

Saskatchewan High School Advanced Placement Courses

Advanced Placement (AP) is an international enrichment program that is open to all students. There is no limit to how many AP courses students can take. Once enrolled, students are encouraged to write the AP exam and potentially earn post-secondary credit.

The University of Saskatchewan and the University of Regina, along with most Canadian universities, grant credit to students earning a score of 4 or 5 in AP courses. For additional information on AP visit, <https://apcentral.collegeboard.org>.
