Statement from the Minister

*The Honourable
Paul Merriman*

Minister of Social Services

I am pleased to present the Ministry of Social Services' Plan for 2018-19.

Government Direction and Budget for 2018-19 is focused on keeping Saskatchewan On Track by controlling spending, delivering high quality services for Saskatchewan people, keeping our economy strong, and returning to balance in 2019-20.

Social Services works with a diverse range of partners to build safe, dynamic communities that promote inclusion and enhance the quality of life for our province's most vulnerable people.

This is a challenging time for the Ministry, but with challenge also comes the opportunity to review where we can improve services and find efficiencies. As caseloads continue to increase in some areas, we are continuing to focus on improving outcomes for people in need.

In 2018-19, we will continue our work on income assistance redesign – reviewing the complicated and challenging system that has evolved over the last 50 years and finding ways to strengthen and simplify it, making it easier for clients to navigate and access supports for their basic needs.

We will continue our commitment to the renewal of the child welfare system with our First Nations and Métis partners, including a focus on prevention so more children can remain safely with their families.

Our plan for 2018-19 includes many more initiatives that will help make life better for Saskatchewan's people.

The Ministry will report on progress made toward this plan, within the financial parameters provided, in the 2018-19 Annual Report.

Response to Government Direction

The Government of Saskatchewan is committed to keeping the province On Track through prudent fiscal management. We will succeed by spending wisely, supporting economic growth, and ensuring services are sustainable.

This focus will continue to advance Government toward the realization of Saskatchewan's Vision and goals.

Saskatchewan's Vision

".. to be the best place in Canada – to live, to work, to start a business, to get an education, to raise a family and to build a life."

Sustaining growth
and opportunities for
Saskatchewan people

Meeting the challenges
of growth

Securing a better quality
of life for all
Saskatchewan people

Delivering responsive
and responsible
government

Saskatchewan's Vision and goals provide the framework for ministries, agencies and partners to align their programs and services and meet the needs of Saskatchewan's residents.

All ministries and agencies will report on progress in their 2018-19 annual reports.

Highlights

The Government of Saskatchewan will continue its commitment to support those in greatest need in our province. Programs and services for the most vulnerable citizens in Saskatchewan, including individuals, children and families in need of social supports, will continue to be available. Highlights of the Ministry's budget include:

Disability Supports

The Ministry continues to support individuals experiencing disabilities, including residents of Valley View Centre who are transitioning to community-based services. The 2018-19 budget includes an increase of \$9.9 million to help Valley View residents successfully transition into new homes in communities around the province.

Some individuals currently receiving services from the Ministry will require enhanced services in 2018-19. An increase of \$9 million will provide services for children aging into adult care as well as for adults who are in crisis or whose needs have changed.

A funding lift of \$6.9 million will be provided to Social Services community-based organizations that deliver critical residential and direct daily care to adults with intellectual disabilities and \$1.3 million will be provided for Approved Private Service Homes that provide residential supports for adults with intellectual disabilities and individuals with a Mental Health disability.

Income Assistance

In 2018-19, the Saskatchewan Assistance Program (SAP) budget will increase by \$14.2 million, to \$178.3 million, due to caseload growth. About 15,000 households each month receive SAP benefits to help them meet their basic needs. Programs such as the Seniors Income Plan, Saskatchewan Employment Supplement and the Personal Care Home Benefit have budget reductions in 2018-19 based on the projected need for these programs. A reduction in the Saskatchewan Rental Housing Supplement budget is planned as the program will suspend the intake of new applications as of July 1, 2018.

A further investment of \$9.2 million will support continued efforts to redesign the province's suite of income assistance programs. The Ministry is working to simplify programs; increase the efficiency and effectiveness of service delivery; and establish a new IT platform to support income assistance programs.

Child and Family Programs

In 2018-19, the Ministry will continue working to keep children safe and families strong with investments in Child and Family Programs. Increased support in the coming year includes the following:

- ⇒ \$4.5 million to address increases in extended family care;
- ⇒ \$2.3 million for private treatment costs including costs for medically fragile children;
- ⇒ \$1.0 million for a funding lift for family based care arrangements such as foster care;
- ⇒ \$0.3 million to address utilization increases in Assisted Adoption and Youth Services programs;
- ⇒ \$1.2 million for a funding lift for Child and Family community-based organizations that deliver essential residential and intensive services to children in need of protection; and
- ⇒ \$3.1 million to assist with service delivery and operational costs.

Housing

The Ministry's 2018-19 budget continues the Province's commitment to provide better access to safe, quality and affordable housing for Saskatchewan people through the Saskatchewan Housing Corporation. With the release of the Government of Canada's National Housing Strategy in November 2017, the Province will be working to ensure support for vulnerable populations and to preserve social housing stock for future generations.

Through the Saskatchewan Housing Corporation, our continued investment supports programs such as Habitat for Humanity and the federal/provincial bilateral Investment in Affordable Housing Agreement and the Social Infrastructure Fund. The Agreement extends to 2019 and is to be used for new affordable housing supply, emergency home repairs and home adaptations for people with disabilities.
