(2) Except as provided by section 18, any land held under lease from the Crown does not come under the operation of this Act.
(3) Unless withdrawn from the operation of this Act in accordance with the provisions of section 19, 20 or 21 the lands that come under the operation of this Act are:

(a) lands under the operation of *The Municipal Hail Insurance Act* that was in force immediately prior to the coming into force of this Act; and

(4) Where the board accepts an application under this section the land shall be brought under the operation of this Act.

**Power to withdraw land from operation of Act**

19(1) Subject to section 20, an owner of land within a municipality may, prior to the first day of April in any year, by written notice to the secretary of the association, withdraw all his land, but not part thereof, from the operation of this Act; and land acquired by any such owner after the withdrawal has been approved under section 20 shall be deemed to be withdrawn from the operation of this Act.

(2) Notwithstanding subsection (1), an owner of land within a municipality may, prior to the first day of April in any year, by written notice to the secretary of the association, withdraw from the operation of this Act one or more quarter sections of land in respect of which he is liable to assessment under this Act, upon satisfying the association and the council that the land is used for grazing and hay purposes only.

(3) Where an application for withdrawal is made by an owner of land engaged in the operation of an industrial plant, in respect of which taxes are paid by him, the association may, if it deems fit, exempt from the operation of this Act the land upon which the plant is situated.

Consideration of withdrawals

20(1) The secretary of the association shall, immediately after the first day of April in each year, transmit to the administrator of each municipality a list of all notices of withdrawal affecting land in the municipality that have not previously been considered by the council together with particulars thereof; and the council shall, during the months of April and May, consider each notice and, if satisfied that the lands specified therein may properly be withdrawn under section 19, approve the withdrawal.

(2) The administrator shall, forthwith after the council has considered the notices referred to in the list mentioned in subsection (1), prepare and forward to the association a detailed statement, verified by statutory declaration, of all the lands the withdrawal of which has not been approved by the council.

(3) Every withdrawal is subject to review at any time by the board, and if the board decides that a withdrawal is improperly made, or that a withdrawal does not at the time of review comply with section 19, or that a person withdrawing land is not then the owner, it may order that the withdrawal be cancelled and that the rate or rates be levied against the land; and, upon receipt by the administrator of a notice from the board to that effect, the administrator shall cancel the withdrawal in his records and assess the land described in the notice for all hail insurance rates as provided by sections 17 and 23.

(4) The board may order the addition of other land to that specified in a withdrawal, and where it does so the land added as well as the land specified in the withdrawal shall be relieved from assessment under this Act.

(5) Subject to subsection (3), land withdrawn from the operation of this Act shall, notwithstanding a change in ownership after the withdrawal, remain withdrawn until the board orders, pursuant to section 22, that the land is again under the operation of this Act; and while the land is withdrawn it shall be exempt from the rates levied under this Act.

(2) A copy of an order made under subsection (1) shall be mailed forthwith by the secretary of the association to the owner of the land withdrawn by the order and to the administrator of the municipality in which the land is situated.

Application to have withdrawn land again brought under Act

22(1) An owner of land that is withdrawn from the operation of this Act may apply in writing to the secretary of the association to have the land again brought under the operation of this Act.
(2) The board may in its discretion accept or refuse an application under subsection (1) or accept an application subject to such reasonable terms and conditions as the board may impose.

(3) Where the board accepts an application made under subsection (1) the land shall again be under the operation of this Act, and, upon receipt by the administrator of a notice from the board to that effect, the administrator shall cancel the withdrawal in his records and assess the land described in the notice for all hail insurance rates as provided by sections 17 and 23.

(2) In fixing the rate or rates the board may make provision for the creation of a reserve fund.

R.S.S. 1978, c.M-29, s.23.

Report by persons liable to assessment

24(1) Every person liable to assessment under this Act shall, on or before the fifteenth day of June in each year make a report to the administrator of the municipality, in a form prescribed by the association, giving a legal description of the land in the municipality in respect of which he is assessable, together with the number of acres actually under crop or intended to be put under crop in the current year; and he is, for the purposes of assessment for the basic amount of indemnity fixed by the board under subsection (1) of section 35 and in case of loss by hail, bound by the statements contained in the report.

(2) Notwithstanding subsection (1), the administrator of the municipality may accept a report from any person acting on behalf of the person liable to assessment or from the tenant or occupant of the land or from any person having an interest in the crop thereon and such a report when made has the same force and effect as if made by the person liable to assessment.

(3) A person liable to assessment under this Act may, on or before a date fixed by the board, make a written request to the board for the additional amount of indemnity fixed under subsection (2) of section 35 in respect of all or part of the land described in the report made pursuant to subsection (1) or (2).

(4) Where a person liable to assessment fails to make such a report in accordance with subsection (1), and no report is made by a person entitled under subsection (2) to make the report, the administrator, or such other official as the council may appoint, shall certify to the best of his knowledge and belief the name of the owner, the legal description of the land and the number of acres cropped; and in such case the owner is bound by the facts so certified; and the crop acreage in respect of which he is insured shall be the crop acreage so certified.
Where a person liable to assessment fails to make the report required by subsection (1), and no report is made by a person entitled under subsection (2) to make the report, and a certificate is obtained pursuant to subsection (4), that person is liable to a penalty of $20 or any lesser amount that may be fixed by the board for every quarter section in respect of which such a certificate is obtained; and the penalty shall be a charge upon the land, shall be added to the rates and shall be collected and recoverable in the same manner as the rates are collected and recoverable under section 26.

Where a person liable to assessment fails to make the report required by subsection (1) and no report is made by a person entitled under subsection (2) to make the report, or if such report is made concurrently with or after the occurrence of loss through damage by hail to crops described in the report, and if, in either case, the certificate required by subsection (4) has not been obtained or is made concurrently with or after the occurrence of loss through damage by hail to crops described in the certificate, the board may in its discretion pay the whole or a part of any loss sustained through damage to such crops by hail but is not obliged to do so.

The board may pay such remuneration for services rendered under this section as it deems fair and equitable to the administrator or to any official appointed under subsection (4).

Exemption of crops

A person liable to assessment pursuant to this Act, by providing written notice to the board on or before April 30 in any year, may exempt the crop or crops mentioned in the notice from assessment.

The exemption mentioned in subsection (1) continues to apply until the person mentioned in that subsection provides written notice to the board in the report required pursuant to subsection 24(1) that he or she intends to have the crop or crops brought under the operation of the Act.

Crops destroyed otherwise than by hail

Where a crop insured under this Act is destroyed in any other manner than by hail, the owner of the land on which the crop was grown may, by sending, by registered mail, a notice addressed to the secretary of the association at his office in Regina not later than the thirty-first day of July, giving the location of the crop and furnishing proof satisfactory to the board of the destruction, cancel the insurance on the crop and thereupon he shall be entitled to a proportionate rebate in respect of the annual rate or rates, as provided in the bylaw of the association; but no rebate shall be granted for any portion of the crop that in the opinion of the board is worth harvesting.

(i) on the day that they are received; or

(ii) as soon as possible after the day that they are received.

(2) The council of a municipality may pay to the association the total amount of the rates levied under this Act, less the discounts provided for by subsection (2) of section 26 and the remuneration allowed pursuant to section 31; and any rates so paid that have not been collected by the municipality shall be added to and become part of municipal taxes owing to the municipality and in respect of those rates subsection (1) shall not apply.
