Administration of reciprocal transfer agreements

16(1) In this section, “reciprocal transfer agreement” means an agreement entered into by the commission pursuant to section 13.

(2) For the purposes of the Act, contributory service and eligibility service of a teacher who becomes entitled to an allowance pursuant to the Act as a result of a transfer under a reciprocal transfer agreement must be calculated in accordance with this section.

(3) If a teacher becomes entitled to an allowance pursuant to the Act as a result of a transfer under a reciprocal transfer agreement between the commission and the administrator of a defined contribution pension plan:

(a) the eligibility service of the teacher for the purposes of the Act must be calculated as the period with respect to which the teacher made contributions to the defined contribution plan from which the transfer is being made;

(b) if the teacher had an amount standing to his or her credit in the defined contribution plan as a result of a prior transfer of contributions to that plan, the eligibility service of the teacher for the purposes of the Act must include any period that would have been counted as eligibility service had the prior transfer been made pursuant to a reciprocal transfer agreement with the commission;

(c) subject to clause (d) and subsections (5) and (6), the amount of contributory service for the purposes of the Act must be calculated as the period of contributory service to which the teacher would have been entitled pursuant to the Act if the teacher had made contributions pursuant to the Act for the period during which the teacher made contributions to the defined contribution plan; and

(d) if the teacher is required to make a contribution in order for a period of service to be counted as contributory service, only the service for which a contribution has been made will be counted.

(4) If a teacher becomes entitled to an allowance pursuant to the Act as a result of a transfer under a reciprocal transfer agreement between the commission and the administrator of a defined benefit pension plan:

(a) the eligibility service of the teacher for the purposes of the Act must be calculated as the period of service with respect to which the teacher made or is deemed to have made contributions to the defined benefit pension plan from which the transfer is being made;

(b) if the reciprocal transfer agreement provides for the calculation of contributory service on the basis of the amount of money transferred pursuant to the agreement, the contributory service to be counted for the purposes of the Act is the amount calculated pursuant to the reciprocal transfer agreement;

(c) subject to clause (d) and subsections (5) and (6), if the reciprocal transfer agreement provides for the calculation of contributory service for the purposes of the Act on the basis of the amount of service with respect to which contributions were made to the plan from which the transfer is made, the contributory service to be counted for the purposes of the Act is the amount of service recorded by the administrator of the plan from which the transfer was made; and

(d) if the teacher is required to make a contribution in order for a period of service to be counted as contributory service, only the service for which a contribution has been made will be counted.
(5) If the entitlement of a teacher to an allowance has been divided as a result of a division of the teacher's family property before the teacher becomes entitled to an allowance pursuant to the Act as a result of a transfer under a reciprocal transfer agreement, the amount of contributory service that is to be counted for the purposes of the Act with respect to the period of service before the effective date of the division must be calculated in accordance with the following formula:

\[ CS = PTS \times P \]

where:

- \( CS \) is the amount of contributory service to be counted for the purposes of the Act;
- \( PTS \) is the amount of service that would have been counted as contributory service pursuant to the plan from which the transfer was made had there not been a division; and
- \( P \) is the proportion, expressed as a percentage, by which the entitlement of the teacher with respect to the period of service before the effective date of the division was reduced in accordance with the family property division.

(6) If the amount of contributory service of a teacher has been reduced by reason of a division of the teacher's family property before the teacher becomes entitled to an allowance pursuant to the Act as a result of a transfer under a reciprocal transfer agreement, no part of the amount of service by which the teacher's contributory service was reduced:

(a) may be counted as contributory service for the purposes of the Act; or
(b) may be purchased as contributory service pursuant to the Act.
