**12.5.7** The university reserves the right under special or unusual circumstances to appropriate parking lots or portions thereof to provide parking for special functions that are authorized by the university.

**Reassignment**

**12.5.8** Notwithstanding anything herein, vehicles assigned to any parking stall or lot may be reassigned to other parking stalls or lots if the former is required as a construction site or for other just reasons. Vehicles displaced will be assigned to other parking locations in accordance with Schedule A.

**Revisions**

**12.5.9** The parking terms and conditions may be revised from time to time by recommendation of the Parking Committee and the approval of the Board of Governors.

**12.6 SCHEDULE A – PRIORITY FOR ASSIGNMENT OF PARKING STALLS AND LOTS****Service vehicles**

**12.6.1** Notwithstanding anything herein set out, the university reserves the right to assign parking stalls for use by "service vehicles."

**Parking lot assignments**

**12.6.2** Parking shall be assigned in accordance with the following priorities:

- (a) persons with a disability;
- (b) the president, provosts, vice presidents, (vice provosts), university secretary, associate vice presidents and deans or Executive Directors of university colleges, schools and institutes;

(c) faculty and staff:

(i) faculty and staff will be assigned to available parking on the basis of years of service at the university;

For retired faculty and staff, the assignment of parking privileges will be at the discretion of Parking Services;

(ii) faculty and staff whose parking stall or lot is closed in accordance with section 12.5.8 or whose assigned work has been transferred to another zone of the campus may transfer to another location with equivalent facilities if available. When more than one member is transferred at the same time, priority for available parking will be given on the basis of years of service at the university. Those not receiving equivalent assignment at that time will be given top priority for reassignment;

(iii) parking for faculty and staff who are going on a leave of absence will have parking reassigned to them on their return. If they require their stall during their leave, they must request retaining the stall at the time of the leave. All parking privileges revert to Parking Services during leaves. Written notification prior to leave and prior to return are required by Parking Services. Should the lot or stall be taken out of service during the leave, the member will be given priority in obtaining an equivalent stall or lot as if not on leave and according to the years of service at the university.

**Parking lot assignment**

**12.6.3** Assignment for parking will be in accordance with the following priorities:

(a) students on the basis of an online student sale until the total lot capacity of designated student lots are reached;

(b) faculty and staff in reserved lots or stalls on the basis of years of service at the university. Except where otherwise arranged with Parking Services, all faculty and staff will use payroll deduction for payment of fees. Parking Services will automatically deduct the parking fee from the faculty or staff member until Parking Services is notified that the parking is no longer required;

(c) parking permits may be issued provided that all faculty and staff which have more seniority and have applied for a permit have been offered parking. Renewal of said permit is not automatic but rather must again meet the previously stated criteria.
