Uh-huh.
7	Q	He would be considered dangerous?
8	А	It was 23 by that time it would have been 23
9		years ago and he was 16 at the time. Things
01:11 10		change.
11	Q	But looking at the crime and lack of treatment,
12		one would not have a great deal of confidence in
13		that person at liberty?
14	А	Well, he yeah.
<i>01:11</i> 15	Q	He had escaped twice?
16	А	Yeah.
17	Q	You also have the Miller family that somehow the
18		killer, or there should be no conviction against
19		the killer. Wouldn't that cross somebody's mind?
01:11 20	А	Well, I have to say it didn't seem to disturb them
21		that much when we entered a stay.
22	Q	Only if they considered him innocent.
23	А	Well, did they?
24	Q	Well, we'll get to that. Furthermore, he would
01:11 25		have committed perjury in the Supreme Court;

	1		correct?
	2	А	If you say so.
	3	Q	If he was convicted later?
	4	А	Yeah. Well, no, it doesn't necessarily follow.
01:12	5	Q	Well, he testified at the Supreme Court I didn't
	6		do it. If he's convicted later of the crime,
	7		isn't that tantamount to saying he perjured
	8		himself?
	9	А	Mr. Wolch, we got a conviction the first time
01:12	10		around and had he said he wasn't guilty, I expect
	11		we would have still got the conviction. It
	12		wouldn't make it perjury, it just means his
	13		evidence wasn't believed.
	14	Q	No, no, but would he not have perjured himself in
01:12	15		the Supreme Court?
	16	А	Well, for the sake of argument, okay, yes.
	17	Q	And then if he testified and was disbelieved in
	18		his trial, he would have perjured himself again?
	19	А	Fine.
01:12	20	Q	I'm trying to understand how you can think that
	21		the Supreme Court was acting out of sympathy.
	22	А	Because, Mr. Wolch, he was 16 years old when he
	23		went into a federal penitentiary for that murder,
	24		spent 22 years in hell basically and why wouldn't
01:13	25		they have some sympathy for him.
			Meyer CompuCourt Reporting

		Murray Brown by Mr. Wolch Vol 184 - Monday, September 18th, 2006
		——————————————————————————————————————
1	Q	So you are saying that they would, on a verdict of
2		guilty in the future, recommend a conditional
3		pardon for somebody they thought committed the
4		crime of that seriousness?
01:13 5	А	Yes.
6	Q	Had lied to the court, wouldn't take treatment,
7		they would just say go?
8	А	That is exactly what they did.
9	Q	But I suggest that's consistent with thinking he
01:13 10		wasn't guilty.
11	А	Well, that may be your interpretation, Mr. Wolch.
12		I don't accept that.
13	Q	The court in a Supreme Court, not that all courts
14		aren't strong, was a particularly strong one; was
<i>01:14</i> 15		it not?
16	А	How do you mean? In terms of the people?
17	Q	You had the current you had the past chief
18		justice of the Supreme Court; correct?
19	А	That's right.
01:14 20	Q	You had the current chief justice of the Supreme
21		Court?
22	А	Yeah.
23	Q	You had
24	А	You had a senior panel.
01:14 25	Q	Yeah, you had Justice Cory who has since had an

1		inquiry into wrongful convictions?
2	А	Yes.
3	Q	In fact, Justice Lamer did too?
4	А	Uh-huh.
01:14 5	Q	Justice Sopinka unfortunately has passed away, but
6		an incredibly high reputation?
7	А	Uh-huh.
8	Q	And Justice Iacobucci who is respected by
9		everyone?
<i>01:14</i> 10	А	That's right.
11	Q	And you are saying that that court would, would
12		countenance no conviction or a pardon for somebody
13		they believed committed an horrific murder?
14	А	I'm saying they did, not that I believe they
<i>01:14</i> 15		would. That's what the judgment in my view said.
16	Q	You are saying based on that as opposed to based
17		on this guy could be innocent?
18	А	Well, you know, if they had thought he was
19		innocent, they could have said so, and they
01:15 20		didn't.
21	Q	Well, they recommended a murder conviction be
22		quashed.
23	А	On the basis that there was some evidence that a
24		jury should consider.
01:15 25	Q	Credible evidence which could affect the verdict?
		Meyer CompuCourt Reporting

AS.

Page 38359

	Ĩ		Page 38359
	1	A	Yeah. If they had thought he was innocent, why
	2		would they have sent it back for a new trial.
	3	Q	I'm suggesting to you that if they thought
	4		somebody was guilty, given that this is not an
01:15	5		appeal, we're not talking about legalities of an
	6		appeal, given it wasn't an appeal, if they thought
	7		somebody was guilty, there would never be a remedy
	8		recommended?
	9	A	Well, Mr. Wolch, you're right it's not an appeal,
01:15	10		it was a much broader proceeding than that, and
	11		the remedies open to them were unlimited.
	12	Q	No, they had one.
	13	А	I
	14	Q	That was to give advice to the minister, and the
01:15	15		minister will not
	16	А	Well
	17	Q	give a remedy to somebody that the minister
	18		believes is guilty?
	19	А	Well, Mr. Wolch, if you want to testify to what
01:16	20		that was all about, you can certainly do that, but
	21		I'm telling you what I think the decision said.
	22	Q	I appreciate that.
	23	А	And the decision did not say that they thought he
	24		was innocent.
01:16	25	Q	Well, we'll deal with that. There was one thing

1		which occurred in the Supreme Court which I'd like
2		to ask you about, and that is when Mr. Fisher
3		testified, it came to light that he had been
4		interviewed by Justice; do you recall that?
01:16 5	А	Well,
6		COMMISSIONER MacCALLUM: Justice who?
7		MR. WOLCH: Oh, Mr. Williams.
8		COMMISSIONER MacCALLUM: Oh, okay.
9	А	The federal Department of Justice, I believe.
01:16 10		BY MR. WOLCH:
11	Q	I'll draw your attention to it but I just
12		thought
13	А	I believe he was interviewed on behalf of Justice,
14		whether it was done by an RCMP officer or Eugene
01:16 15		Williams I don't recall, but I know somebody went
16		to the prison to see him.
17	Q	Okay. And I were you aware of the contents of
18		that interview before Mr. Fisher testified?
19	А	I if it was given to us I'm guessing we were,
01:17 20		yes. I don't
21	Q	Okay. I don't think you were, but we'll talk
22		about that in a minute. You may have been. If we
23		can go to his evidence, I think it's 232244, and I
24		want it at page 409. At 409, please, thank you.
01:17 25		Now, just to set the stage, this is Mr. Fisher

1	testifying, and the question is put because
2	I'll set the stage a little better and save
3	time Mr. Beresh had questioned him about his
4	giving a statement to Mr. Williams and the
01:17 5	question was put here:
6	"Q And you also testified and were
7	questioned by Mr. Williams of Justice?
8	A Yes, sir.
9	Q And you put a ban on that, that
<i>01:18</i> 10	Milgaard's counsel could not see it?
11	A That's right."
12	And if you just turn the page:
13	"Q Why do you have a ban on it,",
14	and then Mr. Beresh says it's a sensitive area,
<i>01:18</i> 15	takes a position identical to the position with
16	Justice Tallis.
17	"There was an interview. There was an
18	undertaking and for the same reasons
19	that he refused to release the
01:18 20	undertaking, so do we."
21	That's a misstatement of fact, although I'm not
22	sure deliberate. Now I'm setting the stage for
23	you. That statement was a ban or a
24	confidentiality imposed, it would appear. Does
01:18 25	that help you at all, in seeing that, as to what

1		your position might have been?
2	А	Well, again, I don't recall specifically. I know
3		we didn't get Justice Tallis' statement, I
4		thought my recollection is that there might
01:19 5		have been some others we didn't get because there
6		were they were given to Justice confidentially,
7		but I wasn't it doesn't strike me that Larry
8		Fisher's was one of them. I certainly knew that
9		he had taken a polygraph in jail.
01:19 10	Q	Okay. But the results of it; was that given to
11		you?
12	А	Well, we were told it was inconclusive.
13	Q	Okay. And the interview, you don't know if you
14		got it or not?
<i>01:19</i> 15	А	I don't recall that. If you'd have to look in
16		our file to see whether that materials was in
17		there.
18	Q	Okay. It
19	А	Specifically, I don't recall.
01:19 20	Q	Okay. Perhaps I will be, try to be more fair to
21		you, and go a little farther. 412. You see the
22		Chief Justice addressing Mr. Beresh, I take it:
23		"LAMER, C.J.: But do you have an objection
24		to releasing it now?
01:20 25		MR. BERESH: Yes, that's the position I

2		my friend did."
3		Now, if I can pause there, at the hearing were
4		you of the view that the Court could order
01:20 5		production?
6	А	Yes, I don't see why they couldn't, or they could
7		at least require Mr. Beresh to waive it or get his
8		client to waive it.
9	Q	I'm thinking of this as from the systemic point of
01:20 10		view, that it was your view that they could order
11		anybody to produce something, that was your view?
12	А	Well, subject I mean the one sticking point for
13		them was the solicitor/client privilege
14		question,
01:20 15	Q	Okay.
16	А	but subject to that, yes.
17	Q	Okay. Yeah. But with Mr. Fisher, there is no
18		solicitor/client, that's a witness talking to
19	А	Yeah.
01:20 20	Q	to the investigator?
21	А	To the investigator, yeah.
22	Q	Yeah. But here Mr. Fainstein says:

	2	There was an interview. I
	3	think I can acknowledge that much
	4	because it is the subject of discussion
01:21	5	now. It was at some time prior to the
	6	reference. It was in connection with
	7	the processing of the application for
	8	mercy that was made.
	9	We felt it would be very,
01:21	10	very important for us to have some
	11	discussions directly with Fisher.
	12	The interview took place when we pledged
	13	that that material would be kept under
	14	confidence. So we are caught in the
01:21	15	middle now. It was in connection with
	16	the processing of the application for
	17	mercy. It was before the Reference was
	18	made and as long as counsel is refusing
	19	to have it released, we are caught by
01:22	20	the undertaking."
	21	Now, here's a key question from Justice Sopinka:
	22	"SOPINKA, J.: Was that a document that the
	23	Justice Minister would have considered

2		SOPINKA, J.: But it wouldn't do anybody
3		any good if the Minister couldn't
4		consider it, would it?"
01:22 5		Mr. Fainstein says he wasn't involved in the
6		reference. Just turn the page. And he says:
7		"It was for the purpose of ultimately
8		giving advice to the Minister. As to
9		whether there was specific reference to
01:22 10		it in the advice she received, I can't
11		say."
12		So I pause there for a moment. So Mr. Fisher was
13		interviewed by Mr. Williams and in the Supreme
14		Court, we don't know if that went to Minister
01:22 15		Campbell for her assessment, we don't know if it
16		went to Justice McIntyre for his assessment;
17		correct?
18	А	Correct.
19	Q	We still don't know?
01:23 20	А	That's right.
21	Q	We don't know how that was represented to Justice
22		McIntyre?
23	А	No.
24	Q	We don't know whether it got to the Minister
01:23 25		Campbell?
		Meyer CompuCourt Reporting

1 А Well, Mr. Wolch, I'm already on record, I believe 2 with Ms. McLean, of saying that these materials 3 should have been released to David Milgaard, before they go to the minister so that the 4 5 applicant has one last opportunity to review and 01:23 I mean, if that were an comment on them. 6 7 administrative law-type of process you would 8 certainly be required to do that and, you know, if 9 you are talking about somebody's freedom I don't 01:23 10 know why you wouldn't impose at least the same standard that you'd use with administrative law. 11 12 Q Okay. Well we'll just, for the record, I'll show 13 how it played out. Page 417, you have the current 14 Chief Justice saying: 15 "McLACHLIN, J.: But, Mr. Beresh, you do 16 face a different problem slightly and 17 because of your own making. It is 18 because you led evidence directed to 19 establishing that this witness had 20 voluntarily come forward with 21 everything, and so on and so forth." 22 I think you -- you see what the Court is getting 23 at, that he had raised it himself. 24 "McLACHLIN, J.: Now your friend is seeking 25 to challenge that position and you are Meyer CompuCourt Reporting =

	So, in a certain sense,
	there is some sort of onus on you,
	having led that cross-examination,
	either to make a decision, it seems to
	me, or to accept an adverse inference at
	least as to openness."
	So might you interpret that to mean the Court
	didn't feel it had the power to order?
А	Well, that, they are certainly not exercising it
	when I think they clearly could have.
Q	Well they are saying, in effect, "you could have
	kept it a secret"
A	Yup.
Q	"but you're going to get an adverse interest"?
A	For some particular reason they are giving the
	authority to release it to Mr. Beresh when I think
	they could have easily said "it's here".
Q	Okay. But had Mr. Beresh not raised, in examining
	Fisher, that there was this interview, the entire
	process would have ended without yourself or the
	applicants even knowing that Fisher was
	interviewed?
А	That's correct.
Q	Because, if you go to 419, you see Justice Cory

2		"CORY, J.: Hasn't your position changed a

7		have changed somewhat in that Mr. Fisher
8		has come forward and testified.
9		As part of his testimony,
10		reference, at least, was made to this

14		So that just sort of stresses the dilemma,
<i>01:</i> 26 15		systemically at least, that we could be at this
16		stage of the process and an interview with a key

19	А	Mr. Wolch, we're at this stage of the process, and

21	Q	No. I'd like to deal with a couple of individuals

It's just, I mean what 11 kind of faith can you put in it, it's there for 12 whatever it is but --13 0 Well, there's an initial problem in this, if we 14 scroll back to the beginning. See, he says "during the summer of '70"; David would have been 01:29 15 16 in jail? 17 Yeah, he would have been in jail then, yes. 11		Mr. Stickel did get into the media. 004506, I
12		believe. So here's an article in the StarPhoenix

14		"A recent addition to the

	12	A	Yes.
	13	Q	Yeah. I'm just wondering, like with Stickel and
	14		Dozenko, why people so obviously unreliable would
01:38	15		be placed before the Court in this type of
	16		hearing?
	17	А	Well, you put I mean you characterize them as
	18		'obviously unreliable', obviously we didn't. We

1		Saskatoon. Where did you get that
2		paring knife?
3		THE WITNESS: Probably from the house, sir.
4		I used it at the one out of our
5		house. I'll admit that.
6		SOPINKA, J.: You told me earlier that you
7		wouldn't take a knife from your
8		house?
9		THE WITNESS: I usually did, if it was a
10		bread knife or something else. But I
11		did use a paring knife in there. And I
12		could have got it from Clifford's house
13		or our house.
14		IACOBUCCI, J.: Mr. Fisher, are you
15		left-handed or right-handed?
16		THE WITNESS: Right-handed, sir."
17		And it goes on and on. Does that tenor seem to
18		indicate that the Court really wasn't buying his
19		denial?
01:47 20	А	Well, I suppose you could put that interpretation
21		to it. They were I think they were very
22		curious about Larry Fisher, he when you looked
23		at Larry Fisher, you thought if ever there was a
24		guy that could have done it, that was the one.
<i>01:4</i> 8 25	Q	I would like to touch a bit on your written

	1		argument to the Supreme Court and I'm curious
	2		about how and why you would put stock in the
	3		evidence of Kenneth Cadrain, and if you look at
	4		206846 206801 is the doc. number and our
01:49	5		understanding is that Kenneth Cadrain was either
	6		five or six or whatever, an exceptionally young
	7		lad at the time, wasn't even spoken to by the
	8		police?
	9	А	There were a number of Cadrains, there was one
01:49	10		very young one. I was the little one Kenneth?
	11	Q	That's right.
	12	А	I mean, I don't recall.
	13	Q	No, he would have been the very young one.
	14	А	Okay.
01:49	15	Q	Okay. So you put into your argument:
	16		"Kenneth Cadrain in his statement at
	17		Reference Case"
	18		Etcetera,
	19		"indicates David Milgaard changed his
01:49	20		pants and then went out the back door.
	21		At page 4 of that statement he
	22		indicates that when David Milgaard went
	23		out the back door he had something in
	24		his hand but when he came back in he had
01:50	25		nothing."

		Page 38386
1		Now, I'm just curious about using the evidence of
2		this young man who would only have been five or
3		six remembering back 20 odd years later, that
4		evidence would be patently unreliable wouldn't
<i>01:50</i> 5		it?
6	А	It is what it is. As for unreliable, I believe
7		the evidence was that David Milgaard changed his
8		pants at that house.
9	Q	Whether Kenneth Cadrain had any memory of
01:50 10		something relatively innocuous when he was five or
11		six years old
12	А	It's there for what it's worth, Mr. Wolch.
13	Q	Well, no, but I've always been under the
14		impression that Crown counsel will monitor
<i>01:50</i> 15		evidence in the sense if it's of no probative
16		value and could only mislead, they won't put it
17		in.
18	А	Well, no, I wouldn't say that this evidence could
19		only mislead, it's there for whatever value it
01:51 20		has. There's no evidence that he was lying.
21		There was evidence that in fact David Milgaard
22		changed his pants there and I believe there was
23		evidence that they didn't, couldn't find the pants
24		that he changed from.
01:51 25	Q	Okay. But it doesn't make the evidence of a five

year old of any weight.

2 A Well, that's your argument.

1

3 If you go to 837, the statement of --0 All right. 4 sorry, here -- in light of the statement of Estelle Cadrain, the statement of Kenneth Cadrain, 01:51 5 6 Marcel Cadrain, these three people all indicate 7 that Albert Cadrain's psychiatric problems began 8 quite a while after his testimony in the Milgaard 9 Now, you are relying on Kenneth Cadrain matter. to talk about Albert Cadrain's psychiatric 01:52 10 11 problems when Kenneth was five, six or seven? 12 А It's in his statement, Mr. Wolch, it's there. In 13 this particular instance it seems two other people backed it up. 14

01:52 15 Just scroll down here. This is with respect to 0 16 Albert Cadrain's current testimony that Milgaard 17 threw the blood stained pants out, support for 18 that is found in two sources, first in the 19 statement of Kenneth Cadrain there's a reference 01:52 20 to the fact that David Milgaard went out the back 21 door of the house with something in his hand and 22 when he came back he had nothing, so once again 23 Kenneth Cadrain is being relied on in your 24 argument? 01:52 25 Α It's there for what it's worth, Mr. Wolch. Ιt

	ſ		Page 38388
	1		fits with what Albert Cadrain said.
	2	Q	No, I guess what I'm saying, when you look at
	3		Kenneth Cadrain, Ronald Stickel and Ben Dozenko,
	4		you are looking at evidence of really no merit no
01:53	5		matter how you look at it.
	6	А	Well, I wouldn't agree necessarily with that.
	7	Q	Now, in your argument, and I'm not going to go
	8		through it, anybody can read it, but you did deal
	9		with Larry Fisher. I would like to bring your
01:53	10		attention to a couple of points at 814. Sorry,
	11		perhaps you could go to 805 just for the record's
	12		sake. That's where you start your analysis of
	13		Larry Fisher, that your first paragraph is:
	14		"Finally, there is the evidence of Larry
01:54	15		Fisher himself. He absolutely denies
	16		any involvement in the murder. Unlike
	17		David Milgaard, who also made such a
	18		statement in his evidence, Larry Fisher
	19		was not shown to be obviously lying to
01:54	20		this court."
	21		So you are that's how you preface your
	22		argument. Now if we can go to 814:
	23		"With respect to the use of the coat, on
	24		three occasions he made his victim lie
01:54	25		on a coat and on six occasions he did

	1		not. Again, it's difficult to see what
	2		the pattern is that connects these
	3		incident to the Gail Miller assault. It
	4		is equally difficult to see anything
01:55	5		unique in Larry Fisher's conduct in this
	6		regard."
	7		Now, you saw nothing unique about having three
	8		victims lie on a coat. That would not be a
	9		unique thing to you?
01:55	10	А	When six of them didn't?
	11	Q	Well
	12	А	Six of them didn't is the unique thing.
	13	Q	That's where you see the uniqueness, is in what
	14		didn't happen?
01:55	15	А	Well, if you are looking for commonalities, the
	16		fact that six of them didn't lie on a coat would
	17		be more common than the fact that three of them
	18		did.
	19	Q	One was (V4), one was (V8) (V8) who was
01:55	20		stopped in the middle, but having said that, you
	21		do have Gail Miller's coat being rather unusually
	22		on her body?
	23	А	Yes.
	24	Q	Don't the two sort of go together?
01:55	25	А	Well, I don't think you can necessarily find a
			Mover CompuCourt Reporting

Page 38390

1 common pattern from that, Mr. Wolch. You 2 obviously argued a different view. 3 If we can go to 812, you say here: 0 Okav. 4 "Finally, counsel made much of the fact 5 that in the instances where Larry Fisher 01:56 6 succeeded in raping his victims he 7 always took..." 8 Off I take it, 9 "...always took or had them take off 01:56 10 their bras. The implication arising 11 from this is that somehow Larry Fisher's 12 breast fetish distinguishes his attack 13 from other incidents of "stranger" rape. 14 In our society it is unusual to find 01:56 15 sexual attacks on a female victim where 16 exposure or fondling of the breasts has 17 In North American society not occurred. 18 breast fetishism and breast manipulation 19 is a substantial part of heterosexual 01:56 20 eroticism. It is not surprising 21 therefore that some attack on a women's 22 breast is a regular feature of sexual 23 assaults committed against women on this 24 continent." 01:56 25 Do you still stand by that paragraph? Meyer CompuCourt Reporting =

			Murray Brown by Mr. Wolch Vol 184 - Monday, September 18th, 2006
			Page 38391
	1	А	Yes.
	2	Q	You say taking off the bras, including somebody in
	3		40 below, is not a unique feature?
	4	А	No. No, as a said, breast manipulation is
01:57	5		something that's very common in a rape.
	6	Q	And if you go to 808 you say:
	7		"We submit therefore that Linda Fisher's
	8		evidence is of no value to the Applicant
	9		in attempting to tie her former husband
01:57	10		to the Gail Miller murder. If anything,
	11		it tends to suggest he was not
	12		involved."
	13		Are you serious about that?
	14	А	Well, I would have to see what I was talking about
01:57	15		there, Mr. Wolch.
	16	Q	Okay, that's fair. If we can just go back a bit.
	17		You have to go back one more page then. I think
	18		we have to go back some more then.
	19	А	Didn't you go back too much?
01:58	20	Q	I don't think so, unless they went the wrong way.
	21		I think we've got it here. One more page and we
	22		have it. Evidence of Linda Fisher.
	23	А	Right.
	24	Q	"whatever else Linda Fisher now
01:58	25		says, she is certain the murder weapon

	2	there is nothing in what she says that
	3	links Larry Fisher to the crimehis
	4	response to her accusation that he
01:58	5	killed Gail Miller is as consistent with
	6	him being shocked she would even think
	7	such thing as it is with him being
	8	guilty of the crimeher failure to
	9	bring this to light until some ten years
01:58	10	after the trial is also troublesome.
	11	Based on the affidavit of Naumetz,
	12	it is clear that shortly after the
	13	murder she had the opportunity to bring
	14	this to the attention of the police
01:59	15	and did not do so. Living in Saskatoon
	16	as she did during this time, she would
	17	have to have known that David Milgaard
	18	was convicted of that crime. Based on
	19	her suggestion that she put her
01:59	20	husband's guilt to the Gail Miller crime
	21	together after he pled guilty to the
	22	various rapes in Saskatoon and Winnipeg,
	23	she had all the information she needed
	24	by 1971she did not go to the
01:59	25	police until almost ten years later. In

	2	credibility."
	3	Finally, on face value, her evidence does not
	4	link Fisher to the murder. It would indicate he
01:59	5	was not guilty of killing Gail Miller. His
	6	reaction is at the very best ambiguous. It could
	7	be just as easily interpreted as supporting his
	8	innocence. She indicates that the weapon known
	9	to have been used to kill Gail Miller was not her
01:59	10	knife, that when she washed Larry Fisher's
	11	clothing there was no blood. And I am
	12	paraphrasing, for the record. If we can go
	13	further, in our submission, therefore, when
	14	examined, her evidence is not capable of
02:00	15	supporting a conclusion.
	16	"The single fact left unexplained is her
	17	suggestion that Larry Fisher did not go
	18	to work that morning. The fact
	19	recollected to the police some eleven
02:00	20	years after the incident is alleged to
	21	have taken place has to be contrasted
	22	with Fisher's statement to the police
	23	four days after the murder. In that
	24	statement he indicates to the police
02:00	25	officers that he in fact did go to work.

I

	1		It is reasonable to assume that if Mr.
	2		Fisher whatever his degree of
	3		intelligence, was going to make up an
	4		alibi to take him out of the neighbour
02:00	5		at the time of the murder, he would have
	6		been smart enough to figure out that he
	7		couldn't use an alibi that could be
	8		easily checked. Mr. Fisher's statement
	9		to the police is corroborated by his
02:00	10		evidence to this Court and to a lesser
	11		extent by the statements of the people
	12		that worked with him in the reference
	13		case materials and who indicate they do
	14		not recall his unexplained absence from
02:00	15		work. While we concede the latter
	16		corroboration is of very limited value,
	17		it is nonetheless some corroboration
	18		"
	19		And it goes on to say that her evidence is of no
02:00	20		value. Do you feel that you looked at her
	21		evidence objectively?
	22	А	Yes.
	23	Q	And found her to, if anything, to be supporting
	24		her husband's claim of innocence?
02:01	25	А	Well, she did say it wasn't her knife, she did say

1		there was no blood on his clothing. That seems to
2		me to have supported the claim that he wasn't
3		guilty. I mean, you read the parts of the
4		submission that pretty much answer the question
<i>02:01</i> 5		you asked. You may disagree, but that's your
6		argument.
7	Q	No, no, I'm asking you what you thought and what
8		you
9	A	Well, it's right there.
02:01 10	Q	Okay. Then finally at 804, here's your
11		submission, the Answer to the questions posed by
12		the Minister:
13		"the Applicant has failed to prove
14		beyond any burden of proof that he is
02:02 15		innocent."
16		Therefore, no free pardon. That would be the (a)
17		test?
18	А	Yes.
19	Q	Next paragraph would be the (b) test, there's no
02:02 20		basis sorry, no.
21	А	No, I think I put the two tests together
22	Q	(a) and (b) together?
23	А	in the first paragraph.
24	Q	Okay, you are right. So the first paragraph,
02:02 25		that's (a) and (b)?

Ŕ

Page 38396 =

1 A Right.

	2	Q	Okay. Now, the next paragraph deals with (c):
	3		"Additionally, in our submission, the
	4		Applicant has failed to show that there
02:02	5		is credible new evidence to question or
	6		contradict the evidence given at his
	7		trial. As well, the Larry Fisher
	8		evidence does not amount to credible
	9		evidence capable of providing a properly
02:02	10		instructed jury with a basis to change
	11		its verdict nor does it suggest that
	12		such a change in verdict would be
	13		probable. As a result, we submit there
	14		is no basis upon which a new trial
02:02	15		should be ordered."
	16		Okay. So you are saying the probability of a
	17		different verdict isn't there, so don't send it
	18		back, and a court rejected that position;
	19		correct?
02:03	20	А	Yes, they set the test a little lower.
	21	Q	They applied the test that they had set?
	22	А	Well, they applied a different I said probable,
	23		they said reasonable expectation, which is
	24		probably a little less. It's more like the
02:03	25		Palmer.
			Meyer CompuCourt Reporting

Page 38397

	1	<b>Q</b> The Palmer test, okay. Now, your position was:
	2	"In our submission, that leaves only two
	3	possibilities open to the court. The
	4	first is that the Court answer the
02:03	5	Minister's question by noting there was
	6	no miscarriage of justice in this case
	7	but given the length of time David
	8	Milgaard has served in prison, some form
	9	of relief should be considered."
02:03	10	Okay. So you are saying there's only two
	11	possibilities, one is no miscarriage and given
	12	some sort of relief, and then you go on to say:
	13	"In our submission, prior to suggesting
	14	a conditional pardon be granted
02:04	15	notwithstanding there was no miscarriage
	16	of justice, this court should inform
	17	itself of the contents of his parole
	18	file. Mr. Milgaard's assertions that he
	19	is being kept in jail solely because he
02:04	20	will not admit his guilt of this crime,
	21	are patently false. His parole record
	22	and prison files clearly indicate that
	23	the Parole Board has substantial
	24	concerns about his psychiatric stability
02:04	25	and his ability to function outside the

	1		institution It is our submission
	2		that prior to making any recommendation
	3		that results in the release of David
	4		Milgaard, this court should take the
02:04	5		opportunity to fully appraise itself of
	6		the contents of parole files. They
	7		paint a fundamentally different picture
	8		for the reasons for the Parole Board's
	9		decisions than is painted by Mr.
02:04	10		Milgaard himself."
	11	Then you	say:
	12		"Finally, the second alternative left to
	13		the court in our submission is to simply
	14		report to the Minister that there was no
02:04	15		miscarriage of justice. In our
	16		submission, this is the appropriate
	17		response. It would leave the decision
	18		on full release of Mr. Milgaard to the
	19		National Parole Board"
02:05	20	Who,	
	21		"are in a better position to assess

Page 38399 1 And assess whether he will: 2 "...continue to pose any danger to 3 society." 4 So it would appear when you were writing this, 5 you recognize that one of the possibilities is to 02:05 tell the minister there was no miscarriage of 6 7 justice and that's what you wanted the court to 8 do? 9 That was our submission. Α 02:05 10 And they didn't accept that? 0 11 Α No. 12 Q Okay. I would like to turn now -- just give me a 13 second -- to the time after the Supreme Court 14 rendered its decision. Now, everybody reacted to 02:06 15 the decision in various ways and I would like to 16 deal fairly quickly with Mr. Fisher's reaction. 17 Was it your understanding that under no 18 circumstances would the court point a finger of 19 guilt at Larry Fisher? 02:06 20 I suspect if they had thought he was guilty, Α No. 21 they would have -- they may not have said Larry 22 Fisher is guilty, but they would have certainly 23 said there is a substantial case against him. 24 0 Well, if they said there was credible evidence 02:06 25 that Fisher did it --

1	A No, they said there was evidence that could be put
2	in that the jury could consider.
3	Q That was credible?
4	A Yes, that might reasonably be expected to affect
<i>02:06</i> 5	the verdict.
6	Q Yeah.
7	A But then their verdict is beyond a reasonable
8	doubt.
9	<b>Q</b> Doesn't that mean that they thought there was some
<i>02:06</i> 10	substance in the
11	A They thought there was some evidence. They also
12	said that there wasn't enough to charge him.
13	<b>Q</b> Is that what they said?
14	A Well, I thought that's what they said.

	1		constitutes credible evidence that could
	2		reasonably be expected to have affected
	3		the verdict of the jury"
	4		That is, I emphasize could reasonably be expected
02:08	5		to affect the verdict.
	6		"Our conclusion in this respect is not
	7		to be taken as a finding of guilt
	8		against Fisher, nor indeed that the
	9		evidence would justify charging him with
02:08	10		the murder of Gail Miller."
	11		They are not commenting on it, they are saying
	12		it's we're not saying yes or no, and that is
	13		consistent with what they said from the very
	14		beginning; is it not? If we go into the evidence
02:08	15		now
	16	А	Now you've lost me. What's your question?
	17	Q	That the court was never going to make a finding
	18		of guilt against Larry Fisher.
	19	А	Oh, and if what you want me to say is that they
02:08	20		were not going to say Larry Fisher is guilty, of
	21		course they weren't, there would have to be a
	22		trial to establish that.
	23	Q	So no matter what they found or believed, they
	24		weren't going to say that?
02:09	25	А	Well, they wouldn't say it, yes, but then why

		——————————————————————————————————————
1		would they then add the additional not to be taken
2		as a finding or that it was, would even justify
3		charging him.
4	Q	Because reading the judgment, some people might
<i>02:0</i> 9 5		read it to suggest that Fisher should be charged
6		and they don't want to have a role in that
7		because
8	А	Well
9	Q	if the Supreme Court says this guy should be
02:09 10		charged with murder, can he ever get a fair trial.
11	А	Well, again, Mr. Wolch, that's I guess a matter
12		that you and I are going to have to disagree on.
13		I don't interpret their judgment as basically
14		restricting themselves that way.
<i>02:0</i> 9 15	Q	Well, take a look at
16	А	They properly qualified the evidence as not being
17		sufficient to charge him.
18	Q	Not being sufficient or that their decision should
19		not be interpreted?
02:10 20	А	Nor indeed that the evidence would justify
21		charging him with the Miller, the Gail Miller
22		murder.
23	Q	In other words, don't make anything out of this
24		finding regarding Fisher?
02:10 25	А	Well

And they didn't say it was Mr. Fisher. 4 Α 5 I know, but --02:11 Q They said there was some credible evidence the 6 Α 7 jury could consider that might reasonably be 8 expected to affect the verdict. 9 But I'm saying that based on this, it was pretty Q 02:11 10 clear they were never going to say it. 11 Α That -- Mr. Wolch, I've given you that the Supreme 12 Court of Canada is not going to say someone else 13 is guilty when there has to be another trial to 14 find that out. They don't do that. 02:11 15 Well, if I can also take you to 233068. 0 16 COMMISSIONER MacCALLUM: Is that a doc. ID, 17 Mr. Wolch? 18 I'm sorry, the same one I was MR. WOLCH: 19 at earlier, that's 233007. I'm not sure why the 02:12 20 A is there following it. This is an argument, 21 the Chief Justice again: 22 "Why don't we keep that for reply 23 because, I don't know, we have read the 24 material, of course, but I don't know to 02:12 25 what extent Mr. Fisher has an interest Meyer CompuCourt Reporting =

2		You see that? That's the same theme, I'm
3		suggesting, that Fisher was only there for one
4		purpose, is the evidence credible or not, but
<i>0</i> 2:12 5		there would never be a finding that Larry Fisher
6		did it or a direction to go charge him under any
7		circumstance. Would you not agree?
8	А	Well, Mr. Wolch, I've already said the Supreme
9		Court is not going to say Larry Fisher is guilty.
<i>0</i> 2:12 10	Q	Okay. But I want to set the stage where now the
11		judgment has been rendered, David is free
12	А	Uh-huh.
13	Q	the conviction is the minister has quashed
14		the conviction; correct?
<i>02:13</i> 15	А	Right.
16	Q	That's the point in time, it's the point of time
17		when he's presumed innocent.
18	А	Right.
19	Q	I want to deal with first of all, deal with
02:13 20		Fisher's reaction, 229387. Here we have Fisher
21		most pleased with Milgaard decision. Supreme
22		Court avoided pointing finger at rapist. Given
23		their findings of similar act, it's hard to
24		understand that, but here, here's what is said:
<i>02:13</i> 25		"I'm very pleased with it because I

3	Mr. Beresh said.
4	"Fisher was most pleased with the
<i>02:14</i> 5	outcome," he said, adding the
6	42-year-old inmate just wants to get on
7	with his life."
8	Now, did you look at this as a judicial
9	exoneration?
<i>02:14</i> 10	A Mr. Wolch, Brian Beresh was his defence lawyer.
11	What was he going to say, thank God he dodged this
12	bullet?
13	<b>Q</b> Now I would like to turn to the government's
14	reaction, and if I can go back to 208531 first
<i>02:15</i> 15	208531 this is doc. ID 208523.
16	COMMISSIONER MacCALLUM: Yes, please say
17	that to begin with, would you, Mr. Wolch?
18	MR. WOLCH: Unfortunately,
19	Mr. Commissioner, there's some points where I
02:15 20	messed up my cross-referencing.
21	COMMISSIONER MacCALLUM: Okay, thanks.

	hear you on an ad hoc basis whenever you
3	feel you should be allowed to put

02:15 5	remembered and I reiterate this
6	that this is not a trial; this is not a
7	rehearing of an appeal; nor is it a
8	Royal Commission of Inquiry into certain
9	matters. It is a reference that is
02:16 10	governed by very few sections in the
11	Supreme Court Act and a couple of
12	sections in our Rules of Court."
13	COMMISSIONER MacCALLUM: You're speaking
14	about Fisher's right to
<i>0</i> 2:16 15	MR. WOLCH: No, that's the inquiry
16	A At the very opening.
17	MR. WOLCH: The very opening, this is
18	setting the rules at the very beginning.
19	COMMISSIONER MacCALLUM: Well, he just
02:16 20	finished talking about Mr. Fisher, is there a
21	feeling that Mr. Fisher is in a somewhat
22	different situation here, right to cross-examine

WOLCH: 5 Q If you could just turn the page: 02:16 No. 6 "At our meeting this morning, 7 we agreed, and I should announce to you, 8 that we do not think that the rules of 9 the Criminal Code apply whatsoever here. 02:16 10 Those rules will apply if we, in 11 answering questions A and B, order a 12 rehearing or a retrial." 13 That's sort of a, I take it, a slip because A and 14 B don't order a rehearing or a trial. "Then, of course, if that is ordered, 02:17 15 16 that will be governed by the Criminal 17 Code. This is not the Criminal Code. 18 We have been asked by Cabinet 19 to assist them in exercising their power 02:17 20 of mercy, which is an administrative 21 In that way, while we are still power. 22 a Court, we are assisting in the 23 exercise of an administrative power. We 24 are entitled in that regard to do most of what Cabinet itself could do. 02:17 25 We

1	intend to proceed judicially, though I
2	think we could not necessarily go that
3	route."
4	Odd comment, but:
02:17 5	"The rules of evidence, also
6	those sections that have to do with
7	previous statements and hostile
8	witnesses and putting previous
9	statements in writing to witnesses do
02:17 10	not apply. The rules that govern us are
11	the rules of fairness and the rules of
12	natural justice. Of course, they are
13	not very far away from the rules of
14	evidence, but in some regards they are
<i>0</i> 2:17 15	not identical."
16	Now, I'll leave it there, but that's what
17	where the Chief Justice makes it pretty clear, or
18	quite clear, that it's not your everyday,
19	ordinary proceeding, that the rules are very
02:18 20	different, and it's not a royal commission into
21	whatever, and they are they have been asked
22	the question and they are going to answer it.
23	Now when I've indicated
24	before, now David Milgaard is set free, Fisher is
02:18 25	saying he's exonerated, and is it not a fact that

	2		still saying David Milgaard was guilty?
	3	А	The Government of Saskatchewan said that?
	4	Q	Well, let's take a look at 164842, and scroll down
02:19	5		the first. Well, look at the headline, Minister
	6		stands firm on Justice record, it's the Globe and
	7		Mail, and it's this little piece down here is what
	8		I'm interested in. I'm not sure if you can read
	9		it.
02:19	10		"Mr. Mitchell, however,
	11		remains adamant. In an",
	12		sorry, if somebody could help me with that word?
	13		MS. McLEAN: Unusual.
	14		BY MR. WOLCH:
02:19	15	Q	" unusual comment by a justice
	16		minister on a case before the courts,
	17		Mr. Mitchell said in an interview, 'I
	18		think he was properly convicted, I think
	19		he did it.'"
	20		Can you comment on that?
	21	А	Well, Mr. Wolch, one of the problems with
	22		Ministers is sometimes they decide they will speak
	23		out on their own
	24	Q	Okay.
02:20	25	А	and they sometimes don't take the precise

2		notes I sent him didn't say "he did it", I said
3		"the Supreme Court found he had been properly
4		convicted, that there was still evidence upon
02:20 5		which he could be convicted", and so on.
6	Q	Well,
7	А	Mr. Mitchell was expressing his opinion.
8	Q	okay, but here you have the highest law
9		enforcement person in the province saying that a
02:20 10		person who is presumed innocent committed murder
11		and rape; is that not true?
12	А	Well, he appears to have said "I think he did it",
13		yes.
14	Q	Yes. Now
<i>02:20</i> 15	А	And I think that the newspaper notes that that's
16		an unusual comment for a justice minister on a
17		case
18	Q	Well, it's more than unusual, isn't it?
19	А	that's before the courts.
02:21 20	Q	You know, you expressed outrage that Michael
21		Breckenridge had been a vehicle to get an
22		investigation or whatever when he was accusing
23		people of perhaps obstruction of justice
24	А	And when you knew very well that that was false.
02:21 25		MR. WOLCH: Can I finish the question?

	1		COMMISSIONER MacCALLUM: Just a minute.
	2		MR. WOLCH: Can I finish the question?
	3		COMMISSIONER MacCALLUM: Okay.
	4	BY	MR. WOLCH:
02:21	5	Q	And yet, at the Supreme Court reference, you put
	6		in Stickel, Dozenko, and Kenny Cadrain, and here
	7		you have the Attorney General saying somebody is
	8		guilty of murder when they are not charged and not
	9		convicted. Is that not worse?
02:21	10	А	Well, Mr. Wolch, if you want to talk about what
	11		the minister of justice said or did perhaps you
	12		can call him as a witness. I can tell you what
	13		advice I gave him, and you should have the
	14		documents in the CaseVault, what he does with that
02:22	15		information is up to him.
	16	Q	I guess what I am getting at, Mr. Brown, is you've
	17		expressed outrage at Mr. Breckenridge, you've
	18		expressed outrage at some of the media reports,
	19		I'm wondering why you don't have the same
02:22	20		outrage when
	21	А	Well, let's correct the record here.
	22	Q	I'm not finished the question.
	23	А	Let's correct the record, Mr. Wolch. I didn't
	24		express outrage over Mr. Breckenridge,
02:22	25		Mr. Breckenridge can say whatever he wants. It's

2		statements were false, that's what caused me some
3		concern.
4	Q	An investigation was asked for. Surely you knew
02:22 5		that Stickel was false, surely you knew that
6		Dozenko was false, surely you knew that Cadrain,
7		Kenny Cadrain
8	А	If I had known their evidence was false it would
9		not have been put, I would not have recommended it

14	А	If it's of limited weight, that's a different
02:23 15		matter, you are perfectly entitled to argue that
16		Cadrain's evidence, that Stickel's evidence, that
17		Dozenko's evidence is of no value and no weight.
18	Q	Okay. Whatever Breckenridge did, he caused there
19		to be an investigation?
02:23 20	А	Yes.
21	Q	And that investigation could have found the real
22		killer? It didn't, but it could have?
23	А	Well, it thought it did, actually.
24	Q	Sorry?
02:23 25	А	I said "it thought it did".

	3	A	Well, if the DNA had been done at that point, yes.
2	4		I mean there was as much evidence on Larry Fisher
02:23	5		as there was going to be, apparently, at that
e	6		point absent the DNA.
-	7	Q	Well I'm going to suggest to you there was enough
8	8		evidence to convict Larry Fisher at that time?
Q	9	A	Well, I disagree, Mr. Wolch.
02:23 10	0	Q	But, in any event, Breckenridge would keep a
11	1		matter alive that needed to be kept alive?
12	2	A	Well, that's your view.
13	3	Q	Well, the real killer was free?
14	4	A	Well except, Mr. Wolch, to be perfectly honest
02:24 15	5		with you, I don't think you were the slightest bit
16	6		concerned about that.
17	7	Q	Well
18	8	A	You were after money at that point.
19	9	Q	Let me ask you this. If somebody is going to get

22	2	А	How many ways?
23	3	Q	What are the means for wrongfully convicted people

1 proceeded --2 Α Well --3 -- and it was settled for a large amount of money. 0 4 That's not the issue. 5 My question to you was lawsuit 02:25 6 or ex gratia are the only two ways to go? 7 Yes. Α 8 0 Okay. And a lawsuit, it doesn't matter what you 9 say, it's going to be settled in a courtroom or 02:25 10 between the parties? 11 Α That's the usual course, yes. 12 Q And if it's ex gratia, if you are calling somebody 13 a crook, is he going to give you money? 14 Not usually, no. Α 02:25 15 So how is accusing wrongdoing going to advance the 0 16 government to pay you money? 17 How is accusing wrongdoing? You were trying to Α 18 keep this matter alive and get an inquiry in order 19 to advance your cause for a claim. 02:26 20 Maybe the cause for the claim was to catch Larry 0 21 Fisher? 22 Well, I wish I believed that, Mr. Wolch. Α 23 Q Well, you said it had to be kept alive? 24 Α Well, that was your view, not mine. I was of the 02:26 25 view that it still was alive, as long as those DNA

<i>0</i> 2:26 5	А	They were waiting.
6	Q	Okay. I'm trying to understand, though, how
7		calling people whatever they are called and then
8		saying "please give me money" works, just, I'm
9		trying to reconcile that?
<i>0</i> 2:27 10	А	Well, of course, you weren't accusing sort of

13		B.C., Roy Romanow was Premier but not involved in
14		the Justice portfolio
<i>0</i> 2:27 15	Q	Well
16	А	and, I mean, it was clearly aimed at trying to
17		generate an inquiry, get the federal minister to
18		call an inquiry.
19	Q	Well, getting an inquiry is far different than
02:27 20		your accusation of money grab?
21	А	Well, with respect, that's what it was aimed at is
22		getting money. You weren't going to get evidence

<i>0</i> 2:27 5	А	Well except you may recall, Mr. Wolch, that that

3	А	Well the again, I mean, my view was that Linda
4		Fisher had substantially backed away from what
02:52 5		she'd said in the sense that she said it wasn't
6		her knife and that there was no blood on any of

11		The rest of it, well, the similar fact was what it
12		was. I didn't think it certainly didn't think
13		it proved Larry Fisher was guilty.
14	Q	Okay. And then there was an inmate named
<i>0</i> 2:53 15		Patterson who seemed quite credible I think?
16	А	Well, yeah. I mean all of their statements,
17		including the one by that what's his name, the guy
18		that ended up murdering the
19	Q	Morgan?
<i>0</i> 2:53 20	А	Morgan, they all had a, you know, certainly in
21		retrospect they all have a ring of truth about
22		them, but I didn't think that then, and I
23		certainly wouldn't be prepared to rely on that
24		kind of evidence.
<i>0</i> 2:53 25	Q	The reason I mention Patterson is that in Larry

1		Fisher's trial the Crown put him forward as a
2		witness and I wouldn't expect them to do that
3		unless they thought he was credible?
4	А	Oh, I don't think we thought he was incredible, we
5		just didn't think that his evidence was kind of a
6		confession of Larry Fisher's.
7	Q	Okay. And the fact that Fisher lived in the same
8		house as Cadrain was dismissed as a coincidence,
9		was it, or
10	А	Yes.
11	Q	Okay. So it's fair to say, at the end, you
12		believed David had done it and that Fisher was
13		innocent of the murder of Gail Miller?
14	A	That's right, yes.
15	Q	I want to just touch on a few of the letters that
16		you've written at various times, just a few points
17		on them, and I'll try to go through them fairly
18		quickly. 033150. This is a letter March the 9th
19		of '93, and if we can go to 53, I'm just
20		interested in this paragraph here:
21		"I am satisfied that in the final
22		analysis, the Supreme Court judges were

25		That's David Milgaard, of course.

3	Q	026986. Sorry, just for the record's sake, the

8	Q	Yeah, but prepared by yourself or
9	А	Yes.
<i>0</i> 2:57 10	Q	Okay. I'm interested in the first page. You say:
11		"Even if Mr. Milgaard's lawyer",
12		and this is August the 10th of '92:
13		"Even if Mr. Milgaard's lawyer had known
14		about Larry Fisher's conduct, that
15		evidence would not have been considered
16		sufficiently relevant to be admissible
17		at Mr. Milgaard's trial. This lack of
18		relevance at law is also the reason
19		Crown counsel did not have to disclose

21		was because of this the Supreme Court
22		was able to say the Crown disclosed all

2	А	Well I, to be honest with you, I went back and

4		today, that in 1969 or for the sake of what I
<i>02:5</i> 8 5		know in the way of trial work go back to 1976
6		even I'm not sure, in 1976, a lawyer in this

9	Q	To prosecute or to defend?
<i>0</i> 2:58 10	А	To defend. Oh no, that's a reference to
11		defending, Mr. Wolch.
12	Q	No, I understand that. But you're saying on, even
13		given the lesser standard, you feel it couldn't
14		might not have been admissible?
<i>02:5</i> 8 15	А	That's right.
16	Q	When did the law change?
17	А	Well, that, I mean that's your you have a
18		different interpretation of the law. You asked me
19		what my view was, that's my view.
02:58 20	Q	No, but I'm asking you, there is no question it's

22	А	Oh, I would think probably yes, there's very

2		show propensity as opposed to using acts to show
3		identity?
4	А	For who?
<i>02:5</i> 9 5	Q	To get into the evidence?
6	А	Well, certainly for the prosecution you can't use
7		propensity,
8	Q	Right?
9	А	that's it's limited to something else.
<i>0</i> 2:59 10	Q	Yeah, but what I am saying is that
11	А	But you mean for defence counsel?
12	Q	Well, for either side?
13	А	Well you, no, you certainly can't use it for
14		propensity.
<i>02:5</i> 9 15	Q	Right.
16	А	You could use it for identity if it meets the
17		standard that the Handy and Shearing sets out for
18		the Crown.
19	Q	But if you are talking about, for example if the
02:59 20		issue is lack of consent, it's pretty hard to get
21		into similar acts when consent is an issue; would
22		that be fair?
23	А	Well, yes, but that that's because the Criminal
24		Code says you can't.
02:59 25	Q	Well, but it's harder, because the issue normally
		Meyer CompuCourt Reporting

	1		is identity, how do you identify the perpetrator,
	2		as opposed to determine if this particular
	3		individual consented or not; that's sort of the
	4		difference?
03:00	5	А	Well, yes.
	6	Q	And one of the other things you always look at in
	7		similar acts is the possible problem of
	8		collusion,
	9	А	Yes.
03:00	10	Q	that the two people could have talked to each
	11		other and said "what happened in your case", "what
	12		happened in your case", and with collusion similar
	13		acts goes out the window; wouldn't that be fair?
	14	А	Well, with collusion, almost any evidence goes out
03:00	15		the window, yes.
	16	Q	But in letting in similar acts, the fact that two
	17		people see unusual things, then but have talked
	18		about it is a problem, but the value of it is two
	19		independent people are confronted by some unusual
03:00	20		thing; isn't that right?
	21	А	Yes.
	22	Q	I draw your attention to 164797. And this will
	23		not be your letter but one of the Minister of

	9		can't say for sure whether that's all my letter or
03:01	10		not, but it would likely have started out on my
	11		desk.
	12	Q	Okay. I'm interested in this paragraph here.
	13		"The suggestion you make that I engage
	14		an independent person to review the
03:02	15		Fisher evidence to determine whether he
	16		should be prosecuted is astounding.
	17		Again, I have to wonder how carefully
	18		you have bothered to read the judgement
	19		of the Court. All the Fisher evidence
03:02	20		was presented to the Court. The Court
	21		makes it clear that they do not think
	22		there is enough evidence to charge Mr.
	23		Fisher."
	24		Now that's not accurate; is it?
03:02	25	А	Well, that seemed to be what they said.

Page 38429 =

1 <b>Q</b> No, they	
---------------------	--

2 A Yes, it did.

3 Q They said they are not making comment on it, they 4 didn't say "there is not enough evidence to charge 03:02 5 him"?

- 6 A Well again, Mr. Wolch, that's a point we're going
  7 to have to differ on, because I think the decision
  8 says that they are saying there isn't enough
  9 evidence to charge Mr. Fisher.
- 03:0210QDid you ever consider having somebody independent11come in and say "look, I may not have perhaps12tunnel vision, I may not have a view, let me look13at it fresh"?
- 14 A Well, ultimately, we did. It was the RCMP.
- 03:02 15 Q But not with a view to charging Fisher. Somebody16 independent, a prosecutor?
- A Have it referred by another -- reviewed by another
   prosecutor, --

19 **Q** Yes?

03:03 20 A -- no, I don't think that was ever considered.

- 21 **Q** I mean just with a view is there enough to charge 22 Fisher or not?
- 23AI don't recall that ever being -- that issue being24brought to my attention. That's not to say03:0325somebody didn't look at it.

1 Q Okay. But I would assume, frankly, if that was a live 2 Α 3 issue, I would have been asked. 4 Okay. 026946. This is a letter of October 29th, 0 5 and if I can just turn the page to see, it's a 03:03 letter from the minister but seems to be prepared 6 7 by yourself? 8 Α Yes. 9 If we can go back to the first page, then, 0 Okay. 03:04 10 I'm interested in this portion here: 11 "The answer to your question 12 is that Mr. Milgaard is neither 'guilty' 13 nor 'not guilty' in the eyes of the law. 14 I can't blame anyone for thinking it's a 03:04 15 curious result, but I will attempt to 16 explain how it arose." 17 Let's just go to the next paragraph. 18 "Guilty or not guilty are 19 verdicts found after a trial and the 03:04 20 only trial Mr. Milgaard had produced a 21 quilty verdict. That verdict was set 22 aside and a new trial ordered, so we are 23 now back in the position that there is 24 no verdict. Mr. Milgaard is therefore, 03:04 25 neither guilty nor not guilty." 	2	Q	No, but that's not what it says?
	3	А	Well yes, I agree, it says he is neither guilty
	4		nor not guilty.
03:04	5	Q	No.
	6	А	Those are verdicts after a trial.
	7	Q	Oh, I appreciate that, but do you not think that
	8		this is an incorrect impression given to the

03:05	10	А	Well no,
	11	Q	The only verdict was guilty
	12	А	Mr. Wolch, I don't.
	13	Q	The only verdict was guilty, we are now back in a
	14		position where there was no verdict. No, we're
03:05	15		not, because the position earlier had a trial
	16		had a charge outstanding. There is no charge

	18	А	That's correct, and so

03:05	20	А	That's right.
	21	Q	Stay means there's no credible case to put to
	22	А	No, it doesn't.
	23	Q	What does a stay mean?

1	А	There can be all kinds of reasons.
2	Q	But normally it's because there's no case?
3	А	That could be one, or it could be that we chose

03:05 5	Q	Oh, but when you chose not to proceed, why would

	1	<b>Q</b> I just want to go over a couple of things here.
	2	You say:
	3	"Let me begin by explaining the process
	4	of review involved"
03:07	5	Here we're talking about not the Supreme Court,
	6	but pre Supreme Court.
	7	"The initial investigation of the murder
	8	of Gail Miller was conducted by the"
	9	SCP.
03:07	10	"The initial prosecution of Milgaard was
	11	handled by officials in my department.
	12	Neither the Saskatoon City Police nor my
	13	department played any major role in the
	14	re- investigation of this case The
03:07	15	Saskatoon Police and my officials were
	16	confined to providing information to
	17	federal investigators. This was done by
	18	allowing these investigators free and
	19	unrestricted access to <u>all</u> the files
03:07	20	concerning this matter The purpose
	21	of the federal review is to provide an
	22	independent, impartial assessment of the
	23	handling of the case by both the
	24	original police agency and the original
03:07	25	prosecutor. In this case as well, since
		Mever CompuCourt Reporting

	1		there were allegations that there was
	2		new evidence, this review had to assess
	3		this evidence to determine how reliable
	4		it might be and whether it could
03:08	5		reasonably be expected to have any
	6		effect on the original verdict."
	7		Isn't that exactly what the question, or the
	8		question that was posed? It zeros in on the
	9		question, but I'll go further:
03:08	10		"During this assessment, any ambiguity
	11		or doubt was resolved in favour of Mr.
	12		Milgaard's arguments."
	13		Where does that come from?
	14	А	Well, that was our understanding of the federal
03:08	15		government's process. I mean, we were told that
	16		if there was a doubt about something, it would be
	17		resolved in favour of the applicants.
	18	Q	And who told you that?
	19	А	That would have come from somebody at the Federal
03:08	20		Department of Justice.
	21	Q	Any ambiguity resolved in favour. Now, you say:
	22		"In this case something extra-ordinary
	23		happened. Because Mr. Milgaard's lawyer
	24		complained about the Department of

	8	If we can just turn the page:
	9	"That outside party was retired Supreme
03:09	10	Court of Canada Justice MacIntyre.
	11	Mr. MacIntyre had a great deal of
	12	experience as a defence counsel
	13	earned a very good reputation as a
	14	judge took his time and reviewed
03:09	15	everything. In the end he was satisfied
	16	that the review done by the Department
	17	came to the correct conclusion and
	18	that there was no reason to order a
	19	review by the Court of appeal. He
03:09	20	was satisfied that the original trial
	21	had reached a just and fair conclusion
	22	concerning Milgaard's guilt. And he was
	23	also satisfied that the so called new
	24	evidence was more illusory than real."
03:09	25	Now, where did you get all that information?
		Meyer CompuCourt Reporting

		by Mr. Wolch Vol 184 - Monday, September 18th, 2006
		Page 38436
1	А	Well, that information came from Federal Justice
2		officials. I don't know that I would have got
3		that directly from them, but, I mean, keep in mind
4		that the director of prosecutions at that time was
<i>03:10</i> 5		talking to Federal Justice people more than I was.
6	Q	Okay, but it says that McIntyre got everything.
7	А	That's what we were told. I'm sure of that.
8	Q	And that his decision was that there was a just
9		and fair conclusion regarding Milgaard's guilt and
03:10 10		the so-called new evidence was more illusory than
11		real?
12	А	Yes.
13	Q	That was what McIntyre supposedly said?
14	А	Well, that's the information I had. Whether I may
03:10 15		have embellished on it a little or not I don't
16		know, but I know certainly that he came to the
17		conclusion that there was no basis to re-open the
18		case.
19	Q	Okay. So you can't source that as to how you
03:10 20		would have got that information?
21	А	As I say, Ellen Gunn was talking to a number of
22		federal officials, I was talking mostly to Eugene
23		Williams at that point. He and I were both sort
24		of on the lower order, so we talked together and
03:11 25		the upper echelon talked together. I think the

3	Q	Then go to 83, you say:
4		"The third proposed new evidence is a
03:11 5		suggestion that some one named Larry
6		Fisher might have committed the murder
7		because he lived in that area. On
8		careful investigation of this prospect,
9		the R.C.M.P. were able to find
<i>03:11</i> 10		absolutely no evidence connecting Mr.
11		Fisher to the murder. This aspect of
12		the new evidence has no basis in reality
13		at all."
14		How did you come to that conclusion?
<i>03:11</i> 15	А	Which, that it has no basis in reality?
16	Q	Yeah.
17	А	The point I'm making is that it, in my view, did
18		not affect the conviction of David Milgaard and
19		that there was nothing there to connect Fisher to
03:12 20		the murder.
21	Q	Not even a basis in reality?
22	А	Well, that may be a little strong, Mr. Wolch, but
23		there wasn't a basis, in my view, to suggest that
24		Larry Fisher was the person who committed that

	<b></b>	Page 38438
1	Q	And the investigation by the RCMP was what? Do

3	А	Well, we were told that the RCMP had investigated
4		all the Larry Fisher matters. I understand now
03:12 5		that's not quite the case, but at that point we
6		were told that they had taken the thing from

8		COMMISSIONER MacCALLUM: I take it from
9		Federal Justice?
03:13 10	А	It would have come from Federal Justice, yes.
11		BY MR. WOLCH:
12	Q	Can you tell us something about your reaction when
13		you found out about the DNA?
14	А	I to be perfectly honest with you, Mr. Wolch, I
03:13 15		was flabbergasted by that. I really was not
16		expecting it to show that Larry Fisher had
17		committed that rape, but it then seemed to me that
18		if he did that, the inference has to be drawn that
19		he's the one responsible for the murder too.
03:13 20	Q	It's the only possible conclusion isn't it?
21	А	Well, Mr. Wolch, you would be surprised how many
22		two-perpetrator theories there are out there, none
23		of which I, frankly, give any credence to, but
24		there are some very reasonable people who hold the
03:14 25		view that she encountered two people on that

occasion, one was Larry Fisher, the other was David Milgaard. But that's not a view that you share?

4 Α No, no, no. You know, at the very least --No. 5 at the very least, and I think it goes beyond 03:14 this, but at the very least had the Saskatoon 6 7 police known who raped Gail Miller, David Milgaard 8 would have been absolutely no interest to them at 9 all and they would have just chased Shorty Cadrain 03:14 10 out of the police station as fast as they could, 11 but I -- my view is that if you know who raped 12 her, then you know logically who has murdered her, 13 it has to be the same person.

14QOkay. And when you came to that conclusion, what03:1515was your view about Nichol John?

16 Well, my view about Nichol John was then and is Α 17 now there's no question she didn't see David 18 Milgaard doing anything, but I don't know whether 19 she saw something. According to their evidence, 03:15 20 they were stopped in that area, I mean, even Ron 21 Wilson is still at that point, so I don't know. 22 As I say, the only thing I'm sure of is I'm sure 23 she didn't see David Milgaard doing anything. 24 0 Are you saying there's some possibility she saw 03:15 25 the murder?

		Murray Brown by Mr. Wolch Vol 184 - Monday, September 18th, 2006

1	А	I don't know frankly, Mr. Wolch, what she may or
2		may not have seen, and I don't suppose anyone is
3		ever going to be able to establish that
4	Q	I'm not so sure about that.
<i>03:16</i> 5	А	perfectly, and to be honest with you, the two
6		prosecutors who prosecuted Larry Fisher take the
7		view that she was lying from the get-go.
8	Q	Lying about what?
9	А	About seeing anything.
<i>03:16</i> 10	Q	They take the view she never saw a thing?
11	А	Yeah, that's right, about seeing anything or
12		seeing David Milgaard or anybody else.
13	Q	Let's deal with that then. Now, one of the
14		prosecutors was Al Johnston?
<i>03:16</i> 15	А	Al Johnston, yes.
16	Q	Tell us a bit about him.
17	А	A senior prosecutor with Saskatchewan Justice,
18		been there maybe two years less than I have.
19	Q	Okay. A highly respected prosecutor?
03:16 20	А	Yes.
21	Q	And Dean Sinclair?
22	А	I think he's been well, it would certainly be
23		24, 25 years, something like that now. Again,
24		senior prosecutor in the head office now.
03:17 25	Q	Also very competent?

	1	А	Yes.
	2	Q	Now, with the exception of the DNA, they would be
	3		looking at basically the same evidence that you
	4		considered?
03:17	5		COMMISSIONER MacCALLUM: Who would be?
	6		MR. WOLCH: Sinclair and Johnston.
	7	А	I'm sorry, Mr. Wolch, you can't say with the
	8		exception of the DNA, I mean, that is the smoking
	9		gun, and that is the thing that points directly at
03:17	10		Larry Fisher and irrevocably at Larry Fisher.
-	11		BY MR. WOLCH:
-	12	Q	But it doesn't change what Nichol John said.
-	13	А	Well, no, it doesn't change what she said.
-	14	Q	It doesn't change what Linda Fisher said.
03:18	15	А	No, it doesn't, and it doesn't change the problems
	16		with what Linda Fisher said.
	17	Q	Well, we'll deal what I'm saying is the DNA
	18		doesn't change any of the other evidence. It
	19		might change how you look at it and how you
03:18	20		evaluate it, but with all due respect, it
2	21		shouldn't.
2	22	А	Well, maybe it shouldn't in your view, Mr. Wolch,
2	23		but the reality is it did.
2	24	Q	Because shouldn't the prosecutor look and evaluate

		Page 38442
1	А	Well, and we looked at the Larry Fisher evidence
2		and our view was it didn't establish Larry Fisher
3		was guilty, didn't establish a case we could run
4		against him. I know you take a different view,
<i>03:18</i> 5		but that's our view.
6	Q	Well, those prosecutors looked at Nichol John's
7		evidence as having no merit whatsoever, the case
8		against David Milgaard having no merit, and I'm
9		trying to zero in on why they would see it one way
<i>03:18</i> 10		and you would see it the other.
11	А	Well, no, no, their view is that Nichol John's
12		evidence indicating that David Milgaard was, had
13		some involvement was false. I agree. Whatever
14		Nichol John did or didn't see, she could not have
<i>03:19</i> 15		seen David Milgaard committing that assault. Did
16		she see something? I don't know.
17	Q	Well, I would like to deal with how they saw the
18		same case that you saw with, albeit, the exception
19		of the DNA, but in looking at the same evidence,
03:19 20		and if I can get to 297487, and that's document
21		297421, this is from Larry Fisher's trial, and
22		this is Mr. Johnston addressing the jury. I want
23		to go over some portions with you.

03:20	5	Q	That's not my question. Johnston says:
	6		"These are the signposts along the real

	8		we suggest to you are significant and
	9		tell you something significant about
03:20	10		this crime. You remember way back when
	11		when this trial started six weeks ago or
	12		so, one of the I think maybe it was
	13		the first witness we heard, Detective
	14		Parker, Parker told us that he spoke to
03:20	15		Larry Fisher, to the accused, the
	16		morning of February 3, 1969. That is
	17		the morning, three days after Friday
	18		morning when Gail Miller was killed. He
	19		spoke to Fisher who told him that he,
03:20	20		that is Larry Fisher, lived at 334
	21		Avenue O South And I suggest it's
	22		very significant now, it wasn't to the

	1		time living at 334 Avenue O South, and
	2		on Monday morning at 6:49 a.m. he was at
	3		that bus stop. That is the same bus
	4		stop that Gail Miller caught her bus to
03:21	5		work most mornings."
	6		So I pause there. See, you said to us you
	7		considered it a coincidence. He considers the
	8		same thing significant.
	9	А	Well, and as I said, Mr. Wolch, ask him why he
03:21	10	Q	No, I'm asking you.
	11	А	Why? I didn't run the trial. It wasn't my
	12		prosecution.
	13	Q	Okay.
	14	А	What's more, the evidence we had, as I recall from
03:21	15		the Supreme Court, was that she frequently used
	16		the N bus stop.
	17	Q	We'll get okay.
	18		"You heard evidence as well early on
	19		that Gail was killed about that time on
03:21	20		Friday, January 31, really just yards
	21		away, just yards away from the bus stop.
	22		There is a red X I'm referring to, My
	23		Lord, there is a red X here, we were
	24		told by any number of witnesses that the
03:22	25		bus stop was on the southwest corner of
			Meyer CompuCourt Reporting
	-		Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

	1	20th Street and Avenue O. And if you
	2	remember the evidence of Maria Trupej,
	3	she was the lady who is now getting a
	4	little elderly, and as I recall her
03:22	5	testimony she said she remembered each
	6	morning a pretty young nurse walking
	7	from the north and a construction worker
	8	with a hard hat walking from the south.
	9	And remember this, Gail Miller lived at
03:22	10	130 Avenue O South, and her friend
	11	Adeline Hall told us that to catch the
	12	bus she would walk south to that bus
	13	stop. You remember Linda Fisher told us
	14	that Larry Fisher took the bus and when
03:22	15	he did he walked north. It's for you to
	16	say, but who do you think Maria Trupej
	17	is talking about? Because I suggest
	18	this to you, Ladies and Gentlemen, if
	19	Maria Trupej noticed Gail coming from
03:22	20	the north and Fisher coming from the
	21	south, do you think Larry Fisher noticed
	22	Gail coming from the north?"
	23	Now, that submission there would destroy, if
	24	accepted, would destroy the entire Crown theory
03:22	25	of how David Milgaard killed Gail Miller, it has
		Meyer CompuCourt Reporting

1		it on a different street; do you agree?
2	А	Well, certainly the as I recall from the trial
3		transcript, the theory I think was that she was
4		taking the N going to the N stop, that's why
<i>0</i> 3:23 5		she was on Avenue N.
6	Q	I'm not going to debate that with you, but
7	А	I think that's the case isn't it?
8	Q	No, it's not.
9	А	Oh.
03:23 10	Q	Simon Doell is another issue that I'm not going to
11		take the time.
12	А	No, no, my point is that that was the theory of
13		how she ended up being going down that street.
14	Q	Oh, yeah, Simon Doell, that's another story. Go
<i>03:</i> 23 15		to 297493:
16		"McCorriston, you will recall, found
17		Gail's purse. And he testified that he
18		found Gail's purse in the lane behind
19		either 414 or 418 - 20th Street. The
03:23 20		only point I want to make there is if
21		you go down the lane and take a right
22		and then a left to get to Larry Fisher's
23		house, you walk by that garbage can."
24		Is that something you would have considered?
<i>03:24</i> 25	А	To be honest with you, I'm not even sure what he's
		Meyer CompuCourt Reporting

	1		talking about there.
	2	Q	All right.
	3	А	I thought her purse was found in the garbage can
	4		in the T alley. Is that what we're talking about?
03:24	5	Q	Yes.
	6	А	And then you take a right and a left to get to
	7		Larry Fisher's house?
	8	Q	Yes. Anyway, leave that
	9	А	Yeah.
03:24	10	Q	I'll move on.
	11	А	I would have to look at a map.
	12	Q	I'll move on, I don't want you to start looking it
	13		up, but here's something which I think is very
	14		significant. We've heard very much about the
03:24	15		cosmetic bag, okay, we've heard about it from
	16		Nichol John, we've heard about it from Ron Wilson,
	17		Cadrain testified to that, we have the conflict
	18		between David and Justice Tallis, it's been a
	19		major factor, we've heard about it here over and
03:25	20		over again. I would like you to see how the
	21		prosecutors handled that piece of evidence:
	22		"Now that little bit of evidence takes
	23		on a little bit more significance
	24		because in exhibit P-19 there is
03:25	25		another booklet of photographs but I
			Meyer CompuCourt Reporting

			——————————————————————————————————————
	1		won't make you scramble for it
	2		photograph 14 in it was a photograph
	3		taken of Gail's purse that was found in
	4		that garbage can and you will see, and I
03:25	5		will invite you to look at it at your
	6		pleasure when you're deliberating, but
	7		you will see the purse and all the
	8		contents. One of the contents is a
	9		cosmetic bag, and you will see the
03:25	10		cosmetic bag right there below the
	11		purse. The evidence of McCorriston was
	12		Gail's purse was found in that garbage
	13		bag (sic) and this photo depicts the
	14		contents."
03:25	15	Turn the	page:
	16		"and you can compare it, if you wish,
	17		to the photograph.
	18		Now, you might say well what
	19		is that cosmetic bag have to do
03:25	20		anything, it's not a big deal, but
	21		Nichol John, and a big deal was made of
	22		it here, Nichol John in her second
	23		statement, and I'll talk about that
	24		second statement more, said a cosmetic
03:26	25		case was thrown out between Saskatoon

1		and Rosetown. Well, it wasn't Gail
2		Miller's because we have Gail Miller's."
3		Now that's well, I mean, I'm having a
4		difficulty how this prosecutor can see it so
03:26 5		clearly, same facts, we have the cosmetic bag,
6		it's in the purse, the one out on the road means
7		nothing, and yet in David Milgaard's case it
8		means everything.
9	А	Well, it could be because he had the DNA results
03:26 10		that absolutely tied Larry Fisher to the murder.
11	Q	But it shouldn't cause you to see the cosmetic bag
12		any differently should it?
13	А	Well, first of all, I'm not sure I would say that
14		that necessarily excludes that as being a cosmetic
03:26 15		bag she may have had. Certainly she had one in
16		her with her purse, maybe she had two, I don't
17		know, but the point is that the whole colour of
18		all of the evidence changes dramatically when you
19		know the results of that DNA, because it then
03:27 20	Q	Shouldn't the cosmetic
21	А	Maybe it won't for you, Mr. Wolch, but it
22		certainly does for me. If I had known the results
23		of the DNA, the process in the Supreme Court would
24		have been very short.
03:27 25	Q	Well, I appreciate that, but why should it cause
		Meyer CompuCourt Reporting

1		you to look at straight evidence and interpret it

3		always in the purse, it was always
4	А	A cosmetic bag was always in the purse.
03:27 5	Q	This prosecutor says look, much ado about nothing,
6		because Mr. Beresh obviously made a big deal of
7		it, much ado about nothing, it's in the purse,
8		take a look at it, ladies and gentlemen.
9	А	Yeah.
03:27 10	Q	That prosecutor is looking at the same evidence as
11		you in the same factual circumstances.
12	А	Well, see, Mr. Wolch, that's not correct, it's not
13		in the same circumstances, it's with the very
14		different circumstance that he now knows Larry
03:28 15		Fisher is the one that raped Gail Miller and is
16		likely the one therefore that murdered her, most
17		likely the one that murdered her.
18	Q	You are saying you start with the presumption of
19		guilt and then evaluate evidence that fits the
03:28 20		presumption?
21	А	He has the evidence to establish that Larry Fisher
22		raped Gail Miller and that puts a whole different
23		colour on all of the other evidence. It puts a
24		whole different colour on Nichol John's evidence,
03:28 25		it's useless. It puts a whole different colour on

1		Ron Wilson's evidence, it's largely useless.
2		David Milgaard isn't in the picture any more and
3		so anything having to do with David Milgaard isn't
4		in the picture any more.
03:28 5	Q	So what you are saying is that you can look at
6		objective evidence and it will be evaluated
7		differently whether you as to whom you presume
8		to be guilty?
9	А	The inference you draw from that evidence is going
<i>0</i> 3:28 10		to be different depending on what facts you know,
11		and if you happen to know that Larry Fisher is the
12		one who committed the rape, that allows you to
13		draw a very different inference with respect to
14		whether David Milgaard is involved. The case
<i>0</i> 3:29 15		against Milgaard was largely circumstantial with
16		the exception of those, whatever you call thems,
17		in the motel room and whatever you call what
18		Nichol John said and Wilson said, I mean, the sort
19		of confessions. At this point all of that was
03:29 20		irrelevant, it was gone.
21	Q	So you are saying the same objective evidence will
22		be looked at differently depending on what you
23		think the conclusion is?
24	А	No, no, Mr. Wolch, what I said was the same
03:29 25		objective evidence, you will draw different
		Meyer CompuCourt Reporting

 $\mathbf{A}$ 

Page 38452

inferences from it depending on what the other

circumstances are, and if one of those other

1

2

	2		cricumstances are, and if one of those other
	3		circumstances is you know who raped the woman,
	4		that's a whole different case.
03:30	5	Q	So you are saying that it's your view that if
	6		Mr. Johnston looked at this evidence without the
	7		DNA, he would have formed a different conclusion
	8		on the same point?
	9	А	No, he may very well have. I would note that the
03:30	10		Supreme Court of Canada didn't see it that way,
	11		they thought there was a basis to prosecute David
	12		Milgaard, and ample evidence upon which he was
	13		convicted, and again, all of that evidence that
	14		convicted him was something that was looked at
03:30	15		without the knowledge of who raped Gail Miller
	16		and, as I said before, had the police known that
	17		then, David Milgaard, the purse, Nichol John, none
	18		of them would have been of any interest to them.
	19	Q	What I'm getting at is you are a prosecutor and
03:30	20		Mr. Johnston is a prosecutor, you are both looking
	21		at the same evidence. I'm trying to understand
	22		how you could interpret it so differently.
	23	A	And I've just told you, because the case that
	24		Mr. Johnston and Mr. Sinclair was looking at was a
03:31	25		very different one.

Page 38453 1 Well, let's look --Q It included the evidence that Larry Fisher was the 2 А 3 man who raped Gail Miller. 4 Well, let's look at this if we could --0 5 And this, I mean, the cosmetic bag wasn't evidence 03:31 Α 6 against Larry Fisher, it was nothing. That was 7 something that Brian Beresh introduced to try and 8 prove that David Milgaard was the one who 9 committed the murder, or at least used that to 03:31 10 raise a reasonable doubt. Let's look at 297495: 11 Q 12 "You will remember as well when we're 13 talking about these early witnesses, 14 Reid and Parker, Detectives Reid, 03:31 15 Parker, Penkala, Kleiv, they were, as I 16 recall, all asked as to whether or not 17 they saw any signs of a car being stuck 18 in that alley, and not one of them did. 19 Not one of them saw any signs in that 03:32 20 alley of a car being stuck." 21 Did the fact that there was no sign of a car 22 being stuck cause you any concern when you were 23 handling this matter? 24 Α Well, as I recall the evidence from the Supreme 03:32 25 Court, the evidence was that you wouldn't have

21		suggest to you, Ladies and Gentlemen,
22		it's up to you, but I suggest to you
23		it's important that not one day since

21 the March 11th statement about the arrival and
22 looking for Shorty, and then another paragraph
23 about driving around the block and coming across
24 a convertible. He continues:
03:34 25 "Now, in that statement, in the witness

03:34 5	just testified the other day, the fellow
E	who had such a hard time remembering,
7	but the one thing"
8	He,

03:34 10	1969he testified that the alley he
11	was in if I'm not mistaken was way aver
12	here, Avenue T. I digress. I'll come
13	back to that. But Nichol continues in
14	that first witness statement"
03:34 15	And she says, and another paragraph is quoted,
16	where it's coming upon the Danchuks.
17	Mr. Johnston continues:
18	"Listen to this, Ladies and Gentlemen,
19	and see if it compares to Mr. Danchuk's
03:35 20	evidence"
21	And then there's a paragraph from Mr. Danchuk
22	talking about the tow truck and being stuck.
23	Johnston continues:
24	"Now, when you look at her second
03:35 25	statement of May 24, she claimed that

	1	this happened after she saw David
	2	Milgaard stabbing this woman. Imagine
	3	this situation; it is alleged here that
	4	David Milgaard did these things to Gail
03:35	5	Miller, and moments later they stopped
	6	to help a guy who is stuck and then they
	7	hang around in the guy's house for an
	8	hour or two, and you heard Mr. Danchuk
	9	say the other day David Milgaard was the
03:35 1	0	chatty one. Does that make any sense to
1	1	you?
1	2	He also said, you might
1	3	recall, that when they took him to the
1	4	tow truck and got the tow truck,
<i>0</i> 3:35 1	5	Milgaard had no money. Well, if he
1	6	killed Gail Miller he had money. And he
1	7	also had a lot of blood on him. The man
1	8	saw nothing. He did say that Milgaard's
1	9	pants were ripped, the same as Nichol
03:36 2	20	says in this statement. Nobody has ever
2	21	quarrelled with that. But Nichol says
2	22	specifically in this first statement
2	23	Milgaard's pants were ripped. "I didn't
2	24	see any blood on anybody's clothing".
03:36 2	25	She says as well in this first statement
		Meyer CompuCourt Reporting

Page 38458

	Ī	Page 38458
	1	that's very significant, I suggest
	2	because she sure didn't spend any time
	3	in jail before she gave this one."
	4	So he's alluding to the fact that Nichol John was
03:36	5	kept in custody before she made the statement.
	6	"All during the morning we were in
	7	Saskatoon"
	8	Next page,
	9	"the 3 of us were together and I am
03:36	10	sure that David or Ron never left me for
	11	more than one or two minutes that
	12	morning."
	13	And that statement is corroborated, he says, word
	14	for word by Danchuk.
03:36	15	"Then we go to the May 24, 1969
	16	statement, the statement she has never
	17	remembered before or since. I suggest
	18	that statement, Ladies and Gentlemen, is
	19	riddled, riddled with evidence of the
03:37	20	suggestions that had been made to her.
	21	I'm not saying this is an evil thing or
	22	even that it wad done deliberately, but
	23	I do suggest that statement of the 24th,
	24	the one and only day in her life that
03:37	25	Nichol John ever alleged David Milgaard

1		did anything wrong is riddled with
2	2	suggestion. She says, in talking about
3	3	the maroon handled knife:
4		"This knife was the same one of a group
<i>03:37</i> 5	5	of knives that I was shown by Mr.
e	,	Roberts."
7	,	She says:
8	3	"After we got to Saskatoon we drove
ç		around for about 10 or 15 minutes. Then
<i>0</i> 3:37 10	)	we talked to this girl. This was in the
11		area where Sgt. Mackie drove me around."
12		You'll remember when I asked
13	3	Sergeant Mackie, I said specifically,
14		"did you take her there or did she take
15	5	you there?" He said, "I took her
16		there". So again, I'm not saying it's
17	,	deliberate, but she's 16 years old, she
18	}	has just spent two nights in the jug.
19	)	She didn't do anything wrong. The only
<i>03:3</i> 7 20	)	thing she was doing was not implicating
21		David Milgaard.
22		She then says very
23	3	significantly, Ladies and Gentlemen,
24		because this is the part of the
03:38 25	5	statement upon which people jump:
	Certified Profession	Meyer CompuCourt Reporting — Meyer CompuCourt Reporting — Meyer CompuCourt Reporting P.A., Regina & Saskatoon since 1980

Page 38460 1 "We ended up stuck at the entrance to 2 the alley behind the funeral home." 3 Somebody, one of the 4 witnesses, I think maybe it was Mackie, 5 I'm not sure, wrote in hey, right at the entrance to the alley behind the funeral 6 7 home, right across the street from where 8 Mrs. Merriman ... lived. And you will 9 remember the other day Mrs. Merriman ... 03:38 10 said they called a cab for 6:55, and she 11 saw no one stuck there. And that was 12 steps away from her cab -- from where 13 her cab would have been. 6:55 a.m. Ιf 14 Nichol John's statement has any element of truth, they had to have been stuck 15 16 right at the spot as Mrs. Merriman 17 walked out of her house looking right at 18 them, and she didn't see them because I 19 suggest it didn't happen. And I suggest 20 it shouldn't come as a surprise to you 21 that it didn't happen because the one 22 and only time Nichol John in her 23 lifetime said it did was on May 24, 24 1969, after she had been talked to by a 03:38 25 number of police officers and spent two

COMMISSIONER MacCALLUM: 6 Mr. Wolch, can I 7 just ask you one thing? 8 MR. WOLCH: Absolutely. 9 COMMISSIONER MacCALLUM: Was the background 03:39 10 to this address a suggestion by defence counsel 11 that they should accept the May 24th statement of 12 Nichol John --13 MR. WOLCH: Yes? 14 COMMISSIONER MacCALLUM: -- as raising a 03:39 15 reasonable doubt of Fisher's guilt? 16 MR. WOLCH: Yes. I think what happened if 17 I'm correct, and I'll try and be -- hopefully I'm 18 precise. Crown counsel -- sorry -- defence 19 counsel asked that Nichol John's May 24th 03:39 20 statement be ruled admissible. 21 COMMISSIONER MacCALLUM: Sure. 22 MR. WOLCH: The Crown said that you can't 23 put it in a vacuum because of the earlier 24 statement given should put it on a different 03:39 25 light, and the trial judge ruled that both

I'll get to 5 that, but I think they said neither should have 03:39 6 gone to the jury. 7 COMMISSIONER MacCALLUM: Okay. 8 MR. WOLCH: But I might be wrong about 9 that, I don't know. 03:39 10 COMMISSIONER MacCALLUM: Well, at any rate, 11 what I was -- what had just occurred to me, that 12 it was -- it then fell to Mr. Johnston to 13 discredit the statement of Nichol John --14 MR. WOLCH: Yes. 03:40 15 COMMISSIONER MacCALLUM: -- in order to get 16 Fisher convicted? 17 MR. WOLCH: Yes. 18 COMMISSIONER MacCALLUM: Okay. 19 MR. WOLCH: Yes. 03:40 20 COMMISSIONER MacCALLUM: Go ahead there, 21 I'm sorry to interrupt, but --22 MR. WOLCH: No, that's helpful, thank you. 23 BY MR. 1	He cited David Milgaard as the chatty
2	one was my note as I recall
3	Danchuk's evidence he said these three;
4	two guys including Milgaard, a girl, and
<i>03:40</i> 5	another guy, were in his presence *from
6	between 7:30 and 7:40 until 9:30 or
7	10:00. We are to believe that this guy
8	who has just committed this offence
9	against Gail Miller is sitting
03:40 10	chatting with Mr. Danchuk some blocks
11	away. Sitting in the house talking to
12	him and his wife, with no money.
13	Nichol John also says in the
14	May 24 statement:"
<i>03:41</i> 15	about the cosmetic case. And he says:
16	"Well, I suggest, Ladies and
17	Gentlemen, it's for you to determine it
18	wasn't there because we have it here.
19	Perhaps the most significant
03:41 20	statement in this May 24 statement which
21	I suggest is a fantasy is the one on
22	the second-last page where she says:
23	'I have not told anyone about
24	witnessing this murder. I didn't
03:41 25	recall actually witnessing a murder

1	until yesterday when I talked with
2	Mr. Roberts.'
3	Never recalled it before and has never
4	recalled it since, and I suggest it's
03:41 5	because there is nothing to recall. She
6	can get hypnotized until the blue moon
7	comes out and there is nothing there to
8	recall.
9	You see, I suggest for the
03:41 10	reasons I have gone over Nichol
11	John's statement cannot be true. And I
12	want to suggest it for one last reason
13	and one very important reason that what
14	she says in the statement, and it's
<i>03:41</i> 15	important you remember she has never
16	said it since, is that she saw Milgaard
17	with this woman that they had talked to
18	on the street beside the car and saw him
19	stabbing her, saw him stabbing her, and
20	dragging her around the corner down the
21	alley Well, Gail Miller has no
22	stab wounds in her dress, there are no
23	stab wounds in the back of her dress,
24	the wounds inflicted to her back were
<i>03:42</i> 25	inflicted after her dress was off and

	1		after her coat was back on. There is no
	2		other explanation."
	3		And then he goes on to continually talk about how
	4		her statement can't be true, the Merrimans would
03:42	5		have seen it, and then he says:
	6		"And for the reason that she was
	7		obviously suggested to over and over and
	8		over in the course of the statement and
	9		finally for the reason that 'I didn't
03:42	10		even remember witnessing this until I
	11		spoke to Mr. Roberts'."
-	12		So your prosecutor there, looking at the same
	13		evidence, is saying "this is ridiculous". I'm
	14		interested in why you didn't look at it the same
03:42	15		way?
	16	А	Well, I didn't have the same information that
	17		Mr. Johnston did.
	18	Q	Well you had Mr. Merriman?
	19	A	At the end of the day, you know, you argued all
03:43	20		those things in the Supreme Court
	21	Q	No, no, that's not my question, Mr. Brown.
	22	А	Her evidence was what it was.
	23	Q	Mr. Brown?
	24	А	He takes a different view of it.
03:43	25	Q	No, I'm not I'm asking you why you, why you

	1		think, as the prosecutor, you couldn't see what he
	2		saw in terms of the incredibility of the story,
	3		the fact that the Merrimans would have had to have
	4		seen this thing if it had happened, how ridiculous
03:43	5		it is that "I now remember, out of the blue, a
	6		murder", it went through a coat and not through a
	7		dress? I'm not going to repeat everything there,
	8		it's very powerful, but I'm just wondering why you
	9		didn't see it? I mean, surely, DNA doesn't change
03:43	10		any of that?
	11	А	No, it doesn't change any of that, but it does
	12		change the lens that you look at all of this
	13		evidence through, it changes it very
	14		substantially.
03:43	15	Q	Do you think it should?
	16	А	Well are you saying that, if you know substantial
	17		and very important new facts, that doesn't change
	18		how you interpret other things?
	19	Q	Well
03:44	20	А	Of course it does.
	21	Q	Well, look at the next paragraph here:
	22		"We are to",
	23	А	The point I would make with respect to Nichol
	24		John and I think I may have made it to
03:44	25		Ms. McLean is, at this point, we know she did

03:46 25	Q	I mean Mr. Johnston says it was transparent,

03:46	5 <b>Q</b>	No, I'm interested in why you didn't characterize
(	6	it that way or see any problems with the evidence
	7	that you were relying on?
ę	8 A	Well I didn't say we didn't see any problems with
(	9	the evidence that we were relying on, there were
03:46 10	0	problems with the evidence in the Supreme Court,
1	1	there were problems with the evidence that showed
1:	2	up at trial, and one of them was Nichol John.
1:	3	What do you make of that, how does that go before
14	4	a jury?
03:46 1	5 <b>Q</b>	Okay. Now Mr. Johnston says he wants to talk
10	6	about real evidence:

	8		the type of guy to do this. That has
	9		nothing to do with the tendering of this
03:47	10		witness and is it is wrong for you to

03:48	20		That's something you wouldn't agree with?
	21	А	Again, that's Mr. Johnston's characterization,
	22		I've already told you mine.

was strikingly similar, why didn't he include the others if they were strikingly similar? Yeah, well, we'll deal with that. And here's, I suppose Mr. -- he is talking about Mr. Beresh's argument, which is fairly consistent with your position: "My Learned Friend says

8 they're different. Well, of course they 9 They took place on different dates are. 03:48 10 and they were different women. There is 11 always differences. The significance 12 here, from our perspective, is not the 13 differences but the similarities. 14 Because remember this, we suggest these 03:49 15 are some of the similarities, around the 16 same time (V2) and (V1) --- were raped I 17 think in October and November of 1968, 18 just of couple of months before Gail 19 Miller, they were raped just a few 03:49 20 blocks away from Larry Fisher's house. 21 Where was Ms. Gail Miller was raped and 22 killed. They were raped in residential 23 areas, and this is something that I 24 suggest you might find strikingly 03:49 25 similar, in residential areas where

- Page 38472 -

	1	there are houses all around and people
	2	all around. Now, my friend says she
	3	must have been in a car and nobody heard
	4	her screaming. Well, nobody heard (V2)
03:49	5	(V2) scream and nobody heard (V1)
	6	(V1)- scream. And why do you suppose
	7	that is? Because Larry Fisher had his
	8	hand over their mouths and a knife at
	9	their throat. Would you scream? Maria
03:49	10	Trupej had that figured out when she
	11	said to my friend 'How are you going to
	12	scream with a knife to your throat'.
	13	And we know Gail Miller had a knife to
	14	her throat, with all too much certainty.
03:49	15	You see, I suggest the
	16	striking similarities include the
	17	residential area, the time, the
	18	location, the fact that they were
	19	attacked on the street and pulled down
03:50	20	an alley with a knife to their throat,
	21	from behind, with a hand over their
	22	mouth. And I'm going to come back to
	23	the hand over the mouth because when you
	24	look at the photographs of Gail Miller's
03:50	25	dead body and remember Penkala's
		Meyer CompuCourt Reporting

		Murray Brown by Mr. Wolch Vol 184 - Monday, September 18th, 2006
		Page 38473
	1	evidence of how her mouth was scrunched
	2	up, I suggest you will know why.
	3	And of particular interest, I
	4	suggest, Ladies and Gentlemen, in those
03:50	5	other rapes is the fact that (V2)
	6	(V2), (V2), and (V1), (V1) -,
	7	with each of them, he attacked them on
	8	the street, dragged them down the alley
	9	in the way I suggested, and then, and
03:50	10	then in a residential area, ordered them
	11	to take their clothes off, to take their
	12	coat off and lay on it.
	13	Now, if you want an
	14	explanation for how Gail Miller came to
	15	be stabbed with her dress off and her
	16	coat on, look to those people, because
	17	they too were ordered to take their
	18	clothes off and lay on their coat.
	19	What is strikingly similar is
03:50	20	the fact that Larry Fisher in those
	21	other rapes was prepared to take those
	22	kinds of risks, those kinds of risks
	23	just to strip these women down, in a
	24	residential area, with his hand over
	25	· · · " ,

	1	her
	2	" mouth and a knife to their throat.
	3	(V1) (V1)- said that she
	4	was raped on October 21st",
03:51	5	now I won't go through this but it goes through
	6	all the facts of (V1) (V1)-; if we can
	7	scroll down then we have (V2) (V2), and
	8	it goes through all or some of the facts, at
	9	least, of her statement; and then (V8) (V8),
03:51	10	it goes through her facts. And then he says:
	11	"Now, our position with
	12	respect to those, Ladies and Gentlemen,
	13	are that there are striking similarities
	14	between the acts, that is between the
03:51	15	rapes of those three women and the rape
	16	and murder of Gail Miller. The value of
	17	the similar fact evidence is that it
	18	tells us, I suggest, what happened to
	19	Gail Miller. If you want to know how
03:51	20	Gail Miller got to that alley where her
	21	body was found; ask (V1) (V2)
	22	(V8) If you want to know how
	23	Gail Miller got her face all scrunched
	24	up; ask those three women. If you want
03:51	25	to know how Gail Miller came to have her

	2	(V2) (V1) and (V8)
	3	And If you want to know why no one heard
	4	Gail Miller screaming; ask those three
03:51	5	woman. In each assault it was the same
	6	type of weapon, in a residential area,
	7	and on each occasion he made them
	8	disrobe and lay on the coat. Not with
	9	(V8) $(V8)$ He told her to take her
03:52	10	coat off but they never got that far.
	11	I suggest that it's
	12	important, Ladies and Gentlemen, that
	13	these women, I'm now referring to
	14	(V1) - and $(V2)$ , were strangers.
03:52	15	They may very well be living today
	16	because they were strangers to Fisher.
	17	I suggest to you, Ladies and Gentlemen,
	18	from the evidence of Trupej and
	19	Humen that Gail Miller and Larry Fisher
03:52	20	took the same bus and consequently if
	21	they weren't introduced to one another,
	22	like Tony Humen, they very likely
	23	recognized one another, and I suggest
	24	that that's why Gail Miller is dead. My
03:53	25	friend suggests these other women

	1	weren't stabbed, and he's right, they
	2	were just threatened to have their
	3	throat cut. But he didn't know them.
	4	And he went to work on the same bus with
03:53	5	Gail. Mrs. Trupej, as I recall it,
	6	described it as each morning. And you
	7	may find, it's up to you, but you may
	8	find Larry Fisher determined it was
	9	either kill Gail Miller or get caught.
03:53	10	Because how could you rape a person who
	11	knew you to see you? Then what are you
	12	going to do, let her go? If you weren't
	13	going to kill her you wouldn't pick
	14	somebody you knew. You wouldn't pick
03:53	15	somebody you rode on the bus with."
	16	Well there's, there is the use that Mr. Johnston
	17	makes of similar acts, and I take it you would
	18	disagree with that?
	19	A I disagree with his characterization that all of
03:54	20	that proves Larry Fisher raped Gail Miller. It
	21	only does that when you line it up with the DNA
	22	evidence.
	23	Now the last part that you
	24	read about him attacking someone he knew, that's
03:54	25	my reasoning for why, if you know who raped Gail

	1		Miller, you know who killed her. If you know it's
	2		Larry Fisher, the guy she took the bus with for
	3		several months in a row, that's why he killed her.
	4	Q	I guess I'm having trouble with and I don't
03:54	5		want to be unfair to you but I'm having trouble
	6		with the suggestion that we get the conclusion
	7		first
	8	А	Well, Mr. Wolch, you are starting
	9	Q	I haven't finished the question we get the
03:54	10		conclusion first and then interpret the evidence
	11		to fit the ultimate conclusion?
	12	A	Mr. Wolch, you are starting first of all with the
	13		presumption that the DNA evidence and that is
	14		irrelevant to how you assess the other evidence,
03:54	15		and I'm telling you it's not. You look at what
	16		you've got, all of what you have got, and you make
	17		your assessments on the pieces of evidence based
	18		on that.
	19		And, second, you are assuming
03:55	20		that every prosecutor sees everything the same
	21		way, and that's simply not the case. And I'm not
	22		sure, even today, given what the Supreme Court has
	23		said in Handy and Shearing, that that fresh
	24		evidence application would turn out the same way,
03:55	25		because they seem to have raised the bar back up

	1		quite substantially with that, with those cases.
	2	Q	They were both considered in the Court of Appeal
	3		in this case; weren't they?
	4	А	Umm, yes they were, and the Court of Appeal
03:55	5		thought that you probably got by that. But again,
	6		if you're looking at that, the Court of Appeal is
	7		also looking at the DNA evidence, which wasn't
	8		challenged in the slightest.
	9	Q	Oh?
03:55	10	А	And the DNA evidence said it's Larry Fisher.
	11	Q	Well, no, it was certainly tried to be challenged
	12		by Mr. Beresh?
	13	А	It wasn't touched.
	14	Q	Oh, it wasn't touched, but it was tried to be?
03:56	15	А	Well, he did, but
	16	Q	Well, and
	17	А	I think it blew up on him.
	18	Q	And you keep mentioning Handy and Shearing?
	19	А	Handy and Shearing.
03:56	20	Q	Wasn't that a collusion case?
	21	А	Well that, I mean, that was one of the issues they
	22		had to deal with.
	23	Q	It was consensual sex,
	24	А	Arguably.
03:56	25	Q	arguably?

	1	А	Possibly. It seems to me that was the situation
	2		where they'd had a relationship before?
	3	Q	Yeah, and but the two women knew each other.
	4	А	Oh, yeah, right.
03:56	5	Q	It's totally different?
	6	А	Well, no, there's elements of the idea that a few
	7		similarities don't a similar fact evidence case
	8		make.
	9	Q	But Justice Allbright would have been aware of
03:56	10		those cases?
	11	А	Umm, I rather doubt it. When was that trial? I
	12		think this trial was run before those cases came
	13		down.
	14	Q	Around the same time, I think. We'll check that,
03:56	15		but
	16	А	Well, very shortly after those cases came down,
	17	Q	We'll get to that.
	18	А	at the end of this trial. But no, it seems to
	19		me they were before, they are in the middle,
03:57	20		between the trial and the Court of Appeal, but
	21		it's
	22	Q	I want to deal with another little bit of
	23		evidence, 297507. I think Mr. Beresh actually
	24		called Kenny Cadrain, if you can believe it. Down
03:57	25		here:

- Page 38480 =

	1	"You know, Mr. Fisher through
	2	his counsel strenuously attacked the
	3	credibility of Linda Fisher, John
	4	Patterson and Pat Alain, and then to
03:57	5	support his theory he puts Ken Cadrain
	6	on the stand. Ken Cadrain was a child
	7	when all of this happened. He says you
	8	should believe Ken Cadrain. Kenny
	9	Cadrain was five years old when all this
03:57 1	10	happened and he gave no statement, as
1	11	far as I know of, to anyone until about
1	12	1990. In his statement to Pearson he
1	13	said specifically, 'I never seen
1	14	tattered clothes or blood'. I never
03:58 1	15	seen tattered clothes or blood. But by
1	16	1993 in the statement he gave that had
1	17	changed. Now he says he saw blood and
1	18	he saw Milgaard go out the back door and
1	19	back in. Today, or the other day when
03:58 2	20	he testified, now he remembers seeing a
2	21	garbage truck. 'I remember this garbage
2	22	truck'. The man is remarkable. His
2	23	memory is improving as time goes on. I
2	24	was joking with Sinclair, I said you
03:58 2	25	call him to the stand a couple more
		Meyer CompuCourt Reporting

	1		times we'll solve the Lindbergh
	2		kidnapping."
	3		A rather colourful way of assessing Ken Cadrain,
	4		but certainly ridiculing the absurdity of relying
03:58	5		on a five-year-old now in his twenties to have
	6		any probative value. Umm, any comment on that at
	7		all?
	8	А	Well, at that point, his job was to do whatever he
	9		could to discredit that because that was being
03:58	10		that was the evidence being called to put the
	11		David Milgaard theory before the Court and, of
	12		course, that wasn't where he was going at that
	13		point.
	14		I would point out however,
03:58	15		just for your information, that Mr. Johnston has
	16		prosecuted child sexual abuse cases where he has
	17		called people who have indicated they were abused
	18		when they were very, very young and are testifying
	19		a decade or two later, so it's not that you never
03:59	20		believe them.
	21	Q	Well, fine.
	22	А	In this instance he had a reason for attacking the
	23		credibility or the reliability
	24	Q	Mr. Brown,
03:59	25	А	of that witness.

	1	I think she said something like the
	2	colour drained from his face or he
	3	appeared shocked or something like that.
	4	My learned friend says Linda, if she was
04:00	5	telling the truth, would have mentioned
	6	that to the police. Well why, she
	7	didn't blame him at the time. She told
	8	us that. She was mad at him for being
	9	out all night. She made the accusation
04:00	10	in a moment of anger. She even said
	11	when he looked so shocked she backed off
	12	because now she felt bad, she thought
	13	she had gone too far. My friend says
	14	she is just vindictive. Well, is that
04:00	15	vindictive? I suggest, and it's
	16	entirely up to you, but I suggest
	17	Ms. Fisher was very forthright because
	18	she never talked about scratches or
	19	bruises or missing any bloody clothes or
04:00	20	any of that stuff, she said to the
	21	contrary, 'I said that to him I didn't
	22	even mean it.'"
	23	So he is looking at her as being forthright while
	24	you are saying that her not saying there was that
04:01	25	supported his case. Do you see the difference?
		Meyer CompuCourt Reporting

by Mr. Wolch Vol 184 - Monday, September 18th, 2006 Page 38484 1 Oh, I can see the difference, and I can understand Α 2 why he would be arguing a different tack. 3 Going down to here: 0 "It was only after that she found out 4 5 about the rapes that he was committing 04:01 in Saskatoon and then later the rape in 6 7 Winnipeg, and she testified that it was 8 around 1980, and I recall and again His 9 Lordship will have better notes, but I 04:01 10 recall her saying that she thought he 11 was getting out or something, and this 12 was bugging her so she had -- she drove 13 to the police station or her boyfriend 14 or something drove her to the police 04:01 15 station at four o'clock in the morning 16 in 1980, she had been drinking and she 17 gave this statement to the police. 18 Well, you know, when you think about it 19 first, you think she's just -- she's 04:02 20 half-loaded, it's 4:00 in the morning, 21 I'm sure that's what the police officers 22 thought because he didn't do anything 23 with the statement, but he kept it. And 24 I'll suggest something to you, Ladies 25 and Gentleman, Linda Fisher has not = Meyer CompuCourt Reporting =

	1	wavered significantly from that
	2	statement that she gave in 1980 to this
	3	day, and she has been called upon to
	4	testify and talked to a lot of people
04:02	5	about it, and I suggest she has not
	6	wavered in any significant way. I
	7	suggest the evidence proves that she has
	8	not waived because my friend certainly
	9	had an opportunity to cross-examine her
04:02	10	on it."
	11	So Linda Fisher is being assessed very, very
	12	differently by one prosecutor, here, as to you
	13	assessed her back then?
	14	A Yes. Now, after the break, Mr. Johnston continues
04:03	15	down here. He talks about Linda Fisher and her
	16	credibility, I won't read that, but if we can go
	17	down to the next page.
	18	"As I recall from the evidence, the
	19	first time anybody raised the spectre of
04:03	20	Larry Fisher in regards to the Gail
	21	Miller murder was in 1990 between
	22	1969 and 1980 to the best of our
	23	knowledge from this evidence, no one
	24	connected him, except Linda, and her
04:03	25	voice went unheard. The only thing she

And nobody else ever 04:03 connected them until 1990. 6 Linda 7 Fisher's evidence is significant for 8 several reasons. She says Larry Fisher 9 was at home the day Gail Miller was 10 murdered and was supposed to be at work. You will recall Mr. Fisher told 11 12 Detective Parker that he was at work not 13 at home. Linda Fisher says she accused 14 him of the murder and stopped him in his 15 She says additionally that she, tracks. 04:04 16 with Larry Fisher, bought a knife 17 similar to the murder weapon at the OK 18 Economy, and that these two items ... ", 19 he identifies P-18 and, perhaps erroneously, 04:04 20 P-15. 21 "Now, it may be my fault, 22 Ladies and Gentlemen, because I know in 23 questioning her there may have been some 24 confusion about these knives, and I want 04:04 25 to talk a little bit about my = Meyer CompuCourt Reporting =

	1	recollection of Linda's evidence.
	2	Linda Fisher has maintained
	3	from the first day and continues to
	4	maintain that the knife she missed was a
04:04	5	wooden handled paring knife with rivets
	6	in it. She has never said anything
	7	different, and you may have been
	8	confused about that. His Lordship will
	9	correct me if I'm wrong, but Linda
04:04	10	Fisher has maintained from day one that
	11	the knife she missed was a wooden
	12	handled paring knife with rivets, not
	13	this knife. She did however testify
	14	that at the preliminary hearing, you
04:05	15	heard that was back in January of 1998,
	16	she was for the first time, for the
	17	first time shown this knife handle and
	18	the blade, and it was then she said
	19	'Good heaven's, we had a knife like
04:05	20	that, Larry and I bought it at the OK
	21	Economy. She never, ever claimed and
	22	didn't claim on the stand that she was
	23	talking about the same knife. Clearly
	24	the knife she described as believing was
04:05	25	missing was a different one, wooden

	2		shown the knife for the first time she
	3		said that was 'similar to one Larry and
	4		I bought at the OK Economy.'
04:05	5		If you remember there was a
	6		bit of to-do with Eugene Williams and
	7		whether she was shown a photo or not.
	8		And when I questioned Linda Fisher I put
	9		this question to her, I said, 'Do you
04:05	10		remember the interview with Eugene
	11		Williams?' she said 'Yes'. And I said
	12		did Eugene Williams ask you these
	13		questions and did you give these
	14		answers:
04:05	15	Q	Okay. I'm producing and showing to
	16		you this document which is entitled
	17		'murder still under investigation'
	18		and ask you to look at that. My
	19		question is, have you ever seen this
04:06	20		document before?
	21		The answer is no. I said: 'Linda did
	22		you hear the question and say the answer
	23		'yes'.
	24		The next question is:
04:06	25	Q	It reads; the police department are

8	a certain number.
9	'Below that is a depiction of a
<i>04:06</i> 10	paring knife. At the time that you
11	went to the police did you know that
12	a blade from a paring knife had been
13	found underneath the victim's body?'
14	She said no. I said 'Linda, were you
<i>04:06</i> 15	asked that question and did you give
16	that answer'? Now I simply say this,
17	Ladies and Gentlemen, that question from
18	Linda, if you accept her evidence
19	indicates that it was this document that
04:06 20	was shown to her. Now I simply ask you
21	this; she is shown this document, she
22	doesn't recognize it, she is shown this
23	item and says she does. I leave it to
24	you but, I suggest, it's not
04:07 25	unreasonable that a person doesn't
	Meyer CompuCourt Reporting

		5
1		recognize this and might recognize the
2		real thing. But I do want to suggest to
3		you that Linda Fisher has never, ever
4		claimed they were one and the same. The
<i>04:0</i> 7 5		knife she has always talked about was a
6		wooden handled knife with rivets. This
7		is a different knife. She talked about
8		two different knives.
9		I suggest to you when it
<i>04:0</i> 7 10		comes to Mrs. Fisher and when it comes
11		to John Patterson, that their evidence
12		stands alone. There is no evidence to
13		the contrary before you and you are
14		entitled to consider that when you are
<i>04:0</i> 7 15		deciding whether or not to accept it."
16		So this Crown attorney puts a lot of weight on
17		Linda Fisher and, I won't go through it all, and
18		John Patterson as well, and are you saying it's
19		because the end result causes prosecutors to look
04:07 20		at people's evidence differently?
21	А	No, I'm telling you that it's the evidence in its
22		totality that causes prosecutors to assess their
23		cases differently. Had we had, you know, had
24		Eugene Williams and Ron Fainstein and Rob Frater

	1		Fisher DNA evidence, in the Supreme Court, we
	2		would have seen it differently too.
	3	Q	You mentioned Ron Fainstein and Robert Frater;
	4		what was their position?
04:08	5	А	Their position on what?
	6	Q	At the Supreme Court reference? Were they
	7	А	Well they
	8	Q	partisan or non-partisan?
	9	А	Well in they were there to assist the Court,
04:08	10		but I'm aware of the fact that they didn't take
	11		any different view than what we had.
	12	Q	Well, Fainstein actually cross-examined David?
	13	А	Well, he started to, and isn't that at the point
	14		where the Chief Justice reminded him that they
04:08	15		were basically there just to assist the Court?
	16	Q	Would you accept that Fainstein and Frater were,
	17		let's say, on the same side as you?
	18	А	Oh, I would think that's a fair characterization,
	19		yes.
04:09	20	Q	Just go to 297538. Just as interest, here's how
	21		Mr. Johnston ended his address to the jury:
	22		" Ladies and Gentlemen, I say with

	1		what you all now know that the verdict
	2		you ultimately come to will be the just
	3		and proper one."
	4		I take it you would agree with that?
04:09	5	А	Yes. I think David Milgaard's potential
	6		culpability was the only real defence Larry Fisher
	7		had. The attempt to discredit the DNA, if I
	8		recall correctly, blew up in his face.
	9	Q	So I just well, I'll leave it for now, but I'm
04:10	10		interested in how or your point you make about,
	11		when you know the end result, you look at specific
	12		evidence differently, I mean
	13	А	No, no, when you have all of the evidence you look
	14		at the specific parts differently, and I don't
04:10	15		I mean suppose, for whatever reason, the jury had
	16		come in and said "not guilty" at the Fisher trial,
	17		that wouldn't have changed my mind.
	18	Q	No, but what I am saying is I'm having a very hard
	19		time coming to grips with the idea that, if Nichol
04:10	20		John's evidence is not worthy of belief, why
	21		that's influenced as to whether you have DNA or
	22		not?
	23	А	Well, because you come to the conclusion that it's
	24		not worth any credit because you know all of the
04:11	25		evidence, you know that Larry Fisher is the one

1		who raped Gail Miller, and therefore you know
2		Nichol John's evidence can't be true.
3	Q	But why can't you form the same opinion just
4		assessing the frailty of the evidence,
04:11 5	A	Well,
6	Q	assessing the nonsense of the evidence?
7	A	and you can look at its frailties, and
8		certainly those were before the Supreme Court and
9		they were argued before the Supreme Court, but at
<i>04:11</i> 10		the end of the day it was what it was.
11	Q	I'm zeroing in on the prosecutor, I'm interested
12		in the prosecutor's assessment of this case,
13		because how a prosecutor looks at his case is a
14		great influence on whether a miscarriage of
<i>04:1</i> 2 15		justice occurs or not?
16	А	Quite true, but the point I would make, Mr. Wolch,
17		is you don't take a single piece of evidence, look
18		at it in isolation and then decide, well, there's
19		a flaw here, discard it, then go the next piece of
04:12 20		evidence, look at it in isolation and discard it,
21		you look at all of your evidence together. Now,
22		obviously if there's a piece of evidence that is
23		totally unreliable, you will discard that, but
24		everything is looked at in terms of the whole
04:12 25		case, it's not looked at piecemeal.

1	Q	Well, I'm still astounded by your assertion that
2		you think Nichol John may have seen something
3		after hearing Mr. Johnston
4	А	I mean, I don't know whether she seen something or
<i>04:12</i> 5		not. What I am absolutely sure about is she
6		didn't see David Milgaard do anything. Now,
7		whether she saw somebody else, whether she got out
8		of the car, if they got stuck, I don't know, it's
9		impossible how do you probe someone's evidence
<i>04:13</i> 10		when their only response is I don't remember.
11	Q	Wouldn't you look at the circumstances of how the
12		statement took place, wouldn't you look at her
13		original statement?
14	А	Yes, we looked at all of that and the arguments
<i>04:13</i> 15		that Johnston made were the kinds of things that
16		were put to the Supreme Court and the issues
17		taken.
18	Q	You keep taking refuge in the Supreme Court.
19	А	No, no.
04:13 20	Q	I'm asking about you.
21	А	I'm simply pointing out that those arguments were
22		made and they are arguments you can make and there
23		were counter arguments that you can make and at
24		the end of the day it's for the court to decide
<i>04:13</i> 25		what they are going to do.

1	Ms. Miller usually took the
2	bus to and from work, catching the
3	"Route 2" bus which travelled east on
4	20th St. to downtown Saskatoon. She
<i>04:15</i> 5	would normally walk south on Ave. O to
6	20th St. and catch the bus at that
7	location. Her shift at City Hospital on
8	January 31 began at 7:30 a.m.
9	Gail Miller was last seen
<i>04:15</i> 10	alive between 6:35 and 6:45 a.m. on
11	January 31, 1969 She was looking out
12	the window onto Avenue Oready to
13	go to work and was dressed for that
14	purpose."
<i>04:16</i> 15	Now, I'm just wondering, the evidence here, and
16	the evidence has always appeared to be, that Gail
17	Miller would logically leave her door, go up
18	Avenue O and get to the bus stop. Were you ever
19	troubled by the fact that the Crown's theory
04:16 20	depended on her going up Avenue N?
21	A Not particularly, no. I mean, I recall examining
22	the diagrams that we had and the logical route for
23	her to go would be out the front door and up O,
24	but that doesn't mean she can't take a different
<i>04:16</i> 25	route from time to time.

1	Q	Well, it's 40 below.
2	А	Well, it's not like it's a hugely longer trek.
3	Q	But did you ever question that at all, like, say,
4		why would she?
<i>04:17</i> 5	А	I mean, you question it in the sense that you look
6		at it and say, well, don't have an explanation,
7		but not impossible.
8	Q	Didn't shake you a little bit on the Crown's
9		theory?
<i>04:17</i> 10	А	No.
11	Q	And getting back to the fact that the Merriman's
12		didn't see anything, that wouldn't shake you
13		either?
14	А	Well, that, I mean, the Merriman thing was a
<i>04:17</i> 15		little bit more of a concern, but again, you
16		adjust the times a little and it can fit.
17	Q	She's leaving between 6:35 and 6:45, they are

04:17 20	А	Yes.
21	Q	It's not a very big window.
22	А	No, I'm not arguing that he had an hour to commit

1		doubt based on the evidence in that case, the time
2		numbers would be where it should have been I would
3		have thought.
4	Q	Can I take you to 467:
<i>04:18</i> 5		"Before and after Gail Miller's death
6		the Appellant attacked seven other women
7		in highly similar fashion, sometimes
8		within blocks of the very spot where
9		Gail Miller was killed. The evidence of
<i>04:18</i> 10		three was admitted as similar fact at
11		trial."
12		You'll find that your counsel, Crown counsel was
13		arguing that the judge should have let all of
14		them in, that he erred?
<i>04:18</i> 15	А	Well, yeah, but again, that's in the context of
16		defending the fact that some of them were let in.
17		I suppose the notion there is that the best
18		defence is a good offence. Did you say seven?
19	Q	Yes.
04:19 20	А	Before the Gail Miller murder?
21	Q	No, before and after.
22	А	Oh, okay.
23	Q	If we can go to 481, one of the grounds advanced
24		was that:
04:19 25		"The Learned Trial Judge was correct in
		Meyer CompuCourt Reporting

	Page 38499
1	telling the Jury to disregard David
2	Milgaard's conviction for the murder
3	of Gail Miller."
4	And here's Beresh's position:
<i>04:19</i> 5	"To effectively present this defence
6	[that David Milgaard is culpable],
7	it is necessary to show that there is a
8	link between the third party and the
9	offence in addition to an air of reality
<i>04:20</i> 10	to that link. Tendering a prior
11	conviction of that third party for the
12	same offence, regardless of the fact
13	that the conviction was later stayed, is
14	substantial evidence of that required
<i>04:20</i> 15	link."
16	That was the Beresh position. And here is the
17	Crown's position:
18	"That is untenable. Firstly, as the
19	prior conviction would be based on all
04:20 20	the evidence in that other proceeding,
21	which evidence was not presented here,
22	there is no way to effectively evaluate
23	the propriety of the original conclusion
24	and determine whether there was in
04:20 25	actuality any link at all. Secondly,
	Meyer CompuCourt Reporting

Page 38500

	1		the Supreme Court of Canada reference
	2		overturned the original conviction.
	3		Thirdly, despite whatever evidence there
	4		was in 1970, a stay was entered by the
04:20	5		Crown indicating that there is no
	6		reasonable likelihood of conviction and
	7		supporting the conclusion that the
	8		original conviction was unsound. To
	9		permit consideration of a conviction
04:21	10		notwithstanding that it was subsequently
	11		overturned and the proceedings stayed
	12		would be to foist a half truth upon the
	13		jury."
	14		I'm particularly interested in your reaction to
04:21	15		"a stay was entered after the overturning by
	16		the Crown indicating there is no reasonable
	17		likelihood of conviction and supporting the
	18		conclusion the original conviction was unsound"?
	19	А	Well, number one, I think perhaps Mr. Gerein is
04:21	20		making some inferences there that aren't correct.
	21		I don't recall him asking me why that stay was
	22		entered. I did at the time think that when the
	23		stay was entered, that the likelihood of being
	24		able to successfully re-prosecute was considerably
04:21	25		reduced, but the other reason, the principal

	[		——————————————————————————————————————
	1		reason was that in my view it was no longer in the
	2		public interest to prosecute him, and as for
	3		supporting the conclusion that the original
	4		conviction was unsound, the Supreme Court said
04:22	5		that the original conviction was proper.
	6	Q	Are you saying he's wrong in what he's saying
	7		here?
	8	А	Well, that's particularly the last part there
	9		is not correct.
04:22	10	Q	Okay. Just turn the page, he goes on to say:
	11		"Equally, if the defence evidence had
	12		stood in favour of an inference
	13		benefiting the Appellant, then one would
	14		also have to allow information in
04:22	15		regarding the Supreme Court Reference
	16		and the background to the stay of
	17		proceedings. In the end that would
	18		render the entire issue a wash and the
	19		conviction of no probative value. That
04:23	20		was the destination reached by the
	21		learned trial judge's ruling, without
	22		going on a circuitous and unnecessary
	23		route."
	24		You see the judge instructed:
04:23	25		"You must decide what the facts of the

	1		case are only on the basis of evidence
	2		presented here in the courtroom."
	3		If we can go to 784, this is the interesting
	4		situation where you have the Respondent on an
04:23	5		appeal arguing that the judge erred in making a
	6		decision, which is a rather unusual choice, and I
	7		think you might agree?
	8	А	Well, I mean, we occasionally have to do that and
	9		then you go to the no substantial miscarriage of
04:24	10		justice fallback.
	11	Q	You talk about Nichol John:
	12		"Through numerous interviews, and
	13		numerous court proceedings Nichol
	14		John did not implicate
	15		Milgaard,
	16		"in the Gail Miller murder save on
	17		one occasion: May 24 The single
	18		time Ms. John gave a statement
	19		incriminating David Milgaard, telling
04:24	20		Detective Mackie of the Saskatoon Police
	21		Service that she saw David Milgaard
	22		stabbing Ms. Miller.
	23		In her testimony on a voir

04:24	25		indicated that she could recall almost

	1		nothing from January, 1969. In
	2		particular, she could recall almost
	3		nothing of travelling by car to
	4		Saskatoon from Regina in the company of
04:24	5		David Milgaard and Wilson, of their
	6		search for Cadrain or of any other
	7		events she could not recall the
	8		various occasions when she was
	9		interviewed by police and gave
04:24	10		statements. She claimed that she could
	11		not even recall appearing before the
	12		Supreme Court that led to the
	13		exoneration of David Milgaard."
	14		I take it you wouldn't agree with those words?
04:25	15	А	I don't know that it exonerated him and I suggest
	16		you wouldn't agree with it either.
	17	Q	Pardon me?
	18	А	I say I don't think you agree with that either.
	19	Q	Oh, no, I would, but anyway
04:25	20	А	That it exonerated David Milgaard in the Supreme
	21		Court.
	22	Q	They quashed the conviction.
	23	А	They quashed the conviction. I don't know that
	24		they exonerated him.
04:25	25	Q	Well, leaving that aside, that's the words that

Didn't say 8 that that happened at the Supreme Court. 9 BY MR. WOLCH: 04:25 10 0 It was during the reference that led to the 11 exoneration. I'm sorry, I may have -- I may have 12 heard it pretty quickly, but I think 13 Mr. Commissioner said during the reference that 14 led to the exoneration. 04:26 15 Well, and I, frankly, Mr. Wolch, would consider Α 16 the reference as something that continued until 17 that DNA evidence was tested. The reference continued? 18 Q 19 Α Well, I appreciate that they had given their 04:26 20 decision, but the federal government kept that 21 evidence, they kept it for the purpose of 22 following up on a commitment given to the Chief Justice that that would be tested in due course 23 24 and that's what was done and that's what led to 04:26 25 David Milgaard's exoneration.

2		thinking about?
3	А	I don't know whether he was thinking of that or
4		not.
04:26 5	Q	All right.
6	А	I said that was my view. I was actually taken by
7		the statement that she didn't recall being in the
8		Supreme Court.
9	Q	Okay.
04:26 10		"The May 24 statement came nearly four
11		months after Gail Miller's murder. It
12		was only taken after Ms. John had been
13		brought to Saskatoon from Regina on May
14		22 - two days before. She spent those
04:27 15		two days either in cells or in the
16		company of police officers. Detective
17		Raymond Mackie, the officer who took the
18		May 24 statement, had been the one
19		who picked her up in Regina on May 22.
04:27 20		On the voir dire he could not recall if

	1		Police station where a statement not
	2		implicating David Milgaard was completed
	3		(it is apparently lost). He could not
	4		recall the circumstances of that. He
04:27	5		then drove her to Saskatoon and
	6		immediately drove her to the place of
	7		the murder in an attempt to "get her
	8		memory reestablished".
	9		He next took her to the
04:27	10		Saskatoon police station where he did an
	11		interview regarding her recent and
	12		repeated use of LSD. That statement is
	13		also apparently lost. She was then kept
	14		in police cells for much of two nights
04:27	15		and two days. Her second day in Regina
	16		she was interviewed by Arthur
	17		Roberts of the Calgary Police service at
	18		a Saskatoon hotel. On the third day in
	19		Regina she provided the statement to
04:28	20		detective Mackie."
	21	А	In Regina? No, that should be Saskatoon I assume.
	22	Q	It may be an error there.
	23	А	Yeah.
	24	Q	But basically, though, he is certainly questioning
04:28	25		the method in which the statement was arrived at?

1 A Yup.

2 **Q** I mean, police conduct is certainly on his mind 3 there?

	7	Q	Can I have the last document back up, please.
	8		Next page, please. Next page. Mr. Brown, I was
	9		going to take you through this, but I won't take
04:37	10		you through this part, but one of the points that
	11		Crown counsel makes regarding Nichol John's
	12		statement and the oath that was administered, you
	13		will recall the May 24th was sworn, he takes issue
	14		with the fact it was sworn after the statement was
04:37	15		taken, not before. Do you see the difference?
	16		She wasn't told
	17	А	Yes, I can see the difference.
	18	Q	you should tell the truth, it was more here's
	19		your statement, is it true. You see the
04:38	20		difference?
	21	А	Yeah.
	22	Q	He takes quite a bit of issue with that?
	23	А	Well, I'm assuming that what they were thinking
	24		about there was the issue of using it as some kind
04:38	25		of KGB statement or whatever and proving that it
			Mever CompuCourt Reporting

Page 38510

Ī

	1	was sworn in order to do that. Well, yeah,
	2	obviously that makes a big difference.
	3	<b>Q</b> Can we go to paragraph 77 then. You see:
	4	"The defence adduced no evidence from
04:38	5	Detective Roberts, who though deceased
	6	had testified previously in the
	7	proceedings involving David Milgaard.
	8	The statement came after he was with
	9	Ms. John and even had exhibits
04:39	10	delivered No evidence was adduced
	11	from officers in detention, or who
	12	otherwise dealt with her during her time
	13	in Saskatoon."
	14	And 78:
04:39	15	"Then there are the positive indicators
	16	the statement is in fact unreliable.
	17	The knife which Ms. John described as
	18	being stolen from the grain elevator at
	19	Aylesbury did not come from there.
04:39	20	Further, though she described a struggle
	21	over the purse and David Milgaard
	22	stabbing Gail Miller, the wounds
	23	suffered were not accompanied by
	24	holes in her dress. Her clothing had
04:39	25	all been moved to the middle of her body

	1	before the stabbing."
	2	Her,
	3	" statement therefore cannot be
	4	correct. Such basic errors demonstrate
04:39	5	it was unreliable to a degree that
	6	should have forestalled it being read to
	7	the jury. Her admitted history of LSD
	8	use causes further concern."
	9	If we can just turn the page, paragraph 80:
04:40	10	"The learned trial judge's ultimate
	11	decision to permit in the earlier
	12	statement as well went some distance in
	13	negating the error in that it gave the
	14	jury a more complete picture. In the
04:40	15	end, the initial error went in the
	16	Appellant's favour, and admitting the
	17	second statement in no way overbalanced
	18	it. Any injustice went to the

04:40	20	Now, in a general sense, you see how this Crown
	21	also deals with Nichol John's statement? I still
	22	come back that you still think she saw something
	23	possibly, it just seems so totally opposite of
	24	how these Crowns look at it.
04:40	25	A No, I said I don't know whether she saw something.

	1		Maybe she did, maybe she didn't. As I say, the
	2		one thing I'm sure about is that it wasn't David

	4	Q	Okay. I would like to quickly go through similar
04:41	5		acts and how he dealt with it at 504:
	6		"In the course of pre-trial motions, the
	7		Crown sought to adduce as similar fact
	8		the evidence of seven confirmed victims
	9		of the Appellant. Each of them had been
04:41	10		raped or suffered attempted rape by him.
	11		One he tried very hard to kill. In most
	12		instances he had or claimed to have a
	13		knife. Each had strong hallmarks shared
	14		with Gail Miller's tragedy.
04:41	15		115. Their evidence was relevant to
	16		determining the identity of Gail
	17		Miller's attacker. The learned trial

	19		victims to testify"
04:41	20		(V1)-, (V2) and $(V8)$ . I won't go through

Α 19 0 And then goes on to talk about the basic law on 04:43 20 similar acts. And if you can turn the page, I'm 21 not going to go through it, but it's purely the 22 law, general law on similar acts. 23 And then if we can go to 09, this will clarify what we were talking about 24 04:43 25 earlier in paragraph 123: Meyer CompuCourt Reporting =

18		When you read that, do you not find that
19		compelling?
04:48 20	А	Not well it, it has more weight in light of the

I'm trying to look at this, a 11 prosecutor looking at this evidence, I'm having a 12 hard time you not seeing it generally the same way 13 that these two prosecutors did? 14 Well --Α 04:49 15 I mean, it's set out here in point form, but it 0 16 does seem awfully compelling? 17 The point I would make is that they see it, as I Α said, the five of us in the, involved in the 18 19 Supreme Court reference didn't see it. They saw 04:49 20 it as evidence sufficient to prove Larry Fisher 21 was guilty, I didn't, and I -- again, while we may 22 disagree, I don't think the Supreme Court saw it 23 that way either. 24 0 Just turn to 521. Here's the Crown position: 04:50 25 "Indeed, the Crown's ultimate position Meyer CompuCourt Reporting =

	3		heard. While the argument was not as
	4		strong in regards to such victims as
04:51	5		(V5) and $(V7)$ , the only
	6		significant difference is the apparent
	7		absence of a knife. All the other

	14		"That was particularly so in respect of

	16		So the Crown, here, is saying they all should

	21		that crime. Absent the DNA evidence
	22	Q	Okay. Well these two Crowns seem to think it

04:51	25	Q	And perhaps an independent prosecutor may have

	3	"What is particularly striking about the
	4	similarity between the murder of Gail
04:54	5	Miller and the attempted murder of (V10)
	6	(V10)- is the manner in which each
	7	assailant wounded his victim.
	8	Ms. (V10)- had her throat cut and was
	9	stabbed numerous times. Ms. Miller had
04:54	10	her throat slashed numerous times and
	11	her body was repeatedly stabbed. After
	12	he Appellant had finished with his
	13	knife, he covered Steel's nose in an

2		Miller's assailant did the same thing.
3		All these things made the evidence
4		highly probative."
<i>04:55</i> 5		"Yes it was potentially the most
6		prejudicial. It did not, however, on
7		its face invite conclusions beyond its
8		probativeness. The Appellant had pled
9		guilty. He had been punished for it.
10		The defence case and a proper direction
11		from the learned trial judge would have
12		controlled the possibility of reasoning
13		errors flagged by the Supreme Court.
14		Frankly, the more heinous the crime the
<i>04:55</i> 15		more probative its happening - fewer
16		people do such things. The question is
17		will that be abused. The answer is that
18		there was no basis to conclude it would
19		have been and the potential for that was
04:55 20		controllable."
21		Now, in making the ruling on similar acts, the

	2		than inclusion on similar acts?
	3	А	Oh, absolutely.
	4	Q	You would take the safe route anyway, you've got
04:56	5		the DNA?
	6	А	Well, my view was that you can argue with this
	7		as well but my view is that the trial judge
	8		admitted that, the cases he did, so that the case
	9		did not simply rest on the DNA.
04:56	10		In terms of any of the
	11		similar-fact evidence, in terms of just what
	12		happened, the (V10) (V10)- one is the most
	13		similar. No question it's the most similar.
	14		Whether it amounts to similar-fact evidence or
04:56	15		not, whether it can pass the Arp test and the
	16		Handy and Shearing test, I don't think it can
	17		because I think it is so prejudicial you run into

2		If I had been running the
3		trial I would have simply wanted the statement,
4		just as the motel room incidents can be fashioned
<i>04:5</i> 7 5		as confessions, the statement made to (V10) (V10)-
6		that he had done it to a woman in Saskatoon, or
7		evidence of a confession.
8	Q	No, I understand that. And (V10) (V10)- is a very
9		credible lady?
<i>04:57</i> 10	А	Oh yes. I suppose the problem, though, is how do
11		you get that in in isolation without getting into
12		the whole incident.
13	Q	Well I guess my question to you is why wouldn't
14		that have influenced you when you were assessing
<i>04:5</i> 7 15		the case against Milgaard?
16	А	We looked at that. Our view was that the ten-year
17		difference in Larry Fisher's life, where he'd
18		been, had a substantial or very likely changed the
19		way he looked at the world, he'd been in
04:58 20		penitentiary for ten years, and the statement at
21		that point was as consistent him attempting to
22		intimidate her as it was and control her as it
23		was a confession, and I think that's the argument
24		we made.
<i>04:5</i> 8 25	Q	Okay. I'll just conclude Mr. Gerein at 307535:
		Meyer CompuCourt Reporting

Page 38528 1 "The learned ....", 2 he says at this page: 3 "The learned trial judge could not allow the jury to be misled. He gave leeway 4 5 to the accused whenever it could be done 04:58 without distortion. While that led him 6 7 to erroneously exclude certain probative 8 evidence - such as (V10) (V10) - - and to 9 sometimes relax the rules of evidence 04:58 10 excessively to favour the Appellant -11 such as with Nichol John's May 24, 1969 12 statement - he never visited unfairness 13 upon the Appellant, or applied the law on his rulings ... without full 14 justification and reasonable conclusion. 04:59 15 16 He did not err in law to the prejudice 17 of the Appellant, nor did he suffer any 18 miscarriage of justice." 19 Now I'm -- the last item I want 04:59 20 to deal with briefly, and I don't know if it's on 21 the system or not, is the Court of Appeal 22 decision. I wasn't able to find it, I don't know 23 if it's there or not. 24 COMMISSIONER MacCALLUM: In which trial? 04:59 25 MR. WOLCH: The Larry Fisher trial.

Page 38529 1 А The Fisher. 2 MR. HODSON: Does anyone know a date? 3 Yes, September 29th, 2003. MR. Perhaps I'll try and do 9 it expeditiously as possible. 10 BY MR. WOLCH: 11 The Fisher appeal was heard before Justices Q 12 Sherstobitoff, Cameron, and Gerwing; is it? 13 Α Gerwing. The day I have is September 29th, 2003. 14 0 One issue 05:00 15 is did the trial judge err in admitting the 16 similar-fact evidence, and the Court reviews all 17 that, and then they summarize the Crown's factum, 18 they actually refer to the Crown's factum and read 19 it and they go through it all, and they actually 05:01 20 quote from the -- that list I read you earlier 21 from the Crown's factum in terms of where it's 22 similar, why it's similar, that -- all the 23 features that -- so they go through all of that. 24 And then at page 52, or paragraph 52 of the 05:01 25 judgement, they very briefly say:

	5
1	While we cannot know the details of the
2	assault upon Ms. Miller the most reasonable
3	inference given the time, place and other
4	circumstances is that while on the way to
<i>05:01</i> 5	her usual bus stop to go to work she was
6	dragged from the street into the alley and
7	sexually assaulted with the aid of a knife
8	with which she was stabbed. It's on that
9	basis that a comparison may be made to the
<i>05:0</i> 2 10	other attacks.'
11	I won't read paragraph 53, but it goes through
12	comparing. And paragraph 54:
13	All of this, considered along with other
14	similarities in the assaults, lead us to
<i>05:0</i> 2 15	conclude that it was open to the judge to
16	find as he did that there were sufficient
17	similarity of the acts, that they were
18	likely done by the same person, and that it
19	was unlikely that the similarities were the
05:02 20	product of coincidence. The evidence in
21	question had a very high and substantial
22	probative value.'
23	And the Court then goes to assess <i>Handy</i> and talks
24	about those cases. Now here's the Court of

	1		substantive probative value; I take it you don't
	2		agree with that?
	3	А	No, that wouldn't be my assessment of it, and I
	4		don't think it was the Supreme Court's assessment
05:03	5		of it either.
	6	Q	Well, they turned down Larry Fisher's appeal?
	7	А	I'm aware of that, yes. It's just, when you've
	8		got the DNA evidence there, it's it becomes a
	9		little easier to measure the probative value of
05:03 1	0		this evidence when you know very well that it
1	1		leads to the right conclusion.
1	2	Q	And they also dealt with the Nichol John in
1	3		paragraph 77, Mr. Commissioner. This is the one I
1	4		referred to earlier. In paragraph 77, which is on
05:03 1	5		page 7 of my copy at least:
1	6		We are
1	7		actually discussing Nichol John:
1	8		We are inclined to the view that neither
1	9		statement should have been admitted because
05:03 2	20		both were unreliable but we need not decide
2	21		the question since the admission of the
2	22		statements can only help the Appellant. We
2	23		are satisfied that the judge having
2	24		determined that one statement was admissible
05:04 2	25		was required to admit the other as he did so
			Meyer CompuCourt Reporting

	1	that the jury would be given the whole of
	2	Ms. Demyen's evidence viva voce and the KGB
	3	statements, something necessary to enable
	4	the jury to fairly assess the credibility of
05:04	5	Ms. Demyen and to assess the weight to be
	6	given to the various components of her
	7	evidence. As the appellate himself argued,
	8	the trial judge is under a duty to see the
	9	trial was a fair one a fair trial. That
05:04	10	duty is owed to the Crown as well as the
	11	defence. As part of that duty, it was his
	12	obligation to see the jury was not given a
	13	misleading view of the evidence of
	14	Ms. Demyen by allowing one statement given
05:04	15	to her to be placed before the jury while a
	16	conflicting statement was concealed from the
	17	jury, particularly when she had no memory of
	18	the material parts of either of the
	19	statements.
05:04	20	So what I understand the Court to be saying is
	21	that neither statement should have gone to the
	22	jury, and that Beresh would have had the benefit
	23	of it or at least Fisher would have had,
	24	rather, the benefit of it, and was not prejudiced
05:05	25	by the inclusion of the first?

1	А	And I agree, neither statement should have gone to
2		the jury in the Fisher case, because you can't, as
3		far as I can see, you can't pass the reliability
4		test in KGB.
<i>05:05</i> 5	Q	Now you have I'm just about concluded you
6		have three judges in the Court of Appeal here, you
7		have two very able prosecutors, taking an
8		extremely different view of the importance of
9		Larry Fisher's evidence. I think it's fair to say
<i>05:05</i> 10		that these prosecutors might very well have said
11		that the similar act, Linda Fisher, John
12		Patterson, and all those circumstances alone would
13		have been sufficient to convict Larry Fisher?
14	А	Well I'm not sure I'd go there, Mr. Wolch, but you
<i>05:06</i> 15		can certainly call them and ask them.
16	Q	But at least they saw extreme significance in
17		Larry Fisher. I'm trying to understand why you
18		saw it to be of no merit, that's what I am
19	А	No, I said very limited merit.
05:06 20	Q	Okay.
21	А	I mean, yeah, there was something there.
22	Q	But it wasn't similar or what?
23	А	But in my view it wasn't now I'm, granted, I
24		may well have been applying too high a standard in
<i>05:0</i> 6 25		the argument to the Supreme Court, but I still
		Mever CompuCourt Reporting

		Page 38534
	1	take the view that the Supreme Court has said that
	2	you couldn't convict him on the basis of just the
	3	similar-fact evidence, and I agree.
	4	<b>Q</b> Well, the decision will speak for itself as to
05:06	5	whether they said that or not, but I'm just
	6	wondering how you could take this position and
	7	I'll bring it to your attention if you can the
	8	last document I want to bring up is 233116, and
	9	that's in document 233007. Now these are your
05:07	10	words to the Supreme Court in oral argument:
	11	"I would suggest, in fact, that that
	12	evidence",
	13	and we're talking about Larry Fisher:
	14	" isn't even capable of raising a
	15	doubt. There is no unique criminal
	16	fingerprint demonstrated in anything
	17	Larry Fisher did. He, in fact, seems to
	18	be, if I could use the expression
	19	without getting into a great deal of
	20	trouble, a pretty garden variety
	21	stranger rapist. There are no unique
	22	patterns, unusual aspects of his
	23	behaviour.
	24	Everything that shows a
	25	pattern, everything that shows some
		Meyer CompuCourt Reporting Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Page 38535 1 common factor in any of these assaults 2 is pretty standard stuff." 3 Those were your views then? 4 Yes. Α 5 Are they your views now? 05:08 Q 6 Umm, my view still is that, as stranger rapists Α 7 go, Larry Fisher wasn't that unusual. 8 0 Well, there are very few stranger rapists, aren't 9 there? Well it's certainly -- most of the cases we deal 05:08 10 Α 11 with are people who knew the victim, yeah, that's 12 true. 13 0 There aren't --14 There aren't a lot, but --Α 05:08 15 They are very rare I would think? 0 16 Well, no, unfortunately, not. Α 17 I see. Given (V10) (V10)-, given the knives, 0 18 given the coat, given everything we've heard, you 19 are saying that he's a pretty garden variety? 05:09 20 Again, Mr. Wolch, I looked at the similar-fact Α 21 evidence on the chart you presented and it didn't 22 strike me that it pointed inextricably at Larry 23 Fisher. 24 0 Okay, but now that you have seen what the Court of 05:09 25 Appeal said, and what your own prosecutors said

— Meyer CompuCourt Reporting =

Page 38536

ĪĒ

		Page 38536
1		and what Justice Allbright said, do you think
2		perhaps you were in error there?
3	А	Oh, obviously I underestimated the evidence. The
4		Supreme Court took a different view, the Court of
<i>05:0</i> 9    5		Appeal took a different view, I'm not entirely
6		sure that it's quite as strong as they seem to
7		suggest, but I quite readily admit I took a
8		different view of the similar-fact evidence and
9		the strength of it.
<i>05:0</i> 9 10	Q	Not are you saying that was on an assessment or
11		perhaps influenced by a form of tunnel vision?
12	А	No, that's my assessment of it. I don't, you know
13		
14	Q	But if you have to look at the DNA if you have
<i>05:10</i> 15		to look at the DNA to evaluate evidence, then
16		we're always going to have tunnel vision, will we
17		not?
18	А	Well, I don't know what you are referring to as
19		'tunnel vision'?
<i>05:10</i> 20	Q	Well you
21	А	We look at any case is assessed on the basis of
22		all the evidence.
23	Q	No, but
24	A	And if you have evidence sort of as clear and
<i>05:10</i> 25		strong as DNA, I don't know where tunnel vision
		Meyer CompuCourt Reporting

Page 38537

	Ī		Page 38537
	1		comes into it, it just changes the way you assess
	2		the strengths of your case.
	3	Q	But DNA could be a confession, it could be
	4		anything very strong evidence, correct?
05:10	5	А	Well, yes, I suppose.
	6	Q	A positive eye witness?
	7	А	Yes.
	8	Q	But if you're looking at that to how you interpret
	9		the original evidence, that's a terrible error?
05:10	10	А	No, no, I'm not saying that that changes the way
	11		you do everything, I'm saying you look at all of
	12		the evidence you've got and if part of the
	13		evidence you've got is a very strong piece of
	14		evidence like the motel room incident confessions,
05:11	15		which looked like the confessions of the day, or
	16		the DNA evidence that clearly pointed at Larry
	17		Fisher, I mean it's you assess it, you assess
	18		the whole package. You don't, as defence counsel
	19		would like us to do, take one piece out, look at
05:11	20		it, toss it away because there's some minor
	21		imperfection, and then keep doing that, You look
	22		at everything.
	23	Q	I'm not saying minor, but if it doesn't make any
	24		sense or have any probative value?
05:11	25	А	Well if you come across something that doesn't
			Meyer CompuCourt Reporting
		C	ertified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

Page 38538 1 make any sense, then yeah, you would. Nichol John's evidence made no sense? 2 Q 3 Well, that's your view. Α 4 That's your view now? 0 5 It looked to us, at that time, that it made some 05:11 Α sense. 6 7 And you still have no trouble with your use of the Q 8 words "a pretty garden variety stranger rapist"? 9 Well, but there wasn't that much different about Α 05:12 10 what Larry Fisher did to what most people who 11 attack women they don't know do. 12 Q Lay them on coats? 13 Α They usually leave them in pretty bad shape. 14 Lay them on --Q 05:12 15 These are violent people, by and large. Α 16 Lay them on coats? Q 17 Α Well I -- Mr. Wolch, that's one, one particular 18 aspect, but you've got to look at the whole 19 picture. 05:12 20 Those are my questions, Mr. Commissioner. 0 21 COMMISSIONER MacCALLUM: Thank you. Okay. 22 Who's next? 23 MR. HODSON: Mr. Gibson, I think. 24 COMMISSIONER MacCALLUM: Mr. Gibson, qo 05:12 25 ahead, please. We are going until 6:00, by the = Meyer CompuCourt Reporting =

Page 38539 1 way. 2 BY MR. GIBSON: 3 I will be brief. 0 4 For the record, Mr. Brown, my 5 name is Bruce Gibson, I represent the RCMP. 05:13 6 You made some comments, early 7 in your direct examination with Mr. Hodson, that 8 during the 690 process you never actually saw the 9 work that Rick Pearson had done; do you remember 05:13 10 that? 11 Α I didn't, no. 12 Q And I take it that your communication in that 13 process was with the federal Department of Justice 14 and not with the RCMP? 05:13 15 The RCMP, at that point, were Α That's correct. 16 basically acting as the agents of the federal 17 Justice Department. 18 And it was your understanding, and correct me if Q 19 I'm wrong but I will try to go through this 05:13 20 quickly, they were assisting the federal 21 Department of Justice and were taking direction 22 from the Federal Department of Justice on what 23 needed to be done in that process? 24 Α That was my understanding, yes. 05:14 25 If we could put up document 056743, please. Q You

	1		made a comment that you and I hope I'm getting
	2		this right were told by the Federal Department
	3		of Justice that the RCMP had investigated Fisher,
	4		but that it was something short of a full
05:14	5		investigation into the Miller murder; is that
	6		accurate?
	7	А	Well, that's what I have been told since, it was
	8		our understanding that the RCMP did a full
	9		investigation of the Larry Fisher cases.
05:14	10	Q	And I will take you through this. These are Staff
	11		Sergeant Rick Pearson's notes, and this is just
	12		the first page, it's about 200 pages like this.
	13		There is also other documents. Staff Sergeant
	14		Pearson testified for a number of days at this
05:14	15		Inquiry and his evidence is clearly before the
	16		Commissioner, but I just want to go through a
	17		couple of parts of this which show the efforts
	18		that Mr. Pearson went through on the Fisher
	19		connection.
05:15	20		If we could just go to
	21		paragraph 8 of this document, it is likely on the
	22		next page or the one after that, I'm just going to
	23		make reference to the paragraphs there. And
	24		paragraph 8, it indicates that Staff Sergeant
05:15	25		Pearson got ahold of the Prince Albert

	Page 38341	
1		Penitentiary, and he is trying to track down Larry
2		Fisher's penitentiary records. And as you can
3		appreciate, Mr. Brown, judging, you know, by your
4		background and the work that you've done, it's
<i>05:15</i> 5		pretty difficult to investigate a case like this
6		some 20 years later?
7	А	Yes.
8	Q	It's fairly cold at that time?
9	А	That would be correct.
<i>05:15</i> 10	Q	And if we can go to paragraph 15, there's not very
11		many places one can look, and again, paragraph 15
12		shows that Staff Sergeant Pearson is out
13		contacting the Prince Albert Penitentiary and he's
14		going to the North Battleford Hospital and he's,
<i>05:16</i> 15		in essence, trying to track down Larry Fisher's
16		blood type and that may be of some probative value
17		in his investigation. So were you aware of some
18		of the steps that he might have been taking to
19		follow up on this?
05:16 20	А	No, we were simply told that he had investigated
21		it.
22	Q	Okay. And I'm not going to go through numerous
23		paragraphs here, I think we're all tired of this
24		evidence, but were you aware that he was trying to
<i>05:16</i> 25		locate and assess the evidence of Sidney Wilson,
		Meyer CompuCourt Reporting

			Murray Brown by Mr. Gibson Vol 184 - Monday, September 18th, 2006	
	1		the person who came forth with the connection to	
	2		Larry Fisher?	
	3	А	Well, I'm aware of that now. I don't know that I	
	4		was aware of that in 1991, '92.	
05:16	5	Q	And he was following up on the possibility of	
	6		Larry Fisher having borrowed a car and having used	
	7		the car in the offence and that there was a car	
	8		seen outside Miller's residence the night when she	
	9		was dropped off?	
05:16	10	А	Yes, I'm aware of that.	
	11	Q	And he was trying to determine whether the knife	
	12		used in the Miller murder somehow could be	
	13		connected to other offences that he was involved	
	14		in that they knew about in Winnipeg. Were you	
05:17	15		aware of those efforts that he was taking?	
	16	А	No. I thought our theory was the knife was lying	
	17		under Gail Miller.	
	18	Q	But there could have been other knives similar	
	19		following up on knives?	
05:17	20	А	Yeah.	
	21	Q	That he was following up on those aspects. And	
	22		that he was working to locate Mr. Fisher's work	
	23		records?	
	24	А	Yes, we knew that.	
05:17	25	Q	But your understanding is that that was fully	
			Meyer CompuCourt Reporting	

investigated and you accepted that?

3 Q Okay. I know you've been through this a lot 4 already, you've indicated numerous times that you 05:17 5 didn't see the other assaults involving Mr. Fisher 6 as similar fact evidence to the Miller murder. 7 You would agree that they were suspicious?

8 A Yes.

1

2

9QAnd would you agree with Staff Sergeant Pearson's05:1810evidence that there wasn't anything you could do11with that without actually having some sort of12direct evidence linking Larry Fisher to the crime?13AWell, that was my view, that absent that, it14really didn't have a reference.

05:18 15 **Q** And --

16AAnd that was why I thought its relevance was very17limited.

18QAnd what impact did Mr. Milgaard's conviction have19on prosecuting Larry Fisher when all you have at05:1820that point is, if you want to say you have it, is21similar fact evidence?

A Well, I mean, certainly when Larry Fisher
 surfaced, you still had the Nichol John statement.
 For what it was worth, the police still believed
 that she had told the truth when she gave the

\_\_\_\_\_ Meyer CompuCourt Reporting =

- Page 38544 =

	1		statement that implicated David Milgaard, they
	2		still believed that Ron Wilson had told the truth
	3		when he implicated him, they knew certainly by
	4		then about the motel room incident and the
05:19	5		witnesses involved there, so my guess is that even
	6		if every police officer on that force had known
	7		about the Larry Fisher guilty pleas, none of them
	8		would have associated it with the Miller murder.
	9	Q	And if you only have the similar fact evidence and
05:19	10		you have the Milgaard conviction, and of course
	11		its gone throughout Supreme Court by that time, is
	12		it going to be fairly easy for defence counsel to
	13		raise a reasonable doubt in defending that case?
	14	А	Well, given what happened with Ron Wilson and
05:19	15		Nichol John and all, the passage of time, I think
	16		it just inexorably becomes easier to raise a
	17		reasonable doubt.
	18	Q	What would have happened, and I guess I probably
	19		know the answer to this, if you go and you
05:20	20		prosecute Mr. Fisher simply on the similar fact
	21		evidence and a reasonable doubt is raised, what
	22		does that do if DNA is found three years later,
	23		two years later?
	24	А	Well, he's in the position of pleading otra foi
05:20	25		acquit (ph) and he cannot be prosecuted at that
			Meyer CompuCourt Reporting

point.

1

	1		point.	
	2	Q	So if I'm a prosecutor and I'm trying to assess	
	3		whether I move ahead with this and I simply have	
	4		similar fact evidence, or I'm a police officer and	
05:20	5		that's all I can come up with on the investigation	
	6		are these similarities, is there a fairly large	
	7		risk that until I find other evidence, that I	
	8		could be jeopardizing ever prosecuting an	
	9		individual that I may have very strong suspicions	
05:21	10		about?	
	11	A	Yes, that's certainly a problem.	
	12	Q	I think you indicated in your evidence that in the	
	13		course of the Supreme Court of Canada reference,	
	14		you said, and again please correct me if I'm	
05:21	15		wrong, if you came across any information that	
	16		would have caused you to re-look into the Miller	
	17		death once again, or cause an investigation to be	
	18		started into the Miller death, you would have done	
	19		so?	
05:21	20	A	Yes, that's correct, and when we ultimately did	
:	21		get that evidence, that's exactly what happened.	
:	22	Q	And that was the	
:	23	А	The DNA evidence.	
:	24	Q	And in the interim, with the investigation that	
05:21	25		was carried out by Staff Sergeant Pearson and Mr.	
			Meyer CompuCourt Reporting	

- Page 38546

F

		r age 50540		
1		Williams, there was no evidence that was uncovered		
2		that raised that, and nothing obviously that was		
3		brought forth by the Milgaard camp that caused you		
4		to change your mind?		
<i>05:22</i> 5	А	That's correct.		
6	Q	And subsequently when the RCMP followed up in 1993		
7		and 1994 into the investigation of wrongdoing by		
8		police and prosecutors, again, from your view		
9		there was nothing coming out of that investigation		
05:22 10		that caused you to think the Miller murder		
11		investigation should be re-opened at that time?		
12	А	That's correct.		
13	Q	Yes. And it was only the DNA link that led to		
14		that?		
<i>05:22</i> 15	А	Absolutely. In my view that was the only way we		
16		were going to get a conviction on Larry Fisher		
17		and, frankly, notwithstanding what everyone has		
18		said about the similar fact evidence, it remains		
19		my view that if we did not have that DNA evidence,		
05:22 20		we would not have got a conviction on Larry		
21		Fisher.		
22	Q	You indicated that the Saskatoon Police Service		
23		could have investigated without your direction,		
24		but they didn't do that. I guess it was open to		
<i>05:23</i> 25		them, it was in their jurisdiction to follow up		
		Meyer CompuCourt Reporting		

	Г			
	1		and continue on with the Miller murder	
	2		investigation following the Supreme Court of	
	3		Canada reference had they wanted to do so?	
	4	А	Had they wanted to do so or seen a need to, yes.	
05:23	5	Q	And regardless of what any police agency might	
	6		have uncovered, would you think that it would be	
	7		reasonable in the circumstances that were at play	
	8		here, that they likely would have contacted your	
	9		office before they would have done anything with	
05:23	10		respect to preferring charges?	
	11	А	Oh, absolutely, yes.	
	12	Q	I want to touch on a slightly different matter,	
	13		and you indicate in your evidence, and I think you	
	14		were somewhat surprised that Pat Alain, a	
05:23	15		scientist with the RCMP, was chosen to examine the	
	16		exhibits that went forth in the Supreme Court of	
	17		Canada reference?	
	18	А	Yes.	
	19	Q	And I think your evidence was that it was your	
05:24	20		understanding that at that point in time she had	
	21		been more in an administrative capacity for a	
	22		couple of years?	
	23	А	Well, it was more than a couple of years, you	
	24		know, my memory suggests a six to eight kind of	
05:24	25		period.	
			Meyer CompuCourt Reporting	

		Murray Brown by Mr. Gibson Vol 184 - Monday, September 18th, 2006	
		Page 38548	
1	Q	And I believe you are wrong on that and there will	
2		be evidence likely put forth on that. My	
3		understanding is it's two years.	
4	А	Yes.	
_			
	Q	And I take it that you may not be in a good	
6		position to give evidence on that and I'm not	
7		going to push you on that.	
8	А	Well, no, I'm relying on what somebody told me.	
9	Q	And I take it that you were not aware that prior	
<i>05:24</i> 10		to that she had done about 20 years of serological	
11		work in the RCMP lab?	
12	А	I knew she had been sort of the hands-on analyst,	
13		but as I say, it was the information I had was	
14		that she had been out of that for quite some time.	
<i>05:24</i> 15	Q	And I guess today you are not entirely clear as to	
16		what that length of time was and what the source	
17		of that information was?	
18	А	Well, if you say that it's only two years since	
19		the Supreme Court that she had been put into	
05:25 20		administration, I'll accept that.	
21	Q	Okay. And were you aware that when she did the	
22		analysis, that she was heading up the serological	
23		department within the RCMP?	
24	А	I think so, yes, I think that's how she was	
05:25 25		introduced.

14		aware that that would have been standard

16		it or another serologist had done it, that's the		
17		manner in which they would have approached that?		
18	А	No, I wouldn't have been aware of that. I hadn't		
19		been doing trial work at that point for six, seven		
05:26 20		years, something like that, and absent doing that,		
21		you kind of lose touch with what they do.

7	Q	And as it turned out, the difference between the

<i>0</i> 5:26 10		opposed to a random mapping technique?
11	А	Yes.
12	Q	Now, obviously I think you would agree that it
13		would have been better if that sample had been
14		found on the uniform in 1992 by Ms. Alain?
<i>05:</i> 27 15	А	Yes.
16	Q	It would have assisted everybody I believe?
17	А	Oh, absolutely, yeah.
18	Q	And it likely would have been better had
19		Mr. Ferris, Dr. Ferris rather, had found that
05:27 20		sample in 1988, '89 when he looked at the uniform

22	А	Yes.
23	Q	And you also agree that it likely would have been

1 analysis rather than destroying it, that may have 2 assisted in the process as well? 3 Α Yes. COMMISSIONER MacCALLUM: Mr. Gibson, I'm 4 5 sorry to interrupt again, was the distinction 05:27 6 between a mapping technique and simply a random 7 technique? 8 MR. GIBSON: Yes. There was a mapping 9 technique using a full blotter, if you recall 05:27 10 some of the evidence, where it was a full sheet 11 of blotter paper that was laid on the uniform, 12 versus individual pieces of --13 COMMISSIONER MacCALLUM: I understand, 14 thank you. 05:27 15 MR. 2	cleared David Milgaard's name and had she not		
3		found that, it's likely that there may not have	
4		been any other testing ever attempted?	
<i>05</i> :28 5	А	Yes, that's probably true. Had she not found	
6		that, I suspect the exhibits would have been	
7		returned, and given that they were the only	
8		exhibits in the courthouse from 1969, '70, they	
9		might well even have been destroyed.	
<i>05</i> :28 10	Q	And of course we do know that by the time the	
11		subsequent testing was done in Britain, Mr.	
12		Milgaard had already been freed for a number of	
13		years and was no longer in prison?	
14	А	Yes, that's true.	
<i>05:28</i> 15	Q	And are you aware that the DNA sample that she did	
16		find on the panties was eventually analysed and	
17		matched up to Mr. Fisher?	
18	А	No, I wasn't specifically aware of that.	
19	Q	Well, there likely will be evidence to that	
05:29 20		effect. Thank you very much, Mr. Brown.	
21		COMMISSIONER MacCALLUM: Thanks.	
22		MS. KNOX: Mr. Brown, for the record only,

13	he provided to Mr. Tallis with respect to the

<i>o</i> 5:30 15	A Yes, that's correct.	
16	<b>Q</b> And, sir, with respect to that, are you aware that	
17	additional to the documentary evidence that we	
18	have been able to show through his file that had	
19	some fairly detailed correspondence as to	
05:30 20	materials he sent, conversations he had with

3 And are you aware through a review of the 0 transcript, and I'm thinking particularly of the 4 5 preliminary inquiry, that he, for example, had 05:30 knowledge of witnesses whose statements he didn't 6 7 have copies of, like Betty Hundt, Anne Friesen, who were of the view that when Ms. Miller took the 8 9 bus, sometimes she would have gone down Avenue O 05:31 10 versus Avenue N?

11AI don't know that I was aware of that12specifically, but I was aware, as you say, that13Mr. Caldwell allowed Justice Tallis to read his14files.

05:31 15 Okay. Mr. Brown, in the interests of time, I 0 16 won't go to the transcript, but in the 17 cross-examination of Adeline, and I won't 18 pronounce her name properly, but one of the woman 19 in the rooming house, Nyczai I think is perhaps 05:31 20 one pronunciation of it, that Mr. Caldwell 21 questioned her about where Betty Hundt was, where 22 Anne Friesen was and was told that those 23 particular ladies, one I believe was in the 24 Northwest Territories, one was in B.C., but 05:31 25 certainly that his questions would indicate a

2		them as part of the investigation?
3	А	Yeah. Well, I would have known that because I did
4		read both the preliminary hearing and the trial
<i>05:3</i> 2 5		transcript. I don't recall it specifically today.
6	Q	But like most of us, it's gone from your mind,
7		even those of us who have read it more recently.
8		Sir, with respect to the file itself, you
9		indicated in your direct examination to or
<i>05:3</i> 2 10		actually, before I go there, did you review the
11		address to the jury that Mr. Caldwell did at the
12		conclusion of the case prior to the judge
13		instructing them?
14	А	Yes. I believe those came to us in Ottawa. They
<i>05:3</i> 2 15		had not been reproduced as part of the original
16		record, but the notes were around and they were
17		able to find someone who could interpret the court
18		stenographer's notes and they were produced.
19	Q	And Mr. Wolch in particular has referenced you to
05:33 20		the theory of the Crown that he described as, and
21		I'm not paraphrasing, I'm summarizing, but
22		basically he described them as needing the
23		evidence to place Gail Miller going down Avenue N?
24	А	Yes.
<i>0</i> 5:33 25	Q	Do you recall that in fact in the address to the

	2		Avenue O and Avenue N and that both theories, in
	3		terms of her passage of travel, were put to the
	4		jury as part of the instructions that the judge
05:33	5		gave them?
	6	А	Well, again, I don't recall that specifically, but
	7		if that's what's in those notes, I would have read
	8		it at the time, yes.
	9	Q	Okay.
05:33	10		COMMISSIONER MacCALLUM: You are speaking
	11		about what the judge told the jury though?
	12		MS. KNOX: Yes, and Mr. Caldwell as well,
	13		if I'm recalling correctly, referred to both
	14		Avenue N and Avenue O as possibilities.
05:33	15		COMMISSIONER MacCALLUM: Yes.
	16	BY N	AS. KNOX:
	17	Q	But that certainly the jury was given instruction
	18		and direction with respect to either of the routes
	19		as being a possible route of travel for her. Do
05:33	20		you recall that?
	21	A	Well, again, I don't specifically recall it, but
	22		that could be why it didn't particularly concern
	23		me, that it might have been Avenue O as opposed to
	24		Avenue N.
05:34	25	Q	And not by any means to have this question taken

	2		was done by the prosecution office and yourself

	4		your attendance at Supreme Court of Canada, but
05:34	5		did you or he to the best of your memory actually
	6		sit down and do a page-by-page comparison of the
	7		materials that were in Mr. Caldwell's prosecution
	8		file with the materials that were in what was
	9		described as the Saskatoon City Police Gail Miller
05:34	10		murder investigation file?
	11	А	Well, not page by page, but I do recall it was our
	12		view that there was really nothing left out of the
	13		prosecutor's file that, from the police that was
	14		of any real significance.
05:35	15	Q	Okay. Do you realize that what was not in the
	16		prosecution file as an example, that has been
	17		referenced here as having some significance, is
	18		the police report, the investigation report that
	19		contained the content of the interview, I believe
05:35	20		it was with Mr. Merriman, that in his file there
	21		was a paragraph in the police report about one of
	22		the Merrimans, I believe Mrs. Merriman, but that
	23		in fact he didn't have the Mr. Merriman interview
	24		in his police file as we look at it?
05:35	25	А	I don't recall that. My recollection of the

<i>05:35</i> 15		but again, my recollection is that Eric and I
16		looked at them and didn't think there was anything
17		significant that the police left out.
18	Q	Okay. And again to come back to your original
19		response, you were satisfied that he had complied
05:36 20		with the disclosure rules of the day as they
21		existed in 1969?
22	А	Oh, yes, absolutely.
23	Q	Okay. Now, sir, with respect to a document that

2		cross-examination of you and to a lesser degree
3		Mr. Wolch, but what has been referred to as the
4		Ray Mackie document, that five page document?
<i>05:36</i> 5	А	Yes.
6	Q	You testified in response to a question from Mr.
7		Hodson some days ago that you believed that that
8		came from Mr. Caldwell's file?
9	А	That's my recollection, yes.
<i>05:3</i> 6 10	Q	Okay. Sir, at what point in time specifically, if
11		you can, were you actually assigned to become
12		involved in the file and did you take physical
13		possession of what we have as approximately six
14		volumes that were Mr. Caldwell's prosecution file?
<i>05</i> :37 15	А	Well, I was assigned in 1990 to look at the head
16		office file which was essentially the trial
17		transcript and the Supreme Court, or the Court of
18		Appeal materials. We didn't look, we didn't get
19		Bobs Caldwell's file I think until shortly before
05:37 20		the reference was called. We knew it was coming
21		and we knew we were going to have to go into that.
22	Q	Okay. So at that point in time when you say you
23		didn't get it, do you mean that it hadn't made its
24		way out of Saskatoon into Regina?
<i>05:3</i> 7 25	А	We hadn't called for it and it hadn't been sent

2 Q So it had stayed in the office here in Saskatoon?
3 A That's correct.

4 Now, the evidence on the record reveals that a 0 5 number of people had gone through that file in 05:37 1983 -- well, in 1981, perhaps Mr. Young, although 6 7 he and Mr. Caldwell have a differing recollection 8 of whether he actually went and looked at the 9 file, Mr. Carlyle-Gordge went through it in 1983, 05:38 10 the evidence is that a researcher with CBC, Sandra Bartlett, looked at it and had access to it in 11 12 1988, Mr. Caldwell went through it a couple of 13 times at the request of Mr. Williams, Mr. Williams 14 went through it, Sergeant Pearson may, I'm not 15 sure, have had some access to it, but that there 05:38 16 was a path of people who had access to the file 17 between 1983 and the time when it would have 18 gotten to your hands?

19AWell, yes, I knew some people had gone through it.05:3820I wasn't aware that Mr. Young or Carlyle-Gordge21had been through it.

22QOkay. Now, sir, do you know whether any steps23were taken after the major focus of attention24became a public issue in about 1988 after the05:3825first application was filed to ensure that the

	1		contents of that file, as they existed up to that
	2		point in time, were kept intact?
	3	А	No, I'm not aware of any special steps that were
	4		taken, no. I can't say that I'm aware of anybody
05:39	5		doing anything.
	6	Q	Okay. Would it be fair to say that once the
	7		Section 690 application was generated, that some
	8		of the information that was sought, or information
	9		was sought both from Saskatoon City Police files
05:39	10		and the prosecution's files?
	11	А	That's my recollection, yes.
	12	Q	Okay, sir, and it's more a matter of argument
	13		subsequently, but is there any way that you can
	14		say with any degree of certainty that that
05:39	15		document, that script document was, that came to
	16		your attention was part of Mr. Caldwell's file
	17		when he did the prosecution of this matter in
	18		1969?
	19	А	I have no idea.
05:39	20	Q	Okay.
	21	А	I can't say that.
	22	Q	And you I believe reviewed various copies of it at
	23		the request of Mr. Wolch when he sent a copy to
	24		you that somehow and I assume through Mr. Asper
05:40	25		in fact had been obtained from the file, you

	1		sent copies of it to the Saskatoon Police Service
	2		to have them attempt to get a source and
	3		authorship of it. In the various versions of that
	4		document that you've seen, that you've examined
05:40	5		and you've worked with, did you ever see any
	6		marking or anything on any copy of it to indicate
	7		that my client, Mr. Caldwell, at any point in time
	8		had ever had contact with it during the course of
	9		his preparation for trial?
05:40	10		COMMISSIONER MacCALLUM: Contact with whom?
	11		MS. KNOX: With the document.
	12		COMMISSIONER MacCALLUM: With the Mackie
	13		summary?
	14		MS. KNOX: Yes.
05:40	15	А	I don't remember anything, no. I know that for
	16		most of the time he was with the department Bobs
	17		Caldwell wrote in an horrible peacock blue ink.
	18	BY MS	S. KNOX:
	19	Q	We've seen it.
05:40	20	А	And it tended to leap out at you wherever it was
	21		and there was nothing on the file like that.
	22	Q	He also had a fairly, once you look at it, he has
	23		a fairly distinctive and persistent kind of
	24		handwriting too, doesn't he, and lots of the
05:41	25		documents in his file had marks, notes, underlying

that"?

4 Α Yes. 5 And nothing in any copy that you came 05:41 Q Okay. across would indicate him having physically done 6 7 anything to it or had contact with it? 8 Α No. 9 So your evidence that you believe it came from his 0 05:41 10 file when you took possession of it would at best 11 be a guess, but you have no independent evidence 12 to suggest that in fact it was on his file and if 13 there are indications, including his memory, that he had never seen it, there's nothing you can 14 05:41 15 offer to concretely contradict that is there? 16 Well, that's correct. The only reason I think it Α 17 came off his file is because I believe we provided 18 a copy of that to Mr. Wolch and Mr. Asper when 19 they came to review the file at our office in 05:41 20 Regina and I don't believe we had the police file 21 at that point, so my only source would have been 22 his file. 23 0 Okay. 24 Α That's the best recollection I have now. 05:42 25 But you don't know who would have done anything to Q Meyer CompuCourt Reporting = Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980 Central Booking - Call Irene @ 1-800-667-6777 or go to www.compucourt.tv

05:42	5	Q	Okay. Did anybody else within headquarters review
	6		the file before it came to you or were you
	7		physically there when it was unpackaged, looked at
	8		and sorted through?
	9	А	My recollection is it was boxed up and sent to my
05:42	10		attention and I'm the one that opened it up.
	11	Q	Okay, thank you. Now, sir, just a couple of other

05:42	15		media that was I correct in understanding that
	16		you had attended a conference in Winnipeg last
	17		year, the Unlocking Innocence conference, where
	18		Dan Lett was a speaker?
	19	А	That's correct, yes.
05:43	20	Q	And I take it you were at the presentation where
	21		Mr. Lett spoke and where Mr. Asper spoke, and in
	22		fact I've had the excerpt of Mr. Asper's
	23		presentation played in these proceedings.
	24	А	Yes.

	3		the efforts to get David Milgaard released from
	4		custody and without the media they wouldn't have
05:43	5		succeeded?
	6	А	Yes.
	7	Q	And you would have heard him make the statement,
	8		as we heard when we played the tape here, that he
	9		could go on record as stating that none of the
05:43	10		stories that had gone in the media had been shown
	11		to be incorrect?
	12	А	I believe I recall him making that statement.
	13	Q	Okay. Sir, do you also, and you've been
	14		referenced to a story that was done, and I'll just
05:44	15		pick this particular one because it was a
	16		particularly directed one towards my client, but
	17		there was that media story in July, I believe, of
	18		1990, where the allegation was that Mr. Caldwell
	19		had not disclosed the original March 2nd, 1969
05:44	20		statement that Ron Wilson had given to the RCMP.
:	21		Do you remember that statement?
:	22	А	Oh, yes, yes.

	2	А	I'm now aware of that, now that I've seen the
	3		prosecutor's file.
	4	Q	Sir, you made the statement last week, I in
05:45	5		commenting on the role of the media, that as the
	6		services of the media become circumscribed there
	7		are less people doing the job, and they find
	8		themselves in positions that they end up having to
	9		take, very quickly digest, and often just put out
05:46	10		what's passed to them by people, and you referred
	11		to yourself and Mr. Wolch as people who inform the
	12		media?
	13	А	Yes.
	14	Q	Sir, did you know or have you come to know that in
05:46	15		fact, when that story was written in July 1990,
	16		Dan Lett had transcripts of the preliminary
	17		inquiry and the trial of David Milgaard?
	18	А	No, I didn't know that.
	19	Q	Okay. Did you know that, indeed, Mrs. Milgaard
05:46	20		had a copy of the March 2nd statement of Ron
	21		Wilson, that she'd had it since 1981?
	22	А	No, I didn't know that.

Page 38568 1 2nd statement, referred him to parts of it, and 2 assured him that she had a copy of it. 3 No, I know none of that. Α 4 Okay, didn't know any of that. Sir, did you know 0 5 that, after the story was written, Mrs. Milgaard 05:47 phoned Dan Lett and told him that when she read 6 7 that story in the paper she nearly freaked because 8 the story was wrong? 9 Α No, I wasn't aware of that. 05:47 10 Did you know that Mrs. Milgaard shared with Mr. 0 11 Asper the very day after that story, July 18th, 12 that they'd made a mistake when he gave that 13 information or when that story went in the paper, 14 that indeed Mr. Tallis had had that story? 05:47 15 No, I didn't know that. Α 16 Did you know as a result -- well, I'll start by Q 17 asking -- did you read the examination or cross-examination of Mrs. Milgaard at this 18 19 Inquiry? 05:47 20 No, I -- all I've heard or know about it is the Α 21 summaries that Ms. Krogan sends, sends to the 22 department every day. I haven't specifically read 23 her evidence, I've trying -- been trying to avoid 24 reading specific evidence before I gave evidence. 05:47 25 I take it, Mr. Brown, then, that you didn't know, Q

I

1		and perhaps will now come to know, that after
2		Mrs. Milgaard contacted Dan Lett and David Asper
3		and told them that the story was a mistake, that
4		she then proceeded to make multiple contacts with
<i>05:4</i> 8 5		other media outlets and not disclose to them that
6		the story was a mistake, but to encourage them in
7		the belief that what Mr. Caldwell had done was
8		terrible, that indeed he hadn't disclosed that
9		March 2nd statement?
<i>05:48</i> 10	А	I wasn't aware of that, no.
11	Q	Did you know that we have a transcript of a
12		conversation between Mrs. Milgaard and Reverend
13		McCloskey, who subsequently authored that report
14		of Centurion Ministries, where she lied to him and
<i>05:4</i> 8 15		told him that the statement hadn't been disclosed?
16	А	No, I wasn't aware of that.
17	Q	Okay. Did you hear any such information as that
18		at that conference that you attended where Dan
19		Lett was present and where the statement was made
05:48 20		none of their stories were wrong?
21	А	No, I don't recall anyone bringing that up.
22	Q	Did you ever read in the paper, either under the
23		authorship of Dan Lett or anyone, that in fact
24		that story was wrong the day after or the days
<i>05:4</i> 8 25		after that misrepresentation had happened and my

1		client had been accused of misconduct?
2	А	No, it was left out there.
3	Q	And with the exception of the evidence at this
4		Inquiry for those who choose to read it, what
<i>05:4</i> 9 5		little may have been afforded the attention of
6		that in press, and what I have just told you, had
7		you any knowledge that that in fact was the true
8		state of affairs?
9	А	No, I wasn't aware of that.
<i>05:4</i> 9 10	Q	Mr. Brown, would you agree with me that with the
11		limited resources that the media has, when they
12		find out that they have made mistakes where the
13		mistakes have been because they just didn't bother
14		to do the work, as in the case of Mr. Lett, he had
<i>05:4</i> 9 15		the material, that at the very least we could
16		expect from them is that there might be a
17		correction on the record?
18	А	Well, it was a fairly substantial allegation of
19		wrongdoing leveled against a prosecutor, one would
05:49 20		assume that if you're you know, trash
21		somebody's reputation in error, you might want to
22		retract, but
23	Q	Mr. Brown, I just have two other areas to touch
24		with you, and these will seem slightly off topic
<i>o</i> 5:50 25		to you if you haven't been following the details.
		Meyer CompuCourt Reporting

	1	But when the prosecution file was returned, or
	2	turned over to the RCMP for project Flicker, and
	3	ultimately when it was turned over to the
	4	Commission as part of the preparation for these
05:50	5	hearings, there was a file contained in the box of
	6	the prosecutor's office that had a label on it
	7	Meeting File that some have concluded was part of
	8	Mr. Caldwell's file. He has indicated that he had
	9	no such file and, with the permission of the
05:50	10	Commissioner, I would like to approach you with
	11	two files that have writing on them just to ask
	12	whether you can identify for us whether these are
	13	files that you set up as subcategories of the
	14	prosecution file and which didn't get reassembled
05:50	15	back into their original form?
	16	COMMISSIONER MacCALLUM: What was the label
	17	on that again?
	18	BY MS. KNOX:
	19	<b>Q</b> The first one I refer to is one that has a
05:51	20	handwritten label in large blue ink Meeting,
	21	M-E-E-T-I-N-G, <i>File</i> . The number on the file
	22	jacket, the Commission number is 331785, and
	23	contained in it are some various statements that
	24	have witness statements, like Ms. Nichol John,
05:51	25	that have the original handwriting of my client in
		Meyer CompuCourt Reporting

		——————————————————————————————————————
1		that awful ink that Mr. Brown refers to, and
2		perhaps if we could pass it to him and ask him to
3		have a quick review?
4	А	Yeah, that's my writing.
<i>05:51</i> 5	Q	Okay. And it
6	А	This was just a file cover that we were reusing.
7	Q	So Ms. Krogan was right, that you recycle file
8		covers, because we tracked that one, if you look
9		at the name on the back of it, to a Court of
<i>05:51</i> 10		Appeal matter in 1983?
11	А	Yeah, absolutely.
12	Q	So Mr. Caldwell's recollection that that wasn't a
13		file he set up is correct?
14	А	That's correct.
<i>05:51</i> 15	Q	Mr. Caldwell also testified that the first time he
16		has a memory of seeing the Mackie summary, the
17		script document, was when he went down to the
18		courthouse with Sergeant Pearson while you were in
19		Supreme Court of Canada, and he found a file
05:52 20		folder that had a label on it and I may not
21		have this exactly right, yeah, I do have it, I
22		have it in front of me Milgaard witnesses -
23		Roberts, Art - polygraph. And I'm going to pass
24		you another file folder that doesn't appear to
<i>05:5</i> 2 25		have a number on it, but again it has handwriting
		Meyer CompuCourt Reporting

	Ĩ		
	1		on it and a label that he says is not his, and
	2		that it was in this file in the prosecution office
	3		in Regina at the courthouse that he found the
	4		script document for the first time in 1992; is
05:52	5		that your handwriting?
	6	А	That's my handwriting too, yes.
	7	Q	So, again, this was a file that was set up by you
	8		in preparation for the Supreme Court of Canada?
	9	A	Well, subject to the fact that when we got the
05:52	10		file back from the RCMP they had done some
	11		resorting, so I don't know whether what's in there
	12		is what I originally put in.
	13	Q	No, and I'm not
	14	А	But I'm going to tell you that's my file cover.
05:53	15	Q	I'm not suggesting, indeed, that the contents of
	16		what was your file, because the one I passed you
	17		that says Art Roberts no longer has the script
	18		document in it, so there have been changes. But
	19		Mr. Caldwell's evidence was that he didn't
05:53	20		recognize these file jackets, that they weren't
	21		part of his file, and it's your evidence that in
	22		fact these are part of your preparation for the
	23		Supreme Court of Canada?
	24	A	That's correct.
05:53	25	Q	And I take it, given that you were setting up file
			Meyer CompuCourt Reporting Certified Professional Court Reporters serving P.A., Regina & Saskatoon since 1980

1		folders, that there was some reassembling or, as I
2		have a tendency to do, you sort your categories of
3		witnesses into file jackets. So what the RCMP
4		received in project Flicker, and what we received,
<i>0</i> 5:53 5		wouldn't necessarily be Mr. Caldwell's file as he
6		had prepared it and put it together?
7	А	Oh, yes, by the time we got to the Supreme Court
8		of Canada everything was shuffled around. I think
9		what we were trying to do was basically gather all
<i>05:53</i> 10		the statements for a particular witness, and put
11		them all into one file, as opposed to digging them
12		out of different files.
13	Q	Okay. Sir, just a quick question, I meant to get
14		an excerpt of tape and I didn't, but you were
<i>05:54</i> 15		asked some questions by Mr. Wolch about the
16		significance or whether certain actions that
17		happened in 1970, 1971 with respect to Fisher,
18		might have been of a questionable nature, I
19		that it might have been indications of some
05:54 20		malfeasance on the part of people. And one of the
21		topics that continually comes up in assessing what
22		happened with Fisher, the fact that the charges
23		were, or the pleas were done in Regina, is that
24		there was no media coverage. Do you have any
<i>05:54</i> 25		memory of to what degree the media covered
		Meyer CompuCourt Reporting

I

	1		anything to do with offences involving women in
	2		1970, '69, '71, as compared to how things changed
	3		in the mid-'80s after the Criminal Code was
	4		amended, sexual assault offences were introduced,
05:55	5		and there was a general whole sociological
	6		movement towards the recognition of the rights of
	7		women as victims of crime?
	8	А	Well certainly one of the things that changed with
	9		respect to dealing with sexual assaults in the
05:55	10		late '80s-early '90s, was the way we treated
	11		witnesses, the way we treated complainants.
	12	Q	Uh-huh?
	13	А	It became clear that it was our responsibility, as
	14		the prosecutors, to make sure that there was
05:55	15		communication with them, that they knew what was
	16		happening on the file, that they were always
	17		informed of the results. Prior to that, and even
	18		when I was prosecuting, I know I did some sexual
	19		assault cases and I never told the victims what
05:55	20		happened. I told the police, I mean I we
	21		always were supposed to send the police a note
	22		with respect to the what finally happens on a
	23		case, and if they were going to deal with the
	24		complainants, then they would do it.
05:56	25	Q	Okay.
			Meyer CompuCourt Reporting

Page 38576

1	А	We didn't. Now certainly, in terms of the news
2		media and whether they became more sensitive to
3		it, umm, they did. But you have to understand
4		that throughout the '80s, as well, you saw the
<i>05:5</i> 6 5		erosion of news services or the numbers of people
6		they employed steadily through the '80s and the
7		'90s to the point where most of them, now, are
8		really not in a position to cover much news.
9		Certainly the radio stations these days, they get
<i>05:5</i> 6 10		their news almost exclusively by phoning you and
11		asking you what's happened, they never attend
12		Court.
13	Q	Yeah. To go
14	А	Go ahead?
<i>05:5</i> 6 15	Q	No, sorry, you can continue, I didn't mean to
16		interrupt?
17	А	And even back then attendance in Court was, I
18		think the newspaper in Regina had one reporter
19		that was sort of reliably at Provincial Court, but
05:57 20		that was it, the others were basically hit and
21		miss.
22	Q	Okay. Sir, to step up onto my feminist soap box
23		for a minute, the reality is in '68, '69, '70,
24		'71, into the early '80s, that the place of women
<i>05:57</i> 25		in the criminal justice system didn't rank very
		Meyer CompuCourt Reporting

Page 38577 1 highly; did it? 2 Α Well, women or anyone else, they were just 3 witnesses. 4 Yeah. 0 5 I mean, when we were done with them, we were done Α with them. 6 7 And we didn't necessarily check to make sure they Q 8 were okay, or they knew what had gone on, or to 9 even give a passing thought to how it might affect 05:57 10 them if they didn't find out what had happened in a crime that they'd been a victim in? 11 12 Α That's correct. 13 0 Thank you. I have no further questions. 14 MR. HODSON: It's almost 6:00, Mr. 05:58 15 Commissioner. I believe Ms. Cox, for Federal 16 Justice, has about 45 minutes, and Ms. Krogan to 17 follow. Did I miss anybody? 18 COMMISSIONER MacCALLUM: Thank you very 19 much, Mr. Hodson, and thanks very much, counsel, 05:58 20 for staying. 21 (Adjourned at 5:58 p.m.) 22 23 24
